Background: Administrative requirements of many public clinic immunization programs frequently make immunizations less accessible to children. Although these restrictions are well meaning, public and private health providers widely agree that they have no valid medical basis and should be eliminated. These barriers include, among others: requirements of advance appointments and physical exams, physician referral, enrollment in well-baby clinics, multiple visits for all vaccinations due at the same time, use of false medical contra-indications to deny vaccination.

Legislative Proposal: Require the Secretary of the Department of Health and Human Service (HHS) to designate those standards which may be implemented in the public sector without reliance on additional resources by six months following enactment of this legislation, and require compliance with them, in all HHS-funded programs, within one-and-a-half years after enactment. Such programs conduct public-sector activities that operate immunization and social service programs and support private sector immunizations either through Medicaid reimbursement or receipt of vaccines from entities which purchased them through CDC grant funds. States which have received federal funds and used them to provide vaccines would be required to assure adherence to these standards by recipients. Require HHS to build on current audit procedures to assure compliance with these standards.

2. Increase funding authorization to implement the remaining standards that require more resources.

Legislative Proposal: Authorize such sums as necessary in FY 1993, 1994 and 1995 for the programs established under the Public Health Service Act to permit CDC to support the additional operational activities of public immunization sites, supported with CDC funds, needed to come into compliance with the CDC practice standards relating to infrastructure changes.

Section II—Utilize enrollment in, and interaction with, other federal public programs to increase immunizations.

Background: Studies have shown that about one-third of unvaccinated measles patients had one or more previous health service contacts—visits with providers that were missed opportunities for vaccination. Many inner-city preschool children are in regular contact with public assistance programs which see families each month. Yet state welfare enrollment, and periodic visits to welfare office by clients, do not incorporate screening of immunization status of children.

Legislative Proposal: Require HHS and the Department of Agriculture, in conjunction with appropriate groups, to develop questions about immunization status and medical history, and provide information on vaccine risks and benefits and where to obtain immunizations, for use by states in enrolling and recertifying individuals in the Aid to Families with Dependent Children (AFDC), Medicaid, and Women, Infants and Children (WIC) programs. Such questions should be incorporated into existing procedures and forms. These questions should be administered, and the information provided, also to recipients of services given in federally administered health and social services programs such as those funded by maternal and child health, prevention and Title XX social services block grants or rendered in community and migrant health centers. The questions and information will be developed for use within one year after enactment.

HHS will also develop referral procedures across federally-supported programs one year after enactment, and require states to develop such procedures for state-administered programs as well as a plan for transportation assistance to Medicaid-eligible children.

Section III—Assess and Improve Immunizations in Child Care Programs.

Background: States receive federal funds to assist child care programs under at least five different programs. Two of these assist current or former AFDC recipients who are in transition to employment ("welfare to work" and "at risk" programs) by providing payments vouchers or placements of their children in child care. Another supports child care through social services block grants under Title XX of the Social Security Act. A fourth assists food programs in child care and family day care centers that serve poor children, under the National School Lunch Act. The fifth supports child care centers, as well as group, in-home and family day care programs for poor children under the Child Care and Development Block Grant Act.

Legislative Proposal: Require states, as a condition of receiving funds under these programs, to mandate that recipients of the funds, including child and family day care centers, assess the up-to-date immunization status of all children they serve and provide information as described in Section II. This requirement will be effective six months after enactment.

Section IV—Increase Outreach and Access to Immunizations.

Background: Funding is needed to enable HHS to support innovative approaches to increasing access to immunizations.

1. In September 1991 HHS announced it had identified and would provide technical assistance to six local areas to develop plans that will improve access to immunizations. These plans have not been funded for complete implementation, however, and replication in other locations of any activities that succeed will not be possible without federal assistance.

2. In addition to the need for greater support of the immunization delivery system is the need for more widespread consumer educational materials to increase parental desire to have children immunized. Although existing coalitions, representing private organizations devoted to improving the nation's immunization levels, may succeed in gaining philanthropic and corporate funding to develop such materials, success will require use of government financial assistance, as well.

3. The Early and Periodic Screening Diagnosis and Treatment (EPSDT) program, established under Title XIX of the Social Security Act, requires state Medicaid agencies to ensure that the health status of Medicaid-eligible children is checked regularly. This program has not required states to track the immunization status of children, however, or to contact parents to urge them to have their children vaccinated.

Legislative Proposal: 1(a). Authorize a program of demonstration grants under the Public Health Service Act, totaling $20 million in FY 1993, $25 million in FY 1994, and $30 million in FY 1995, to be used by the six model communities in order to fully implement their plans. These plans include such activities as opening "express" lanes in clinics for vaccinations; providing vaccinations in hospital emergency rooms, in home visits, in day care/child care, Head Start and WIC centers, and in schools; and activating mobile vaccination teams. The results of these model plans will be distributed and used in planning activities in other areas that will improve access to immunizations.

1(b). Authorize $30 million in FY 1993, $40 million in FY 1994, $50 million in FY 1995, and such sums as may be needed thereafter, to permit CDC to assist local innovative programs designed to increase access to immunizations.

2. Authorize new funds under the Public Health Service act, such sums as necessary in FY 1993, to finance the development and distribution by HHS of consumer educational materials on childhood immunizations to a wide range of types of facilities, such as hospitals, employment sites and community centers.

3. The HHS Secretary will amend regulations for the EPSDT program to require states to make aggressive outreach efforts in contacting parents about immunization and tracking children's immunization status, using information submitted to states by

medical providers seeking Medicaid reimbursement.

Section V—Create a Comprehensive Immunization Tracking System through a Nationwide Registry.

Background: 1. The last time a comprehensive national survey of immunization was conducted was in 1985. This year an immunization assessment of all children is included as part of the National Health Interview Survey conducted for the National Center for Health Statistics. This surveillance system of age-specific vaccination rates should be maintained to help monitor compliance with recommended immunization schedules. In the past, the funding for the inclusion of this assessment in the survey has come from CDC operational funding.

2. State computerized tracking systems are needed to permit all providers to accurately assess immunization status each time a child has a medical encounter, as well as to compile national statistics on levels of immunization across the country. Presently, assessment of a child's status depends on the memory or records available from a parent, except when all vaccinations have been done by one provider. The basis for data systems exists through vital statistics records and birth certificate information. CDC plans to assist several cities this year to participate in a demonstration of tracking systems and some of the cities indicate they cannot initiate such systems without outside funding.

Legislative Proposal: 1. Create a new, permanent authorization for the CDC immunization program of $500,000 for FY 1993, and such sums as may be needed in years thereafter, to enable the agency to pay for the cost of using the next national survey. The results of the survey regarding immunization should be published in a timely manner.

2. The HHS Secretary will establish a research and demonstration program under the Public Health Service Act which ultimately will lead to full development of an interstate computerized registry which can be widely used by both public and private providers. Information in the registry will come from medical providers and state entities, such as vital records diversions. HHS will ensure that such demonstrations protect confidential information about children and are coordinated with CDC's existing methods of data gathering.

For FY 1993, demonstration grants to states or appropriate organizations will be authorized, totaling $12 million, to identify appropriate mechanisms for collecting, updating and maintaining data and effective means of accessing it. The demonstration programs will include a means of tracking the immunization status of children in the EPSDT program and will be coordinated with program under Section IV. The Secretary will make annual reports to Congress on the results of various state tracking methods until a nationwide tracking system is fully operational.

An authorization of $20 million will be created in FY 1994, and $30 million in FY 1995, for HHS to assist states or appropriate organizations to purchase computer equipment and software, where necessary. The purpose of the authorization is to make computer tracking effective and full integrated across all states through HHS, in order to make the data nationally available.

Section VI—Demonstrate New Purchase and Distribution Methods.

Background: The cost of vaccination in physician office is too high for many middle-income parents, due to market prices of private-sector purchase. Therefore, an increasing number of parents seek immunizations for their children at already burdened public clinics, often interrupting the coordination of children's preventive care. States now purchase approximately half of the vaccines administered to children in the public sector; the balance of vaccines administered in the public sector in provided with federal funds. Most state purchases are at a more favorable price than private providers can obtain because they are made under contracts between CDC and manufacturers. If states were to increase their purchases through the CDC contract in order to distribute vaccines to private providers at no cost, they could expect to recover part of the cost of doing so through avoidance of Medicaid reimbursements to private providers. In addition, if private providers were more fully reimbursed for Immunizations under Medicaid, more physicians might participate and more children get immunized.

Legislative Proposal: To reduce the financial disincentive to receiving immunizations at physician offices, or other private facilities, HHS will develop two demonstration programs to be carried out over three years. Funding for these programs will be authorized at $5 million for each program in each of the three years. One will examine two mechanisms for increasing immunizations of Medicaid-eligible children in the private sector; the other will demonstrate whether vaccines made available to physicians at no cost will bring a substantial number of non-welfare children back to the private physician for immunization, and relieve the burden on public clinics. The cost-effectiveness of the different approaches will be assessed. For both demonstrations, funds will be authorized under the Public Health Service Act.

1. In the first demonstration, participating states will use grant funds from the Health Care Financing Administration to: 1) increase Medicaid reimbursement rates to private providers and, 2) purchase additional vaccines to give to private providers—on a use and replacement basis—who immunize children covered by Medicaid. The demonstration will examine, among other things, the degree of increased immunizations among children eligible for Medicaid and, in the second part, the potential savings to Medicaid.

2. In the second demonstration, participating states will use immunization grant funds provided by CDC under the Public Health Service Act to purchase additional vaccines to give to private providers for any and all immunizations. The demonstration will assess possible decreased referrals to public clinics from the private sector.

In the second demonstration, although providers will not be allowed to charge for the cost of vaccines, they will be allowed to charge for administration of vaccines, based on ability to pay or consistent with state requirements. If providers charge for administration, they will prominently display information which indicates that no one may be denied vaccine provided by the federal government for failure to pay the administration fee or failure to make a donation to the provider.

Section VII—Establish a national fund for outbreak control.

Background: When a disease outbreak occurs, emergency appropriations must be provided and often this does not happen fast enough.

Legislative Proposal: Under the Public Health Service Act, authorize an amount of $20 million each beginning in FY 1993, to be placed in a permanent reserve fund for use when unanticipated outbreaks require CDC to purchase additional vaccines. In those instances, as determined by the HHS Secretary, the fund could be used for the re-vaccination of children in affected areas who have not received the second dose recommended against measles, mumps, and rubella, or as the Secretary deems necessary.

Section VIII—Support special research.

Legislative Proposal: Authorize such sums as necessary to the National Vaccine Program within HHS to dispense to appropriate federal agencies for special research. This research will be for the purpose of: 1) developing vaccines that are safe and effective in younger infants and, ideally, newborns; 2) developing vaccine combinations to decrease the number of injections and visits required; and 3) developing new vaccines, including vaccines against chicken pox and rotoviruses common in the U.S.

Section IX—Report to Congress.

Legislative Proposal: The HHS Secretary will report to Congress six months after enactment, and annually thereafter, on the immunization status of pre-school and school-age children nationwide, describing the major barriers to attaining desired levels of immunization and identifying necessary programmatic, policy and legislative changes.●

By Mr. SASSER (for himself, Mr. Moynihan, Mr. Riegle, Mr. Sanford, Mr. Sarbanes, Mr. Pryor, Mr. Hollings, Mr. Simon, Mr. DeConcini, Mr. Graham, Mr. Rockefeller, Ms. Mikulski, Mr. Dodd, Mr. Wirth, Mr. Glenn, Mr. Adams, Mr. Metzenbaum):

S. 2117. A bill to ensure proper service to the public by the Social Security Administration by providing for proper budgetary treatment of Social Security administrative expenses; pursuant to the order of August 4, 1977, referred jointly to the Committee on Budget and the Committee on Governmental Affairs.

SOCIAL SECURITY SERVICE PRESERVATION ACT OF 1991

Mr. SASSER. Mr. President, I rise today to introduce a vital piece of legislation: the Social Security Preservation Act of 1991. I am pleased to have as original cosponsors Senators Moynihan, Riegle, Sanford, Sarbanes, Pryor, Hollings, Simon, DeConcini, Graham, Rockefeller, Mikulski, Dodd, Wirth, Glenn, Adams, and Metzenbaum.

The Social Security system is perhaps the most important program that is administered by the Federal Government. Social Security represents a sacred trust between the US Government and its citizens. It provides benefits to 40 million beneficiaries and it takes 3.6 million new applications every year.

The Social Security Program is administered by the Social Security Administration—SSA in shorthand. Unfortunately, in 1985, the President set in motion the termination of 17,000 SSA positions over a 6-year period ending in 1990. This action has had very adverse impacts on service to Social Security beneficiaries and applicants.

The Social Security Disability Program now has a backlog of more than

600,000 cases pending. Even if the entire amount requested by the President for 1992 is appropriated, the backlog will grow to 700,000 by the end of 1992. In an unprecedented disclosure, a press release accompanying the President's budget this year acknowledged that the applications of disabled Americans could require as much as 6 months to process by the end of 1992, even if the Congress approved the full amount of the President's budget request for SSA.

Just think of that. Some of the most vulnerable Americans—those who are completely disabled and cannot hold a job—have to wait 6 months to get Social Security benefits that they are entitled to by law. And all because the President and his advisers slashed the number of people working for the Social Security Administration over the last 6 years or asked for insufficient funds to pay for its activities. This is unjust and unfair.

But this is just the beginning. The pending number of hearings and appeals rose from 154,000 in late 1989 to 187,000 in August. Why? Because there are not enough staff and not enough other resources.

There has been a severe problem with telephone service. In a misguided attempt to solve this telephone service difficulty, SSA attempted to switch to one 800 number for the entire Nation and make it impossible for people to call their local offices. But there are not enough people to answer the 800 number. During peak periods in February, the busy signal rate was 74 percent; during nonpeak periods in the same month the busy signal rate was 64 percent. This is unacceptable. And in efforts to reduce this busy signal rate, SSA is switching staff out of handling Social Security claims in order to answer the 800 number. They are robbing Peter to pay Paul.

Manpower shortages are so severe that there are not enough people to train new claims representatives. In years past a new worker was given at least 13 weeks of training. This made sense because the Social Security rules and formulas take up 26 huge volumes. But now workers receive a maximum of only 10 weeks of training. Some workers are receiving no formal training. This is obviously unacceptable.

I could go on, but I think the point is clear. The unwarranted cutbacks in Social Security staff and resources have resulted in significant reductions in service to the public. And the problem has been compounded because OMB has repeatedly refused to release contingency funds appropriated for the agency by the Congress.

Fortunately, there is a solution. The Social Security Administration needs more money to hire additional staff and to have greater resources available. But as I will show in a moment, Social Security is competing with all other domestic appropriated programs for scarce funds. My legislation would eliminate this competition, enabling sufficient funding so that Social Security service to the public can be restored to needed levels.

Why are Social Security Administrative costs forced to compete with all other domestic appropriated programs for scarce dollars? Did not the Congress enact a law last year completely removing Social Security from the budget?

Congress certainly did enact a law last year that did just that. The law was very clear: for all budgetary purposes, Social Security was to be excluded. In particular, Social Security was to be excluded from the caps or limits that were placed on total domestic appropriations in each year.

But the Office of Management and Budget made the dubious legal decision that Social Security administrative costs were not excluded from the caps. As a result Social Security administrative money must compete with all other domestic appropriations for funding. Given the very tight limits on domestic spending and the significant unmet domestic needs in this country, it is small wonder that Social Security does not get enough money to provide adequate service to the public.

The legislation I am introducing today would fix this problem. It would make it clear in statute that Social Security administrative expenses must be excluded from the domestic discretionary spending caps. In this way the Social Security Administration could be given the amount of funding necessary to provide needed services to the public.

Social Security administrative expenses would not be completely unrestricted. To maintain budgetary control, these funds would be subject to the Social Security firewall, which already provides budgetary controls on all Social Security benefits and revenues. The legislation makes clear the precise manner in which administrative costs would be subject to this firewall.

We must protect the Social Security system in full. Full protection means that beneficiaries and applicants must receive adequate service. This legislation will make it possible to ensure that service. I strongly urge my colleagues to support this legislation.●

● Mr. SANFORD. Mr. President, I am pleased to be a cosponsor of this important legislation to remove Social Security administrative funds from the Federal budget. This was what Congress intended last year when legislation removing Social Security trust funds from the deficit calculations was approved. I thought we had made a clean break, but the Office of Management and Budget determined that administrative costs would not be removed, and instead would be counted under the domestic discretionary cap.

This administration, as was the case with the previous administration, likes to be creative with trust fund money. This creativity continued in the President's fiscal year 1992 budget proposal by counting Social Security administrative money as domestic discretionary money. This administration wants to pit Social Security, a program that more than pays for itself against Head Start, public health services and many other important underfunded nontrust fund programs. Where is the logic in that?

My staff spends an enormous amount of time helping people in North Carolina with Social Security problems. Most of these problems could be prevented if Social Security offices had enough manpower to get the job done. There are fewer offices to help people, and fewer people within those offices that remain. The problem may be as simple as getting through to the new 800 number to get a question answered. "Why is it taking so long?" is a question I get often as I move around the State. Well the answer is that during the past decade insufficient funding has created larger and larger backlogs and more problems for citizens and workers alike. And these problems are getting worse.

To hold Social Security administrative funds hostage under a domestic discretionary spending cap only makes matters worse. President Bush should not be doing this, and I am pleased to cosponsor legislation to end this unfair practice.●

● Mr. SARBANES. Mr. President, I rise today in strong support of the Social Security Service Preservation Act introduced by the distinguished chairman of the Budget Committee. I am proud to join him as an original cosponsor of this important piece of legislation.

Last year, we removed Social Security from the Federal budget and exempted what is this Nation's largest and most important service delivery program from the constraints of the Budget Enforcement Act. When the Senate supported this change by a vote of 98 to 2, it was unknown that language in another provision of the Budget Act raised some question as to whether the off-budget status of the Social Security Program included the administrative costs of the Social Security Administration. Clearly the intent of the legislation we passed last year was to have the entire program off budget. The bill offered by the Senator from Tennessee will clarify this by removing the administrative costs of the Social Security Administration from the discretionary spending limits in the Budget Enforcement Act and by reducing the spending caps accordingly.

Mr. President, I am privileged to represent the tens of thousands of Federal employees who are at the heart of Social Security operations. They represent the finest and best-trained employees found anywhere in our civil service. However, the budget cuts and staff reductions of the last two administrations have deprived these dedicated employees of the resources they need to provide adequate services to Social Security beneficiaries. Recent studies cited by the Senator from Tennessee indicate how these services have suffered under the pressure of dwindling resources.

This is not the first time I have taken the floor urging that we ensure that the Social Security Administration has sufficient resources to meet the needs of the public. In 1987, I authorized the Federal Government Service task force to study the service provided by the Social Security Administration through a survey of congressional caseworkers. The study revealed that, notwithstanding the diligent efforts of an overworked, underfunded staff, there existed a gross deficiency in service delivery. In fact, the problem of insufficient and declining service is such that I currently have legislation before the Senate to ensure that Social Security service offices are not closed unnecessarily.

The legislation introduced by Senator SASSER is critical to the effort of restoring Social Security services to an acceptable level. It would clarify the intent of last year's Budget Enforcement Act that the administrative costs be excluded from Federal budgetary constrictions. Most importantly, this legislation will help to ensure that this Nation's most important domestic program has the resources necessary to deliver its vital services to the public.

Mr. President, I commend the Senator from Tennessee for his work on this important issue. I urge my colleagues to support this legislation; and I yield the floor.●

● Mr. RIEGLE. Mr. President, today I am pleased to join with Senator SASSER, Senator MOYNIHAN and others in introducing legislation to remove the administrative expenses of the Social Security Program from the discretionary caps established under last fall's budget summit agreement. As a member of both the Senate Budget and Finance Committees, I strongly believe that the administrative costs of the Social Security Program should be treated in the same way as the old age, survivors, and disability insurance trust fund.

As my colleagues are aware, Social Security is a self-financed program, funded entirely from a dedicated payroll tax. I was a strong advocate in the early 1980's of removing Social Security from the Federal budget because there were some people who wanted to cut Social Security benefits to balance the budget. I felt it was important to protect the benefits that people had earned and eliminate once and for all the temptation to use Social Security funds for purposes other than those for which they were intended. The old age, survivors, and disability insurance trust funds were finally taken out of the Federal budget in 1985 as part of the original Gramm-Rudman-Hollings law.

Despite this action, Social Security continued to be counted toward the deficit calculations under Gramm-Rudman-Hollings. As my colleagues are well aware, the Social Security trust funds are currently running a surplus—this year it's going to be $63 billion according to the Congressional Budget Office [CBO]. When these surpluses are included in the deficit calculations, they make the operating deficit of the Federal Government look much smaller than it actually is. That's why we took the step last year of removing Social Security from the deficit calculations under Gramm-Rudman. When we did this, we believed we were taking all of Social Security, including the administrative expenses, out of these calculations.

Providing adequate levels of funding for administrative expenses is essential for the smooth operation of the Social Security Program. Currently, the administration of Social Security programs is hampered by the budgetary limits placed on the administrative expenses. For example, right now it takes anywhere from 2 to 6 months for the State disability determination services to make a decision on applications for disability benefits. People are waiting 6 to 14 months in some cases for a decision on an appeal to an Administrative Law Judge; in some cases people are waiting over 1 year just to get a hearing. And it's not just the disability program that is affected, seniors have been hurt by the problems at SSA. The entire system is fraught with delays, and services have deteriorated.

If the administrative expenses are treated as domestic discretionary spending and subjected to the spending caps enacted last fall, as the Office of Management and Budget [OMB] has indicated it intends to do, these funds could be subjected to any across-the-board cuts triggered if spending exceeds the levels set under the caps for this area of spending. This risk is unwarranted and unjustified. First of all, these expenses are paid directly by the trust funds, not from general revenues. And keeping the administrative costs on-budget is not what we intended last year when we took Social Security—all of it—out of Gramm-Rudman.

Mr. President, Social Security, including the administration of the program, is not contributing to the Federal budget deficit in any way. In order for the program to be run smoothly and for senior citizens and disabled persons to receive the benefits to which they are entitled, it is essential that the administrative aspect of the program be fully funded, and not subject to political manipulation. I urge our colleagues to join us in supporting this legislation to clarify the intent of Congress in this area.●

By Mr. D'AMATO:

S.J. Res. 236. Joint resolution designating the third week in September 1992 as "National Fragrance Week"; to the Committee on the Judiciary.

NATIONAL FRAGRANCE WEEK

● Mr. D'AMATO. Mr. President, I rise today to introduce legislation designating the week beginning the second Sunday in September as "National Fragrance Week."

"National Fragrance Week" is the offspring of the Fragrance Foundation based in Manhattan. The Fragrance Foundation is responsible for many outstanding community and industry-wide contributions. They are a nonprofit organization geared toward education and community outreach. Not only does the foundation offer a central library and support international sensory research, it also participates in the mentor program at the Fashion Institute of Technology. Additionally it is an ardent supporter of Fragrance Gardens for the Blind. The Fragrance Forum, the foundation's quarterly newsletter, keeps the industry up to date on trends and activities.

The city of New York has had an annual celebration of Fragrance Week since 1987. Fragrance Week is marked by a mayoral proclamation and citywide celebrations. This year, the Fragrance Foundation and I seek a nationwide celebration during the third week of September 1992.

Mr. President, I ask unanimous consent that the text of my joint resolution be printed in the RECORD.

There being no objection, the joint resolution was ordered to be printed in the RECORD, as follows:

S.J. RES. 236

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

Whereas the Fragrance Foundation, a nonprofit educational organization, has grown and prospered since its establishment in 1949;

Whereas the Fragrance Foundation's goals are to advance the understanding and enjoyment of fragrance, one of humankind's greatest sensory pleasures, and to explore through scientific inquiry the therapeutic benefits of fragrance;

Whereas fragrance has the power to evoke memories, reduce anxiety, increase alertness, and elevate the spirits;

Whereas the fragrance industry employs more than 1,000,000 people and generates more than $4,000,000,000 in sales in the United States;

Whereas the Fragrance Foundation has celebrated the observance of Fragrance Week each year since 1987 and wishes to expand the festivities of Fragrance Week into a nationwide celebration; and

Whereas on September 13th, 1992, the Fragrance Foundation will inaugurate a nationwide educational effort through the leading retailers of the United States to acquaint the people of the United States with the benefits and pleasures of fragrances: Now, therefore, be it

Resolved by the Senate and the House of Representatives of the United States of America in the Congress assembled, That the week beginning September 13th, 1992, is designated as "National Fragrance Week" and the President is authorized and requested to issue a proclamation calling on the people of the United States to observe the week with appropriate ceremonies and activities.•

By Mr. DASCHLE:

S.J. Res. 237. A joint resolution proposing an amendment to the Constitution of the United States to set the compensation of services for Members of Congress, and for other purposes; to the Committee on the Judiciary.

COMPENSATION OF SERVICES FOR MEMBERS OF CONGRESS

• Mr. DASCHLE. Mr. President, public confidence in Congress as an institution is near an all-time low. That is understandable given the recent attacks from the President, the media, and certain members of the House and the Senate.

Some of the criticism is fair, some of it is not. But the need for constructive change cannot and should not be ignored.

As someone who believes in the constitutionally designated role of this institution, I am convinced that we have to take serious action to address this decline in public confidence by attacking its root causes. If people cannot trust that Congress will serve the national interest rather than individual Members' interests, if people cannot believe that their voices will be heard above the fray of partisan politics, then the very principles that drive our democratic system are threatened. We cannot have a government "of the people, for the people, and by the people" if the people do not believe or participate in it.

How do we restore public faith in our Government? There is no quick fix, and at least some of the responsibility lies with those who use cheap shots to denigrate the institution for short-term political gain or increased newspaper sales. But there are several things we in Congress can and must do to protect the integrity of this institution—not because it is "ours," or because we might be affected in the next election, but because our democracy depends on it.

First, we must acknowledge our faults. Although some of the attacks on Congress are arguably unfair or misleading, they would would not be so harmful if we did not create fertile ground for them. We, as an institution, have our problems, and we should acknowlege them honestly and do our best to correct them.

Second, we must fight the tendency to allow style and symbolism to overtake substance. The real problems in America are all too often neglected in favor of petty politics or symbolic speeches.

Third, we must, I am convinced, enact serious campaign finance reform. The long reach of special interests must be withdrawn and replaced by greater citizen participation in the electoral process.

Finally, we must develop a package of internal reforms to ensure that we avoid even an appearance of conflict of interest. There are several proposals already under consideration. Over the next few months. I will be introducing a package of legislation to initiate several reforms I believe are key to restoring the public trust in Congress.

Today I am introducing the first pillar of that package—the Congressional Pay Limitation Amendment. This joint resolution would amend the Constitution to ensure that Congress does not establish its own pay.

Instead of giving itself pay raises, Congress's pay would rise or fall with the income of the average American family. Not only would Congress be removed from pay decisions, Member's pay would be indirectly based on their performance in addressing our national economic issues, since improvements or declines in our economic strength would bring with them corresponding increases or decreases in congressional pay. The amemdment reads: "The Congress shall make no law affecting the compensation for services for Members of Congress. On January 1, of each year of the first session of a Congress, the compensation of Members of Congress shall be adjusted to correspond to any increase or decrease in the median income of all citizens of the United States."

In the near future, I will be introducing two other pieces of this package: first, a bill to eliminate congressional perks; and, second, a bill to ensure congressional coverage under workplace laws.

Congress is, by definition, the people's body. Taxpayers should not be required to subsidize special privileges or benefits for Members of Congress that are unrelated to the conduct of their official duties.

As for workplace laws, I have long believed that if Congress makes a law, we should live by it. The Grassley-Mitchell amendment to the Civil Rights Act of 1991 brought the Senate into compliance with antidiscrimination laws, and I look forward to working to ensure that all other appropriate laws also cover Congress.

Finally, it is necessary to overcome the public perception that the Senate is becoming an anachronism in the modern age. The feeling—within and outside of the Senate—that it is becoming increasingly difficult to accomplish substantive policy goals, is pervasive. We need to begin an earnest review of Senate rules to determine whether or not changes can be enacted to facilitate genuine debate and policymaking in the Senate.

No doubt there are other reforms that may prove necessary. We should remain open to them, and I look forward to working with my colleagues from both parties to bring some badly needed changes to help restore the people's trust in the people's government.

There being in objection, the joint resolution was ordered to be printed in the RECORD, as follows:

S.J. RES. 237

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the following article is proposed as an amendment to the Constitution of the United States, to be valid only if ratified by the legislatures of three-fourths of the several States within seven years after the date of its submission by the Congress:

"ARTICLE

"The Congress shall make no law affecting the compensation for services for Members of Congress. On January 1, of each year of the first session of a Congress. the compensation of Members of Congress shall be adjusted to correspond to any increase or decrease in the median income of all citizens of the United States.". •

By Mr. RIEGLE (for himself and Mr. LEVIN):

S.J. Res. 238. A joint resolution designating the week beginning September 21, 1992, as "National Senior Softball Week"; to the Committee on the Judiciary.

NATIONAL SENIOR SOFTBALL WEEK

• Mr. RIEGLE. Mr. President, for 7 glorious days in September of next year, in Wayne County, MI, a hearty group of people will participate in a softball tournament. Now a softball tournament is not a particularly exceptional event, a lot of people—some 32 million—play softball. What makes this particular tournament different is the age of the participants: they all will be at least 50 and they will be playing in the Seniors Softball World Series. In honor of this wonderful project, today I am introducing a joint resolution to designate the last week of September 1992 as National Senior Softball Week.

The idea for the Seniors Softball World Series began in 1985 with Mr. Ken Maas and Ms. Jacqui Jolly. They established the National Association of Senior Citizen Softball [NASCS], and I am proud to say that they founded it in Michigan. The NASCS is the only national organization promoting senior softball; teams from around the United States and Canada know the work of the NASCS. The first NASCS tournament, held in Clinton Township, MI, attracted 12 teams. The following year 21 teams participated and the year after that, 30 teams.

The success of the NASCS tournament caught on and in 1988, Mr. Maas, working with the Sporting Goods Manufacturers Association, established Seniors Softball World Series, Inc. The first Seniors Softball

World Series was held in Greensboro, NC, in 1989 with 68 teams. Since then, this Fall Classic has been played in Scottsdale, AZ, and Palm Beach County, FL. The event continues to grow—in 1991, 83 teams participated in the Seniors Softball World Series.

Mr. President, the growth and success of the NASCS and the Seniors Softball World Series provides further evidence of the energy and joy that seniors bring to this country. Every day we hear about or see examples of seniors throwing out the myth that getting older means you have to give up staying active. Seniors Softball also promotes an atmosphere of friendly competition and physical fitness among older americans. The NASCS also promotes international harmony; twice, teams from the NASCS have made road trips to the United Kingdom to share with them this uniquely American game. I urge my colleagues to acknowledge the spirt of our seniors by joining me in supporting this resolution.•

By Mr. DECONCINI:

S. 2118. A bill to create a Department of the Treasury Forfeiture Fund; to the Committee on Finance.

DEPARTMENT OF THE TREASURY FORFEITURE FUND

• Mr. DECONCINI. Mr. President, today I rise to introduce legislation, along with my colleague from Maryland, Senator MIKULSKI, to establish a Department of the Treasury forfeiture fund.

Mr. President presently, there are two Federal law enforcement forfeiture funds into which agencies of the Department of Justice and Treasury deposit receipts from forfeitures assets seized through drug, currency and customs violations: The Department of Justice assets forfeiture fund, and the U.S. Customs forfeiture fund. The Internal Revenue Service [IRS], the U.S. Secret Service and the Bureau of Alcohol, Tobacco and Firearms [ATF], law enforcement agencies of the Treasury Department, deposit all the proceeds for assets seized under violations of the laws they enforce into the Department of Justice Assets forfeiture fund. The Customs Service, on the other hand, has it own fund and deposits its proceeds from assets forfeited from violations of its laws into the Customs forfeiture fund. [The only proceeds for seized assets by Customs which are deposited into the Justice Fund are proceeds from assets seized for violations under 21 U.S.C. 881].

The legislation I am introducing today will allow all of the Treasury law enforcement bureaus to deposit receipts from Secretary of the Treasury. The Customs Service would serve as the management agent for the other bureaus by managing the seized property program and serving as the management agent for the fund itself.

This legislation provides a permanent indefinite appropriation for all costs related to seizures, awards of compensation to informants, satisfaction of liens, remission and mitigation payments, claims of parties in interest to certain low value property disposed of under 19 U.S.C. 1612(b), the expense of training related to seizure and forfeiture, and costs of certain experts and consultants.

A capped amount of $100 million would be available during each fiscal year for certain purposes including: publication of availability of moiety payments; payment of certain costs of joint operations with Treasury bureaus; payment of the attributable costs of the IRS Detroit Data Center.

The uncapped portion, estimated at $200 million, would be available for a number of other critical law enforcement needs including: equipment for vessels, vehicles or aircraft and other equipment related to seizure and forfeiture; purchase of evidence or information regarding violations of laws enforced by the Treasury law enforcement bureaus; reimbursement of private persons for expenses incurred by such persons in cooperation with Treasury law enforcement bureau investigations and to offset the necessary and reasonable costs of undercover operations.

This legislation would also authorize equitable sharing payments, out of the uncapped portion of the fund, to State and local law enforcement agencies based upon their participation in joint operations. Subject to State Department approval, the Treasury fund would make similar payments to foreign law enforcement agencies. The Department of the Treasury would have control over the amount paid out and the procedures used to determine the criteria for payment.

In an April 1991 article in The Police Chief, entitled "Equitable sharing of Federal Forfeiture Proceeds", George J. Terwilliger III, Associate Deputy Attorney General, U.S. Department of Justice, wrote:

> By all accounts, the sharing of federal forfeiture proceeds with cooperating state and local law enforcement agencies has been a dramatic success. In fact, in the past five years, more than half a billion dollars has been shared with cooperating state and local law enforcement officials—more than an eight fold increase over the fiscal year 1986 level of $22.5 million. Sharing in fiscal years 1990 had risen to $200 million. The prospects for continued growth of the program are excellent.
>
> Forfeiture proceeds are most effectively used to identify, investigate and prosecute more criminals.

While the Justice Department statistics are impressive, I want to point out to this body that one small Treasury Bureau, the Customs Service, is responsible for contributing over $224 million during the last 5 years in equitable sharing payments to State and local law enforcement agencies through its Customs forfeiture fund.

In addition to fostering improved relations between Federal, State and local law enforcement agencies, these equitable sharing transfers have helped agencies expand the number of criminal investigations; modernize their motor fleets; purchase computers and other high technology equipment, as well as new weapons and protective equipment; salaries and over time expenses; and meet the myriad of other expenses encountered by law enforcement agencies.

Clearly, State and local law enforcement organizations have been and will continue to our overall efforts in combating drug trafficking and crime generally—with equitable sharing playing a central role in expanding the number of criminal investigations undertaken.

Unobligated balances remaining in the fund in excess of $30 million at the end of each fiscal year will be transferred to the Department of Education for activities authorized under the Drug Free Schools and Communities Act. These funds are not intended to supplant normal appropriations for the Department of Education.

Last, Mr. President, this legislation makes changes to title 18 and title 26 to permit Treasury bureaus to seize assets under the provisions of these statutes which they enforce.

Mr. President, there have been concerns expressed in the past about the proliferation of forfeiture funds in the Federal Government. To be clear, this bill will not create an additional fund since one already exists under the Department of Treasury—the Customs forfeiture fund. Upon enactment, there will still only be one fund at the Treasury Department, however it will be one that is diversified with the participation of the three other Treasury bureaus: The Bureau of Alcohol Tobacco and Firearms, the U.S. Secret Service; and the Internal Revenue Service. This fund will, of course, receive oversight from the Secretary of the Treasury.

Having all of the Treasury bureaus participate in a Treasury-wide fund, managed by the Department of Treasury, they will avoid unnecessary communication problems or delays as these agencies have in place a variety of mechanisms for communicating and resolving concerns through their parent cabinet agency. This approach is also preferable to having a forfeiture fund at each individual law enforcement agency—with the accompanying duplication of management overhead and potential for waste, fraud, and abuse.

Mr. President, I have heard considerable testimony over the years as chairman of the Treasury, Postal Service, and General Government Appropriations Subcommittee as well as through the Judiciary Committee on forfeiture funds and related issues.

It is my experience that the Treasury bureaus have not received fair and equitable treatment through the Department of Justice assets forfeiture fund and that such participation has lead to difficulties for the Treasury bureaus. Most recently, I have heard this concern expressed directly from Secretary Brady during his testimony before the Appropriations Committee this last spring as well as from the Treasury law enforcement bureaus. It is my understanding that these difficulties have still not been resolved through direct negotiations and that additional problems continue to arise.

It is my view that having the Treasury bureaus participate in a Treasury fund will lead to a reduction in conflicts between the Treasury and Justice Departments—since the day-to-day forfeiture issues will not have to be resolved across Departmental lines. And, it will allow the two major Federal law enforcement agencies to focus additional time addressing issues associated with the war on drugs and combatting violent crime than on issues associated with the proceeds of forfeited property.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2118

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Department of the Treasury Forfeiture Fund Act".

SEC. 2. DEPARTMENT OF THE TREASURY FORFEITURE FUND.

(a) IN GENERAL.—Title 31, United States Code, is amended by inserting after section 9702 the following new sections:

"§ 9703. Department of the Treasury Forfeiture Fund

"(a) IN GENERAL.—

"(1) There is established in the Treasury of the United States a Fund to be known as the 'Department of the Treasury Forfeiture Fund' (hereafter in this section referred to as the 'Fund'), which shall be managed by the Secretary of the Treasury (hereafter in this section referred to as the 'Secretary'). The Fund shall be available to the Department of the Treasury, subject to appropriation, with respect to seizures and forfeitures under any law enforced or administered (other than sections 7301 and 7302 of the Internal Revenue Code of 1986) by the United States Customs Service, the Internal Revenue Service, the Bureau of Alcohol, Tobacco and Firearms, and the United States Secret Service (hereafter in this section referred to as the Treasury law enforcement bureaus), and the United States Coast Guard for payment, or for reimbursement to the appropriation from which payment was made, for—

"(A) all costs incurred by the Treasury law enforcement bureaus related to seizures, including costs leading to seizures and all proper expenses of seizures or the proceedings of forfeiture and disposition, and all expenses of inventory, security, and maintenance of custody of the property, advertisement, and disposition of the property, and, if condemned by the court and a bond for such costs was not given, the costs as taxed by the court;

"(B)(i) awards of compensation to informers under section 619 of the Tariff Act of 1930 (19 U.S.C. 1619);

"(ii) awards for information or assistance that leads to a recovery of a criminal fine, civil penalty, or forfeiture, which exceeds $50,000 for a violation of the provision of the Bank Secrecy Act (except that any such award shall not exceed the lesser of 25 percent of the net amount of the fine, penalty, or forfeiture or $150,000);

"(iii) purchases by—

"(I) the United States Customs Service of evidence or information with respect to violations of drug smuggling, drug trafficking or money laundering statutes;

"(II) the United States Secret Service of evidence or information with respect to violations of any of the laws of the United States relating to coins, obligations, and securities of the United States and of foreign governments, or of any of the laws of the United States relating to fraud in or against a financial institution or the Resolution Trust Corporation;

"(III) the Internal Revenue Service of evidence or information with respect to violations of sections 5313, 5314, 5315, and 5324 of this title and of violations of sections 1956 and 1957 of title 18; and

"(IV) the Bureau of Alcohol, Tobacco and Firearms, of evidence or information with respect to violations of section 924(c) of title 18, section 844 (d) through (i) of title 18, or section 842(h) of title 18;

"(C) satisfaction of—

"(i) liens for freight, charges, and contributions in general average, notice of which has been filed with Customs according to law; and

"(ii) other valid liens and mortgages against property that have been forfeited pursuant to any law referred to in this paragraph, subject to the discretion of the Secretary to determine the validity of any such lien or mortgage and the amount of payment to be made, and the employment of attorneys and other personnel skilled in State real estate law as necessary;

"(D) amounts authorized by law with respect to remission and mitigation;

"(E) claims of parties in interest to property disposed of under section 612(b) of the Tariff Act of 1930 (19 U.S.C. 1612(b)), in the amounts applicable to such claims at the time of seizure;

"(F) equitable sharing payments made to other Federal agencies, State and local law enforcement agencies, and foreign countries under the authority of section 616(c) of the Tariff Act of 1930 (19 U.S.C. 1616a(c)), section 981 of title 18, or section 201 of the Department of the Treasury Forfeiture Fund Act and all costs related thereto;

"(G) equipment for any vessel, vehicle, or aircraft available for official use by a Treasury law enforcement bureau to enable the vessel, vehicle, or aircraft to assist in law enforcement functions, and for other equipment related to seizure or forfeiture, including, but not limited to, laboratory equipment, communications equipment, and the operation and maintenance costs of such equipment;

"(H) equipment for any vessel, vehicle, or aircraft available for official use by a State or local law enforcement agency to enable the vessel, vehicle, or aircraft to assist in law enforcement functions if the conveyance will be used in joint law enforcement operations with any Treasury law enforcement bureau which may result in seizure or forfeiture;

"(I) overtime, salaries, travel, fuel, training, equipment, and other similar costs of State and local law enforcement officers that are incurred in assisting in law enforcement operations with any Treasury law enforcement bureau which may result in seizure or forfeiture;

"(J) at the discretion of the Secretary, the reimbursement of the expenses of private persons incurred by such persons in cooperating with any Treasury law enforcement bureau in investigations or undercover law enforcement operations;

"(K) the expenses of training the personnel of the Treasury law enforcement bureaus in carrying out their duties relating to seizure and forfeiture, including administrative duties related to inventory, maintenance, and disposition of seized or forfeited items;

"(L) the expenses incurred pursuant to regulations promulgated by the Secretary, that are necessary and related to seizure or forfeiture programs, including payments for the purchase or lease of automatic data processing equipment (if the majority of the use of such equipment is related to such programs), training, printing, and contracting for services directly related to the processing of and accounting for forfeitures, and contracting for services directly related to the identification of forfeitable assets, and the storage, protection, and destruction of controlled substances, explosives, and explosive materials; and

"(M) the costs of retaining the services of experts and consultants needed by the Treasury law enforcement bureaus to carry out their duties related to seizure and forfeiture.

"(2)(A) Any payment made under paragraph (1) (C) or (D) with respect to a seizure or a forfeiture of property shall not exceed the value of the property at the time of such seizure.

"(B) Any payment made under paragraph (1)(H) with respect to a seizure or forfeiture of property shall not exceed the value of such property at the time of disposition.

"(3) In addition to the purposes described in paragraph (1), the Fund shall be available for—

"(A) publication of the availability of awards under section 619 of the Tariff Act of 1930 (19 U.S.C. 1619);

"(B) payment of overtime salaries, travel, fuel, training, equipment (including equipment for any vessel, vehicle, or aircraft available for official use by a foreign law enforcement agency), and other similar costs of foreign law enforcement officers incurred in joint law enforcement investigations with a Treasury law enforcement bureau, if such payments may result in seizure or forfeiture and are—

"(i) agreed to by the Secretary of State;

"(ii) authorized in an international agreement between the United States and the foreign country; and

"(iii) made to a country which, if applicable, has been certified under section 481(h) of the Foreign Assistance Act of 1961 (22 U.S.C. 2291(h));

"(C) payment of contract services relating to the receipt, processing, maintenance, and dissemination of reports filed in accordance with section 6050I of the Internal Revenue Code or sections 5313, 5314, 5315, or 5316 of this title; and

"(D) deposits pursuant to subsection (f)(3).

"(b) UNITED STATES COAST GUARD.—The Secretary of the Treasury shall make available to the United States Coast Guard, from funds appropriated under subsection (f)(2) not to exceed $10,000,000 for a fiscal year, an amount equal to the amount in the Fund de-

rived from seizures by the Coast Guard. Funds made available under this subsection may be used for—

"(1) equipment for any vessel, vehicle, or aircraft available for official use by the United States Coast Guard to enable the vessel, vehicle, or aircraft to assist in law enforcement functions;

"(2) equipment for any vessel, vehicle, equipment, or aircraft available for official use by a State or local law enforcement agency to enable the vessel, vehicle, or aircraft to assist in law enforcement functions if the conveyance will be used in joint law enforcement operations with the United States Coast Guard;

"(3) payment of overtime salaries, travel, fuel, training, equipment, and other similar costs of State and local law enforcement officers that are incurred in joint law enforcement operations with the United States Coast Guard; and

"(4) expenses incurred in bringing vessels into compliance with applicable environmental laws prior to disposal by sinking.

"(c) DEPOSITS.—There shall be deposited into the Fund:

"(1) All forfeited currency and proceeds from forfeitures under any law enforced or administered (other than sections 7301 and 7302 of the Internal Revenue Code) by any Treasury law enforcement bureau or the United States Coast Guard.

"(2) Deposits and transfers pursuant to paragraphs (1) and (3) of subsection (g).

"(3) Income from investments made pursuant to subsection (d).

"(d) INVESTMENT.—Amounts in the Fund which are not currently needed for the purposes of this section shall be kept on deposit or invested in obligations of, or guaranteed by, the United States.

"(e) ANNUAL REPORTS; AUDITS.—

"(1) The Secretary shall transmit to the Congress, not later than February 1 of each year—

"(A) a report on—

"(i) the estimated total value of property forfeited under any law enforced or administered by the Treasury law enforcement bureaus or the United States Coast Guard with respect to which funds were not deposited in the Fund during the previous fiscal year;

"(ii) the estimated total value of all such property transferred to any State or local law enforcement agency;

"(B) a report on—

"(i) the balance of the Fund at the beginning of the preceding fiscal year;

"(ii) liens and mortgages paid and amount of money shared with State and local law enforcement agencies during the previous fiscal year;

"(iii) the net amount realized from the operations of the Fund during the previous fiscal year, the amount of seized cash being held as evidence, and the amount of money that has been carried over to the current fiscal year;

"(iv) any defendant's equity in property valued at $1,000,000 or more; and

"(v) the balance of the Fund at the end of the previous fiscal year; and

"(C) a report containing, for the previous fiscal year—

"(i) a complete set of audited financial statements (including a balance sheet, income statement, and cash flow analysis) prepared in a manner consistent with the requirements of the Comptroller General, and

"(ii) an analysis of income and expenses showing the revenue received or lost—

"(I) by property category (general property, vehicles, vessel, aircraft, cash, and real property); and

"(II) by type of disposition (sales, remissions, cancellations, placed into official use, sharing with State and local agencies, and destructions).

"(2) The Fund shall be subject to annual financial audits conducted by the Comptroller General of the United States.

"(f) AUTHORIZATION OF APPROPRIATIONS.—

"(1) There are hereby appropriated from the Fund such sums as may be necessary to administer the Fund and to carry out the purposes set forth in subsection (a)(1).

"(2)(A) Subject to subparagraph (B), there are authorized to be appropriated from the Fund not to exceed $100,000,000 for each fiscal year to carry out the purposes set forth in subsections (a)(3) and (b) for each such fiscal year.

"(B) Of the amount authorized to be appropriated under subparagraph (A), not to exceed the following shall be available to carry out the purposes set forth in subsection (a)(3):

"(i) $100,000,000 for fiscal year 1993.

"(ii) $100,000,000 for fiscal year 1994.

"(3)(A) Subject to subparagraph (B), in each of fiscal years 1992, 1993, and 1994, the Secretary may transfer from the Fund any unobligated balances remaining unexpended to the Department of Education for activities authorized under the Drug Free Schools and Communities Act (20 U.S.C. 3181). Such transfers shall be made on a quarterly pro rata basis.

"(B) Transfers under subparagraph (A) may be made only from excess unobligated amounts and only to the extent that, as determined by the Secretary, such transfers will not impair the future availability of amounts for the purposes described in subsection (a)(1).

"(C) At the end of each of fiscal years 1992, 1993, and 1994, the Secretary may retain in the Fund not more than $30,000,000, or if determined by the Secretary to be necessary for asset specific expenses, a greater amount equal to not more than one-tenth of the total of obligations from the Fund in the preceding fiscal year. Any amount in excess of $30,000,000 shall be transferred to the Department of Education for activities authorized under the Drug Free Schools and Communities Act.

"(g) MISCELLANEOUS.—Notwithstanding any other provision of law, during any period when forfeited currency and proceeds from forfeitures under any law enforced or administered (other than sections 7301 and 7302 of the Internal Revenue Code) by the Treasury law enforcement bureaus and the United States Coast Guard, are required to be deposited in the Fund—

"(1) all moneys required to be deposited in the Customs Forfeiture Fund pursuant to section 613A of the Tariff Act of 1930 (19 U.S.C. 1613b) shall be transferred to the Fund;

"(2) except as provided in paragraph (1), no deposits or withdrawals may be made to or from the Customs Forfeiture Fund pursuant to section 613A of the Tariff Act of 1930 (19 U.S.C. 1613b); and

"(3) any funds in the Customs Forfeiture Fund and any obligations of the Customs Forfeiture Fund on the date of the enactment of this Act shall be transferred to the Fund and all administrative costs of such transfer shall be paid for out of the Fund.

"(h) REGULATIONS.—The Secretary may prescribe such rules and regulations as may be necessary to carry out the provisions of this section.

"§ 9704. Authority of the Secretary relating to forfeited property

"(a) IN GENERAL.—The Secretary of the Treasury (hereafter in this section referred to as the 'Secretary') with respect to any property forfeited under any law enforced or administered by the Internal Revenue Service, the Bureau of Alcohol, Tobacco and Firearms, or the United States Secret Service may—

"(1) retain such property for official use; or

"(2) transfer such property to—

"(A) any other Federal agency; or

"(B) any State or local law enforcement agency that assisted in the seizure or forfeiture of such property.

"(b) TRANSFER TO FOREIGN COUNTRY.—The Secretary may transfer any forfeited personal property or the proceeds from the sale of any forfeited personal or real property to any foreign country which participated, directly or indirectly, in the seizure or forfeiture of the property, if such a transfer—

"(1) is one with which the Secretary of State has agreed;

"(2) is authorized in an international agreement between the United States and the foreign country; and

"(3) is made to a country which, if applicable, has been certified under section 481(h) of the Foreign Assistance Act of 1961 (22 U.S.C. 2291(h)).

"(c) AUTHORITY UNDER THE TARIFF ACT OF 1930.—Nothing in this section shall affect the authority of the Secretary under section 616 of the Tariff Act of 1930 (19 U.S.C. 1616a).

"(d) LIABILITY.—The United States shall not be liable in any action relating to property transferred under this section if such action is based on an act or omission occurring after the transfer.

"(e) TITLE TO FORFEITED PROPERTY.—Following completion of procedures for the forfeiture of property pursuant to any law enforced or administered by a Treasury law enforcement bureau (as defined in section 9703), the Secretary is authorized, at his discretion, to warrant clear title to any subsequent purchaser or transferee of such forfeited property.

"(f) FORFEITED PROPERTY DEFINED.—For purposes of this section and section 9703, and notwithstanding any other provision of law, property shall be deemed forfeited pursuant to a law enforced or administered by a Treasury law enforcement bureau if it is forfeited pursuant to—

"(1) a judicial forfeiture proceeding where the underlying seizure was made by an officer of a Treasury law enforcement bureau or where the property was maintained by a Treasury law enforcement bureau; or

"(2) a civil administrative forfeiture proceeding conducted by a Treasury law enforcement bureau.".

(b) CLERICAL AMENDMENT.—The table of sections for subtitle VI of title 31, United States Code, is amended by inserting after the item relating to section 9702 the following new items:

"9703. Department of the Treasury Forfeiture Fund.
"9704. Authority of the Secretary relating to forfeited property.".

SEC. 3. AMENDMENTS TO OTHER LAWS.

(a) DEPARTMENT OF JUSTICE ASSETS FORFEITURE FUND.—Section 524(c)(4) of title 28, United States Code, is amended—

(1) by striking "the Secretary of the Treasury or";

(2) by inserting ": (1)" after the word "except"; and

(3) by inserting before the period "; or (2) all proceeds of forfeitures of property seized

by the Treasury law enforcement bureaus (as defined in section 9703 of title 31, United States Code) deposited into the Department of the Treasury Forfeiture Fund established pursuant to such section".

(b) ANTI-DRUG ABUSE ACT of 1988.—Section 6073(b) of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1509(b)) is amended by inserting before the period: "and from the Department of the Treasury Forfeiture Fund in the manner provided in section 9703(f)(3) of title 31, United States Code".

(c) AMENDMENTS TO TITLE 18.—

(1) Section 981(a)(1) is amended by adding at the end thereof the following new subparagraph:

"(F) Any property, real or personal, involved, used or intended to be used in, or constituting, derived from or traceable to any proceeds obtained directly or indirectly from, a violation of—

"(i) section 842 or 844 of this title (relating to explosives or arson) or section 924(c) of this title (relating to firearms), including a predicate offense to a violation of section 924(c);

"(ii) any of the laws of the United States relating to coins, obligations, or other securities of the United States or of any foreign government; or

"(iii) section 1028, 1029, or 1030 of this title.".

(2) Section 981(b)(1) of title 18, United States Code, is amended by adding at the end thereof the following new subparagraph:

"(C) subject to forfeiture to the United States under subparagraph (F) of subsection (a)(1) of this section may be seized by the Secretary of the Treasury.".

(3) Section 981(a) of title 18, United States Code, is amended by adding at the end thereof the following new paragraph:

"(3) Nothing in this section shall prohibit the seizure or forfeiture of property that has been commingled with other property.".

(4) Section 982(a) of title 18, United States Code, is amended by adding at the end thereof the following new paragraph:

"(5) The court, in imposing sentence on a person convicted of a violation of, or a conspiracy to violate—

"(A) section 842 or 844 of this title (relating to explosives or arson) or section 924(c) of this title (relating to firearms), including a predicate offense to a violation of section 924(c);

"(B) any of the laws of the United States relating to coins, obligations or other securities of the United States or of any foreign government; or

"(C) section 1028, 1029 or 1030 of this title, shall order that the person forfeit to the United States any property, real or personal, involved, used or intended to be used in, or constituting, derived from or traceable to any proceeds obtained directly or indirectly from such violation.".

(d) AMENDMENT TO THE INTERNAL REVENUE CODE.—Section 5872(a) of the Internal Revenue Code of 1986 is amended to read as follows:

"(a) LAWS APPLICABLE.—Any firearm involved in any violation of the provisions of this chapter shall be subject to seizure and forfeiture and (except as provided in subsection (b)) the provisions of law relating to searches, seizure, condemnation, and summary and judicial forfeiture of unstamped articles are extended to and made to apply to articles taxed under this chapter, and the persons to whom this chapter applies.".●

By Mr. MOYNIHAN:

S. 2119. A bill to amend title II of the Social Security Act to waive the 24 month waiting period for medicare eligibility on the basis of a disability in the case of individuals with acquired immune deficiency syndrome [AIDS], and for other purposes; to the Committee on Finance.

MEDICARE ELIGIBILITY FOR INDIVIDUALS WITH AIDS

● Mr. MOYNIHAN. Mr. President, I rise today to reintroduce health legislation that will remove a significant barrier to health care access for individuals with acquired immune deficiency syndrome. The legislation I propose today would waive the 24 month waiting period for disability insurance beneficiaries with AIDS.

Four years ago, when I first introduced this legislation, I cited the following information:

> According to the Centers for Disease Control (CDC), as of December 31, 1986, there have been about 29,003 cases of full-blown AIDS reported in this country and of those 29,003, 16,301 have died.

When I reintroduced similar legislation in 1989, the death toll had risen 270 percent in just 2 years. By December 1988, more than 80,000 cases of AIDS had been reported to the CDC.

As of October 1991, more than 195,000 Americans have been diagnosed with AIDS since 1981, of whom over 120,000 have died. And these are only the documented cases. The Centers for Disease Control estimates that as many as 1 million Americans may be infected with the AIDS virus. Most of them will develop full blown AIDS in the next decade.

Mr. President, these numbers are rising at an alarming rate and we still have not addressed a fundamental problem confronting those with the syndrome: inadequate health insurance coverage for AIDS patients who become disabled.

There is currently a 24 month waiting period for disabled individuals before receiving Medicare benefits. The Medicare waiting period was established primarily to ensure that Medicare does not overlap with the disabled individuals's private health insurance. Unlike most other disability insurance beneficiaries, however, the AIDS patient cannot wait 24 months for health insurance coverage after the onset of opportunistic diseases like Kaposi's sarcoma or pneumonia. Even with AZT treatments, and AIDS patient's chance of surviving the waiting period are small. Given that AIDS patients are increasingly denied private health insurance coverage, we offer them little choice but to impoverish themselves by spending down to the level of Medicaid eligibility in order to obtain the coverage they need.

Mr. President, these individuals have worked and paid Social Security taxes and they are entitled to Medicare benefits. Until a cure is found for this tragic disease, let us at least minimize their suffering by granting disabled AIDS patients the benefits they deserve.

I urge all my colleagues to support this necessary legislation in our fight against AIDS. I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2119

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. WAIVER OF TWENTY-FOUR MONTH WAITING PERIOD FOR MEDICARE ELIGIBILITY FOR INDIVIDUALS WITH AIDS.

(a) IN GENERAL.—Section 226 of the Social Security Act (42 U.S.C. 426) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

"(h)(1) Subject to paragraph (2), in the case of an individual who is medically determined to have acquired immune deficiency syndrome (AIDS) and who files an application for hospital insurance benefits under part A of title XVIII pursuant to this subsection, subsection (b) shall be applied as if—

"(A) in paragraph (2)(A), ', and has for 24 calendar months been entitled to,' were deleted;

"(B) in paragraph (2)(B), ', and has been for not less than 24 months,' were deleted;

"(C) in paragraph (2)(C)(ii), ', including the requirement that he has been entitled to the specified benefits for 24 months,' were deleted;

"(D) in the matter in the first sentence following subparagraph (C), 'first month' were substituted for 'twenty-fifth month'; and

"(E) in the second sentence, 'twenty-fourth' were deleted.

"(2) Paragraph (1) shall not result in an individual becoming entitled to hospital insurance benefits under part A of title XVIII for any month before the first month in which the individual both—

"(A) is medically determined to have acquired immune deficiency syndrome; and

"(B) has filed an application under paragraph (1).

"(3) For purposes of this subsection, an individual will be presumed to have acquired immune deficiency syndrome (AIDS) if the individual has been diagnosed, in accordance with standards established by the Secretary after consultation with the Director of the Centers for Disease Control, as having such disease.".

(b) EFFECTIVE DATE—The amendments made by subsection (a) shall take effect on the first day of the first month that begins more than forty-five days after the date of the enactment of this Act.

ADDITIONAL COSPONSORS

S. 15

At the request of Mr. BIDEN, the name of the Senator from Nebraska [Mr. KERREY] was added as a cosponsor of S. 15, a bill to combat violence and crimes against women on the streets and in homes.

S. 240

At the request of Mrs. KASSEBAUM, the name of the Senator from Alaska [Mr. STEVENS] was added as a cosponsor of S. 240, a bill to amend the Federal Aviation Act of 1958 relating to bankruptcy transportation plans.

S. 353

At the request of Mr. GLENN, his name was added as a cosponsor of S. 353, a bill to require the Director of the National Institute for Occupational Safety and Health to conduct a study of the prevalence and issues related to contamination of workers' homes with hazardous chemicals and substances transported from their workplace and to issue or report on regulations to prevent or mitigate the future contamination of workers' homes, and for other purposes.

S. 447

At the request of Mr. ROBB, his name was added as a cosponsor of S. 447, a bill to recognize the organization known as The Retired Enlisted Association, Incorporated.

S. 456

At the request of Ms. MIKULSKI, the name of the Senator from Oklahoma [Mr. BOREN] was added as a cosponsor of S. 456, a bill to amend chapter 83 of title 5, United States Code, to extend the civil service retirement provisions of such chapter which are applicable to law enforcement officers to inspectors of the Immigration and Naturalization Service, inspectors and canine enforcement officers of the United States Customs Service, and revenue officers of the Internal Revenue Service.

At the request of Mr. LIEBERMAN, his name was added as a cosponsor of S. 456, supra.

S. 474

At the request of Mr. DECONCINI, the name of the Senator from Virginia [Mr. ROBB] was added as a cosponsor of S. 474, a bill to prohibit sports gambling under State law.

S. 511

At the request of Mr. DODD, the names of the Senator from Nevada [Mr. REID] and the Senator from Nevada [Mr. BRYAN] were added as cosponsors of S. 511, a bill to establish programs to improve foreign instruction and to amend the Higher Education Act of 1965 in order to promote equal access to opportunities to study abroad, and for other purposes.

S. 588

At the request of Mr. MITCHELL, the name of the Senator from New Hampshire [Mr. RUDMAN] was added as a cosponsor of S. 588, a bill to amend the Internal Revenue Code of 1986 with respect to the tax treatment of certain cooperative service organizations of private and community foundations.

S. 649

At the request of Mr. BREAUX, the name of the Senator from Washington [Mr. ADAMS] was added as a cosponsor of S. 649, a bill to amend the Internal Revenue Code of 1986 to repeal the luxury tax on boats.

S. 689

At the request of Mr. HATFIELD, the name of the Senator from Minnesota [Mr. WELLSTONE] was added as a cosponsor of S. 689, a bill to amend the Internal Revenue Code of 1986 to provide that a taxpayer conscientiously opposed to participation in war may elect to have such taxpayer's income, estate, or gift tax payments spent for nonmilitary purposes; to create the United States Peace Tax Fund to receive such tax payments; to establish a United States Peace Tax Fund Board of Trustees; and for other purposes.

S. 765

At the request of Mr. BREAUX, the name of the Senator from Oregon [Mr. PACKWOOD] was added as a cosponsor of S. 765, a bill to amend the Internal Revenue Code of 1986 to exclude the imposition of employer social security taxes on cash tips.

S. 810

At the request of Mr. HARKIN, the name of the Senator from Virginia [Mr. ROBB] was added as a cosponsor of S. 810, a bill to improve counseling services for elementary school children.

S. 866

At the request of Mr. BREAUX, the name of the Senator from Florida [Mr. GRAHAM] was added as a cosponsor of S. 866, a bill to amend the Internal Revenue Code of 1986 to clarify that certain activities of a charitable organization in operating an amateur athletic event do not constitute unrelated trade or business activities.

S. 1040

At the request of Mr. GLENN, the names of the Senator from Arizona [Mr. DECONCINI], the Senator from Louisiana [Mr. JOHNSTON], the Senator from Maryland [Mr. SARBANES], the Senator from Alabama [Mr. SHELBY], and the Senator from Connecticut [Mr. DODD] were added as cosponsors of S. 1040, a bill to provide a Government-wide comprehensive energy management plan for Federal agencies.

S. 1100

At the request of Mr. KERRY, the name of the Senator from New York [Mr. D'AMATO] was added as a cosponsor of S. 1100, a bill to authorize the Secretary of Housing and Urban Develpment to provide grants to urban and rural communities for training economically disadvantaged youth in education and employment skills and to expand the supply of housing for homeless and economically disadvantaged individuals and families.

S. 1125

At the request of Mr. NICKLES, his name was added as a cosponsor of S. 1125, a bill to provide incentives to health care providers serving rural areas, to provide grants to county health departments providing preventative health services within rural areas, to establish State health service corps demonstration projects, and for other purposes.

S. 1159

At the request of Mr. GORE, the name of the Senator from Oklahoma [Mr. BOREN] was added as a cosponsor of S. 1159, a bill to provide for the labeling or marking of tropical wood and tropical wood products sold in the United States.

S. 1227

At the request of Mr. MITCHELL, the name of the Senator from Illinois [Mr. DIXON] was added as a cosponsor of S. 1227, a bill to amend the Public Health Service Act, the Social Security Act, and the Internal Revenue Code of 1986 to provide affordable health care of all Americans, to reduce health care costs, and for other purposes.

S. 1289

At the request of Mr. HARKIN, the name of the Senator from Colorado [Mr. BROWN] was added as a cosponsor of S. 1289, a bill to amend the provisions of the Higher Education of 1965 relating to treatment by campus officials of sexual assault victims.

S. 1294

At the request of Mr. FOWLER, the names of the Senator from Utah [Mr. HATCH], the Senator from Alabama [Mr. SHELBY], and the Senator from Louisiana [Mr. BREAUX] were added as cosponsors of S. 1294, a bill to protect individuals engaged in a lawful hunt within a national forest, to establish an administrative civil penalty for persons who intentionally obstruct, impede, or interfere with the conduct of a lawful hunt, and for other purposes.

S. 1424

At the request of Mr. CONRAD, the names of the Senator from Washington [Mr. ADAMS], and the Senator from Oklahoma [Mr. BOREN] were added as cosponsors of S. 1424, a bill to amend chapter 17 of tile 38, United States Code, to require the Secretary of Veterans Affairs to conduct a mobile health care clinic program for furnishing health care to veterans located in rural areas of the United States.

S. 1482

At the request of Mr. DIXON, the name of the Senator from Mississippi [Mr. LOTT] was added as a cosponsor of S. 1482, a bill to amend the Social Security Act to improve the notice of medicaid payment of medicare cost-sharing, and for other purposes.

S. 1521

At the request of Mr. MCCONNELL, the name of the Senator from Washington [Mr. GORTON] was added as a cosponsor of S. 1521, a bill to provide a cause of action for victims of sexual abuse, rape, and murder, against producers and distributors of hard-core pornographic material.

S. 1578

At the request of Mr. THURMOND, the names of the Senator from Illinois [Mr. DIXON], the Senator from Illinois [Mr. SIMON], and the Senator from Hawaii [Mr. AKAKA] were added as cosponsors

VOL 137 PT 24 NO 26 1991 — JA 3 1992
UMI

of S. 1578, a bill to recognize and grant a Federal charter to the Military Order of World Wars.

S. 1614

At the request of Mr. GRAHAM, the name of the Senator from Idaho [Mr. CRAIG] was added as a cosponsor of S. 1614, a bill to amend the Rehabilitation Act of 1973 to revise and extend the program regarding independent living services for older blind individuals, and for other purposes.

S. 1622

At the request of Mr. KENNEDY, the names of the Senator from Iowa [Mr. HARKIN], the Senator from Connecticut [Mr. DODD], the Senator from Minnesota [Mr. WELLSTONE], and the Senator from Rhode Island [Mr. PELL] were added as cosponsors of S. 1622, a bill to amend the Occupational Safety and Health Act of 1970 to improve the provisions of such Act with respect to the health and safety of employees, and for other purposes.

S. 1667

At the request of Mr. FORD, the names of the Senator from Oklahoma [Mr. NICKLES], the Senator from Mississippi [Mr. COCHRAN], and the Senator from Kentucky [Mr. MCCONNELL] were added as cosponsors of S. 1667, a bill to provide for a 2-year Federal budget cycle, and for other purposes.

S. 1686

At the request of Mr. MCCAIN, his name was withdrawn as a cosponsor of S. 1686, a bill to amend title 28, United States Code, to divide the ninth judicial circuit of the United States into two circuits, and for other purposes.

S. 1691

At the request of Mr. COCHRAN, his name was withdrawn as a cosponsor of S. 1691, a bill to amend title 18, United States Code, to govern participation of Federal Prison Industries in Federal procurements, and for other purposes.

S. 1696

At the request of Mr. BAUCUS, the name of the Senator from Montana [Mr. BURNS] was added as a cosponsor of S. 1696, a bill to designate certain National Forest lands in the State of Montana as wilderness, to release other National Forest lands in the State of Montana for multiple use management, and for other purposes.

S. 1725

At the request of Mr. DIXON, the names of the Senator from North Dakota [Mr. BURDICK], and the Senator from Florida [Mr. MACK] were added as cosponsors of S. 1725, a bill to authorize the minting and issuance of coins in commemoration of the quincentenary of the first voyage to the New World by Christopher Columbus and to establish the Christopher Columbus Quincentenary Scholarship Foundation and an Endowment Fund, and for related purposes.

S. 1731

At the request of Mr. MCCONNELL, the names of the Senator from North Carolina [Mr. HELMS], the Senator from Florida [Mr. MACK], the Senator from Rhode Island [Mr. PELL], the Senator from Kansas [Mr. DOLE], the Senator from Connecticut [Mr. LIEBERMAN], the Senator from Indiana [Mr. LUGAR], and the Senator from Wyoming [Mr. WALLOP] were added as cosponsors of S. 1731, a bill to establish the policy of the United States with respect to Hong Kong after July 1, 1997, and for other purposes.

S. 1738

At the request of Mr. LEVIN, his name was added as a cosponsor of S. 1738, a bill to prohibit imports into the United States of meat products from the European Community until certain unfair trade barriers are removed, and for other purposes.

At the request of Mr. COATS, his name was added as a cosponsor of S. 1738, supra.

S. 1774

At the request of Mr. BRYAN, the names of the Senator from Oregon [Mr. HATFIELD], and the Senator from Minnesota [Mr. DURENBERGER] were added as cosponsors of S. 1774, a bill to establish a silver congressional commemorative medal for members of the United States Armed Forces who served in a combat zone in connection with the Persian Gulf conflict.

S. 1777

At the request of Mr. ADAMS, the name of the Senator from New York [Mr. D'AMATO] was added as a cosponsor of S. 1777, a bill to amend the Public Health Service Act to establish the authority for the regulation of mammography services and radiological equipment, and for other purposes.

S. 1793

At the request of Mr. D'AMATO, the names of the Senator from Ohio [Mr. METZENBAUM], and the Senator from Connecticut [Mr. DODD] were added as cosponsors of S. 1793, a bill to restrict United States assistance for Serbia or any part of Yugoslavia controlled by Serbia until certain conditions are met, and for other purposes.

S. 1830

At the request of Mr. GRASSLEY, his name was added as a cosponsor of S. 1830, a bill to require Senators and Members of the House of Representatives to pay for medical services provided by the Office of the Attending Physician, and for other purposes.

At the request of Mr. WOFFORD, the names of the Senator from Iowa [Mr. HARKIN], and the Senator from Idaho [Mr. CRAIG] were added as cosponsors of S. 1830, supra.

S. 1838

At the request of Mr. PRYOR, the name of the Senator from Mississippi [Mr. COCHRAN] was added as a cosponsor of S. 1838, a bill to amend title XVIII of the Social Security Act to provide for a limitation on use of claim sampling to deny claims or recover overpayments under medicare.

S. 1894

At the request of Mr. ROTH, the name of the Senator from Hawaii [Mr. INOUYE] was added as a cosponsor of S. 1894, a bill to amend the Trade Act of 1974 to provide trade adjustment assistance during the implementation and phase-in of the North American Free Trade Agreement, and for other purposes.

S. 1902

At the request of Mr. ADAMS, the name of the Senator from Vermont [Mr. JEFFORDS] was added as a cosponsor of S. 1902, a bill to amend title IV of the Public Health Service Act to require certain review and recommendations concerning applications for assistance to perform research and to permit certain research concerning the transplantation of human fetal tissue for therapeutic purposes, and for other purposes.

S. 1912

At the request of Mr. NICKLES, his name was added as a cosponsor of S. 1912, a bill to amend the Public Health Service Act and the Social Security Act to increase the availability of primary and preventive health care, and for other purposes.

S. 1916

At the request of Mr. LEAHY, the name of the Senator from Connecticut [Mr. LIEBERMAN] was added as a cosponsor of S. 1916, a bill to transfer Federal financial assistance currently used to develop herbicide resistant plants to nonchemical weed control systems, and for other purposes.

S. 1920

At the request of Mr. KASTEN, the names of the Senator from North Carolina [Mr. HELMS], and the Senator from New York [Mr. D'AMATO] were added as cosponsors of S. 1920, a bill to amend the Internal Revenue Code of 1986 to allow a nonrefundable tax credit for children, to provide tax incentives for economic growth, and for other purposes.

S. 1927

At the request of Mr. D'AMATO, the name of the Senator from Washington [Mr. GORTON] was added as a cosponsor of S. 1927, a bill to authorize the Secretary of Agriculture to carry out a grant program to increase the international competitiveness of the forest products industries in the United States, and for other purposes.

S. 1933

At the request of Mr. PACKWOOD, his name was added as a cosponsor of S. 1933, a bill to amend titles VII and VIII of the Public Health Service Act to reauthorize and extend programs under such titles, and for other purposes.

S. 1935

At the request of Mr. SIMPSON, the name of the Senator from Colorado [Mr. BROWN] was added as a cosponsor of S. 1935, a bill to require the Secretary of Agriculture to submit a report on, and establish a system for, lamb price and supply reporting services in the Department of Agriculture, and for other purposes.

S. 2000

At the request of Mr. BRYAN, his name was added as a cosponsor of S. 2000, a bill to provide for the containment of prescription drug prices by reducing certain non-research related tax credits to pharmaceutical manufacturers, by establishing the Prescription Drug Policy Review Commission, by requiring a study of the feasibility of establishing a pharmaceutical products price review board, and by requiring a study of the value of Federal subsidies and tax credits given to pharmaceutical manufacturers, and for other purposes.

SENATE JOINT RESOLUTION 15

At the request of Mr. THURMOND, the name of the Senator from Idaho [Mr. CRAIG] was added as a cosponsor of Senate Joint Resolution 15, a joint resolution proposing an amendment to the Constitution of the United States relating to voluntary school prayer.

SENATE JOINT RESOLUTION 100

At the request of Mr. KOHL, the names of the Senator from Connecticut [Mr. LIEBERMAN], the Senator from Massachusetts [Mr. KENNEDY], the Senator from North Carolina [Mr. SANFORD], the Senator from Arizona [Mr. DECONCINI], the Senator from Minnesota [Mr. DURENBERGER], the Senator from Pennsylvania [Mr. SPECTER], and the Senator from Oklahoma [Mr. BOREN] were added as cosponsors of Senate Joint Resolution 100, a joint resolution designating January 5, 1992 through January 11, 1992 as "National Law Enforcement Training Week".

SENATE JOINT RESOLUTION 224

At the request of Mr. SIMON, the names of the Senator from Maine [Mr. MITCHELL], the Senator from Connecticut [Mr. DODD], the Senator from New Jersey [Mr. BRADLEY], the Senator from New York [Mr. MOYNIHAN], the Senator from Virginia [Mr. ROBB], the Senator from Massachusetts [Mr. KENNEDY], the Senator from Montana [Mr. BAUCUS], the Senator from New Jersey [Mr. LAUTENBERG], the Senator from Ohio [Mr. METZENBAUM], the Senator from Michigan [Mr. LEVIN], the Senator from Pennsylvania [Mr. WOFFORD], the Senator from Maryland [Ms. MIKULSKI], the Senator from Oklahoma [Mr. BOREN], the Senator from Utah [Mr. HATCH], the Senator from Wisconsin [Mr. KASTEN], the Senator from Pennsylvania [Mr. SPECTER], the Senator from Alaska [Mr. MURKOWSKI], and the Senator from South Dakota [Mr. PRESSLER] were added as cosponsors of Senate Joint Resolution 224, a joint resolution designating March 1992 as "Irish-American Heritage Month".

SENATE JOINT RESOLUTION 226

At the request of Mr. DODD, the names of the Senator from Louisiana [Mr. BREAUX], and the Senator from Maryland [Mr. SARBANES] were added as cosponsors of Senate Joint Resolution 226, a joint resolution designating the week of January 4, 1992, through January 10, 1992, as "Braille Literacy Week".

SENATE JOINT RESOLUTION 227

At the request of Mr. COATS, the name of the Senator from Oklahoma [Mr. NICKLES] was added as a cosponsor of Senate Joint Resolution 227, a joint resolution proposing an amendment to the Constitution of the United States to limit the terms of office for Members of Congress.

SENATE JOINT RESOLUTION 229

At the request of Mr. BYRD, the names of the Senator from Florida [Mr. GRAHAM], the Senator from Arizona [Mr. DECONCINI], the Senator from Maryland [Ms. MIKULSKI], the Senator from Louisiana [Mr. JOHNSTON], and the Senator from Oregon [Mr. PACKWOOD] were added as cosponsors of Senate Joint Resolution 229, a joint resolution designating the month of May, 1992, as "National Trauma Awareness Month".

SENATE CONCURRENT RESOLUTION 17

At the request of Mr. HATCH, the names of the Senator from Iowa [Mr. GRASSLEY], and the Senator from Oregon [Mr. PACKWOOD] were added as cosponsors of Senate Concurrent Resolution 17, a concurrent resolution expressing the sense of Congress with respect to certain regulations of the Occupational Safety and Health Administration.

SENATE CONCURRENT RESOLUTION 65

At the request of Mr. DECONCINI, the name of the Senator from Ohio [Mr. METZENBAUM] was added as a cosponsor of Senate Concurrent Resolution 65, a concurrent resolution to express the sense of the Congress that the President should recognize Ukraine's independence.

SENATE CONCURRENT RESOLUTION 74

At the request of Mr. DECONCINI, the names of the Senator from Colorado [Mr. WIRTH], the Senator from California [Mr. CRANSTON], and the Senator from Michigan [Mr. RIEGLE] were added as cosponsors of Senate Concurrent Resolution 74, a concurrent resolution calling for acceptance and implementation by certain republics of the commitments on human rights, fundamental freedoms, and humanitarian cooperation contained in the Helsinki Final Act and other documents of the Conference on Security and Cooperation in Europe.

SENATE RESOLUTION 66

At the request of Mrs. KASSEBAUM, the names of the Senator from Maine [Mr. COHEN], and the Senator from Georgia [Mr. NUNN] were added as cosponsors of Senate Resolution 66, a resolution to amend the rules of the Senate to improve legislative efficiency, and for other purposes.

SENATE RESOLUTION 109

At the request of Mr. RIEGLE, the names of the Senator from Maryland [Ms. MIKULSKI], the Senator from Pennsylvania [Mr. SPECTER], and the Senator from Maryland [Mr. SARBANES] were added as cosponsors of Senate Resolution 109, a resolution exercising the right of the Senate to change the rules of the Senate with respect to the "fast track" procedures for trade implementation bills.

SENATE RESOLUTION 184

At the request of Mr. DIXON, the name of the Senator from New York [Mr. D'AMATO] was added as a cosponsor of Senate Resolution 184, a resolution to recommend that medical health insurance plans provide coverage for periodic mammography screening services.

SENATE RESOLUTION 221

At the request of Mr. COATS, the name of the Senator from Arizona [Mr. MCCAIN] was added as a cosponsor of Senate Resolution 221, a resolution to establish a procedure for the appointment of independent counsels to investigate ethics violations in the Senate, transfer to the Committee on Rules and Administration the remaining authority of the Select Committee on Ethics, and abolish the Select Committee on Ethics.

SENATE RESOLUTION 227

At the request of Mr. PRESSLER, the names of the Senator from Idaho [Mr. CRAIG], and the Senator from Alabama [Mr. HEFLIN] were added as cosponsors of Senate Resolution 227, a resolution expressing the sense of the Senate that meaningful reforms with respect to agricultural subsidies must be achieved in the GATT negotiations.

SENATE RESOLUTION 231

At the request of Mr. SIMON, the name of the Senator from Nevada [Mr. BRYAN] was added as a cosponsor of Senate Resolution 231, a resolution expressing the sense of the Senate that the President should submit to the 102nd Congress a proposal for reforming the health care system of the United States.

SENATE CONCURRENT RESOLUTION 80—RELATIVE TO THE DEMOCRATIC SITUATION IN ZAIRE

Mr. SIMON (for himself, Mrs. KASSEBAUM, Mr. KENNEDY, Mr. WOFFORD, and Mr. HOLLINGS) submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 80

Whereas the people of the United States support the development of democratic institutions in Zaire that reflect the will of the people of Zaire and are concerned about ongoing human rights abuses in Zaire as confirmed by the Lawyers Committee for Human Rights;

VOL
137
PT
24
NO
26
1991
—
JA
3
1992
UMI

Whereas Zairean security forces have repressed peaceful mass demonstrations protesting the government's economic policies and urging the implementation of democratic reforms;

Whereas recent press reports and other reliable sources indicate that these incidents caused the death of several people as well as the arrest of numerous people opposed to the regime;

Whereas these tragic events occurred following a period of continuous procrastination in convening a sovereign national conference composed of political, civic, religious, and other organizations;

Whereas President Mobutu has indicated, clearly, a lack of commitment to a transitional government to return the country to democracy by dismissing the new Prime Minister Tshisekedi Wa Mulumba;

Whereas the leaders of government in Zaire, beginning with President Mobutu, have systematically obstructed each attempt to facilitate this conference which could bring about a peaceful transition toward democracy; and

Whereas the catastrophic economic and social situation and the rampant corruption of authority, against which the population of Zaire is revolting, are being aggravated by the political uncertainty deliberately prolonged by President Mobutu: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That the Congress—

(1) calls on President Mobutu to step down and permit the transitional government to return the country to democratic rule;

(2) firmly condemns all violations of human rights in Zaire;

(3) fully supports the aspirations of the Zairean people for democratic change, in particular the convocation of a sovereign national conference that would be fully representative of all the opposition forces, that would be conducted in a democratic manner, and that would have the full right to take its own decisions;

(4) supports the sovereign national conference to form the transitional government as soon as possible to organize free and democratic elections;

(5) invites the international community of nations to express their concern with respect to the repression and corruption of the regime and to provide support to the Zairean democratic forces desire for peaceful change;

(6) calls upon the President of the United States to urge that an appropriate international peacekeeping force be brought into Zaire to ensure stability during the political transition process; and

(7) calls upon the President of the United States to express his willingness to offer appropriate assistance to help implement any future international peacekeeping arrangement.

• Mr. SIMON. Mr. President, I would like to introduce today a resolution, concurrent with one sponsored by Representative Payne in the House and passed by the House last Tuesday, concerning Zaire. I have spoken on the floor regarding the situation in Zaire before now, and I remain gravely concerned. I feel that it is important that we in the Senate take urgent action on the very serious crisis Zaire is now facing. President Mobutu is still clinging to power, and has in fact used his power to choose still another prime minister, rather than seeking the input of the main opposition coalition on this important decision. Proposals to arrange for a transition to free and fair elections appear blocked. This resolution will express the Senate's desire to see a transitional government installed, a government which will begin to address the dire economic situation and to respect human rights in Zaire. It will send a message to Africa that America supports efforts to ensure democracy and peace for all Africans.•

SENATE CONCURRENT RESOLUTION 81—RELATIVE TO THE AMERICAN VISIONARY ART MUSEUM

Ms. MIKULSKI submitted the following concurrent resolution; which was referred to the Committee on the Judiciary:

S. CON. RES. 81

Whereas visionary art is the art produced by self-taught individuals who are driven by their own internal impulses to create;

Whereas the visionary artist's product is a striking personal statement possessing a powerful and often spiritual quality;

Whereas prominent among the creators of visionary art are the mentally ill, the disabled, and the elderly;

Whereas there are many museums of visionary art located throughout Europe such as the Art Brut Museum located in Lausanne, Switzerland;

Whereas the American Visionary Art Museum is the first museum in North America to be wholly dedicated to assembling a comprehensive national collection of American visionary art;

Whereas the collection at the American Visionary Art Museum includes film, literature, and research on all fields related to visionary art;

Whereas the American Visionary Art Museum's mission is to increase public awareness of uncommon art produced by individuals in response to extraordinary circumstances;

Whereas the American Visionary Art Museum seeks to remove the stigma associated with disability by illuminating the power of humans to triumph over adversity through creativity;

Whereas the national policy of deinstitutionalization has resulted in the closure of many facilities and the destruction of visionary artwork;

Whereas the American Visionary Art Museum has the support of certain offices of the National Institute of Mental Health and other government agencies in its goal to function as a national repository for works produced by formerly institutionalized individuals; and

Whereas it is the best interest of the national welfare and all American citizens to preserve visionary art and to celebrate this unique art form: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that—

(1) visionary art should be designated as a rare and valuable national treasure to which we devote our attention, support, and resources to make certain that it is collected, preserved, and understood; and

(2) the American Visionary Art Museum is the proper national repository and educational center for visionary art.

SENATE CONCURRENT RESOLUTION 82—URGING GREATER PROGRESS TOWARD DEMOCRATIZATION IN HONG KONG

Mr. MACK (for himself, Mr. MCCONNELL, and Mr. LUGAR) submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 82

Whereas the 1984 Sino-British Joint Declaration on the Question of Hong Kong (hereafter in this concurrent resolution referred to as the "Joint Declaration") provides for the reversion of Hong Kong to China on July 1, 1997, after which Hong Kong will become a Special Administrative Region of the People's Republic of China;

Whereas the cornerstone of the Joint Declaration is the principle that the people of Hong Kong will govern themselves through an elected legislature and an executive accountable to the people and will enjoy "a high degree of autonomy" for at least 50 years after 1997;

Whereas the provisions of the Joint Declaration for an autonomous, democratically elected government were critical to persuading the people of Hong Kong to accept that agreement;

Whereas the Basic Law of the Special Administrative Region of the People's Republic of China (PRC), which will serve as the constitution of Hong Kong after 1997, was promulgated by the National People's Congress of the PRC but was never ratified or accepted by the people of Hong Kong;

Whereas, despite the statement in the Joint Declaration that the Hong Kong legislature "shall be constituted by elections", the Basic Law provides for only one-third of the legislature to be democratically elected by 1997, only one-half of the legislature by 2007, and contains no provision that the legislature will ever have a democratically elected majority;

Whereas confidence in the future of Hong Kong was severely eroded by the Government of China's June 1989 suppression of the pro-democracy movement in China;

Whereas the continued repression of the pro-democracy movement in China and statements and actions of the Government of China regarding Hong Kong have heightened concerns that the commitments of the Joint Declaration and the protections provided for in the Basic Law might not be adhered to and that the people of Hong Kong might be deprived of their freedom and human rights after 1997;

Whereas, in September 1991, members of the Hong Kong Legislative Council were selected by the people of Hong Kong in direct elections for the first time, but only 18 out of 60 members were allowed to be chosen through such direct elections;

Whereas in these elections a coalition of advocates of greater democracy received overwhelming support from the people of Hong Kong and won 16 out the 18 seats determined by the elections;

Whereas the people of Hong Kong, in voting for the pro-democracy coalition, expressed their desire for greater progress towards democracy in Hong Kong at the risk of displeasing the Government of the People's Republic of China; and

Whereas the people of Hong Kong, as evidenced by the voting in the September 1991 elections, believe that their freedoms, including the right to private property and other economic freedoms, will be best protected by accelerating the development of fully democratic institutions: Now, therefore be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that—

(1) fulfillment of the Joint Declaration and contemporaneous commitments of the governments of the United Kingdom and the People's Republic of China, require that the Legislative Council of Hong Kong be democratic elected;

(2) democratic institutions and practices should be firmly established before sovereignty over Hong Kong is transferred to the People's Republic of China in 1997;

(3) the Basic Law should be amended to be consistent with the Joint Declaration's commitments to democratic and autonomous government;

(4) the governments of the United Kingdom and the People's Republic of China should respect the will of the people of Hong Kong to establish further democratic institutions and practices and to take steps consistent with the Joint Declaration to safeguard their basic human rights before and after 1997; and

(5) the people of Hong Kong are to be commended for their efforts to maintain their freedom and prosperity and to attain fully democratic government.

Mr. MACK. Mr. President, it is ironic that just as democracy and freedom are sweeping the globe as never before, some six million of the freest people on earth are soon to be deliberately handed over to a Communist regime. The world cannot stand silently by as the fate of the free people of Hong Kong is put into the hands of the dictators of Beijing.

Today, Senators SIMON, MCCONNELL, and LUGAR join me in introducing a Senate concurrent resolution urging greater progress toward democracy in Hong Kong. Time is short for the people of Hong Kong, and it is time that the United States take a more active role in this struggle for freedom.

Mr. President, this is a situation Hong Kong faces, and how the people of Hong Kong are expressing their desire for democracy.

On July 1, 1997, the British colony of Hong Kong will become a "Special Administrative Region" of the People's Republic of China [PRC]. In September of this year, the people of Hong Kong voted overwhelmingly for legislative candidates advocating greater progress toward democracy in Hong Kong before the 1997 turnover.

Now, less than one third of the Hong Kong legislature is directly elected. The Chinese-drafted Basic Law—which will be Hong Kong's constitution after 1997—provides for only half the legislature to be directly elected by 2007, and has no provision for a majority of the legislature to ever be directly elected.

The people of Hong Kong voted for candidates who believe that the best hope of safeguarding their freedom and prosperity is to strengthen democratic institutions in Hong Kong before 1997. The resolution commends the people of Hong Kong for their efforts to maintain their freedom and prosperity and to attain fully democratic government.

The resolution also urges the British and Chinese governments to respect the will of the Hong Kong people to accelerate the building of democratic institutions before 1997 and to take steps consistent with the 1984 Sino-British Joint Declaration to safeguard their freedoms and human rights.

I would like to emphasize that this resolution does not ask or demand that the joint declaration be reversed. It calls for full and fair implementation of the declaration, whose letter was to guarantee a high degree of autonomy and whose spirit was to guarantee full democracy for Hong Kong well into the next century.

The problem is not joint declaration, but that Britain and China have betrayed the letter and spirit of the declaration by refusing to allow the Hong Kong people to guarantee their own freedoms. The Hong Kong people have been denied the ability to ratify or amend the Basic Law, or to institutionalize democracy in the precious years before 1997.

That is wrong, and it is time that the United States Congress, and United States policy, said so.

I ask unanimous consent that a background paper on Hong Kong be printed in the RECORD.

[From the office of Senator Connie Mack]

HONG KONG'S FREEDOM IN DANGER

Hong Kong is one of the world's great success stories. Once an impoverished backwater on the South China Sea, Hong Kong has become a free market showplace. With the world's highest population density and virtually no natural resources, the people of Hong Kong have built one of East Asia's richest economies on the principles of free trade (no tariff or nontariff barriers), low taxes, and little government interference in the economy. Hong Kong's achievements in standard of living, per capita income, life expectancy, literacy, and other indices have been the envy of the developing world.

Sadly, the "Hong Kong Miracle" may soon come to a halt. In 1997, without the consent of its people, Hong Kong will be turned over to the People's Republic of China, one of the most repressive communist totalitarian states and perpetrator of the 1989 "Tiananmen Square Massacre" in Beijing. While the rest of the world is enjoying an unprecedented trend toward democracy and free markets, the people of Hong Kong (many of them originally refugees from communist China) face being pulled down in the death throes of a failed system.

HISTORICAL BACKGROUND

Hong Kong is a British Crown Colony. In 1842, China ceded Hong Kong Island in perpetuity to the the United Kingdom, a result of 19th-century conflicts between Britain and China over the opium trade. In the 1860's, Britain received a perpetual lease in the nearby peninsula area south of Boundary Street in present-day Kowloon. Finally, in 1898, China granted the British a 99-year lease on areas adjoining Kowloon, called the "New Territories." Hong Kong was declared a free port in 1841, but its major importance and growth as a commercial and manufacturing center occurred after World War II.

In the early 1980s, the government of British Prime Minister Margaret Thatcher concluded that the parts of Hong Kong under permanent British control (Hong Kong Island and most of Kowloon) would not be viable after the expiration of the New Territories lease in 1997. Accordingly, in 1982 the British began negotiations with the Chinese communists over the colony's future. The result was a December 1984 Chinese/British "Joint Declaration," under which the entirety of Hong Kong (including the areas under British sovereignty or perpetual lease-rights) would be returned to China on July 1, 1997, along with the New Territories.

REVERSION WITHOUT REPRESENTATION

The Joint Declaration is a bilateral agreement between London and Beijing—the people of Hong Kong were not represented in the negotiations. (While not a party to the Declaration, the United States has been supportive of British policy.) The Joint Declaration states that for at least 50 years after the 1997 reversion Hong Kong will be a Special Administrative Region in China with "a high degree of autonomy," retaining its own economic and administrative system, and continuing to participate in international agreements and organizations. A new "Basic Law," specified under the Joint Declaration to serve as a constitution for Hong Kong after 1997, was drafted without any effective contribution by the Hong Kong people; it contains no provision for a legislature with an elected majority.

Thus, despite these assurances of "autonomy," most of Hong Kong faces 1997 with increasing trepidation, based upon past experience with the Chinese communists, and reinforced by the bloody events of June 1989. In addition, the communists' blunt opposition to any democratization of Hong Kong institutions has added to these fears. Despite Beijing's opposition, elections were held in September 1991 for 18 of the 60 seats on Hong Kong's largely rubber-stamp Legislative Council. To the surprise of many observers (and the chagrin of both Beijing and the British administration), 16 seats were won by the United Democrats of Hong Kong and their allies. The United Democrats, led by Legislative Council member Martin Lee, favor more democracy in Hong Kong and less interference by the Chinese communists in the colony's affairs. In particular, Mr. Lee and the United Democrats believe that international pressure on the Chinese and the British is essential to protecting Hong Kong's interests.

THE AMERICAN STAKE IN HONG KONG

Hong Kong is a major U.S. trading partner and a key link in the world trade network. The United States is tied with Japan (and far ahead of Britain) in its economic presence in Hong Kong, with over 800 U.S. corporations located there and investments of about $6 billion in the colony. In addition, Hong Kong is one of America's largest trading partners, with 1990 U.S. imports of almost $7 billion and exports to the U.S. of over $9 billion. In its global commercial importance, Hong Kong's foreign trade of nearly $100 billion outstrips that of the whole of mainland China. Hong Kong's demise as a commercial and financial center would send shock waves throughout East Asia and the Pacific region, with a negative impact on the U.S. economy.

But the crisis in Hong Kong cannot be measured purely in economic terms. The United States has taken the lead in promoting democratic and free market values in the developing world and, in particular, in the formerly communist countries of the Soviet Union and Eastern Europe. The collapse of the "Evil Empire" represents a triumph of

humane and civilized values over communist tyranny—the same tyranny that will swallow up almost 6 million Chinese people in Hong Kong in less than 6 years. Since 1984, Hong Kong has experienced an intensifying "brain drain" as its most talented people cast about with increasing desperation for a place of escape: Britain, Australia, Canada, Europe, the United States. As 1997 approaches, fears of public disorder and economic collapse are increasing.

A NEW U.S. POLICY NEEDED

What can the United States do? As of 1991, it is unlikely that the scheduled transfer of sovereignty can be avoided. The United Kingdom remains determined to abide by its agreement with Beijing. However, the United States must begin to make it clear to both Britain and the Chinese communists that the United States has important and independent interests in Hong Kong, and that disregard for these interests will have consequences.

It is important that the U.S. government distance itself from British policy (as it has begun to do, for example, over the recent British agreement to forcibly repatriate Vietnamese "boat people" from Hong Kong) and establish direct contacts with spokesmen for the people of Hong Kong, such as Martin Lee. Indeed, the recent meeting between Vice-President Dan Quayle and Martin Lee is a significant step in the development of such relationships.

Another significant step that can be taken to reassure the people of Hong Kong that America is both interested and concerned about their future is the adoption of the U.S.-Hong Kong Policy Act. Sen. Mitch McConnell (R-KY) has introduced this legislation that would formalize the U.S.'s bilateral relationship with Hong Kong. He correctly argues that "the more extensive and established U.S.-Hong Kong ties are before 1997, the more likely that they will be maintained after 1997."

Finally, and most importantly in my view, the United States must insist on democratization of Hong Kong institutions to guarantee the autonomy and respect for human rights promised in the Joint Declaration. The United States has been a beacon of democracy which has helped steer Eastern Europe and the Soviet Union away from totalitarianism. For the United States to passively allow the absorption of six million free Hong Kong citizens into an authoritarian China without democratic safeguards is unthinkable.

There are four steps which must be taken to provide for the development of democratic institutions in Hong Kong:

(1) All members of the Legislative Council of Hong Kong must be democratically elected—a requirement consistent with the Joint Declaration and contemporaneous commitments of the United Kingdom and the People's Republic of China;

(2) All democratic institutions and practices should be firmly established before sovereignty over Hong Kong is transferred to the People's Republic of China in 1997;

(3) The Basic Law should be amended to be consistent with the Joint Declaration's commitments to democratic and autonomous government; and

(4) The governments of the United Kingdom and the People's Republic of China should respect the will of the Hong Kong people to further establish democratic institutions and practices and to take steps consistent with the Joint Declaration to safeguard their basic human rights before and after 1997 by permitting the Hong Kong people to determine by referendum these matters which so dramatically affect their future.

It is time for the United States to take an active role in aiding the Hong Kong people to fulfill their desire for democracy. A democratic Hong Kong will assure both the freedom of its people and the vitality of its economy.

There being no objection, the paper was ordered to be printed in the RECORD, as follows:

SENATE RESOLUTION NO. 234—RELATING TO COMMERCIAL AIRCRAFT SALES

Mr. BINGAMAN (for himself, Mr. EXON, Mr. GORE, Mr. GLENN, Mr. BRYAN, Mr. LIEBERMAN, Mr. ADAMS, Mr. HARKIN, Mr. FORD, Mr. DASCHLE, Mr. LEAHY, Mr. DODD, Mr. KERREY, and Mr. WELLSTONE) submitted the following resolution; which was referred to the Committee on Commerce, Science, and Transportation:

S. RES. 234

Whereas the United States would market position in many manufacturing and high-technology areas has deteriorated in part because of the sale of United States companies with developed technologies to foreign interests;

Whereas development of advanced technology industries, and the aerospace industry in particular, has been vigorously supported by the governments of most other industrialized nations;

Whereas the commercial aircraft industry is regarded as a strategic industry by most industrialized nations and is directly subsidized by foreign governments to the degree that it is often difficult to separate government from industry;

Whereas McDonnell Douglas has derived benefits for its commercial aircraft program from its contracts with the Department of Defense for research, development, and procurement of military transports, and there are close links between the technology of commercial airliners and of military transports;

Whereas current United States law restricts foreign equity investment in United States airlines on national security grounds;

Whereas Taiwan, in furtherance of its six-year economic plan to develop and promote high-technology industry, would instantly acquire world-class status in this strategic industry as a part of the world's third largest commercial aircraft firm for an investment of a mere $2,000,000,000, which is a small fraction of the investment already made by United States taxpayers and McDonnell Douglas' shareholders;

Whereas the United States has allowed Taiwan to pursue mercantile trade policies and run a cumulative trade surplus of $100,000,000,000 during the last 10 years, that is now being used to purchase a United States high technology company;

Whereas United States trade policy has allowed Airbus Industrie, a company that receives enormous direct subsides from European governments for aircraft manufacture in Europe, to compete unfairly with United States aerospace companies and to surpass McDonnell Douglas and become the second-largest aircraft producer in the world in the twenty-one years since it was established;

Whereas McDonnell Douglas has suffered gravely as a result of this unfair competition, and United States policy over the past decade has been ineffective in preventing the damage to McDonnell Douglas by Airbus;

Whereas if this proposed sale occurs, up to sixty percent of the manufacturing work on the MD-12 will be done in Taiwan, accelerating the transfer of high-technology manufacturing jobs to other countries over the long term;

Whereas the Exon-Florio law gives the President the power to suspend or prohibit a transaction if such transaction would result in a foreign interest exercising control over a United States company in a manner that might impair the national security of the United States;

Whereas United States foreign investment policy must not ignore serious national security concerns regarding foreign purchases of United States companies and technologies;

Whereas other nations have strategic technology, manufacturing, and trade policies that promote research, development, production, and domestic equity ownership of strategic technologies and industries such as aerospace; and

Whereas a strong American aerospace sector is critical to the economic security and long-term defense of the United States, and the best interest of the United States can only be served by thoroughly examining the long-term impact of the proposed sale on the United States industrial base: Now, therefore, be it

Resolved, That (a) the Senate has strong reservations about the long-term impact on the United States aerospace industry, including the supplier base, skilled workers, and technology and manufacturing capabilities, of the proposed sale of forty percent of McDonnell Douglas' commercial aircraft division to a corporation that is owned in large part by a foreign government.

(b) It is the sense of the Senate that the President should—

(1) conduct a 60-day review of the proposed sale, consulting with the departments and agencies of the United States that he deems appropriate;

(2) examine closely the proposal's long-term impact on the health and competitiveness of the United States aerospace industry, including the supplier base;

(3) examine closely the relationship between the civilian and defense sectors of the aerospace industry, with special attention to the impact of declining defense budgets, including cancellations and cutbacks in research and development and weapons procurement programs, on the industrial base of the United States, on the economic health of dual military-civilian aerospace firms, and on the retention of highly skilled, high-value American jobs;

(4) examine closely the proposal's short- and long-term impact on manufacturing employment in the United States aerospace sector, including at the second and third tier supplier levels;

(5) examine closely United States policy toward the support and promotion of the export of United States aerospace products and options that would allow McDonnell Douglas to compete in foreign markets against subsidized producers such as Airbus;

(6) examine closely the options available to the Federal Government for ending foreign unfair trading practices in high-technology products, particularly aerospace products;

(7) investigate, with McDonnell Douglas, its supplier base, and other representatives of United States industry and labor, available Federal options in areas, including technology policy, manufacturing policy, trade

policy, and foreign investment policy, that would preserve high-technology research, development and manufacturing jobs in the United States, as well as preserving American equity ownership of McDonnell Douglas' commercial aircraft division while maintaining the company as a viable commercial entity; and

(8) submit a report containing his findings within 60 days of the adoption of this resolution to the President of the Senate.

• Mr. BINGAMAN. Mr. President, I rise today to introduce a Senate Resolution concerning the proposed sale of forty percent of McDonnell Douglas's commercial aviation division to the Taiwan Aerospace Corp. I am joined in offering this resolution by Senators EXON, GORE, GLENN, LIEBERMAN, BRYAN, ADAMS, HARKIN, KERREY, FORD, DASCHLE, LEAHY, DODD, and WELLSTONE.

This resolution calls upon the President to review the proposed sale and report on its implications for America's competitive position in the aerospace sector. It is not a resolution to block the deal. It is a resolution that calls upon the President to seek to define an alternative more favorable to this Nation's long-term prospects that the current deal, which may ultimately result in 49.9 percent of the equity in McDonnell Douglas' commercial aircraft division being in foreign hands.

Mr. President, over the last two decades, the U.S. share of world export markets has remained flat or declined in virtually every key area of manufacturing. We make less and less of the manufactured products sold in our own domestic market. The examples are too numerous to cite: cars, steel, VCR's, TV's, semiconductor chips, machine tools, industrial robots, telecommunications equipment, and yes, commercial aircraft, to name but a few. The average American need only look around to see how few of the manufactured products he or she purchases are still made in this country. And our losses are not just in established industries, but in key emerging products like optoelectronics, fuel cells, and superconducting materials.

In fact, it is hard to find a single area in which the relative American position was strengthened during the 1980's. This includes the aerospace sector, although it continues to be our leading export industry, surpassing all others in the contribution it makes to our trade balance. More than ever before our aerospace firms are challenged from abroad. And much of this challenge is the result of the combination of the industrial and trade policies of our trading partners with the indifference of our Government over the past decade to the health of U.S. firms affected by those policies.

The development of advanced technology industries has been vigorously supported by the governments of most other industrialized nations. The European Community, Japan, and the other nations of the Pacific Rim, our chief economic rivals, have pursued numerous government-led and/or government-funded efforts to upgrade capabilities in a wide range of high technology industries.

The aerospace industry in particular has received vigorous support from foreign governments. Aerospace is regarded as a strategic industry by most industrialized nations. This fact is even acknowledged in the preamble to the General Agreement on Tariffs and Trade, which recognizes that the commercial aircraft sector is viewed as an important component of economic and industrial policy. The industry is subsidized abroad to the degree that it is often difficult, if not impossible, to separate government from industry.

It is true, as other nations point out, that McDonnell Douglas, like Boeing, has derived some benefits for its commercial aircraft program from its contracts with the Department of Defense for research, development, and procurement of military transports, including the current C-17 program and the earlier KC-10 program. The technological synergies between civilian and military technology are such that many technological innovations first funded by the Department of Defense have been spun off into the commercial sector. But these benefits have been indirect, and they are likely to decrease in the future as defense budgets decline.

The defense budget downturn comes at a time when the EC, Japan, and rapidly developing Pacific Rim industrialized countries such as Korea and Taiwan are actively pursuing the development of strategic high-technology industries, including commercial aerospace. At the same time, high-technology developments with implications for defense are increasingly being made in the commercial sector rather than the military sector. The defense market will increasingly become a niche market for firms whose main business will be the far larger commercial marketplace. In those circumstances, a decline in the competitive position of United States high-technology industry may well result in a decline in the ability of our defense sector to maintain the technological superiority of our weapon systems.

U.S. efforts to support the domestic commercial aircraft manufacturing industry directly have been infrequent and ad hoc, and not part of a coherent strategy to support the sector. That in my view needs to change. Our Government cannot leave the playing field entirely to other governments. We need to relearn lessons from our past when laissez-faire ideology did not dominate our policymaking. In that regard it is interesting to note that the Johnson administration provided a $75 million loan guarantee in 1967 to ease the merger of Douglas Aircraft Co. and McDonnell Aircraft Co. and save the company's commercial aircraft business.

Foreign governments consider the commercial aircraft industry a critical sector which should be supported. The United States has considered it critical enough to support in the past. And current U.S. law restricts foreign equity investment in U.S. airliners on national security grounds. If foreign influence on United States airliners represents an unacceptable national security risk, should we not at least think through the implications of having 49.9 percent of McDonnell Douglas under foreign control? What if a few years from now, McDonnell Douglas needs a new infusion of capital and its foreign collaborators are again happy to oblige? Is majority foreign-ownership acceptable?

The Government of Taiwan, like many other nations which pursue coordinated industrial policies, has targeted various industrial sectors for support. State-owned enterprises spearheaded Taiwan's move into industries such as steel, aluminum, and petrochemicals, and through the 1970's the share of Taiwan's industrial production of these enterprises averaged over 22 percent. By 1988, despite rapid growth in its GNP and a burgeoning trade surplus with the United States, state-owned companies continued to account for 18 percent of Taiwan's industrial production.

The Taiwan Aerospace Co. [TAC] is one such enterprise, set up recently by the Government of Taiwan and various Taiwanese firms, many with close ties to the government, in furtherance of its 6-year economic plan to develop and promote high-technology industry. If McDonnell Douglas's deal with TAC is finalized, Taiwan would instantly acquire world-class status in the strategic commercial aircraft industry through the purchase of 40 percent of the world's third largest commercial aircraft firm for an investment of a mere $2 billion, which is a small fraction of the investment already made by U.S. taxpayers and McDonnell Douglas's shareholders.

If this deal were to go through as planned, it would be difficult to argue that foreign government support of strategic industries is a poor policy choice for those governments. The world will see that the investment of only $2 billion is sometimes enough to propel a country into world-class status in an industry which generates tens of billions of dollars in sales annually. The reluctance of this and the previous administration to even consider the possibility that some industries must be supported directly in the face of other governments' policies will have made this possible.

The past two administrations' policies toward trade have clearly helped propel McDonnell Douglas into the arms of Taiwan Aerospace Corp. We have allowed Taiwan to pursue mercantile trade policies and run a cumulative trade surplus with the United States of over $100 billion over the last 10 years. This huge cash horde is now available to purchase key U.S. high-technology companies. We are apparently about to start selling not just New York and Los Angeles office buildings to pay for a decade of failure in our trade policy, but our key industrial firms as well.

Administration policy has also allowed Airbus Industrie, a company that receives enormous direct subsidies from European governments for aircraft manufacture in Europe, to compete unfairly with U.S. aerospace companies and to surpass McDonnell Douglas and become the second-largest aircraft producer in the world in the 21 years since it was established. A recent Office of Technology Assessment report titled "Competing Economies: America, Europe, and the Pacific Rim" points out that Airbus has received funding equal to 75 percent of the development costs of every Airbus model that has been developed. Chapter 8 of the OTA report examines government support of the large commercial aircraft industries of Japan, Europe, and the United States, and I ask that the chapter be included in the Record at the end of my statement.

You cannot read that chapter and conclude anything but that other nations do not accept the pure laissez-faire doctrine the administration espouses and largely chooses to live by. They pursue targeted industrial policies and mercantile trade policies in a coordinated fashion. We leave our firms to compete with national governments. That ultimately will mean our industrial structure in a variety of industries, from commercial airliners to space launch vehicles to advanced electronics, will be determined by the industrial and trade policies of other nations. I find that unacceptable. Future generations of Americans will find that unforgivable.

McDonnell Douglas has suffered gravely as a result of this unfair competition, and U.S. policy over the past decade has been totally ineffective in preventing damage to the company by Airbus. And the administration's unwillingness to address this issue has now led McDonnell Douglas to propose this sale of its equity.

If this sale were to occur, up to 60 percent of the manufacturing work on the MD–12, McDonnell Douglas's next generation commercial aircraft, will be done in Taiwan. As United States world market share for high-technology products declines, this will have the effect of accelerating the transfer of high-technology manufacturing jobs to other countries over the long term. It will be especially damaging to McDonnell Douglas's subtier suppliers in this country. And it won't be long before research and engineering design will follow manufacturing.

Mr. President, the Exon-Florio law gives the President the power to suspend or prohibit a transaction if such transaction would result in a foreign interest exercising control over a U.S. company in a manner that might impair the national security of the United States. The Committee on Foreign Investment in the United States [CFIUS], chaired by the Department of the Treasury, is the body that studies transactions and determines whether or not they might impair our national security. I believe that CFIUS should study this transaction.

I do not know whether this sale would impact national security in the narrow sense of that term, which CFIUS has thus far chosen to employ. But I would point out the other nations, such as Japan, with similar national security restraints on foreign equity ownership in key sectors do not interpret the term narrowly. Nor should we. Our national security is fundamentally tied to the strength of our manufacturing sector. We cannot allow that sector to be hollowed out indefinitely.

This administration's policy has been captured in a remark once made by an unknown administration official: "Semiconductor chips, potato chips, what's the difference?" Well, I think most Americans think there is a difference. Our vision of our Nation's future involves good jobs for our children developing and producing the most advanced products for world markets. Administration policy today and for the past decade has simply not embraced or served that vision.

However, I want to again reiterate that a CFIUS decision to simply suspend or block this transaction is not my goal. In this case, if the sale were blocked and no effort was made to address the company's legitimate need for capital or the unfair competitive pressures that have driven it to seek out a foreign government as an investor, McDonnell Douglas would almost certainly be forced out of the commercial aircraft business in the long run. This is not an acceptable alternative.

Other nations have strategic technology, manufacturing, and trade policies that promote the research, development, production, and domestic equity ownership of strategic technologies and industries such as aerospace. If the United States is to maintain its position in high-technology industries over the long term, we need to develop policies in these areas, or run the risk of having our industrial structure determined by the industrial policies of other nations.

Mr. President, this resolution calls upon the President to review the proposed deal. It asks him to consult with whichever departments and agencies he deems appropriate to examine closely the proposal's long-term impact on the health and competitiveness of the United States aerospace industry, including the supplier base. The impact on the supplier base is particularly important. If 60 percent of the manufacturing of the most technologically sophisticated commercial aircraft McDonnell Douglas has developed is done abroad, it is likely that the high-technology supplier base will also move abroad. The loss of that supplier base would make future U.S.-based manufacture of advanced aircraft less likely and hold implications for the United States maintaining its position as the world leader in aerospace.

This resolution calls upon the President to examine closely the relationship between the civilian and defense sectors of the aerospace industry, with special attention to the impact of declining defense budgets on the industrial base of the United States, the economic health of dual military-civilian aerospace firms, and on the retention of highly skilled, high-value-added American jobs.

Given the synergies between commercial and military technology not just in aerospace but in most of the critical areas identified by the Department of Defense in its first three Critcial Technology Plans, the loss of U.S. high-technology companies will have national security implications, particularly growing dependence on foreign sources for critical components and diminishing ability to reconstitute the defense base in case of need. In the absence of Federal policies that support commercial high-technology industry, directly or indirectly, to the extent that military research, development, and procurement has since World War II, the impact on those companies of lower defense budgets is likely to accelerate the loss of United States capabilities in the face of targeted civilan industry assistance programs by foreign governments.

The loss of highly skilled workers in high-technology manufacturing sectors should be of particular concern because of the difficulty in reconstituting and retraining a skilled workforce once it has been disbanded. Thus the resolution calls upon the President to examine closely the proposal's short- and long-term impact on manufacturing employment in the aerospace sector, including at the second and third tier supplier levels. The resolution also calls upon the President to examine closely U.S. policy toward the support and promotion of the export of U.S. aerospace products, and options that would allow McDonnell Douglas to compete in foreign markets against subsidized producers such as Airbus. With its government backing, Airbus has been able to offer financing packages for purchase of its aircraft that McDonnell Douglas and other commercial aircraft manufacturers cannot match. Given the policies of other advanced industrialized nations, I believe that the Federal Government should be more active in promoting the export of high-technology manufactured goods made in the United States. The proposed sale should be taken as an opportunity to begin addressing these issues through an examination of trade policy as it applies to the aerospace sector.

The United States should also be more active in trying to end foreign unfair trading practices in high-technology products, particularly direct subsidies such as those received by Airbus. By one means or another, we need to reestablish fair trade in foreign government-targeted industrial sectors. We cannot have our industrial structure determined by the industrial policies of other nations. We can not continue to concede sector after sector of high technology industry to other nations.

Finally, the resolution calls upon the President to investigate, with McDonnell Douglas, its supplier base, and representatives of U.S. industry and labor, federal initiatives that might provide McDonnell Douglas with options that go beyond seeking the assistance of a foreign government. Efforts need to be made in areas such as development of a coherent technology policy, development of a manufacturing policy that assists firms in upgrading their manufacturing capabilities, development of a strategic trade policy that promotes the export of high value-added U.S. goods, and development of a foreign investment policy that makes sense in light of vigorous foreign efforts to target strategic industries.

The goal of these efforts should be the preservation of high-technology research, development, and manufacturing jobs here in America. Using McDonnell Douglas as a case study, we should explore the various options in these areas and try to develop a plan of action that would preserve American equity ownership of McDonnell Douglas's commercial aircraft division while maintaining the company as a viable commercial entity.

Mr. President, this resolution is not intended to tie McDonnell Douglas's hands. It is not intended to bash Taiwan. It is intended to begin a long-overdue debate in America on how we are going to treat the U.S. high-technology industrial sectors that are targeted by coordinated, foreign government-led development efforts. This proposal provides an opportunity to examine the impact of foreign government-subsidized development of strategic industries and begin to develop policies of our own that will support American industry in the world market.

Mr. President, if we choose to stand idly by while the industrial policies of Pacific Rim nations and the European Community dictate our industrial structure in the aerospace sector, one of the few high-technology manufacturing sectors where the United States holds a clear edge, when will we take action?

There are alternatives. For example, the Aerospace Industries Association recently released a report titled "The U.S. Aerospace Industry in the 1990's: A Global Perspective," that lays out numerous recommendations for industry and government that would aid the aerospace sector. Rather than listing my own proposals, I would ask my colleagues to consider the proposals developed by industry, developed in part to prevent the need for the sale which McDonnell Douglas is now proposing. I ask that the summary and highlights of the report be included in the Record at the end of my statement.

Mr. President, the McDonnell Douglas transaction should be a wakeup call for this Nation. It is testimony to the failure of a decade of pure laissez-faire ideology guiding our economic policymaking. We can no longer afford to deal with the rest of the world as we wish they were. We need to deal with them as they are. Many of the steps we need to take to begin to deal with this self-inflicted problem are clear. The question is whether this administration is prepared to change course and take those steps.

Government Support of the Large Commercial Aircraft Industries of Japan, Europe, and the United States

(Chart and figures referred to are not reproducible in the Record.)

The commercial aircraft industry is often characterized by superlatives. It has the largest trade surplus of any U.S. Industry. There are fewer large firms dominating the world market than in perhaps any other industry. It is marked by larger economies of scale than most other industries. In every country that has a domestic commercial aircraft assembler, the hand of government is prominent in the industry's behavior and performance. Because of the industry's distinctive characteristics, it pays to be cautious in drawing broader lessons about the efficacy of government involvement in the industry's competitiveness.

Even with an appropriate dose of caution, however, some conclusions about the nature of government/business relationships in the commercial aircraft industry sound familiar. The United States has influenced the commercial aircraft industry primarily through spinoffs from other programs, rather than directly or with the intent of improving competitiveness. Four European nations (France, Germany, Great Britain, and Spain) have played a much more decisive role in boosting the competitiveness of their aircraft consortium. Airbus Industrie. The amount and kind of support extended to Airbus from these governments has been far more effective in improving its competitiveness than the military spinoffs and basic research programs of NASA in the United States. While Japanese industrial policy has failed to produce a domestic assembler of large commercial aircraft, Japan, like Europe, has expended a great deal of money and effort aimed directly at improving competitiveness in the aircraft industry. Japanese firms have become world-class subsystems makers. In short, both Japan and Europe have directly aimed public policies and supports at competitiveness, and have gotten results. In comparison, American companies have gotten much less consistent or effective boosts from policies that were directed toward other goals.

Several advanced countries and even some developing nations have decided that the capacity to build commercial aircraft is important to their national self-interest. The preamble to the General Agreement on Tariffs and Trade (GATT) Agreements on Trade in Civil Aircraft acknowledges this, stating that countries have made that pact recognizing that the aircraft sector is viewed as a particular important component of economic and industrial policy. The principal reasons are the industry's links to national security, the generation of technologies that may spill over the other industries, and contributions of aircraft exports to a positive balance of payments, the creation of well paying jobs, and national pride.

Government supports of the commercial aircraft industry have taken various forms: synergies between military and commercial work, funding of civil R&D, direct financial supports for specific commercial projects, encouragement of the growth of domestic demand and efforts to steer it toward domestic suppliers, export assistance, and efforts to organize industry so it is well suited to international competition. The most important effects in the United States have come from the National Aeronautics and Space Administration (NASA) and Department of Defense (DoD) programs. While promoting competitiveness has been a goal of NASA's aeronautics program, other benefits include the side effects of actions taken for reasons unrelated to competitiveness. As a result, the benefits have consistently been smaller than if promotion of international competitiveness had been a major policy objective. In particular, the indirect benefits U.S. Companies received from DoD programs were substantial in the past, but have declined as military and civil technologies have diverged and the air transport industry has matured. In contrast, the direct financial supports used heavily in Europe and Japan have been provided specifically for the purpose of improving competitiveness. While they have been costly, they have also been effective and appear likely to continue.

Table 8–1 assesses the relative importance of each of the major types of support to the success of commercial aircraft manufacturers in Europe, Japan, and the United States.

TABLE 8–1—BENEFITS TO COMMERCIAL AIRCRAFT AND COMPONENT MANUFACTURERS OF VARIOUS TYPES OF GOVERNMENT ACTIONS[1]

	U.S.	Japan	Europe
Direct financial aid	Small (↓)	Large (=)	Very large (=)
Military R&D plus procurements	Medium (↓)	Small (↑)	Medium (↓)
Civil R&D	Medium (=)	Small (=)	Small (=)
Control of domestic demand	None (=)	Small (=)	Medium (↓)

TABLE 8–1—BENEFITS TO COMMERCIAL AIRCRAFT AND COMPONENT MANUFACTURERS OF VARIOUS TYPES OF GOVERNMENT ACTIONS [1]—Continued

	U.S.	Japan	Europe
Export assistance	Small (=)	None (=)	Small (=)
Organizing the industry	None (=)	Small (=)	Medium (=)

Legend: (↑) increasing in importance; (=) remaining at about the same level of importance; (↓) decreasing in importance.

[1] This table compares total benefits, not efficiency. The fact that two categories get the same rating does not mean that the costs of providing those supports are necessarily equal. Also, some types of government actions affect some parts of the industry more than others—e.g., military/civil synergies are greater for engine makers than airframers. This table represents a rough average for the whole industry.

RISK AND THE ROLE OF GOVERNMENTS

The principal way these supports benefit manufacturers is by reducing risk. Risk in the commercial aircraft business is higher than in most others. Both technological and market uncertainties are great, and the costs of launching a new model are enormous. This combination of uncertainties and high costs adds up to big risks. Bringing out a new airplane can mean betting the company—and more than one company has lost the bet. Government support can reduce these risks to a point where the relation between risks and expected rewards is favorable and a company can proceed to launch a new model or adopt a new technology.

The use of state-of-the-art systems in each new generation of aircraft confronts manufacturers with significant technological risks. A project may be years and billions of dollars into its development before a technical obstacle is discovered that delays or stops the effort. Rolls Royce's effort to make all-comprosite fan blades for the Lockheed L–1011 engine failed, causing delay in the plane's introduction and ultimately the bankruptcy of both companies. Boeing's 747 got heavier and heavier throughout the development process, requiring more and more powerful engines and driving up costs. Pan Am, the 747's launch customer, Pratt & Whitney, the engine makers, and Boeing were all nearly bankrupted by the effort. Even when technological uncertainty does not threaten the launch of a model, it affects the manufacturer's decision about whether to adopt advanced subsystems and components. The opportunity to develop and prove advanced technology at the expense of the government, in either military or civil R&D projects, can help give companies enough confidence in the cost and performance of the new systems to justify incorporating them into products.

More than technological failure, failure in the market has been the source of disasters in the aircraft business. As a rule, an aircraft manufacturer needs to sell at least 500 units of a model for it to break even. Of the 26 basic airplane types introduced worldwide since the beginning of the jet age, only 6 have sold as many as 500 (another 4 are likely to do so before their production runs end). Seven sold less than 120 copies. Only four or five have been profitable. A report by First Boston Corp. concludes that in 1984, the jet transport aircraft programs then launched had accumulated total losses of $40 billion on total sales of $180 billion (in 1984 dollars). "The essential message [of these figures] is that economic failure is the norm in the civil aircraft business."

Considering this record, no one in this business commits to building a new design before assembling a number of launch customers. These early orders not only assure the manufacturer that it will sell at least that many units, they are needed to convince the manufacturer's financial backers that the model has sufficient appeal to airlines to justify committing funds. Government influence over airlines' choice of which aircraft to buy when a launch is pending can directly affect the manufacturer's decision, as can large government orders of military aircraft that are similar or identical to commercial models. Governments naturally favor domestic suppliers for their military needs, but in the commercial business, airlines' purchase decisions frequently turn on narrow differences in performance and price among competing airlines. A nudge from the airline's government—e.g., to choose a domestic company or one that buys some parts or subsystems from domestic companies—can be decisive.

In addition to technological and market uncertainties, financial risks are also high. Aircraft development costs have risen dramatically since the early days of air transport, as table 8–2 shows.

The $1.2 billion development costs of the 747, spent between December 1965 and January 1969, were over 3 times the $372 million capitalization of the Boeing company. The $1.1 billion cost of developing the DC–10 was over 3 times greater than the $364 million capitalization of the Douglas company. The combined launch costs of Boeing's 757 and 767 in the late 1970s again exceeded the net worth of the company. Coupled with these tall investment requirements are long lead times before the project reaches positive cash flow, and an even longer wait before the break-even point. Typically, it takes 4 to 5 years to develop, test, and certify a new aircraft, 2 years longer for the engines, and as much as 10 years from then to recover the initial investment—if that point is ever reached. Figure 8–1 shows the cash flow of a typical aircraft program.

Unless they have government support, manufacturers finance these costs from four sources:

1. retained earnings,
2. issues of debt and equity,
3. progress payments from customers, and
4. cost-sharing with subcontractors and partners.

These sources may not be sufficient to enable a manufacturer to launch a new model, and in some instances, only if governments are willing to directly assume much of the financial risk can the project proceed. Governments can offer loan guarantees or credits with payback contingent on success; or they may pay outright some costs of developing new projects, either by providing funds at preferential rates or by contracting for development work.

Although government assistance to the large commercial aircraft industry is undeniably important overall, the effects of individual government supports vary greatly. Government support for R&D may not advance a company's technological development. On the one hand, it may stimulate a company to increase its own funding for R&D, or it may supplement the firm's own R&D program. Alternatively, it may supplant R&D the company would have done anyway. Financial assistance with the launch of new designs may enable firms to proceed with models that otherwise would never have made it past paper studies, but it may also remove market disciplines and encourage a firm to proceed without first establishing that sufficient demand exists, leading to costly market failures. Government-provided financing to ease companies' cash flows during production may enable firms to increase production rates and improve market share, but it may diminish pressures for the firm to institute needed cost-controlling measures. The effectiveness of government support depends not only on the degree to which it is offered but also on the type given and the way in which it is delivered.

The following sections describe government policies related to the aircraft industries of the United States, Japan, and Europe, focusing on the motives, content, and results of government interactions with the industry.

TABLE 8–2.—AIRCRAFT DEVELOPMENT COSTS

[Dollar amounts in millions]

Aircraft	Entered service	Development cost in dollars	Development cost in 1991 dollars	Development cost per seat in 1991 dollars
DC–3	1936	$0.3	$3	$0.1
DC–6	1947	14	90	1.7
DC–8	1959	112	600	3.75
747	1970	1,200	3,300	7.3
777	[1] 1995	[1] 5,000	[1] 4,300	[1] 14.0

II, app. 9, p. 21. 1991 values are computed using aerospace industry price deflators for 1965–1989 and GNP deflators and estimates for other years.

UNITED STATES

Motives

The U.S. Government today avoids helping any particular industry compete in world markets. However, the government does have policies related to national defense and trade, and takes actions that affect transportation and technology. The U.S. commercial aircraft industry has benefited from measures taken in these areas.

The greatest benefits for U.S. commercial aircraft manufacturers have been side effects of the government's commitment to building and maintaining a strong defense industrial and technology base. The use of advanced technology in national defense has generated both financial and technological benefits for companies that produce commercial as well as military aircraft. Several factors make the commercial aircraft industry of special interest to defense policymakers. Technological advances made for commercial aircraft show up in military hardware and concurrent production of commercial aircraft reduces military aircraft costs. The supplier base and work force skills needed for rapid military buildups are maintained by civil aircraft production, and the design teams needed for military projects are kept together by commercial work during periods of weak military demand. These benefits are likely to become even more important in the future as defense spending is scaled back and military hardware comes to rely more heavily on dual-use technologies.

Support for civil aeronautical R&D is strong in the United States, compared with

that for most other areas of the civilian economy. The traditional rationale for government support of NASA technology programs is that the resulting R&D compensates for the tendency of private firms to do less than the socially optimal levels of R&D because they are unable to capture fully the returns of their investments. This is the standard economic justification for civil technology policies in general. Although NASA's official mission does not go farther towards helping U.S. aircraft manufacturers compete, this alone does provide some competitiveness benefits to U.S. firms.

The belief that air travel is important for U.S. transportation needs has led to measures such as airline regulation, subsidies for air mail, Federal and local subsidies for airports, safety monitoring, and the management of the air traffic environment. Though most of these measures were aimed primarily at air transportation, they fostered the early growth of a strong domestic market for commercial aircraft, which in turn benefited U.S. producers.

As for trade policy, U.S. commitment to free trade served the country's aircraft manufacturers well for many years after World War II. During the war, the United States had become the world's greatest producer of aircraft and it emerged at war's end with the industry intact; this helped establish the industry's dominance. With the strong domestic market and continuing military-civil connections giving U.S. producers significant advantages, a liberal trade environment favored the American industry. The government also used its influence to discourage foreign support for competitors (though with limited success), maintained a tariff of 5 percent or more on aircraft imports until 1980, and provided export assistance to U.S. producers to compensate for perceived unfair practices. In the 1980s, while U.S. trade deficits reached record levels, commercial aircraft exports rose. Indeed, aircraft is the United States' largest exporting industry. The U.S. trade surplus in transport aircraft (not counting spare parts) from 1985 to 1989 (the latest year for which firm figures are available) was $35 billion. Although sales of commercial transport aircraft represented less than 0.3 percent of U.S. gross national product (GNP) in 1989, they accounted for nearly 3.4 percent of the dollar value of U.S. merchandise exports.

Among this list of U.S. Government actions and policies, only NASA's support for civil aeronautical R&D constitutes a deliberate effort to help the competitiveness of commercial aircraft builders. Benefits the industry has received in other areas, especially from the synergies between military and civil aircraft work, have been the results of government actions taken with goals other than competitiveness in mind.

Military-Commercial Synergies

The U.S. Government policy that has most affected the competitiveness of the commercial aircraft industry is procurement of military aircraft and funding of the related R&D. Most important among the effects of military work are technological synergies. In a few cases, whole systems developed for the military have been spun off to commercial applications, reducing development costs and risks to the commercial users. In others, large military orders for products or technologies designed for commercial uses (or those closely related) have boosted production runs, and therefore lowered costs by allowing companies to achieve economies of scale, learn the production process, and share overhead costs. Military development programs have assumed the risks of proving advanced technologies, giving commercial users the confidence to adopt them. Often, the benefits accrue not so much to aircraft assemblers, but at the subsystem level, in materials, or in manufacturing process technology. Though synergies appear to be declining, the boost the industry was given in the past when military and civil technology were more similar accounts for a portion of the success of the industry today.

Examples of these synergies are numerous. Boeing's civil 707 and the military KC–135 tanker were both developed from a common prototype and shared 20 percent of the tooling, reducing costs to both commercial and government customers. The prototype itself drew heavily on advances made in the B–47 and B–52 bomber programs, including the flexible swept wing and the podded engine. The core of General Electric's largest commercial engine was originally developed for the C–5 military transport, and the core of the company's medium-sized commercial engine came from the B–1 bomber. At the GE Aircraft Engines plant in Evendale, Ohio, commercial and military engines move through many of the same production stations. Both sides of the business share a common management structure, common ordering and inventory, common manufacturing processes, and common R&D facilities. Only finance and marketing are separated. McDonnell Douglas sold 60 of its commercial DC–10s to the Air Force for use as air refueling tankers, thus increasing the total profits of the program and helping to keep production going until the company was ready to commit to the derivative MD–11. The development of lightweight composite materials is being led by the military; commercial users have been unwilling to adopt the materials until they have acquired sufficient service experience that their safety is assured. Military users are providing that experience. Though much of the development cost of the ring laser gyroscope for internal reference systems was borne by companies, military funding at key moments in the development process, together with the promise of combined military and civil market, spurred the private investment. Pratt & Whitney's F–117 engine for the Air Force C–17 cargo plane was adapted from the commercial P&W 2037 engine and bought "off the shelf" by the military, thereby increasing production runs, spreading development and overhead costs, and decreasing costs to both military and commercial users.

Military projects help train aeronautical engineers. The original 747 design team consisted of engineers who had been trained and familiarized with the tasks involved in designing wide-bodies during the C–5A military transport competition. One McDonnell Douglas official suggested that even if the C–17 program were canceled, it would still have had the beneficial effect of training 2,000 engineers the company could then employ on commercial work.

Until the last decade, military work was profitable. This, combined with the often alternating cycles of the commercial and military sides of the business, generated some financial benefits for companies involved in both commercial and military work. For example, according to a leading aircraft industry analyst, Boeing's commercial activities lost money during the first 20 years of jet production; the company was carried during that period by steady profits in its military business, especially the B–52 and Minuteman missile. In 1967, despite an order backlog of $2.3 billion in commercial aircraft, the commercial Douglas Co. was forced to merge with the primarily military McDonnell Aircraft Corp. The cash infusion from McDonnell not only saved Douglas from bankruptcy but enabled the company to bring out the DC–10 (introduced in 1971).

However, the defense connection has not been an unqualified boon. Defense and commercial technologies have been gradually diverging since the beginning of the jet age, so opportunities for the commercial side to benefit from military developments are shrinking. Commercial requirements are driving high reliability, low fuel consumption, and low noise technologies, while defense needs are pushing low radar detection, high speeds, and high maneuverability. Some synergies remain, but they are smaller than they once were.

Other aspects of the defense business are negative as well. Military projects can divert limited resources (e.g., highly specialized aeronautical engineers) away from commercial projects. Export controls limit international markets, military requirements may entrench processes and mentalities ill-suited to commercial competition, and efforts to standardize military hardware with allies may have transferred commercially relevant technology to competitors. Classification of defense systems often makes advances in military technology unavailable to commercial divisions even within the same company, and much of the DoD aircraft development and procurement budget is spent with firms that have no significant commercial activity. In the late 1980s and early 1990s, defense aircraft work in the United States has become less profitable than it once was, creating a burden on profitable commercial operations.

DoD's procurement regulations often create de facto requirements for firms to separate their military and commercial development and production, reducing the potential benefits of simultaneous involvement in both sides of the business. The costs generated by DoD's close oversight or detailed specification of hardware and production processes cause some companies to separate military and commercial production that they might have combined if DoD provided for more latitude. Even when companies still find it beneficial to combine military and commercial production, the benefits are less than if DoD procurement regulations and contract specifications allowed more flexibility. Burdensome military requirements are unlikely to leave commercial producers less competitive than if the companies had no military business at all, but they do interfere with the ability of firms to take maximum advantage of available synergies.

The defense business has generated benefits for and imposed extra costs on firms also involved in commercial work. These benefits have been far less than they could have been if promoting commercial competitiveness were a major policy goal.

Government Funding for Civil Aeronautical R&D

In addition to the often indirect and generally unintended benefits to commercial manufacturers of military aircraft, the U.S. Government has directly funded R&D for civil applications through the aeronautics program at NASA and its predecessor, the National Advisory Committee on Aeronautics (NACA). Figure 8–2 shows the funding history for NASA's aeronautics program. Their research projects have produced many advances that improved the performance and safety of aircraft. However, the gains for the competitiveness of U.S. aircraft manufacturers have been less clear.

One undisputed benefit has been the research and test facilities NASA provides. Since companies are relieved of the need to maintain redundant facilities of their own, the NASA facilities reduce costs for individual firms and improve the efficiency of the industry as a whole. Most used by companies are the wind tunnels. According to NASA officials, every commercial aircraft built in the United States has been tested in NASA wind tunnels. Computers, simulators, aircraft for flight testing, and other specialized equipment are also used by industry, sometimes quite heavily. Aircraft companies account for 15 to 20 percent of the use of the Numerical Aerodynamic Simulation computers, the world's most advanced facility for computational fluid dynamics (CFD). In 1984, the replacement value of all of NASA's aeronautics facilities was estimated at $10 billion.

NASA's aeronautics R&D program also benefits U.S. aircraft producers, though it does not always bestow a competitive advantage. The program helps U.S. aircraft manufacturers develop and adopt new technologies by conducting research inhouse and then transferring the results to companies and by contracting with companies to perform specific research tasks, usually in cooperation with inhouse NASA research. Further, NASA researchers act as a free consulting service for industry engineers having technical problems. The availability of technologies developed and tested at NASA's expense and risk helps aircraft manufacturers incorporate new capabilities into their products at diminished cost or risk, just as military developments do.

Sometimes, these technological advances result in gains in competitiveness for the firms that use them. Examples include NASA's work in CFD, which helped Boeing find positions to locate the nacelles on the wings of the 737, 757, and 767 to minimize drag. NASA's energy efficiency projects of the late 1970s and 1980s helped U.S. engine makers decrease fuel consumption of their engines, increasing their appeal to airlines looking for ways to cut operating costs. NASA's noise reduction projects helped U.S. engine makers build quieter engines, which resulted in significant competitive advantages when Congress passed noise limitations in 1968 and tightened them in 1974.

Howver, NASA's technology advances can provide U.S. firms with a competitive advantage only if they are able to apply the technology before their foreign competitors. The record has been mixed. Cases in which foreign competitors have applied NASA research first are numerous. Winglets made their first commercial appearance on Airbus planes. The supercritical wing are first employed on the Airbus A320. In Japan, the Shin-Meiwa Co.,·which builds some composite parts for Boeing, claims to have learned much of its carbon fiber technology from NASA publications. NASA advances in engine technology will be applied by Société Nationale d'Etude et de Construction de Moteurs d'Aviation (SNECMA), the French aircraft engine company, in its high-pressure compressor for the GE–90. Advances made in short take-off and landing (STOL) technology have been used more by the Canadian company DeHavilland (to the degree that they have been used at all) in its Dash-7 aircraft than by U.S. firms. Safety-related research, such as that on the prevention of icing, transfers quickly—as indeed it should.

NASA publishes nearly all of its research in open literature. Even when U.S. companies do get access to NASA technology first, they may transfer this technology overseas in technology licensing arrangements and through joint ventures. Foreign governments' support of their own aircraft industries in ways that reduce the risks of adopting new technologies is a major reason for foreign firms taking advantage of NASA-generated advances sooner than U.S. firms do.

U.S. firms do have some advantages in getting to NASA R&D first. Most importantly, they often participate in the research projects, gaining valuable "hands-on" experience. NASA also tries to limit the distribution of the most valuable results, though with limited success.

It is likely that the competitiveness benefits to U.S. firms equal only a portion of the cost of NASA's aeronautical R&D program. While the facilities and some portion of NASA's aeronautics R&D budget may be viewed as a support to the industry, to view the whole budget as such is an overestimate of those effects.

Direct Financial Assistance

Though synergies between military and civil work and NASA's aeronautics R&D program are the main sources of U.S. Government benefits to commercial producers, other government actions have also helped. On three occasions, the U.S. Government has provided direct financial supports to the industry. In the late 1960s, poor sales and costs overruns of the L–1011 drove Lockheed to the brink of bankruptcy. In 1971, the Nixon administration approved a loan guarantee of $250 million, which saved the company but failed to prevent it from exiting the commercial business within a decade. In any case, the government's main purpose was to save a defense contractor, not a commercial aircraft producer. Commercial interests were more directly involved in the case of the Douglas Aircraft Co. When the company approached bankruptcy in 1967, the government eased its merger with the McDonnell Aircraft Co. by providing a loan guarantee of $75 million, helping to save its commercial aircraft business. Here, the government's interest was more in the realm of the domestic economy—jobs and community economic base—than in international competitiveness. In neither situation was the guarantee called upon. In the third case, the U.S. Government spent roughly $1 billion between 1961 and 1971 on the development of a supersonic transport (SST) to rival the Concorde. The program was canceled long before an aircraft flew but did generate some technology that appeared in later subsonic aircraft.

The Lockheed and Douglas loan guarantees and the SST program are the most significant direct financial assistance the U.S. commercial aircraft industry has received from the U.S. Government, yet they pale in comparison to the funding available in other countries. Further, these interventions were infrequent and ad hoc, not part of a coherent strategy to support the commercial aircraft manufacturing industry.

Promotion of a Domestic Market

The government has helped U.S. aircraft manufacturers indirectly through its efforts to promote the growth of domestic air travel. The size and strength of the American market is a major reason for the success of U.S. commercial aircraft manufacturers. The earliest commercial use of air transport was in carrying the mail. Deliberate government subsidies enabled carriers to use larger, faster planes better suited to carrying passengers as well. In 1938, the Civil Aviation Administration (CAA) was set up within the Department of Commerce to provide "direct subsidies to promote passenger travel, economic regulation of the airlines, air traffic control, and safety." In 1948, the CAA was divided into the Civil Aeronautics Board (CAB), with responsibility to regulate routes and fares, and the Federal Aviation Administration (FAA) to oversee safety and the air-traffic environment. Safety standards, efficient management of the airspace, and technical support for the construction of airports provided by the FAA all helped to make air travel a safe and desirable means of transport. Regulation, which ended in 1978, enabled airlines to pass on the costs of more expensive, more advanced aircraft to the traveling public, so airlines were quick to replace old aircraft and to introduce technological innovations. Though these benefits have largely disappeared in the last decade, historically they were very important to the industry.

Export Assistance

Finally, the U.S. Government has helped aircraft manufacturers export by providing credit on favorable terms through the Export Import bank (Eximbank). Over the decade from 1967 to 1977, the Eximbank provided $5.77 billion in loans covering the export sales of 1,185 commercial jets worth $12.8 billion. In the early 1970s, when the aircraft market was so weak that U.S. aircraft manufacturers faced serious threats to their survival, the Eximbank became so heavily involved in financing aircraft exports that it acquired the nickname "Boeing's bank." However, two developments have greatly undermined the importance of export financing. First, an agreement among the major aircraft exporters called the Large Aircraft Sector Understanding (LASU), concluded under the auspices of the Organization for Economic Cooperation and Development (OECD), established a minimum rate governments could offer. Second, in the mid-1980s, the financial markets realized that aircraft retain their value well and can be held as collateral against the loans used to buy them. Bank rates for aircraft purchase loans consequently dropped very close to rates available with government guarantees, greatly diminishing the role of export financing. Boeing officials state the Eximbank now finances only five to seven sales of Boeing planes annually, or about 2 percent of the company's sales.

JAPAN

Motives

In contrast to the United States, the explicit goal of the Japanese Government in its support for commercial aircraft manufacturers was and still is promoting the industry's development. Japanese Government support for this industry is properly seen as another step up the technological ladder in a long succession of targeted industries.

After the U.S. occupation of Japan ended, most of the companies that had built military aircraft during WWII returned to the business. Their first significant work came from the overhaul of U.S. military aircraft used in the Korean War, followed by licensed production of U.S. military designs. In the 1960s, a project to build a twin-engine turboprop gave companies their first experience designing commercial transports and their first taste of the business. Following the costly failure of this domestic venture, airframe work shifted to subcontracting for Boeing and engine work focused on the multinational V2500. Military work dominates the industry today, though the proportion of commercial work is increasing rapidly. The

total civil production remains less than 5 percent of that of the United States.

The legal foundation for Japanese Government support of the industry was laid with the passage of the Aircraft Industry Manufacturing Law in July, 1952, barely 2 months after the end of the occupation made aviation activities possible.The First Aircraft Industry Promotion Law of 1954 led to heavy subsidization of the industry in the 1960s. Aircraft were first designated a "targeted industry" by Japan's Ministry of International Trade and Industry (MITI) in its "vision" for the 1970s, and then again in the document for the 1980s. (The 1990s vision did not name any specific industries.)

As in the United States, military work has helped Japanese companies' efforts to become major commercial suppliers, though relatively small government orders, use of licensed designs (rather than domestically developed ones), and restrictions on exports of military goods have limited the spillover benefits. Although Japanese planners may use military aircraft production to help develop their commercial aircraft industry, the overall benefits from the military connection is less than in the United States.

Promoting economic growth has been and remains the prime motivation for Japanese Government support of industry, and the nation's GNP is now the fastest growing among advanced nations. Partly as a result, Japanese firms now face an acute labor shortage. The need for growth to increase employment is not great. Instead, Japanese planners see the commercial aircraft industry as an opportunity to learn advanced new technologies that may spill over into other sectors, moving firms into more knowledge intensive and higher added-value work. Planners see aircraft production as an area in which recently industrialized countries are unlikely to threaten more technologically advanced nations as they have in industries like steel and ship building..

Japanese companies produced 159 billion yen worth ($1.2 billion at 135 yen to the dollar) of commercial aircraft-related goods and services in 1989. Though government supports have greatly helped Japanese companies achieve such successes as they have, these supports have not been sufficient to fully overcome the obstacles the industry faced in the post-WWII period.

Direct Financial Supports

Early Japanese Government efforts to promote the development of a domestic commercial aircraft industry involved heavy government funding in the hope of rapidly catching up with the West. However, after the failure of its first effort and the high costs it entailed, the government switched to a more gradual approach. In the projects of the 1960s, most of the risk was borne by the government. Now much more of the risk is borne by companies, though the government funds involved are still substantial. The Japanese Government appears to have accepted that catch-up will be a decades-long process.

Government support remains very important to the Japanese industry. Japan's postwar hiatus in aircraft manufacture, its history of licensed production of military aircraft, and limited defense budgets have left Japanese aircraft companies in a weak position from which to compete in international markets. Because commercial aircraft manufacturers in Europe, the United States, and other countries have received many benefits from their governments, the prices of aircraft made in those countries do not reflect their full cost. Without government support, Japanese aircraft manufacturers would have to be far more efficient producers and have better products to offer than their foreign competitors in order to make a profit. They have not yet achieved that. Each of the major Japanese aircraft companies has suffered several costly failures in commercial aircraft ventures, and they are reluctant to repeat the experience. Japan's major aircraft manufacturers are all large, highly diversified companies, and senior management is reluctant to divert too much of their technical talent to the aircraft business.

The Japanese Government has offered aircraft firms direct financial supports in various forms. Though funds involved have been far less than those provided in Europe, they have been large in relation to the size of the industry in Japan. Initially, Japan's Ministry of International Trade and Industry (MITI) used equity participation and guarantees against losses incurred during the production phase of a project. For the YS–11 airplane, a 64-passenger, twin-engine turbo-prop of the 1960s, MITI provided 54 percent of the initial capitalization and guaranteed the participating firms against production phase losses. By the time production was canceled in 1973, only 182 YS–11s had been sold, two-thirds of those to domestic customers, and the project had accrued debts of 28 billion yen ($207 million), four times its initial capitalization of 7.8 billion yen. Most of these debts were never repaid and were quietly forgiven by the government when the management organization was dissolved in 1986.

Later, MITI used *hojokin*—loans offered directly from the Ministry, to be repaid only if the project is successful. The *hojokin* were offered only for expenses incurred during the product development phase, not during production. In 1977, Japan's three largest aircraft manufacturers formed a consortium to make 15 percent of Boeing's 767 (first delivered in 1982). The Japanese partners' total costs came to 29 billion yen during the official development phase, 1978 through 1983, MITI-directed funding covered 14.7 billion yen . In addition, companies spent on their own an estimated 20 billion yen on production facilities and tooling, for a total investment of about 49 billion yen before revenues started flowing. The Japanese companies lost money on the venture for several years because of the fall of the dollar and because production was low. However, the terms of the development loans were favorable to the companies; MITI slowed the loans' early repayment because the program was so costly to the Japanese producers.

In 1986, MITI introduced a new system whereby loans for up to 50 percent of the product development costs of aircraft projects are made available by the government-owned Japan Development Bank (JDB). MITI pays the interest on these JDB loans with further loans from a new government-funded organization called the International Aircraft Development Fund (IADF). Companies begin repaying the IADF loans only when the project reaches the break-even point, so the JDB and IADF loans combined provide firms with nearly interest-free financing. Though companies are officially required to fully repay the loans' principal, if projects funded through this system ran into severe difficulty it is likely MITI would ease repayment requirements. The result is a system of launch aid similar to that used in Europe. Japanese companies' 20-percent participation in Boeing's 777, launched in late 1990, will probably cost $1.2 to $1.3 billion. Of this, $700 million is development expense, half of which is eligible for MITI support (the remaining costs are for facilities, tooling, and operating expenses, which MITI does not cover). JDB has committed to supply 17.4 billion yen ($129 million) for the 777 for 1991, and MITI has requested 798 million yen ($6 million) in IADF funds that "will be applied as a subsidy for 50 percent of the especially high-risk development cost and for the interest on the JDB loan."

While the Japanese Government is gradually reducing its share of the costs and risks of commercial aircraft projects, direct financial supports continue to benefit Japanese firms. MITI supports enable companies to make much larger investments in commercial aircraft projects than they would otherwise, thereby speeding the development of the industry.

Military-Commercial Synergies

Japanese aircraft companies have achieved synergies between their military and commercial businesses in many of the same ways U.S. firms have. The total benefits, however, are much lower than in the United States because Japanese procurement budgets are far smaller and the R&D budgets smaller still. Japan's defense budget has hovered around 1 percent of the country's GNP for four decades. In 1988, Japan spent Y3.7 trillion ($27.4 billion) on its military. Military aircraft procurements have ranged between 7 and 12 percent of the total defense budget (Y381 billion in 1988) for the last two decades. In comparison, the U.S. defense budget for 1988 was $290.4 billion, $28.2 billion of which was for aircraft procurement. The contrast is even greater for R&D. In fiscal year 1991, U.S. Department of Defense R&D was $37.8 billion and about 15 percent of the $285.6 billion defense budget, while Japan's military R&D spending was only Y114 billion ($844 million) and 3 percent of the defense budget (the highest percentage it has ever been).

Synergies between military and civil work are reduced by Japan's propensity to license U.S. designs, rather than developing them domestically. This has denied Japanese firms the opportunity to develop valuable design and development skills. In fiscal year 1991, Japan paid the United States $816 million in royalties for these licenses, roughly the equivalent of the entire Japanese military R&D budget.

On the positive side is the flexibility the Japanese Defense Agency allows its contractors, enabling Japanese aircraft manufacturers to realize some synergies much more easily than U.S. producers. For example, the JDA allows contractors to retain any intellectual property rights generated in development projects, enabling firms to use research results in commercial products at their discretion. Further, the JDA deliberately seeks out technologies with dual-use potential, increasing chances for synergies.

Other Mechanisms

Japan has a civil aeronautical R&D program similar to NASA's, which generates some competitive benefits for Japanese firms. The mission and activities of the National Aerospace Laboratories (NAL) are much like NASA's; however funding is less than one-tenth as much. In translating its technical advances into competitive benefits for Japanese firms, NAL suffers from some of the same difficulties NASA faces. The technology development programs run by MITI's Agency of Industrial Science and Technology have been more important than NAL's efforts. The FJR–710 engine program, which was almost entirely funded by MITI through its Agency of Industrial Science and Technology (AIST) for a total of 19.8 billion yen ($147 million) between 1971 and 1981, formed the basis for Japan's current 23-percent share of the V2500 engine program. Officials at Ishikawajima Harima Heavy Industries state that without strong government support, they would never have attempted such a technologically risky venture. Currently, AIST is funding a research project in hypersonic propulsion systems, aimed at putting Japanese manufacturers in a position to participate in building a high-speed commercial transport that may be built early in the next century.

The Japanese Government has aided its aircraft manufacturers in two other significant ways. First, by creating a preference among domestic airlines for aircraft that have large portions built in Japan, the Japanese Government encourages foreign manufacturers to increase the amount of work they subcontract in Japan. A combination of close relationships between government officials and senior airline executives and roughly $1 billion in preferential interest rate loans that MITI can offer for aircraft imports gives the government great influence. This is not to say that the government makes overt demands of foreign manufacturers. Rather, foreign companies are aware of these interactions and take into account that substantial subcontracting in Japan may help them sell to Japanese airlines.

Second, the Japanese Government has helped Japanese firms to pool their resources in consortia, decreasing the risk any one firm faces and increasing their bargaining power with potential partners. The main purpose of the First Aircraft Industry Promotion Law of 1954 was to create cartels within the industry. That law and its successors not only offer inducements for cooperation among firms; they require Japanese companies to obtain formal MITI approval before entering the aircraft business. Consortia in the aircraft industry are remarkable because unlike those in other Japanese industries, which handle R&D only up to the precompetitive stage, these extend into the production stage. All of Japan's major international projects—the 767, the V2500, and the 777—have been handled through such consortia.

EUROPE

Motives

In contrast to the predominantly indirect benefits U.S. commercial aircraft manufacturers have received from the U.S. Government, European firms have benefited from government policies aimed directly at promoting their competitiveness. Several motives lie behind this direct support. European planners value aircraft manufacture explicitly for the employment it creates. An Airbus official explained that the main reason the collaboration works is that by creating jobs in an export industry, Airbus enables the member countries to capture jobs from other parts of the world (Figure 8–3 shows the historical and expected growth in Airbus' share of the world market. For a brief description of the history and current structure of Airbus, see box 8–A.) The member governments are less concerned about global economic efficiency and rules of comparative advantage than with meeting immediate domestic needs. With government commitment to full employment, policymakers view the thousands of jobs Airbus creates in England, France, Germany, and other European countries as well worth the costs of the supports provided.

Another reason European government support the industry is concern that without support for their domestic manufacturers, European airlines will be forced to rely solely on two U.S. suppliers. By supporting a challenger, European governments force U.S. manufacturers to keep their prices low. As a result, some portion of every dollar European governments spending supporting Airbus is returned to their economies in lower airplane costs. Baldwin and Krugman examined the competition between the Airbus A300 and the rival Boeing 767 and concluded that European consumers do benefit, but by less than what they estimate European taxpayers paid for those benefits. "Overall it seems that the A300 project constituted a beggar-thy-neighbor and beggar-thyself policy for Europe."

National prestige plays a big role. Though the influence of pride is difficult to trace, aircraft projects have broad popular support, making them an easy cause for politicians to endorse. Europeans are proud of a long history of achievement in aeronautics, including the first supersonic transport, the first jet transport, the first jet engine, and even claims of the first powered flight. Airbus Industrie (AI) executives describe an "Airbus reflex" in the French Government. Airbus does not even have to go to government offices to solicit help; the venture is so highly regarded that the relevant ministries come to Airbus on their own and ask, "How can we help?"

Just as in the United States, national defense policies aimed at maintaining autonomous and technologically advanced military production capabilities have greatly increased the ability of firms to design, develop, and build large commercial transports. In addition, regulation and state ownership of airlines, put in place to meet air transport policy goals, provide European aircraft manufacturers with reliable domestic customers. Support for aircraft manufacture is justified on trade grounds as substituting domestic goods for imports and boosting exports. Planners perceive the products as driving technological advance and moving jobs to higher added-value and more knowledge-intensive areas.

Direct Financial Support

Direct financial supports have been the principal mechanisms used by European governments to assist their commercial aircraft manufacturers. This support has taken the form of government contracts for the development of commercial models (in effect, grants), loans and loan guarantees on favorable terms covering both development and production costs, guarantees against losses caused by exchange rate changes, equity infusions, tax breaks, debt forgiveness, and bail outs. Without these supports, it is likely that no European firms would be in the large commercial aircraft manufacturing business.

Beyond simply enabling companies to operate at a loss, government financing has several benefits over commercially available financing. Governments, unlike commercial lenders, will finance specific projects. This enables manufacturers to move quickly to fill market openings with new models even when the cash flow from previous models is insufficient to convince banks to lend. This may give the manufacturers a head start on their competitors, and because of the steep learning curve of this industry, a head start is an important advantage. Ideally, by getting into the new market first, the firm will be able to deter the entry of any competitor and so be able to establish a monopoly position. Also, since government funding is usually provided during the development phase and paid back as a levy on sales, the government assumes much of the risk if sales are poor. This encourages companies to shift as many costs as possible to the development phase. For example, adopting advanced manufacturing methods and higher levels of automation in the production process may increase development costs but decrease production costs. Similarly, use of more advanced product technologies may increase development costs but reduce operating costs in airlines. Since the government bears the risk for the development expenses, companies are encouraged to make the most advanced aircraft in the most advanced way possible.

Before Airbus, British, French, and German jet transport manufacturers had launched 8 different models of jet transport of which only 2 sold more than 200 (total sales of 239 and 279), 2 sold between 100 and 200 (total sales of 112 and 117), and the other 4 were catastrophic failures (total sales of 14, 11, 54, and 10). Judging by the experiences of Douglas (driven to bankruptcy even while its planes were selling well), Lockheed (driven to bankruptcy by the L–1011, which ultimately sold 249 units), and Convair (driven from the commercial aircraft business by the 880/990, which sold 102 units), any one of these European ventures should have forced its manufacturers into bankruptcy, or at least from the commercial aircraft business. However, not one of the firms responsible for any of these aircraft has left the field, though some have been consolidated.

The ability of these firms to launch further aircraft models after their failures with previous designs is directly attributable to government intervention. From 1945 to 1974, the British Government spent £1,504 million at 1974 prices ($9.3 billion inflated to 1991 values) in launch aid for civil projects, including the Concorde, and were repaid less than £150 million ($929 million inflated to 1991 values) of that. The total cost of jet transport programs to the British Government rises to several times that amount if the cost of bailouts is included. From 1962 to 1977, the French Government spent an average of $829 million (at 1991 values) per year on civil projects, during that period repayments averaged only about $23 million per year. Costs to the German Government were lower, as they had no part in the Concorde project, but Germany had other costly failures. Not only has government funding made European prime assemblers more competitive in international markets, at the supplier level it has made companies more desirable partners for U.S. firms looking to share the burdens of launching expensive, risky projects. Government support of the European partners made European participation in ventures like the CFM–56 and V2500 much more appealing for U.S. firms.

Because of Airbus, direct financial supports have come more into the international limelight, including a formal GATT complaint from the United States in early 1991. Most of the support the British, French, and German (and Spanish) Governments have provided to their aircraft manufacturers has been in the form of launch aid, although the British Government has been more hesitant in this regard than the French and German Governments. As of the end of 1989, the governments of France, England, and Germany had disbursed a total of $5.4 billion to the Airbus member companies in launch aid. Of this, roughly $500 million had been repaid. Repayment of the remainder has been either forgiven or deferred, or was never intended. An additional $2.3 billion had been pledged for the A330/A340, and the German Government had committed a further $3 billion as part of the Daimler-MBB merger. This government financing represents almost 75 percent of the development funds required for the Airbus models developed to date. As table 8–3 shows, as of the end of 1990, the $5.6 billion would have been $10.7 billion if the governments had charged firms the cost of the funds at rates the government themselves have to pay for borrowed money, and $18.0 billion if the firms had had to pay a corporate prime rate.

In addition to launch aid, the German Government (through not the French or British Governments) has provided its commercial aircraft manufacturers with loans to cover losses incurred during the production phase of Airbus projects. In 1988, the German Government paid off the outstanding production-phase debt its aircraft manufacturer had accumulated in the A300/310 projects so that no more interest charges would accumulate. Accumulated capital and interest had reached $1.05 billion. Further, the German Government agreed in 1988 to guarantee against losses caused by the exchange rate falling below 1.8 DM to the dollar. Analysts estimate the government's maximum liability for the guarantees through 1996 is $1.3 billion and for the period from 1997 to 2000 is $863 million. With exchange rates at levels (as low as the 1.5 DM to the dollar since the guarantee began, around 1.7 in mid-1991), the German Government is likely to have to pay nearly the full amount of the guarantee. Finally, at various times all of the Airbus members were government owned; Aerospatiale and Construziones Aeronautics S.A. (CASA) still are. Some of the equity bought by the governments constitutes a further subsidy.

TABLE 8–3.—LAUNCH AID FOR AIRBUS MEMBERS[1]

[In billions of dollars]

	A300 and A310			A320			A330 and A340		
	France	United Kingdom	FRG	France	United Kingdom	FRG	France	United Kingdom	FRG
Commitments	1.2	0.1	3.0	0.7	0.4	0.9	0.8	0.7	1.6
Disbursements	1.1	.1	1.5	.7	.4	1.0	.3	.3	.3
Value at government[2]	3.3	.3	3.1	1.2	.6	1.1	.3	.4	.3
Value at corporation[3]	7.5	.3	5.7	1.8	.7	1.2	.4	.4	.3

	Program totals[4]			Country totals			All airbus
	A300 and 310	A320	A330 and 340	France	United Kingdom	FRG	
Commitments	4.3	2.0	3.2	2.7	1.2	5.5	9.5
Disbursements	2.7	2.1	.8	2.1	.8	2.8	5.6
Value at government	6.7	2.6	1.1	4.8	1.3	4.7	10.7
Value at corporation	13.3	3.7	1.0	9.6	1.3	7.1	18.0

[1] These figures represent all launch aid and include funds allotted to non-Airbus aircraft projects such as the French ATR 42 and 72. Officials in France, Germany, and England state that the numbers are accurate. Neither firms nor governments in Europe disclose public supports at a level more detailed than those used here, so it is impossible to tell by how much the table overestimates the Airbus aid. Since Airbus is by far the largest aircraft venture currently receiving public financing in Europe, it is likely these figures overestimate the total Airbus launch aid by only a little.

[2] Value of the disbursed funds as of Dec. 31, 1988, including interest accrued assuming government rates (10-year T-bills). The effects of staggered disbursements and loan repayments during the course of the programs have been factored in, and end-of-1988 currency exchange rates used.

[3] Value of the disbursed funds as of Dec. 31, 1988, including interest accrued assuming corporate prime rates. The effects of staggered disbursements and loan repayments during the course of the programs have been factored in, and end-of-1988 currency exchange rates used.

[4] The development costs of Airbus' most recent launch, a stretched version of the A320 designated the A321, are being financed without government assistance. The A321 was financed on commercial terms with a line of credit from the Euro Investment Bank. The financing was not project based but rather based on AI's credit standing as backed by the liability of the members under the GIE structure. The A321 thus represents not only the first time a new or derivative Airbus model was launched without government aid, it is also the first time that AI and not the members arranged the financing.

Government Influence Over Airline Procurement Decisions

European governments have also created benefits for their commercial aircraft producers by influencing the procurement decisions of domestic airlines. Government ownership of airlines, close relationships between high-level officials and airline executives, and regulatory clout combine to give European governments sufficient influence to swing airlines' choice of manufacturers. (Table 8–4 shows government ownership of major European airlines.)

Examples of government intervention in procurement decisions are numerous. The British Government directed British European Airways to buy the British-made BAC 1–11 and British Overseas Airways to buy the VC–10 in the 1960s and 1970s. All of British Airways' current fleet uses Rolls Royce engines. The French Government pressured French airlines to buy the French-made Caravelle, and Air Inter, France's domestic airline, was the only airline ever to buy the short-lived Mercure. The French Government tried to force Air France to buy DC–9s instead of Boeing's 737s in order to help negotiations between McDonnell Douglas and Dassault over the proposed Mercure 200. The French Government succeeded in forcing the airline to buy GE engines instead of Pratt & Whitney engines for the A310 because of GE's close ties to the French engine-maker SNECMA. Overall, the preference of European airlines for Airbus planes is pronounced, as figure 8–4 shows. In the categories where U.S.-made and Airbus aircraft compete directly, both Air France and Lufthansa have only Airbus planes in their inventories. In fact, the willingness of national airlines to buy Airbus planes was an essential part of the original agreement by which Airbus was established.

The significance of government-steered procurements has come less from the total volume of these orders than from their timing. French, British, and German airlines have provided the key launch orders, without which few of Europe's commercial aircraft programs would ever have proceeded. Without these orders, no Airbus models would likely have been launched.

The preference the Airbus members have shown for sourcing domestically has also been effective at promoting the development of a European supplier industry and at convincing U.S. manufacturers to transfer workshare and technology to European suppliers in return for access to Airbus contracts. During the selection of engines for the A300, Pratt & Whitney offered European firms subcontracts, but GE offered SNECMA and MTU a full partnership, giving them 16 and 10 percent respectively of the workshare of GE's CF–6–50 engine, and a say in the program's management. This offer was sufficient to convince the French and German Governments to specify the GE engine for the launch of the A300. Again, in the A310 engine competition, the GE partnership with SNECMA convinced the French Government to override Air France's preference for Pratt & Whitney engines. This selection led to GE's and SNECMA's 50/50 venture to build the CFM–56 engine, which is now used on the A320. Needless to say, Air France has specified the CFM–56 for all of its A320s.

TABLE 8–4.—GOVERNMENT OWNERSHIP OF MAJOR EUROPEAN AIRLINES

Airline	Country	Government ownership
British Airways	Great Britain	0 percent (100 percent until 1987).
Air France	France	Almost 100 percent (previously private UTA bought in 1990).
Lufthansa	Germany	52 percent (72 percent in 1987).
Iberia	Spain	Almost 100 percent.
Sabena	Belgium	Almost 100 percent (trying to privatize parts).
KLM	Netherlands	34 percent (declining from over 70 percent in early 80s).
Alitalia	Italy	100 percent.
Swiss Air	Switzerland	NA.
SAS	Scandinavian	100 percent (Sweden, Norway, and Denmark).

NA=not applicable.

Government Promotion of Cooperation and Consolidation

European governments have also tried to improve the competitiveness of their aircraft manufacturers by promoting domestic consolidation and intra-European cooperation. European planners believe that to compete internationally in this industry, bigger companies are better. Domestic competition is seen as inefficient and has been sacrificed willingly to form larger firms better able to compete with American rivals. In England, France, and Germany, the dozens of aircraft companies that emerged from WWII were gradually consolidated into one commercial airframer and one commercial engine maker in each country. Consolidation at the supplier level followed. Competition within Europe has been discouraged in favor of cooperation, leading to a string of multinational ventures.

The rise of intra-European cooperation is an extension of the desire to achieve economics of scale that motivated consolidation within countries. The Concorde was the first major collaborative civil project, followed by the ill-fated VFW-614 project between MBB and Fokker. Civilian collaboration really took off, however, with Airbus. Collaboration in military aircraft ventures is even more common than in civil projects. The Transall and the Toranado have been the biggest to date. Currently over 70 percent of Deutsche Aerospace's turnover is derived from collaborative projects, a proportion that is likely to rise to 80 percent by the end of the decade. Though it is impossible to know exactly what the competitive benefits of all this consolidation and cooperation have been, European policy makers seem well satisfied by the results.

Military-Commercial Synergies

In addition to all the benefits described above, European manufacturers have profited from synergies between their military and commercial businesses, from funding of civil aeronautical R&D, and from export assistance much as U.S. companies have.

Examples of military/civil synergies in Europe are numerous. Rolls Royce's early engines, the Avon, the Olympus, and the Spey, all began as military engines. Among Rolls' current commercial engines, none has a direct lineage in a military predecessor, but strong military R&D programs and sales, especially to the Middle East, contributed to Rolls Royce's recent recovery in the commercial engine business. SNECMA has benefited from combined civil and military sales of the CFM-56 just as GE has. GEC of the United Kingdom is developing a heads-up-display (HUD) combined with an infrared sensor to create a so-called "synthetic vision system" for use on commercial aircraft. The needed technologies came out of military developments for night flying. The Transall military transport collaboration between France and Germany ran from the late 1950s until the early 1970s and provided both specific technical synergies and broader business synergies with the commercial sides of the companies involved.

Some differences between the European and U.S. defense businesses affect the ability of commercial aircraft manufacturers to realize benefits from their military work. On the negative side, European governments have spent less on military aircraft than the U.S. Government, and military R&D has been a lower percentage of procurement, creating fewer opportunities for spillovers to the commercial side of the business. Duplication of R&D among various countries, each wanting to maintain autonomous defense production capabilities, has led to inefficient use of total European military R&D funds, resulting in fewer opportunities for commercial spin-offs than if the countries' R&D programs had been coordinated. European governments have spent less on the development of bombers, tankers, and military transports, which generate the most benefits for commercial aircraft.

On the positive side, European military exports are a greater percentage of total military production, partly compensating for lower domestic sales. Further, a higher proportion of the funds spent on military aircraft in Europe go to the same companies that build commercial planes than in the United States, which has many dedicated military contractors. As table 8-5 shows, total military production of all the Airbus members (excluding the rest of Daimler-Benz) is comparable to that of Boeing and McDonnell Douglas, and the reliance of these firms on military sales is higher than Boeing's, though not quite as high as McDonnell Douglas'.

European governments have mostly paid to develop military aircraft domestically rather than licensing from the United States. This practice has generated more commercially useful design and development capabilities than licensed production. The generally close relationships among European governments and their aircraft manufacturers create an atmosphere of trust in which companies are given substantial flexibility in the organization of their military work, leaving them more free than U.S. companies to achieve possible commercial-military synergies. Consolidation has left most countries with only one manufacturer in each product category, which increases the bargaining power companies have in concluding contracts with their governments. This may enable firms to achieve higher profits on military work, and those funds may then be used to finance commercial programs. Finally, most of the European companies interviewed for this study appear to do as well or better than U.S. firms at combining military and civil overhead functions, reducing costs.

TABLE 8–5.—REVENUES FROM MILITARY AIRCRAFT AND RELATED SALES, 1989

Company	Military sales[1]	Percent of total
MBB	783	47.0
Aerospatiale[2]	1,335	33.5
British Aerospace	3,470	53.6
All Airbus	5,588	46.1
Boeing	4,361	23.4
McDonnell Douglas	5,919	55.5

Government Funding for Civil Aeronautical R&D

Civil aeronautical R&D in Europe is similar to that in the United States. The Deutsche Forschungsund Versuchsanstalt für Luft- und Raumfahrt (previously DFVLR, now DLR) in Germany, Britain's Royal Aircraft Establishment (RAE) and the Office National d'Etude et de Recherches Aerospatiale (ONERA) in France all perform functions similar to NASA's aeronautics program. They supply some of Europe's largest, most expensive research and test facilities and conduct research in areas in which firms would otherwise underinvest. These activities generate some competitive benefits for European firms, but the benefits are limited by the same difficulties NASA faces. Also, their combined aeronautics budget is smaller than NASA's, and redundancy among the three organizations reduces their effectiveness. The prospects for increased cooperation are good. While the benefits to European manufacturers of government-funded technology programs are unlikely to equal those for U.S. manufacturers, at least they are likely to increase for the level they are at now.

Export Assistance

Finally, European governments have helped their aircraft manufacturers export. In Europe, as in the United States, export financing has become much less important in the last decade than it once was. However, before the Large Aircraft Sector Understanding (LASU) agreement and the improvement of commercially available export financing, European governments helped aggressively. Until the late 1970s, Airbus sold so few planes that each sale was critically important. One order could represent a year's production. These circumstances drove Airbus to offer extreme deals to win orders. Even now, U.S. companies claim Airbus can offer better deals than they can because of the government support the members receive. European governments are also involved in providing offsets as sales incentives, whereas the U.S. Government refuses to become involved in such practices. Desirable landing rights for purchasing countries' airlines and development assistance to poorer countries are the most commonly cited examples.

Overall, Airbus deserves credit for the technical excellence of its aircraft and its improvements in production efficiency and product support. However, the importance of direct financial supports, other direct supports, and indirect benefits such as civil/military synergies are so great that it is fair to say that Europe has bought itself an aircraft industry.

CONCLUSIONS

The principal lesson of this study is that, for governments that believe some industries are more important to national welfare than others, many tools are available to speed the development of those industries. some of the means of promoting development described here are expensive, and the task of weighing the cost of acquiring the desired industry against the benefits derived must be done carefully. In many cases, government supports have undesired side effects that undermine the intended positive effects. However, other cost little and all that is required of a government is the will to employ them. Sometimes, actions the government would take anyway naturally help the competitiveness of a desired industry, and all that is needed is that the government not prevent the benefits from accruing. Without doubt, effectively supporting an industry is difficult. However, as the world's aircraft industries show, it is possible.

THE U.S. AEROSPACE INDUSTRY IN THE 1990'S—A GLOBAL PERSPECTIVE

The United States is the world leader in aerospace design and manufacturing but other countries are strong competitors. In a new report, "The U.S. Aerospace Industry in the 1990s: A Global Perspective" the Aerospace Industries Association takes a hard look at where it stands and how it can maintain or increase its market position.

The aerospace industry of the 1990s is global, dynamic, and complex—driven by fast-paced technological change and heavily influenced by national government support. The aerospace market is also characterized by numerous international partnerships of every sort. In this environment, the traditional "modus operandi" of many U.S. firms and the U.S. Government may be inappropriate for continuing success.

THE U.S. AEROSPACE INDUSTRY IN 1991

Since AIA published its 1988 report on The U.S. Aerospace Industry and the Trend Toward Internationalization, the U.S. industry has increased its international activities. As a result, both exports and imports continue to rise, but export growth has been considerable enough to ensure a continuing string of record trade surpluses. Aerospace has the largest positive trade balance of any U.S. manufacturing sector. Still, the U.S. world market share in aerospace is declining. Despite growing demand for aerospace products, there are an increasing number of market competitors.

In a changing world, where market access is often on a quid pro quo basis, U.S. companies cannot depend only on direct sales abroad of U.S. products manufactured in the United States. Other avenues of trade must be pursued. Consequently, the number of

U.S./foreign partnerships is rising and U.S. companies are exploring new roles in these relationships.

U.S. aerospace manufacturers are producing for two very different markets, although strong foreign competition and international cooperation—to one degree or another—are characteristic of both.

Defense Aerospace Market

With the end of the Cold War, and despite lingering concern over a Soviet threat, the United States and its allies are more concentrated on regional threats to global peace. A lesson of the Persian Gulf War is that a strong defense is still necessary; at the same time, that lesson will not prevent the decline of the defense budgets of the United States and its allies. Instead, there will be increased emphasis on tactical systems, and on force mobility and deployment.

The U.S. defense industry is entering this new era from a weakened financial position resulting from government policies that limited profits and reduced the cash flow needed to meet increased operating capital requirements. Defense exports can offset some of the lost sales as the U.S. Government cuts defense spending. However, any number of sales are politically problematic for the United States, and with enormous excess defense production capacity in the world, American companies can easily be supplanted as suppliers. The loss of key defense markets could mean loss of national influence in certain regions of the world.

The issue of economic competitiveness has grown in importance relative to purely defense-related concerns in the United States. Worries about the industrial/technology base have heightened discussion over foreign sourcing for defense system components, foreign investment in the United States, offset sales arrangements, and technology export through international defense cooperation. While many would have the United States pull back from cooperative relationships, other countries, particularly in Europe, are forging closer ties; this could limit U.S. participation in those markets. European countries are also strong competitors for defense sales around the globe.

Civil Aerospace Market

The market for civil areospace products is more promising than the defense market. Commercial production is the growing share of total U.S. industry output and commercial products have long dominated U.S. areospace exports. With world airline capacity expected to double by 2005, prospects for the commercial transport sector are particularly bright.

Problems confronting U.S. producers include economic recession and airport congestion, which could limit expected expansion of this market. Another concern is the need to harmonize airworthiness requirements to prevent additional costs to U.S. manufacturers, and to preclude these requirements becoming technical barriers to trade between nations, Probably the most serious threat to all U.S. civil aircraft and space vehicle manufacturers is foreign government support of their aerospace companies.

The U.S. civil helicopter industry is not faring as well as the commercial transport sector. Strong foreign competition, often subsidized, has made substantial market inroads. Rotorcraft manufacturers have suffered from recession in the oil industry. Today, they are pinning hopes on the need to replace aging fleets, a rebound in energy markets and the economy, and new technology models under development. Long-term, expansion of this market depends on development of an infrastructure to support regularly scheduled rotorcraft operations.

American general aviation manufacturers have experienced serious decline in the piston-powered aircraft market, due to excessive product liability claims and the resulting high cost of insurance. Higher value commuter and business turboprops and business jets are selling well and exports are rising. New technology aircraft and sizable military contracts should lead to stronger sales.

The space vehicles and launch services sector is expanding steadily. Military requirements for space systems will continue to grow. The commercial space market will develop more slowly and require substantial government support and encouragement.

Two regional markets are particularly important to the U.S. aerospace industry in the 1990s—Western Europe and the Asia-Pacific Rim.

Western European Aerospace Market

The market landscape is being altered for U.S. manufacturers by the emergence of a unified Western European economy, parallel efforts to integrate the European defense market (which already has significant cross-border relationships), the unification of East and West Germany, and the opening of other Eastern European countries. The U.S. relationship with Europe through NATO has been a cornerstone of the American defense market. Events in Eastern Europe and the Soviet Union may mean that the NATO alliance will take on a more political than military cast—with considerable effect on European defense purchases and U.S./European manufacturing arrangements.

Western countries will continue to need defense equipment such as deep strike, theater ballistic missile defense, air defense, chemical/biological warfare protection, command and control, surveillance and verification, early warning and reconnaissance, and long-range targeting systems. These needs should provide opportunities for joint U.S.-European cooperation. However, joint programs have not occurred on any significant scale. Instead, European countries are cooperating among themselves—as are American companies—to a greater degree.

Cross-border relationships have been central to European strategic planning for years, and they have been a key element in keeping the European aerospace sector viable. Meanwhile, U.S. defense manufacturers were able to be successful by concentrating on the large U.S. domestic market, and competing against each other.

Exports have been extremely important to European aerospace manufacturers for years, and—as the U.S. defense market shrinks—their importance to U.S. companies is growing. Both U.S. and European aerospace companies lean heavily on direct exports and on licensing to achieve foreign sales objectives. In addition, European manufacturers are pursuing international joint ventures and mergers at a pace unparalleled in the industry. While most of these efforts are aimed at consolidating their regional position, European manufacturers are also making inroads in the U.S. and Asian markets. The emergence of these larger corporate entities and interfirm alliances is spearheading a global change in the industry.

Factors that figure prominently in the European embrace of a transnational strategy, and the development of larger companies, include: the rising price of advanced technology, the increasing risk of undertaking aerospace programs, regional overcapacity, and the need to balance the United States' competitive advantages in terms of greater sales base and strong R&D funding.

European governments have fostered international aerospace alliances by:

Allowing companies to participate in transnational partnerships—particularly those involving defense contracts and nationalized firms. European governments have not overburdened partnerships with oversight and technology-transfer restrictions.

Continuing to fund joint venture projects which, in many cases, would have been impossible without government assistance.

Supporting European economic unification, joint aeronautical R&D, and the efforts of the Independent European Program Group, which has called for cooperative R&D and greater regional competition to strengthen Europe's defense industrial base.

Nine of the 12 European Community members can produce some form of air craft and several have the capability to design and assemble state-of-the-art products. Depending on the extent of their current capabilities, these countries use international collaboration to supplement their domestic programs, build their credentials in the world aerospace market or, in the case of new market entrants—Greece, Portugal and Turkey—to build their industrial base.

Japan and the Asia-Pacific Rim Aerospace Market

Twenty-three countries comprise the Asia-Pacific Rim region and the robust economic growth of this region will continue to create demand for aerospace products. Commercial air traffic is in a growth mode. Defense spending is also on the increase, with annual regional increases of 6 percent. The region is an important market for U.S. aerospace manufacturers and commercial sales, particularly, have shown growth. European manufacturers have also gained a share of this market—once totally dominated by U.S. industry. European firms are currently engineering a more aggressive marketing campaign in the region.

Many nations in the Asia-Pacific Rim are launching their own aerospace programs. Japan has ambitions to be a major player in the world aerospace market. While its efforts have not always met with success, Japan continues to move forward and is currently involved in several important aerospace projects. China is another active regional aerospace market participant, although with more limited capabilities. Taiwan and South Korea both have programs underway, which they hope will provide the start necessary to build at least some aerospace capacity within their countries. While these nations will not be able to challenge U.S. "big-ticket" programs such as the manufacture of commercial transports, they will increase competition in other segments of the market—e.g., in the production of components and parts. Because a large national commitment will be needed for success, government support of aerospace programs in the Asia-Pacific Rim will be substantial and long-term.

Japan is the economic power in the region and its actions may be a guide to its neighbors. In the defense sector, the Japanese aerospace industry has used its strong position as a buyer to obtain technology and manufacturing skills from foreign companies, particularly those in the United States. The Japanese domestic market alone is not of sufficient size to allow Japan to sustain a large commercial aircraft manufacturing effort. Instead, the Japanese have concentrated on niche markets, such as parts and subassembly production, and have targeted export demand.

The Japanese government has been strongly behind the development of its aerospace industry. It has identified projects, solicited foreign collaboration, set up and coordinated domestic consortia, and arranged financing and R&D funding. Japan considers cooperation between government and industry in developing market capabilities not only desirable, but necessary. The government sees aerospace as a strategic industry, and the key to advancing high-technology development generally.

Japan is pursuing an airspace development strategy centered on:

Continuing R&D aimed at enabling Japanese manufacturers to shoulder a larger role in development and production of future or next-generation technology (e.g., high speed civil transport). Japan will seek an equal partner role in such an effort.

Attempting to launch a regional aircraft program with foreign partners.

Improving design and production processes by remaining a high-quality reliable supplier of aircraft parts and sections, particularly fuselage subassemblies and wing parts.

Becoming a world leader in aerospace systems and components production. Japanese industry is looking for joint development opportunities in this area.

Developing high technology space systems, including unmanned launch vehicles and manned space stations.

At the subcontractor level, Japanese firms compete against each other and foreign companies for business. For large projects, which require high levels R&D funding, national competition is limited; major Japanese aerospace firms form domestic consortia and negotiate workshares. Consortia enable Japan to present a stronger position on the international market.

Changing U.S. Role in International Space Activities

For years, the United States dominated free world space efforts, cooperating with other nations to establish world-wide satellite communication capabilities, but continuing to develop guidance systems, electronics, computer software, new materials, propulsion equipment, and so forth, in the United States—and almost solely for government needs. Today many nations have space capabilities and any nation with the ability to pay for a launch can have access to space. At least seven nations offer launch facilities and vehicles. Space is on the way to becoming a business, not simply a function of national prestige or dominance driven by political and military considerations.

Worldwide, it is estimated, nearly $80 billion a year is being spent on space-related activities. Of that $80 billion, the United States accounts for about 42 percent, the Soviet Union 45 percent, and the rest of the world 13 percent. Of that 13 percent, Europe predominates followed by China and Japan. Many newcomers to space have piggybacked on American technology.

In a world of tighter space transportation and R&D budgets, the United States must make decisions about its investment. Billions of dollars have been spent to support a serious space program. However, large near-term outlays for long-range, visionary programs may be in doubt in light of program setbacks and budget deficits. The United States will maintain a broad capability in space—in part, for national security reasons. But it must better position itself to capture the benefits of space in the commercial sector.

Over the next few years, it will be important to maintain confidence in the U.S. space program, and to sustain an appropriate level of funding. In addition, space programs need stronger coordination and focus within the government. With a spotty history of success in international cooperative programs, the nation also needs to recognize that international partnerships will be necessary for many new space endeavors—and operate accordingly. Finally, there are some tough trade issues to be faced including how to ensure that U.S. private companies can compete against the space products and services of nonmarket economies.

Aerospace Technology—Trends and Strategies

Technology development and technology export are priority concerns for the aerospace industry. Technology is a key issue in either creating or impending international partnerships. The high cost and risk of new technology, access to technology advantages of partners, and market entry are reasons favoring cooperation. But technology leaders such as the United States also face the possible loss of a key element of business advantage. It is important to ask: What must be held back to protect future competitive advantage? What can be shared to achieve today's sales, today's market access, today's mutual benefit?

Nations are collaborating more to develop and apply new aerospace technology, and the capabilities of U.S. competitors are growing. An additional complication is that some technology being applied in aerospace is "dual-use," with both military and civil applications. This has led to a situation where some U.S. products are—or may be—restricted from export, while similar products of competitors are not.

The issue of technology transfer was at the heart of the controversy over the FSX fighter project with Japan. The issue has also caused problems between Europe and the United States. If the United States is not willing, or U.S. companies not allowed, to pursue cooperative efforts—sometimes from initial R&D on—companies from other nations will not hesitate to fill the void. The agreement between Germany's Daimler-Benz and Mitsubishi of Japan to discuss a range of collaborative efforts is a striking example.

What can be lost in discussions about cooperation between the United States and other countries is the fact that technology flows both ways. Other countries have made advances from which the United States can benefit. Agreements can be structured to protect critical, proprietary information while taking advantage of the market potential cooperative arrangements provide.

The United States has no strategy to foster technology development and satisfactorily address technology-sharing questions. Its approach is an *ad hoc* blend of government and private industry initiatives, offensive and defensive. Defensive initiatives include Buy American legislation, offset restrictions, anti-foreign direct investment measures, and export controls. Unfortunately, export controls are not coordinated, delays in issuing export licenses can be extreme and American manufacturers are often prevented from making, or must report at length, special arrangements needed to secure foreign sales.

Strategies that place the United States on the offensive include research and development incentives, teaming domestically for research and development, and targeted spending on critical technologies. The Aerospace Industries Association has launched a Key Technologies initiative to keep the United States aerospace industry in the forefront. AIA identified important enabling technologies, and is developing technology roadmaps and development plans, and working cooperatively with the government and universities to focus funding and research.

Government policy makers and industry continue to debate what a national technology strategy should be, and the issue is often contentious. Technology strategy is frequently cast, and negatively, in terms of "industrial policy"—the choosing of winners and losers. The question is: what middle ground can be found between a government-directed and supported approach to business and leaving things as they are? Meanwhile, U.S. companies compete in a marketplace where other nations' resolve to subsidize and otherwise assist their industries in influencing the outcome of sales.

CONCLUSIONS

The World Aerospace Market

The aerospace market is a global market that will strongly challenge U.S. aerospace firms in the 1990s.

The aerospace market is characterized by numerous international business partnerships—from joint ventures through subcontracting relationships. In this environment, the traditional *modus operandi* of many U.S. firms and the U.S. Government may be inappropriate for achieving success.

The U.S. aerospace industry will continue as the world leader in aerospace for the foreseeable future—given the right balance of policy and programs. It will not maintain as dominant a position as in the past in all segments of the market.

The prescription for market success calls for maintaining the industry's scientific and technical strengths and enhancing them with greater manufacturing capability. Success depends upon the industry's ability to export, its access to affordable investment capital—and to well-educated workers.

New market opportunities are available for U.S. aerospace firms.

With sales and exports at record levels, the U.S. aerospace industry is in a strong position to capitalize on the market opportunities of the next decade. The world's defense market will continue to be an important source of sales. However, the commercial sector is now the area of market growth.

U.S. aerospace producers face greater competition.

Every national market will be more competitive. Manufacturers from the Soviet Union and Eastern Europe will be moving into Western markets for the first time. Aerospace firms in Western Europe will be stronger and more capable than ever. Countries in the Asia-Pacific Rim are intent on developing their own aerospace industries.

Trends In International Aerospace Cooperation

Foreign firms will continue to seek out U.S. companies for collaborative efforts, particularly on commercial projects.

Aerospace companies are cooperating internationally in order to compete. The size of the U.S. military and commercial markets makes U.S. companies attractive partners. At the same time, foreign companies—particularly European firms—are competing with the United States for key roles in international partnerships.0

Defense cooperation between the United States and other nations will not live up to recent expectations.

The decline in defense funding and the changing threat will reduce defense cooperation between the United States and other countries from expectations of several years ago. Paradoxically, these same trends and events will highlight the usefulness of cooperation as a means of spreading costs, sharing risk, and increasing market access.

In Western Europe and Japan, cooperation is viewed as a fundamental part of the defense industrial strategy. In general, in the United States, cooperation is not seen as essential to building an effective defense.

Cooperation among U.S. Defense Contractors is increasing.

American companies are beginning to work together, as are the Europeans, to rationalize their defense technology resources.

International collaboration will often take different forms than in the past.

The competitive pressure on the United States for more genuine collaboration is resulting in new types of partnership and new, sometime subordinate, roles for U.S. manufacturers. But critical U.S. technologies will be more closely guarded by both companies and the government for competitive reasons.

The Space Market

The United States will continue to be a leader in space but will face increasing competition in commercial markets.

U.S. space leadership will continue thanks to the large investment in space-related research and the significant space infrastructure the United States has created. However, the trend is towards sharing of a larger space market and away from the dominance of the United States and the Soviet Union.

In the years just ahead, it will be difficult for NASA to do ambitious "big ticket" projects.

Political consensus is necessary to fund ambitious large-scale space projects and, at a time of budget restraints, that will be difficult for the United States to achieve. A new attitude of long-term commitment by the government is necessary in order to accomplish the goals of large-scale program. It will be necessary to establish discrete short-term goals, concentrated on enabling technologies.

U.S. commercial space business prospects could be enhanced by more centralized decision-making.

Programs that could lead to competitive products and services suffer from a lack of focused, business-oriented management. The diffusion of responsibility and lack of focus make funding decisions difficult for Congress.

U.S. government help will be needed to get the commercial space sector established.

The U.S. Government should support space-oriented commercial business—as other governments are doing.

International space consortia are proceeding without U.S. participation.

The United States will be excluded from some international arrangements because of its reputation as an unreliable partner and its restrictive technology transfer policies.

Technology Trends and Strategies

The United States needs a national technology strategy and commitment to a strong industrial/technology base.

The United States does not yet have a coherent strategy to support industry on high technology issues. A strong case is building for a strategy of nurturing generic, enabling technolgies—technologies that encompass both civil and military applications and are vital to worldwide competitiveness.

The United States needs to step up its investment in manufacturing capability.

While maintaining the vitality of science and technology, the United States cannot afford to underinvest in manufacturing technology. The true cutting edge in world competition is how fast, how well and how cost-effectively products are manufactured.

The prospects of the U.S. aerospace industry will be affected by tighter R&D budgets and the debate over how technology dollars should be spent.

Technology demonstration will become more important than ever in order to shorten the time from concept to application and to learn how various advanced technologies work together.

Validation of generic technology—to reduce the risk of application for manufacturers—is as important in the civil as in the military sector. Over the long term, lack of validation funding will inhibit technological preeminence in civil aeronautics.

More development and coproduction among American companies will strengthen the competitive position of the United States.

Coproduction ventures among U.S. firms will help companies build upon joint research, and create profits they can reinvest in the technology base.

Trying to stop the international flow of advanced technology through excessive restrictions on products or on cooperative programs is nonproductive.

Company proprietary know-how and technologies critical for national security must be protected. Beyond that, restrictions on technology are less productive than working to continually advance the state-of-the-art, improve manufacturing technology, and speed up the cycle of concept to application.

An educated, motivated work force is one of the most important components of competitive success for aerospace.

The aerospace industry will be challenged to meet its future work force needs. Other countries are doing a better job of preparing workers who can meet the requirements of high technology industries.

RECOMMENDATIONS

Create Better, Lower-cost Products Faster Than Competitors

Industry

Give technology planning and development as much priority in business planning as profits.

Expand the use of concurrent engineering whereby engineering designers and manufacturing planners work hand in hand from the first stages of product development.

Pursue the aerospace industry's Key Technologies for the Year 2000 program.

Comment to a strong, continuing investment in manufacturing capability.

Emphasize use of Total Quality programs to motivate employees and improve the productivity of the aerospace work force.

Put more effort into building better working teams, both in domestic partnerships and with foreign companies.

Government

Support industry-led Key Technologies program and work with industry to develop consensus technology development plans.

Provide sustained, strong, balanced funding of the technology base and technology demonstration/validation.

Provide incentives for private R&D investment.

Enact legislation supporting formation of U.S. production-based consortia.

Support major space initiatives such as Space Station Freedom, the Missions to and from Planet Earth, and the Space Exploration Initiative within the context of a strong overall U.S. space program and the incremental development of technology.

Pursue bilateral or multilateral cooperative efforts in space.

Support a competitive commercial space industry in the United States through a strong public-private partnership.

Increase IMIP funding within the DoD budget, set unified policy for management of programs across services, and streamline IMIP contract implementation.

Support development of the National Defense Manufacturing Technology Plan.

Foster use of management concepts for continuous productivity improvement.

Establish An Investment Climate That Supports A Strong Industrial/Technology Base

Industry

Build partnerships with U.S. suppliers and promote productivity through assistance with employee training, R&D, manufacturing investment.

Develop international partnerships that provide a strong flowback of financial and technology resources.

Government

Pursue fiscal and spending policies that will make capital available and affordable for business investment.

Place greater effort into improving the dialogue between government and industry, and involving industry in the development of program requirements.

Encourage industry's investment in technology and innovation by allowing full recovery of the costs of IR&D/B&P.

Increase progress payments to defense contractors.

Reorient the defense budget cycle to allow more multi-year procurements.

Rescind the current DoD policy on recoupment of RDT&E costs and apply recoupment surcharges only to major defense equipment sold to foreign countries.

Educate, Attract, and Develop a High-Caliber Work Force

Industry

Continue and strengthen support of the public education system, particularly science, math and language programs from K-12 through university level.

Expand enhanced in-house education programs for those with specialized and critical skills, and to increase productivity and competitiveness of the work force as a whole.

Expand in-house remedial education for workers, stressing fundamentals such as English, communications, and computations.

Expand recruitment and training of women and minorities.

Continue to pursue and develop ties with the university community in support of research objectives and development of an educated work force.

Continue to provide Key Technologies information to universities to help guide curriculum changes.

Government

Provide strong support nationwide for the study of science, math and languages.

Provide financial incentives to develop university-industry partnerships.

Academia

Work with industry to develop and integrate curricula that respond to the needs of knowledge-intensive production.

Work with industry and government to develop sound Key Technology development plans; coordinate with them on university-based research efforts and relate curriculum where possible to important generic technologies.

Remove Barriers To Trade

Government

Work toward a free and open climate for international trade and investment including greater harmonization of country practices on R&D and production subsidies, and elimination of non-tariff barriers and technical barriers such as some standards, testing and certification requirements.

Take aggressive action against violators of international trade agreements.

Continue to support the Uruguay Round of the GATT and work to strengthen the multilateral trading system.

Effectively regulate the entry of space launch systems developed in nonmarket economies into the limited commercial market.

Establish Pro-trade policies

Government

Seek active FAA role in promotion of U.S. aviation interests world-wide, including strong efforts to maintain the integrity of U.S. federal airworthiness regulations (FARs).

Work toward speedy harmonization of product liability laws in the international arena, and reform present U.S. product liability laws and penalties.

Affirm an Administration policy on defense exports and international cooperative programs.

Work toward a multilateral framework on offset understandings and take no unilateral action to limit offset.

Ensure adequate financing for all exports.

Implement Technology Export Policies That Make National Security And Market Sense

Industry

Foster discussion of industrial/technology base issues from a global perspective.

Focus internal activities on key company strength—critical product and process technology—while cooperating internationally to enhance U.S. market opportunities.

Structure cooperative agreements for strategic acquisition—as well as sharing—of technology.

Government

More clearly define products and technologies to be controlled rather than imposing broad, generalized prohibitions.

Provide a single DoD policy guidance on defense exports, technology transfer, the industrial base, and arms cooperation.

Clarify jurisdiction between Departments of State and Commerce with respect to "dual-use" commodities, with final appeal to the President.

Conform U.S. Munitions List to COCOM International List to put U.S. suppliers on equal footing with foreign competitors.

More narrowly define "defense articles and services."

Streamline export controls administration.

Pursue technology developed abroad through government to government efforts.●

SENATE RESOLUTION 235—RELATIVE TO THE BLOODSHED IN CROATIA

Mr. D'AMATO submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 235

Whereas the history and culture of the Croatian people dates back well over 1000 years;

Whereas Croatian and Serbian borders have shifted over the centuries, with each ethnic group having more or less territory at different times in history;

Whereas some of the finest remaining treasures of the Ancient Greek and Roman civilizations, like the Roman amphitheater in Pula, the Emperor Diocletian's Palace in Split, and the archeological riches of Vucedol near Vukovar, are in Croatia;

Whereas many magnificent churches, cathedrals, palaces, castles, museums and libraries were built in Croatia from ancient times to the present day;

Whereas the Yugoslav army has been targeting many of these cultural landmarks for destruction in attacks from land, air, and sea;

Whereas the Yugoslav army and Serbian insurgents have been destroying hospitals, and ambulances and relief workers are being fired upon;

Whereas the historic city of Dubrovnik holding no military significance, has been subjected to malnutrition, thirst and disease due to an extended siege without supplies, water or electricity;

Whereas the city of Vukovar has been leveled and its population killed, injured, or displaced;

Whereas the Yugoslav army is targeting Osjek and other Croatian cities for similar destruction;

Whereas Serbians and Croatians have each alleged that members of the other group are perpetrators of atrocities, summary executions, and terrorism against civilians as well as soldiers: Now, therefore, be it

Resolved, That it is the sense of the Senate that bloodshed must be stopped and that:

(1) the United Nations should intervene and send peacekeeping forces to Yugoslavia,

(2) Yugoslav army forces and Serbian insurgents should pull back to internationally recognized pre-war borders,

(3) destruction of cultural artifacts and buildings must cease,

(4) destruction of churches, synagogues, and other places of worship, as well as hospitals, must cease,

(5) attacks on internationally recognized relief workers and their organizations must cease,

(6) warring factions must stop summary executions, torture, abuse, and terrorism,

(7) an independent authority should investigate allegations of atrocities by warring factions.

(8) warring factions must respect the rights of all ethnic groups and halt the killing of innocent people.

SENATE RESOLUTION 236—RELATIVE TO GAYS AND LESBIANS IN THE ARMED SERVICES

Mr. ADAMS (for himself, Mr. CRANSTON, Mr. AKAKA, Mr. INOUYE, and Mr. WIRTH) submitted the following resolution; which was referred to the Committee on Armed Services:

S. RES. 236

Whereas the capacity of the Armed Forces of the United States to carry out the mission of such forces is hindered when competent and qualified individuals are denied the opportunity to serve in such forces;

Whereas an estimated 1,000 men and women are discharged from the Armed Forces each year simply because of their sexual orientation;

Whereas such discharges cost American taxpayers millions of dollars each year;

Whereas studies authorized by the Department of Defense have shown that there is no correlation between sexual orientation and the successful performance of service in the Armed Forces;

Whereas Secretary of Defense Richard Cheney has acknowledged that men and women who would be prohibited from service in the Armed Forces by reason of their sexual orientation under Department of Defense Directive 1332.14, section II.1, are currently permitted to serve in sensitive civilian positions in the Department of Defense;

Whereas men and women who would have been banned from service in the Armed Forces under the directive have served in the Armed Forces in war and in peace throughout the history of the United States;

Whereas such men and women have received military honors and decorations for their valor and service to the United States;

Whereas men and women who could be banned from service in the Armed Forces under the directive presently serve in the Armed Forces and carried out combat missions in the Persian Gulf War as part of such service;

Whereas in an appearance before Congress, Secretary of Defense Richard Cheney testified that the directive contains a policy that he believes the Department of Defense has "inherited" and that the rationale for the directive, that it protects against security risks, is "a bit of an old chestnut"; and

Whereas, regardless of their sexual orientation, all Americans who qualify for service in the Armed Forces deserve an opportunity to serve in the Armed Forces in defense of the United States; Now, therefore, be it

Resolved, That the Senate urges the President to rescind Department of Defense Directive 1332.14, section H.1, so that all Americans, regardless of sexual orientation, who currently serve the United States through service in the Armed Forces and all Americans who wish to serve the United States by such service, will not be prevented from, or punished for, doing so.

● Mr. ADAMS. Mr. President, I am pleased to be joined today by Senators CRANSTON, AKAKA, INOUYE, and WIRTH in introducing a resolution urging repeal of the military's policy banning gay men and lesbians from service. The resolution calls on the President to rescind Department of Defense Directive 1332.14, section H.1, which bans gay, lesbian and bisexual Americans from military service.

This policy is based on stereotypes and prejudice. It is bigoted. It wastes millions of American taxpayers' dollars.

The Pentagon defends itself with the same tired arguments used to deny African-Americans the right to serve their country. The same arguments were raised against women joining the service. The United States has the most modern military in the world. And an antique personnel policy. It is time to discard the policy.

I have a special interest in overturning the ban on gays in the military. It is likely to cause Washington State—and our Nation—to lose a truly outstanding officer, Col. Margarethe Cammermeyer.

Colonel Cammermeyer has served our Nation and all Americans with great distinction for 26 years. She was awarded the Bronze Star for service in Vietnam. She has received the highest professional awards from the Surgeon General. Since 1986, she has served as the State Chief Nurse of the Washington State National Guard. She was on her way to becoming Chief Nurse of the U.S. National Guard when she responded honestly to a question about her sexual orientation. This prompted the 6th Army to begin discharge proceedings against her.

In response to my request that the Army terminate such proceedings, the Department of the Army wrote, in part:

> We agree that the service record of colonel Cammermeyer is impressive. She has had a distinguished military career on active duty in the Army and Army National Guard.

Not surprisingly, the Washington National Guard supports retaining Colonel Cammermeyer. Her supervisor, State Surgeon Col. George Koss, has requested that she be retained.

What did Colonel Cammermeyer do wrong? Nothing. After 26 years of exceptional service to our country, the move to discharge her is based solely on her sexual orientation. This is disgraceful.

But it is not unusual. Since 1982, more than 13,200 gays and lesbians have been forced out of the military. Every year the military boots more than 1,000 talented individuals from service because they may be a gay or lesbian. It has nothing to do with conduct. One was a naval cadet near the top of his class at Annapolis. Many have won the highest military honors. This discriminatory policy deprives our country of talented and truly dedicated individuals.

The Pentagon's own studies offer nothing to substantiate this policy. Department of Defense evaluations have revealed no correlation between successful military service and sexual orientation. One Pentagon study, prepared several years ago by the Defense Personnel Security Research and Education Center [PERSEREC], shows gays and lesbians often perform better than other soldiers. A more recent PERSEREC study dispels the myth that gays pose a higher security risk than their heterosexual counterparts.

A 1989 Gallup poll indicated that 60 percent of the American public support the inclusion of gays in the military. A September 1, 1991 New York Times editorial found: "The ban deprives the armed forces of talent and discharges damage thousands of careers and lives. All for a policy with not a shred of hard evidence to support it."

When asked earlier this year about the DoD policy, Secretary of Defense Cheney conceded it is one he inherited. He acknowledged it is two-faced: it does not apply to civilians holding even the most sensitive positions in the Department. Secretary Cheney admitted it is a "bit of an old chestnut."

The fact is: gays and lesbians have served in the military throughout history. Some estimate that as many as 50,000 served in the Persian Gulf war. The Pentagon has allowed gay men and lesbians to risk their lives during times of war, when it needs them. What makes the same individuals unfit to serve in peacetime?

In 1941, a Navy memorandum asserted that blacks and whites living together could lead to "disruptive and undermining conditions." President Truman put an end to that policy of segregation by Executive Order in 1948. President Bush could do the same thing today.

My resolution urges the President Bush to rescind the directive so that all Americans, regardless of sexual orientation, may serve their country. No one should be prevented from serving or punished for serving solely on the basis of sexual orientation.

My resolution is a matter of justice. It is a matter of fundamental human decency. It is also good policy.●

SENATE RESOLUTION 237—RELATIVE TO DEFORESTATION IN THE PHILIPPINES

Mr. GORE submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 237

Whereas, illegal logging is a chronic problem worldwide and particularly in the Philippines, a nation that retains less than 3 percent of its original primary forest cover,

Whereas illegal logging is a practice occurring also in other areas exporting tropical timber, including Burma, Thailand, Papua New Guinea,

Whereas illegal logging deprives native and local communities of legitimate control and benefits from forest resources, and the corruption and violence inherent in illegal trading in timber undermines the healthy development of democracy,

Whereas devastating floods that killed over 6,000 people this November in the Philippines were exacerbated by the removal of forest cover, reportedly caused by illegal logging.

Whereas the problem of illegal logging in the Philippines is exacerbated by the involvement of corrupt military and paramilitary personnel who reportedly have harassed and killed environmentalists, indigenous leaders, and priests working to preserve forests, as is suspected in the cases of Henry Dumoldol, Fr. Nerilito Satur, and Fr. Kark Schmitz, S.P.,

Whereas the International Tropical Timber Organization is an international commodity trading organization established to monitor and regulate the trade in tropical timber, issue recommendations for the policies of members countries, including for the purpose of maintaining the ecological balance in the region concerned; and,

Whereas the ITTO has not sufficiently addressed the issue of illegal logging nor made efforts to ensure that the international trade in tropical timber does not support the socially and environmentally devastating effects of illegal logging, now, therefore be it

Resolved, that the government of the United States, in its participation in the International Tropical Timber Organization, requests the International Tropic Timber Organization fully to recognize the problem of illegal logging in many timber exporting countries, and asks the International Tropical Timber Organization to prioritize efforts to develop a system to prevent the illegal cutting and trade in tropical timber through monitoring, certification, and control of timber traded;

That it should be the policy of the government of the United States to ensure that military and other assistance to the Philippines does not support illegal logging activities undertaken by officials of the Philippine military,

That it is the sense of the Senate that the government of Japan should undertake an investigation through ITTO to determine the amount of illegal tropical timber imported into Japan by individuals and corporations involved in the Philippines tropical timber trade.

● Mr. GORE. Mr. President: Every day, 140,000 acres of tropical rainforest are torn down. By the end of this year, at least 50 million more acres of tropical forest will be gone forever.

The price of our rampant destruction of the forests is high. Though constitutioning only a small fraction of the earth's entire landmass, tropical forests are home to over half of all animal and plant species. In indiscriminantly cutting and burning the trees, we are severing the very threads of life, and jeopardizing the ability of all life forms to evolve and flourish.

Our planet's delicate climatic balance is also jeopardized by our destruction of the forests. With the loss of trees, we lose one of nature's most effective mechanisms for cleansing the atmosphere of carbon dioxide and other trace gases. In addition, trees play a vital role in continuing the cycle of water from the air to the earth; the loss of trees, particularly in tropical regions, often leads to desertification and severe soil erosion. Studies have shown that, within 3 to 4 years, many deforested regions are wastelands—unable to support life.

Advances in science are making us aware of these and other environmental catastrophes that result from rampant burning and cutting of the forest. What we are still largely blind to, however, is the devastating impact these practices are also having on the communities and villages of the forest.

Today I rise to introduce a resolution that calls attention to the shocking situation of one country, the Philippines, where human rights abuses of the worst kind are part and parcel of a seemingly tireless campaign waged by logging companies—and by corrupt government and military officials—to strip the country bare of its once rich forest resources.

As reported by the Philippine Center for Investigative Journalism, "Through the years, logging companies have made big money from the island's forests but have left the people * * * little except a legacy of death and destruction." Whole villages have been left in ruin as the chainsaws and bulldozers rip through the countryside. Though promised new land, medical and financial help, communities have instead been left in utter devastation.

And the loss to the villagers is not only financial. For thousands of people, the consequence has been death. Denuded of trees, the islands—and hillside communities—are extremely vulnerable to floods. In November alone, some 6,000 people perished as the torrential downpours swept tons of mud from the hills. Reports abound of families literally buried alive as the landslides enveloped their homes.

Some have tried to raise their voices against these abuses. Many of these courageous individuals, however, have lost their lives as a consequence. Those profiting from these disastrous practices have little tolerance for those who would jeopardize their profiteering schemes, and they have been willing to go to any length to put an end to potential interference with their plunder of the forests and enslavement of forest communities.

Newspaper accounts of the devastation indicate that mayors and other political operatives are at the heart of the corruption. And the military, too, is playing a big role. The Chronicle, for example, reports that "Military officials in this province (Nueva Ecija) have reportedly taken turns in stealing and selling illegally-cut lumber and banned narra species."

In 1934, more than 57 percent—some 17 million hectares—of the Philippines were covered by rich forest. Today, only 6 million hectares of forest remain, and only a small part of the remainder is virgin forest. If nothing is done to stop the present feverish rate of deforestation, all of the country's virgin forests will be gone in just 9 years.

Mr. President, deforestation in the Philippines has brought untold devastation to the country and untold misery to her citizens. Action must be taken now to stop the abuses. In this resolution, I call on the International Tropical Timber Organization—the international body charged with regulating and monitoring tropical forestry practices—to prioritize efforts to bring an end to illegal logging. The resolution also declares it to be the policy of the United States to ensure that military and other financial assistance we provide to the Philippine Government is not used in support of the rampant deforestation and calls on the Government of Japan to ensure that logs illegally taken from Philippine forests are not imported there.

Mr. President, I urge my colleagues to join me in support of this measure and in sending a loud message to those who would destroy human lives and the forests and the many species that depend on the forests, that there corrupt practices will not long be tolerated.●

AMENDMENTS SUBMITTED

MEDICAID MORATORIUM AMENDMENTS

DURENBERGER (AND RUDMAN) AMENDMENT NO. 1446

Mr. DURENBERGER (for himself and Mr. RUDMAN) proposed an amendment to the reported amendment to the bill (H.R. 3595) to delay until September 30, 1991, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a States expenditures for which Federal financial participation is available under the Medicaid Program and to maintain the treatment of intergovernmental transfers as such a source, as follows:

In lieu of the matter proposed to be inserted, insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Medicaid Voluntary Contribution and Provider-Specific Tax Amendments of 1991".

SEC. 2. PROHIBITION ON USE OF VOLUNTARY CONTRIBUTIONS, AND LIMITATION ON THE USE OF PROVIDER-SPECIFIC TAXES TO OBTAIN FEDERAL FINANCIAL PARTICIPATION UNDER MEDICAID.

(a) IN GENERAL.—Section 1903 of the Social Security Act (42 U.S.C. 1396b) is amended by adding at the end the following new subsection:

"(w)(1)(A) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State (as defined in paragraph (7)(D)) under subsection (a)(1) for quarters in any fiscal year, the total amount expended during such fiscal year as medical assistance under the State plan (as determined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during the fiscal year—

"(i) from provider-related donations (as defined in paragraph (2)(A)), other than—

"(I) bona fide provider-related donations (as defined in paragraph (2)(B)), and

"(II) donations described in paragraph (2)(C);

"(ii) from health care related taxes (as defined in paragraph (3)(A)), other than broad-based health care related taxes (as defined in paragraph (3)(B));

"(iii) from a broad-based health care related tax, if there is in effect a hold harmless provision (described in paragraph (4)) with respect to the tax; or

"(iv) only with respect to State fiscal years (or portions thereof) occurring on or after January 1, 1992, and before October 1, 1995, from broad-based health care related taxes to the extent the amount of such taxes collected exceeds the limit established under paragraph (5).

"(B) Notwithstanding the previous provisions of this section, for purposes of determining the amount to be paid to a State under subsection (a)(7) for all quarters in a Federal fiscal year (beginning with fiscal year 1993), the total amount expended during the fiscal year for administrative expenditures under the State plan (as determined without regard to this subsection) shall be reduced by the sum of any revenues received by the State (or by a unit of local government in the State) during such quarters from donations described in paragraph (2)(C), to the extent the amount of such donations exceeds 10 percent of the amounts expended under the State plan under this title during the fiscal year for purposes described in paragraphs (2), (3), (4), (6), and (7) of subsection (a).

"(C)(i) Except as otherwise provided in clause (ii), subparagraph (A)(i) shall apply to donations received on or after January 1, 1992.

"(ii) Subject to the limits described in clause (iii) and subparagraph (E), subparagraph (A)(i) shall not apply to donations received before the effective date specified in subparagraph (F) if such donations are received under programs in effect or as described in State plan amendments or related documents submitted to the Secretary by September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

"(iii) In applying clause (ii) in the case of donations received in State fiscal year 1993, the maximum amount of such donations to which such clause may be applied may not exceed the total amount of such donations received in the corresponding period in State fiscal year 1992 (or not later than 5 days after the last day of the corresponding period).

"(D)(i) Except as otherwise provided in clause (ii), subparagraphs (A)(ii) and (A)(iii) shall apply to taxes received on or after January 1, 1992.

"(ii) Subparagraphs (A)(ii) and (A)(iii) shall not apply to impermissible taxes (as defined in clause (iii)) received before the effective date specified in subparagraph (F) to the extent the taxes (including the tax rate or base) were in effect, or the legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

"(iii) In this subparagraph and subparagraph (E), the term 'impermissible tax' means a health care related tax for which a reduction may be made under clause (ii) or (iii) of subparagraph (A).

"(E)(i) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for the portion of State fiscal year 1992 occurring during calendar year 1992 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in the portion of that fiscal year.

"(ii) In no case may the total amount of donations and taxes permitted under the exception provided in subparagraphs (C)(ii) and (D)(ii) for State fiscal year 1993 exceed the limit under paragraph (5) minus the total amount of broad-based health care related taxes received in that fiscal year.

"(F) In this paragraph in the case of a State—

"(i) except as provided in clause (iii), with a State fiscal year beginning on or before July 1, the effective date is October 1, 1992,

"(ii) except as provided in clause (iii), with a State fiscal year that begins after July 1, the effective date is January 1, 1993, or

"(iii) with a State legislature which is not scheduled to have a regular legislative session in 1992, with a State legislature which is not scheduled to have a regular legislative session in 1993, or with a provider-specific tax enacted on November 4, 1991, the effective date is July 1, 1993.

"(2)(A) In this subsection, the term 'provider-related donation' means any donation or other voluntary payment (whether in cash or in kind) made (directly or indirectly) to a State or unit of local government by—

"(i) a health care provider (as defined in paragraph (7)(B)),

"(ii) an entity related to a health care provider (as defined in paragraph (7)(C)), or

"(iii) an entity providing goods or services under the State plan for which payment is made to the State under paragraph (2), (3), (4), (6), or (7) of subsection (a).

"(B) For purposes of paragraph (1)(A)(i)(I), the term 'bona fide provider-related donation' means a provider-related donation that has no direct or indirect relationship (as determined by the Secretary) to payments made under this title to that provider, to providers furnishing the same class of items and services as that provider, or to any related entity, as established by the State to the satisfaction of the Secretary. The Secretary may by regulation specify types of provider-related donations described in the previous sentence that will be considered to be bona fide provider-related donations.

"(C) For purposes of paragraph (1)(A)(i)(II), donations described in this subparagraph are funds expended by a hospital, clinic, or similar entity for the direct cost (including costs of training and of preparing and distributing outreach materials) of State or local agency personnel who are stationed at the hospital, clinic, or entity to determine the eligibility of individuals for medical assistance under this title and to provide outreach services to eligible or potentially eligible individuals.

"(3)(A) In this subsection, the term 'health care related tax' means a tax (as defined in paragraph (7)(F)) that—

"(i) is related to health care items or services, or to the provision of, the authority to provide, or payment for, such items or services, or

"(ii) is not limited to such items or services but provides for treatment of individuals or entities that are providing or paying for such items or services that is different from the treatment provided to other individuals or entities.

In applying clause (i), a tax is considered to relate to health care items or services if at least 85 percent of the burden of such tax falls on health care providers.

"(B) In this subsection, the term 'broad-based health care related tax' means a health care related tax which is imposed with respect to a class of health care items or services (as described in paragraph (7)(A) or with respect to providers of such items or services and which, except as provided in subparagraphs (D) and (E)—

"(i) is imposed at least with respect to all items or services in the class furnished by all non-Federal nonpublic providers in the State (or, in the case of a tax imposed by a unit of local government, the area over which the unit has jurisdiction) or is imposed with respect to all non-Federal, nonpublic providers in the class; and

"(ii) is imposed uniformly (in accordance with subparagraph (C)).

"(C)(i) Subject to clause (ii), for purposes of subparagraph (B)(ii), a tax is considered to be imposed uniformly if—

"(I) in the case of a tax consisting of a licensing fee or similar tax on a class of health care items or services (or providers of such items or services), the amount of the tax imposed is the same for every provider providing items or services within the class;

"(II) in the case of a tax consisting of a licensing fee or similar tax imposed on a class of health care items or services (or providers of such services) on the basis of the number of beds (licensed or otherwise) of the provider, the amount of the tax is the same for each bed of each provider of such items or services in the class;

"(III) in the case of a tax based on revenues or receipts with respect to a class of items or services (or providers of items or services) the tax is imposed at a uniform rate for all items and services (or providers of such items or services) in the class on all the gross revenues or receipts, or net operating revenues, relating to the provision of all such items or services (or all such providers) in the State (or, in the case of a tax imposed by a unit of local government within the State, in the area over which the unit has jurisdiction); or

"(IV) in the case of any other tax, the State establishes to the satisfaction of the Secretary that the tax is imposed uniformly.

"(ii) Subject to subparagraphs (D) and (E), a tax imposed with respect to a class of health care items and services is not considered to be imposed uniformly if the tax provides for any credits, exclusions, or deductions which have as their purpose or effect the return to providers of all or a portion of the tax paid in a manner that violates the standards in subparagraph (E)(ii) (I) and (II) or paragraph (4).

"(D) A tax imposed with respect to a class of health care items and services is considered to be imposed uniformly—

"(i) notwithstanding that the tax is not imposed with respect to items or services (or the providers thereof) for which payment may be made under a State plan under this title or title XVIII, or

"(ii) in the case of a tax described in subparagraph (C)(i)(III), notwithstanding that the tax provides for exclusion (in whole or in part) of revenues or receipts from a State plan under this title.

"(E)(i) A State may submit an application to the Secretary requesting that the Secretary treat a tax as a broad-based health care related tax, notwithstanding that the tax does not apply to all health care items or services in class (or all providers of such items and services), provides for a credit, deduction, or exclusion, is not applied uniformly, or otherwise does not meet the requirements of subparagraphs (B) or (C). Permissible waivers may include exemptions for rural or sole-community providers.

"(ii) The Secretary shall approve such an application if the State establishes to the satisfaction of the Secretary that—

"(I) the net impact of the tax and associated expenditures under this title as proposed by the State is generally redistributive in nature, and

"(II) the amount of the tax is not directly correlated to payments under this title for items or services with respect to which the tax is imposed.

The Secretary shall by regulation specify types of credits, exclusions, and deductions that will be considered to meet the requirements of subclause (II).

"(4) For purposes of paragraph (1)(A)(iii), there is in effect a hold harmless provision with respect to a broad-based health care related tax imposed with respect to a class of items or services if the Secretary determines that any of the following applies:

"(A) The State or other unit of government imposing the tax provides (directly or indirectly) for a payment (other than under this title) to taxpayers and the amount of such payment is positively correlated either to the amount of such tax or to the difference between the amount of the tax and the amount of payment under the State plan.

"(B) All or any portion of the payment made under this title to the taxpayer varies based only upon the amount of the total tax paid.

"(C) The State or other unit of government imposing the tax provides (directly or indirectly) for any payment, offset, or waiver that guarantees to hold taxpayers harmless for any portion of the costs of the tax.

The provisions of this paragraph shall not prevent use of the tax to reimburse health care providers in a class for expenditures under this title nor preclude States from relying on such reimbursement to justify or explain the tax in the legislative process.

"(5)(A) For purposes of this subsection, the limit under this subparagraph with respect to a State is an amount equal to 25 percent (or, if greater, the State base percentage, as defined in subparagraph (B)) of the non-Federal share of the total amount expended under the State plan during a State fiscal year (or portion thereof), as it would be determined pursuant to paragraph (1)(A) without regard to paragraph (1)(A)(iv).

"(B)(i) In subparagraph (A), the term 'State base percentage' means, with respect to a State, an amount (expressed as a percentage) equal to—

"(I) the total of the amount of health care related taxes (whether or not broad-based) and the amount of provider-related donations (whether or not bona fide) projected to be collected (in accordance with clause (ii)) during State fiscal year 1992, divided by

"(II) the non-Federal share of the total amount estimated to be expended under the State plan during such State fiscal year.

"(ii) For purposes of clause (i)(I), in the case of a tax that is not in effect throughout State fiscal year 1992 or the rate (or base) of which is increased during such fiscal year, the Secretary shall project the amount to be collected during such fiscal year as if the tax (or increase) were in effect during the entire State fiscal year.

"(C)(i) The total amount of health care related taxes under subparagraph (B)(i)(I) shall be determined by the Secretary based on only those taxes (including the tax rate or base) which were in effect, or for which legislation or regulations imposing such taxes were enacted or adopted, as of November 22, 1991.

"(ii) The amount of provider-related donations under subparagraph (B)(i)(I) shall be determined by the Secretary based on programs in effect on September 30, 1991, and applicable to State fiscal year 1992, as demonstrated by State plan amendments, written agreements, State budget documentation, or other documentary evidence in existence on that date.

"(iii) The amount of expenditures described in subparagraph (B)(i)(II) shall be determined by the Secretary based on the best data available as of the date of the enactment of this subsection.

"(6) Notwithstanding the provisions of this subsection, the Secretary may not restrict States' use of funds where such funds are derived from State or local taxes (or funds appropriated to State-owned teaching hospitals) transferred from or certified by units of government within a State as the non-Federal share of expenditures under this title, regardless of whether the unit of government is also a health care provider, except as provided in section 1902(a)(2), unless the transferred funds are derived by the unit of government from donations or taxes that would not otherwise be recognized as the non-Federal share under this section.

"(7) For purposes of this subsection:

"(A) Each of the following shall be considered a separate class of health care items and services:

"(i) Inpatient hospital services.

"(ii) Outpatient hospital services.

"(iii) Nursing facility services (other than services of intermediate care facilities for the mentally retarded).

"(iv) Services of intermediate care facilities for the mentally retarded.

"(v) Physicians' services.

"(vi) Home health care services.

"(vii) Outpatient prescription drugs.

"(viii) Services of health maintenance organizations (and other organizations with contracts under section 1903(m)).

"(ix) Such other classification of health care items and services consistent with this subparagraph as the Secretary may establish by regulation.

"(B) The term 'health care provider' means an individual or person that receives payments for the provision of health care items or services.

"(C) An entity is considered to be 'related' to a health care provider if the entity—

"(i) is an organization, association, corporation or partnership formed by or on behalf of health care providers;

"(ii) is a person with an ownership or control interest (as defined in section 1124(a)(3)) in the provider;

"(iii) is the employee, spouse, parent, child, or sibling of the provider (or of a person described in clause (ii)); or

"(iv) has a similar, close relationship (as defined in regulations) to the provider.

"(D) The term 'State' means only the 50 States and the District of Columbia but does not include any State whose entire program under this title is operated under a waiver granted under section 1115.

"(E) The 'State fiscal year' means, with respect to a specified year, a State fiscal year ending in that specified year.

"(F) The term 'tax' includes any licensing fee, assessment, or other mandatory payment, but does not include payment of a criminal or civil fine or penalty (other than a fine or penalty imposed in lieu of or instead of a fee, assessment, or other mandatory payment).

"(G) The term 'unit of local government' means, with respect to a State, a city, county, special purpose district, or other governmental unit in the State.".

(b) Conforming Amendments.—(1) Section 1902(t) of such Act (42 U.S.C. 1396a(t)) is amended—

(A) by striking "Except as provided in section 1903(i), nothing" and inserting "Nothing", and

(B) by striking "taxes (whether or not of general applicability)" and inserting "taxes of general applicability".

(2) Section 1903(i) of such Act (42 U.S.C. 1396b(i)) is amended by striking paragraph (10) inserted by section 4701(b)(2)(B) of the Omnibus Budget Reconciliation Act of 1990.

(c) Effective Date.—(1) The amendments made by this section shall take effect January 1, 1992.

(2) Except as specifically provided in section 1903(w) of the Social Security Act and notwithstanding any other provision of such Act, the Secretary of Health and Human Services shall not, with respect to expenditures prior to the effective date specified in section 1903(w)(1)(F) of such Act, disallow any claim submitted by a State for, or otherwise withhold Federal financial participation with respect to, amounts expended for medical assistance under title XIX of the Social Security Act by reason of the fact that the source of the funds used to constitute the non-Federal share of such expenditures is a tax imposed on, or a donation received from, a health care provider, or on the ground that the amount of any donation or tax proceeds must be credited against the amount of the expenditure.

SEC. 3. RESTRICTIONS ON AGGREGATE PAYMENTS FOR DISPROPORTIONATE SHARE HOSPITALS.

(a) Repeal of Prohibition of Upper Payment Limit for Disproportionate Share Hospitals.—Section 1902(h) of the Social Security Act (42 U.S.C. 1396a(h)) is amended by striking "to limit" the first place it appears and all that follows through "special needs or".

(b) Limitation on Aggregate Payment Adjustments.—

(1) In general.—Section 1923 of such Act (42 U.S.C. 1396r-4) is amended by adding at the end the following new subsection:

"(f) Denial of Federal Financial Participation for Payments in Excess of certain Limits.—

"(1) In general.—

"(A) Application of state-specific limits.—Payment under section 1903(a) shall not be made with respect to any payment adjustment made under this section for hospitals in a State (as defined in paragraph (4)(B)) for quarters—

"(i) in fiscal year 1992 (beginning on or after January 1, 1992), unless—

"(I) the payment adjustments are made in accordance with the State plan in effect or submitted to the Secretary by September 30, 1991, or in accordance with the State plan in effect or submitted to the Secretary by November 26, 1991 or modification thereof, if the amendment designates only disproportionate share hospitals with a medicaid or low-income utilization percentage at or above the Statewide arithmetic mean, or in accordance with a payment methodology which was established and in effect as of such date, or in accordance with legislation or regulations enacted or adopted as of such date, or

"(II) the payment adjustments are the minimum adjustments required in order to meet the requirements of subsection (c)(1); or

"(ii) in a subsequent fiscal year, to the extent that the total of such payment adjustments exceeds the State disproportionate share hospital (hereinafter referred to as 'DSH') allotment for the year (as specified in paragraph (2)).

"(B) National dsh payment limit.—The national DSH payment limit for a fiscal year is equal to 12 percent of the total amount of expenditures under State plans under this title for medical assistance during the fiscal year.

"(C) Publication of state dsh allotments and national dsh payment limit.—Before the beginning of each fiscal year (beginning with fiscal year 1993), the Secretary shall, consistent with section 1903(d), estimate and publish—

"(i) the national DSH payment limit for the fiscal year, and

"(ii) the State DSH allotment for each State for the year.

"(2) Determination of state dsh allotments.—

"(A) In general.—Subject to subparagraph (B), the State DSH allotment for a fiscal year is equal to the State DSH allotment for the previous fiscal year (or, for fiscal year 1993, the State base allotment as defined in paragraph (4)(C)), increased by—

"(i) the State growth factor (as defined in paragraph (4)(E)) for the fiscal year, and

"(ii) the State supplemental amount for the fiscal year (as determined under paragraph (3)).

"(B) Exceptions.—

"(i) Limit to 12 percent or base allotment.—A State DSH allotment under subparagraph (A) for a fiscal year shall not exceed 12 percent of the total amount of expenditures under the State plan for medical assistance during the fiscal year, except that, in the case of a high DSH State (as defined in paragraph (4)(A)), the State DSH allotment shall equal the State base allotment.

"(ii) Exception for minimum required adjustment.—No State DSH allotment shall be less than the minimum amount of payment adjustments the State is required to make in the fiscal year to meet the requirements of subsection (c)(1).

"(3) State supplemental amounts.—The Secretary shall determine a supplemental amount for each State that is not a high DSH State for a fiscal year as follows:

"(A) Determination of redistribution pool.—The Secretary shall subtract from the national DSH payment limit (specified in paragraph (1)(B)) for the fiscal year the following:

"(i) the total of the State base allotments for high DSH States;

"(ii) the total of State DSH allotments for the previous fiscal year (or, in the case of fiscal year 1993, the total of State base allotments) for all States other than high DSH States;

"(iii) the total of the State growth amounts for all States other than high DSH States for the fiscal year; and

"(iv) the total additions to State DSH allotments the Secretary estimates will be attributable to paragraph (2)(B)(ii).

"(B) Distribution of pool based on total medicaid expenditures for medical assistance.—The supplemental amount for a State for a fiscal year is equal to the lesser of—

"(i) the product of the amount determined under subparagraph (A) and the ratio of—

"(I) the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year, to

"(II) the total amount of expenditures made under the State plans under this title for medical assistance during the fiscal year for all States which are not high DSH States in the fiscal year, or

"(ii) the amount that would raise the State DSH allotment to the maximum permitted under paragraph (2)(B).

"(4) Definitions.—In this subsection:

"(A) High dsh state.—The term 'high DSH State' means, for a fiscal year, a State for which the State base allotment exceeds 12 percent of the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year.

"(B) State.—The term 'State' means only the 50 States and the District of Columbia but does not include any State whose entire program under this title is operated under a waiver granted under section 1115.

"(C) State base allotment.—The term 'State base allotment' means, with respect to a State, the greater of—

"(i) the total amount of payment adjustments made under subsection (c) under the State plan during fiscal year 1992 (excluding any such payment adjustments for which a reduction may be made under paragraph (1)(A)(i)), or

"(ii) $1,000,000.

The amount under clause (i) shall be determined by the Secretary and shall include only payment adjustments based on the State plan described in subparagraph (A)(i)(I), or in accordance with a payment methodology which was established and in effect as of such date, or in accordance with legislation or regulations enacted or adopted as of such date.

"(D) State growth amount.—The term 'State growth amount' means, with respect to a State for a fiscal year, the lesser of—

"(i) the product of the State growth factor and the State DSH payment limit for the previous fiscal year, or

"(ii) the amount by which 12 percent of the total amount of expenditures made under the State plan under this title for medical assistance during the fiscal year exceeds the State DSH allotment for the previous fiscal year.

"(E) State growth factor.—The term 'State growth factor' means, for a State for a fiscal year, the percentage by which the expenditures described in section 1903(a) in the State in the fiscal year exceed such expenditures in the previous fiscal year.".

(2) Conforming amendments.—(A) Such section 1923 is further amended—

(i) in subsection (a)(2)(B), by striking "subsection (c)," and inserting "subsections (c) and (f),"; and

(ii) in subsection (c), by striking "In order" and inserting "Subject to subsection (f), in order".

(B) Section 1903(a)(1) of such Act (42 U.S.C. 1396b(a)(1)) is amended by inserting "and section 1923(f)" after "of this section".

(c) Prohibiting Use of DSH Payment Adjustment To Hold Hospitals Harmless for Taxes.—Subsection (c) of such section if further amended by adding at the end the following: "A payment adjustment that varies by type of hospital after the effective date specified in section 1903(w)(1)(F) is not consistent with this subsection if its purpose or effect is to reimburse providers for health care related taxes without regard to their low-income utilization rate or medicaid inpatient utilization rate (as such terms are defined in subsection (b)).".

(d) Limits on Authority To Restrict DSH Designations.—Subsection (b) of such section is amended by adding at the end the following new paragraph:

"(4) The Secretary may not restrict a State's authority to designate hospitals as disproportionate share hospitals under this section, except as provided in the last sentence of subsection (c).".

(e) Effective Date.—The amendments made by this section shall take effect January 1, 1992.

SEC. 4. REPORTING REQUIREMENT.

(a) In General.—Section 1903(d) of the Social Security Act (42 U.S.C. 1396b(d)) is amended by adding at the end the following:

"(6)(A) Each State (as defined in subsection (w)(7)(D)) shall include, in the first report submitted under paragraph (1) after the end of each fiscal year, information related to—

"(i) provider-related donations made to the State or units of local government during such fiscal year, and

"(ii) health care related taxes collected by the State or such units during such fiscal year.

"(B) Each State shall include, in the first report submitted under paragraph (1) after the end of each fiscal year, information related to the total amount of payment adjustments made, and the amount of payment adjustments made to individual providers (by provider), under section 1923(c) during such fiscal year.".

(b) Effective Date.—The amendment made by subsection (a) shall apply fiscal years ending after the date of the enactment of this Act.

SEC. 5. INTERIM FINAL REGULATIONS.

The Secretary of Health and Human Services shall issue such regulations (on an interim final or other basis) as may be necessary to implement this Act and the amendments made by this Act. The Secretary of Health and Human Services shall consult with the States before issuing any regulations under this Act.

HEALTH PROFESSIONALS EDUCATION

KENNEDY (AND HATCH) AMENDMENT NO. 1447

Mr. REID (for Mr. Kennedy, for himself and Mr. Hatch) proposed an amendment to the bill (H.R. 3508) to amend the Public Health Service Act to revise and extend certain programs relating to the education of individuals as health professionals, and for other purposes, as follows:

Strike out all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) Short Title.—This Act may be cited as the "Health Professions Training and Nurse Education Improvement and Reauthorization Act of 1991".

(b) Table of Contents.—The table of contents is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. References.

TITLE I—PROVISIONS RELATING TO TITLE VII

Sec. 100. Short title.

Subtitle A—General Provisions

Sec. 101. Revision of title heading.
Sec. 102. Definitions.
Sec. 103. National Advisory Council.
Sec. 104. Prohibition of discrimination.
Sec. 105. Health professions data.
Sec. 106. Required assurances.
Sec. 107. Priority in awarding of grants.
Sec. 108. Savings provision with respect to current grants or contracts.
Sec. 109. Evaluation and Report.

Subtitle B-Student Assistance

Sec. 110. Limitations on scope of Federal loan insurance program.
Sec. 111. Loan deferral and loan consolidation.
Sec. 112. Maximum interest rates to be assessed.
Sec. 113. Participation of institutions in loan collection.
Sec. 114. Default penalty fees.
Sec. 115. Elimination of statute of limitations for loan collections.
Sec. 116. Student loan insurance fund.
Sec. 117. Powers and responsibilities.
Sec. 118. Annual report concerning default rates.
Sec. 119. Eligibility of institutions.
Sec. 120. Office for Health Education Assistance Loans.
Sec. 121. Authorization of appropriations for certain loans.

Subtitle C—Direct Student Loan Health Demonstration Program

Sec. 131. Direct student loan health demonstration program.
Sec. 132. Loan repayment program for allied health personnel.
Sec. 133. Scholarships for students of exceptional financial need.
Sec. 134. Repeal of Lister Hill scholarship program.
Sec. 135. Scholarships for students from disadvantaged backgrounds.
Sec. 136. Faculty loan repayment program.

Subtitle D—Grants and Contracts for Programs and Projects

Sec. 141. Departments of family medicine.
Sec. 142. Area health education centers.
Sec. 143. Programs of excellence in health professions education for minorities.
Sec. 144. Training, traineeships, and fellowships in general internal medicine and general pediatrics.
Sec. 145. Dentistry.
Sec. 146. Family medicine residencies.
Sec. 147. Educational assistance to individuals from disadvantaged backgrounds.
Sec. 148. Retention program for certain health professionals.
Sec. 149. Minority faculty development training fellowships.
Sec. 150. Special demonstration projects.
Sec. 151. AIDS education and training.
Sec. 152. Geriatric education centers and geriatric training.

Subtitle E—Personnel in Public Health, Health Administration and Allied Health

Sec. 161. Special projects, schools of public health.
Sec. 162. Graduate programs.
Sec. 163. Public health traineeships.
Sec. 164. Project grants and contracts.
Sec. 165. Advanced training of allied health personnel.
Sec. 166. Division of Allied Health.

Subtitle F—Miscellaneous Programs

Sec. 171. Council on Graduate Medical Education.
Sec. 172. Rural health training program.
Sec. 173. Creation of Advisory Council on Medical Licensure.
Sec. 174. Grants for certain postdoctoral fellowships.

Subtitle G—Repealers and Technical and Conforming Amendments

Sec. 181. Repeal of facilities construction grant program.
Sec. 182. Technical and conforming amendments.

TITLE II—PROVISIONS RELATING TO TITLE VIII

Sec. 201. Short title.
Sec. 202. Special projects grants and contracts.
Sec. 203. Advanced nurse education programs.
Sec. 204. Nurse practitioner and nurse midwife programs.
Sec. 205. Capacity building.
Sec. 206. Nursing education opportunities for individuals from disadvantaged backgrounds.
Sec. 207. Traineeships for advanced education of professional nurses.
Sec. 208. Nurse anesthetists.
Sec. 209. Authorization of appropriations for loan repayments.
Sec. 210. Allotments and payments.
Sec. 211. Distribution.
Sec. 212. Undergraduate education of professional nurses.
Sec. 213. Employer loan repayment program.
Sec. 214. Prohibition on discrimination.
Sec. 215. Evaluations.
Sec. 216. Grants for nurse education in long-term care facilities.

Sec. 217. Primary care training program.
Sec. 218. Assurances regarding transmission of bloodborne diseases.
Sec. 219. Technical amendments.
TITLE III—COMPREHENSIVE MATERNAL AND EARLY CHILDHOOD HEALTH CARE
Sec. 301. Short title.
Sec. 302. Migrant and community health center initiatives.
Sec. 303. Expansion of immunization programs for young children.
Sec. 304. Project grants for maternal and child preventive health. and health care services.
Sec. 305. Birth defects proposal.
TITLE IV—MISCELLANEOUS PROVISIONS
Sec. 401. Preemption exclusion.

SEC. 2. REFERENCES.

Except as otherwise provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act (42 U.S.C. 201 et seq.).

TITLE I—PROVISIONS RELATING TO TITLE VII

SEC. 100. SHORT TITLE.

This title may be cited as the "Health Professions Training Improvement and Reauthorization Act of 1991"

Subtitle A—General Provisions

SEC. 101. REVISION OF TITLE HEADING.

The heading for title VII (42 U.S.C. 292 et seq.) is amended by striking out "HEALTH RESEARCH AND TEACHING FACILITIES AND".

SEC. 102. DEFINITIONS.

Section 701 (42 U.S.C. 292a) is amended—

(1) by striking out paragraphs (1), (3), (7) and (9);

(2) by redesignating paragraphs (2), (4), (5), (6), (8) and (10) through (13) as paragraphs (1) through (9), respectively;

(3) in paragraph (2) (as so redesignated)—

(A) by inserting "(A)" after the paragraph designation; and

(B) by adding at the end thereof the following new subparagraphs:

"(B) The term 'graduate program in clinical social work' means an accredited graduate program in a public or nonprofit private institution in a State that provides training in a concentration in health or mental health care leading to a graduate degree in social work.

"(C) The term 'graduate program in marriage and family therapy' means an accredited graduate program in a public or nonprofit private institution in a State which provides training in a concentration leading to a graduate degree in marriage and family therapy.";

(4) in paragraph (3) (as so redesignated), by striking out "or a graduate program in clinical psychology" and inserting in lieu thereof "a graduate program in clinical psychology, and a graduate program in clinical social work that offers a training concentration in health or mental health care, and a graduate program that provides training in a concentration leading to a graduate degree in marriage and family therapy"; and

(5) in paragraph (9) (as so redesignated) by adding at the end thereof the following new sentence:

"Such term shall not include any registered nurse or physician assistant."

SEC. 103. NATIONAL ADVISORY COUNCIL.

Section 702 (42 U.S.C. 292b) is amended—

(1) in subsection (a)—

(A) by striking out "twenty-one" in the matter preceding paragraph (1) and inserting in lieu thereof "22";

(B) by striking out "thirteen" in paragraph (1) and inserting in lieu thereof "fourteen"; and

(C) by striking out "and graduate programs in clinical psychology" in paragraph (1)(A) and inserting in lieu thereof ", graduate programs in clinical psychology and clinical social work"; and

(2) by adding at the end thereof the following new subsection:

"(e)(1) There is established a subcommittee of the National Advisory Council on Health Professions Education to be known as the Subcommittee on Allied Health (hereafter in this section referred to as the 'Subcommittee') which shall meet at least twice annually until such time as the final report is submitted under paragraph (4). The Subcommittee shall—

"(A) provide advice and make recommendations to the National Advisory Council, the Secretary, and to the Committee on Labor and Human Resources and Committee on Finance of the Senate and the Committee on Energy and Commerce and the Committee on Ways and Means of the House of Representatives, with respect to—

"(i) the supply and distribution of allied health personnel throughout the United States;

"(ii) current and future shortages or excesses of allied health personnel, particularly in medically underserved and rural communities;

"(iii) priority research needs within the allied health professions;

"(iv) appropriate Federal policies relating to the matters described in clauses (i) through (iii), including policies concerning changes in the financing of undergraduate and graduate allied health programs, changes in the types of allied health education, and the appropriate Federal role in the development of a research base in the allied health professions;

"(v) appropriate efforts to be carried out by health care facilities, schools and programs of allied health, and professional associations with respect to the matter referred to in clause (i), including efforts for changes in undergraduate and graduate allied health education programs, and private support for research initiatives;

"(vi) deficiencies and needs for improvements in existing data bases concerning the supply and distribution of training programs for allied health in the United States and steps that should be taken to eliminate such deficiencies; and

"(vii) problems, and recommendations for the resolution of such problems, relating to the roles and functions of professionals within the allied health fields and other fields such as medicine and dentistry;

"(B) encourage entities providing allied health education to conduct activities to voluntarily achieve the recommendations of the Subcommittee;

"(C)(i) conduct a study concerning the shortage of clinical laboratory technologists for the purpose of—

"(I) determining the extent of such shortage;

"(II) determining the causes of such shortage; and

"(III) developing recommendations concerning the manner in which such shortage can be alleviated; and

"(ii) in conducting the study required under clause (i)—

"(I) consider any special or unique factors affecting the supply of clinical laboratory technologists in medically underserved and rural communities; and

"(II) conduct an assessment of alternative routes for certification of the competence of individuals to serve as such technologists, and consider the role of entities that provide such certifications; and

"(D) not later than October 1, 1993, prepare and submit to the Committee on Energy and Commerce of the House of Representatives, and to the Committee on Labor and Human Resources of the Senate, a report concerning the results of the study conducted under subparagraph (D).

"(2) In addition to select members of the National Advisory Council, the Subcommittee shall be composed of—

"(A) the Assistant Secretary for Health;

"(B) the Administrator of the Health Care Financing Administration;

"(C) the Assistant Secretary for Defense for Health Affairs;

"(D) the Chief Medical Director of the Department of Veterans Affairs;

"(E) the Commissioner of the Bureau of Labor Statistics of the Department of Labor;

"(F) a representative of the National Center for Education Statistics of the Department of Education;

"(G) a representative of the Bureau of Health Professions, Health Resources and Services Administration to be appointed by the Secretary;

"(H) five individuals appointed by the Secretary to represent allied health professionals, of which—

"(i) two such individuals shall be representatives of allied health professionals who provide occupational, speech, respiratory or physical therapy services;

"(ii) two such individuals shall be health professionals who provide primary care services in underserved areas or to underserved populations; and

"(iii) one such individual shall be a health professional who provides primary care services to the elderly;

"(I) five individuals appointed by the Secretary, including representatives of schools and programs of allied health, health care facility employers of allied health personnel, health insurers, and professional organizations representing the allied health professions;

"(J) a professional knowledgeable about health occupations and professions and data policy to be appointed by the Secretary; and

"(K) a representative of the general public to be appointed by the Secretary.

"(3) Not later than April 1, 1992, the Secretary shall appoint the members of the Subcommittee in accordance with paragraph (2).

"(4) Not later than 6 months after the date on which the initial meeting of the Subcommittee is held, the Subcommittee shall prepare and submit to the individual and entities described in paragraph (1)(A) a progress report concerning the activities of the Subcommittee. Not later than April 1, 1994, the Subcommittee shall prepare and submit to such individuals and entities a final report.

"(5) The Secretary shall ensure that necessary resources are made available to implement the provisions of this subsection.

"(6) The Subcommittee shall terminate upon the submission of the final report required under paragraph (4).".

SEC. 104. PROHIBITION OF DISCRIMINATION.

Section 704 (42 U.S.C. 292d) is amended—

(1) in the section heading by striking out "ON BASIS OF SEX";

(2) by striking out "sex" each place that such occurs and inserting in lieu thereof

"race, color, religion, gender, national origin, age, disability, marital status, or educational affiliation"; and

(3) by striking out "or graduate program in clinical psychology" and inserting in lieu thereof "graduate program in clinical psychology or graduate program in clinical social work".

SEC. 105. HEALTH PROFESSIONS DATA.

(a) IN GENERAL.—Section 708 (42 U.S.C. 292h) is amended—

(1) in subsection (a)—

(A) by inserting after "clinical psychologists," the following: "physician assistants, clinical social workers practicing in health or mental health care"; and

(B) by adding at the end thereof the following new sentence: "Data shall also be collected with respect to health professional shortage areas as designated under section 332, and other medically underserved communities (as defined in section 711(c)(2)) and underserved populations."; and

(2) in subsection (d)—

(A) by inserting "health professional shortage areas, rural areas, and medically underserved areas and populations," after "profession," in paragraph (1); and

(B) by inserting ", service in health professional shortage areas and to medically underserved communities (as defined in section 711(c)(2) and populations," after "geographic location" in paragraph (2).

(b) TRANSFER OF PROVISIONS WITH RESPECT TO STATISTICS AND REPORT.—

(1) IN GENERAL.—Section 794 (42 U.S.C. 295h-2)—

(A) is transferred to part A of title VII;

(B) is redesignated as section 708A; and

(C) is inserted after section 708 of such part A.

(2) REVISION.—Section 708A (as transferred and added by paragraph (1), is amended—

(A) in the section heading by striking out "ANNUAL" and inserting in lieu thereof "BIENNIAL"; and

(B) in subsection (c)—

(i) by striking out "Labor and Public Welfare" and inserting in lieu thereof "Labor and Human Resources" in the matter preceding paragraph (1); and

(ii) by striking out "under this subpart" and inserting in lieu thereof "under subpart I of part G" in paragraph (2).

SEC. 106. REQUIRED ASSURANCES.

Section 709(c) (42 U.S.C. 292i(c)) is amended by adding at the end thereof the following new sentence: "The applicant is further required to provide assurances to the Secretary that all trainees will receive instruction in the utilization of universal precautions and infection control procedures for the prevention of transmission of bloodborne diseases."

SEC. 107. PRIORITY IN AWARDING OF GRANTS.

Part A of title VII (42 U.S.C. 292 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 711. PRIORITIES IN AWARDING OF GRANTS.

"(a) ALLOCATION OF COMPETITIVE GRANT FUNDS.—In awarding competitive grants under this title or title VIII, the Secretary shall, among applicants that meet the eligibility requirements under such titles, give priority to entities submitting applications that—

"(1) can demonstrate that such entities have training programs that demonstrate the presence of, or progress toward the development and integration of effective approaches and educational strategies to promote health and prevent disease and disability, especially in primary care, that will help meet the Healthy People 2000: National Health Promotion and Disease Prevention Objectives established by the Public Health Service; and

"(2)(A) have a high permanent rate for placing graduates in practice settings which serve residents of medically underserved or rural communities; or

"(B) will provide for not less than four of the following—

"(i) the rotation of health professionals and students to clinical settings whose focus is to serve medically underserved communities or rural areas;

"(ii) the appointment of health professionals whose practices serve medically underserved or rural communities to act as preceptors to supervise training in such settings;

"(iii) a plan that insures that all health professionals and students receive information on practice opportunities involving medically underserved or rural communities;

"(iv) service contingent scholarship or loan repayment programs for students and health professionals to encourage practice in or service to medically underserved or rural communities;

"(v) the recruitment and admission of students from medically underserved or rural communities; and

"(vi) other training methodologies that demonstrate a significant commitment to the expansion of the proportion of graduates that elect to practice in or serve the needs of medically underserved or rural communities.

"(b) SERVICE IN MEDICALLY UNDERSERVED OR RURAL COMMUNITIES.—Of the amounts appropriated for fiscal year 1995, and for each subsequent fiscal year, for competitive grants under this title or title VIII, the Secretary shall give preference in awarding grants to schools or programs that are otherwise eligible for grants under such titles, and that can demonstrate that—

"(1) not less than 20 percent of the graduates of such schools or programs during the preceding 2-year period are engaged in full-time practice in a health professions shortage specialty in a medically underserved or rural community; or

"(2) the number of the graduates of such schools or programs that are practicing in a medically underserved or rural community has increased by not less than 50 percent over that proportion of such graduates for the previous 2-year period.

Among the pool of applications that have been approved by the standard peer review process, funding preference shall apply only to those applications that score in the upper 80th percentile of those approved applications.

"(c) DEFINITIONS.—As used in this section:

"(1) GRADUATE.—The term 'graduate' means, unless otherwise specified, an individual who has successfully completed all training and residency requirements necessary for full certification in the health professions discipline that such individual has selected.

"(2) MEDICALLY UNDERSERVED COMMUNITY.—The term 'medically underserved community' means—

"(A) an area designated under section 332 as a health professional shortage area;

"(B) an area or population designated as a medically underserved area under section 330(b)(3), including areas designated under section 330(b)(6);

"(C) populations served by migrant health centers under section 329, community health centers under section 330, programs providing health services for the homeless under section 340, or Federally qualified health centers under section 1905(l)(2)(B) of the Social Security Act;

"(D) a community that is certified as underserved by the Secretary for purposes of participation in the rural health clinic program under title XVIII of the Social Security Act; or

"(E) a community that meets the criteria for the designation described in subparagraph (A) or (B) but that has not been so designated.

"(3) RURAL COMMUNITY.—The term 'rural' refers to geographic areas that are located outside of standard metropolitan statistical areas.".

SEC. 108. SAVINGS PROVISION WITH RESPECT TO CURRENT GRANTS OR CONTRACTS.

Part A of title VII (42 U.S.C. 292 et seq.) (as amended by section 107) is further amended by adding at the end thereof the following new section:

"SEC. 712. SAVINGS PROVISION WITH RESPECT TO CURRENT GRANTS OR CONTRACTS.

"Notwithstanding any other provision of law, in the case of any authority for the provision of a grant or contract under this title or title VIII (as such titles existed prior to the date of enactment of the Health Professions Training and Nurse Education Improvement and Reauthorization Act of 1991) that is terminated by any provision of the Health Professions Training and Nurse Education Improvement and Reauthorization Act of 1991 (as it amends such titles), the Secretary shall, notwithstanding the termination of such authority, continue in effect any grant or contract awarded or entered into under the authority that is in effect on the day before the date of enactment of such Act, subject to the duration of any such grant or contract not exceeding the period determined by the Secretary in first approving such grant or contract, or in approving the most recent request made (prior to such date of enactment) for the continuation of such grant or contract, as the case may be.".

SEC. 109. EVALUATION AND REPORT.

Part A of title VII (42 U.S.C. 292 et seq.) (as amended by sections 107 and 108) is further amended by adding at the end thereof the following new section:

"SEC. 713. EVALUATION AND REPORT.

"(a) EVALUATION.—The Office of Technology Assessment shall, in accordance with Technology Assessment Act of 1972 (Public Law 92-484), conduct a program evaluation of the programs, projects and activities of the Secretary under this title and title VIII (as amended by the Health Professions Training and Nurse Education Improvement and Reauthorization Act of 1991), to determine their effectiveness in—

"(1) increasing the number of primary care providers (physicians, physician assistants, nurse midwives, nurse practitioners and general dentists), nurses and allied health personnel; and

"(2) improving the geographic distribution of health professionals in medically underserved and rural areas.

"(b) CONTENT.—The evaluation conducted under subsection (a) should determine—

"(1) whether or not funding under this title (as amended by the Act referred to in subsection (a)) has increased the number of primary care practitioners (family medicine, general internal medicine, general pediatrics, general dentistry, and physician assistants) in medically underserved or rural communities;

"(2) whether or not funding under this title (as amended by the Act referred to in sub-

section (a)) has increased the number of allied health professionals in medically underserved or rural communities;

"(3) whether or not funding under title VIII (as amended by the Act referred to in subsection (a)) has increased the number of nurses in medically underserved or rural communities;

"(4) whether or not access to health care services in medically underserved or rural communities has been affected by programs funded under this title or title VIII (as amended by the Act referred to in subsection (a));

"(5) whether or not the various mechanisms (such as scholarships, fellowships, traineeships, loan repayment programs, project grants, and education centers) have been effective in producing health care professionals who work or practice in medically underserved or rural communities and the relative impact or effectiveness of each mechanism;

"(6) the duration of service in medically underserved or rural communities of health professionals whose training was funded by this title and title VIII (as amended by the Act referred to in subsection (a)) or who received financial incentives to practice in these communities;

"(7) the geographic distribution of former trainees under this title and title VIII (as amended by the Act referred to in subsection (a)) working in medically underserved or rural communities; and

"(8) other such factors as may be relevant to the reauthorization of this title and title VIII.

"(c) REPORT.—Not later than March 31, 1996, the Office of Technology Assessment shall prepare and submit to the Labor and Human Resources Committee of the Senate, and the Subcommittee on Labor, Health and Human Services of the Committee on Appropriations of the Senate, and the Committee on Energy and Commerce of the House of Representatives, and the Subcommittee on Labor, Health and Human services of the Committee on Appropriations of the House of Representatives, and the Secretary a report concerning the findings and recommendations of the Office concerning the best strategies for future funding of allocations under this title and title VIII.".

Subtitle B-Student Assistance

SEC. 110. LIMITATIONS ON SCOPE OF FEDERAL LOAN INSURANCE PROGRAM.

Section 728(a) (42 U.S.C. 294a(a)) is amended—

(1) in the first sentence by striking out "$500,000,000" and all that follows through the end thereof and inserting the following: "$400,000,000 for fiscal year 1992, $425,000,000 for fiscal year 1993, $475,000,000 for fiscal year 1994, $525,000,000 for fiscal year 1995, and $550,000,000 for fiscal year 1996."; and

(2) in the third sentence by striking out "September 30, 1994" and inserting in lieu thereof "September 30, 1999".

SEC. 111. LOAN DEFERRAL AND LOAN CONSOLIDATION.

(a) LOAN DEFERRAL.—Section 731(a)(2)(C) (42 U.S.C. 294d(a)(2)(C)) is amended—

(1) in clause (viii)—

(A) by striking out "clauses (i) through (vii)" and inserting in lieu thereof "clauses (i) through (x)"; and

(B) by striking out "clauses (i) through (viii)" and inserting in lieu thereof "clauses (i) through (xi)";

(2) by redesignating clauses (vii) and (viii) as clauses (x) and (xi), respectively; and

(3) by inserting after clause (vi), the following new clauses: "(vii) not in excess of 3 years, for a borrower who has (I) completed an accredited internship or residency training program in osteopathic general practice, family medicine, general internal medicine or general pediatrics, or (II) completed training in general dentistry, public health dentistry, clinical psychology or clinical social work and is currently serving as a primary care provider in a medically underserved or rural community as defined in section 711(c), (viii) not in excess of 1 year, for borrowers in the health professions that do not require residency training, (ix) not in excess of 2 years during which the borrower is providing care in a medically underserved or rural community as defined in section 711(c),".

(b) LOAN CONSOLIDATION.—Subsection (f) of section 732 (42 U.S.C. 294e(f)) is amended to read as follows:

"(f) Nothing in this section shall be construed to preclude the consolidation of all of the borrower's debts into a single instrument on the same terms and conditions as those provided in the Higher Education Act of 1965.".

(c) TECHNICAL AMENDMENTS.—Section 728(c) (42 U.S.C. 294a(c)) is amended—

(1) by striking out paragraph (2); and

(2) by redesignating paragraph (3) as paragraph (2).

SEC. 112. MAXIMUM INTEREST RATES TO BE ASSESSED.

Section 731 (42 U.S.C. 294d) is amended—

(1) in subsection (a)(2)(D), by striking out "semiannually" and inserting in lieu thereof "annually"; and

(2) in subsection (b)—

(A) by inserting "(1)" after the subsection designation;

(B) by striking out "No maximum" and inserting in lieu thereof "The";

(C) by striking out "subsection (a) may exceed the average" and inserting in lieu thereof "subsection (a) may not exceed the average";

(D) by inserting before the period, the following: "with a maximum rate of interest of 12 percent per year"; and

(E) by adding at the end thereof the following:

"(2)(A) A special allowance may be paid to an eligible holder of an eligible loan under this subpart for each of the 3-month periods ending on March 31, June 30, September 30, and December 31 of each year. The amount of a special allowance paid to any holder under this paragraph with respect to any 3-month period shall be a percentage of the average unpaid balance of principal (not including unearned interest added to such principal) on all eligible loans held by such holder during such period.

"(B) Subject to subparagraphs (D) and (F), a special allowance paid under this paragraph to a holder shall be computed—

"(i) by determining the average of the bond equivalent rates of 91-day Treasury bills auctioned for the 3-month period for which the allowance is to be paid;

"(ii) by subtracting the maximum applicable interest rate on the loans that are subject to such allowance from such average,

"(iii) by adding 3 percent to the amount determined under clause (ii); and

"(iv) by dividing the amount determined under clause (iii) by 4.

"(C) The holder of an eligible loan under this subpart shall have a contractual right against the United States, during the life of such loan, to receive the special allowance under this paragraph. The special allowance determined for any 3-month period under this paragraph shall be paid promptly after the close of such period, and without administrative delay after receipt of an accurate and complete request for payment, pursuant to procedures established under regulations promulgated under this paragraph.

"(D)(i) If payment of a special allowance to a holder under this section has not been made within 30 days after the Secretary has received an accurate, timely, and complete request for payment from such holder, the amount of such allowance shall be increased by an amount equal to the daily interest accruing on such allowance, as determined under clause (ii).

"(ii) The amount of the daily interest referred to in clause (i) shall be computed at the daily equivalent rate of the sum of the special allowance rate determined under subparagraph (B) and the interest rate applicable to the loan, and shall be paid for the later of—

"(I) the 31st day after the receipt of a request for payment of an allowance under this paragraph by the holder; or

"(II) the 31st day after the final day of the period or periods covered by such request;

and shall be paid for each succeeding day until, and including, the date on which the Secretary authorizes payment.

"(iii) For purposes of reporting to Congress the amounts of special allowances paid under this paragraph, amounts so paid shall be segregated and reported separately.

"(E) The Secretary shall pay the holder of an eligible loan a special allowance under this paragraph, at such time or times as are specified in regulations promulgated under this paragraph, subject to the condition that such holder shall submit to the Secretary, at such time or times, and in such manner as the Secretary determines appropriate, such information as may be required under such regulations for the purpose of enabling the Secretary to carry out this section and to carry out the purposes of this section.

"(F) The quarterly rate of the special allowance for holders of loans that were made or purchased with funds obtained by the holder from the issuance of obligations, the income from which is exempt from taxation under the Internal Revenue Code of 1986, shall be one half the quarterly rate of the special allowance established under subparagraph (B). Such rate shall also apply to holders of loans that were made or purchased with funds obtained by the holder from collections or default reimbursements on, or interest or other income pertaining to, loans made or purchased with funds described in the preceding sentence or from income on the investment of such funds.".

SEC. 113. PARTICIPATION OF INSTITUTIONS IN LOAN COLLECTION.

(a) ELIGIBILITY.—Section 731(a)(2) (42 U.S.C. 294d(a)(2)) is amended—

(1) in subparagraph (G), by striking out "and" at the end thereof;

(2) in subparagraph (H), by striking out the period and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new subparagraph:

"(I) authorizes an institution or postgraduate training program attended by the borrower to assist in the collection of any loan that becomes delinquent, by providing information concerning the borrower to the Secretary and to past and present lenders and holders of the borrower's loans.".

(b) FEDERAL LOAN INSURANCE PROGRAM.—Section 733 (42 U.S.C. 294f) is amended—

(1) by adding at the end of subsection (a) the following new sentence: "The Secretary shall establish by regulation performance standards and fees to be paid by lenders and loan holders for the servicing of HEAL loans and for the processing of loan default claims filed by insurance beneficiaries under this subsection.";

(2) in subsection (e)—

(A) by striking out "and" at the end of paragraph (2);

(B) by striking out the period at the end of paragraph (3) and inserting in lieu thereof "; and"; and

(C) by adding at the end thereof the following new paragraph:

"(4) the term 'default rate', in the case of an eligible entity, means the percentage constituted by the ratio of—

"(A) the principal amount of loans insured under this subpart—

"(i) that are made with respect to the entity and that enter repayment status after April 7, 1987; and

"(ii) for which amounts have been paid under subsection (a) to insurance beneficiaries, exclusive of any loans for which amounts have been so paid as a result of bankruptcy under title 11 of the United States Code, or the death or total and permanent disability of the borrowers, and exclusive of any amounts of principal actually repaid by the borrowers subsequent to payment of the claim; to

"(B) the total principal amount of loans insured under this subpart that are made with respect to the entity and enter repayment status after April 7, 1987.";

(3) in the first sentence of subsection (f), by striking out "The Secretary may" and inserting in lieu thereof "The Secretary shall"; and

(4) in subsection (h)(1)—

(A) by striking out "or" at the end of subparagraph (B);

(B) by striking out the period in subparagraph (C), and inserting in lieu thereof "; or"; and

(C) by adding at the end thereof the following new subparagraph:

"(D) in the judgment of the Secretary, in consultation with the lender or holder, there is not a reasonable likelihood of recovering, within 6 months of the date on which active enforcement of the judgment begins, at least one-half of the outstanding debt owed by the borrower (including collections costs and associated charges) or $10,000, whichever is less.".

SEC. 114. DEFAULT PENALTY FEES.

(a) IN GENERAL.—Part C of title VII is amended by inserting after section 732 (42 U.S.C. 294e) the following new section:

"SEC. 732A. DEFAULT PENALTY FEES.

"(a) AUTHORITY.—With respect to a loan made under this subpart, the Secretary, in accordance with subsection (b), shall assess a risk-based premium on an eligible borrower and, if required, an eligible institution that is based on the default rate of the eligible institution involved.

"(b) ASSESSMENT OF PREMIUM.—Except as provided in subsection (d)(2), the risk-based premium to be assessed under subsection (a) shall be as follows:

"(1) LOW-RISK RATE.—With respect to an eligible borrower seeking to obtain a loan for attendance at an eligible institution that has a default rate of not to exceed five percent, such borrower shall be assessed a risk-based premium in an amount equal to 6 percent of the principal amount of the loan.

"(2) MEDIUM RISK RATE.—

"(A) IN GENERAL.—With respect to an eligible borrower seeking to obtain a loan for attendance at an eligible institution that has a default rate of in excess of five percent but not to exceed 15 percent—

"(i) such borrower shall be assessed a risk-based premium in an amount equal to 10 percent of the principal amount of the loan; and

"(ii) such institution shall be assessed a risk-based premium in an amount equal to 5 percent of the principal amount of the loan.

"(B) REDUCTION IN LOAN LEVEL.—The maximum loan amount for which a borrower of the type described in subparagraph (A) shall be eligible to receive shall be reduced by an amount equal to 10 percent of the maximum loan amount that such borrower would otherwise be eligible to receive under this subpart prior to the date of enactment of this section.

"(C) DEFAULT MANAGEMENT PLAN.—An institution of the type described in subparagraph (A) shall prepare and submit to the Secretary for approval, an annual default management plan, that shall specify the detailed short-term and long-term procedures that such institution will have in place to minimize defaults on loans to borrowers under this subpart. Under such plan the institution shall, among other measures, provide an exit interview to all borrowers that includes information concerning repayment schedules, loan deferments, forbearance, and the consequences of default.

"(3) HIGH RISK RATE.—

"(A) IN GENERAL.—With respect to an eligible borrower seeking to obtain a loan for attendance at an eligible institution that has a default rate of in excess of 15 percent but not to exceed 25 percent—

"(i) such borrower shall be assessed a risk-based premium in an amount equal to 10 percent of the principal amount of the loan; and

"(ii) such institution shall be assessed a risk-based premium in an amount equal to 10 percent of the principal amount of the loan.

"(B) REDUCTION IN LOAN LEVEL.—The maximum loan amount for which a borrower of the type described in subparagraph (A) shall be eligible to receive shall be reduced by an amount equal to 25 percent of the maximum loan amount that such borrower would otherwise be eligible to receive under this subpart prior to the date of enactment of this section.

"(C) DEFAULT MANAGEMENT PLAN.—An institution of the type described in subparagraph (A) shall, in addition to complying with the provisions of paragraph (2)(C), become a co-signer of the loan. The Secretary may require a performance bond on behalf of such an institution.

"(4) INELIGIBILITY.—A borrower shall not be eligible to obtain a loan under this subpart for attendance at an institution that has a default rate of in excess of 25 percent.

"(c) REDUCTION OF AT-RISK PREMIUM.—Lenders may reduce by 50 percent the at-risk premium to eligible borrowers if a credit worthy parent or other responsible party co-signs the loan note.

"(d) ADMINISTRATIVE WAIVERS.—

"(1) HEARING.—The Secretary shall afford an institution not less than one hearing, and may consider mitigating circumstances, prior to assigning an institution to a risk-based category under subsection (b) or making such institution ineligible for participation in the programs under this subpart.

"(2) EXCEPTIONS.—In carrying out this section with respect to an institution, the Secretary may grant an institution a waiver of requirements of subsection (b) if the Secretary determines that—

"(A) the default rate for such institution is not an accurate indicator because the volume of the loans under this subpart made by such institution has been insufficient; or

"(B) the institution can justify the default record using other sources of information.

"(3) TRANSITION FOR CERTAIN INSTITUTIONS.—Effective January 1, 1992, Historically Black Colleges and Universities and tribally controlled schools shall be exempt from the ineligible requirements of subsection (b)(4) for the 3-year period beginning on the date of enactment of this section. Such institutions with default rates on loans under such programs greater than 25 percent shall be required to comply with all guidelines applicable to institutions in the high risk default categories.

"(e) PAYOFF TO REDUCE RISK CATEGORY.—An institution may payoff the outstanding principal and interest owed by the students of such institution who have defaulted on loans made under this subpart in order to reduce the risk category of the institution.".

(b) TECHNICAL AMENDMENT.—Section 732 (42 U.S.C. 294e) is amended by striking out subsection (c).

SEC. 115. ELIMINATION OF STATUTE OF LIMITATIONS FOR LOAN COLLECTIONS.

(a) ELIMINATION.—

(1) IN GENERAL.—Section 733 (42 U.S.C. 294f) is amended by adding at the end the following new subsection:

"(j)(1) It is the purpose of this subsection to ensure that obligations to repay loans are enforced without regard to any Federal or State statutory, regulatory, or administrative limitation on the period within which debts may be enforced.

"(2) Notwithstanding any other provision of Federal or State statute, regulation, or administrative limitation, no limitation shall terminate the period within which suit may be filed, a judgment may be enforced, or an offset, garnishment, or other action may be initiated or taken by the Secretary, the Attorney General, or other administrative head of another Federal agency, as the case may be, for the repayment of the amount due from a borrower on a loan made under this subpart that has been assigned to the Secretary under this subpart.".

(2) EFFECTIVE DATE.—The amendment made by this subsection shall be effective with respect to actions pending on or after the date of enactment of this Act.

(b) TECHNICAL AMENDMENT.—Section 733(h)(1)(A)(ii) (42 U.S.C. 294f(h)(1)(A)(ii)) is amended by striking out "fruitless" and inserting in lieu thereof "inappropriate".

SEC. 116. STUDENT LOAN INSURANCE FUND.

Section 734 (42 U.S.C. 294g) is amended—

(1) in the first sentence of subsection (a), by striking out "in connection with the collection or default of loans" and inserting in lieu thereof "in connection with the administration, collection and default of loans"; and

(2) by adding at the end thereof the following new subsection:

"(c) The Secretary may utilize not to exceed $1,000,000 of amounts available under this section for each of the fiscal years 1992 through 1996 to support the activities of the Office for Health Education Assistance Loans.".

SEC. 117. POWERS AND RESPONSIBILITIES.

Section 735(c) (42 U.S.C. 294h(c)) is amended—

(1) by redesignating paragraphs (1) through (4) as paragraphs (2) through (5), respectively; and

(2) by inserting immediately before paragraph (2) (as so redesignated) the following new paragraph:

"(1) Borrowers under this subpart who enter and remain in the primary care fields of osteopathic general practice, general internal medicine, general pediatrics and family medicine shall receive preference for participation in the National Health Service Corps Loan Repayment Program under section 338B."

(3) in paragraph (2) (as so redesignated), by striking out "not to exceed $10,000 in any 12-month period" and inserting in lieu thereof "not to exceed $35,000 in any 12-month period";

(4) in paragraph (3) (as so redesignated)—

(A) by striking out "paragraphs (3) and (4)" and inserting in lieu thereof "paragraphs (4) and (5)"; and

(B) by striking out "paragraph (1)" and inserting in lieu thereof "paragraph (2)";

(4) by striking out paragraph (4) (as so redesignated) and inserting in lieu thereof the following new paragraph:

"(4) The obligation of a borrower to pay damages under this subsection shall be canceled only in the case of the death, bankruptcy or total permanent disability of the borrower. A borrower may not be permitted to discharge in bankruptcy a loan made under this section within 5 years of the first date on which repayment of the damages is required."; and

(5) in paragraph (5) (as so redesignated), by striking out "paragraph (2)" and inserting in lieu thereof "paragraph (3)".

SEC. 118. ANNUAL REPORT CONCERNING DEFAULT RATES.

Subpart I of part C of title VII (42 U.S.C. 294 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 737B. ANNUAL REPORT CONCERNING DEFAULT RATES.

"(a) REPORT.—Not later than September 30, 1992, and annually thereafter, the Secretary shall prepare and submit to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report concerning the default rates for each—

"(1) institution described in section 737(1) that is participating in the loan programs under this subpart;

"(2) lender participating in the loan program under this subpart; and

"(3) loan holder under this subpart.

"(b) LIST OF DEFAULTERS.—As part of the report submitted under subsection (1), the Secretary shall compile, and publish in the Federal Register, a list of the borrowers who are in default under this subpart.

"(c) NOTICES OF DEFAULT.—The Secretary shall annually send notices of default with respect to the borrowers identified on the list under subsection (b), to relevant Federal agencies and to organizations such as State licensing boards, hospitals with which such borrowers may be associated, and specialty organizations.".

SEC. 119. ELIGIBILITY OF INSTITUTIONS.

(a) IN GENERAL.—Section 739(a) (42 U.S.C. 294l) is amended—

(1) in paragraph (3), by striking out "and" at the end thereof;

(2) in paragraph (4), by striking out the period and inserting in lieu thereof a semicolon; and

(3) by adding at the end thereof the following new paragraphs:

"(5) the assessing of tuition or fees to borrowers in amounts that are the same or less than the amount of tuition and fees assessed to non-borrowers;

"(6) the submission, by the institution and the lender to the Office of Health Education Assistance Loans, of information concerning each loan made under this subpart, including the date when each such loan was originated, the date when each such loan is sold, the identity of the loan holder and information concerning a change in the borrowers status;

"(7) the withholding of services, including academic transcripts, financial aid transcripts, and alumni services, by an institution from a borrower upon the default of such borrower of a loan under this subpart, except in case of a borrower who has filed for bankruptcy; and

"(8) the offering, by the lender to the borrower, of a variety of repayment options, including fixed-rate, graduated repayment with negative amortization permitted, and income dependent payments for a limited period followed by level monthly payments.".

(b) WORKSHOP FOR BORROWERS.—Section 739 (42 U.S.C. 294l) is amended by adding at the end thereof the following new subsection:

"(c) Each participating institution must have, at the beginning of each academic year, a workshop concerning the provisions of this subpart that all student borrowers shall be required to attend.".

SEC. 120. OFFICE FOR HEALTH EDUCATION ASSISTANCE LOANS.

Subpart I of part C of title VII is amended by adding at the end thereof the following new section:

"SEC. 739B. OFFICE FOR HEALTH EDUCATION ASSISTANCE LOANS.

"(a) ESTABLISHMENT.—The Secretary shall establish, within the Bureau of Health Professions, an office to be known as the Office for Health Education Assistance Loans (hereafter referred to in this section as the 'Office').

"(b) PURPOSE AND FUNCTIONS.—It shall be the purpose of the Office to achieve a reduction in the number and amounts of defaults on loans made or guaranteed under this part. In carrying out such purpose the Office may—

"(1) conduct analytical and evaluative studies concerning loans and loan defaults;

"(2) carry out activities designed to reduce loan defaults;

"(3) respond to special circumstances that may exist in the financial lending environment that may lead to loan defaults;

"(4) coordinate with other Federal entities that are involved with student loan programs, including—

"(A) with respect to the Department of Education, to develop a single student loan application form, a single student loan deferment form and a single disability form; and

"(B) with respect to the Department of Justice to recover payments from health professionals who have defaulted on loans made or guaranteed under this part;

"(5) provide technical assistance to lenders, servicers and schools concerning deferments and collection activities;

"(6) establish a central student loan database; and

"(7) carry out any other activities that the Secretary determines appropriate.".

SEC. 121. AUTHORIZATION OF APPROPRIATIONS FOR CERTAIN LOANS.

(a) CONSTRUCTION.—Subsection (a) of section 742 (42 U.S.C. 294o) is repealed and subsections (b) and (c) of such section are redesignated as subsections (a) and (b), respectively.

(b) AUTHORIZATION.—Section 742(b)(1) (as so redesignated) (42 U.S.C. 294o(c)(1)) is amended by striking out "$15,000,000" and all that follows through the end thereof and inserting the following: "$15,000,000 for each of the fiscal years 1992 through 1996.".

Subtitle C—Direct Student Loan Health Demonstration Program

SEC. 131. DIRECT STUDENT LOAN HEALTH DEMONSTRATION PROGRAM.

(a) Purpose.—It is the purpose of this section to establish a direct student loan demonstration program for health professions students to examine the viability of such a program and determine—

(1) whether such a program will—

(A) reduce default costs to the Federal Government; and

(B) provide loans on more favorable terms to students; and

(2) whether the existing HEAL program under part C of the Public Health Service Act should be replaced by a direct loan program in which health professions schools, rather than lenders, make such loans directly to borrowers.

(b) ESTABLISHMENT OF PROGRAM.—Part C of title VII (42 U.S.C. 294 et seq.) is amended by adding at the end thereof the following new subpart:

"Subpart VII—Demonstration Programs

"SEC. 765. ESTABLISHMENT OF DIRECT STUDENT LOAN HEALTH DEMONSTRATION PROGRAM.

"(a) ESTABLISHMENT.—The Secretary shall establish a direct student loan health demonstration program under which the Secretary will make assistance available to certain institutions who shall utilize such assistance to make direct loans to health professions students to assist such students in meeting the costs associated with attending such institutions.

"(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this subpart $50,000,000 for each of the fiscal years 1992 through 1996.

"(c) PARTICIPATING INSTITUTIONS.—

"(1) SELECTION.—The Secretary shall select not to exceed 20 eligible institutions to participate in the program established under this section. In making such selections, the Secretary shall, to the maximum extent practicable, ensure that a wide range of health professions institutions participate in such program, except that the Secretary may refuse to permit the participation of any institution that has a default rate under the program established under subpart I that is in excess of 15 percent.

"(2) ELIGIBLE INSTITUTIONS.—To be eligible for selection under paragraph (1), an institution shall—

"(A) be eligible to participate in the program established under subpart I;

"(B) have annually accepted for enrollment not less than 20 student borrowers under such subpart;

"(C) prepare and submit to the Secretary an application, at such time, in such form, and containing such information as the Secretary may require, including demonstrable evidence that the institution possesses the administrative capacity to implement the direct loan program either in-house or through the employment of an outside entity;

"(D) agree to assume full liability, as assessed by the Secretary, for errors relating to the origination of loans or other administrative responsibilities of institutions under this title;

"(E) agree to provide all information and maintain such records as required by the Secretary in order to assist in the evaluation of the program authorized under this section; and

"(F) otherwise meet the requirements of this section.

"(3) REQUIREMENTS.—An institution participating in the program established under this section shall—

"(A) be responsible for originating loans under the program, conducting interviews with borrowers prior to the origination of such loans, conducting exit interviews with

borrowers (which shall include the provision of all pertinent documentation as required by the Secretary), and assisting collection agencies in locating and collecting repayments from borrowers who become delinquent;

"(B) increase tuition and required fees at a rate that does not exceed 150 percent of the increase in the cost of living in the previous year;

"(C) not later than 15 working days after a borrower is determined to have lost his or her status as a full-time student, proceed with in-house collection activities or forward the loan of the borrower to a collection agency selected by the Secretary.

"(d) BORROWERS.—

"(1) ELIGIBILITY.—A student who has not previously obtained a loan under subpart I shall be eligible to participate in the program established under this section. The provisions of section 731 (except for subsection (a)(1)(B) and (b) of such section) shall apply to borrowers under this subpart.

"(2) INELIGIBILITY FOR HEAL LOANS.—A student that obtains a loan under the program established under this section shall be ineligible to obtain a loan under subpart I until the expiration of the program established under this subpart.

"(3) EVALUATION AGREEMENT.—A borrower under this section shall agree to participate in an evaluation of the program established under this section.

"(4) LIMITATIONS.—The limitations described in section 729 shall apply to loans made under this subpart.

"(e) TERMS OF LOANS.—

"(1) PROMISSORY NOTE.—A borrower under this section shall be required, at the origination of a loan, to sign a promissory note to the Federal Government promising to repay the loan under the terms and conditions disclosed to the borrower at such origination.

"(2) INTEREST RATES.—With respect to a loan made under this section, a borrower shall be assessed an interest rate on such loan that is equal to one percentage point above the average of the bond equivalent rates of the 91-day Treasury bills auctioned for the previous quarter. Such interest will accrue on such loan and will be compounded annually.

"(3) ORIGINATION FEE.—A borrower under this section shall pay a loan origination fee equal to 3 percent of the principal amount of the loan. The proceeds generated from such loan origination fees shall be remitted by the institution to the Secretary to assist in offsetting the costs of the administration of the program.

"(4) REPAYMENT.—Repayment on a loan made under this section shall be deferred for the period during which the borrower is a full-time student at the institution. Except as provided in paragraph (5), such repayment shall commence 90 days after the date on which the borrower is no longer a full-time student at such institution.

"(5) FORBEARANCE.—

"(A) ON DEMAND.—A borrower may receive forbearance on a loan under this section on the demand of such borrower for a period of—

"(i) not to exceed 5 years if such borrower is in an accredited postgraduate residency program;

"(ii) not to exceed 1 year beginning on the date on which the borrower leaves the institution if such borrower is not completing a residency or practicing in a medically underserved community; or

"(iii) not to exceed 5 years if such borrower is practicing in a medically underserved community.

"(B) PAYMENTS.—During the period of forbearance under this paragraph, a borrower and an institution may agree on a partial payment schedule based on the income and debt burden of the borrower. In such case the interest shall continue to accrue on the loan and shall be added to the principal amount due on such loan annually. Notwithstanding the preceding sentences, a borrower shall not be required to make any payments of principal or interest on the loan during such forbearance period.

"(6) CANCELLATION.—The obligation of a borrower to repay a loan under this section shall be canceled only in the case of the death, bankruptcy or total permanent disability of the borrower, whichever occurs later. In the case of bankruptcy, the provision of section 733(g) shall apply.

"(f) COLLECTION AGENCIES.—

"(1) REQUIREMENT.—In establishing the program under this section, the Secretary shall enter into contracts with not less than two collection agencies for the collection of repayments under loan made to borrowers under this section.

"(2) SELECTION BY SECRETARY.—In entering into contracts under paragraph (1), the Secretary shall select collection agencies—

"(A) with experience in Federal student loan collections, a comprehensive program of repayment options for borrowers, and modest costs; and

"(B) that provide evidence of being able to work cooperatively with participating institutions.

"(3) SELECTION BY INSTITUTION.—A participating institution under this section shall proceed with in-house collection activities or select an agency that is a party to a contract under paragraph (1) for the collection of repayments on loans originated by the institution.

"(4) REIMBURSEMENT.—A collection agency selected by an institution under paragraph (3) shall be reimbursed by the Secretary for collection activities in an amount that is based on the number of students served by such collection agency under this section. Such agencies shall agree to accept loans from any institution participating in the demonstration program under this section.

"(g) SUSPENSION.—The Secretary may suspend the eligibility of any institution to participate in the program under this section if the Secretary determines that the institution is not successfully implementing the program.

"(h) EVALUATION.—Not later than 1, 5, 10, and 15 years after the date of enactment of this section, the Secretary shall conduct an evaluation of the program established under this section to identify any problems in the program that need correction. The evaluation shall, among other things, assess the cost of the program to the Federal Government, the cost of the program to the borrower, the cost of the program to institutions, the default record of institutions in the program compared to institutions in the program under subpart I, administrative problems that arise from the program, and the impact of the program on the borrower's choice of specialization and residency or practice decisions.

"(i) TERMS AND CONDITIONS.—Unless otherwise specified, all loans made under this subpart shall be subject to the same terms and conditions as loans made under subpart I.

"(j) TERMINATION.—The authority to make loans under this section shall terminate 5 years after the date of enactment of this section.".

SEC. 132. LOAN REPAYMENT PROGRAM FOR ALLIED HEALTH PERSONNEL.

Section 751 (42 U.S.C. 294r) is amended—

(1) in subsection (a), by striking out "an Indian Health Service" and all that follows through the end thereof and inserting "a medically underserved or rural community that can demonstrate a shortage of allied health professionals in a recognized discipline."; and

(2) in subsection (d), by striking out "$2,000,000" and all that follows through the end thereof and inserting "$5,000,000 for each of the fiscal years 1992 through 1996.".

SEC. 133. SCHOLARSHIPS FOR STUDENTS OF EXCEPTIONAL FINANCIAL NEED.

(a) IN GENERAL.—Section 758(d) (42 U.S.C. 294z(d)) is amended by striking out "$16,000,000" and all that follows through the end thereof and inserting "$30,000,000 for each of the fiscal years 1992 through 1996.".

(b) TECHNICAL AMENDMENT.—Part C of title VII (42 U.S.C. 294 et seq.) is amended by striking out the subpart heading for subpart IV.

SEC. 134. REPEAL OF LISTER HILL SCHOLARSHIP PROGRAM.

Section 759 of title VII (42 U.S.C. 294aa) is repealed.

SEC. 135. SCHOLARSHIPS FOR STUDENTS FROM DISADVANTAGED BACKGROUNDS.

Section 760 (g)(1) (42 U.S.C. 294bb(g)(1)) is amended by striking out "$17,000,000" and all that follows through the end thereof and inserting "$17,000,000 for each of the fiscal years 1992 through 1996.".

SEC. 136. FACULTY LOAN REPAYMENT PROGRAM.

Section 761 (42 U.S.C. 294cc) is amended—

(1) in subsection (b), by striking out the matter preceding paragraph (1) and inserting in lieu thereof the following:

"(b) ELIGIBLE INDIVIDUALS.—The individuals referred to in subsection (a) are individuals from disadvantaged backgrounds who are newly employed as faculty of the eligible school and who have not been members of the faculty of any school at any time during the 18-month period preceding the date of application, and who—";

(2) in subsection (d)—

(A) by striking out "for such year"; and

(B) by striking out "equal to 50 percent" and inserting in lieu thereof "equal to 20 percent"; and

(3) in subsection (h), by striking out "$4,000,000" and all that follows through the end thereof and inserting "$5,000,000 for each of the fiscal years 1992 through 1996.".

Subtitle D—Grants and Contracts for Programs and Projects

SEC. 141. DEPARTMENTS OF FAMILY MEDICINE.

Section 780 (42 U.S.C. 295g) is amended—

(1) in subsection (b)—

(A) by striking out "and" at the end of paragraph (1);

(B) by redesignating paragraph (2) as paragraph (3); and

(C) by inserting after paragraph (1), the following new paragraph:

"(2) in the case of an applicant with an existing department or division of family medicine, assurance satisfactory to the Secretary that such applicant will secure financial support from non-Federal sources in amounts that shall increase annually, and that the applicant has developed a plan for future self-sufficiency; and";

(2) in subsection (c), to read as follows:

"(c) In making grants under subsection (a), the Secretary shall give priority to applications that—

"(1) establish new Departments of Family Medicine; or

"(2) demonstrate the substantial expansion of program activities in existing Departments of Family Medicine."; and

(3) in subsection (d), by striking out "$10,000,000" and all that follows through the end thereof and inserting "$10,000,000 for fiscal year 1992, $11,000,000 for fiscal year 1993, $12,000,000 for fiscal year 1994, $13,000,000 for fiscal year 1995, and $14,000,000 for fiscal year 1996.".

SEC. 142. AREA HEALTH EDUCATION CENTERS.

(a) Terms of Agreements.—Section 781(a) (42 U.S.C. 295g-1(a)) is amended by adding at the end thereof the following new paragraph:

"(3)(A) Except as provided in subparagraph (B), an agreement entered into under this subsection for establishment of a center shall remain in effect for a period of 6 years from the date on which such agreement was executed. Such agreement shall be extended to the extent necessary to provide Federal funds under such agreement, for a 6-year period, to all centers operated or developed with funds provided under such agreement.

"(B) The agreements referred to in subparagraph (A) may be terminated by the Secretary on a determination by the Secretary that a center, developed and operated with funds received under such agreement, has not performed in a satisfactory manner.".

(b) Requirements.—Section 781(c) (2 U.S.C. 295g-1(c)) is amended—

(1) in paragraph (4), by inserting after "school of dentistry" the following: "or program in clinical psychology"; and

(2) by adding at the end thereof the following new sentences: "The Secretary shall give preference in awarding contracts under this section to applicants that will establish new programs. The Secretary shall give priority in awarding contracts under this section to applicants that establish linkages with a school of public health, if such a school exists within the area being served by such center and desires to participate.".

(c) Health Education Training Centers.—Section 781(f) (42 U.S.C. 295g-1(f)) is amended—

(1) in paragraph (1)—

(A) by inserting "and in other high-impact urban or rural areas (as determined by the Secretary)" before the semicolon in subparagraph (A); and

(B) by inserting "and other high risk" after "Hispanic" in subparagraph (B);

(2) in paragraph (3)—

(A) by inserting "or high impact" after "Each border"; and

(B) by inserting "or a high impact urban or rural area (as determined by the Secretary)" before the period at the end thereof;

(3) by redesignating paragraphs (6) through (8) as paragraphs (7) through (9), respectively; and

(4) by inserting after paragraph (5), the following new paragraph:

"(6) The Secretary shall give priority in the funding of a health education training center under such agreement to applicants that establish linkages with a school of public health, if such a school exists within the area being served by such center and desires to participate.".

(d) State Matching Area Health Education Center Programs.—Section 781 (42 U.S.C. 295g-1) is further amended—

(1) by redesignating subsections (g) and (h) as subsections (h) and (i), respectively; and

(2) by inserting after subsection (f), the following new subsection:

"(g)(1)(A) The Secretary may enter into agreements with eligible schools of medicine and osteopathic medicine for the planning, development and operation of State supported area health education center programs that meet the requirements of subparagraph (B).

"(B) To be eligible to receive an agreement award under this section, the applicant shall ensure that the program supported with amounts received under the agreement will—

"(i) meet the other requirements of subsections (b) and (c);

"(ii) create and maintain preceptorship educational experiences for health science students;

"(iii) develop or affiliate with community-based primary care residency programs;

"(iv) institute or coordinate with continuing education programs for health professionals;

"(v) establish and maintain learning resource and dissemination systems for information identification and retrieval;

"(vi) enter into agreements with community-based organizations for the delivery of services supported under this authority;

"(vii) become involved in the training of nurses, allied and other health professionals and, where consistent with State laws, nurse practitioners and physicians assistants;

"(viii) carry out recruitment programs for health science professions among minority and other elementary or secondary students from areas the program determines to be medically underserved; and

"(ix) carry out not less than three of the activities described in subparagraph (C).

"(C) The activities referred to in subparagraph (B)(ix) shall include—

"(i) coordinating with an Office of Rural Health in the State that is operating in the area served by the center, wherein one exists;

"(ii) administering appropriate National Health Service Corps program activities in the area serviced by the center, except that such center shall provide only support services if the responsibility for such administration has been assigned to any other State agency;

"(iii) working directly with local health departments in the area served by the center;

"(iv) participating in community and migrant health centers and similar provider activities in the area to be served by the centers; or

"(v) cooperating with other federally and State funded health service provider recruitment and retention programs operating in the area to be served by the center.

"(2) Amounts received under an agreement entered into under this subsection shall be sufficient to enable a State supported area health education program to carry out demonstration projects concerning subjects determined appropriate by the Secretary, including, but not limited to—

"(A) the establishment of computer-based information programs or telecommunication networks that will link health science centers and service delivery sites;

"(B) the provision of disease specific educational programs for health providers and students in areas of concern to the United States;

"(C) the development of information dissemination models to make available new information and technologies emerging from biological research centers to the practicing medical community;

"(D) the institution of new minority recruitment and retention programs, targeted to improved service delivery in areas the program determines to be medically underserved;

"(E) the establishment of State health service corps programs to place physicians from health professional shortage areas into similar areas to encourage retention of physicians and to provide flexibility to States in filling positions in health professional shortage areas; and

"(F) the establishment or improvement of education and training programs for State emergency medical systems.

"(3) The Secretary shall not provide in excess of $2,000,000 per annum per State, or per program where that program serves more than one State, or an aggregate amount based on an average award of $250,000 per center to be supported in the States in which the program is operating, whichever is less, to programs under this subsection.

"(4) An agreement entered into under this subsection shall require that the program—

"(A) ensure that at least 75 percent of the amounts received under the agreement be distributed to area health education centers within the area served by the program, through a formal agreement; and

"(B) use amounts provided under such agreement to supplement, not supplant, State funds provided for similar programs prior to the execution of the agreement.".

(e) Authorization of Appropriations.—Section 781 (42 U.S.C. 295g-1) is further amended—

(1) in subsection (f)(8)—

(A) by striking out "(h)(2)" in subparagraph (A) and inserting in lieu thereof "(i)(2)"; and

(B) by inserting "and Native American" after "Hispanic" in subparagraph (B)(i); and

(2) by striking out subsection (i) (as so redesignated by subsection (b)(1)), and inserting in lieu thereof the following new subsection:

"(i)(1)(A) For purposes of carrying out this section other than subsection (f), there are authorized to be appropriated $40,000,000 in each of the fiscal years 1992 through 1996. Any amounts appropriated with respect to fiscal year 1992 or 1993 in excess of $19,200,000 and with respect to fiscal years 1994 through 1996 in excess of $18,700,000 shall be used to carry out the activities authorized under subsection (g). Not more than 10 percent of any amount appropriated in a fiscal year in excess of $21,000,000 shall be used to fund the activities authorized under subsection (g)(2).

"(B) The Secretary may obligate not more than 20 percent of the amount appropriated under this paragraph in each fiscal year, or up to $4,000,000, whichever is less, for special area health education center initiatives under section (a)(2)(A).

"(2) For purposes of carrying out subsection (f), there are authorized to be appropriated—

"(A) $5,000,000 for fiscal year 1992;

"(B) $6,000,000 for fiscal year 1993;

"(C) $7,000,000 for fiscal year 1994;

"(D) $8,000,000 for fiscal year 1995; and

"(E) $9,000,000 for fiscal year 1996.".

(f) Matching Requirement.—Section 781 (42 U.S.C. 295g-1) is further amended by adding at the end thereof the following new subsection:

"(j) An agreement entered into under subsection (g) after the date of enactment of this subsection shall require that the entity awarded such agreement make available (directly through cash donations from public or private entities) non-Federal contributions toward such costs in an amount that is not less than $1 for every $1 of Federal funds provided under the agreement in such year.".

(g) Technical Amendments.—Section 781 such Act (42 U.S.C. 295g-1) is further amended—

(1) by striking out "contract" each place that such appears and inserting in lieu thereof "agreement"; and

(2) by striking out "contracts" each place that such appears and inserting in lieu thereof "agreements".

SEC. 143. PROGRAMS OF EXCELLENCE IN HEALTH PROFESSIONS EDUCATION FOR MINORITIES.

(a) Definitions.—Section 782(g)(1)(A) (42 U.S.C. 295g-2(g)(1)(A)) is amended by striking out "a school of dentistry" and all that follows through the end thereof and inserting "a school of osteopathic medicine, a school of dentistry, a school of pharmacy, a school of public health, or a graduate program in clinical psychology.".

(b) Authorization of Appropriations.—

(1) Authority.—Section 782(a) (42 U.S.C. 295g-2(a)) is amended by inserting ", or enter into contracts with," after "make grants to".

(2) Appropriations.—Section 782(h) (42 U.S.C. 295g-2(h)) is amended—

(A) in paragraph (1)—

(i) by striking out "grants" and inserting in lieu thereof "grants or entering into contracts"; and

(ii) by striking out "such sums" and all that follows in paragraph (1) through the end thereof and inserting "$28,000,000 for each fiscal year 1992 through 1996.";

(B) in paragraph (2)—

(i) by striking out "grants" each place that such appears and inserting in lieu thereof "grants or contracts"; and

(ii) by striking out "$2,500,000" in subparagraph (B), and inserting in lieu thereof "$5,000,000"; and

(C) in paragraph (3)—

(i) by striking out "grants" the first place that such appears and inserting in lieu thereof "grants or contracts";

(ii) by striking out "for the grants"; and

(iii) by striking out "to making grants".

SEC. 144. TRAINING, TRAINEESHIPS, AND FELLOWSHIPS IN GENERAL INTERNAL MEDICINE AND GENERAL PEDIATRICS.

(a) Grants.—Paragraphs (1) and (2) of section 784(a) (42 U.S.C. 295g-4(a)) are amended to read as follows:

"(1) to plan, develop, and operate, or participate in, an approved professional training program (including an approved residency or internship program) in the field of internal medicine or pediatrics for allopathic and osteopathic medical students, interns, residents, or practicing physicians, that emphasizes training for the practice of general internal medicine or general pediatrics;

"(2) to provide financial assistance (in the form of traineeships and fellowships) to allopathic and osteopathic students, interns, residents, practicing physicians, or other medical personnel, who are in need of such assistance, who are participants in any such program, and who plan to specialize or work in the practice of general internal medicine and general pediatrics;".

(b) Authorization of Appropriations.—Section 784(c) (42 U.S.C. 295g-4(c)) is amended by striking out "$10,000,000" and all that follows through the end thereof and inserting "$35,000,000 for fiscal year 1992, $36,000,000 for fiscal year 1993, $37,000,000 for fiscal year 1994, $38,000,000 for fiscal year 1995, and $39,000,000 for fiscal year 1996.".

SEC. 145. DENTISTRY.

(a) Residency Programs.—Section 785 (42 U.S.C. 295g-5) is amended—

(1) in subsection (a)—

(A) by striking out "and" at the end of paragraph (1);

(B) by striking out the period in paragraph (2) and inserting in lieu thereof "; and"; and

(C) by adding at the end thereof the following new paragraph:

"(3) to fund innovative, nontraditional models for the provision of postdoctoral General Dentistry training."; and

(2) in subsection (b), by striking out "$4,000,000" and all that follows through the end thereof and inserting "$8,000,000 for fiscal year 1992, $9,000,000 for fiscal year 1993, $10,000,000 for fiscal year 1994, $11,000,000 for fiscal year 1995, and $12,000,000 for fiscal year 1996.".

(b) Training Grants.—Part F of title VII is amended by inserting after section 785 (42 U.S.C. 295g-5) the following new section:

"SEC. 785A. TRAINING IN DENTAL PUBLIC HEALTH.

"(a) In General.—The Secretary may award grants to and enter into contracts with schools of dentistry, schools of public health, accredited postgraduate dental training institutions, or State or local public health agencies to assist such entities in meeting the costs of projects—

"(1) to plan, develop or participate in new residency programs and expand or improve existing residency programs in dental public health; and

"(2) to provide financial assistance in the form of traineeships to dental residents or practicing dentists who participate in any program of the type described in paragraph (1) and who plan to work in the field of public health.

"(b) Eligibility.—To be eligible to receive a grant or contract under subsection (a), an entity of the type described in such subsection shall—

"(1) prepare and submit to the Secretary an application at such time, in such form, and containing such information as the Secretary may require; and

"(2) demonstrate to the Secretary that such entity has available full-time faculty or staff with training and experience in the field of public health, preventive dentistry or community dentistry and other related specialties or disciplines.

"(c) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section, $1,000,000 for each of the fiscal years 1992 through 1996.".

SEC. 146. FAMILY MEDICINE RESIDENCIES.

Section 786 (42 U.S.C. 295g-6) is amended—

(1) in subsection (b)—

(A) by striking out "priority" and inserting in lieu thereof "preference"; and

(B) by inserting after "family medicine" the following: "and who demonstrate a substantial linkage to one or more medically underserved or rural communities (as defined in section 711(c))";

(2) in subsection (c), by striking out "$37,900,000" and all that follows through the end thereof and inserting "$50,000,000 for fiscal year 1992, $51,000,000 for fiscal year 1993, $52,000,000 for fiscal year 1994, $53,000,000 for fiscal year 1995, and $54,000,000 for fiscal year 1996."; and

(3) by adding at the end thereof the following new subsection:

"(d) Notwithstanding any other provision of law, after October 1, 1993, only those schools or hospitals with departments or divisions or approved residencies providing clinical instruction in family medicine shall be eligible to receive assistance under this section."

SEC. 147. EDUCATIONAL ASSISTANCE TO INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS.

Section 787 (42 U.S.C. 295g-7) is amended—

(1) in subsection (a)(1), by inserting "or clinical social work" after "clinical psychology";

(2) in subsection (b)—

(A) by inserting "or clinical social work" after "clinical psychology" in paragraph (1);

(B) by striking out "priority" and inserting in lieu thereof "preference" in the matter preceding subparagraph (A) of paragraph (2);

(C) by striking out "and" at the end of subparagraph (A) of paragraph (2);

(D) by striking out subparagraph (B) of paragraph (2) and inserting in lieu thereof the following new subparagraph:

"(B) to schools that—

"(i) maintain an enrollment of individuals from disadvantaged backgrounds at a level that exceeds 200 percent of the national average of such individuals enrolled in such schools;

"(ii) secure financial support from non-Federal sources in amounts that increase annually; and

"(iii) involve or consult with appropriate State and local health and educational agencies and entities in the planning and conduct of the project.";

(3) in subsection (c)—

(A) by striking out "$20,000,000" and all that follows through the first period and inserting "$36,000,000 for fiscal year 1992, $37,000,000 for fiscal year 1993, $38,000,000 for fiscal year 1994, $39,000,000 for fiscal year 1995, and $40,000,000 for fiscal year 1996."; and

(B) by striking out the third and fourth sentences; and

(4) by adding at the end thereof the following new subsection:

"(d) Notwithstanding any other provision of law relating to a limitation on the amount of stipends that may be paid under this section, the Secretary may provide for the payment of stipends under this section in an amount not to exceed $40 per day.".

SEC. 148. RETENTION PROGRAM FOR CERTAIN HEALTH PROFESSIONALS.

Section 787A(d) (42 U.S.C. 295g-7a(d)) is amended by striking out "and 1991" and inserting in lieu thereof "through 1996".

SEC. 149. MINORITY FACULTY DEVELOPMENT TRAINING FELLOWSHIPS.

Part F of title VII is amended by inserting after section 787A (42 U.S.C. 295g-7a) the following new section:

"SEC. 787B. MINORITY FACULTY DEVELOPMENT TRAINING FELLOWSHIPS.

"(a) In General.—The Secretary may make grants to and enter into contracts with schools of medicine, osteopathic medicine, dentistry, veterinary medicine, optometry, podiatric medicine, pharmacy, public health, health administration, clinical psychology, and other public or private nonprofit health or educational entities of the type described in section 701, to assist such schools in increasing the number of underrepresented minority faculty members at such schools.

"(b) Applications.—To be eligible to receive a grant or contract under this section a school shall prepare and submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including an assurance that amounts received under such a grant or contract will be used to award a fellowship to a new member of the faculty of such school who meets the requirements of subsections (c) and (d), that shall include a stipend in an amount that does not exceed 50 percent of the regular salary of a similar faculty member position up to a maximum of $30,000.

"(c) Eligibility.—To be eligible to receive a grant or contract under subsection (a), an applicant shall demonstrate to the Secretary that such applicant has or will have the ability to—

"(1) identify, recruit and select individuals from underrepresented minorities in health professions who have the potential for teaching, administration, or conducting research at a health professions institution;

"(2) provide such individuals with the skills necessary to enable them to secure a tenured faculty position at such institution, which may include training with respect to pedagogical skills, program administration, the design and conduct of research, grants writing, and the preparation of articles suitable for publication in peer reviewed journals;

"(3) provide mentoring or other services designed to assist such minorities in their preparation for an academic career; and

"(4) provide health services to rural or medically underserved populations.

"(d) REQUIREMENTS.—To be eligible to receive a grant or contract under this section an applicant shall—

"(1) provide an assurance that such applicant will make available (directly through cash donations) $1 for every $1 of Federal funds received under this section for the fellowship;

"(2) provide an assurance that institutional support will be provided for the individual for a second year at a level that is not less than the total amount of Federal and institutional funds provided in the year in which the grant or contract was awarded;

"(3) provide an assurance that the individual that will receive the fellowship will be a member of the faculty of the applicant school; and

"(4) provide an assurance that the individual that will receive the fellowship will have, at a minimum, appropriate advanced preparation (such as a master's or doctoral degree) and special skills necessary to enable such individual to teach and practice.

"(e) DEFINITION.—As used in this section, the term 'minority' means an individual from a racial or ethnic group that is underrepresented in the health professions.

"(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $2,000,000 in each of the fiscal years 1992 through 1996.".

SEC. 150. SPECIAL DEMONSTRATION PROJECTS.

(a) GRANTS FOR STUDIES AND DEMONSTRATIONS.—Subsection (a) of section 788 (42 U.S.C. 295g-8(a)) is amended to read as follows:

"(a) GRANTS FOR STUDIES AND DEMONSTRATIONS.—The Secretary may award grants to and enter into contracts with public or nonprofit private entities to enable such entities to conduct studies and demonstration projects related to—

"(1) the improvement of health professions education, including studies and projects to determine—

"(A) the effectiveness of various methods of training health professionals (including nurses) to practice in primary care specialties or to provide services to underserved populations;

"(B) the merits of major curricular innovations (such as the increased integration of undergraduate and graduate medical education and various approaches to interdisciplinary training programs);

"(C) the effect of Medicare graduate medical education funding and medical research grant funding on medical schools and residency programs, particularly as such funding may affect institutional support for primary care training and student choices regarding medical specialty and location of practice;

"(D) the effectiveness of education targeted toward meeting the needs of particular population groups (such as the elderly, women, children, adolescents, the disabled, individuals residing in rural areas);

"(E) the impact of student indebtedness on specialty choice and practice location; and

"(F) the impact of underrepresented minority and disadvantaged health professions programs in minority and majority schools on recruitment, retention, and practice choices of underrepresented minority and disadvantaged health personnel;

"(2) the assurance of the competency of health personnel, including studies and projects to determine—

"(A) the effect on quality and service of adopting alternative approaches to the licensure and credentialing of health personnel;

"(B) the efficacy of different approaches to providing for continuing competency of such personnel;

"(C) the effectiveness and variation of State licensing authorities in identifying problem providers and undertaking disciplinary actions;

"(D) the usefulness of various types of certification programs in assuring the quality of health personnel; and

"(E) the appropriate differentiation of functions of various types and levels of health professions personnel.".

(b) CHIROPRACTIC TRAINING AND DEMONSTRATION PROJECT.—Subsection (b) of section 788 (42 U.S.C. 295g-8) is amended to read as follows:

"(b) CHIROPRACTIC TRAINING AND DEMONSTRATION PROJECT.

"(1) IN GENERAL.—The Secretary may make grants to and enter into contracts with, colleges and universities of chiropractic to assist such colleges and universities in—

"(A) meeting the costs of projects designed—

"(i) to plan, develop, establish, expand and operate advanced degree programs or postdoctoral programs in chiropractic for the advanced specialty training of chiropractic health care professionals who plan to teach and conduct research in chiropractic;

"(ii) to support interdisciplinary training programs that promote the effectiveness of chiropractic in prevention, diagnosis and treatment of chronic lower back, musculoskeletal, and spinal problems;

"(iii) to develop innovative models to link chiropractic, chiropractic education and chiropractic research;

"(iv) to identify, recruit and train individuals from disadvantaged backgrounds;

"(v) to improve and strengthen the curriculum of such colleges or universities by including or expanding the knowledge and practice concerning disease prevention and health promotion; or

"(vi) to develop new and innovative methods to train chiropractors to provide services in rural and medically underserved areas; or

"(B) establishing a demonstration project to develop the collaboration of a college or university of chiropractic and a traditional health professions academic institution training program, including medical schools. The demonstration project referred to in subparagraph (B) shall address the manner in which to effectively integrate chiropractic into the traditional health care provider systems and medical education programs, with particular emphasis on the reduction of health care costs for lower and spinal-related back problems.

"(2) METHODS.—A recipient of funds under paragraph (1) may use various methods in carrying out the projects described in subparagraphs (A) and (B) of such paragraph, including—

"(A) the distribution of stipends to students and faculty of eligible applicants;

"(B) the establishment of a post-doctoral fellowship program;

"(C) the training of faculty in preparation for graduate and post-doctoral education and training activities; and

"(D) the purchase of equipment and training materials where the need for such equipment due to unique characteristics of the project is demonstrated by the recipient.

"(3) ADMINISTRATION.—An applicant for a grant or contract under this subsection shall not use in excess of five percent of the funds made available to such applicant under this subsection for administrative expenses and not more than five percent of such funds for indirect costs.

"(4) ELIGIBLE APPLICANTS.—To be eligible to receive funds under paragraph (1)(A), an applicant for a grant or contract shall be an accredited college or university of chiropractic. Such eligible applicants shall not include for-profit entities, either directly or through a subcontract or subgrant. Applications for a grant or contract under paragraph (1)(B) shall be jointly submitted by a college or university of chiropractic and by one or more of the following:—

"(A) State or local health departments;

"(B) public and nonprofit colleges, universities, schools of allopathic or osteopathic medicine; or

"(C) public or nonprofit hospitals.

"(5) PEER REVIEW.—

"(A) IN GENERAL.—Each applicant for a grant or contract under this subsection shall be submitted to a peer review group for an evaluation of the merits of the proposals contained in the application.

"(B) ESTABLISHMENT.—The Secretary shall establish such peer review groups as may be necessary to carry out subparagraph (A). The Secretary shall make appointments of individuals to the peer review group from among appropriately qualified individuals who are not officers or employees of the United States. The peer review group shall consist of not more than six members, at least three of which shall be chiropractors. Of such chiropractor members—

"(i) one shall represent the Consortium for Chiropractic Research;

"(ii) one shall represent a college or university of chiropractic; and

"(iii) one shall be a practicing chiropractor.

"(6) EXPEDITING AWARD OF GRANTS/CONTRACTS.—The Secretary shall expedite the awarding of grants or contracts to eligible applicants under this subsection. To the maximum extent practicable, such grants or contracts shall be awarded by the Secretary not later than 120 days after the date of the receipt of the final recommendation of the peer review group established under paragraph (5) concerning applications submitted under this subsection.

"(7) REPORT.—Not later than April 1, 1995, the Secretary shall prepare and submit to the Committee on Labor and Human Resources and the Subcommittee on Labor, Health, and Human Services, Education and Related Agencies of the Committee on Appropriations of the Senate and the Committee on Energy and Commerce and the Subcommittee on Labor, Health and Human Services, Education, and Related Agencies of the Committee on Appropriations of the House of Representatives, a comprehensive report summarizing the applications that were submitted and the grants and contracts that were awarded under this subsection, and the effectiveness of programs established using such grants or contracts.".

(c) PREVENTIVE MEDICINE.—

(1) REPEAL.—Section 793 (42 U.S.C. 295h-1c) is repealed.

(2) TRANSFER OF PROVISIONS WITH TRAINING AND PREVENTIVE MEDICINE.—

(A) IN GENERAL.—Subsection (c) of section 788 (42 U.S.C. 295g-8)—

(i) is transferred to subpart I of part G of title VII;

(ii) is redesignated as section 793(a); and

(iii) is inserted after section 792.

(B) REVISION.—Section 793 (as transferred and added by subparagraph (A), is amended—

(i) by inserting immediately preceding subsection (a) the following:

"SEC. 793. TRAINING IN PREVENTIVE MEDICINE.";

(ii) in the subsection heading of subsection (a) to read as follows:

"(a) TRAINING GRANTS AND CONTRACTS.—"; and

(iii) by adding at the end thereof the following new subsection:

"(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $6,000,000 in fiscal year 1992, $7,000,000 in fiscal year 1993, $8,000,000 in fiscal year 1994, $9,000,000 in fiscal year 1995, and $10,000,000 in fiscal year 1996.".

(d) PHYSICIAN ASSISTANTS.—

(1) TRANSFER OF PROVISIONS WITH TRAINING AND PREVENTIVE MEDICINE.—Subsection (d) of section 788 (42 U.S.C. 295g-8)—

(A) is transferred to part F of title VII;

(B) is redesignated as section 786A(a); and

(C) is inserted after section 786.

(2) REVISION.—Section 786A (as transferred and added by paragraph (1), is amended—

(A) by inserting immediately preceding subsection (a) the following:

"SEC. 786A. PHYSICIAN ASSISTANT PROGRAMS.";

(B) in the subsection heading of subsection (a) to read as follows:

"(a) GRANTS AND CONTRACTS.—"; and

(C) by adding at the end thereof the following new subsection:

"(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $8,000,000 for fiscal year 1992, $9,000,000 for fiscal year 1993, $10,000,000 for fiscal year 1994, $11,000,000 for fiscal year 1995, and $12,000,000 for fiscal year 1996.".

(e) PODIATRIC MEDICINE.—Section 788 (42 U.S.C. 295g-8) is amended by redesignating subsection (e) as subsection (c).

(f) AUTHORIZATION OF APPROPRIATIONS.—Subsection (f) of section 788 (42 U.S.C. 295g-8(f)) is amended to read as follows:

"(d) AUTHORIZATION OF APPROPRIATIONS.—

"(1) SUBSECTION (a).—There are authorized to be appropriated to carry out subsection (a), $5,000,000 for each of the fiscal years 1992 through 1996.

"(2) SUBSECTION (b)(1).—

"(A) SUBPARAGRAPH (A).—There are authorized to be appropriated to carry out subsection (b)(1)(A), $1,000,000 for each of the fiscal years 1992 through 1996.

"(B) SUBPARAGRAPH (B).—There are authorized to be appropriated to carry out subsection (b)(1)(B), $500,000 for each of the fiscal years 1992 through 1994.

"(4) SUBSECTION (c).—There are authorized to be appropriated to carry out subsection (c), $1,000,000 for each of the fiscal years 1992 through 1996.".

SEC. 151. AIDS EDUCATION AND TRAINING.

(a) IN GENERAL.—Section 788A (42 U.S.C. 295g-8b) is amended—

(1) in subsection (a)—

(A) by inserting "and other public or private nonprofit health or educational entities" after "science centers" in the matter preceding paragraph (1); and

(B) by striking out paragraphs (1) through (3) and inserting in lieu thereof the following new paragraphs:

"(1) to train health professions faculty to teach health professions practitioners and students to provide for the health care needs of individuals infected with the human immunodeficiency virus and individuals who are at high risk of contracting such infection;

"(2) with respect to improving skills in the diagnosis, treatment, and prevention of such infection, to educate and train health professions practitioners and students; and

"(3) to develop and disseminate health professions curricula and related resource materials relating to the care and treatment of individuals infected with the human immunodeficiency virus and to the prevention of such infection in individuals who are at high risk of contracting such virus.";

(2) in subsection (b)—

(A) by striking out "treatment for minority individuals with acquired immune deficiency syndrome" in paragraph (1), and inserting in lieu thereof "health care to minority individuals who are infected with the human immunodeficiency virus"; and

(B) by striking out "treatment for individuals with acquired immune deficiency syndrome" in paragraph (2), and inserting in lieu thereof "health care to individuals who are infected with the human immunodeficiency virus and other individuals who are at high risk of contracting such infection"; and

(3) in subsection (e), by striking out "such sums" and all that follows through the end thereof and inserting "$21,000,000 for fiscal year 1992, $23,000,000 for fiscal year 1993, $25,000,000 for fiscal year 1994, $27,000,000 for fiscal year 1995, and $29,000,000 for fiscal year 1996.".

(b) AUTHORIZATION OF APPROPRIATIONS.—Subsection (f)(5) of section 788A (42 U.S.C. 295g-8b(f)(5)) is amended by striking out "such sums" and all that follows through the end thereof and inserting "$6,000,000 for fiscal year 1992, $8,000,000 for fiscal year 1993, $10,000,000 for fiscal year 1994, $12,000,000 for fiscal year 1995, and $14,000,000 for fiscal year 1996.".

SEC. 152. GERIATRIC EDUCATION CENTERS AND GERIATRIC TRAINING.

(a) EDUCATION.—Section 789(a)(1) (42 U.S.C. 295g-9(a)(1)) is amended by striking out "and programs referred to in section 701(8)" and inserting in lieu thereof ", programs referred to in section 701(5) and schools referred to in section 853".

(b) TRAINING.—Section 789(b) (42 U.S.C. 295g-9(b)) is amended—

(1) in paragraph (1), by inserting ", geriatric psychiatry," after "geriatric medicine";

(2) in paragraph (2)—

(A) by inserting "or geriatric psychiatry" after "geriatric medicine" in subparagraph (A); and

(B) by inserting "or in a department of geriatric psychiatry" after "department of geriatrics" in subparagraph (C); and

(3) in paragraph (3)(B)—

(A) by striking out "1-year or" in the matter preceding clause (i); and

(B) by striking out clause (ii) and inserting in lieu thereof the following new clause:

"(ii) dentists who have demonstrated a commitment to an academic career and who have completed postdoctoral dental training, including postdoctoral dental education programs or who have relevant advanced training or experience.".

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 789(c) (42 U.S.C. 295g-9(c)) is amended to read as follows:

"(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $26,000,000 for each of the fiscal years 1992 through 1996.".

Subtitle E—Personnel in Public Health, Health Administration and Allied Health

SEC. 161. SPECIAL PROJECTS, SCHOOLS OF PUBLIC HEALTH.

(a) TRANSFER OF PROVISIONS.—Section 790A (42 U.S.C. 295g-11)—

(1) is transferred to subpart I of part G of title VII;

(2) is redesignated as section 794; and

(3) is inserted after section 793.

(b) REVISION.—Section 794 (as transferred and added by subsection (a), is amended—

(1) in subsection (a)—

(A) by striking out "schools of public health" and all that follows through "evaluating projects" in the matter preceding paragraph (1) and inserting in lieu thereof "accredited schools of public health for the costs of planning, developing, demonstrating, operating, and evaluating projects to accomplish the Healthy People 2000: National Health Promotion and Disease Prevention Objectives, including projects";

(B) by striking out "and quality in health care." in paragraph (4) and inserting in lieu thereof "to preventive services and quality in health care;"; and

(C) by inserting after paragraph (4), the following:

"which shall provide graduate students with comprehensive knowledge and skills, recruit candidates for graduate education in preparation for public service in specialties that are in short supply, strengthen existing departments of instruction to cope with specific and especially severe health problems, strengthen continuing education and non-degree teaching programs, and establish firm links with governmental and private health agencies and institutions as sites for field practice training."; and

(2) in subsection (d), by striking out "$1,500,000" and all that follows through the end thereof and inserting "$10,000,000 for fiscal year 1992, $11,000,000 for fiscal year 1993, $12,000,000 for fiscal year 1994, $13,000,000 for fiscal year 1995, and $14,000,000 for fiscal year 1996.".

SEC. 162. GRADUATE PROGRAMS.

(a) HEALTH ADMINISTRATION PROGRAMS.—Section 791(d) (42 U.S.C. 295h(d)) is amended by striking out "$3,250,000" and all that follows through the end thereof and inserting "$1,700,000 for each of the fiscal years 1992 through 1996.".

(b) HEALTH ADMINISTRATION TRAINEESHIPS.—Section 791A(c) (42 U.S.C. 295h-1a) is amended by striking out "$2,500,000" and all that follows through the end thereof and inserting "$1,000,000 for each of the fiscal years 1992 through 1996.".

SEC. 163. PUBLIC HEALTH TRAINEESHIPS.

(a) GRANTS.—Subsection (a) of section 792 (42 U.S.C. 295h-1b(a)) is amended to read as follows:

"(a)(1) The Secretary may make grants to—

"(A) accredited schools of public health; and

"(B) other public or nonprofit private institutions that provide graduate or specialized training in public health and that are not eligible to receive a grant under section 791A;

to provide traineeships to increase the number of graduate students preparing to serve the Healthy People 2000: National Health Promotion and Disease Prevention Objectives.

"(2) Traineeships under paragraph (1) shall be awarded primarily to—

"(A) minority and disadvantaged students;

"(B) physicians, scientists and engineers who are determined by the Secretary to be in short supply in the public health field;

"(C) students in other areas of severe personnel shortage such as epidemiology and preventive medicine; and

"(D) students committed to service that involves severe health problems that are targeted in the Healthy People 2000: National Health Promotion and Disease Prevention Objectives, including AIDS prevention and control, maternal and child health, drug abuse, infant mortality, injury prevention and control, environmental protection and chemical hazards, including toxic wastes, chronic disease prevention and control, health problems in minority populations, health problems of the elderly, migrants and immigrants, and specific health promotion programs in underserved areas.".

(b) Preferences.—Subsection (b) of section 792 (42 U.S.C. 295h-1b(b)) is amended by striking out paragraphs (2) through (4) and inserting in lieu thereof the following new paragraph:

"(2) When considering applications submitted for grants under this section, the Secretary shall give preference to—

"(A) projects that provide for increased involvement of State and local governments in the planning and support of training initiatives to help mobilize State and local financial support for needed activities as well as to enhance the responsiveness of educational and training programs to State, local and regional health personnel needs; and

"(B) projects that can demonstrate effectiveness in meeting priority health care needs of underserved populations, especially public health, environmental health and allied health training.".

(c) Authorization of Appropriations.—Subsection (c) of section 792 (42 U.S.C. 295h-1b(c)) is amended by striking out "$7,500,000" and all that follows through the end thereof and inserting "$10,000,000 for fiscal year 1992, $11,000,000 for fiscal year 1993, $12,000,000 for fiscal year 1994, $13,000,000 for fiscal year 1995, and $14,000,000 for fiscal year 1996.".

SEC. 164. PROJECT GRANTS AND CONTRACTS.

Section 796 (42 U.S.C. 295h-5) is amended to read as follows:

"SEC. 796. PROJECT GRANTS AND CONTRACTS.

"(a) Projects Related to Allied Health Professions with Personnel Shortages.—The Secretary may award grants to and enter into contracts with eligible entities to assist such entities in meeting the costs associated with increasing program enrollments or establishing programs that will increase the number of individuals in those allied health professions with demonstrated personnel shortage (including occupational therapy, physical therapy, respiratory therapy, clinical laboratory personnel and dental hygienists) to provide individuals to serve in a medically underserved or rural communities (as defined in section 711(c)). Programs and activities funded under this section may include—

"(1) the expansion of program enrollments in those professions with the greatest shortages and whose services are most needed by the elderly;

"(2) projects to provide rapid transition training programs in allied health fields to individuals who have baccalaureate degrees in health-related sciences;

"(3) the establishment of innovative outreach programs that link academic resources with rural clinical settings to establish community-based allied health training programs;

"(4) the development of interdisciplinary training programs that promote formal education and professional certification of allied health professionals in more than one discipline;

"(5) projects that provide career advancement training for practicing allied health professionals; and

"(6) projects that by expanding or establishing clinical training sites for allied health professionals in medically underserved or rural communities will increase the number of individuals so trained.

"(b) Strengthening Allied Health Professions.—The Secretary may award grants to and enter into contracts with eligible entities to assist such entities in meeting the costs associated with the planning, development, establishment and operation of projects relating to—

"(1) the development of a curriculum that will emphasize knowledge and practice concerning prevention and health promotion, geriatrics, long-term care, home health and hospice care, and ethics;

"(2) the expansion or establishment of interdisciplinary training programs that promote the effectiveness of allied health practitioners in geriatric assessment and the rehabilitation of the elderly;

"(3) the expansion or establishment of demonstration centers to emphasize innovative models to link allied health clinical practice, education, and research; and

"(4) the improvement and strengthening of the effectiveness of allied health administration, program directors, faculty, and clinical faculty.

"(c) Training Centers for Allied Health Professions.—

"(1) Grants and contracts.—The Secretary may award grants to and enter into contracts with training centers for allied health professions to assist such centers in meeting the costs associated with projects designed to provide financial assistance in the form of traineeships to students—

"(A) pursuing a career in the allied health fields that have demonstrated personnel shortages; and

"(B) who agree upon completion of their training program to practice in a medically underserved or rural community (as defined in section 711(c)).

"(2) Use of funds.—Amounts provided under grants and contracts awarded under paragraph (1) shall be utilized to assist in the payment of the costs associated with tuition, fees and such other stipends as the Secretary may consider necessary.

"(d) Application.—

"(1) Requirement.—No grant may be awarded or contract entered into under subsections (a), (b), or (c) unless an application therefore has been submitted to, and approved by, the Secretary. Such application shall be in such form, submitted in such manner, and contain such information, as the Secretary shall by regulation prescribe.

"(2) Preference.—In considering an application submitted for a grant under this section, the Secretary shall give preference to applicants that plan to increase their first-year enrollments by not less than 10 percent over the number of such enrollments in 1991.

"(3) Amount.—The amount of any grant awarded under subsections (a), (b), or (c) shall be determined by the Secretary.

"(e) Eligible Entities.—For purposes of this section, the term 'eligible entities' means entities that are—

"(1) public or private nonprofit schools, universities, or other educational entities that provide for allied health personnel education and training and that meet such standards as the Secretary may by regulation prescribe; or

"(2) public or nonprofit private entities capable, as determined by the Secretary, of carrying out projects described in subsections (a), (b), and (c).

"(f) Authorization of Appropriation.—

"(1) In general.—For the purpose of carrying out activities under this section, there are authorized to be appropriated $8,000,000 for fiscal year 1992, $9,000,000 for fiscal year 1993, $10,000,000 for fiscal year 1994, $11,000,000 for fiscal year 1995, and $12,000,000 for fiscal year 1996.

"(2) Availability of amounts.—Of the amounts appropriated pursuant to paragraph (1) for each fiscal year, the Secretary shall make available not less than 70 percent of such amounts in each such fiscal year to carry out subsection (a), not more than 10 percent of such amounts in each such fiscal year to carry out subsection (b), and not less than 20 percent of such amounts in each such fiscal year to carry out subsection (c).".

SEC. 165. ADVANCED TRAINING OF ALLIED HEALTH PERSONNEL.

Section 797 (42 U.S.C. 295h-6) is amended to read as follows:

"SEC. 797. TRAINEESHIPS FOR ADVANCED TRAINING OF ALLIED HEALTH PERSONNEL.

"(a) Grants.—The Secretary may award grants to and enter into contracts with training centers for allied health professions to assist such centers in meeting the costs associated with projects designed to—

"(1) plan, develop, establish or expand postbaccalaureate programs for the advanced training of allied health professionals in demonstrated shortages who commit to teaching in an allied health training program; and

"(2) provide financial assistance, in the form of traineeships or fellowships, to postbaccalaureate students who are participants in any such program and who commit to teaching in an allied health discipline.

"(b) Preference.—In awarding grants under subsection (a), the Secretary shall give preference to projects that can demonstrate that—

"(1) not less than 50 percent of the graduates of such schools or programs during the preceding 2-year period are engaged as full-time teaching faculty in an allied health shortage specialty; or

"(2) the number of the graduates of such schools or programs that are practicing as full-time teaching faculty in an allied health shortage specialty has increased by not less than 50 percent over that proportion of such graduates for the previous 2-year period.

"(c) Limitation.—The Secretary shall limit grants and contracts awarded or entered into under subsection (a) to those allied health fields or specialties as the Secretary shall, from time to time, determine to have—

"(1) the most significant national or regional shortages of practitioners including clinical laboratory technologists, respiratory therapists, dental hygienists;

"(2) insufficient numbers of qualified faculty in entry level or advanced educational programs; or

"(3) a significant role in the care and rehabilitation of patients who are elderly or disabled including physical therapists and occupational therapists.

"(d) Authorization of Appropriations.—For the purpose of carrying out activities under this section, there are authorized to be appropriated $8,000,000 for fiscal year 1992, $9,000,000 for fiscal year 1993, $10,000,000 for fiscal year 1994, $11,000,000 for fiscal year 1995, and $12,000,000 for fiscal year 1996.

"(e) Availability of Funds.—Amounts appropriated under this section for any fiscal year shall remain available until expended or through fiscal year 1996.".

SEC. 166. DIVISION OF ALLIED HEALTH.

Section 798 (42 U.S.C. 295h-7) is amended to read as follows:

"SEC. 798. DIVISION OF ALLIED HEALTH.

"(a) Establishment.—The Secretary shall establish, within the Bureau of Health Professions, a division to be known as the Division of Allied Health (hereafter referred to in this section as the 'Division').

"(b) Purpose.—It shall be the purpose of the Division to exercise responsibility over allied health programs administered by the Secretary under this title, including oversight over the Subcommittee on Allied Health and other related matters concerning allied health professions.".

Subtitle F—Miscellaneous Programs

SEC. 171. COUNCIL ON GRADUATE MEDICAL EDUCATION.

Section 799 (42 U.S.C. 2951) is amended—

(1) in subsection (a)(1)—

(A) by redesignating subparagraphs (C) through (F) as subparagraphs (F) through (I), respectively;

(B) by inserting after subparagraph (B) the following new subparagraphs:

"(C) the adequacy of current and future supplies of primary care physicians to serve health professional shortage areas and medically underserved areas and populations as designated in section 338B;

"(D) the effect of Medicare graduate medical education funding and medical research grant funding on medical schools and residency programs, particularly as such funding may affect institutional support for primary care training and student choices regarding medical specialty and location practice;

"(E) the inclusion of health promotion and disease and disability prevention as a part of graduate medical education, in order to address those objectives contained in Healthy People 2000: National Health Promotion and Disease Prevention Objectives relevant to the provision of preventive services and education of health professionals;";

(C) in subparagraph (G) (as so redesignated) by striking out ", (B), and (C)" and inserting in lieu thereof "through (F)"; and

(D) in subparagraph (H) (as so redesignated) by striking out ", (B), and (C)" and inserting in lieu thereof "through (F)";

(2) in subsection (b)(4), by inserting before the colon "(including those physicians practicing in a medically underserved or rural community (as defined in section 711(c))"; and

(3) in subsection (k), by striking out "1989, 1990, and 1991" and inserting in lieu thereof "1992 through 1996".

SEC. 172. RURAL HEALTH TRAINING PROGRAM.

(a) Part Heading.—The heading for part I of title VII (42 U.S.C. 295j et seq.) is amended to read as follows:

"*Part I—Rural Health Training Program*".

(b) Training Program.—Section 799A (42 U.S.C. 295j(c)) is amended—

(1) by striking out the section heading and inserting in lieu thereof the following:

"**SEC. 799A. RURAL HEALTH TRAINING PROGRAM.**";

(2) in subsection (b)(1)—

(A) by striking out "and" at the end of subparagraph (D);

(B) by striking out the period in subparagraph (E) and inserting in lieu thereof a semicolon; and

(C) by adding at the end thereof the following new subparagraphs:

"(F) conduct research concerning the social and psychological processes involved in health-related decisionmaking, the perception of assessments of risk, and health risk reduction relating to individuals in rural areas; and

"(G) design training models for rural areas that focus on illness prevention and health promotion that may include programs in areas such as—

"(i) rehabilitation;

"(ii) health concerns of minorities or economically disadvantaged individuals;

"(iii) environmental health;

"(iv) women's health;

"(v) infant, prenatal, and developmental care;

"(vi) adolescent health;

"(vii) the process of health-care seeking, decisionmaking, and compliance behavior;

"(viii) developmental life span perspective;

"(ix) rural occupational health and safety;

"(x) geriatrics; and

"(xi) other areas determined to be appropriate by the Secretary.";

(3) in subsection (b)(2)—

(A) by adding "or" at the end of subparagraph (B);

(B) by striking out "; or" in subparagraph (C) and inserting in lieu thereof a period; and

(C) by striking out subparagraph (D);

(4) in subsection (b)(3), by adding at the end thereof the following new subparagraph:

"(C) Limitation.—An institution that receives a grant under this section shall use amounts received under such grant to supplement, not supplant, amounts made available by such institution for activities of the type described in subsection (b)(1) in the fiscal year preceding the year for which the grant is received.";

(5) in subsection (c)—

(A) by inserting "clinical" before "psychology" and before "social work"; and

(B) by inserting "marriage and family therapy" after "social work";

(6) by striking out subsection (e) and redesignating subsections (f) through (h) as subsections (e) through (g), respectively;

(7) in subsection (f) (as so redesignated) to read as follows:

"(f) Definitions.—As used in this section:

"(1) Medically underserved community.—The term 'medically underserved community' has the same meaning given such term in section 711(c).

"(2) Rural.—The term 'rural' refers to geographic areas that are located outside of standard metropolitan statistical areas."; and

(8) in subsection (g) (as so redesignated) to read as follows:

"(g) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section $10,000,000 in fiscal year 1992, $11,000,000 in fiscal year 1993, $12,000,000 in fiscal year 1994, $13,000,000 in fiscal year 1995, and $14,000,000 in fiscal year 1996.".

SEC. 173. CREATION OF ADVISORY COUNCIL ON MEDICAL LICENSURE.

Title VII (42 U.S.C. 295j et seq.) is amended by adding at the end thereof the following new part:

"*Part J—Advisory Council on Medical Licensure*

"SEC. 799D. CREATION OF ADVISORY COUNCIL ON MEDICAL LICENSURE.

"(a) Advisory Council.—

"(1) In general.—The Secretary of Health and Human Services shall establish a Council to be known as the 'Council on Medical Licensure'.

"(2) Duties.—

"(A) Advice.—The Council shall provide advice to the Secretary regarding the establishment and operation of the system established by the American Medical Association for the purpose of verifying and maintaining information regarding the qualifications of individuals to practice medicine, and advice regarding the establishment and operation of any similar system.

"(B) Activities.—In carrying out subparagraph (A), the Council shall—

"(i) monitor and review the operation of the private credentials verification system and develop recommendations regarding methods by which the system can be improved, and make recommendations for the establishment of nondiscriminatory policies and practices for the operation of the system;

"(ii) determine to what extent the system has expedited and otherwise improved the efficiency and equitable operation of the process in the States for licensing individuals to practice medicine who previously have been licensed by another State (commonly known as licensure by endorsement); and

"(iii) review the policies and practices of the States (including any relevant laws) in licensing international medical graduates and in licensing domestic medical graduates, and determine the effects of the policies.

"(3) Composition.—

"(A) In general.—The Council shall be composed of 13 voting members selected in accordance with subparagraphs (B) and (C).

"(B) HRSA.—The Secretary shall designate one official or employee of the Health Resources and Services Administration to serve as a member of the Council. The official or employee so designated shall be a graduate of a medical school located in the United States.

"(C) Appointments.—From among individuals who are not officers or employees of the Federal Government, the Secretary shall, subject to subparagraph (D), make appointments to the Council as follows:

"(i) one individual from an organization representing State authorities that license individuals to practice medicine;

"(ii) one individual representing a national organization that represents practicing physicians in the United States;

"(iii) one individual representing an organization in the United States that tests international medical graduates regarding medical knowledge;

"(iv) one individual representing an organization in the United States that tests individuals who are graduates of medical schools located in the United States regarding medical knowledge;

"(v) one physician representing a medical school or medical schools in the United States;

"(vi) one individual who is a representative of the private credentials verification system;

"(vii) one individual who is a gradnate of a medical school in the United States, licensed to practice medicine in a State for at least 20 years, and who has applied for and received licensure by endorsement within the past 5 years;

"(viii) one individual who is an international medical graduate and who is representing a coalition representing international medical graduates;

"(ix) one individual who is a native of the United States who is a graduate of a medical school located in a country other than the United States or Canada;

"(x) one international medical graduate who is a native of a country located in southern or eastern Asia (including southern or eastern Asian islands), and who is a graduate of a medical school located in such a country;

"(xi) one international medical graduate who is a native of a European country and who is a graduate of a medical school located in such a country; and

"(xii) one international medical graduate who is a native of a country located in a Latin American or Caribbean country and who is a graduate of a medical school located in such a country.

At least one member appointed by the Secretary under this subparagraph should be practicing in a medically underserved or rural area as defined in section 711(c).

"(D) CONSULTATION.—The Secretary shall make the appointments described in subparagraph (C) only after consultation with relevant organizations and coalitions.

"(4) DURATION.—The Council shall continue in existence until the submission of the report required under paragraph (6), or not later than September 30, 1995, whichever is earlier.

"(5) ANNUAL REPORT.—The Council shall annually submit to the Secretary, the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, a report describing the findings and recommendations of the Council pursuant to the duties established in paragraph (2). The Secretary shall provide a copy of each such report to the private credentials verification system.

"(6) FINAL REPORT AND RECOMMENDATIONS.—

"(A) IN GENERAL.—Not later than September 30, 1995, the Council shall prepare and submit to the Secretary, the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, a final report that shall include recommendations regarding activities conducted pursuant to paragraph (2), that shall include a determination as to whether the private credentials verification system is operating with a reasonable degree of efficiency and whether the policies and practices of the system are nondiscriminatory.

"(B) RECOMMENDATIONS.—If the Secretary determines that the private credentials verification system fails to meet either of the criteria with respect to the determination described in subparagraph (A), the Secretary, in consultation with the Council and relevant organizations, shall make a recommendation concerning the establishment of an alternative private system and concerning the specifications for such a system as described in paragraph (2)(B).

"(b) STUDY OF STATE LICENSURE PROCESS.—

"(1) IN GENERAL.—With respect to the licensure by the States of individuals to practice medicine, the Secretary, in consultation with the Council, shall annually conduct a study of not less than 10 States for the purpose of determining—

"(A) the average length of time required for the States involved to process the licensure applications of domestic medical graduates and the average length of time required for the States to process the licensure applications of international medical graduates, and the reasons underlying any significant differences in such times; and

"(B) the percentage of licensure applications from domestic medical graduates that are approved and the percentage of licensure applications from graduates of international medical schools that are approved, and the reasons underlying any significant differences in such percentages.

"(2) REPORT.—The Secretary each fiscal year shall submit to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing the findings made as a result of the study required in paragraph (1) for the fiscal year.

"(c) DEFINITIONS.—For purposes of this section:

"(1) COUNCIL.—The term 'Council' means the Council on Medical Licensure established in subsection (a)(1).

"(2) DOMESTIC MEDICAL GRADUATE.—The term 'domestic medical graduate' means an individual who is a graduate of a medical school located in the United States or Canada.

"(3) INTERNATIONAL MEDICAL GRADUATE.—The term 'international medical graduate' means an individual who is a graduate of a medical school located in a country other than the United States or Canada.

"(4) MEDICAL SCHOOL.—The term 'medical school' means a school of medicine or a school of osteopathic medicine, as such terms are defined in section 701(2).

"(5) NONDISCRIMINATORY.—The term 'nondiscriminatory' with respect to policies and practices means that such policies and practices do not discriminate on the basis of race, color, religion, gender, national origin, age, disability, marital status, or educational affiliation.

"(6) PRIVATE CREDENTIALS VERIFICATION SYSTEM.—The term 'private credentials verification system' means the system described in subsection (a)(2)(A) and established by the American Medical Association.

"(7) SECRETARY.—The term 'Secretary' means the Secretary of Health and Human Services.

"(8) STATE.—The term 'State' means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

"(d) NECESSARY RESOURCES.—The Secretary shall ensure that necessary resources are made available to implement the provisions of this section.".

SEC. 174. GRANTS FOR CERTAIN POSTDOCTORAL FELLOWSHIPS.

Title VII (42 U.S.C. 295j et seq.) (as amended by section 173) is further amended by adding at the end thereof the following new part:

"Part K—Miscellaneous Provisions

"SEC. 799G. GRANTS FOR POSTDOCTORAL FELLOWSHIPS IN CLINICAL PSYCHOLOGY, CLINICAL SOCIAL WORK, AND PSYCHIATRY

"(a) IN GENERAL.—The Secretary shall establish a postdoctoral clinical psychology, clinical social work, and psychiatry program to award grants to or enter into contracts with eligible entities to enable such entities to provide financial assistance (in the form of traineeships and fellowships) to participants who will train and provide mental health services in Federal, State or local prisons or correctional facilities or public mental health facilties.

"(b) ELIGIBLE ENTITIES.—To be eligible to receive a grant under this section an institution shall submit an application to the Secretary at such time, in such form and containing such information as the Secretary shall require, including a certification that such institution—

"(1) is an entity, accredited public or nonprofit school, or program in a State that provides training leading to a degree of doctor of psychology, social work, allopathic or osteopathic medicine and will provide mental health services in Federal, State or local prisons or correctional facilities or public mental health facilties;

"(2) will use amounts provided to such institution under this section to provide financial assistance in the form of traineeships or fellowships to qualified individuals who meet the requirements of subsection (c);

"(3) will not use in excess of 10 percent of amounts provided under this section to pay for administrative costs; and

"(4) will provide any other information or assurance as the Secretary determines appropriate.

"(c) INDIVIDUALS.—To be eligible to receive a traineeship or fellowship under this section an individual—

"(1) shall have received a doctoral degree through a graduate program in psychology or social work, a degree in allopathic or osteopathic medicine and is licensed to provide mental health services; and

"(2) will spend not less than 50 percent of the fellowship providing mental health services in a Federal, State or local prison or correctional facility or public mental health facilty.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $5,000,000 for each of the fiscal years 1992 through 1996.".

Subtitle G—Repealers and Technical and Conforming Amendments

SEC. 181. REPEAL OF FACILITIES CONSTRUCTION GRANT PROGRAM.

Part B of title VII (42 U.S.C. 293 et seq.) is repealed.

SEC. 182. TECHNICAL AND CONFORMING AMENDMENTS.

(a) PUBLIC HEALTH SERVICE ACT.—Title VII is amended—

(1) in section 701(3) (as so redesignated) by striking out "podiatry" and inserting in lieu thereof "podiatric medicine";

(2) in section 731(a)(1)(A)(iii) (42 U.S.C. 294d(a)(1)(A)(iii)), by striking out "tuition," and inserting in lieu thereof "tuition and ";

(3) in section 740(c)(1)(B) (42 U.S.C. 294m(c)(1)(B)), by striking out "such paragraph" and inserting in lieu thereof "such subparagraph";

(4) in section 741(c) (42 U.S.C. 294n(c)), by striking out "podiatry, optometry," and inserting in lieu thereof "podiatric medicine, optometry, or";

(5) in section 741(f)(1)(B) (42 U.S.C. 294n(f)(1)(B)), by striking out "podiatry" and inserting in lieu thereof "podiatric medicine";

(6) in section 760(a)(1)(A) (42 U.S.C. 294bb(a)(1)(A)), by striking out "individuals";

(7) in section 787(b)(1) (42 U.S.C. 295g-7(b)(1)), by striking out "podiatry" and inserting in lieu thereof "podiatric medicine";

(8) in section 787A(a) (42 U.S.C. 295g-7a(a)), by striking out "podiatry" and inserting in lieu thereof "podiatric medicine";

(9) in the first sentence of section 790(5)(A) (42 U.S.C. 295g-10(5)(A)), by striking out "evaluation." and inserting in lieu thereof "application."; and

(10) in section 799A(c) (42 U.S.C. 295j(c)), by striking out "podiatry" and inserting in lieu thereof "podiatric medicine".

(b) IMMIGRATION AND NATIONALITY ACT.—Section 212 of the Immigration and Nationality Act (8 U.S.C. 1182) is amended—

(1) in subsection (a)(5)(B)—

(A) by striking out "passed parts I" and all that follows through "Services)" in the first sentence and inserting in lieu thereof "passed medical science examinations administered by the Educational Commission for Foreign Medical Graduates to graduates of foreign medical schools and approved by the Secretary of Health and Human Services for purposes of the law"; and

(B) by striking out "parts I and II of the National Board of Medical Examiners examination" in the second sentence and inserting in lieu thereof "medical science examinations";

(2) in subsection (a)(32)—

(A) by striking out "passed parts I" and all that follows through "Services)" in the first sentence and inserting in lieu thereof "passed medical science examinations administered by the Educational Commission for Foreign Medical Graduates to graduates of foreign medical schools and approved by the Secretary of Health and Human Services for purposes of the law"; and

(B) by striking out "parts I and II of the National Board of Medical Examiners examination" in the third sentence and inserting in lieu thereof "medical science examinations"; and

(3) in subsection (j)(1)(B)—

(A) by striking out "passed parts I" and all that follows through "Services)" in the first sentence and inserting in lieu thereof "passed medical science examinations administered by the Educational Commission for Foreign Medical Graduates to graduates of foreign medical schools and approved by the Secretary of Health and Human Services for purposes of the law"; and

(B) by striking out "parts I and II of the National Board of Medical Examiners examination" in the second sentence and inserting in lieu thereof "medical science examinations".

(c) AMENDMENTS RELATING TO DEFINITIONS.—The Act is amended—

(1) in section 2(f) (42 U.S.C. 201(f)), by striking out "701(9),";

(2) in section 737(4) (42 U.S.C. 294j(4)), by striking out "701(10)" and inserting in lieu thereof "701(6)";

(3) in section 747 (42 U.S.C. 294q-3), by striking out "701(5)" and inserting in lieu thereof "701(3)";

(4) in section 781(c)(3) (42 U.S.C. 295g-1(c)(3)), by striking out "(as defined in section 701(7))";

(5) in section 782(c)(2)(A)(i) (42 U.S.C. 295g-2(c)(2)(A)(i)), by striking out "701(4)" and inserting in lieu thereof "701(2)";

(6) in section 786A(a)(1) (42 U.S.C. 295g-8(d)(1)), by striking out "701(8)" and inserting in lieu thereof "701(5)";

(7) in section 789(a)(1) (42 U.S.C. 295g-9(a)(1)), by striking out "701(4) or 701(10) and programs referred to in section 701(8)" and inserting in lieu thereof "701(2) or 701(6)";

(8) in section 1706(d) (42 U.S.C. 300u-5(d)), by striking out "701(4)" and inserting in lieu thereof "701(2)"; and

(9) in section 1910(c)(1) (42 U.S.C. 300w-9(c)(1)), by striking out "701(4)" and inserting in lieu thereof "701(2)".

TITLE II—PROVISIONS RELATING TO TITLE VIII

SEC. 201. SHORT TITLE.

This title may be cited as the "Nurse Education Improvement and Reauthorization Act of 1991".

SEC. 202. SPECIAL PROJECTS GRANTS AND CONTRACTS.

Section 820 (42 U.S.C. 296k) is amended—

(1) in subsection (a)—

(A) by inserting "serving in medically underserved or rural communities as defined in section 711(c)" before the semicolon in paragraph (1);

(B) by striking out ", through geriatric health education centers and other entities," in paragraph (2);

(C) by striking out "through telecommunications via satellite" in paragraph (3)(B); and

(D) by adding "or" at the end of paragraph (4);

(E) by inserting after "settings" in paragraph (5) the following: ", including providing nursing care as a component of nursing training in one or more medically underserved or rural communities (as defined in section 711(c))";

(F) by striking out "; or" at the end of paragraph (5) and inserting in lieu thereof a period; and

(G) by striking out paragraph (6);

(2) by striking out subsection (b);

(3) by redesignating subsections (c) through (g) as subsections (b) through (f), respectively;

(4) in subsection (b)(1) (as so redesignated), by inserting "and innovative nursing practice models in primary care and long-term care settings" after "nursing practice models" in paragraph (1);

(5) in subsection (b)(2) (as so redesignated)—

(A) by striking out "hospital" each place that such appears;

(B) by striking out "and" at the end of subparagraph (B);

(C) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof "; and"; and

(D) by adding at the end thereof the following new subparagraph:

"(D) to evaluate the effectiveness of providing incentives to practice in rural and underserved areas."; and

(6) in subsection (f) (as so redesignated), to read as follows:

"(f) For the purpose of carrying out this section, there are authorized to be appropriated $20,000,000 for each of the fiscal years 1992 through 1996.".

SEC. 203. ADVANCED NURSE EDUCATION PROGRAMS.

Section 821(b) (42 U.S.C. 296l(b)) is amended by striking out "$13,000,000" and all that follows through the period and inserting in lieu thereof "$20,000,000 for fiscal year 1992, $21,000,000 for fiscal year 1993, $22,000,000 for fiscal year 1994, $23,000,000 for fiscal year 1995, and $24,000,000 for fiscal year 1996.".

SEC. 204. NURSE PRACTITIONER AND NURSE MIDWIFE PROGRAMS.

Section 822 (42 U.S.C. 296m) is amended—

(1) in subsection (a)—

(A) by striking out the second sentence of subsection (a)(1); and

(B) by striking out "including primary health care" in paragraph (2)(A) and inserting in lieu thereof "including health care";

(2) in subsection (b)(1)—

(A) by striking out "give special consideration" and inserting in lieu thereof "give preference"; and

(B) by striking out "health professional shortage areas designated under section 332" and inserting in lieu thereof "medically underserved or rural communities as defined in section 711(c)"; and

(3) in subsection (d), by striking out "$12,000,000" and all that follows through the period and inserting in lieu thereof "$25,000,000 for fiscal year 1992, $27,000,000 for fiscal year 1993, $29,000,000 for fiscal year 1994, $30,000,000 for fiscal year 1995, and $31,000,000 for fiscal year 1996.".

SEC. 205. CAPACITY BUILDING.

Subpart I of part A (42 U.S.C. 296k et seq.) is amended by adding at the end thereof the following new section:

"SEC. 823. CAPACITY BUILDING IN NURSING EDUCATION FOR PRACTICE.

"(a) GRANTS AND CONTRACTS.—The Secretary may award grants to and enter into contracts with public and private nonprofit schools of nursing for the purpose of providing support (including traineeships and fellowships) for projects to enable such schools to develop resources or strengthen programs or faculty to address the National Health Objectives for the Year 2000.

"(b) APPLICATION.—

"(1) IN GENERAL.—To be eligible to receive a grant under this section a school shall prepare and submit to the Secretary an application at such time, in such manner and containing such information as the Secretary may require.

"(2) CONSIDERATION.—The Secretary shall give special consideration to applications submitted by schools that provide outreach programs that are taught in medically underserved or rural communities (as defined in section 711(c)) in which advanced nursing education is not readily available or that, as a result of such location, may have difficulty recruiting qualified faculty, or schools that can demonstrate that graduates of the nursing program serve rural or underserved populations.

"(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $1,500,000 for fiscal year 1992, $2,000,000 for fiscal year 1993, $2,500,000 for fiscal year 1994, $3,000,000 for fiscal year 1995, and $3,500,000 for fiscal year 1996.".

SEC. 206. NURSING EDUCATION OPPORTUNITIES FOR INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS.

Section 827(c) (42 U.S.C. 296r(c)) is amended by striking out "$3,000,000" and all that follows through the period and inserting in lieu thereof "$5,000,000 for fiscal year 1992, $5,500,000 for fiscal year 1993, $6,000,000 for fiscal year 1994, $6,500,000 for fiscal year 1995, and $7,000,000 for fiscal year 1996.".

SEC. 207. TRAINEESHIPS FOR ADVANCED EDUCATION OF PROFESSIONAL NURSES.

Section 830 (42 U.S.C. 297) is amended—

(1) in subsection (a)(1)(A)—

(A) by striking out "for nurses" and inserting in lieu thereof "for individuals"; and

(B) by striking out "programs in order to educate such nurses to" and inserting in lieu thereof "nursing programs in order to educate such individuals to";

(2) by adding at the end of subsection (a)(1), the following new subparagraph:

"(C) Non-nurses enrolled in masters of nursing programs shall be eligible for traineeship support only after completion of basic nursing preparation as defined by the school of nursing consistent with State nurse practice Acts.";

(3) by striking out subsection (b) and redesignating subsections (c) and (d) as subsections (b) and (c), respectively; and

(4) in subsection (c) (as so redesignated) to read as follows:

VOL
137
PT
24
NO
26
1991
—
JA
3
1992
UMI

"(c) For the purpose of carrying out this section, there are authorized to be appropriated $17,000,000 for fiscal year 1992, $19,000,000 for fiscal year 1993, $21,000,000 for fiscal year 1994, $23,000,000 for fiscal year 1995, and $25,000,000 for fiscal year 1996.".

SEC. 208. NURSE ANESTHETISTS.

Section 831(c) (42 U.S.C. 297–1(c)) is amended by striking out "$1,800,000" and all that follows through "1991" and inserting in lieu thereof "$3,000,000 for fiscal year 1992, $4,000,000 for fiscal year 1993, $5,000,000 for fiscal year 1994, $6,000,000 for fiscal year 1995, and $7,000,000 for fiscal year 1996".

SEC. 209. AUTHORIZATION OF APPROPRIATIONS FOR LOAN REPAYMENTS.

(a) IN GENERAL.—Section 837A (42 U.S.C. 297c–1) is amended by striking out "$5,000,000" and all that follows through the period and inserting in lieu thereof "$5,000,000 for fiscal year 1992, $6,000,000 for fiscal year 1993, $7,000,000 for fiscal year 1994, $8,000,000 for fiscal year 1995, and $9,000,000 for fiscal year 1996.".

(b) REPEALER.—Section 837 (42 U.S.C. 297c) is repealed.

SEC. 210. ALLOTMENTS AND PAYMENTS.

Section 838(a)(3)(A) (42 U.S.C. 297d(a)(3)(A)) is amended in the first sentence by striking out "in such fiscal year and in the fiscal year succeeding the fiscal year" and inserting in lieu thereof "until expended".

SEC. 211. DISTRIBUTION.

Section 839 (42 U.S.C. 297e) is amended—

(1) in subsection (a), by striking out "1991" and inserting in lieu thereof "1996"; and

(2) by striking out "1994" each place that such appears and inserting in lieu thereof "1999".

SEC. 212. UNDERGRADUATE EDUCATION OF PROFESSIONAL NURSES.

Section 843 (42 U.S.C. 297j) is amended—

(1) in subsection (c), by striking out "serve as a nurse for a period not less than two years" and inserting in lieu thereof "serve as a nurse for a period equal to the number of years of the scholarship award"; and

(2) in subsection (f), by striking out "$15,000,000" and all that follows through the period and inserting in lieu thereof "$30,000,000 for fiscal year 1992, $31,000,000 for fiscal year 1993, $32,000,000 for fiscal year 1994, $33,000,000 for fiscal year 1995, and $34,000,000 for fiscal year 1996.".

SEC. 213. EMPLOYER LOAN REPAYMENT PROGRAM.

Section 847 (42 U.S.C. 297n) is repealed.

SEC. 214. PROHIBITION ON DISCRIMINATION.

Section 855 (42 U.S.C. 298b–2) is amended—

(1) in the section heading by striking out "ON THE BASIS OF SEX"; and

(2) by striking out "sex" each place that such occurs and inserting in lieu thereof "race, color, religion, gender, national origin, age, disability, marital status, or educational affiliation".

SEC. 215. EVALUATIONS.

Section 859(b) (42 U.S.C. 298b–6(b)) is amended—

(1) by striking out paragraph (1); and

(2) in paragraph (2)—

(A) by striking out "(2)"; and

(B) by striking out "biannually" and inserting in lieu thereof "every 2 years".

SEC. 216. GRANTS FOR NURSE EDUCATION IN LONG-TERM CARE FACILITIES.

Part B of title VIII (42 U.S.C. 297 et seq.) is amended by adding at the end thereof the following new subpart:

"Subpart IV—Grants for Nurse Education in Long-Term Care Facilities

"SEC. 848. ESTABLISHMENT OF NURSE EDUCATION GRANT PROGRAM WITH RESPECT TO SERVICE IN LONG-TERM CARE FACILITIES.

"(a) IN GENERAL.—The Secretary may award grants to public and private nonprofit undergraduate schools or programs accredited for the training of professional nurses for the purpose of providing fellowships to licensed vocational or practical nurses, nursing assistants and other paraprofessional nursing personnel to assist such individuals in obtaining professional nursing education to attain the level of registered nurse.

"(b) PREFERENCES.—The Secretary may not award a grant under subsection (a) unless the applicant for the grant agrees that, in providing fellowships under the grant, the applicant will give preference to—

"(1) disadvantaged and minority individuals who are underrepresented in the nursing profession, as determined in accordance with appropriate criteria established by the Secretary; and

"(2) individuals participating in rapid transition programs targeted towards the achievement of professional nursing degrees.

"(c) CERTAIN REQUIREMENTS WITH RESPECT TO STUDENTS.—The Secretary may not award a grant under subsection (a) unless the applicant for the grant agrees that, in providing fellowships under the grant, the applicant will provide a fellowship to an individual only if—

"(1) the individual is enrolled or accepted for enrollment as at least a half-time student in a public or nonprofit school of nursing or other training program accredited to provide the requisite education and training for the level of professional certification sought by the individual;

"(2) the individual agrees to expend amounts received under the fellowship solely for the payment of the costs of tuition, books, fees, reasonable living expenses, or necessary transportation related to the training program referred to in paragraph (1);

"(3) the individual agrees that, if the individual is dismissed from the school or program referred to in paragraph (1) for academic reasons, voluntarily terminates such education or training, or violates the contract entered into pursuant to paragraph (4), the individual will be liable to the United States in an amount equal to 100 percent of the amount of the fellowship, plus interest at a rate of 5 percent per annum; and

"(4) the individual enters into a contract with a long-term care facility that is certified under title XVIII or XIX of the Social Security Act to engage in full-time employment at the higher level of professional skill acquired under this section for a period of time equal to not less than the period of time during which the individual receives assistance under this section.

"(d) CERTAIN REQUIREMENTS WITH RESPECT TO LONG-TERM CARE FACILITIES.—The Secretary may not make a grant under subsection (a) unless the applicant for the grant agrees that, in providing fellowships under the grant, the amount of a fellowship provided for an individual attending the school will not exceed the amount described in subsection (c)(2).

"(e) REQUIREMENT OF APPLICATION.—The Secretary may not award a grant under subsection (a) unless—

"(1) an application for the grant is submitted to the Secretary;

"(2) with respect to carrying out the purpose for which the grant is to be made, the application provides assurances of compliance satisfactory to the Secretary; and

"(3) the application otherwise is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section.

"(f) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of making grants under subsection (a), there are authorized to be appropriated $5,000,000 for each of the fiscal years 1992 through 1996.".

SEC. 217. PRIMARY CARE TRAINING PROGRAM.

Subpart I of part B of title VIII (42 U.S.C. 297 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 832. PRIMARY CARE TRAINING PROGRAM.

"(a) IN GENERAL.—The Secretary may award grants to public or nonprofit private schools of nursing for the establishment or expansion of clinical training sites or training affiliations that shall be administered by such schools.

"(b) APPLICATION.—A school desiring to receive a grant under subsection (a) shall prepare and submit to the Secretary, an application at such time, in such form, and containing such information as the Secretary may require.

"(c) USE OF GRANTS.—Amounts received under grants awarded under subsection (a) shall be used to—

"(1) establish clinical training sites or new training affiliations to be run and staffed by the faculty and students of such grantee school, to provide nursing students with training in the delivery of primary care in rural areas or in areas on or within 50 miles of Indian country (as defined in section 1151 of title 18, United States Code);

"(2) provide for all aspects of clinical training program development, faculty enhancement and student scholarships; and

"(3) carry out any other activities determined appropriate by the Secretary.

"(d) DESIGN.—The training sites established under subsection (c)(1) shall be designed to provide at least 25 percent of the school's nursing students with a structured clinical experience in primary care.

"(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $5,000,000 for each of the fiscal years 1992 through 1996.".

SEC. 218. ASSURANCES REGARDING TRANSMISSION OF BLOODBORNE DISEASES.

Title VIII (42 U.S.C. 296K) is amended by adding at the end thereof the following new section:

"SEC. 860. ASSURANCES REGARDING TRANSMISSION OF BLOODBORNE DISEASES.

"Applicants under this title are required to provide assurances to the Secretary that all trainees will receive instruction in the utilization of universal precautions and infection control procedures for the prevention of transmission of bloodborne diseases.".

SEC. 219. TECHNICAL AMENDMENTS.

Title VIII is amended—

(1) in section 836(b)(1) (42 U.S.C. 297b(b)(1)) by striking out the period and inserting in lieu thereof a semicolon;

(2) in section 851(a) (42 U.S.C. 298(a)) by striking out "a Advisory" and inserting in lieu thereof "an Advisory"; and

(3) in section 859(a) (42 U.S.C. 298b–6(a)) by striking out "as result of" and inserting in lieu thereof "as a result of".

TITLE III-COMPREHENSIVE MATERNAL AND EARLY CHILDHOOD HEALTH CARE

SEC. 301. SHORT TITLE.

This title may be cited as the "Comprehensive Maternal and Early Childhood Health Care Act".

SEC. 302. MIGRANT AND COMMUNITY HEALTH CENTER INITIATIVES.

(a) MIGRANT HEALTH CENTERS.—Paragraph (2) of subsection (h) of section 329 (42 U.S.C. 254b(g)) is amended to read as follows:

"(2)(A) For purposes of subparagraph (B), from the amounts appropriated in each fiscal year under paragraph (1)(A), that are in excess of the amounts necessary to maintain the level of services provided with amounts appropriated under such paragraph in the year preceding the year for which such amounts are appropriated, the Secretary shall utilize, in each of the fiscal years 1992 through 1994, such sums as may be necessary in each such fiscal year for the development and operation of new Comprehensive Perinatal and Early Childhood Health Programs in medically underserved areas where such programs do not exist, and expand the capacity of services provided for pregnant women and children up to the age of three, in medically underserved areas where Migrant Health Centers are currently operating Comprehensive Perinatal Care Programs. The Secretary shall utilize such amounts to supplement and not supplant amounts expended on the date of enactment of this paragraph for Comprehensive Perinatal Care Programs under this section.

"(B) The Secretary shall make grants to Migrant Health Centers to assist such Centers in the development and operation of Comprehensive Perinatal and Early Childhood Health Programs. Such Programs shall be designed to provide coordinated health care and support services to pregnant women and young children to increase positive birth outcomes, reduce infant mortality, and support healthy child development. Such services shall include—

"(i) public information, outreach and case finding services provided through the use of media, community canvassing (using volunteer and paraprofessional personnel), referrals, or other methods targeted to reach women at high-risk of receiving inadequate health care;

"(ii) individualized risk assessment and case management services for pregnant women, infants, and children to ensure early, continuous, and comprehensive health care and support services including—

"(I) health care (including prenatal health care, nutrition counseling, and smoking cessation interventions), and health education concerning the risks of smoking, alcohol, substance abuse, and inadequate nutrition; and

"(II) perinatal care, primary and preventive health care for infants and children (including screening for vision, hearing, dental conditions, developmental delay, nutritional status, and lead poisoning), timely provision of immunizations, and referral for specialized early periodic screening diagnostic treatment services, services under part H of the Individuals with Disabilities Education Act, and other necessary health and support services;

"(iii) substance abuse screening, outpatient substance abuse counseling services, and referral to and as necessary for the purchase of community-based residential substance abuse treatment services for women with substance abuse problems;

"(iv) parenting skill training and child development education (including services stressing the importance of regular health screenings, adequate nutrition, child safety measures and basic growth patterns and expectations) through both center based counseling and through distribution of the Maternal Child Health Handbooks as available;

"(v) necessary support services, including counseling, child care, transportation, translation services, benefit eligibility determination, and housing assistance, either provided directly or through referral with appropriate follow-up; and

"(vi) collaboration with other community-based health and support service providers, hospitals, clinics, recipients of grants under title V of the Social Security Act, State and local health and social service departments, alcohol and drug treatment programs, State and local special supplemental food programs for women, infants and children under section 17 of the Child Nutrition Act of 1966, Medicaid offices, and other organizations providing services to women, infants, children, and families.

"(C) To the maximum extent practicable, comprehensive health and support services under this paragraph should be delivered on site at the health center (including services delivered by outposted Medicaid workers in accordance with section 1902 of the Social Security Act (42 U.S.C. 1396a), by workers eligible to provide services under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), by drug treatment service providers and through others) to ensure access and coordination.".

(b) COMMUNITY HEALTH CENTERS.—Subsection (g) of section 330 (42 U.S.C. 254c(g)) is amended:

(1) in paragraph (1) by adding at the end thereof the following new subparagraph:

"(C) Of the amounts appropriated under subparagraph (A), that are in excess of the amounts necessary to maintain the level of services provided with amounts appropriated under such subparagraph in the year preceding the year for which such amounts are appropriated, the Secretary shall utilize, in each of the fiscal years 1992 through 1994, such sums as may be necessary in each such fiscal year to make grants under subsections (c) and (d) for the planning and development of health centers to serve medically underserved populations. New community health centers shall be equitably distributed between underserved urban and rural areas with satellite models used where appropriate."; and

(2) in paragraph (2) to read as follows:

"(2)(A) For purposes of subparagraph (B), from the amounts appropriated in each fiscal year under paragraph (1)(A), that are in excess of the amounts necessary to maintain the level of services provided with amounts appropriated under such paragraph in the year preceding the year for which such amounts are appropriated, the Secretary shall utilize, in each of the fiscal years 1992 through 1994, such sums as may be necessary in each such fiscal year for—

"(i) the development and operation of new Comprehensive Perinatal and Early Childhood Health Programs in medically underserved areas where such programs do not exist; and

"(ii) expanding the capacity of services provided for pregnant women and children up to the age of three, in medically underserved areas where community health centers are currently operating Comprehensive Perinatal Care Programs in areas with high infant mortality.

The Secretary shall utilize such amounts to supplement and not supplant amounts expended on the date of enactment of this paragraph for Comprehensive Perinatal Care Programs under this section.

"(B) The Secretary shall make grants to Community Health Centers to assist such Centers in the development and operation of Comprehensive Perinatal and Early Childhood Health Programs. Such programs shall be designed to provide coordinated health care and support services to pregnant women and young children to increase positive birth outcomes, reduce infant mortality, and support healthy child development. Such services shall include—

"(i) public information, outreach and case finding services provided through the use of media, community canvassing (using volunteer and paraprofessional personnel), referrals, or other methods targeted to reach women at high-risk of receiving inadequate health care;

"(ii) individualized risk assessment and case management services for pregnant women, infants, and children to ensure early, continuous, and comprehensive health care and support services including—

"(I) health care (including prenatal health care, nutrition counseling, and smoking cessation interventions), and health education concerning the risks of smoking, alcohol, substance abuse, and inadequate nutrition; and

"(II) perinatal care, primary and preventive health care for infants and children (including screening for vision, hearing, dental conditions, developmental delay, nutritional status, and lead poisoning), timely provision of immunizations, and referral for specialized early periodic screening diagnostic treatment services, services under part H of the Individuals with Disabilities Education Act, and other necessary health and support services;

"(iii) substance abuse screening, outpatient substance abuse counseling services, and referral to and as necessary the purchase of community-based residential substance abuse treatment services for women with substance abuse problems;

"(iv) parenting skill training and child development education (including services stressing the importance of regular health screenings, adequate nutrition, child safety measures and basic growth patterns and expectations) through both center-based counseling and through distribution of the Maternal Child Health Handbooks as available;

"(v) necessary support services, including counseling, child care, transportation, translation services, benefit eligibility determination, and housing assistance, either provided directly or through referral with appropriate follow-up; and

"(vi) collaboration with other community-based health and support service providers, hospitals, clinics, recipients of grants under title V of the Social Security Act, State and local health and social service departments, alcohol and drug treatment programs, State and local special supplemental food programs for women, infants and children under section 17 of the Child Nutrition Act of 1966, Medicaid offices, and other organizations providing services to women, infants, children, and families.

"(C) To the maximum extent practicable, comprehensive health and support services under this paragraph should be delivered on site at the health center, (including services delivered by outposted Medicaid workers in accordance with section 1902 of the Social Security Act (42 U.S.C. 1396a), by workers eligible to provide services under section 17 of the Child Nutrition Act of 1966 (42 U.S.C.

1786), by drug treatment service providers and by others) to ensure access and coordination.".

(c) Programs for the Benefit of Homeless Individuals.—Subsection (q) of section 340 (42 U.S.C. 256(q)) is amended by adding at the end thereof the following new paragraph:

"(3)(A) For purposes of subparagraph (B), from the amounts appropriated in each fiscal year under paragraph (1)(A), that are in excess of the amounts necessary to maintain the level of services provided with amounts appropriated under such paragraph in the year preceding the year for which such amounts are appropriated, the Secretary shall utilize, in each of the fiscal years 1992 through 1994, such sums as may be necessary in each such fiscal year for—

"(i) the development and operation of new Comprehensive Perinatal and Early Childhood Health Programs in medically underserved areas where such programs do not exist; and

"(ii) expanding the capacity of services provided for pregnant women and children up to the age of three, in medically underserved areas where grantees under this section are currently operating Comprehensive Perinatal Care Programs.

The Secretary shall utilize such amounts to supplement and not supplant amounts expended on the date of enactment of this paragraph for Comprehensive Perinatal Care Programs under this section.

"(B) The Secretary shall make grants to grantees under this section to assist such grantees in the development and operation of Comprehensive Perinatal and Early Childhood Health Programs. Such Programs shall be designed to provide coordinated health care and support services to pregnant women and young children to increase positive birth outcomes, reduce infant mortality, and support healthy child development. Such services should include—

"(i) public information, outreach and case finding services provided through the use of media, community canvassing (using volunteer and paraprofessional personnel), referrals, or other methods targeted to reach women at high-risk of receiving inadequate health care;

"(ii) individualized risk assessment and case management services for pregnant women, infants, and children to ensure early, continuous, and comprehensive health care and support services including—

"(I) health care (including prenatal health care, nutrition counseling, and smoking cessation interventions), and health education concerning the risks of smoking, alcohol, substance abuse, and inadequate nutrition; and

"(II) perinatal care, primary and preventive health care for infants and children (including screening for vision, hearing, dental conditions, developmental delay, nutritional status, and lead poisoning), timely provision of immunizations, and referral for specialized early periodic screening diagnostic treatment services, services under part H of the Individuals with Disabilities Education Act, and other necessary health and support services;

"(iii) substance abuse screening, outpatient substance abuse counseling services, and referral to and as necessary the purchase of community-based residential substance abuse treatment services for women with substance abuse problems;

"(iv) parenting skill training and child development education (including services stressing the importance of regular health screenings, adequate nutrition, child safety measures and basic growth patterns and expectations) through both center-based counseling and through distribution of the Maternal Child Health Handbooks as available;

"(v) necessary support services, including counseling, child care, transportation, translation services, benefit eligibility determination, and housing assistance, either provided directly or through referral with appropriate follow-up; and

"(vi) collaboration with other community-based health and support service providers, hospitals, clinics, recipients of grants under title V of the Social Security Act, State and local health and social service departments, alcohol and drug treatment programs, State and local special supplemental food programs for women, infants and children under section 17 of the Child Nutrition Act of 1966, Medicaid offices, and other organizations providing services to women, infants, children, and families.

"(C) To the maximum extent practicable, comprehensive health and support services under this paragraph should be delivered on site at a health center, (including services delivered by outposted Medicaid workers in accordance with section 1902 of the Social Security Act (42 U.S.C. 1396a), by workers eligible to provide services under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), by drug treatment service providers and by others) to ensure access and coordination.".

SEC. 303. EXPANSION OF IMMUNIZATION PROGRAMS FOR YOUNG CHILDREN.

(a) Vaccine Bulk Purchase Program.—Part B of title III is amended by inserting after section 317A the following new section:

"SEC. 317B . VACCINE BULK PURCHASE PROGRAM.

"(a) In General.—The Secretary acting through the Director of the Centers for Disease Control and in accordance with the preventative health grant provisions of subsections (a) and (j)(1)(B) of section 317, shall provide to the health department of each State or large city that is operating an immunization project, vaccines for immunization purposes.

"(b) Distribution.—Vaccines provided to grantees with existing immunization projects under subsection (a) shall be made available for distribution and immunization services through the public health departments of such States or cities, recipients of grants under section 329, 330, and 340 in the State or city, Federally qualified health centers under section 1905(1)(2)(B) of the Social Security Act operating in the State or city, and public health professionals.

"(c) Quantity.—In determining the quantity of vaccine that is needed by a grantee under subsection (a), the Administrator of the Health Resources and Services Administration shall make available to the Director of the Centers for Disease Control data from annual reports submitted by recipients of grants under section 329, 330, and 340 and from entities certified as Federally qualified health centers under section 1905(1)(2)(B) of the Social Security Act. The Director of such Centers shall direct the health department of the State, county or city to equitably allocate vaccines made available under the bulk purchase program among those recipients described in subsection (b) who are providing immunization services to children, except that the amounts received by each provider on the date of enactment of this section shall not be diminished relative to the population served, and that grantees shall receive not less than the amount such grantees received under their bulk vaccine allotment as of January 1, 1991.

"(d) Maintenance of Supply.—The provisions of this section shall be effective only to the extent to which the Secretary, acting through the Director of the Centers for Disease Control, provides assurances that the implementation of this section will not result in a reduction in the supply of vaccines available to grantees receiving vaccine allotments under the bulk purchasing programs as of January 1, 1991.".

(b) Immunization Demonstration Projects for Outreach Programs.—Subsection (b) of section 2 of the Vaccine and Immunization Amendments of 1990 (Public Law 101-502) is amended to read as follows:

"(b) Demonstration Projects for Outreach Programs.—

"(1) In general.—The Secretary of Health and Human Services, acting through the Director of the Centers for Disease Control, may make grants to States for the purpose of carrying out demonstration projects—

"(A) to provide, without administrative charge, immunizations for vaccine preventable diseases to children not more than 2 years of age who reside in communities whose population includes a significant number of low income individuals, increasing the capacity of public health departments to deliver vaccines and facilitating outreach activities to improve the percentage of fully immunized children;

"(B) to expand the capacity of public health departments, recipients of grants under sections 329, 330, and 340 of the Public Health Service Act, and other health provider entities that are co-located with centers providing services under section 17 of the Child Nutrition Act of 1966 in order to provide immunizations to participants in the program established under such section 17 during regular hours, and to enable State health departments working through State directors of the program established under such section 17 to make available to such centers vaccines and adequate funds to administer immunizations; and

"(C) to maintain private provider participation in the provision of immunization services and to encourage private physicians to provide such services to infants and children enrolled for benefits under title XIX of the Social Security Act.

"(2) Authorization of Appropriations.—For the purposes of carrying out paragraph (1), there are authorized to be appropriated $25,000,000 in fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 through 1995.".

SEC. 304. PROJECT GRANTS FOR MATERNAL AND CHILD PREVENTIVE HEALTH AND HEALTH CARE SERVICES.

Section 314 (42 U.S.C. 246) is amended by adding at the end thereof the following new subsection:

"(g)(1) The Secretary is authorized to award grants to eligible entities for the development and operation of Comprehensive Perinatal and Early Childhood Health Programs, to provide coordinated health care and support services to pregnant women and young children to increase positive birth outcomes, reduce infant mortality, and support healthy child development.

"(2)(A) To be eligible to receive a grant under this subsection, an entity shall be a public health department or public or private nonprofit health entity that—

"(i) does not receive assistance under section 329 or 330;

"(ii) is located in a medically underserved or health professional shortage area not served by an entity receiving funds under section 329 or 330; and

"(iii) has demonstrated a commitment to serving low income and uninsured individuals and families.

"(B) Notwithstanding subparagraph (A), entities located in areas served by grantees under section 329 or 330 may apply for and receive a grant under this subsection, if such 329 or 330 grantees do not intend to apply for expanded funding for prenatal and early childhood health care services, and if such entities can demonstrate that—

"(i) the women and children to be served, or the services to be provided, using funds provided under the grant are in addition to those populations served and services offered by such existing section 329 or 330 grantees; and

"(ii) the entity will not use funds provided under this subsection to supplant State expenditures.

"(3) Services to be provided with funds under a grant awarded under this subsection shall be delivered in a culturally sensitive manner and made accessible to the population to be served. Such services shall include—

"(A) public information, outreach, or case finding services provided through the use of media, community canvassing (including the use of volunteer and paraprofessional personnel), referrals, or other methods targeted to reach women at high-risk of receiving inadequate health care;

"(B) individualized risk assessment and case management services for pregnant women, infants, and children to ensure early, continuous, and comprehensive health care and support services including—

"(i) health care (including prenatal health care, nutrition counseling, and smoking cessation interventions), and health education concerning the risks of smoking, alcohol, substance abuse, and inadequate nutrition; and

"(ii) perinatal care, primary and preventive health care for infants and children (including screening for vision, hearing, dental conditions, developmental delay, nutritional status, and lead poisoning), timely immunizations, and referral for specialized early periodic screening diagnostic treatment services, services under part H of the Individuals with Disabilities Education Act, and other necessary health and support services;

"(C) collaboration with other community-based health and support service providers, hospitals, clinics, recipients of grants under title V of the Social Security Act, State and local health and social service departments, alcohol and drug treatment programs, State and local special supplemental food programs for women, infants and children under section 17 of the Child Nutrition Act of 1966, Medicaid offices, and other organizations providing services to women, infants, children and families;

"(D) substance abuse screening, outpatient substance abuse counseling services, or referral to substance abuse treatment services for women with substance abuse problems;

"(E) necessary support services, including counseling, child care, transportation, translation services, benefit eligibility determination, and housing assistance, either provided directly or through referral with appropriate follow-up; and

"(F) parenting skill training and child development education (including services stressing the importance of regular health screenings, adequate nutrition, child safety measures and basic growth patterns and expectations) through both counseling provided directly by the grantee, and through distribution of the Maternal Child Health Handbooks as available.

Services described in subparagraphs (D), (E) and (F) shall be provided by grantees under this subsection to the maximum extent practicable.

"(4) To the maximum extent practicable, services provided under this subsection shall be delivered in a single location by the grantee, except that such may include multiple sites if mobile health care provider units are utilized (including services delivered by outposted Medicaid workers in accordance with section 1902 of the Social Security Act, by workers eligible to provide services under section 17 of the Child Nutrition Act of 1966, by drug treatment service providers, and by others) to ensure access and coordination.

"(5) The Secretary may not award a grant under this subsection unless—

"(A) the applicant for the grant has entered into, or will enter into, a participation agreement within 180 days of the date of the grant award with the State agency administering funds under title XIX of the Social Security Act and is qualified to receive such payments for services provided;

"(B) the applicant for the grant has prepared a schedule of fees or payments for the provision of services under paragraph (3) consistent with locally prevailing rates or charges, and has prepared a corresponding schedule of discounts to be applied to the payment of such fees or payments, such discounts to be adjusted on the basis of the patient's ability to pay;

"(C) the applicant for the grant provides assurances that every reasonable effort will be made to secure from patients and third party reimbursement entities, including any State compensation program, health insurance entity, any entity providing health services on a prepaid basis, or any Federal or State health benefits program, full payment for the services provided under paragraph (3). Amounts awarded under this subsection shall be used as the payment source of last resort for services provided.

"(6) In addition to providing the services required under paragraph (3), a grantee may use amounts provided under the grant for minor remodeling and rehabilitation of the facilities needed to support the delivery of such services. No funds may be used for the construction of new buildings or the acquisition of properties.

"(7) A grantee shall not use in excess of 5 percent of the amounts received under a grant awarded under this subsection for administration, accounting, reporting and program oversight functions.

"(8) To be eligible to receive a grant under this subsection, an entity, in addition to meeting the requirements of paragraph (2), shall prepare and submit to the Secretary an application at such time, in such form, and containing such information as the Secretary shall require, including assurances adequate to ensure—

"(A) that funds received under a grant awarded under this subsection will be utilized to supplement not supplant State funds made available to the entity for the provision of maternal and child health and social services, with identification of funding received from other sources for such purposes;

"(B) that prenatal and early childhood health care will be provided under a case management model, that continuity of care will be provided for all individuals, and that services to be provided are accessible to the target population to be served;

"(C) that the entity will serve low income women and children in the service delivery area, and have a plan for outreach to those at risk of inadequate health care services;

"(D) that the entity has outlined a needs assessment of the health care delivery system in the service delivery area, to include health status indicators for women of childbearing age and young children, and identification of other health care provider groups in the area;

"(E) that the entity has reviewed the application for a grant under this section with the State agency administering amounts received under title V of the Social Security Act and the local health department, and that such application is consistent with the State plan for the delivery of maternal and child health services; and

"(F) that the entity will submit a report to the Secretary and to the State and relevant local health departments that will include demographic data on the number of individuals served and those services provided with funds provided under this subsection, and a description of the manner in which services provided by the entity are integrated with those services provided by other health care agencies or provider groups in the service delivery area.

"(9) In awarding grants under this subsection, the Secretary should give priority to—

"(A) those applications snbmitted by entities that are an association of one or more public, and one or more nonprofit private health care and social service providers, except that in areas where such an association would not be possible as a result of the absence of more than one provider entity, no such priority shall be given; and

"(B) those applications providing evidence of local investment (such as State, health care provider, local charity, and volunteer organization contributions) in maternal and child health initiatives, through a 10 percent local contribution to match Federal funds, in cash or in kind, fairly evaluated, not including any portion of any service subsidized by the Federal Government or other copayments under paragraph (5).

Grants under this subsection shall be awarded on an equitable basis among eligible rural and urban applicants.

"(10) Not later than 30 months after the date of enactment of this subsection, the Secretary shall prepare and submit, to the Senate Committee on Labor and Human Resources, the Senate Finance Committee, and the House Committee on Energy and Commerce, an evaluation of the program established under this subsection, that shall include—

"(A) an analysis of the manner in which funds provided under this subsection have been used by grantees, with a review of the services provided;

"(B) the infant mortality rates and immunization rates in the communities served by grantees prior to the receipt of such a grant and at the time such evaluation is prepared, and an assessment of the impact of enhanced services on such rates;

"(C) an analysis of the manner in which entities receiving grants under this subsection have integrated the services provided under such grants with other available health and social service providers in the service delivery area; and

"(D) recommendations concerning any modifications necessary to improve program effectiveness in reaching the stated goals of the program in a cost-effective manner.

"(11) There are authorized to be appropriated for each of the fiscal years 1992 through 1994, such sums as may be necessary to carry out this subsection.".

SEC. 305. BIRTH DEFECTS PROPOSAL.

Part B of title III (42 U.S.C. 243 et seq.) (as amended by section 303) is further amended by inserting after section 317B, the following new section:

"SEC. 317C. COORDINATION OF BIRTH DEFECTS SURVEILLANCE AND EPIDEMIOLOGY RESEARCH PROGRAMS.

"(a) FINDINGS.—Congress finds that—

"(1) birth defects are the leading cause of infant mortality, directly responsible for one out every five infant deaths;

"(2) thousands of the 250,000 infants born with a birth defect annually face a lifetime of chronic disability and illness; and

"(3) there is no national effort to record birth defect data and perform epidemiologic surveillance even though such data would aid research efforts to understand and reduce the incidence of preventable birth defects.

"(b) PLAN FOR IMPLEMENTING A NATIONAL BIRTH DEFECTS MONITORING SYSTEM AND SURVEILLANCE PROGRAM.—

"(1) DEVELOPMENT.—The Secretary, acting through the Centers for Disease Control, shall develop a plan to establish regional birth defects monitoring programs to serve all States for the purpose of collecting and analyzing data on the incidence of birth defects with relevant epidemiologic data. Such plan shall specify how collaborative efforts between the Centers for Disease Control and responsible State agencies will be carried out, and may include the provision of grants or cooperative agreements, and technical assistance.

"(2) CLEARINGHOUSE.—The Centers for Disease Control shall develop a program plan to serve as the national clearinghouse of the collection and storage of data and information generated from birth defects monitoring programs developed under paragraph (1). Functions of the clearinghouse will include facilitating the coordination of birth defects research.

"(3) REPORT.—The Secretary shall prepare and submit to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report containing the plan required under paragraph (1), together with recommendations to facilitate the immediate implementation of such plan, on or before July 1, 1993.

"(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $5,000,000 for fiscal year 1992, and such sums as may be necessary for each of the fiscal years 1993 and 1994.".

TITLE IV—MISCELLANEOUS PROVISIONS

SEC. 401. EFFECTIVE DATE.

Notwithstanding any other provision of law, section 403A(a)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343-1(a)(1)) shall not apply with respect to any requirement of any State or political subdivision regarding maple syrup until December 1, 1993.

JUDICIAL NATURALIZATION AMENDMENTS

KENNEDY (AND SIMPSON) AMENDMENT NO. 1448

Mr. REID (for Mr. KENNEDY, for himself and Mr. SIMPSON) proposed an amendment to the bill (H.R. 3049) to amend the Immigration and Nationality Act to restore certain exclusive authority on courts to administer oaths of allegiance for naturalization, as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Miscellaneous and Technical Immigration and Naturalization Amendments of 1991".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—JUDICIAL NATURALIZATION CEREMONIES AMENDMENTS

Sec. 101. Short title of title.
Sec. 102. Court authority to administer oaths of allegiance for naturalization.

TITLE II—O AND P NONIMMIGRANT AMENDMENTS

Sec. 201. Short title of title.
Sec. 202. Repeal of numerical limitations on P-1 and P-3 nonimmigrants; GAO report.
Sec. 203. Standards for classification of P-1 and P-3 nonimmigrants.
Sec. 204. Consultation requirement.
Sec. 205. Amendments relating to O nonimmigrants.
Sec. 206. Amendments relating to P nonimmigrants.
Sec. 207. Other amendments.
Sec. 208. Effective date.

TITLE III—MISCELLANEOUS AND TECHNICAL CORRECTIONS

Sec. 301. Short title of title; reference to the Immigration and Nationality Act.
Sec. 302. Corrections relating to Title I of the Immigration Act of 1990.
Sec. 303. Corrections relating to Title II of the Immigration Act of 1990.
Sec. 304. Corrections relating to Title III of the Immigration Act of 1990.
Sec. 305. Corrections relating to Title IV of the Immigration Act of 1990.
Sec. 306. Corrections relating to Title V of the Immigration Act of 1990.
Sec. 307. Corrections relating to Title VI of the Immigration Act of 1990.
Sec. 308. Corrections relating to Title VII of the Immigration Act of 1990.
Sec. 309. Additional miscellaneous corrections.
Sec. 310. Effective dates.

TITLE I—JUDICIAL NATURALIZATION CEREMONIES AMENDMENTS

SEC. 101. SHORT TITLE OF TITLE.

This title may be cited as the "Judicial Naturalization Ceremonies Amendments of 1991".

SEC. 102. COURT AUTHORITY TO ADMINISTER OATHS OF ALLEGIANCE FOR NATURALIZATION.

(a) IN GENERAL.—Subsection (b) of section 310 of the Immigration and Nationality Act (8 U.S.C. 1421), as amended by section 401(a) of the Immigration Act of 1990, is amended to read as follows:

"(b) COURT AUTHORITY TO ADMINISTER OATHS.—

"(1) JURISDICTION—Subject to section 337(c)—

"(A) GENERAL JURISDICTION.—Except as provided in subparagraph (B), each applicant for naturalization may choose to have the oath of allegiance under section 337(a) administered by the attorney general or by an eligible court described in paragraph (5). Each such eligible court shall have authority to administer such oath of allegiance to persons residing within the jurisdiction of the court.

"(B) EXCLUSIVE AUTHORITY.—An eligible court described in paragraph (5) that wishes to have exclusive authority to administer the oath of allegiance under section 377(a) to persons residing within the jurisdiction of the court during the period described in paragraph (3)(A)(i) shall notify the Attorney General of such wish and, subject to this subsection, shall have such exclusive authority with respect to such persons during such period.

"(2) INFORMATION.—

"(A) GENERAL INFORMATION.—In the case of a court exercising authority under paragraph (1), in accordance with procedures established by the Attorney General—

"(i) the applicant for naturalization shall notify the Attorney General of the intent to be naturalized before the court, and

"(ii) the Attorney General—

"(I) shall forward to the court (not later than 10 days after the date of approval of an application for naturalization in the case of a court which has provided notice under paragraph (1)(B)) such information as may be necessary to administer the oath of allegiance under section 337(a) and

"(II) shall promptly forward to the court a certificate of naturalization (prepared by the Attorney General).

"(B) ASSIGNMENT OF INDIVIDUALS IN THE CASE OF EXCLUSIVE AUTHORITY.—If an eligible court has provided notice under paragraph (1)(B), the Attorney General shall inform each person (residing within the jurisdiction of the court), as the time of the approval of the person's application for naturalization, of—

"(i) the court's exclusive authority to administer the oath of allegiance under section 337(a) to such a person during the period specified in paragraph (3)(A)(i), and

"(ii) the date or dates (if any) under paragrah (3)(B) on which the court has scheduled oath administration ceremonies.

If more than one eligible court in an area has provided notice under paragraph (1)(B), the Attorney General shall permit the person, at the time of the approval, to choose the court to which the information will be forwarded for administration of the oath of allegiance under this section.

"(3) SCOPE OF EXCLUSIVE AUTHORITY.—

"(A) LIMITED PERIOD AND ADVANCE NOTICE REQUIRED.—The exclusive authority of a court to administer the oath of allegiance under paragraph (1)(B) shall apply with respect to a person—

"(i) only during the 45-day period beginning on the date on which the Attorney General certifies to the court that an applicant is eligible for naturalization, and

"(ii) only if the court has notified the Attorney General, prior to the date of certification of eligibility, of the day or days (during such 45-day period) on which the court has scheduled oath administration ceremonies.

(B) AUTHORITY OF ATTORNEY GENERAL.—Subject to subparagraph (C), the Attorney General shall not administer the oath of allegiance to a person under subsection (a) during the period in which exclusive authority to administer the oath of allegiance may be exercised by an eligible court under this subsection with respect to that person.

(C) WAIVER OF EXCLUSIVE AUTHORITY.—Notwithstanding the previous provisions of this paragraph, a court may waive exclusive authority to administer the oath of allegiance under section 337(a) to a person under this subsection if the Attorney General has not provided the court with the certification described in subparagraph (A)(i) within a reasonable time before the date scheduled by the court for oath administration ceremonies. Upon notification of a court's waiver of jurisdiction, the Attorney General shall promptly notify the applicant.

"(4) ISSUANCE OF CERTIFICATES.—The Attorney General shall provide for the issuance of certificates of naturalization at the time of administration of the oath of allegiance.

"(5) ELIGIBLE COURTS.—For purposes of this section, the term 'eligible court' means—

"(A) a District Court of the United States in any State, or

"(B) any court of record in any State having a seal, a clerk, and jurisdiction in actions in law or equity, or law and equity, in which the amount in controversy is unlimited.".

(b) CONFORMING AMENDMENTS.—

(1) FUNCTIONS OF CLERKS.—Section 339(a) of such Act (8 U.S.C. 1450(a)) is amended—

(A) by striking paragraph (1) and inserting the following:

"(1) deliver to each person administered the oath of allegiance by the court pursuant to section 337(a) the certificate of naturalization prepared by the Attorney General pursuant to section 310(b)(2)(A)(ii),",

(B) in paragraph (2), by inserting "a list of applicants actually taking the oath at each scheduled ceremony and" after "Attorney General",

(C) by striking paragraph (3),

(D) in paragraph (4), by striking the period at the end and inserting ", and" and by redesignating such paragraph as paragraph (3),

(E) by inserting after paragraph (3), as so redesignated, the following new paragraph:

"(4) be responsible for all blank certificates of naturalization received by them from time to time from the Attorney General and shall account to the Attorney General for them whenever required to do so.", and

(F) by adding at the end the following:

"No certificate of naturalization received by any clerk of court which may be defaced or injured in such manner as to prevent its use as herein-provided shall in any case be destroyed, but such certificates shall be returned to the Attorney General.".

(2) EXPEDITED ADMINISTRATION OF OATH.—Subsection (c) of section 337 of such Act (8 U.S.C. 1448) is amended to read as follows:

"(c) Notwithstanding section 310(b), an individual may be granted an expedited judicial oath administration ceremony or administrative naturalization by the Attorney General upon demonstrating sufficient cause. In determining whether to grant an expedited judicial oath administration ceremony, a court shall consider special circumstances (such as serious illness of the applicant or a member of the applicant's immediate family, permanent disability sufficiently incapacitating as to prevent the applicant's personal appearance at the scheduled ceremony, developmental disability or advanced age, or exigent circumstances relating to travel or employment). If an expedited judicial oath administration ceremony is impracticable, the court shall refer such individual to the Attorney General who may provide for immediate administrative naturalization.".

(3) FEES.—Section 344 of such Act (8 U.S.C. 1455) is amended by adding at the end the following new subsection:

"(f)(1) The Attorney General shall pay over to courts administering oaths of allegiance to persons under this title a specified percentage of all fees described in subsection (a)(1) collected by the Attorney General with respect to persons administered the oath of allegiance by the respective courts. The Attorney General, annually and in consultation with the courts, shall determine the specified percentage based on the proportion, of the total costs incurred by the Service and courts for essential services directly related to the naturalization process, which are incurred by courts.

"(2) The Attorney General shall provide on an annual basis to the Committees on the Judiciary of the House of Representatives and of the Senate a detailed report on the use of the fees described in paragraph (1) and shall consult with such Committees before increasing such fees.".

(c) EFFECTIVE DATE.—The amendments made by this title shall take effect 30 days after the date of the enactment of this Act.

TITLE II—O AND P NONIMMIGRANT AMENDMENTS

SEC. 201. SHORT TITLE OF TITLE.

This title may be cited as the "O and P Nonimmigrant Amendments of 1991".

SEC. 202. REPEAL OF NUMERICAL LIMITATIONS ON P-1 AND P-3 NONIMMIGRANTS; GAO REPORT.

(a) IN GENERAL.—Section 214(g)(1) of the Immigration and Nationality Act (8 U.S.C. 1184(g)(1)), as added by section 205(a) of the Immigration Act of 1990, is amended—

(1) by adding "or" at the end of subparagraph (A),

(2) by striking ", or" at the end of subparagraph (B) and inserting a period, and

(3) by striking subparagraph (C).

(b) REPORT.—(1) By not later than October 1, 1994, the Comptroller General of the United States shall submit to the Committees on the Judiciary of the Senate and of the House of Representatives a report containing information relating to the admission of artists, entertainers, athletes, and related support personnel as nonimmigrants under subparagraphs (O) and (P) of section 101(a)(15) of the Immigration and Nationality Act, and information on the laws, regulations, and practices in effect in other countries that affect United States citizens and permanent resident aliens in the arts, entertainment, and athletics, in order to evaluate the impact of such admissions, laws, regulations, and practices on such citizens and aliens.

(2) Not later than 30 days after the date the Committee of the Judiciary on the Senate receives the report under paragraph (1), the Chairman of the Committee shall make the report available to interested parties and shall hold a hearing respecting the report. No later than 90 days after the date of receipt of the report, such Committee shall report to the Senate its findings and any legislation it deems appropriate.

SEC. 203. STANDARDS FOR CLASSIFICATION OF P-1 NONIMMIGRANTS.

(a) SUBSTITUTION OF NEW STANDARDS.—Clause (i) of section 101(a)(15)(P) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended to read as follows:

"(i)(a) is described in section 214(c)(4)(A) (relating to athletes), or (b) is described in section 214(c)(4)(B) (relating to entertainment groups);".

(b) NEW STANDARDS.—Section 214(c)(4) of such Act, as added by section 207(b)(2)(B) of the Immigration Act of 1990, is amended by redesignating subparagraphs (A) through (C) as subparagraphs (C) through (E) and by inserting before subparagraph (C), as so redesignated, the following new subparagraphs:

"(A) For purposes of section 101(a)(15)(P)(i)(a), an alien is described in this subparagraph if the alien—

"(i) performs as an athlete, individually or as part of a group or team, at an internationally recognized level of performance, and

"(ii) seeks to enter the United States temporarily and solely for the purpose of performing as such an athlete with respect to a specific athletic competition.

"(B)(i) For purposes of section 101(a)(15)(P)(i)(b), an alien is described in this subparagraph if the alien—

"(I) performs with or is an integral and essential part of the performance of an entertainment group that has (except as provided in clause (ii)) been recognized internationally as being outstanding in the discipline for a sustained and substantial period of time.

"(II) in the case of a performer or entertainer, except as provided in clause (iii), has had a sustained and substantial relationship with that group (ordinarily for at least one year) and provides functions integral to the performance of the group, and

"(III) seeks to enter the United States temporarily and solely for the purpose of performing as such a performer or entertainer or as an integral and essential part of a performance.

"(ii) In the case of an entertainment group that is recognized nationally as being outstanding in its discipline for a sustained and substantial period of time, the Attorney General may, in consideration of special circumstances, waive the international recognition requirement of clause (i)(I).

"(iii)(I) The one-year relationship requirement of clause (i)(II) shall not apply to 25 percent of the performers and entertainers in a group.

"(II) The Attorney General may waive such one-year relationship requirement for an alien who because of illness or unanticipated and exigent circumstances replaces an essential member of the group and for an alien who augments the group by performing a critical role.

"(iv) The requirements of subclauses (I) and (II) of clause (i) shall not apply to alien circus personnel who perform as part of a circus or circus group or who constitute an integral and essential part of the performance of such circus or circus group, but only if such personnel are entering the United States to join a circus that has been recognized nationally as outstanding for a sustained and substantial period of time or as part of such a circus.".

SEC. 204. CONSULTATION REQUIREMENT.

Section 214(c) of the Immigration and Nationality Act, as amended by section 207(b)(2) of the Immigration Act of 1990, is amended—

(1) in paragraph (3)(A), by striking "after consultation with peer groups in the area of the alien's ability" and inserting "after consulation in accordance with paragraph (6)",

(2) in paragraph (3)(B), by striking "after consultation with labor organizations with expertise in the skill area involved" and inserting "after consultation in accordance with paragraph (6) or, in the case of such an alien seeking entry for a motion picture or television production, after consultation with such a labor organization and a management organization in the area of the alien's ability",

(3) in paragraph (4)(C), as redesignated by section 203(b), by striking "clause (ii) of",

(4) in paragraph (4)(D), as redesignated by section 203(b), by striking "after consultation with labor organizations with expertise in the specific field of athletics or entertainment involved" and inserting "after consultation in accordance with paragraph (6)",

(5) by redesignating paragraph (6) as paragraph (7), and

(6) by inserting after paragraph (5) the following new paragraph:

"(6)(A)(i) To meet the consultation requirements of paragraph (3)(A) in the case of a petition for a nonimmigrant described in section 101(a)(15)(O)(i) (other than with respect to aliens seeking entry for a motion picture or television production), the petitioner shall submit with the petition an advisory opinion from a peer group (or other person or persons of its choosing, which may include a labor organization) with expertise in the specific field involved.

"(ii) To meet the consultation requirement of paragraph (3)(B) in the case of a petition for a nonimmigrant described in section 101(a)(15)(O)(ii) (other than with respect to aliens seeking entry for a motion picture or television production), the petitioner shall submit with the petition an advisory opinion from a labor organization with expertise in the skill area involved.

"(iii) To meet the consultation requirement of paragraph (4)(D) in the case of a petition for a nonimmigrant described in section 101(a)(15)(P)(i) or 101(a)(15)(P)(iii), the petitioner shall submit with the petition an advisory opinion from a labor organization with expertise in the specific field of athletics or entertainment involved.

"(B) To meet the consultation requirements of subparagraph (A), unless the petitioner submits with the petition an advisory opinion from an appropriate labor organization, the Attorney General shall forward a copy of the petition and all supporting documentation to the national office of an appropriate labor organization within 5 days of the date of receipt of the petition. If there is a collective bargaining representative of an employer's employees in the occupational classification for which the alien is being sought, that representative shall be the appropriate labor organization.

"(C) In those cases in which a petitioner described in subparagraph (A) establishes that an appropriate peer group (including a labor organization) does not exist, the Attorney General shall adjudicate the petition without requiring an advisory opinion.

"(D) Any person or organization receiving a copy of a petition described in subparagraph (A) and supporting documents shall have no more than 15 days following the date of receipt of such documents within which to submit a written advisory opinion or comment or to provide a letter of no objection. Once the 15-day period has expired and the petitioner has had an opportunity, where appropriate, to supply rebuttal evidence, the Attorney General shall adjudicate such petition in no more than 14 days. The Attorney General may shorten any specified time period for emergency reasons if no unreasonable burden would be thus imposed on any participant in the process.

"(E)(i) The Attorney General shall establish by regulation expedited consultation procedures in the case of nonimmigrant artists or entertainers described in section 101(a)(15)(O) or 101(a)(15)(P) to accommodate the exigencies and scheduling of a given production or event.

"(ii) The Attorney General shall establish by regulation expedited consultation procedures in the case of nonimmigrant athletes described in section 101(a)(15)(O)(i) or 101(a)(15)(P)(i) in the case of emergency circumstances (including trades during a season).

"(F) No consultation required under this subsection by the Attorney General with a nongovernmental entity shall be construed as permitting the Attorney General to delegate any authority under this subsection to such an entity. The Attorney General shall give such weight to advisory opinions provided under this section as the Attorney General determines, in his sole discretion, to be appropriate."

SEC. 205. AMENDMENTS RELATING TO O NONIMMIGRANTS.

(a) Definition of Extraordinary Ability in the Arts for O Nonimmigrants.—Section 101(a) of the Immigration and Nationality Act, as amended by sections 123 and 204(c) of the Immigration Act of 1990, is amended by adding at the end the following new paragraph:

"(46) The term 'extraordinary ability' means for purposes of section 101(a)(15)(O)(i), in the case of the arts, distinction.".

(b) Eliminating Additional Paperwork Requirement for O–1's.—Section 101(a)(15)(O)(i) of the Immigration and Nationality Act, as amended by section 207(a)(3) of the Immigration Act of 1990, is amended by striking ", but only" and all that follows up to the semicolon at the end.

(c) Clarification of Significant Photography for O–2s.—Section 101(a)(15)(O)(ii)(III)(b) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by striking "signification principal photography" and inserting "significant production (including pre- and post-production work)".

(d) Clarification of Multiple Events for Visas for O Nonimmigrants.—Section 214(a)(2)(A) of the Immigration and Nationality Act, as added by section 207(b)(1) of the Immigration Act of 1990, is amended by inserting "(or events)" after "event".

(e) Consultation with Respect to Readmitted O–1 Nonimmigrants.—Section 214(c)(3) of the Immigration and Nationality Act, as added by section 207(b)(2)(B) of the Immigration Act of 1990, is amended by adding at the end the following: "The Attorney General shall provide by regulation for the waiver of the consultation requirement under subparagraph (A) in the case of aliens who have been admitted as nonimmigrants under section 101(a)(15)(O)(i) because of extraordinary ability in the arts and who seek readmission to perform similar services within 2 years after the date of a consultation under such subparagraph. Not later than 5 days after the date such a waiver is provided, the Attorney General shall forward a copy of the petition and all supporting documentation to the national office of an appropriate labor organization.".

SEC. 206. AMENDMENTS RELATING TO P NONIMMIGRANTS.

(a) Eliminating 3-Month Out-of-Country Rule for P–2 and P–3 Nonimmigrants.—Section 214(a)(2)(B) of the Immigration and Nationality Act, as added by section 207(b)(1) of the Immigration Act of 1990, is amended—

(1) by striking "(B)(i)" and inserting "(B)", and

(2) by striking clause (ii).

(b) Treatment of Foreign Organizations for P–2 Nonimmigrants.—Section 101(a)(15)(P)(ii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by inserting "or organizations" after "and an organization".

(c) Treatment of P–2 Nonimmigrants.—(1) Section 101(a)(15)(P)(ii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended by striking ", between the United States and the foreign states involved".

(2) Section 214(c)(4)(E) of the Immigration and Nationality Act, as added by 207(b)(2)(B) of the Immigration Act of 1990 and as redesignated by section 203(b) of this title, is amended by striking ", in order to assure reciprocity in fact with foreign states".

(d) Performance of Teaching and Coaching Functions by P–3 Nonimmigrants.—Section 101(a)(15)(P)(iii)(II) of the Immigration and Nationality Act, as added by section 207(a)(3) of the Immigration Act of 1990, is amended—

(1) by striking "for the purpose of performing" and inserting "to perform, teach, or coach", and

(2) by inserting "commercial or noncommercial" before "program".

SEC. 207. OTHER AMENDMENTS.

(a) Return Transportation Requirement for O and P Nonimmigrants.—Section 214(c)(5) of the Immigration and Nationality Act, as added by section 207(b)(2) of the Immigration Act of 1990, is amended by inserting "(A)" after "(5)" and by adding at the end the following new subparagraph:

"(B) In the case of an alien who enters the United States in nonimmigrant status under section 101(a)(15)(O) of 101(a)(15)(P) and whose employment terminates for reasons other than voluntary resignation, the employer whose offer of employment formed the basis of such nonimmigrant status and the petitioner are jointly and severally liable for the reasonable cost of return transportation of the alien abroad. The petitioner shall provide assurance satisfactory to the Attorney General that the reasonable cost of that transportation will be provided.".

(b) Entry of Fashion Models Under H–1B.—Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, as amended by section 205(c)(1) of the Immigration Act of 1990, is amended—

(1) by inserting "or as a fashion model" after "214(i)(1)", and

(2) by inserting "or, in the case of a fashion model, is of distinguished merit and ability" after "214(i)(2)".

(c) Annual Report.—

(1) In general.—Section 214(c) of the Immigration and Nationality Act (8 U.S.C. 1184(c)(3)), as amended by section 207(b)(2) of the Immigration Act of 1990 and by section 204 of this title, is amended by adding at the end the following new paragraph:

"(8) The Attorney General shall submit annually to the Committees on the Judiciary of the House of Representatives and of the State a report describing, with respect to petitions under each subcategory of subparagraphs (H), (O), (P), and (Q) of section 101(a)(15) the following:

"(A) The number of such petitions which have been filed.

"(B) The number of such petitions which have been approved and the number of workers (by occupation) included in such approved petitions.

"(C) The number of such petitions which have been denied and the number of workers (by occupation) requested in such denied petitions.

"(D) The number of such petitions which have been withdrawn.

"(E) The number of such petitions which are awaiting final action.".

(2) Deadline for first report.—The first report under section 214(c)(8) of the Immigration and Nationality Act shall be provided not later than April 1, 1993.

SEC. 208. EFFECTIVE DATE.

The provisions of, and amendments made by, this title shall take effect on April 1, 1992.

TITLE III—MISCELLANEOUS AND TECHNICAL CORRECTIONS

SEC. 301. SHORT TITLE OF TITLE; REFERENCE TO THE IMMIGRATION AND NATIONALITY ACT.

(a) This title may be cited as the "Immigration Technical Corrections Act of 1991".

(b) In this title, the term "INA" means the Immigration and Nationality Act.

SEC. 302. CORRECTIONS RELATING TO TITLE 1 OF THE IMMIGRATION ACT OF 1990.

(a)(1) Section 201 of the INA as amended by section 101(a) of the Immigration Act of 1990, is amended—

(A) in subsection (c)(3), by striking "(3) The number computed under this paragraph for a fiscal year" and inserting the following:

"(3)(A) The number computed under this paragraph for fiscal year 1992 is zero.

"(B) The number computed under this paragraph for fiscal year 1993 is the difference (if any) between the worldwide level established under paragraph (1) for the previous fiscal year and the number of visas issued under section 203(a) during that fiscal year.

"(C) The number computed under this paragraph for a subsequent fiscal year"; and

(B) in subsection (d)(2), by striking "(2) The number computed under this paragraph for a fiscal year" and inserting the following:

"(2)(A) The number computed under this paragraph for fiscal year 1992 is zero.

"(B) The number computed under this paragraph for fiscal year 1993 is the difference (if any) between the worldwide level established under paragraph (1) for the previous fiscal year and the number of visas issued under section 203(b) during that fiscal year.

"(C) The number computed under this paragraph for a subsequent fiscal year".

(2) Section 101 of the Immigration Act of 1990 is amended by adding at the end the following new subsection:

"(c) Transition.—In applying the second sentence of section 201(b)(2)(A)(i) of the Immigration and Nationality Act (as amended by subsection (a)) in the case of an alien whose citizen spouse died before the date of the enactment of this Act, notwithstanding the deadline specified in such sentence the alien spouse may file the classification petition referred to in such sentence within 2 years after the date of the enactment of this Act.".

(3) Section 202(a)(4)(A) of the INA, as amended by section 102(I) of the Immigration Act of 1990, is amended by striking "MINIMUM".

(b)(1) Section 112 of the Immigration Act of 1990 is amended—

(A) in subsection (c), by striking "temporary or" before paragraph (1), and

(B) by adding at the end the following:

"(d) Definitions.—The definitions in the Immigration and Nationality Act shall apply in the administration of this section.".

(2) Section 203(b) of the INA, as inserted by section 121(a) of the Immigration Act of 1990, is amended—

(A) in paragraphs (1), (2), and (3), by striking "40,000" and inserting "28.6 percent of such world-wide level" each place it appears,

(B) in paragraph (1)(C), by striking "who seeks" and inserting "the alien seeks",

(C) in paragraphs (4) and (5), by striking "10,000" and inserting "7.1 percent of such world-wide level" each place it appears, and

(D) in paragraph (2)(B), by inserting "professions," after "arts,".

(3) Section 216A of the INA, as inserted by section 121(b)(1) of the Immigration Act of 1990, is amended—

(A) in subsection (c)(2)(A), by inserting "(and the alien's spouse and children if it was obtained on a conditional basis under this section or section 216)" after "status of the alien", and

(B) in subsections (c)(3)(B) and (d)(2)(A), by striking "obtaining the status of".

(4) Section 121(b)2) of the Immigration Act of 1990 is amended by striking "exclusion" and inserting "deportation".

(5) Section 124(a) of the Immigration Act of 1990 is amended—

(A) in paragraph (1)—

(i) by inserting "(or paragaph (2) as the spouse or child of such an alien)" after "paragraph (3)", and

(ii) by adding at the end the following new sentence: "If the full number of such visas are not made available in fiscal year 1991 or 1992, the shortfall shall be added to the number of such visas to be made available under this section in the succeeding fiscal year."; and

(B) in paragraph (3)(A), by striking "(and has been so employed during the 12 previous, consecutive months)" and inserting "except for temporary absences at the request of the employer and has been employed in Hong Kong for at least 12 consecutive months".

(6) Section 132 of the Immigration Act of 1990 is amended—

(A) in subsection (a), by inserting "(or in subsection (d) as the spouse or child of such an alien)" after "subsection (b)";

(B) in subsection (a), by adding at the end the following new sentence: "If the full number of such visas are not made available in fiscal year 1992 or 1993, the shortfall shall be added to the number of such visas to be made available under this section in the succeeding fiscal year.";

(C) in subsection (b)(1), effective after fiscal year 1992, by striking "that is not contiguous to the United States and ";

(D) in subsection (c)—

(i) effective beginning with fiscal year 1992, by striking "in the chronological order in which aliens apply for each fiscal year" and inserting "strictly in a random order among those who qualify during the application period for each fiscal year established by the Secretary of State",

(ii) by inserting before the period at the end the following: "and except that if more than one application is submitted for any fiscal year (beginning with fiscal year 1993) with respect to any alien all such applications submitted with respect to the alien and fiscal year shall be voided", and

(iii) by adding at the end the following: "If the minimum number of such visas are not made available in fiscal year 1992 or 1993 to such natives the shortfall shall be added to the number of such visas to be made available under this section to such natives in the suceeding fiscal year. In applying this section, natives of Northern Ireland shall be deemed to be natives of Ireland."; and

(E) in subsection (e)—

(i) by striking "the grounds" and all that follows through "shall not apply, and",

(ii) by striking "of such section" and inserting "of section 212(a) of the Immigration and Nationality Act", and

(iii) by adding at the end the following: "In addition, the provisions of section 212(e) of such Act shall not apply so as to prevent an individual's application for a visa or admission under this section.".

(7) Section 134(a) of the Immigration Act of 1990 is amended by inserting "(or in subsection (d) as the spouse or child of such an alien)" after "subsection (b)".

(c)(1) Section 141 of the Immigration Act of 1990 is amended—

(A) in the heading, by striking "Legal",

(B) in subsection (a), by striking "Legal",

(C) in subsection (a)(1)(B), by striking "of the Subcommittee" and all that follows through "International Law", and

(D) by adding at the end the following new subsection:

(i) Presidential Report.—The President shall conduct a review and evaluation and provide for the transmittal of reports to the Congress in the same manner as the Commission is required to conduct a review and evaluation and to transmit reports under subsection (b).".

(2) The item in the table of contents of such Act relating to section 141 is amended to read as follows:

"Sec. 141. Commission on Immigration Reform.".

(d)(1) Section 152(b)(1)(A) of the Immigration Act of 1990 is amended by striking "who has performed faithful service" and inserting "and has performed faithful service as such an employee".

(2) Section 245 of the INA, as amended by section 2(c) of the Armed Forces Immigration Adjustment Act of 1991, is amended—

(A) in subsection (c)(2), by inserting "(J)," after "(I),", and

(B) by adding at the end the following new subsection:

(h) In applying this section to a special immigrant described in section 101(a)(27)(J)—

"(1) such an immigrant shall be deemed, for purposes of subsection (a), to have been paroled into the United States; and

"(2) in determining the alien's admissibility as an immigrant—

"(A) paragraphs (4), (5)(A), and (7)(A) of section 212(a) shall not apply, and

"(B) the Attorney General may waive other paragraphs of section 212(a) (other than paragraphs (2)(A), (2)(B), (2)(C) (except for so much of such paragraph as related to a single offense of simple possession of 30 grams or less of marijuana), (3)(A), (3)(B), (3)(C), or (3)(E)) in the case of individual aliens for humanitarian purposes, family unity, or when it is otherwise in the public interest.

The relationship between an alien and the alien's natural parents or prior adoptive parents shall not be considered a factor in making a waiver under paragraph (2)(B). Nothing in this subsection or section 101(a)(27)(J) shall be construed as authorizing an alien to apply for admission or be admitted to the United States in order to obtain special immigrant status described in such section.".

(3) Section 241(h) of the INA, as amended by section 153(b) of the Immigration Act of 1990, is amended by striking the comma after "(3)(A)".

(4) Section 154 of the Immigration Act of 1990 is amended—

(A) in subsection (b)(1)(A), by inserting "or China" after "Hong Kong",

(B) in subsection (b)(1)(B)(i), by inserting "of" after "of section 203(a)", and

(C) by striking paragraph (3) of subsection (c).

(5) Section 155 of the Immigration Act of 1990 is amended—

(A) in subsection (a), by inserting "(or section 203(e), in the case of fiscal year 1992)" after "203(c)", and

(B) in subsection (b), by striking "or the child" and inserting "or who are the spouse or child".

(e)(1) Section 161(a) of the Immigration Act of 1990 is amended by striking "in this section," and inserting "in this title, this title and".

(2) Section 161(c)(1) of the Immigration Act of 1990 is amended—

(A) by inserting "or an application for labor certification before such date under section 212(a)(14)" after "before such date)".

(B) in subparagraph (A), by inserting "or application" after "such a petition",

(C) in subparagraph (A), by inserting ", or 60 days after the date of certification in the case of labor certifications filed in support of the petition under section 212(a)(14) of such Act before October 1, 1991, but not certified until after October 1, 1993" after "(by not later than October 1, 1993". and

(D) by adding at the end the following new sentence:

"In the case of a petition filed under section 204(a) of such Act before October 1, 1991, but which is not described in paragraph (4), and for which a filing fee was paid, any additional filing fee shall not exceed one-half of the fee for the filing of the new petition referred to in subparagraph (A).".

(3) Section 203(f) of the INA, as inserted by section 162(a) of the Immigration Act of 1990, is amended—

(A) by striking "PRESUMPTION.—" and all that follows through "so described." and inserting "AUTHORIZATION FOR ISSUANCE.—", and

(B) by striking "201(b)(1) or in subsection (a) or (b)" and inserting "201(b)(2) or in subsection (a), (b), and (c)".

(4) Section 204(a)(1) of the INA, as amended by section 162(b) of the Immigration Act of 1990, is amended—

(A) in subparagraph (A), by adding at the end the following: "An alien described in the second sentence of section 201(b)(2)(A)(i) also may file a petition with the Attorney General under this subparagraph for classification under such section.",

(B) in subparagraph (F), by striking "Secretary of State" and inserting "Attorney General", and

(C) in subparagraph (G)(iii), by striking "or registration".

(5) Section 204(e) of the INA, as amended by section 162(b)(3) of the Immigration Act of 1990, is amended by striking "a immigrant" and inserting "an immigrant".

(6) Paragraph (1) of section 162(e) of the Immigration Act of 1990 is repealed, and the provisions of law amended by such paragraph are restored as though such paragraph had not been enacted.

(7) Section 245(b) of the INA, as amended by section 162(e)(3) of the Immigration Act of 1990, is amended—

(A) by striking "201(a)" and inserting "202 and 203", and

(B) by striking "for the succeeding fiscal year" and inserting "for the fiscal year then current".

(8) Effective as if included in section 162(e) of the Immigration Act of 1990—

(A) clauses (ii)(II) and (iii)(II) of section 101(a)(27)(I) of the INA are amended by striking "applies for a visa or adjustment of status" and inserting "files a petition for status",

(B) section 216(g)(1) of the INA is amended by striking "203(a)(8)" and inserting "203(d)"; and

(C) section 221(a) of the INA is amended by striking "nonpreference,".

(9) Effective as if included in the Immigration Nursing Relief Act of 1989, section 212(m)(2)(A) of the INA is amended, by inserting after the first sentence following clause (vi) the following: "Notwithstanding the previous sentence, a facility that lays off a registered nurse other than a staff nurse still meets clause (i) if, in its attestation under this subparagraph, the facility has attested that it will not replace the nurse with a nonimmigrant described in section 101(a)(15)(H)(i)(a) (either through promotion or otherwise) for a period of 1 year after the date of the lay off.".

(10) Effective as if included in the Immigration Nursing Relief Act of 1989, as amended by section 162(f)(1)(B) of the Immigration Act of 1990, section 2(b) of the Immigration Nursing Relief Act of 1989 is amended by inserting after "registered nurse," the following: "who, as of September 1, 1989, is present in the United States and had been admitted to the United States in the status of nonimmigrant under section 101(a)(15)(H)(i) of such Act to perform services as a registered nurse but has failed to maintain that status due to the expiration of the time limitation with respect to such status,".

SEC. 303. CORRECTIONS RELATING TO TITLE II OF THE IMMIGRATION ACT OF 1990.

(a)(1) Section 217 of the INA, as amended by section 201(a) of the Immigration Act of 1990, is amended—

(A) in subsection (a)(4), by striking "BY SEA OR AIR" and inserting "INTO THE UNITED STATES", AND

(B) in the heading of subsection (b), by striking "RIGHTS" and inserting "RIGHTS".

(2) Section 217(e)(1) of the INA, as redesignated by section 201(a)(7) of the Immigration Act of 1990, is amended by striking "(a)(4)(C)" and inserting "(a)(4)".

(3) The second sentence of section 251(d) of the INA, as inserted by section 203(b)(2) of the Immigration Act of 1990, is amended by striking "charterer" and inserting "consignee".

(4) Section 258(c)(2)(B) of the INA, as inserted by section 203(a)(1) of the Immigration Act of 1990, is amended by striking "each such list" and inserting "each list".

(5)(A) Section 101(a)(15)(H)(i)(b) of the INA, as amended by section 205(c)(1) of the Immigration Act of 1990, is amended by inserting "subject to section 212(j)(2)," after "(b)".

(B) Section 212(j) of the INA is amended by striking paragraph (2) and inserting the following:

"(2) An alien who is a graduate of a medical school and who is coming to the United States to perform services as a member of the medical profession may not be admitted as a nonimmigrant under section 101(a)(15)(H)(i)(b) unless—

"(A) the alien is coming pursuant to an invitation from a public or nonprofit private educational or research institution or agency in the United States to teach or conduct research, or both, at or for such institution or agency, or

"(B)(i) the alien has passed the Federation licensing examination (administered by the Federation of State Medical Boards of the United States) or an equivalent examination as determined by the Secretary of Health and Human Services, and

"(ii)(I) has competency in oral and written English or (II) is a graduate of a school of medicine which is accredited by a body or bodies approved for the purpose by the Secretary of Education (regardless of whether such school of medicine is in the United States).".

(6) Section 212(n)(1)(A)(ii) of the INA, as added by section 205(c)(3) of the Immigration Act of 1990, is amended by striking "for such aliens" and inserting "for such a nonimmigrant".

(2) Section 221(b) of the Immigration Act of 1990 is amended—

(A) by inserting "and the Secretary of Labor" after "the Commissioner of the Immigration And Naturalization", and

(B) by inserting "a report" after "to the Congress".

(3) Section 222(a) of the Immigration Act of 1990 is amended by striking "subject to the succeeding provisions of this section" and inserting "Subject to subsection (b)".

(4) Section 223(a) of the Immigration Act of 1990 is amended—

(A) by striking the period at the end of paragraph (2) and inserting a comma, and

(B) by adding at the end the following: "or who is the spouse or minor child of such an alien if accompanying or following to join the alien.".

SEC. 304. CORRECTIONS RELATING TO TITLE III OF THE IMMIGRATION ACT OF 1990.

(a) Section 302(c) of the Immigration Act of 1990 is amended by striking "AFFECT", "supercede", and "affect" and inserting "EFFECT", "supersede", and "effect", respectively.

(b) Section 244A of the INA, as inserted by section 302(a) of the Immigration Act of 1990, is amended—

(1) in subsection (a)(1), by inserting after "designated under subsection (b)" the following: "(or in the case of an alien having no nationality, is a person who last habitually resided in such designated state)",

(2) in paragraph (1)(B), by adding at the end the following: "In the case of aliens registered pursuant to a designation under this section made after July 17, 1991, the Attorney General may impose a separate, additional fee for providing an alien with documentation of work authorization. Notwithstanding section 3302 of title 31, United States Code, all fees collected under this subparagraph shall be credited to the appropriation to be used in carrying out this section,", and

(3) in subsection (c)(1)(A), by inserting after "designated under subsection (b)(1)" the following: "(or in the case of an alien having no nationality, is a person who last habitually resided in such designated state)".

(c)(1) In the case of an alien described in paragraph (2) whom the Attorney General authorizes to travel abroad temporarily and who returns to the United States in accordance with such authorization—

(A) the alien shall be inspected and admitted in the same immigration status the alien had at the time of departure if—

(i) in the case of an alien described in paragraph (2)(A), the alien is found not to be excludable on a ground of exclusion referred to in section 301(a)(1) of the Immigration Act of 1990, or

(ii) in the case of an alien described in paragraph (2)(B), the alien is found not to be excludable on a ground of exclusion referred to in section 244A(c)(2)(A)(iii) of the Immigration and Nationality Act; and

(B) the alien shall not be considered, by reason of such authorizes departure, to have failed to maintain continuous physical presence in the United States for purposes of section 244(a) of the Immigration and Nationality Act if the absence meets the requirements of section 244(b)(2) of such Act.

(2) Aliens described in this paragraph are the following:

(A) Aliens provided benefits under section 301 of the Immigration Act of 1990 (relating to family unity).

(B) Aliens provided temporary protected status under section 244A of the Immigration and Nationality Act, including aliens provided such status under section 303 of the Immigration Act of 1990.

SEC. 305. CORRECTIONS RELATING TO TITLE IV OF THE IMMIGRATION ACT OF 1990.

"In applying clause (i), the providing of parole at a point of entry in a district shall be deemed to constitute an application for asylum in the district."

SEC. 309. ADDITIONAL MISCELLANEOUS CORRECTIONS.

(a)(1)(A) Section 209 of the Department of Justice Appropriations Act, 1989 (title II of Public Law 100–459, 102 Stat. 2203) is amended—

(i) in subsection (a)—

(I) by striking "Title 8, United States Code, section 1356 is amended by adding" and inserting "Section 286 of the Immigration and Nationality Act (8 U.S.C. 1356) is amended by adding at the end", and

(II) in the subsection (o) added by such subsection, by striking "will" and inserting "shall"; and

(ii) by amending subsection (b) to read as follows:

"(b) Section 344(g) of the Immigration and Nationality Act (8 U.S.C. 1455(g)) is amended by inserting after 'Treasury of the United States' the following: 'except that all such fees collected or paid over on or after October 1, 1988, shall be deposited in the Immigration Examinations Fee Account established under section 286(m)'.".

(B) The fourth proviso under Immigration and Naturalization Service in the Department of Justice Appropriations Act, 1990 (title II of Public Law 101–162, 103 Stat. 1000) is amended to read as follows: ": *Provided further*, That section 286(n) of the Immigration and Nationality Act (8 U.S.C. 1356(n)) is amended by striking 'in excess of $50,000,000' and by striking the second sentence".

(2)(A) Section 286 of the INA, as amended by section 210 of the Department of Justice Appropriations Act, 1991, is amended—

(i) in subsection (h)(1)(A), by inserting a period after "available until expended",

(ii) in subsection (m), by striking "additional" and inserting "additional",

(iii) by moving the left margins of subsection (q)(2) and the matter in subsection (q)(3)(A) (before clause (i)) 2 ems to the left,

(iv) in subsection (q)(3)(A), by inserting "the" after "The Secretary of", and

(v) in subsection (q)(5)(B), by striking "subsection (q)(1)" and inserting "paragraph (1)".

(B) Section 210(a)(2) of the Department of Justice Appropriations Act, 1991, is amended by striking "in which fees" and inserting "in which the fees".

(3) The amendments made by paragraph (1) and (2) shall be effective as if they were included in the enactment of the Department of Justice Appropriations Act, 1989 and the Department of Justice Appropriations Act, 1990, respectively.

(b)(1) Section 101(a)(15)(D)(i) of the INA is amended by inserting a comma after "States)".

(2) The item in the table of contents of the INA relating to section 242A is amended by striking "Procedures" and inserting "procedures".

(3) The item in the table of contents of the INA relating to section 345 is repealed.

(4) Section 101(c)(1) of the INA is amended by striking "322, and 323" and inserting "and 322".

(5) Section 204(f)(4)(A)(ii)(II) of the INA, as redesignated by section 162(d)(6) of the Immigration Act of 1990, is amended by striking "section 652 of such Act" and inserting "the second and third sentences of such section".

(6) Paragraph (3) of section 210(d) of the INA is amended—

(A) by indenting the paragraph (and its subparagraphs) 2 ems to the right;

(B) by striking "Immigration and Naturalization Service (INS) pursuant to section 210(d) of the Immigration and Nationality Act (INA)" and inserting "Service pursuant to this subsection";

(C) in the matter before subparagraph (A), by striking "INS" each place it appears and inserting "Service";

(D) in subparagraph (A), by striking "as defined in section 210(a)(1)(A) of the INA the INS" and inserting "described in subsection (a)(1)(A) the Service";

(E) in subparagraph (A), by striking "in the INA"; and inserting "in this Act";

(F) in subparagraph (B), by striking "as defined in section 210(a)(1)(B)(1)(B) of the INA" and inserting "described in subsection (a)(1)(A)"; and

(G) in subparagraph (B), by striking "section 210(b)(1)(A)" and inserting "subsection (b)(1)(A)".

(7) Section 212(j) of the INA is amended by striking "International Communication Agency" in paragraphs (1)(D) and (3) and inserting "United States Information Agency".

(8) Section 218(i)(1) of the INA is amended by striking "274A(g)" and inserting "274A(h)(3)".

(9) Section 242(h) of the INA is amended by inserting a comma after "Parole".

(10) Section 242(a) of the INA is amended by striking "101(a)(43)" and inserting "101(a)(43))".

(11) Section 274A(b)(1)(D)(ii) of the INA is amended by striking "clause (ii)" and inserting "clause (i)".

(12) Section 286(e)(1)(D) of the INA is amended by striking "of this title".

(13) Section 313(a)(2) of the INA is amended by inserting "and" before "(F)" and by striking "; (G)" and all that follows through "of 1950" the second place it appears.

(14) Section 344(c) of the INA is redesignated by section 407(d)(19)(F) of the Immigration Act of 1990, is amended by striking "of this subchapter" and inserting "of this title".

(15) The amendments made by section 8 of the Immigration Technical Corrections Act of 1988 shall be effective as if included in the enactment of the Immigration and Nationality Act Amendments of 1986 (Public Law 99-653).

SEC. 310. EFFECTIVE DATES.

Except as otherwise specifically provided, the amendments made by (and provisions of)—

(1) sections 302 through 308 shall take effect as if included in the enactment of the Immigration Act of 1990.

(2) section 309(a) shall be effective with respect to allotments for fiscal years beginning with fiscal year 1989, and

(3) section 309(c) shall take effect on the date of the enactment of this Act.

Amend the title to read as follows: "A bill to amend the Immigration and Nationality Act to restore certain exclusive authority in courts to administer oaths of allegiance for naturalization, to revise provisions relating to O and P nonimmigrants, and to make certain technical corrections relating to the immigration laws."

ABANDONED INFANTS ASSISTANCE ACT AMENDMENTS

LEVIN (AND OTHERS) AMENDMENT NO. 1449

Mr. REID (for Mr. LEVIN, for himself, Mr. KASTEN, and Mr. RIEGLE) proposed an amendment to the amendment of the House to the bill (S. 1532) to revise and extend the programs under the Abandoned Infants Assistance Act of 1988, and for other purposes, as follows:

In the appropriate place in the bill insert the following new section:

"SEC. . Amend Section 105 of the Older Workers Benefit Protection Act (P.L. 101-433) by striking the semicolon at the end of paragraph (b)(1) and inserting thereafter the following: '; or that is a result of pattern collective bargaining in an industry where the agreement setting the pattern was ratified after September 20, 1990, but prior to the date of enactment, and the final agreement in the industry adhering to the pattern was ratified after the date of enactment, but not later than November 20, 1990;'"

NOTICE OF HEARINGS

SUBCOMMITTEE ON OVERSIGHT

Mr. LEVIN. Mr. President, I wish to announce that the Subcommittee on Oversight of Government Management, Committee on Governmental Affairs, will hold a hearing on Oversight of DOD Hospital and Medical Supply System, on Thursday, December 5, 1991, at 9:30 a.m., in room 342 of the Dirksen Senate Office Building.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for my colleagues and the public that two field hearings have been scheduled before the Mineral Resources Development and Production Subcommittee of the Committee on Energy and Natural Resources.

The purpose of the hearings is to receive testimony on S. 433, the Mining Law Reform Act of 1991.

The hearings are scheduled to take place on December 18, 1991, in Salt Lake City, UT, and December 19, 1991, in Bayard, NM. The exact time and locations for the hearings are to be announced.

Testimony will be by invitation only. For further information, please contact Lisa Vehmas of the subcommittee staff at 202/224-7555.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON FINANCE

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on November 26, 1991, at 10 a.m. to hold a hearing on cutting taxes for middle-income Americans.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. REID. Mr. President, I ask unanimous consent that the Senate Committee on Agriculture, Nutrition, and Forestry, be allowed to meet during the session of the Senate on Tuesday, November 26, 1991, after the first vote of the afternoon, to hold a business meeting to vote out the nominations of Charles Hilty to be Assistant Secretary of Agriculture, and Gary Byrne to be a member of the Farm Credit Administraion Board.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ARMED SERVICES

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet in closed/executive session on Tuesday, November 26, 1991, at 2:30 p.m., to discuss the nomination of Lt. Gen. Thomas J. Hickey, USAF, to be placed on the retired list in the grade of lieutenant general; and to discuss other pending nominations.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. REID. Mr. President, I ask unanimous consent that the Select Committee on Indian Affairs be authorized to meet on November 26, 1991, beginning at 9:30 a.m., in 485 Russell Senate Office Building, to consider for report to the Senate an original bill providing for an amendment to the 1956 Lumbee Act, and to meet on S. 1602, the Fort Peck Indian Tribes-Montana Compact Act of 1991.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Tuesday, November 26, at 10 a.m. to receive a closed briefing on recent developments with regard to chemical and biological weapons proliferation.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON JUDICIARY

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Tuesday, November 26, 1991, at 9:30 a.m., to hold a hearing by the Juvenile Justice Subcommittee.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

RECOGNITION OF BUFORD BIBLE, KNOXVILLE, TN

• Mr. SASSER. Mr. President, in a time when American industry is under siege by a rising flood of foreign competition, I would like to take a moment to recognize Mr. Buford Bible of Knoxville, TN, who recently bought his 35th Chevrolet. This is the first time that a single customer has bought his 35th car from the same Chevrolet dealer, and I believe this event is quite an achievement for both Mr. Bible and Tarr Chevrolet, where Mr. Bible bought his car. In my view, Mr. Bible's purchase illustrates that the American automotive industry still offers products that are beyond compare, and I ask to submit into the RECORD a letter I wrote to Mr. Bible commending him on this accomplishment.

The letter follows:

U.S. SENATE,
Washington, DC, November 25, 1991.

Mr. BUFORD BIBLE,
Knoxville, TN.

DEAR MR. BIBLE: Mr. Lonas Tarr has informed me that you recently purchased your 35th Chevrolet from Tarr Chevrolet. This purchase is indeed an historic milestone, and I would like to take this opportunity to commend you on this accomplishment.

As an educator, you have been a role model for generations of Tennesseans, and your career was certainly a successful one. In this time of increasingly stiff competiton in the automotive market, once again you offer a shining example for all of us to follow.

I have heard many complain that American industry no longer offers quality products at an affordable price, but I believe that American products meet and often surpass world standards of quality. With your 35th Chevrolet, you prove that American industry is still second to none, and I challenge all Americans to follow your lead.

I have known Lonas Tarr for a number of years. I am sure that the service you received at his dealership over the last 40 years has been beyond compare. It is this effective relationship between salesman and customer on which this nation was built. Satisfied customers—like you—reflect the capitalist ideal and are the engine for an American democracy that is the envy of the world.

Once again, I would like to commend you on purchasing your 35th Chevrolet. I would welcome the opportunity to be of assistance to you or your family should the occasion arise.

Best wishes and keep in touch.

Sincerely,

JIM SASSER,
U.S. Senator.•

UNIVERSITY OF FLORIDA WINS FIRST OFFICIAL SOUTHEASTERN CONFERENCE FOOTBALL TITLE

1991 IS THE YEAR OF THE GATOR

• Mr. MACK. Mr. President, on Saturday, November 16, the University of Florida Fightin' Gator Football Team won its first official Southeastern Conference Football Championship.

From its humble beginnings in 1906 to the present, the University of Florida football program has had a rich and proud history. And now, this 1991 team has built on the enthusiasm and excitement of the last 85 years of gridiron competition and started a new chapter in the annals of Florida football.

Not only is this SEC championship special for the players and coaches who won it on the field, but it's also a moment to savor for the many past and present Gator fans who have lived and died Florida football.

It is also important to note that 25 years ago this season, for the first time a player from the University of Florida won college football's most distinguished honor—the Heisman Trophy. That same legend, Steve Spurrier, has now returned as coach to lead his alma mater to its first official SEC championship. Both as a player and now as a coach, he has brought excitement and excellence to Florida football.

This is indeed a joyous occasion for Gator fans in Florida and around the country. After 58 years of disappointment and frustration and "Wait 'til Next Year" in SEC football competition, the orange and blue can truthfully say with pride that 1991 is "The Year of the Gator."

As the Senator from Florida and an alumnus of the University of Florida, I would like to extend my congratulations on a job well done to the players, coaches and staff of the 1991 fightin' Gators.

WORKER'S FAMILY PROTECTION ACT

• Mr. GLENN. Mr. President, I rise today to join my colleagues in cosponsoring S. 353, the Workers' Family Protection Act of 1991. This legislation addresses the growing problem of employee transported contaminant releases, a issue which has received very little attention. By providing grants for further research, hopefully we can ascertain the effects of such contaminant releases and then work to address a solution for this problem.

In the past, I have sponsored many bills which would protect employees who work with hazardous materials. But we have not adequately addressed the issue of the home. Knowing that chemical compounds such as lead and mercury have dangerous effects on people, we need to ensure people are properly protected from such toxins. Families remain in the dark about the possible risks of this toxic contamination. In fact, we ourselves do not know the magnitude of this problem. As my colleague from Vermont and sponsor of S. 353 pointed out, we have not studied this problem since the 1970's.

S. 353 will ease the family's anxieties by sponsoring additional research. With such information we will have the information not only to answer the queries of families, but also to solve the problem of contamination releases.

Mr. President, we cannot afford to ignore such a problem with the health of so many on the line. Under the Workers' Family Protection Act, we can finally gather the information needed to prevent these poisons from entering the home.•

OUTSTANDING SCHOOL NURSE OF 1991—BEVERLY ANN SHIPE

• Mr. D'AMATO. Mr. President, I rise today to pay tribute to Beverly Ann Shipe who has been selected Outstanding School Nurse of 1991 by American School Health Association.

Beverly Ann Shipe is a teacher/practitioner school nurse in the Sweet Home School District in Amherst, NY. Mrs. Shipe functions as a school nurse

VOL 137 PT 24 NO 26 1991 — JA 3 1992 UMI

practitioner in an expanded role, and as an elementary health education teacher.

Beverly Ann received her R.N. and B.S.N. degrees from D'Youville College in 1976. She went on to complete the School Nurse Practitioner Program at SUNY, Buffalo. She earned her M.S.N. degree in 1983. She is a New York State Board of Regents certified School Nurse Teacher and holds two national board certifications: School Nurse Practitioner from the American Nurses Association and Pediatric Nurse Practitioner from the National Certifying Board of Pediatric Nurse Practitioners and Nurses. She is a fellow of the National Association of Pediatric Nurse Associates and Practitioners.

Mrs. Shipe is a recipient of many prestigious awards including the National Association of School Nurses' Lina Rogers Collaborative Research Award, 1991 New York State Legislature Nurse of Distinction Award, and the 1986 Metropolitan Life Foundation Excellence in Health Education Initiative Healthy Me Award; among others.

She is the organizer of many health-related activities and health fairs. Mrs. Shipe believes that providing a positive clinical and educational experience in school can help interdict many of the social and health-related problems in society today.

For these and many other great contributions that Beverly Ann has made and continues to make in the lives of our young people I salute her and wish her well. Thank you, Beverly Ann and thank you, Mr. President.●

AMBASSADOR SMITH HEMPSTONE

● Mr. SIMON. Mr. President, the situation in Kenya has deteriorated.

But the one thing that Americans should note with pleasure is that our Ambassador, Smith Hempstone, has stood up courageously and forthrightly for the cause of human rights and the cause of democracy in that country.

Obviously, the hope of all of us is that President Moi will recognize that change is coming and will lead on that change and permit it to take place. He should do it graciously, as President Kaunda did in Zambia.

I confess that when Smith Hempstone was named, I was not that enthusiastic. While I continue to differ in political philosophy from Smith Hempstone, I recognize that he has shown skills and courage that a more traditional foreign service officer might not have.

He has not softened his message in any way, calling for democracy and freedom for the people of Kenya, and I applaud him for that.●

HONORING THE EMPLOYEES OF THIOKOL CORP., SPACE OPERATIONS

● Mr. HATCH. Mr. President, I rise today to honor the fine employees of Thiokol Corp., space operations, Ogden, UT. Recently, NASA awarded the George M. Low Trophy to this outstanding Utah company for its achievements in quality and productivity improvement and total quality management. This award recognizes the best NASA contractors who work on the space program. The award criteria, developed by NASA in conjunction with the American Society for Quality Control, were used to judge nominees on performance achievements and improvements in customer satisfaction, quality, and productivity levels. Thiokol Corp., documented four areas of excellence for consideration by NASA: First, continued high reliability of the space shuttle solid rocket motors; second, increased quality of products and services; third, dedicated employees and suppliers and; fourth, commitment to continuous improvement.

Mr. President, Thiokol's rocket motor redesign, which produces most of the thrust for the space shuttle liftoff, and its reliability that has proved dependable in more than a dozen flights since 1988, and the high quality of its products and services, all show the extremely high commitment and devotion of Thiokol's employees. The George M. Low Trophy is the highest award that NASA presents to its contractors, and I am extremely proud of the fine men and women of Thiokol Corp., who have brought honor to the corporation they work for and the great State of Utah in which they live.●

AMERICAN JEWISH COMMUNITY SUPPORT FOR LAND-FOR-PEACE IN ISRAEL

● Mr. WELLSTONE. Mr. President, the Middle East peace conference which opened in Madrid last month represents an historic opportunity to bring peace to a troubled region. Simply by sitting down together and listening to one another, the protagonists have taken the first step toward a durable and peaceful settlement between Israel, the Arab States, and the Palestinians. I commend President Bush and Secretary of State Baker for the skill and dedication they demonstrated in getting this peace process underway.

The next step in this process requires hard negotiations between Israel and the Palestinians and her Arab neighbors. Peace cannot be imposed from the outside by the United States or anyone else. However, Israel's future concerns all Americans, as well as Jews the world over. American Jews, in particular, have given Israel crucial financial, moral, and political support since her founding.

Many leaders of the American Jewish community ardently hope that the Israeli Government will seize the current opportunity to engage in meaningful negotiations with the Palestinians. Two hundred American rabbis last week presented Prime Minister Yitzhak Shamir with a letter urging him to freeze Israeli settlement activities in order to advance the peace process. The Prime Minister was in the United States to address the annual meeting of the Council of Jewish Federations. A survey of officers and board members of the council revealed that a majority of these Jewish leaders believes that Israel should accept an eventual demilitarized Palestinian State, and swap land in return for recognition of Israel by their Arab neighbors.

Mr. President, I want to draw the attention of my colleagues to the views of these two influential segments of the American Jewish community. I request that the text and signatures of the rabbis' letter to Prime Minister Shamir, and a Washington Post article on the survey of Council of Jewish Federation leaders, are printed in the CONGRESSIONAL RECORD.

The material follows:

[From the Washington Post, Nov. 21, 1991]

POLL FINDS DISAGREEMENT WITH SHAMIR'S POSITION

(By John M. Goshko)

A significant number of American Jewish community leaders strongly disagree with Israel's unwillingness to seek a Middle East peace settlement that would be based on giving up Israeli-occupied territory, according to a survey made public yesterday.

The survey covers the views of 205 of the more than 300 officers and board members of the Council of Jewish Federations, who are holding their annual meeting in Baltimore. The council is the umbrella for 153 local federations serving Jewish communities throughout this country.

Israeli Prime Minister Yitzhak Shamir is scheduled to address the conference today, following a tradition in which Israeli prime ministers have appeared at the conference in recognition of the council's large role in American Jewish life.

However, according to the survey, the audience that Shamir will be addressing this year disagrees with his refusal to freeze Jewish settlements in the West bank and the Gaza Strip, and the group believes Israel should accept a demilitarized Palestinian state and swap land in return for recognition of Israel by Arab neighbors.

While American Jews differ about specifics of the Middle East peace process, past polls have indicated that most favor a settlement based on "land for peace." Nonetheless, the major American Jewish organizations have been reluctant to express their reservations about Shamir's hard-line policies out of a sense of solidarity with Israel.

Organizers of this most recent survey said yesterday that the start of a renewed peace process, begun at talks in Madrid last month, has put added pressure on Israel to show more flexibility and has made American Jewish leaders willing to differ more openly with Shamir. They also said that many American Jews want to avert a clash between Israel and President Bush, an outspoken foe of additional Israeli settlements in the occupied territories.

This week, 200 American rabbis wrote to Shamir calling on him to freeze settlements.

The survey was conducted for the Los Angeles-based Wilstein Institute of Jewish Pol-

icy Studies, which is associated with the conservative branch of American Judaism. The questionnaire was designed and analyzed by Prof. Steven M. Cohen of Queen's College in New York and Prof. Seymour Martin Lipset, a political scientist now at George Mason University.

At a news conference yesterday, Lipset said telephone interviews with prospective attendees at the Baltimore meeting revealed that the 205 who responded are largely business people and professionals with a median age of 55 and a median annual income of more than $200,000; they are highly knowledgeable about Israeli affairs, give an average of more than $20,000 a year to Israel and regard themselves politically as liberal to middle-of-the-road.

Lipset characterized the respondents as "security-oriented doves" who are near-unanimous in agreeing that Israel's safety requires a strong military, including forces in the occupied territories, for many years to come; Jerusalem must remain Israel's undivided capital; and Arab refusal to accept the Jewish state's legitimacy is "the major obstacle to peace."

At the same time, a large majority endorsed a freeze on settlements in exchange for U.S. loan guarantees and most disagreed with Shamir's opposition to returning even "one inch" of occupied territory. A substantial majority also differed with Shamir's categorical refusal to eventually allow a Palestinian state and to conduct negotiations with the Palestine Liberation Organization if it recognizes Israel and ceases terrorism.

AMERICANS FOR PEACE NOW,
November 21, 1991.

DEAR PRIME MINISTER YITZHAK SHAMIR: We, American rabbis who are deeply committed to the State of Israel, its survival, security, and well-being, extend a warm welcome to you.

Like our ancestor Jacob in this week's portion of the Torah, Parashat Vayishlah, you, as Prime Minister, and we as the Jewish people, stand at a crossroads of Jewish History. Like Jacob—crossing the ford of Yabbok and preparing to reconcile with Esau, and achieve his new name and destiny as Israel—historical opportunities present themselves to Zionism, our thousands' years hope. We urge you for the sake of Zion and Jerusalem to listen to the voices of the majority of American Jews and the majority of Israelis who in their hearts hold the following beliefs:

A greater Israel is not identical with the size of its boundaries. Israel's security is the most crucial issue. Territorial compromise that enhances the possibility of peace and long-term security is for us a religious obligation, not a political expediency and not a weakness. Netzach Israel (the eternity of Israel) is a moral principle, not a geographical issue.

Furthermore, the resettlement of our brothers and sisters from abroad means more to us than the settlements in the West Bank and Gaza. Continued settlement activities are not only detrimental to the peace process, but also to the successful absorption of the new Olim in Israel. Therefore we encourage a freeze on settlements.

The opening of the peace conference reminded us that our enemies are still our enemies, that living together with Esau remains a future hope. Therefore, all the more reason to follow Jacob's example and Sarah's wisdom and accept the principles of separation of the two people and partition of the land. This is the only realistic hope, it is the historic path of Zionism and the wishes of the majority of Israelis, American Jews, the world community, and finally, after years of rejectionism, of the Palestinian people too.

As American Jews and religious leaders, we are acutely aware of the unique and vital role the U.S. government holds regarding the peace process. Therefore we strongly support the efforts of our government to bring about a durable and peaceful settlement between Israel, the Arab states, and the Palestinians. As in the case of the Camp David Accords, we will support positive U.S. incentives to all parties to bring about a reconciliation.

We respect your strength and congratulate you for your perseverance in leading Israel to the peace conference. The ultimate priority of peace may lead you and the Israeli people to take substantial risks with regard to territory. If this is your course, you will have the overwhelming support of the Jewish people.

This week's Torah portion concludes with Esau and Jacob reuniting to attend to the burial of their father Yitzhak. We hope and pray that the legacy of Yitzhak Shamir will also be one of peacemaker.

TRIBUTE TO MINNESOTAN JOHN BERKEY, 1991 CHRISTMAS STAMP DESIGNER

● Mr. DURENBERGER. Mr. President, it is with pride that I rise today in honor of Minnesotan John Berkey, designer of the 1991 Christmas stamp. Millions of Christmas greetings will be received in homes across the Nation during this holiday season and attached to those cards and letters will be John's contemporary designs of Santa in a variety of Christmas scenes.

This year's Christmas series marks a continuation of a successful career for John Berkey. In addition to holiday stamps, John has been commissioned by the U.S. Postal Service to design the 1983 Christmas stamp as well as the recently issued Hubert H. Humphrey postage stamp. A resident of Excelsior, MN, since 1941, John's artwork has been seen by millions of Americans in films as well as his sketches and paintings. Anyone picking up the upcoming book "Painted Space" will easily recognize John's work.

Mr. President, again I salute John Berkey on being chosen as the designer of the 1991 Christmas stamp, and I thank him for allowing us to share in the gift of his marvelous talents.●

LIFE STORY: BURDENS, DREAMS MINGLE FOR INMATE, 20

● Mr. SIMON. Mr. President, crimes are not committed in some vacuum. I do not suggest that criminals should not be punished for their actions, nor should we say that society is always to blame and, therefore, we have to treat those who commit crimes with great leniency.

But just as we have been told that unemployment is a major cause of alcohol and drug abuse, social conditions create other crimes.

Recently, I read an article of one prison inmate written by Bill Smith of the St. Louis Post-Dispatch.

It is a moving story, and it is a reminder that we have to pay attention to our social problems if we are to significantly reduce the crime problem.

I ask that the article be printed in the RECORD at this point.

The article follows:

[From the St. Louis Post-Dispatch, Nov. 19, 1991]

LIFE STORY: BURDENS, DREAMS MINGLE FOR INMATE, 20

(By Bill Smith)

Sometimes, on these cold November afternoons, Richard Perry says, he will sit and read to his friend inside the stark third-floor walls of City Hall.

"You got to start off with the easy books," said Perry, who is jailed on a murder charge. "I've been reading him a book called 'Lady Bug' from the library. It's a little cartoon book about kids and animals. I try to teach him the words.

"We'll watch a little TV, or play some spades or some checkers. Some of us play chess; Donald doesn't play chess."

On November 19, Donald Earl McCarthy will turn 21.

He can't read.

He can't write.

He doesn't know the name of the president of the United States.

He never has held a steady job.

Nov. 19 will mark his 94th straight day as a prisoner of the city of St. Louis—the 94th day since police discovered him and his younger brother hiding atop a walk-in cooler inside Flayer's Tavern. It was 4 a.m. on a warm August morning, and he had $14 stuffed in his pockets—all in quarters, dimes and nickels.

"I ain't going to lie about it," he said in an interview. "We went in there to get some money."

In nine days, Donald McCarthy legally will be a man.

He doesn't have a drivers license.

He is deaf in one ear and hearing impaired in the other.

His speech is crude, slurred and difficult to understand.

If he could travel anywhere in the world, he said, "I think I'd go to a bingo game.

"Do you think," he asked a reporter, "that I could get out for my birthday? I'd like to go to see a movie—maybe the one about that little dude who got in all that trouble at Christmas. I saw a thing for that one in the newspaper."

He spent part of last summer living in a storage shed in Lawrence Cooley's junkyard in the Cote Brillante neighborhood, eating White Castle hamburgers when he could get some money and earning a few dollars by helping Cooley and the boys load old tires onto trucks.

He's a good little worker, but I can't be responsible for him," Cooley said. "You got to watch him so he don't hurt himself.

"He'll call from jail almost every day, asking me, "if he get out can he have a job."

His mother and his stepfather say they can't scrape together $250 to pay his bond. They don't even have enough to pay this month's rent, said John Alsup, McCarthy's stepfather.

They are too poor, they say, to put gas in the family's old truck to drive the five miles to the jail to visit their son.

Maybe she can visit on Sunday, his mother said, "if something doesn't come up."

Last month, the couple said, they had to get an unlisted telephone number so Donald would stop calling them collect from the jail. "We owe the phone company $303 from last month," his stepfather said. Inmates' calls are collect, even in town.

"He's not a kid any more," said John Alsup. "Sometimes, I think he's a genius. He can fix old radios nobody can figure out. He can fix cars nobody can figure out."

GUILTY PLEAS AND APOLOGIES

In a year plagued by murder and other violence in the city, the people who know Donald McCarthy say he is anything but violent.

"He's not a hardened criminal; he's too fragile," said Bob Fleming, manager of Flayer's. Fleming was there that August morning when police brought Donald McCarthy out of the tavern.

"There's not a doubt in my mind that that kid can be rehabilitated. But he's got a lot of strikes against him."

Paul Thornton operates a hauling and salvage company in the city and has known McCarthy for several years.

Says Thornton: "He isn't a bad fellow.

"He'd take a battery charger or a TV from the shop, and his little brother would come and tell us about it. And then Donnie would bring the stuff back, and he'd apologize for taking it.

"He wants to learn; if somebody would just take the time."

Donald McCarthy is in the most serious trouble of his young life.

And he knows it.

On Thursday, he stood in Judge Anna C. Forder's courtroom and admitted that he had broken into the tavern.

Yes, he told the judge, he knew that he had a right to trial by jury.

Yes, he said, he knew he could go to prison.

The circuit attorney's office is asking for seven years.

His public defender is asking for probation.

Records say McCarthy is 5 feet 8 inches tall and weights 140 pounds. But in the big courtroom on Thursday, he seemed much smaller.

Forder leaned across the bench and spoke loudly to him to make sure he could understand.

It was the third time in three years that McCarthy had stood before a judge and pleaded guilty of a theft-related charge. In December, he pleaded guilty of stealing a truck, although he says now that he can't remember that incident at all.

Two years earlier, in July 1988, he pleaded guilty of second-degree burglary for breaking into a city service station.

"I wanted to get some tools so I could work on cars and make some money; I know I shouldn't have done it," he says.

Sometimes, he says, he lies in his bunk late at night and remembers back to a day some 10 years ago when he was struck by a car while playing baseball near Elliot School.

"I think I might go in front of a car again and get killed," he said. "What else is there to do?"

"SLOW LEARNER" TO DROPOUT

Donald McCarthy's childhood—at least a part of it—is in his city public school file. School officials made the file available to a reporter after McCarthy and his family gave their permission.

When he was 5, a psychological examiner with the school system labeled him a "slow learner." One test reported an IQ of 50, indicating moderate retardation. A second showed an IQ of 72, indicating a more mild retardation.

As a 6-year-old special education student at Stix School, he was described by a teacher as "a small boy who is very unhappy."

"It would appear that he wants much attention at school. Does try to please teachers by running tasks, cleaning up classroom."

His personal appearance was described as poor. "He comes to school every day with dirty face and hands," says the evaluation.

"Seldom smiles."

In 1979, at the age of 9, records show, Donald and his two brothers were placed in foster care for a year and a half as a result of suspected child abuse.

His mother and stepfather said it was a drummed-up charge.

"They came in and sprayed green stuff on the food so it looked like mold," said Victoria Alsup, McCarthy's mother.

In September 1984, when Donald was 13, a school psychologist at Blewett Middle School wrote:

"Tires quickly, daydreams, is usually preoccupied, does not make friends, lacks self-confidence, gives up easily, withdrawn, overconforms, unable to express ideas, depressed, worried, does not trust others, disoriented, overly dependent, poor grooming * * *"

He was reading at a primer level; his mathematics ability was at a first-grade level. A speech therapist noted that he had a severe speech impairment. "Speech is unintelligible to the casual listener," the therapist wrote. An intelligence test showed him with an IQ of 55; 100 is normal.

A final report is dated April 28, 1986. It was one month before Donald McCarthy would leave Blewett Middle School. The next summer he would be enrolled at Vashon High School.

That final report showed that he was reading at a first-grade level. "The student is functioning within the range of mildly handicapped abilities."

The report showed that at least three attempts had been made to reach his parents. After each attempt there is the notation, "Negative response."

In the fall of 1986, Donald McCarthy said, he was in his first high school class as a special education student at Vashon when the teacher asked the class to read and answer some questions in a textbook.

He says he raised his hand and said he could not read; he says the teacher took him to the principal. He says he never went back to that class.

He only went to school sporadically for the next two and a half months. When he turned 16, Donald McCarthy left school for good.

After all, he said, his older brother had done the same.

DREAMS AND A DAY IN COURT

Her older son, now 24, "can't read or write either," Victoria Alsup said.

He knows he faces a tough, uphill battle, Donald McCarthy says, but there are still things he wants to do one day.

"I don't want to go to the penitentiary," he said. "I want to go back to the junkyard. Or I want to go back home to live with my mom and dad.

"I could live in an apartment," he said, "if I could get somebody to come in and cook for me."

Before his arrest, McCarthy did work for neighbors in the area near the old water tower on North Grand, where his family lives.

"If he gets out," his mother said, "I want to get him in with the Job Corps."

But he has his own ideas, too.

"If I can get out of there, I want to get me a garage, some place in the city and work on cars and whatnot. I have a dream about that—me working on cars and making some good money. Have my own tow truck. when somebody calls up on the phone, I can go out and get them."

Now, though, Donald McCarthy plays checkers and looks at the pictures in hot rod magazines. "I could get an old car at the junkyard for $50 and fix it up real nice," he said.

Sometimes, when he gets a few dollars from his parents, he buys popcorn and candy bars.

His parents get $407 a month in Social Security for Donald as a result of his retardation, his mother says. They also get $407 for their daughter, 11. That is the family's total income, they said. They say they wish they could save enough to post bond for their son, but it's just not possible.

"We just got the checks at the first of the month," John Alsup told McCarthy on the phone last week, "and it's gone already."

Except for a reporter and his public defender, he has had no visitors in the three months he has been shuttled between City Jail and the Workhouse.

Still, he knows the visiting hours.

"To 5:45 to 7:45 on Mondays and Fridays; to 12 to 2 on Wednesdays.

"Do you think you could get my mom and dad's phone number? Do you think you could ask them to visit me?

"Sometimes I get mad," he said. "Sometimes I think why nobody can't bond me out.

"Yeah, I know whose fault it is that I'm here. It's my fault. I know that."

He can see the cars come and go through the cloudy, barred windows. He can see the people on the sidewalks, hurrying from one building to the next.

Sometimes, he says, it seems like summer was just yesterday. Soon it will be Thanksgiving and then Christmas.

He doesn't know where he will be on Christmas.

"It's in judge Forder's hands," said public defender Janis Good.

Donald McCarthy is scheduled to be sentenced on Dec. 13—a Friday the 13th, Judge Forder noted as she marked it on her calendar.

"I don't like that," Donald McCarthy said. "I don't like Friday the 13th. It's bad luck.

"My mom and dad don't even go out of the house."●

TRIBUTE TO MISSOURI'S ENVIRONMENTAL IMPROVEMENT AND ENERGY RESOURCES AUTHORITY

● Mr. BOND. Mr. President, I rise today to pay tribute to Missouri's Environmental Improvement and Energy Resources Authority, which along with the University of Missouri Extension, was recently recognized with a 1991 Presidential Envoronmental Conservation Challenge Award.

The working partnership between EIERA and University of Missouri Extension culminated in the household hazardous waste project, which was created to inform the citizens of Missouri about the importance of safe disposal and storage on hazardous waste products from household chemicals. The project has helped increase awareness of the dangers that can result from improper use and disposal, and contribute to a safer environment. The household hazardous waste project began as a grassroots community effort that was expanded statewide due to the hard work and efforts of the EIERA and University of Missouri Extension.

We are proud that Missouri's efforts to increase community awareness on this important issue have resulted in the household hazardous waste project being adopted as a nationally recognized model used by the United Nations and countless others. On behalf of my fellow Missourians, I congratulate our Environmental Improvement and Energy Resources Authority and the University of Missouri Extension on the national recognition their efforts have earned.●

CBO ESTIMATE ON S.J. RES. 23

● Mr. JOHNSTON. Mr. President, on September 20, the Committee on Energy and Natural Resources reported Senate Joint Resolution 23, to consent to certain amendments enacted by the legislature of the State of Hawaii to the Hawaiian Homes Commission Act, 1920. The committee submitted a report on this resolution but the budget impact estimate from the Congressional Budget Office was not ready at the time of the submittal. That estimate has now been received by the committee and I ask that it be printed in the RECORD.

The estimate follows:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, November 25, 1991.

Hon. J. BENNETT JOHNSTON,
Chairman, Committee on Energy and Natural Resources, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office has reviewed S.J. Res. 23, a joint resolution to consent to certain amendments enacted by the legislature of the State of Hawaii to the Hawaiian Homes Commission Act, 1920, as ordered reported by the Senate Committee on Energy and Natural Resources, November 20, 1991. Enactment of this resolution would result in no cost for the Federal Government or for State or local governments. Enactment of S.J. Res. 23 would not affect direct spending or receipts. Therefore, pay-as-you-go procedures would not apply to this bill.

S.J. Res. 23 would grant the consent of the United States to a number of amendments to the Hawaiian Homes Commission Act, 1920, already adopted by the State of Hawaii. These amendments generally concern the administration and development of the Hawaiian home lands.

If you wish further on this estimate, we will be pleased to provide them. The CBO staff contact is Marjorie Miller, who can be reached at 226-2860.

Sincerely,

ROBERT D. REISCHAUER.●

VETERAN OBSERVANCE OF PEARL HARBOR

● Mr. D'AMATO. Mr. President, it is incumbent upon all of us to remember Pearl Harbor today, November 26, 1991. It was 50 years ago today that six Japanese aircraft carriers, and a full complement of cruisers, destroyers and support vessels set sail from Hitokappu Bay led by Admiral Chuichi Nagumo's flagship, the *Akagi*, on their way to that day of infamy at Pearl Harbor.

While a pressing prior commitment precludes my attendance at the Syracuse, NY, VA Medical Center observance of the 50th anniversary of the raid on Pearl Harbor, I want to join in their observance by recalling that day.

It has been 50 years since that fateful day when the dreaded news of death and destruction reached our parents, grandparents, and other relatives. The surprise attack by the Imperial Japanese naval air forces upon our naval base at Pearl Harbor and the airfields around the island of Oahu was to shake the world as we knew it to its very foundation. Reactions to the news varied from disbelief, shock, and surprise to anger. Later, these feelings would translate into a sense of mission, duty, and responsibility which would drive the American war machine and keep the recruitment offices jammed with volunteers.

The raid on Pearl Harbor is an event which will be forever ingrained in the hearts and minds of all of us old enough to remember. The war is over, but we shall never forget. We shall not forget the destruction and sorrow of the day which drew us into World War II. Today as we remember that "day of infamy," let us also remember that we fought for peace, for a lasting peace that will carry us through in future generations.●

THIRD COUNTRY MEAT DIRECTIVE—S. 1738

● Mr. COATS. Mr. President, today, I rise in support of S. 1738. The so-called third country meat directive bill. This bill, in my opinion does a great deal to make the point that we in the United States—lawmakers, processers, farmers, and consumers—are serious indeed about promoting and insisting upon fair trade practices.

For many years, the European Community has had in place what it calls the third country meat directive. By their standards, this directive seeks to restrict U.S. meat and meat products processed in plants which do not meet the standards of the directive. Mr. President, in my opinion, this is no more than a clever name for an unfair nontariff trade barrier.

The third country meat directive is an arbitrary standard arranged and rearranged to meet the import needs of the day by the European Community. Unfortunately, of late, there seems to be very little need for U.S. meat products in the European Community. Last year the United States exported 809,386 metric tons of meat and meat products—only a small percentage of which went to the European Community. By contrast, the United States in 1988 imported nearly 6 million metric tons of European Community meat and meat products.

I have been pleased to see that recently, the European Community has decided to relist 14 meat processing plants as eligible to ship meat and meat products to the European Community. This is a move in the right direction. However, it is not a move far enough. We must move to eliminate all trade barriers, especially those which are unfair and unnecessary.

As I have traveled across the State of Indiana, I continue to hear from pork producers, sheep producers, poultry producers, and cattlemen, who just want the opportunity to compete in a fair and impartial fashion. They are not asking to automatically be declared the winner, only to compete on a level playing field. It is their feeling, and mine I might add, that if we play with even odds that the Hoosier farmer and the American farmer will prevail.

S. 1738 seeks to bring this misalignment a little bit more in line. Specifically, it will prohibit the import of meat products from the European Community until these unfair trade barriers are removed. It is for this reason, that I join as a cosponsor today of S. 1738.●

INTERNATIONAL COMPARISONS OF SCIENCE AND MATHEMATICS ACHIEVEMENT

● Mr. HATFIELD. Mr. President, in recent weeks, I have been following a disturbing colloquy that is taking place in the print media. I refer to the sequence of articles claiming that the achievement of U.S. students is or is not at tragically low levels, particularly in international comparisons.

When systems analysts at the Sandia National Laboratories examined data on the status of United States education, they represented an objective outsider perspective. Their conclusions, which ran counter to others that report dreadful crises in American education, were quashed by the administration for being a call for complacency at a time when just the opposite is required. One antonym of complacency is "panic"—as in fear, trepidation, or hysteria—which I doubt was being advocated.

Other parties joined in the see-saw dialog. Testing experts issued their analyses of international testing procedures and test results, challenging the validity of international rankings. The Department of Education insisted that those claims are foolish, since U.S. students definitely lag in math and

science achievement. A research psychologist, highly profiled in this analyses of the gloom and doom critics of U.S. education, was hired by a leading education association then released when he continued to participate in the media coverage.

Both sides of these public conversations have made significant contributions to advances in mathematics and science education in the Nation. Both sides have displayed their confidence in the commitment of American educators to improving the substance, content, delivery, and environment of schooling. So, as an outdated commercial inquired, "Where's the beef?"

Mr. President, my own beef with this situation—perhaps I should say my concern, disappointment, or distress—is with what I think are unintended consequences of some of our official reporting on and resulting media coverage of the status of U.S. students. The Washington Post quoted the coordinator of the 1993 international comparison of mathematics and science achievement as saying:

> I find it scary when I look at a magazine and see a graph ranking countries with virtually no explanatory material. The graph makes it look like the Japanese system is wonderful and the United States system is the pits.

Even if there were explanatory text, we all know that people often look at a graph and ignore the written analyses. That's a fundamental technique of advocacy: Present your data in eye-catching pictorials that back up your position,

That's my concern: What is our position regarding American precollege education? What are we advocating?

First, I must comment that there is a continuum connecting the extreme perspectives of complacency and panic. It's not a case of either one or the other. Second, the public quibbling between researchers and government officials does nothing to enlist the general public's support for educational improvement efforts. And, third, to my regret, I am compelled to point out that the fourth national educational goal adds fuel to this debate and that it is inconsistent with the other five goals.

The fourth goal states, "By the year 2000, U.S. students will be the first in the world in science and mathematics achievement." This is the only national education goal that imposes an external comparison; the other five commit the Nation to improving our status quo in school readiness, graduation rate, academic competency, literacy and citizenship, and freedom from drugs and violence. The other five goals embody an American tradition: We can always do better.

If an industry spokesman were to predict, "By the year 2000, the U.S. automobile industry will be the first in the world," or an alumnus, "By the year 2000, the Willamette Bearcats will be the best football team in the world," people may jeer good-naturedly but will recognize the bravado as statements of hope. If officials claim, "By the year 2000, the military power of the United States will be the strongest in the world," or "By the year 2000, the American space exploration program will be the most advanced in the world," listeners might just shrug while advocates would point to missiles or missions.

I am certainly not opposed to U.S. students being the first in the world in science and mathematics achievements. My legislative history will confirm the leading role I have to support math-science education. However, I don't consider first in the world to be a valid goal, for a very fundamental reason. The National Assessment of Educational Progress is expending enormous efforts to develop valid instruments to measure mathematics and science achievement in just our own country, instruments that are as valid in the schools of Evanston as in the Andrews school district in Princeton, OR, which consists of only one school with 6 students. How much more complicated it must be to ensure validity in international comparisons!

The third national goal includes mathematics and science among the challenging subject matter in which American students will demonstrate their competency in grades four, eight, and twelve. Just as importantly, the third goal also includes competency in English, history, and geography. This is the goal I support. We must establish competency standards and see whether our students progress toward them. In the process, if they somehow produce the best test results among fourth graders in the world, that's icing on the cake. But that would still not make them the first in the world. It would just make their test scores the highest.

The mathematics and science education communities, through their professional societies, have made great investments of membership funds and time for improvement efforts. It is ironic that these are the groups whose so-called failures are pointed to by writers who use international test scores as weapons of aggression. The math teacher groups have developed national standards for curriculum, teacher preparation, and teaching. Those standards are now being used to frame training activities and conferences across the country. Science teachers have also begun the process of developing similar standards for science education. Partial funding, in fact, have been given to these activities by the National Science Foundation and the Department of Education.

Another significant achievement in this country is that a greater percentage of students stay in school for longer portions of their lives than in any other country in the world. Our higher education system of universities, liberal arts colleges, community colleges, and technical institutions is unmatched in the world. We are also the only country on earth to mention nontraditional students in our academic literature and in legislation, making the expansion of educational opportunities well beyond the teen years.

I am convinced that we must work together to continue to improve our schools. I will keep reading newspapers and journals to see whether other educators, policymakers, and bureaucrats share my belief or whether they will continue their campaign to convince the Nation of the mediocrity of U.S. students in mathematics and science.

Mr. President, I ask that a recent article in Science summarizing this situation be printed in the RECORD.

The article follows:

QUESTIONS RAISED ON MATH RANKINGS

(Edited by Constance Holden)

A reversal of the old question "If you're so smart why aren't you rich?" has been posed by a National Science Foundation official: If our science education system is so rotten, how come the United States still enjoys overwhelming dominance in scientific productivity?

Iris C. Rotberg, writing in a National Academy of Engineering publication, The Bridge, says the answer may be that international comparisons of student achievement in science and math have been providing "highly misleading indicators" of the actual quality of education systems and student expertise.

Rotberg, a program director with the Directorate for Education and Human Resources, argues that a major problem stems from sampling biases: The percentage of teenagers enrolled in high school is much higher in the United States than in many other countries—and the less selective the test-taking population, the lower the scores will be. By the same token, distortions are imposed by huge variations in the proportions of students who take advanced math courses. For example, according to the International Association for the Evaluation of Educational Achievement, Hungary ranks near the top in 8th-grade math achievement. But by the 12th grade, the country falls to the bottom of the list because it enrolls more students than any other country—50%—in advanced math. Hong Kong, in contrast, comes in first, but only 3% of its 12th graders take math.

Rotberg says these problems also affect the Educational Testing Service's [ETS] International Assessment of Education Progress, initiated in 1988. In the first project, only six countries participated, sample sizes were small, and there was no way of knowing if the results reflected differences in students' socioeconomic status rather than differences in the quality of schooling. Rotberg says sampling problems have gotten even more complicated with the recent expansion of the project to 20 countries. In some countries—particularly poor ones, where many students have already left school by the 8th grade—only the elite will be sampled, while countries attempting to democratize education will appear to fall short. Logistical decisions—like including only Mandarin-speaking Chinese in the China sample—also result in an elite bias. The solution? "Let's focus our attention on the difficult public policy issues . . . rather than on comparisons and rankings," says Rotberg.

Both the Department of Education and the ETS disagree with Rotberg and other critics. According to The Washington Post, Diane S. Ravitch, assistant secretary for educational research and improvement, argues that in the first ETS assessment, 99% of the teenagers in all the countries surveyed were in high school. Archie Lapointe of ETS is quoted as saying the surveys "don't overstate anything * * * The fact is students in other countries do better than our students in mathematics."

HUMANS, NOT MASCOTS

• Mr. SIMON. Mr. President, I am one who has long been offended by the use of the term "Redskins" or anything like that for team mascots.

I got into difficulty in Illinois when I publicly said I favored moving away from Chief Illiniwek as the University of Illinois symbol. But I'm pleased to say that the discussion that caused has done some good. The student senate at the University of Illinois voted 34–2 to change the mascot, and I am sure one of these days the University of Illinois is going to be sensitive enough to do that.

I hope that others, including the Washington Redskins, will do the same.

Recently, the Lakota Times, published by Tim Giago in South Dakota, had an editorial on this question.

For those who may wonder what the feeling of American Indians is on this question, this editorial is a clear answer.

I ask unanimous consent that it be printed in the RECORD at this point.

The editorial follows:

[From the Lakota Times, Nov. 13, 1991]

WE ARE HUMANS, NEVER MASCOTS

Most readers of the Lakota Times are now aware of the overt racism that still abounds in America, evidenced by the bitter comments hurled at those Indians protesting the use of Indian tribes and Indian names for baseball and football teams.

Last week's Lakota Times had a very profane letter written by a woman from Phoenix, Ariz., that really came down on Indians for speaking out about this strangely American phenomenon of naming a football team after the color of a people's skin. She vented her spleen against us.

But that just shows there is a pervasive ignorance about this topic and that we must begin to educate the rest of Black, White, Brown and Yellow America about the fact that although we are referred to as Redskins, Redmen, etc., We are not mascots, we are human beings.

As long as we have those members of our own people willing to go on the air or be interviewed by a newspaper and say that they don't mind being called "mascots" or they are making big bucks from selling tomahawks to the Atlanta Braves fans so these very fans can further insult us by using them in a derisive fashion, we will never break this mold.

We must consider those Indian people who would profit at the expense of their own culture and spirituality by selling sacred artifacts to tourists or to professional sporting teams as traitors to their own kind. We can think of no other way to phrase this.

Surely there are other items these profiteers can sell that will not be used to degrade or insult us. There is a lot more support for our beliefs out there than one can imagine, but that support can easily become confused when sell-out Indians say, "We don't mind being used as mascots."

We are not mascots, we are human beings.

From the outpouring of cards, letters and phone calls we have received since we started to protest use of Indians as mascots—99 percent supportive of our stand—we know for a fact that most traditional Indians do resent and detest being used as mascots for sporting teams and sporting events.

To have someone like Princess Pale Moon, a supposed Indian, sing at the Redskin football game at RKF Stadium while Indian people protesting outside the stadium were being spit upon by angry white and black football fans is situation all grassroots Indians should find intolerable.

If there are those Indians who don't mind being mascots, that is their prerogative, but don't get up on national TV and show the rest of America how ignorant you are. If you want to be a mascot—be one—but please understand that most of Indian America will consider you a sellout.

As for most Lakota and Dakota people: We are not mascots, we are human beings. Is that so hard to understand?

If the Washington Redskins advance to the playoffs and then to the Super Bowl, you bet your last dollar that this situation will become even more heated. We must stand together as Indian people to bring this disgraceful use of our heritage and our race to promote fun and games for black and white sports fans to an end. These racial slurs and insults must cease!

The only thing we should remember is: We are not mascots. We are human beings.•

COLLOQUY ON LAMPF DECISION SENATE BANKING BILL, S. 543

• Mr. DOMENICI. I am pleased that, with the cooperation of the Senator from Nevada [Mr. BRYAN] and the help of the chairman and ranking member of the Banking Committee, we were able to work out a strategy for dealing with the several issues associated with the Lampf versus Gilbertson Supreme Court decision. We have been dealing with basically these related issues: What should Congress do about the cases that have been dismissed because of a retroactive application of the Lampf decision? Should the Congress overturn the Supreme Court and, if so, what additional measures should be adopted to eliminate the excessive amount of frivolous securities fraud litigation?

Senator BRYAN made a very compelling case that the dismissed lawsuits should not have been dismissed. I wholeheartedly agree. I believe we are enacting good public policy in addressing this retroactivity issue now.

I commend Senator BRYAN for bringing this urgent problem to the attention of the Senate.

The language included in the manager's amendment means that the Lampf decision would be applied prospectively only.

Mr. BRYAN. I felt that there was a great deal of urgency in dealing with this issue. The most time sensitive aspect of this situation has been resolved once and for all. The cases that have been dismissed can be refiled or reinstated.

Mr. DOMENICI. We are nearing the end of the session and I think the accommodation that has been worked out is in everyone's best interests. Were it not the end of the session I would have insisted on taking the Senate's time to fully consider these issues. I am committed to enacting meaningful securities litigation reforms.

I am convinced that the ability of plaintiffs' lawyers to bring frivolous lawsuits, and the burdens of joint and several liability, under section 10(b) of the Securities Exchange Act are having a very detrimental effect on American companies' ability to compete. It is hurting our economy.

Under our agreement we will postpone until next year the issue of necessary changes to section 10(b), including the appropriate statute of limitations and measures to reduce meritless litigation. This will allow the Congress time to carefully consider the statute of limitations and section 10(b) litigation reforms as a comprehensive package. Since Congress has never really considered the court-created private right of action under section 10(b), it should be an important agenda item for next year.

I look forward to working with the committee to convene hearings on this problem of unwarranted litigation as well as prospective statute of limitations.

Mr. MCCONNELL. I have been a proponent of comprehensive tort reform and I am pleased that the Banking Committee will be examining the litigation explosion in this area of the law.

Mr. DOMENICI. There are similar concerns about this issue in the House. Is it the chairman's position that if this provision becomes an issue during the conference that the Senate will insist upon the compromise that has been worked out today and under no circumstances expand it in conference to cover a new prospective rule?

Mr. RIEGLE. That is my intention to all Senators who have helped resolve this matter.

Mr. GARN. That is my position as well.

Mr. BRYAN. Since it is uncertain which version of the banking bill will actually be sent to the President, is it the chairman and ranking Member's understanding that this provision will be included in any such legislation?

Mr. RIEGLE. Absolutely; this is a critical situation and it must be corrected. Senator BRYAN has been extremely effective in educating the

members of the Senate about this issue.

Mr. GARN. That is my understanding as well. It would be irresponsible for Congress to adjourn without providing for the dismissed cases.•

NORTH DAKOTA PEARL HARBOR SURVIVORS

• Mr. CONRAD. Mr. President, on December 7, 1991, our Nation will pause to commemorate and remember one of the most solemn events of our country's history—the attack on Pearl Harbor during the early days of World War II.

December 7, is of special significance this year as the date marks the 50th anniversary of the attack on Pearl Harbor and America's entry into World War II.

The day of the attack on Pearl Harbor is one of the darkest days in our Nation's history. More than 3,200 American servicemen were killed on that tragic day, and the country's Pacific fleet was severely damaged. Despite these tremendous losses, our Nation stood united, restoring peace to the Pacific, and helping to end the reign of terror in Europe.

The men and women who fought for the cause of democracy and to restore peace in the Second World War deserve the highest praise and appreciation of our Nation. It is most important as we remember this most solemn occasion, that we honor and pay tribute to the sacrifices that our servicemen and their families have made for our country.

It is also most appropriate that we recognize and pay special tribute, on this 50th anniversary of Pearl Harbor, to the survivors of the attack as well as the families of the more than 3,200 servicemen who were killed on that day.

Mr. President, earlier this month, Gov. George Sinner at the State Capitol in Bismarck, honored 23 North Dakota Pearl Harbor survivors and their families with the presentation of the Congressional Pearl Harbor Commemorative Medal.

The Pearl Harbor Commemorative Medal is a well deserved and distinguished tribute to the survivors of the attack on December 7. It is also a fitting memorial to the families of the more than 3,200 servicemen who died on that tragic day.

The Pearl Harbor Commemorative Medal along with the special recognition that we give to December 7 during this 50th anniversary commemoration, is a solemn reminder to all Americans of the many sacrifices made by veterans and their families during World War II—sacrifices that we must never forget, and that take on special importance in 1991 as we witness some of the most dramatic political changes on behalf of democracy across Europe and the Soviet Union.

Mr. President, I ask that an article from the Bismarck Tribune of November 11, 1991, regarding the Pearl Harbor Commemorative Medal ceremony be printed at the conclusions of my remarks in the RECORD.

The article follows:

[From the Bismarck Tribune, Nov. 11, 1991]

N.D. SURVIVOR WON'T FORGET PEARL

(By Jayme Fritel)

HAZEN.—Ed Bridge is among 26 North Dakota survivors of Pearl Harbor who will receive the first Congressional Commemorative Medals Tuesday at the Capitol.

The ceremony in Bismarck will honor survivors, friends and family.

"Remember Pearl Harbor" was the rallying cry for the United States during World War II. With the 50th anniversary of the Dec. 7, 1941, attack approaching, "Remember Pearl Harbor" has renewed significance for those who were there.

Bridge, a retired electrical engineer, joined the Navy when he was 17 and was put on a "kiddie car cruise" until he turned 21.

In February 1941 he was sent to Pearl Harbor. He was at a receiving barracks within eyeshot of Battleship Row waiting for his assignment when the Japanese attacked.

Because the U.S. ships were doing year-end overhauls and weapons checks, Bridge didn't even have a weapon readily available when the Japanese struck.

He remembers standing on a dock, and hastily putting together a single-shot rifle to fire at the enemy planes. The rifle parts were still in Cosmolene grease and he had to tear off his T-shirt to wipe away the grease before assembling the gun.

"The planes came so low in the harbor you could distinguish the pilot. There was not much we could do" he said.

He watched as the battleship Arizona went down and the beleaguered Nevada steamed itself aground so as not to plug up the harbor. He also witnessed a hit to the Utah.

The attack was brief and soldiers immediately prepared for a second wave. Bridge recalls setting up a machine gun along the wharf. Suddenly American planes flew over and Americans fired at them, but fortunately hit none.

The attack was a horrendous ordeal, but, Bridge said, not nearly as terrible as being on burial detail—seeing drowning victims, burning oil and bodies afloat in the bay.

Bridge's wife, Maureen, was in California when word of the attack was received. She was told the Japanese had taken Pearl Harbor and Los Angeles and were on their way to San Diego.

Being young, Maureen was more curious than frightened. She recalls looking skyward for planes.

It took three weeks for Bridge's letter—even burned a bit—to reach Maureen, telling her he was all right. Six weeks later he mailed her an engagement ring and proposed marriage. They were married while he was on leave.

"You grow up fast in a situation like that," Maureen said.

While Pearl Harbor survivors were admittedly unprepared for the attack, Harold Bruschwein said the attack was "not due to them not doing their jobs."

Bruschwein was in an Army antisabotage battalion at the time of the Japanese attack. Americans had been expecting the Japanese to attack the Philippines, and for 11 days before the attack on Pearl Harbor his battalion had patrolled Honolulu and other places to prevent land sabotage and terrorism.

Bruschwein, of Wahpeton, is the state chairman of the Pearl Harbor Survivors Association, which has the motto "Remember Pearl Harbor—Keep America Alert."

Those receiving medals Tuesday have furnished proof that they were at Pearl Harbor. Others can receive medals later after proper documentation is furnished.

Medal recipients are Peter Muth, Dickinson; John Pauek, Fargo; Russell Arhart, Fargo; Bridge; Bruschwein; Charles Christie, Velva; Alfred Dobler, Venturia; John Emery, Fargo; Eugene Finz, Mandan; Milton Gittel, Bismarck; Floyd Graff, Stanley; Clement Lonski, Jamestown; Donald Marman, Beach; John M. Martin, Bismarck; Steven Mozinski, Minto; Gordon Nelson, Fargo; Arthur Neuenschwander, Minot; Arthur Paschke, Grand Forks; George Paul, Mandan; E.J. Penn, Grand Forks; Harold Rivinius, Bismarck; Marcel Saint, McHenry; Everett Severinson, Grand Forks; Robert Shapland, Hettinger; Jacob Suko, Jamestown; and Albert Vennes, Williston.•

THE OUTSTANDING SERVICE OF LISA MOORE

• Mr. MURKOWSKI. Mr. President, when the motion to adjourn is agreed to, and the bells ring to mark the closing of the first session of the 102d Congress, they will signal more than the end of a legislative year. These bells will signal a transition in the life of a person who, for over 7 years, has served America's veterans, Alaska's citizens, and this Senator with distinction.

Mr. President, Lisa Moore began her work in Washington in 1984 when she served as an intern for the Committee on Veterans' Affairs, then chaired by the Senator from Wyoming. At the end of the summer it was evident that her work was outstanding and Lisa was hired full-time with the committee as a research assistant. A few short months later, this Senator had the honor of succeeding my good friend from Wyoming as the chairman of the committee and I retained Lisa as a valued member of my team on the committee staff.

Mr. President, the Committee on Veterans' Affairs has been entrusted by this body, and by the American people, with responsibility for questions of extraordinary importance and sensitivity. For over 6 years, first as chairman and then as ranking member, when those questions were questions of veterans' health or health care I turned to Lisa Moore for research, analysis, and counsel. For more than 6 years Lisa provided these services with the perception, sensitivity, and excellence called for by the significance of the issues.

Earlier this year, when I stepped down as ranking member of the committee, I was fortunate to have Lisa join my personal staff. With this move, Lisa's portfolio was expanded from veterans' issues to all issues relating to health care. Here again, Lisa served with distinction.

Mr. President, this past August I had an opportunity to travel with Lisa to many communities in Alaska to discuss issues with Alaska's veterans and health care providers. The issues were complex and the hours were long, but Lisa's energy was unwavering. Alaskans were well served by the expertise and experience she brought with her.

Mr. President, Lisa Moore is leaving the Senate to begin her own family. For the past 7 years Lisa has been a valued member of the "family" that has worked on the Veterans Affairs Committee. This Senator would like to express his thanks for 7 years of dedication, sound advice, and friendship. We all wish Lisa and her family the best.•

COMMEMORATING UNIVERSITY OF OREGON ASIAN STUDIES PROGRAM

• Mr. **HATFIELD**. Mr. President, I rise today to commemorate the 50th anniversary of the Asian Studies Program at the University of Oregon. In 1941 the University of Oregon became one of the first institutions in the Nation to establish an interdisciplinary Asian studies program. Long before anyone coined the term "Pacific Century," the University of Oregon knew that the future would be shared with Asia.

The first Asian studies program grew out of faculty concern that friends and colleagues elsewhere failed to notice Japan's growing economic, political, and military power. There already were modest contacts even earlier than 1941 that helped to establish ties between Oregon and the Asian region. By 1925, relations between Oregon and Japan had grown such that Meiji University defeated Oregon, 11 to 6, in a friendly game of baseball play in Tokyo. In 1927 and again 1931, the University of Oregon's Pacific Basin Good-Will Team made a 35,000-mile speaking and debating tour of the countries of the Pacific. And in the 1930's the University of Oregon sent student representatives to several meetings of the Japanese-American Good-Will Conference, held alternatively on the west coast of the United States and in Tokyo.

Mr. President, much has changed in the Asia-Pacific region since the inception of the Asian Studies Program at the University of Oregon. Japan has come from being one of the United States most bitter adversaries to one of our largest trading partners and valued allies.

In my home State of Oregon, Japanese companies have invested heavily, mostly into the high technology industries. These companies have positive impacts in Oregon communities, employing several thousand workers. I believe that it is the people of Oregon—the students and faculty at the University of Oregon—and their devotion and effort to understand others, who have truly brought the "Pacific Century" to Oregon.

As the complexity and nature of the relationship between the United States and the entire Asian region have changed over the past 50 years, so has the Asian Studies Program at the University of Oregon. Today, the Center of Asian and Pacific Studies at the University of Oregon, of which the Asian Studies Program is a part, focuses the diverse, interdisciplinary interests of some 70 faculty members, on China, Japan, Burma, and Korea, among others. By broadening the student perspective, to not limit the students to just a Western perspective on the Asian region, the University of Oregon offers firsthand experience of Asia through study abroad programs for students in 11 Asian nations. In addition, some 770 foreign students from the Asian region, compromising nearly 59 percent of the foreign student body, come to the University of Oregon every year.

The Oregon Asian studies prepare students to work with the many complex business, cultural, and political issues surrounding the Asia-Pacific region. The work of the students and faculty at the University of Oregon will help us all as we try to understand an increasingly global economy and environment.•

ECONOMIC CONVERSION CHALLENGE

• Mr. **SIMON**. Mr. President, a longtime friend of mine, Henry Bieniecki, sent me an article from Aerospace America titled "The Challenge of Economic Conversion" by Eric Lerner, as well as an editorial from the same journal written by Elaine J. Camhi titled "Peace Should Not Mean Hard Times."

I am asking that both be printed in the RECORD.

On the fiscal year 1991 bill authorizing funding for the Arms Control And Disarmament Agency, I introduced an amendment to ask that Agency to study the question of economic conversion.

The response that we got was not an in-depth study, but it did suggest that the fears of much of industrial America about the problems of conversion tend to be exaggerated.

However, particularly in a time of economic recession, that adjustment may not be as easy as has been suggested by the ACDA study.

There is no question that we have to shift to civilian investment and production, and in the long run, our economy will benefit by that. We will raise the standard of living of our people.

If we can produce cars and refrigerators instead of tanks and bombers, that helps our standard of living more.

And if we put the research money into civilian improvements and into things like medical research, we will ultimately benefit our population.

But the fears and concerns in an industry like the aerospace industry are very real and understandable.

And the paucity of investment in civilian industry compounds our problem. That problem is obviously severely aggravated by our deficit which causes our long-term interest rates to be much higher than they should be.

The article and editorial should be matters of concern to all of us, not just those involved in the aerospace industry.

The material follows:

THE CHALLENGE OF ECONOMIC CONVERSION

Profound crisis in the Soviet Union, the collapse of the Warsaw Pact, and the end of the Cold War have left the Pentagon with no enemies worthy of its titanic arsenal. Despite the brief respite provided by the conflict in the Persian Gulf, a huge budget deficit and even greater unmet domestic needs have made sharp cuts in the size of the armed forces inevitable.

But if the armed forces are to contract sharply, what becomes of the giant defense industry? It is extremely difficult to justify spending billions on new weapons when existing ones are being moth-balled or destroyed. Sooner or later defense production will have to fall, and far more sharply than the size of the remaining armed forces. What happens now to more than a million engineers, scientists, and skilled workers employed in defense industries and to the modern defense plant and its equipment? Will they lie idle, squandering the nation's most technically advanced productive resources? Or will these plants, engineers, and workers be redirected to the great tasks of modernizing U.S. industry and rebuilding America's neglected and crumbling cities?

The answer will determine to a large extent the prosperity of not only those now involved in the defense industry, but of the nation as a whole, for the resources involved in defense production are vast. Moreover, the debate over military-civilian conversion and the fate of the arms industry will, in the view of many observers, dominate much of American politics in the next few years. For the question of how to spend the "peace dividend" is tied up with the other dilemmas facing America's economy—the federal deficit, the banking crisis, the obsolescence of industry, and the decaying infrastructure.

Yet despite the importance of the conversion question, relatively little about the problem's dimensions and potential remedies has been reported outside highly specialized journals. This two-part report will highlight current debate on this issue and assess prospects for the future of the aerospace-defense industry.

If there is one thing certain about the defense industry it is its importance to the U.S. economy. Some have minimized its impact, pointing out that the Pentagon's expenditures amount to only 7% of the nation's $4 trillion gross national product. But that comparison is misleading. With over $300 billion in expenditures, the Dept. of Defense dwarfs any single industry in the U.S., even the auto industry, with its roughly $200 billion in sales.

Of the total defense budget, over $100 billion is allocated to procurement of goods and another $30 billion to research and development for new armaments. By this measure, which excludes the $170 billion spent on the operations of the armed forces, the defense industry is still two-thirds the size of the auto industry. By other measures, the defense industry is larger. Some 1.4 million people work in defense production, significantly more than the 1.2 million in automotive production, and these are among the most highly skilled and educated in the workforce, including 300,000 scientists and engineers.

Another comparison may be made between arms production and the production of industrial capital goods. Armaments—whether aircraft, ships, missiles, or tanks—are the capital goods of defense, the machinery of war. The plants that produce them are broadly similar to those that produce complex machinery for industry, such as machine tools. Some $80 billion of the total $100 billion in defense production goes for armaments proper (excluding construction and procurement of non-arms goods such as uniforms). By comparison, in 1989 all of U.S. industry purchased some $90 billion worth of industrial machinery. So at present U.S. investment in military equipment nearly equals investment in civilian industry. Similarly, military R&D is nearly half that of the civilian economy.

Thus the defense industry remains a highly significant part of the American economy. Within that sector, aerospace is dominant. Of the $80 billion in arms expenditures last year, nearly $50 billion was for aircraft, missiles, and associated electronics. Of this, aircraft accounted for $24 billion, missiles for $20 billion.

Very little of this industry is invulnerable to the spending cuts likely to come in the wake of global political change. With the Soviet Union and U.S. agreeing to cut strategic nuclear forces by 30% or more, congressional support for additional production of MX missiles and B–2 bombers is evaporating. Congress has already canceled additional Trident submarines.

For conventional forces, the situation is similar. Soviet forces will soon have withdrawn from most or all of Eastern Europe, and the Warsaw Pact has dissolved. U.S. forces in Europe are being drawn down, and all three services are planning size reductions, with the Army having already announced plans for a 25% cut. Tank production is to halt no later than 1993 for the first time since WW II, and with the major force reductions, continued production of Bradley fighting vehicles and Blackhawk helicopters will be increasingly difficult to defend.

The Navy faces similar demands for cuts in its major programs, the Aegis destroyer and SSN–21 attack subs, as does the Air Force for its big ticket items, the F–16 (to end production in FY93) and the C–17 transport. Already F–14 and F–15 production is terminating, and so are new programs such as the Navy P–7A and others. With even former defense secretaries recommending cuts of 50% in the overall defense budget, capital expenditures for new arms are likely to drop far more in the next decade, perhaps by 75%.

Some layoffs have already occurred. Over the past two years defense employment has fallen by about 4%, or by 40,000 jobs. Hundreds of thousands more layoffs are likely to take place unless defense plants can be converted to other uses. McDonnell Douglas has announced layoffs of 17,000, nearly 15% of their workforce, for example. To some in the industry, prospects appear hopeless. General Dynamics, which runs the only two tank plants in the U.S., has already stated that it would close the plants rather than convert if defense production ceased. "What can you do with a tank factory?" General Dynamics vice president Michael Wynne asked in the New York Times interview.

Yet the U.S. has vast needs that defense production could help meet, say those who have studied conversion. For example, the nation's stock of housing has fallen far behind needs. The 2 million units of housing produced in the best of years is barely enough to keep up with new family formation, and a million more housing units deteriorate each year without replacement. The net result has been an accumulated deficit of nearly 15–17 million units of housing—and 2–3 million homeless. The housing gap will take over $150 billion to close. Underinvestment in the nation's roads, bridges, and water supply has generated another massive deficit estimated at $300 billion or more. Environmental cleanup of the atomic weapons industry itself is projected to cost over $175 billion and toxic waste cleanup more than $100 billion. More billions are needed to expand mass transit facilities.

There is certainly work to be done—but the nation lacks the industrial capacity to do it. Over the past 15 years, the nation's industrial base has become increasingly obsolescent, and in many industries has shrunk in absolute terms. "Steel capacity has dropped by a third, and the number of machine tools by more than a quarter, since 1973," points our Hofstra Univ.'s John E. Ullman, a member of the National Commission for Economic Conversion and Disarmament, a private conversion study group.

Over the past five years, net investment in industrial equipment has been virtually zero—new equipment has merely replaced worn out machinery, according to the U.S. Bureau of Economic Analysis. This stagnation of U.S. industry has led to a steady decline in American standards of living, with family income falling 12% and real wages falling nearly 20% in the past two decades. This decline has occurred despite a huge increase in the trade deficit, which represents a net shift of material goods to the U.S. from the rest of the world.

To a large extent, this situation is a direct consequence of heavy investment in armaments in past decades, as Seymour Melman of Columbia Univ., a leading expert on conversion, emphasizes. "Money spent on armaments is money that's unavailable for investment in new industrial equipment, and it monopolizes the very resources that are needed to produce that equipment," he explains. (A second key factor is the heavy diversion of money into speculative acquisitions and leveraged buyouts. The $5 billion General Motors spent on acquiring defense contractor Hughes Aircraft, for example, was $5 billion that did not go to modernizing General Motors automobile factories.)

So there is work to be done in rebuilding American cities and factories. But can the current defense industry be converted to do the job? From a technical standpoint, the answer is clearly yes. There are three key components of the defense industry that have to be realigned to new tasks—the productive equipment (plant and machinery), the productive workforce, and the engineering and technical workforce.

The productive equipment is perhaps the easiest part to convert. As studies by Melman and others have documented, the basic equipment in the airframe and aircraft engine sectors of the defense industry, and in large parts of defense shipbuilding and tank reproduction as well, is essentially the same as that needed to produce advanced automated machinery for U.S. industry. The primary equipment is metalworking machinery of various sorts, especially metal cutting machine tools. The productive capacity of the defense aircraft industry alone is comparable to that of the entire metalworking machinery industry, and the equipment used is more modern and efficient. For example, 20% of all machine tools in the aircraft industry are numerically controlled, compared with only 10% in the metalworking machinery industry, according to a recent survey by *American Machinist* magazine.

While much of the aircraft industry equipment is ideally suited for machinery production, the equally large electronics defense industries are suited to the production of automation equipment used to direct such machinery. Electronics plants are extremely similar to one another, whether the chips involved go to building missiles or industrial robots; only the design and programming of the circuitry change. Indeed, some small defense electronics firms have already made the leap to commercial products. Kavilco, a Moorpack, Calif., contractors, switched from complete dependence on high-tech sensors for military aircraft and missiles to a range of electronic systems for the automotive, air conditioning, and refrigeration industries.

Most of the productive workforce, which will be using the same machines and working in the same plants, is similarly flexible. "Standards and tolerances are, of course, different in civilian work," comments Carl Schwartz, a Boeing inspector and activist with the International Association of Machinists. "But we've found that when people shift to civilian work they need only several weeks of retraining. Basically you just change the number punched into the machine."

The economic impact of any large-scale conversion to the production of metalwork-

UMI

ing and other industrial machinery could be profound. Studies of factory-built housing have indicated that the investment of roughly $15 billion a year in the manufacture of highly automated equipment for housing production could more than double the nation's capacity for housing construction and eliminate the housing deficit in a decade. Over a five-year period, a $10-billion annual level of investment in the metalworking machinery industry could more than double capacity. In less than a decade, the overall production level of industrial equipment could double as well. This would mean an annual increase in industrial capacity approaching 10% instead of today's near-zero rate, with investment barely making up for depreciation and obsolescence.

MACHINE TOOLS AND MANUFACTURING CAPACITY

Industry	Metal cutting machine tools	Total capital equipment (billions)	Machinery production capacity (billions/year)
Metalworking machinery	221,000	$16	$30
General industrial machinery	154,000	16	36
Military aircraft	82,000		
Shipbuilding	28,000		30
Tanks	14,000		

Not only would such a conversion plan modernize U.S. industry and preserve the million and a half jobs currently in the defense sector, but the expansion of industrial capacity would increase the number of high-paying industrial jobs by over a million a year, rapidly absorbing long-term unemployment created by the past decade's contraction of industry.

To be sure, not all productive equipment is sufficiently generalized for easy conversion. Much of the equipment in the missile and space sector is so specialized that it would be difficult to redirect outside the civilian space effort. A small part of the airframe industrial equipment is similarly specialized, and it might be used for tasks such as production of high-speed magnetic levitation trains or similar vehicles. But for the most part, the equipment poses no real technical problems.

For the engineering and technical staff the situation is more complex. "The industrail culture in the civilian sector and in defense are utterly different," Melman emphasizes, and others concur. Extensive retraining would be needed to reorient many engineers toward the cost requirements of commercial products. "The problem is that many engineers in the defense industry are assigned to narrow, fractional jobs that limit their flexibility," comments David Levinger, a Boeing flight test engineer who has been active in groups planning for conversions. "A lot of them aren't sure that they could relearn new jobs, mainly because they have been allowed so little initiative in their existing work." However, he believes that if engineers were retrained to work in teams that tackle whole design problems rather than isolated in fractional tasks, "then they could work on anything."

Given adequate retraining in the work methods needed in the civilian realm, most defense engineers have backgrounds that could be used in designing products as dissimilar from aircraft as industrial machinery. Only 10% of aerospace engineers are propulsion or aeronautical engineees, whose specialities would be harder to use outside the aerospace sector. Most are mechanical, electronics, and industrial engineers who will not be so closely tied to the existing products. For those engaged in defense R&D, there are agian large areas in the civilian economy that require intense high-technology efforts. Problems such as the development of fusion power, the efficient destruction of pollutnats, or the development of an ultra-high-speed magnetic levitation rail network provide technical challenges as great as any in defense. In fact, for some scientists and engineers, conversion would mean returning to previous areas of work.

Conversion thus appears to be technically possible—the current defense industry could design and produce advanced industrial machinery needed to solve pressing problems such as the housing shortage and the decay of the infrastructure and environment. But is conversion possible economically and politically? It is these more complex issues that we examine in the second part of this report.

PEACE SHOULD NOT MEAN HARD TIMES

The world appears to be lurching its way, in fits and starts, toward peace. For all intents and purposes the Cold War is over, and our former adversaries are now engrossed in their own internal problems. This is certainly a welcome turn of events, but as the global picture changes, new domestic problems must be addressed.

In a world that is redefining itself almost daily, those who cannot change with the times may be swept away. So it may be with aerospace companies that are primarily or solely defense driven. Certainly the U.S. will always need to be prepared for conflict. But the arms race of the past four decades is essentially over, and economic survival in the 1990's will depend upon innovation and education. For defense industries, the approach should be twofold: identifying new applications and markets for their resources and abilities and then pursuing them.

This country was built on imagination and innovation. The creative minds that revolutionized the conduct of military campaigns can surely find new roles to play. As innovative as this country may be, it is starting to fray around the edges. Taking the energy and creative spark that produced the most technologically advanced military machinery in history and redirecting it toward the reconstruction of a sometimes crumbling infrastructure is just one potential opportunity.

Identifying areas of opportunity may only require close examination of our everyday surroundings. Better and faster public transportation and sturdier bridges and highways come to mind almost immediately as just a few of the country's needs that could be addressed by the right combination of skill and ingenuity. Reconfiguring a plant or facility to branch off in a new direction may be difficult, but it is not an insurmountable task.

Just as plants and machinery will need to be retooled for new applications, so our most valuable natural resource—the work force—may need re-education. Here, enlightened self-interest might stimulate the federal government to help fund this retraining. Surely it is less expensive to subsidize retraining programs than it is to support longer and longer term unemployment insurance payouts and growing welfare rolls. Workers who are not working spend less, creating problems for other, non-defense industries that deal in goods and services. And workers who are not working do not pay taxes, thereby increasing the federal deficit.

The U.S. has always been at its best when faced with a challenge. Finding a solid economic ground in these times of flux may be the most difficult task the country has faced in a long time. But we can meet the challenge. Peace can bring prosperity.

ELAINE J. CAMHI,

DOWNTOWN MEMPHIS OPTIMIST CLUB

● Mr. SASSER. Mr. President, I rise today to commend the Downtown Memphis Optimist Club for sponsoring Project 1991—Liberty Appreciation Week. In observance of the bicentennial of the Bill of Rights, the club has planned activities to bring together the Memphis community during the week of December 15–21, 1991, in celebration of the rights and privileges guaranteed all Americans by the Bill of Rights.

The Downtown Memphis Optimist Club recognizes as invaluable the rights enumerated in the Bill of Rights and hopes to convey their importance to the citizens of Memphis. The liberties that were fought for by the original 13 States are to be held dear by all the Nation's people. In this spirit, the Project 1991 logo features an eagle as a symbol of the eternal vigilance that accompanies liberty. While the eagle offers an olive branch of peace and friendship, he also carries weapons to defend the liberties should his peace offer be refused.

The Downtown Memphis Optimist Club was founded in 1940 and thrives today as a group of 20 successful businessmen and women from the Memphis community. The organization improved the quality of life of the people of Memphis through its commitment to youth and its financial support for charitable organizations providing needed services. The club focuses its efforts on the development of youth in the community by sponsoring a little league footfall team as well as adopting a local elementary school where they provide antidrug programming and career counseling.

I extend my best wishes to the Downtown Memphis Optimist Club in their celebration of Liberty Appreciation Week. I am glad to recognize this distinguished chapter of the Optimist Club for its contributions to Memphis, TN, Nation. I wish them continued success and thank them for the positive impact they have made on the State of Tennessee and its people.●

CONSTRUCTION OF FEDERAL COURT FACILITIES

● Mr. BURDICK. Mr. President, I must make special note of Senator MOYNIHAN'S proposal, which I have cosponsored, to reform the process whereby the Federal judiciary receives the approval of the Congress for the construction of Federal court facilities. As the Federal judicial system confronts an unprecedented case load, and as the need to expand the number of Federal courts rises with it, it is important for

Congress to have a process in place which will allow for a review of the long-term building needs of the courts; expedite the review of specific proposals for court construction; and reestablish the separation of powers between the judiciary and the executive branches of our Government with regard to the construction of these facilities.

I would hope, Mr. President, that the Administrative Office of the Courts, the General Services Administration, and other interested parties would take the time in the coming weeks to review this particular piece of legislation. I believe that Senator MOYNIHAN has crafted a workable proposal, and it is my sincere wish to act on this measure as soon as possible next year.●

FLORIDA VETERANS DENIED FAIR SHARE OF BENEFITS

Mr. GRAHAM. Mr. President, an editorial in the November 23, 1991, St. Petersburg Times details the limitations on access to health care for Florida veterans. The theme is one which I have brought before the Senate on numerous occasions—veterans should not be denied health care simply based on where they live.

The problem, Mr. President, is that many of the veterans' health care facilities were built in geographical locations where there is no longer a large concentration of veterans. But with limited budgets, the VA is unable to relocate or build new facilities in the areas where veterans are moving—South.

Although a new hospital is being constructed in West Palm Beach and another slated for the east central Florida area, veterans in Florida will, at least in the short run, continue to wait longer for limited health care resources than their counterparts in other parts of the country.

The Commission on the Future Structure of Veterans Health Care reported this month that there is a mismatch between the location of VA facilities and veterans' residences and that this maldistribution will worsen by 2010 if adjustments are not made.

The Commission stated, "Our guiding principle for planning is that eligible veterans' health care needs and locations of veteran population concentrations should become the major factors in how VA plans the size, type, and geographic distribution of health care services."

Mr. President, it is my intention to ensure that Congress and the VA heed these words of the Commission and begin appropriating funds for veterans' health care to those parts of the country where the veterans live, and not just where powerful Members of Congress live.

I ask that the text of the St. Petersburg Times' editorial be printed in the RECORD.

The editorial follows:

FLORIDA VETERANS' UNFAIR SHARE

Veterans' hospitals are federal facilities, but no federal law mandates that veterans be offered equal care in every state. In Florida, for instance, there are roughly two beds for every 1,000 military veterans eligible for medical care. Nationwide, the ratio is about three beds for 1,000 veterans. Only five states have worse patient/bed ratios than Florida: Colorado, Idaho, Oklahoma, Nevada and New Hampshire. The District of Columbia has the best, with more than 10 beds per 1,000. Among the states with large concentrations of veterans, Florida has a clear disadvantage.

Veterans who can claim service-related disabilities or squeeze into a handful of other narrow categories won't have a problem in Florida. Others, however, may be lopped from the bottom rungs of the government's priority ladder. Eligible for treatment in states with empty hospital beds, they may find themselves ineligible in Florida.

"All the rest are 'may treat' as available," explained John Vogel, director of the Veterans Administration (VA) medical center at Bay Pines. "Essentially, there is no 'may treat' availability. That's just the reality of things. There is no excess capacity here."

VA hospitals don't turn emergency cases away; the problem is much more subtle. Of the 170 unscheduled patients who turned up at Bay Pines on Monday, for example, some were treated and some were referred elsewhere. "There is a priority for delivering care, and every veteran in the U.S. is not going to get it," Vogel said.

The federal government spends about $12-billion annually on veterans' medical care; some $546.6-million goes to Florida. State experts say that Florida veterans are shortchanged by about $200-million in care each year, money that is made up by shrinking the patient pool. "We can tell how many patients were seen," one expert said, "but we can't tell how many weren't seen."

"The VA has, I believe, an unparalleled ability to manipulate its work load," said Michael Hahn, legislative affairs' director for the Florida Department of Veterans Affairs. "There are terms such as 'constrained or 'restricted' demand. A veteran population can be told 'no' frequently enough that they stop asking. In Florida . . . people have been told no, frequently."

If VA dollars were allocated according to the number of veterans in an area, Florida's share would be much more generous. If the percentage of elderly and disabled wartime era veterans was also brought to the equation, the portion would be larger still. Add the fact that veterans are continuing to migrate to Florida at a rapid rate, and support for medical services in the state might come up to par.

Instead, the federal government hands out money according to a formula that reflects the number of treatment facilities available. Florida has five VA medical centers, in St. Petersburg, Tampa, Gainesville, Lake City and Miami.

A new facility is under construction in the West Palm Beach area, though, and another is planned for the state's east central region. Each new medical complex will include a nursing home, acknowledging the burgeoning needs of veterans in the oldest category.

The real problem with VA allocations is not demographic naivete, but congressional unwillingness to treat the program as an even-handed federal entitlement. Michael Hahn, fighting for Florida's fair share, doesn't hesitate to use the old-fashioned term, "pork barrel." When elected officials stop treating VA facilities as local fiefdoms to be defended, veterans in every state will have a chance to claim the benefits they need and deserve.●

WINNING THE PEACE DIVIDEND: SAVINGS AND SECURITY FOR THE 1990's

● Mr. MCCAIN. Mr. President, the American people deserve a peace dividend; they have earned it. For more than half a century they have sacrificed in the cause of democracy and to deter war. The end of the Warsaw Pact and the ongoing collapse of the Soviet Union make such a dividend possible, and the time has come to reshape American defense spending and American strategy.

The Bush administration deserves credit for the fact that we have already received a major peace dividend over the last 6 years. Real defense spending has dropped each year. The net result is a 24-percent cut in real defense spending between fiscal year 1985 and fiscal year 1992, and that our defense budget has dropped from $350 to $278 billion in constant fiscal year 1992 dollars. Its current plans call for annual cuts of 3 percent through fiscal year 1996.

These plans, however, were formulated back in late 1990, and before the failure of the Soviet coup and the complete breakup of the Warsaw Pact. It is clear that we can and must go further. The American taxpayer has earned relief, and our highest single priority in government is to reduce our budget deficit and free the economy from the shackles of Federal spending.

Cutting defense can only provide part of the funds needed for deficit reduction. Although the American economy has grown 150 percent since 1962—a high point in the cold war—real defense spending has grown only 13 percent, while domestic discretionary spending has grown 187 percent and mandatory Federal spending or "entitlements" have grown 448 percent. Nevertheless, increased cuts in real defense spending might still cut the currently projected Federal deficit in half by fiscal year 1997, and this would have a major impact in raising real personnel income, increasing jobs, and stimulating economic growth.

I have examined this situation in depth, and have costed the alternatives with the aid of the Congressional Budget Office and the Defense budget project. I have prepared a detailed analysis of our strategic requirements, and the options for a peace dividend, an analysis that I respectfully request be placed in the Record immediately following my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

Mr. MCCAIN. Mr. President, as a result, I feel that such cuts can reach levels as high as an average of 6 percent per year during the next 5 years. This would cut real defense spending by another third by fiscal year 1997, and cut annual real defense spending by a total of 54 percent of discretionary spending from the peak levels under the Reagan buildup.

Such a shift in our forces would save some $235 billion compared to continuing to spend at today's level of defense spending. More important, it would reduce defense spending to about 3 percent of the GNP, and 15 to 16 percent of the Federal budget, levels that could be sustained indefinitely without a major burden on the American taxpayer.

Equally important, a 6-percent annual cut would be slow enough to allow us to react to any unanticipated changes in the Soviet Union or Eastern Europe. It would allow us to cut our all volunteer forces without creating massive unemployment, or treating our men and women in uniform unfairly. It would allow our defense industrial base to adapt, it would minimize the impact on communities with defense bases and industries, and it would allow our allies to adapt to the changes in our posture.

Major additional cuts in defense spending are not easy to accomplish. Our current force plans already call for reducing our combat forces by an average of 25 percent by fiscal year 1997, for cutting active and reserve military manpower by more than 500,000, and defense civilians by more than 200,000. This requires cuts of 33 percent in our Army divisions, 38 percent of our tactical air wings, and 100 ships in our Navy, a cut that will produce a 451-ship fleet where our force goal was once 600.

I believe, however, that additional spending reductions can be achieved through a combination of three major types of cuts. First, by terminating major weapons systems that are vestiges of the cold war. Second, by aggressively moving forward with President Bush's new nuclear arms control initiatives to reduce our strategic forces from roughly 10,000 warheads to levels of 6,000 to 3,000. Third, by recognizing the fact we must convert from our present Europe-oriented cold war strategy to a power projection strategy designed to deal with the emerging risks in Asia and the developing world.

The weapons system terminations I recommend include the B–2, the small ICBM, and the SSN–21. The total cost of these three programs is in excess of $100 billion. At the same time, we should slow down high technology programs whose main rationale was an evolving Warsaw Pact threat that no longer exists. These include the U.S. Army Armored System Modernization Program, the advanced technology fighter, and the high-technology/high-cost mix of escorts for our carrier battle groups. This could save up to $25 billion more.

The cuts in strategic forces I recommend would build on cancellation of the B–2 and SICBM to sharply reduce the number of Minutemen, eliminate the Peacekeeper, cut the bomber force, and shift the remaining B–52's to the conventional role, down-load and detube the SSBN force while buying fewer D–5 missiles, and make further reductions in our theater nuclear forces. These cuts would depend on matching cuts by the Soviet Union, but could save $6 to $12 billion a year.

The key to such an aggressive approach to nuclear arms control is, however, to go forward with strategic defenses. The plan advanced by the Senate Armed Services Committee would provide a means for the United States and Soviet Union to eliminate the risk of accidental or unauthorized launch and any remaining incentives for a first strike. It would guard against proliferation, and ensure that our forces and our allies could protect against shorter range threats without relying on the threat of offensive escalation.

The most critical aspect of my proposal, however, is to shift our strategy and force posture to focus on power projection. It is time that Europe assumed the responsibility for the defense of Europe. However, our current force plan would still deploy 150,000 men in Europe in fiscal year 1997. More importantly, it would deploy nearly half of the 2.5 million people planned to be in our force structure in the "Atlantic package," a mission whose rationale is essentially to refight World War II in a prolonged conventional war in Europe.

I believe that no more than 50,000 to 100,000 men and women will be needed in Europe. We also believe that we can phase out large numbers of active and reserve units whose primary, if not only, contingency mission is to mobilize and move from the United States to Europe. This would allow cuts in active and reserve manning of up to 500,000. It would allow us to eliminate two to four active Army divisions, three to four Reserve and two cadre divisions, one to one and one-half Active Air Wings, five to seven Reserve Air Wings, and a substantial number of frigates and other ships, as well as make suitable cuts in headquarters and support and other associated activities.

The precise pace and scale of these cuts could be adjusted to the events in Europe and the rest of the world. Nevertheless, it is clear that this pool of resources is large enough to allow us to reach the goal of a 6 percent annual cut in defense spending, and to do so without cutting the power projection forces we really need.

We are not present at the end of history but rather at the creation of a new role for America and a new strategy. We must be prepared to deal with major threats like a North Korea that is likely to have nuclear weapons by the mid–1990's. We must remember that we have used our military forces more than 220 times in the developing world since World War II, to secure our interests and those of our allies, in contingencies that had little or nothing to do with the Soviet or Warsaw Pact threat.

We are dealing with a developing world where 14 countries have or are developing chemical weapons, 7 have biological warfare capabilities, 21 countries have tactical ballistic missiles, and at least 7 have or are developing nuclear weapons.

We are dealing with a developing world that has imported an average of 1,500 main battle tanks, 2,000 artillery weapons, 3,000 other armored vehicles, 100 combat ships, 350 supersonic combat aircraft, and 5,500 surface-to-air missiles a year.

In advocating a peace dividend, we must recognize that there is a floor beneath which we must not go. We must keep our Marine Corps and Army contingency forces strong and fully combat capable. We must give them the airlift and rapid sealift and other enhancements that are key lessons of the gulf war. We must keep our carrier forces strong enough to maintain a global presence and help deter local conflicts. We must preserve the rapidly deployable elements of our Air Force, and provide enhanced long range tactical strike capability.

Mr. President, we must recognize that we cannot take a peace dividend at random, or waste it by using it to subsidize further Federal spending. A major peace dividend will affect millions of lives in our active forces, reserves, and defense industry. It will affect our security and perceptions of American strength that are critical to world peace and arms control. The systematic changes in spending, strategy, and force structure we advocate will produce both the dividend and security we need. Any less structured approach is almost certain to undermine our security and to waste the funds taken away from our defense.

EXHIBIT 1

MATCHING A PEACE DIVIDEND WITH NATIONAL SECURITY—A NEW STRATEGY FOR THE 1990'S

(By Senator John McCain)

During the next few months, the U.S. will have to begin to make hard choices between a "peace dividend" and national security. The end of the Cold War means that the United States can and should take a peace dividend in the form of additional reductions in defense spending. This peace dividend should provide direct benefits to the Americans taxpayer in terms of deficit reduction and reduced taxes. It should be used to fund the economic growth and competitiveness that can only come from stimulating consumer demand and reducing the federal drain on the nation's credit.

At the same time, new threats are arising and the world remains an unstable and often threatening place. The U.S. must maintain a stable core of combat ready forces to protect its interests, its citizens, its allies, and its

friends. The U.S. must recognize the fact that it may be decades before it can create anything approaching a new world order. History is grimly unpredictable. The improvements in East-West relations may well be replaced with North-South and South-South conflicts. North Korea's efforts to develop nuclear weapons, the war between Iran and Iraq, and the tensions between India and Pakistan—both of which have nuclear and chemical weapons. In such circumstances, there is a level of military capability, and level of defense spending, we must maintain.

We also must recognize the fact that sudden cuts in defense spending have a drastic impact on our men and women in uniform, on communities throughout the United States, on our defense industrial base, and on our economy. A peace dividend must be taken with care, not only to protect our security, but to protect our fellow Americans and our recovery from the current recession.

CREATING THE RIGHT KIND OF PEACE DIVIDEND

There is no easy way to make such tradeoffs, and to choose between the size of the peace dividend we can take and national security. The end of the Cold War means, however, that it is now possible to provide a substantial peace dividend without depriving our nation of the power projection forces it must have in the 1990s, and without acting so precipitously that we will not be able to react if new threats arise.

To be specific, it should be possible to double the rate of cuts in real defense spending that the Bush Administration planned in early 1991, and to go from an average cut of 3 percent in annual defense spending during FY1991–FY1997 to a rate of 6 percent.

In practice, this would mean cutting defense spending during FY1993 from $278 billion in budget authority to $261 billion. Real defense spending in constant FY1992 dollars could than be cut to $245 billion in FY1994, $230 billion in FY1995, $216 billion in FY1996, and as little as $203 billion by FY1997.

There are many different ways that the resulting peace dividend can be calculated, but if we use the present level of $278 billion as our base, it would be $17 billion in FY1993, $33 billion in FY1994, $48 billion in FY1995, $62 billion in FY1996, and $75 billion by FY1997. This would total $235 billion over the next five years.

In all frankness, it is uncertain whether real defense spending should ever drop below $200 billion in constant FY1992 dollars unless we face severe new economic problems and the world remains an extraordinarily peaceful place. A properly phased approach to a peace dividend would, however, avoid any substantial risk in the initial years, and build towards a major saving in the out years.

This approach not only limits risk, it allows us to cut our forces and defense spending in ways which minimize the disruptive impact on the men and women in our armed forces, on communities with defense bases and facilities, and on our economy and defense industry.

Capping defense spending as a percent of Federal spending and the gross national product

The best way of obtaining a peace dividend is not to cut defense to the point we could be forced into crash efforts to rebuild our forces in an emergency—to repeat the "boom and bust" cycle in defense spending that has characterized so much of U.S. history. It is rather to establish a stable level of defense spending that provides the resources that are needed but that steadily reduces defense spending as a share of total federal spending and our gross national product as our economy expands.

To put this issue in perspective, defense spending as a percent of federal spending has already dropped from a post war high of 57%, and a high of 27% during the Reagan Administration, to around 20%. Such cuts would reduce defense spending to around 15–16% of the federal budget by FY1996–FY1997. Similarly, defense spending has dropped from a post war high of 11.9% of the GNP, and 6.3% during the Reagan Administration, to about 4.7% of the GNP today.

The proposed cuts would allow defense spending to drop to as low as 3% of the GNP by the mid to late 1990s. Capping defense at these levels of our federal budget and GNP would still provide around $215–$240 billion in constant FY1992 dollars, but would shrink the burden defense places on the American taxpayer to a small fraction of federal spending, and a far smaller fraction of our total economic activity. At the same time, it would allow us to deter or halt the kind of aggression or conflict that—without American military action—would force us into massive new expenditures and possibly into another major war.

Where the peace dividend would come from

There is no royal road to obtaining a peace dividend. We have already been cutting our real defense spending during each of the last six years, and it has already dropped by 20.5% since FY1986, or from $349.9 billion to $267.3 billion in constant FY1992 dollars. The Bush Administration has already planned on cuts during FY1991–FY1997 that would cut our forces by:

360,000 active duty men and women in uniform.

271,000 men and women in the reserves.

At least 180,000 defense civilians.

About 25% of out total force structure.

33% of our active Army divisions, a cut from 18 to 12.

40% of our Army divisions, a cut from 10 to 6.

100 ships or 18% of our total naval battle force, a drop from 545 to 451 ships.

38% of our tactical air wings, with a cut in active wings from 24 to 15, and from 12 to 11 reserve wings.

33% of our strategic bombers, a cut from 268 to 181.

It is not easy to add to these cuts without being disruptive or eliminating forces we are going to need in the future. Nevertheless, such cuts are possible through two mechanisms. The first is major program terminations. These allow limited near term savings. The second is by eliminating those forces and functions that are largely vestiges of the Cold War as soon as possible, and concentrating on preserving our key conventional power projection capabilities.

Major program terminations

We can terminate or reduce the following programs without taking unacceptable risks with our security:

Eliminate the Small ICBM program, and continuing to rely on upgrades of a single warhead silo deployed version of the Minuteman III. The only justification for a new SICBM is mobility and President Bush has canceled this aspect of the program. Relying on an upgrade of the Minuteman could save a total of up to $35 billion.

Terminate the B–2 program. This aircraft is a technical triumph, but it no longer can be justified for strategic nuclear missions and is far too expensive and mission limited for conventional missions. Canceling this program could save $20.9 billion to $25.9 billion over the next five years, and more than $35 billion over the life of the program if associated support, construction, and weapons costs are included.

Terminate the SSN–21 submarine. This submarine will cost some $2–$3 billion a ship at a time when there is virtually no chance of fighting a Battle of the Atlantic or sea control battle with the Soviet Union. Its practical mission advantages over the SSN–688 are uncertain, and increasingly so because of problems in developing the new weapons systems it is intended to use. Relying on existing SSN–688s, while we develop a new submarine some five or more years in the future could save $15 to $30 billion. Replacing the SSN–21 immediately with the SSN–688I and Centurion type submarine we need, would save $4.6–$5.0 billion over the next five years.

Reduce the construction of high cost escorts like the DDG–51 to take account of the reductions in the threat to our carrier battle groups. We continue to need carriers as a key element of our power projection capability. We do not need to give them the kind of protection needed for an extended naval war with a threat as sophisticated as the Soviet Navy. This could save up to $5 billion.

Slow the advanced technology fighter program, and delaying a production decision until it is clear that a threat exists that forces deployment of this aircraft, could save $4.6 billion. This step is particularly important because the current design is optimized around air combat missions at a time when the primary need of both the Air Force and Navy is for an advanced long range strike fighter, and funding effective production rates requires a high degree of commonality between the Air Force and Navy aircraft.

Reduce funding of the U.S. Army Armored System Modernization (ASM) program. This program was developed to meet the challenge of a Warsaw Pact that no longer exists, and the Gulf War indicates it was based on an exaggerated view of Soviet capabilities. Upgrading existing systems and designing a new family of equipment for power projection could save $2.3–$2.8 billion over the next five years and as much as $25 billion in total program costs.

It is important to note that while some of these cuts produce large cumulative savings, many involve short term termination costs. Further, no combination of major program terminations can—by itself—produce a sustained peace dividend of the scale necessary to double the Bush Administration's planned rate of a 3% annual cut in real defense spending.

Producing a near term peace dividend requires cuts in budget outlays as well as in budget authority. This is often difficult in terminating major procurements, and the end result is likely to be a significant gap between what can be achieved through program terminations and the required cut in expenditure that can only be made through rapid additional involuntary separations of manpower or by slashing readiness and sustainability. This would, almost inevitably, create hollow elements in at least part of our force structure.

Emphasizing cuts in nuclear forces and conventional force structure

In contrast, careful and properly planned changes in strategy and force structure provide a basis for making more substantial force cuts in ways that preserve military capability. This allows a peace dividend to be taken from those elements of our force structure which are least necessary, given the end of the Cold War, and provides sufficient flexibility to fund selected improvements in those forces that remain necessary.

This can best be accomplished in two ways. First, by focusing on President Bush's nuclear arms reduction initiatives to examine ways in which we can use a combination of unilateral action and arms control to accelerate reductions in our nuclear forces and other selected elements of our force structure.

Cuts in nuclear forces: Savings through arms control

The termination of the B-2 and SICBM are tangible reflections of what we can do immediately. In addition, the measures that the President suggested to cut theater and strategic nuclear systems would save at least $5 billion in FY1992-1997 and $13 billion during FY1992-FY2010.

It should, however, be possible to build on President Bush's initiatives by moving aggressively to eliminate land-based MIRV'd ICBMs, freeze most aspects of offensive strategic and theater nuclear technology, and seek additional cuts in strategic warheads of at least 1,000-2,000 warheads. The U.S. should work aggressively towards reductions from the present total of roughly 10,000 warheads on each side to levels as low as 6,000 or 3,000.

Recent work by the Congressional Budget Office indicates that a reduction to 6,000 warheads could eventually save the U.S. up to $6 billion a year, and a reduction to 3,000 warheads could save up to $11.9 billion.

These cuts could be accomplished by downloading bombers and SLBMs/SSBNs, by using the B-1B and ACM to provide future bomber strike capabilities, by further reductions in ICBM numbers, and by seeking cuts in the SSN forces of the U.S. and Soviet Union to reduce any threat to the SSBN forces of either side. This would still allow both sides to maintain a significant retaliatory deterrent, to improve their warning and attack assessment systems, and to deter any attacks by third party nations.

A cut to a force of 6,000 warheads could be accomplished by cutting the number of remaining Minutemen to less than 300 missiles, rather than the 500 permitted under START. Bomber forces would be cut, the first eight Ohio-class SSBNs would not be fitted with D-5 missiles, and fewer D-5 missiles would be purchased. The remaining force of theater nuclear weapons would be cut from 7,000 to 4,000.

A cut to a force of 3,000 warheads would mean a force about one-third the level the U.S. seems likely to retain after START, and would reduce the 6,000 warheads countable under START by about 50%. It would require elimination of the M-X force, and downloading each SLBM remaining in service to three warheads—maintaining the currently programmed number of SSBNs to reduce vulnerability. Detubing would be a possible alternative. The bomber force would consist solely of the B-1 equipped with the ACM or a similar system. All B-52s would be shifted to conventional missions.

Such options will, however, involve risks that arms control alone cannot alleviate. This is why the U.S. must move forward, hopefully in cooperation with the Soviet Union and smaller nuclear powers like Britain, France, and China to do everything possible to reduce the threat of accidental launch, further proliferation, and a political faction or extremist group seizing control of a nuclear armed long-range ballistic missile.

Further, the U.S. cannot rely on offensive nuclear weapons alone under any foreseeable options to deter the risk of long range missile attacks on its allies, its forces, and its territory. As has already been stated, it must proceed with a limited strategic defense system of the kind proposed in the Senate Armed Services Committee plan.

This system must include a mix of modern space borne sensors, land based missile defenses, and space based intercept capabilities. It must involve an active effort to cooperate in strategic defense with the USSR to eliminate any vestigial risk of nuclear attack, "breakout" in offensive weapons, and efforts to seek a first strike advantage. It must also include the development of theater ballistic missile defenses for our friends and allies, and U.S. forces.

It is impossible to estimate the schedule and size of the resulting annual savings, since this would depend on the outcome of arms control negotiations with the USSR, but they should rapidly reach a level of at least $1 billion a year and could reach a level of $4 billion to $8 billion by the mid 1990s if both sides accepted the need to achieve major savings in military spending. This could total $16 billion over the next five years.

The importance of strategic defenses

Such an aggressive approach to arms control does, however, involve risks. No one can be certain of the unity and stability of the Soviet Union. At the same time, a reliance on conventional weapons presents risks in a proliferating world. For this reason, it is essential that the U.S. proceed with a limited strategic defense system that can guard against accidental or limited nuclear strikes, help protect it and its allies from the emerging nuclear forces in the developing world, and deter any future successor regime in the Soviet Union from attempting to gain nuclear superiority by rushing to rebuild or redeploy nuclear forces.

The proposal advanced by the Senate Armed Services Committee represents a prudent and vital approach to providing this capability. It would seek to deploy a limited land based system by FY 1996, continue to fund development of an economic space based system, and encourage active negotiations with the Soviet Union to renegotiate the ABM Treaty. It also allows for cooperative development of such a system with the USSR—which would be as important in preventing the long term risk of nuclear war as any currently foreseeable cut in nuclear offensive forces.

Cuts in conventional forces

Conventional forces make up at least 80% of the forces funded in the defense budget, and any peace dividend must come primarily through cuts in such forces. Many proposals for such cuts, achieve their savings through sweeping cuts in total unit numbers, manpower, or equipment. They do not attempt to focus on the need for major changes in our strategy to reflect the changing threat and the end of the Cold War.

The bulk of such cuts must be based on shifting from an East-West to a power projection strategy that focuses on the existing and emerging threats in other parts of the world. Such a power projection strategy allows us to reduce and/or eliminate forces whose primary mission has been the defense of Europe, particularly in a prolonged conventional war.

While no one can dismiss the possibility of a successful hard line coup in the Soviet Union, or further problems in Eastern Europe, this prospect now seems so unlikely that the force packages developed in August, 1990 have become obsolete. Europe is now capable of assuming primary responsibility for its own defense, and this allows major cuts in the U.S. forces deployed in Europe, reinforcement forces in the U.S., and naval forces whose primary mission is sea control and the battle of the Atlantic, rather than power projection.

As General Powell said in a recent press conference:

> "* * * the force structure was to do something about a massive Red Army assault coming west through the Fulda Gap. There is no Fulda Gap, except to tourist traffic. It was once an armed camp. And the Red Army has gone hundreds of kilometers to the east and is in the process of doing that. So that general battlefield situation has changed fundamentally." (9/27/91)

It is time to make it clear to our allies that they must assume far more of the burden of ensuring their future security than in the past. The United States should not abandon its Allies or withdraw from Europe.

At the same time, the U.S. should not assume the responsibility for overseeing the coming massive changes in NATO strategy and force posture. Europe must assume responsibility for Europe's post-CFE defense posture. The FRG, Belgium, Denmark, France, the Netherlands, and United Kingdom must take the lead in restructuring NATO's defense posture in the Central Region.

Further, the U.S. forces that are left in Europe must not be seen as being assigned or earmarked on a full time basis to NATO and SACEUR. They must be treated as contingency forces that the U.S. can use for power projection as long as the Soviet threat remains as low as it is today. It must be made forcefully clear to our German allies that they must increase their burden sharing efforts in terms of the costs they pay for the U.S. forces that remain in Europe, and to our other allies that our forward deployed tactical air, carrier, and Marine Corps forces are power projection forces and we must have the freedom to deploy and sustain them for such missions.

The U.S. must cease responsibility for missions like airborne command and control, surface-to-air missile defenses, emergency resupply, and a host of other infrastructure and support missions it now assumes in NATO. These should be firmly shifted to Europe by FY1996, and the U.S. share of NATO infrastructure expenditures should be steadily cut to reflect both these changes in U.S. strategic alignments and the role the U.S. undertakes for the entire alliance in terms of out of area operations.

We need to make even more serious cuts in our reinforcement forces for Europe in the United States, and in the so-called "reconstitution mission". It is prudent to have power projection forces that can reinforce Central Europe, as well as meet contingency needs for forces that can fight in high and medium intensity combat in other parts of the world. It is another thing entirely to assume that the U.S. must dedicate forces to serve as, "the bedrock of reconstitution capability should we receive warning of a Soviet return to a posture of direct military confrontation with the West."

The current force plan, as presented by General Powell on September 25, 1991, shows that the Atlantic part of the U.S. force structure in FY1997 would total about 1.35 million men, out of a total active and reserve force structure of 2.5 million men. This makes the Atlantic Force package larger that the manpower in all other functions, including the Pacific (550,000 personnel), Contingency (380,000 personnel), and Strategic (100,000 personnel) force packages.

Roughly 60% of the personnel in the Atlantic force package would be reserves in the U.S., of which about 66% are in support functions. The remainder would be active, of which over 75% would be deployed in the United States. This means that close to half of our FY1997 force structure would be reinforcement whose primary mission would essentially consist of refighting World War II against a Warsaw Pact enemy that no longer exists.

Enough is enough. This is not 1945, 1960, or even 1985. If there is a reconstitution mission for the defense of Europe—and that is increasingly doubtful given the end of the Warsaw Pact as a military alliance and the continued pattern of change in the USSR—the cost must be born by our European allies.

We have now lived for two decades with the illusion, if not the lie, that the U.S. can credibly plan to fight an extended conventional war in Europe. First, our allies show no serious interest or capability for such a conflict. Second, we have never funded the strategic lift, sustainability, or readiness to make good on commitments like sustaining 10 divisions in Europe within 10 days, and have no prospect of doing so.

Limiting the reinforcement and reconstitution mission in the mid to late 1990s to those forces needed for global power projection would free substantial resources to fund the modernization, readiness, and forward deployed forces we really need. It would fund the strategic lift and sustainability the Army needs for quick reaction deployments and allow the Marine Corps to remain at its present strength.

The specific force reductions that should result from the end of the Cold War, and the changing situation in Europe are:

Cutting the total active forces the U.S. has in Europe in 1995-1997 to levels of 50,000 (100,000) men, with matching cuts in active army and air force combat strength, and the proper slice of support, logistic, and headquarters forces and bases. This option would be equivalent to a 50% to 66.6% cut in the present "forward presence" part of the Atlantic Forces package.

This would require eliminating 3-4 active brigades from the 1 Corps and 2 divisions currently planned for deployment in Europe in FY1995, and 1.5-2.5 tactical fighter wings, plus associated support, logistics, and headquarters personnel. The heavy equipment for two full divisions, and suitable stocks, could, however, remain prepositioned at least until the end of the 1990s.

Cutting the forces in the U.S. that are scheduled to become the Crisis Response part of the Atlantic Forces package to 50% or 33.3% of their current level. It would require a cut of at least 1-2 active Army divisions, 3-4 reserve Army divisions, 1-1½ active fighter wings, and 5-7 reserve fighter wings, and the proper slice of support, logistic, and headquarters forces and bases. This could save $12.8 to $18.5 billion over the next five years.

Eliminating the Reconstitution Forces portion of the Atlantic Forces package (2 Army cadre divisions, navy frigates, and other related forces.) by FY1995-FY1997. This could save at least $2.2 billion over the next five years.

Eliminating by 1995-1997, any other active and reserve forces whose primary contingency role is the reinforcement of Europe in a prolonged major conventional war.

Options for cutting the overall mix of submarines, ASW forces, and related R&D and procurement programs to reflect the lower Soviet threat, and reduced need for any battle of the Atlantic contingency to supply NATO.

Reducing the number of active carrier battle groups to 10-12 carrier battle groups. Cut the cost of maintaining the present number of active carrier battle groups by delaying aircraft modernization, cutting the number of escort ships to reflect a smaller Soviet threat, and/or delaying construction of a new carrier. This could save $2.2 billion to $26.1 billion over the next five years.

In addition, there are other forces that can be cut or eliminated:

Cut the active army units in Alaska from the force structure, and reduce active air strength to minimum levels.

Eliminate and consolidate the active and reserve components of non-combat Army, Air Force, and Navy support units in the U.S. by an additional 15%-30% beyond the currently programed level by 1995-1997. This could save $35.8 billion to $71.8 billion over the next five years.

This rapid shift away from a Europe-oriented to a power projection strategy will allow us to make further major adjustments that might be made in procurement and research and development expenditures. These adjustments include:

Shifting the mix of major procurements planned for the mid-1990s and early 2000s to rely on upgrades of current major weapons while limiting expenditure on such systems to R&D. This should be able to save at least $2 to $4 billion a year by FY1994.

Reduce funding of R&D, less SDI/TMDI, to 1976-1991 share. These savings would vary by year, but would approach $6 billion in FY1993, $4.6 billion in FY1994, and $1.0 billion in FY1995. This could total $7.1 billion over the next five years.

Mandating a shift away from reliance on MILSPEC and a military industrial base to reliance on civilian technology over the next 5-10 years in all those areas where a shift to a civilian industrial base is possible. These include areas like electronics, engines, and other high cost components.

The U.S. has the option of reducing its active military strength in South Korea to no more than one active Army brigade and one active tactical fighter wing by 1995-1997. Such an option may be possible if the political situation in North Korea should change radically by the mid-1990s. However, the U.S. already has plans to reduce its forces in the Pacific to levels where further major cuts do not seem prudent at this time.

This highlights the need to maintain forward deployed active forces in the areas where these play a powerful deterrent and stabilizing role, and can contain contingencies that might otherwise require far larger force deployments from the U.S.

Tailoring force cuts to provide the peace dividend goal

While it is tempting to propose price tags for each of the above savings, the exact amount of money that can be saved from such cuts in force structure must be tailored to the most desirable pace of reductions shaped by developments in the Soviet Union and Europe. In fact, one of the advantages of these cuts is that they provide a pool of actions where the exact cut in each area can be shaped to minimize the disruption in our capabilities, all volunteer force structure, and defense industrial base.

It is clear, however, that such cuts are drastic enough to meet the annual goals set forth for a six percent reduction in real defense spending. These goals require a saving of $17 billion in FY 1993, $33 billion in FY 1994, $48 billion in FY 1995, $62 billion in FY 1996, and $75 billion by FY 1997, or a total of $235 billion over the next five years. Just the reductions proposed for U.S. forces in Europe, in the reinforcement forces for Europe in the U.S., and in associated headquarters and support forces should be more than adequate to meet these levels of reduction.

SETTING A FLOOR FOR FORCE CUTS AND CUTS IN DEFENSE SPENDING: THE NEED FOR A POWER REDUCTION STRATEGY

At the same time, we must set limits to the cuts we make in defense spending. We must be prepared to shift away from many of the roles and missions of the Cold War era and to focus on our capabilities for power projection: The capabilities that are necessary to deal with regional aggressors, proliferation, and other challenges to world peace that emerge from the continued instability in the Third World. These power projection missions require strong, fully combat, ready, and rapidly deployable forces, and they will consume most of the defense resources we will have available in the 1990s.

As the Gulf War has just shown, wars in the Third World can require heavy armored forces and the most advanced air powers available. They can require all our naval and amphibious capability, and they can place a massive strain on our existing strategic lift and prepositioning capabilities. They also require advanced technology, and the kind of military professionalism and readiness that can win quick and decisive military victories. We cannot realistically hope to engage in prolonged conflicts that lead to high casualties and that do not produce a clear strategic result.

We had a decisive technical and military superiority in the Gulf War, but we must not take such superiority for granted or underestimate its importance. This superiority is essential to minimize American and allied casualties and bring a conflict to a quick and decisive end.

The growing threat in the Third World

It is easy to talk about a new world order, but it may be exceptionally difficult to create one. The end of the Cold War does not change the fact that there have been an average of 20-25 conflicts and civil wars raging in the Third World during every year since 1945. It does not change the fact that the U.S. had had to use military force more than 200 times since the end of World War II to protect its allies, its citizens, and its strategic interests in areas where no element of Soviet bloc forces was involved.

The Third World is not becoming a kinder and gentler place. Third World nations spend nearly 5% of their gross national product, and 20% of all government expenditures on military forces: A total of $175 to $200 billion a year. They take delivery on an average of over $40 billion worth of arms a year, including approximately 1,500 modern main battle tanks, 2,000 artillery weapons, 3,000 other armored fighting vehicles, over 100 combat ships, 350 supersonic jet combat aircraft, and 5,500 surface-to-air missiles.

As Iraq has shown, some such nations can become massive threats to the security of their region, and this threat is likely to grow:

At least fourteen developing countries now have offensive chemical weapons.

Seven developing countries have biological warfare capabilities.

Twenty-one countries now have tactical ballistic missiles. Eighteen developing nations are likely to possess long range tactical ballistic missiles by the year 2000, and up to fifteen countries may be able to manufacture them.

Nine developing countries seem likely to acquire imagery satellites by 2000.

Forty-seven developing countries have modern main battle tanks.

Fifty-eight countries have modern jet fighter aircraft.

103 countries have cruise missiles.

Seventy-one countries have anti-ship cruise missiles, and 46 countries have naval mines.

Over 30 developing countries have submarines.

We must have combat forces that can deal with any foreseeable combination of threats in the Third World, and these threats are not theoretical or ones that may appear in the future. If Iraq's offensive capabilities have been destroyed, those of North Korea remain, and North Korea has chemical and biological weapons and seems to be rapidly moving towards a nuclear capability.

Our forces also must have enough combat readiness, forward deployed capability, and strategic life to deter conflict wherever possible, and to rapidly contain and limit conflict when deterrence fails. Most conflicts in the Third World occur without significant strategic warning, and many take an unpredictable form. In virtually all cases, the level of escalation in such crises and conflicts is dependent on how quickly action is taken to control them.

The role of the U.S. in power projection

There have been an average of more than 25 ongoing civil and international conflicts in the developing world every year since the end of World War II. There are now more than 10 low level conflicts going on in the Middle East and the Gulf.

The U.S. cannot aspire to be the global policeman and intervene in every low level conflict. The fact remains, however, that the U.S. has global interests that can be affected by regional disputes whether it wishes it or not. The U.S. is also the only power capable of assuming a leadership role for the community of democratic nations to focus international efforts on a global basis toward a common goal.

These realities were demonstrated all too clearly during the Gulf War. The world community simply could not risk hostile control of Persian Gulf oil. Important as UN and allied action proved to be, the U.S. was the only nation with the naval power to take the lead in keeping the Gulf open.

We also need to recognize that our interests have changed fundamentally since the beginning of World War II. The U.S. economy is dependent on trade and the flow of high technology goods, and even more dependent on raw materials. The U.S. is critically dependent on imported energy, a dependence that seems certain to increase during the next few decades. The U.S., and U.S. citizens, are also far more involved in political and commercial activities throughout the world. Many are in states vulnerable to internal instability or outside threats, where the U.S. may be called upon to protect its interests with little or no warning.

The balance of power has also changed in ways that have nothing to do with the Soviet or Warsaw Pact threat. Before World War II, European powers defended Western interests, and often those of the U.S. While the U.S. emerged as a major maritime power between 1776 and 1941, it never had to act as the dominant power.

In the years since 1941, the U.S. has emerged as the dominant power securing the West's interests throughout the world and has become the only free world power that can secure the interests of all free world states. Decolonization began an irreversible process that has already stripped Europe's power projection capabilities to largely symbolic levels and is leading to a continuing decline in the forces that remain.

Even the term "Western interests" has become a strategic anachronism as the balance of economic power has shifted to favor Asia and as free nations have become at least partially dependent upon the U.S. in Latin America, the Middle East, the Gulf, and Asia. Japan and the NICS, however, have never developed power projection capabilities, and it is not in our interest for them to do so when they can make far more important contributions in the form of economic aid.

Future contingency requirements

No one has yet been able to predict the contingencies that have been most critical to our security. We became involved in two World Wars despite strong isolationist sentiment. We have been involved in several major, and numerous minor, military actions since the end of World War II that were not foreseen. By contrast, the long awaited Der Tag with the Soviet Union never came despite several promising opportunities. In short, the cumulative probability of having to deal with wild card scenarios has always proven greater than the probability of having to deal with the most frequently predicted case.

It is virtually certain that the future will involve fewer opportunities for confrontation with the Soviet Union or the Warsaw Pact, particularly in the Central Region. The fundamental issue dividing the U.S. and the Soviet Union has been the fate of Europe and the potential impact on the U.S. if Europe were to fall under Soviet domination. There does not appear to be any other issue that would compel the U.S. and Soviet Union to risk general war with each other as this issue fades into history. Regardless of the final form of "Glasnost", however, the world will remain a very troubled place.

As a result, our strategy, our forces, and the roles and missions of our forces must change to reflect both the decline in our real defense resources and the fact that most of the threats to our interests, and our friends and allies, outside of Europe remain and may even intensify.

Unfortunately, our dependence on energy imports is growing again and is projected to continue growing well into the next century with more than 35% of our petroleum products imported in the last year. We continue to be heavily dependent on imports for virtually all our critical minerals and most of our other raw materials.

Equally important, we are critically dependent on the smooth flow of world trade. The total volume of U.S. imports rose from $16.3 billion in 1960 to $42.6 billion in 1970, and $257 billion in 1980. U.S. imports have virtually doubled again since 1980, reaching $460 billion in 1988. Global trade in high technology has also more than doubled in the last five years. Trade in the five most critical technologies has risen from less that $90 billion in 1984 to more than $200 billion today.

The changes in the Soviet Union and Warsaw Pact threat have an important but limited impact in reducing the requirements for U.S. power projection forces. The U.S. still faces the risk of a significant conflict in Northeast Asia and in the Gulf. The U.S. has forces to meet such contingencies, but either one would require most of our power projection capability including forward deployed forces and prepositioned equipment.

Essential forces and force improvements for the 1990's

Given this strategic background, we can see the essential military capabilities we must preserve while seeking a peace dividend. They include:

Maintaining the U.S. Army capability to deploy contingency forces like the XVIIIth Corp to provide a mix of combat ready airborne and air assault capabilities for low intensity conflicts plus a rapidly deployable mix of mechanized and armored forces for medium and high intensity conflicts and sufficent reserve and National Guard forces to provide reinforcement in prolonged medium and high intensity conflicts.

Maintaining sufficient carrier task forces, rapid sealift, amphibious forces, and mine warfare capabilities for our power projection needs in the Atlantic, Pacific, Mediterranean, and Indian Ocean/Gulf.

Maintaining the three MEFs of the Marine Corps as an active forward deployed power projection forces with sufficient prepositioning, lift, and modernization to operate in both low and medium intensity conflict.

Maintaining sufficient conventional bomber, tactical air, and strategic airlift strength to deploy decisive amounts of air power in power projection missions for low, medium, and high intensity conflicts outside Europe.

It is important to note that some elements of these forces are currently underfunded. As a result, the U.S. must make the following investments in its power projection capabilities over the next ten years:

Give the Army's rapidly deployable combat forces the active combat and service support necessary to allow at least medium intensity combat without calling up reserve and National Guard units.

Provide the additional prepositioning and fast sea lift needed to provide suitable strategic mobility for the Marine Corps and the rapidly deployable Army forces requiring fast sealift.

Provide a suitable package of strategic airlift for the power projection of U.S. Army, Air Force, and Marine Corps forces for missions other than a major combat contingency in the central region of Europe.

Develop and deploy an advanced long range attack aircraft to compensate for the range, vulnerability, and mission limits of the F–16 and F–18, and provide suitable improvements in the theater air and tactical amphibious lift of the Marine Corps.

Bring the Marine Corps to three fully combat ready MEFs with the sustainability and equipment modernization necessary for medium intensity combat in the 1990s.

Correct the currently programmed obsolescence of the amphibious force.

These forces can be provided by combining the remaining forces in the Atlantic Force package with the forces in the other two packages of conventional forces presented in the Bush Administration force plans for fiscal year 1992–fiscal year 1996. These two packages include:

Pacific Forces whose primary mission is the defense of Northeast Asia and the Pacific Rim, including Southeast Asia. They seem to split the mission of covering the Indian Ocean, although this is unclear in the material issued to date.

Contingency Forces in the U.S. to provide global crisis and contingency response capability across the spectrum of conflict from counterinsurgency to major conventional conflict.

By the mid-1990s, the forces assigned to Pacific Forces are planned to include 1 Army

division and 1–2 Air Force fighter wings in South Korea; 1–2 Air Force fighter wings, 1 carrier battle group, and 1 Marine MAGTF in Japan; 1 light Army division in Hawaii and Alaska; and 5 carrier battle groups and support ships, and 1 Marine Expeditionary Brigade in the U.S. There will be roughly 30,000 military personnel in South Korea and 35,000 in Japan by the mid-1990s, a reduction from 45,183 in South Korea and 46,824 in Japan in 1990.

The forces assigned to Contingency Forces will include 4–5 Army Divisions, 7 Air Force fighter wings; Air Force Strategic Airlift, undefined remaining Navy and Marine Corps forces from the Atlantic and Pacific, the 8 SL–7 fast sealift ships, and the remainder of the Ready Reserve Fleet. The bulk of the Army forces in the Contingency Forces package will be drawn from the present XVIIIth Corps. They will include the 82nd Airborne and 101st Air Assault Division, and will probably include the 24th Mechanized Division and one to two other Army active divisions.

Preserving the power projection capabilities of the U.S. Army

If one looks at this pool of forces by service, an effective power projection strategy must be founded on a mix in which the U.S. Army provides the bulk of U.S. capability for sustained medium and high intensity combat and reinforcement, as well as Special Forces.

The most critical Army contingency forces now include the XVIIIth Airborne Corps with the 82nd Airborne Division (Ft. Bragg), the 101st Airborne Division (Ft. Campbell), the 7th Infantry Division (Ft. Lewis), the 24th Infantry Division Mechanized (Ft. Stewart), and the 10th Mountain Division (Ft. Drum)—and the three active divisions that are dedicated to the defense of the Pacific region and South Korea.

What is also needed, however, is a mix of 3–5 highly mobile heavy divisions in CONUS and Europe that can deploy within a few weeks to several months and provide the armor, artillery, and heavy weapons necessary for medium and high intensity combat anywhere in the world. These forces will need suitable training, equipment, sustainability, and strategic lift. They will have to be combat ready, although not necessarily at levels of 100% and be able to draw on reserves for combat and service support.

The elements of such a force are already present in the units the U.S. has developed for Europe. What is lacking is the fast sealift and maritime prepositioning and the detailed programming priorities necessary to convert these forces from NATO-oriented to power projection forces. Such changes should be accomplished over the FY1992–FY1996 period.

The role of seapower and the carrier battle group

The U.S. has already cut back to 14 carrier battle groups and two surface action groups centered around our two remaining battleships. It now plans to drop to 12 carrier battle groups and 13 carrier air wings, and eliminate all its surface action groups by 1991. The cuts suggested in this plan would entail further cuts to a force of 10–12 carrier battle groups with each of the remaining battle groups built around a smaller force of escorts.

The importance of the carrier is illustrated by its role in recent power projection missions. Throughout our history, and even during the height of the Cold War, the U.S. has primarily used military forces in the context of regional conflicts. We have used military force well over 200 times since the end of World War II. The numbers are not precise and some regional conflicts obviously derived from the central confrontation between the U.S. and the Soviet Union, however, it remains clear that seapower was used in over 80% of these incidents and carrier forces were needed in over half.

The figures are more precise for the period between 1945 and 1989. We have used our naval forces 187 times in the period between 1945 and November, 1989. We used our carriers in 125 of these 187 cases, 67% of the total.

While it is impossible to characterize our uses of sea power it terms of simple categories or patterns, the vast majority of our naval deployments provided the kind of rapid reaction capability necessary to keep a crisis from escalating. We used force to prevent war, to limit escalation; or to protect American citizens, friends, and allies. There have been, however, many cases where seapower played a critical combat role, including South Korea, Vietnam, Grenada, and the raid on Libya—just to name a few.

What is equally important in terms of our future strategic needs is that we relied primarily on the U.S. Navy and Marine Corps teams. We used amphibious ships in 101 of 187 cases, just over half the time. During 97% of the times we deployed Marine Corps forces we used the U.S. Navy as well. The U.S. Navy has also worked closely with the power projection elements of the U.S. Air Force and U.S. Army. U.S. Navy and U.S. Air Force units were involved in 54 of the 187 cases, or 29%. U.S. Army forces were involved in 34 cases, or 18%.

It is easy to forget that we have never funded the number of carrier task forces necessary to meet the Soviet and Warsaw Pact threat. During the last two decades, requirement study after requirement study has shown that the U.S. would need in excess of twenty carriers in the event of war between NATO and the Warsaw Pact. As a result, even "Peacetime" deployments to the Persian Gulf have forced us to extend carrier tours of duty well beyond the desired time in order to maintain an effective naval presence in other areas.

This sharply limits the "peace dividend" in the form of surplus carriers that we can eliminate because of the changes in the Soviet and Warsaw Pact threat. The potential loss of significant overseas bases—which will probably be increased by the decline of the Soviet Empire—may also make the future burden heavier yet.

We have further increased the burden on our carriers by making cuts in the size of our battleship forces in FY1991. The role of the battleship is badly misunderstood. We have stressed its ability to provide naval gunfire and there is no doubt that such capabilities are important and that the carrier must now assume the role of providing close air support as a substitute for naval gunfire.

We should, however, be willing to adjust the strength of our supporting surface fleet—and the rate of modernization of naval air power, nuclear attack submarines, and fleet weapons systems—to deal with a less sophisticated threat than the Soviet Navy.

The Bush Administration has already recognized this fact in plans that call for cuts in battle force ships from 545 to 451 ships. These plans, however, call for major reductions in amphibious capability from 59 active and 3 reserve ships to around 50 active ships and no reserve ships.

In contrast, the Navy places too much emphasis on preserving capability to fight a major action with the Soviet navy. While the number of major surface combatants is planned to drop from around 140 ships today to 134 ships by the mid-1990s, it will rise towards the end of the decade and reach nearly 150 ships.

The U.S. does not need the capability for a "forward strategy" that would attack the Soviet fleet in its bastions in the North Atlantic and Pacific. Such a strategy and force posture have become needlessly provocative and needlessly costly.

The U.S. can afford to unilaterally adjust its naval force posture and exercise activity to convince the Soviet Union that the primary mission of the U.S. Navy is power projection and sea control and not to directly threaten the Soviet homeland. At the same time, the U.S. can join with the USSR in strengthening existing agreements and confidence building measures that provide both nations with increased confidence that seapower will not be used to threaten each other's territory.

The end result would be smaller battle groups with a focus on modernization, rather than maintaining force strength. The 600 ship navy never had strategic justification and wasted precious U.S. power projection assets. By cutting fleet strength, and converting added ships to the naval reserves, the U.S. can provide the modern escorts, mine warfare ships, and other "coastal combat" capabilities needed to deal with increasingly sophisticated Third World threats and still cut costs.

The Navy can also help improve the carrier force by ensuring that the new F–18E/F program is re-examined to ensure that it will fully meet the need for a longer range and more attack capable multi-role fighter. At the same time, it is difficult to see what justification exists for a separate AX program when there is a clear need for a high degree of commonality with the Air Force for a high performance attack fighter.

The Air Force and Navy should be directed to restructure the ATF program to emphasize attack capabilities. The U.S. simply cannot afford two major aircraft programs at this level of sophistication for the late 1990s and early 2000s. If this entails major delays in the Navy's schedule for the A–X, it should be directed to remanufacture the F–14 to provide a suitable interim capability. The resulting program savings should allow the U.S. to modernize other naval aircraft, maintain the necessary mix of active and reserve air wings, and still cut defense expenditures.

Finally, the Navy now has 87 commissioned SSNs. It should be able to reduce this force to 80 SSNs by the end of the decade, even without any naval arms control agreements with the Soviet Union. These force reductions seem well judged, but the Navy's force improvement plans do not.

Maintaining the active strength of the U.S. Marine Corps

The United States Marine Corps is an elite force designed to provide quick reaction global power projection capabilities. It now has a strength of three active Marine Expeditionary Forces: These are land-air-amphibious task forces built around three divisions.

Two of these divisions are oriented towards the Pacific and Indian Ocean area: The First Division at Camp Pendelton and Twentynine Palms and the Third Division at Okinawa and Hawaii. The other division is oriented towards the Atlantic and Mediterranean Basin: The Second Division at Camp Lejune, North Carolina, and one in Okinawa. The key element of the Corps located outside the main division bases include a brigade in Virginia, a brigade and air group in Hawaii, air units in Arizona, and a wing in Japan.

Some reductions in Marine Corps manpower strength are possible by cutting smaller units, but the Bush Administration now plans cuts that are too large. The MEFs now have only two brigades and one air wing each. Some are units assigned a secondary training role. The U.S. cannot achieve meaningful economies by cutting fully ready power projection forces, particularly since they already have seaborne prepositioning and sustainment. If the U.S. should destroy this existing capability, it will almost certainly find that it will have to be recreated later at greater cost.

Further, the Marine Corps must be given all the contingency capabilities needed for power projection in medium intensity, as well as low intensity combat, and mission capabilities with added sustainability and combat capability that is less tied to amphibious operations. The present structure of the Corps has created a force that is too light for many of the power projection missions of the 1990s, and which is too tied to a traditional role in "over-the-beach" operations. The U.S. cannot afford to limit one of its most critical power projection capabilities in this manner.

The Marine Corps must have the strategic and theater lift it needs to be effective, and the artillery and tanks to sustain itself in medium and high intensity combat. In the case of strategic and tactical lift, this requires a comprehensive re-examination of current U.S. amphibious lift plans which will now severely weaken the Corps' contingency capabilities after the mid 1990s, and a firm decision regarding procurement of the V–22. It also requires the development of an integrated long term plan that ties together amphibious lift, tactical airlift, maritime prepositioning, and overall sustainability.

The Corps also needs enough firepower and maneuver capability to deal with the armored forces of the best equipped developing nations. Marine forces are now too lean to provide its forces with the modern tanks and self-propelled artillery that are vital to effective future operations.

Marine Corps divisions with clear contingency missions are far less well equipped than Army reserve heavy divisions, whose European contingency mission no longer has its past priority. During the Gulf War, this led to a situation where Marine Corps divisions had obsolete M–60A1 tanks, while reserve units that remained in the U.S. had M–1s. This situation needs to be fully reexamined. It may be possible to upgrade Marine Corps land forces by reprogramming procurement funds away from Army reserve units.

Similar problems exist in Marine Corps tactical aviation. The problems in modernizing U.S. Navy aircraft have led to a situation where no clear plan exists to fund the modernization of Marine Corps tactical aircraft. The AV–8B badly needs upgrading and modernization and a clear plan is needed for the overall modernization of Marine Corps fixed wing and rotary wing aircraft.

Finally, we must firmly accept the fact that the basic rationale for the Marine Corps is that its forces already exist, are fully funded and ready, and provide a vital strategic capability. The issue of whether the Marine Corps does or does not duplicate the Army in some capabilities is moot. Combining the forces, or "rationalizing" them in some other fashion would not save money or improve U.S. power projection capabilities, and would almost certainly leave a lasting legacy of problems in morale.

Preserving the power projection capabilities of the U.S. Air Force

The Air Force provides high technology strike power, air defense capabilities, and strategic lift that can rapidly deploy to any friendly base, rapidly changing the regional balance of power in most non-NATO contingencies. In combination with Navy and Marine Corps aviation, it forms the most effective single branch of our power projection capabilities in terms of the ability to react quickly to an unforeseen crisis, support allied and friendly forces, and confront hostile Third World states with capabilities they cannot defend against effectively or match in strike power.

The Bush Administration plans to cut the total number of Air Force tactical fighter wings from 36 to 26 wings, with active wings being cut from 24 to 16 wings. The suggested force cuts would add 2 to 4 active and 5 to 7 reserve wings to this total. The remaining force is a bare minimum to provide power projection capability while providing a prudent reserve for other contingencies. The U.S. must not risk cutting this strength further, or its mix of Navy and Marine Corps aviation.

There is a high risk, however, that such forces will be inadequate because the Air Force has not funded the F–15E or any other long range high capability strike fighter for the late 1990s or early 2000s. The present program calls for a moderate range and capability multi-role fighter and an extremely expensive fighter oriented for air defense may—like funding of the B–1—be an outdated expression of the past mission emphasis of the Air Force and the Cold War.

Emphasis should be given to developing an upgrade of the F–16 or F–15 to provide improved attack capability in a multi-role fighter, while reorienting the ATF program to emphasize long range and high performance attack capability.

If the U.S. Air Force slows the pace of other aircraft and weapons modernization, as has been suggested earlier, and makes the proper cuts in strategic forces, it should be able to fund the mix of active and reserve tactical air forces it will need for the 1990s. The Air Force should also have sufficient resources for its airlift and surveillance and reconnaissance missions.

The Air Force and Navy both need to reexamine their plans for air munitions. Both are now committed to a number of very advanced missile programs, and are canceling production of proven systems like the Phoenix and Maverick. It may well be able to sustain the munitions levels it needs for proper sustainability by continuing production of advanced versions of existing missiles, and slowing the procurement schedule for more advanced systems.

Changes in U.S. strategic lift

Operation Desert Shield and Operation Desert Storm were only possible because of U.S. strategic lift. During the period before the war started (through December 31, 1990), the U.S. was able to move more than 300,000 troops and 305,000 short tons of cargo by air, 220,000 ton of equipment and supplies and 190,000 barrels of fuel from its prepositioned ships and tankers, and 2.5 million short tons of cargo using sealift.

Current U.S. strategic lift plans are sized to provide two major capabilities. First, to deploy about five Army divisions, along with tactical fighter and naval forces, in about six weeks. Second, to augment the U.S. forces in Europe with about 4 Army divisions, 30 tactical fighter squadrons, 1 Marine Expeditionary brigade, and their associated support within 10 days, and to deploy the remaining forces in two to three months. In addition, the U.S. has nine Maritime Prepositioning Ships (MPS), 8 afloat prepositioned ships, and 2 prepositioned tankers.

The U.S. no longer needs all the lift required for the European augmentation mission. This is a vestige of the Cold War. The U.S. does, however, need sufficient lift to deploy heavy Army divisions for a high intensity conflict in the Third World, suitable lift for its tactical air forces, and the amphibious lift and prepositioning ships needed for the Marine Corps.

The U.S. now has an aging fleet of air transport aircraft, and one key aircraft—the C–141—may have to retire earlier than planned. This makes procurement of the C–17 a critical priority for power projection. The U.S. is also dependent on eight fast deployment ships, 23 other cargo ships, 41 tankers, and an aging Ready Reserve Fleet assigned to the Maritime Administration, which currently has very low operational readiness.

The U.S. must create a new affordable mix of strategic and tactical lift that ensures the C–17 will be procured on schedule, and that sufficient fast sea lift ships are available to rapidly move several Army divisions. It needs at least one more maritime prepositioning ship for the Marine Corps. It does not need to fund sealift for a major European war.

The Air Force may have suitable funding plans for the C–17 in the FY1992–FY1996 program—although much depends on the ability to avoid past problems in cost growth and program management. The Navy, however, is again "studying" the sealift problem, plans major cuts in the amphibious force, and force of ammunition, supply, repair, and salvage ships. It also has not funded the added maritime prepositioning needs of the Marines.

Secretary Garrett has stated that, "The lessons learned in Desert Shield and initial analyses conducted in the requirements study indicate that large, roll-on/roll-off ships in the speed range of 19 to 25 knots should be the general target of our acquisition program, and that, "we hope our analysis will be completed some time this summer to provide a firm requirement . . ."

This issue has been studied long enough. The FY1993 budget submission should have a clear request for funding and operating the additional fast sealift ships needed for power projection, it should fund at least one more MPS ship, and should fund an adequate level of amphibious forces and modernization. It should also examine buying maritime prepositioning for the Army and accelerating the draw down of Army prepositioned equipment in Europe. At the same time, the U.S. military cannot and should not subsidize the U.S. commercial fleet and ship building industry. The sealift we need should be procured in the most cost-effective manner possible.

Further, both sea and air lift requirements should be sized for power projection. Present requirements are sized for long, relatively intensive wars that begin with little or no warning. Major improvements in airlift are funded around a troubled program—the C–17—with sealift given lip service. Strategic lift capabilities are not adequately tied to theater lift, and lift requirements have not been regularly updated to deal with changes in contingency requirements.

The U.S. needs to eliminate reserve fleet ships and subsidies to merchant shipping geared to long wars in Europe. Clear decisions are also needed regarding the relative merits of a C–130 follow-on, the V–22, and heliborne lift. This will not achieve savings, but it will create a more effective force mix with the lower strategic lift budgets planned for the 1990s.

Savings in support and infrastructure

Even in the case of power projection forces, it should be possible to achieve major savings by making major cuts in the large numbers of headquarters units, support commands, and other "infrastructure" forces and facilities in the U.S., and in costly overexpansion efforts like "homeporting".

Too much of our current debate over defense spending focuses on the units we need most, and ignores the fact that behind our combat forces is a massive structure of other elements tailored for the contingency of a massive conventional war in Europe. This is the real "fat" in our defense effort and it should be possible to make 10–15% cuts in all headquarters and infrastructure forces over the next two fiscal years. This will achieve a major additional "peace dividend" with minimal impact on our contingency capabilities.

At the same time, it is essential that we restructure our reserve and National Guard forces to provide the kind of reinforcement and sustainability we need for regional contingencies. Reserve and National Guard forces are highly cost-effective—when they are given the resources they need—and they are tailored to missions they can perform without major additional training in a crisis. We need to restructure our reserves to support power projection, rather than a war in Europe.

Creating a new total force concept to balance active and Reserve Forces

This shift to a power projection force posture must be accompanied by the creation of a new total force concept. In spite of recent reports by the Department of Defense, there is no total force concept that ties together plans for active and reserve force strength, manning levels, training readiness, lift and sustainability. Each of these areas tends to be dealt with separately, and "war stoppers" often exist in one or more areas while the others are fully funded.

These problems are compounded by a command structure that originated at the height of the Cold War. We need to re-examine present command structures and the roles and missions of these commands. In particular, it does not seem useful to continue to put Africa under USEUCOM, or leave USCENTCOM so vaguely defined in terms of its associated forces and supporting seapower.

TECHNOLOGY, PROCUREMENT, AND DEFENSE INDUSTRIAL POLICY

Implementing the preceding plans will ease some of the growing problems in preserving our defense industrial base in the areas where we need it most by maintaining the production of existing systems and slipping advanced technologies until they are more mature and affordable.

There is no question, however, that the Department of Defense must stop attempting to deal with the defense industrial base as if a government subsidized mix of highly specialized companies could adjust to defense cuts on the basis of market forces and still preserve the ongoing surge production capabilities, and mix of overall production capabilities, needed during the next decade.

The Department of Defense needs an integrated plan for research and development, procurement, and the defense industrial base which uses competition where this is still possible, but which ensures that a mix of low rate production and emphasis on "centers of excellence" and contingency production capabilities in the U.S. can meet its future needs.

This requires a fundamental change in the way the Department of Defense treats procurement and in the way the Congress reviews both R&D and procurement. The Department has consistently ignored the economic realities that defense industry faces, and has tried to shift the burden of defense cuts to industry without considering what must be done to keep production capability alive.

It has cancelled existing production programs, and created potential production gaps of half a decade or more, as if private industry could somehow "mothball" design and production capabilities. It has stressed efficient rates of production to produce short term savings in unit cost without adequate consideration of what this is doing to the long term efficiency of the American defense industry.

The Department has also failed to come to grips with the need to make clear choices between the preservation of critical production capabilities in the U.S. and interdependence with our friends and allies. The U.S. cannot afford either excessive dependence or futile efforts at autarchy.

At the same time, the Congress has increasingly attempted to micromanage the Department's research and development programs in ways that serve various state and local interests, but are divorced from the fact that no lead in technology is meaningful unless it can be transformed into affordable military equipment. It has risked overfunding research that cannot be translated into procurement, and underfunding the development activity defense industries needed for actual production.

Both the Department and Congress have also failed to put sufficient emphasis on finding ways to transform military designs to make increasing use of technology and production capabilities in the civil sector. The need to shift the design focus of military procurement away from specialized components and production capabilities has been given little more than lip service.

In short, the U.S. must develop a clear plan for defense production and maintaining the key elements of our defense industrial base that focuses on meeting military needs, while carefully avoiding subsidies to given industries and "critical technologies".

While the Bush Administration has indicated that it will address these issues in its FY 1993 defense budget request, its plans remain vague and poorly defined. They are also limited by a Congressional focus on cooperative projects with our allies that have generally failed to save money, produce effective equipment, and meet U.S. requirements, and by a focus on "critical technologies" which involve extensive guesswork about future military needs, are often isolated from the needs of civil industry, and are more suitable to the Cold War than power projection.

What is clearly needed is a focus on actual procurement needs and the production and R&D base necessary to meet them. We need to preserve critical production capabilities or we will never be able to make effective use of critical technologies. We also need to know when we must turn to production methods and technologies available in the civil sector because we can no longer afford to maintain a defense industrial base that is decoupled from the civil economy.

This requires a new type of industrial planning by the Department of Defense, and we must recognize the special nature of the defense industry and the fact that the only way we can deal with the coming cuts in defense procurement is to have a clear defense industrial plan. Half measures, and a focus on technology, will not cope with the problems we face in reshaping key industries like aerospace, electronics, ship building, and nuclear reactor construction to meet our future needs.

BURDENSHARING AND COOPERATION: THE OTHER ELEMENTS OF A PEACE DIVIDEND AND EFFECTIVE STRATEGY

Finally, a peace dividend and power projection strategy must take into account the need for improved cooperation with our allies, and effective burdensharing. The U.S. must not plan its forces in a vacuum. It must accept the need for regional and global partnerships.

The role of allied nations

In the case of Europe, the end of the Cold War means that the defense of Europe should become a European problem. This does not mean that the U.S. should abandon Europe. It does mean that Europe should contribute a far larger portion of Europe's defense, that it should cease to ask the United States to dedicate land and air forces solely to the defense of NATO, and that the U.S. should act quickly and decisively to make Europe assume responsibility for a greatly increased role in its defense.

In the case of Japan, Japan does not need to expand its forces, but it does need to formally accept the fact that the primary function of the strategic partnership between the U.S. and Japan has shifted from the defense of Japan against a Soviet threat to the preservation of strategic stability in Northeast Asia, the Pacific, and Southwest Asia.

More broadly, our wealthier European, Japanese, and Gulf allies must share at least the financial burden of executing those power projection missions that serve their regional and global interests. If they do not play an active military role, they must use their wealth to aid those who do, and to match military action with the economic and military assistance which is often a vital supplement to, or substitute for, the use of military force. There is no partnership without participation, and Germany and Japan must realize that the time has ended when they can stand aside from their responsibilities.

The role of military assistance

Like burdensharing, military assistance is a critical "force multiplier" in an era where the U.S. must cut its own forces and capabilities. The U.S. cannot afford to be the world's policeman; it can only act in conjunction with regional allies, and its allies must be strong enough to deter or counter low to mid-intensity threats wherever possible.

This requires the U.S. to make fundamental shifts in its approach to military assistance from an approach centered around containment of the Communist threat to one centered on regional peace and stability. In many regions, particularly the Gulf and Asia, military assistance also now means providing the weapons and technical assistance our allies need at fair market value, rather than through grants or preferential loans.

This does not mean that the U.S. should encourage massive arms transfers to its allies, or see such arms transfers as the solution to regional arms races. It does mean that the U.S. should do everything possible to encourage regional solutions to regional problems, and should limit its forward deployed and over-the-horizon forces to roles that its allies cannot assume.

Using the advantages of foreign deployment while minimizing costs

The U.S. must adopt a clear strategy towards foreign deployment and basing (with its attendant reliance on allies), burdensharing and military assistance. Both we and our allies need to recognize that we cannot base our strategy and force structure on a "go it alone" approach to power projection. The U.S. must limit its commitments and costs by steadily integrating its power projection concepts with those of regional friends and allies.

The U.S. can almost certainly make reductions in its present overseas strength—even in major threat areas like Northeast Asia. We need to recognize, however, that these forward deployed forces offer the maximum degree of deterrence and ability to deal with a crisis or conflict early enough to minimize the required use of force.

In many cases—particularly Japan and South Korea—our allies have already increased their burden sharing efforts to the point where forward deployment will be cheaper than relocating and maintaining these forces in the U.S. and paying for the strategic mobility required to send them back under emergency conditions. In all cases, active forces in the U.S. will have far less deterrent value and reserve forces will be so intangible that they may have no deterrent value at all.

The role of arms control

Wherever possible, we must use arms control as a substitute for arms, and we must reexamine how arms sales and military assistance can act as a substitute for U.S. military power.

START and CFE already are examples of the kind of agreements that both help achieve military stability and deter war, and that offer both the U.S. and USSR the ability to substantially reduce defense spending in areas that no longer have a major priority for either nation.

We need to aggressively push arms control options in the other parts of the world. Arms control efforts like the renegotiation of the Nuclear Non-Proliferation Treaty, Biological Weapons Convention, draft Chemical Weapons Convention, and Missile Technology Control Regime offer the safest and cheapest road to eliminating the risk of conflicts involving the use of weapons of mass destruction. The end of the Cold War offers a steadily expanding range of opportunities for East-West action in each area, and allows us to rethink all our present objections to intrusive inspection.

We also need to explore every possible route to halting the shipment of conventional arms and military technology to aggressor and terrorist states. The supplier's conference is a first step to this end, but we need to develop a clear recognition on the part of both East and West that there are no real profits in the arms trade to such countries. The end result inevitably conflicts with which cost supplier nations far more in terms of overall trade, aid, and military action than any such arms sales are worth.

Finally, we need to consider whether we can enhance our security and achieve major savings by seeking naval arms control with the USSR in sizing our respective submarine forces. The SSN is the primary threat to the SSBN forces of each side, to the maritime traffic of the West, and to the security of Soviet naval bastions. The ASW/SSN race is also one of the most expensive aspects of defense activity by both the US and USSR.

While most forms of naval arms control present the problem that the U.S. and USSR have fundamentally asymmetric strategic needs, reducing SSN strength and modernization rates might well suit the needs of both sides. They could also achieve broader strategic stability and permit larger reductions in strategic weapons.●

AIDS UPDATE

● Mr. CRANSTON. Mr. President, according to the Centers for Disease Control, as of October 31, 1991, 199,406 Americans have been diagnosed with AIDS; 126,491 Americans have died from AIDS; and 72,895 Americans are currently living with AIDS.

Mr. President, two recent events will likely change—perhaps dramatically—the face of the AIDS epidemic in the United States. One is the announcement of basketball star Magic Johnson of his HIV-positive status, prompting an awakening by many Americans to the reality of who gets AIDS and how. The other is a new definition of AIDS by the Centers for Disease Control, a move that will broaden the current clinical disease manifestation diagnosis definition to include anyone who is HIV positive and shows evidence of immune system suppression.

The disclosure by Magic Johnson shattered the stereotypes much of our society holds about those who acquire AIDS. Johnson is one of the world's most accomplished and admired athletes. He acquired the AIDS virus, by his own account, through unprotected heterosexual sex. For millions of Americans, the implication is clear: As medical authorities have long warned us, the AIDS virus is not a respector of sexual orientation, or gender; drug abuse is not always a cofactor. So-called high-risk groups are not the only ones to get AIDS—in fact, who you are has nothing to do with whether a person is in danger of being infected. What matters is what a person does.

Magic Johnson's decision to go public about being HIV-positive is a profound public service. Millions of Americans, especially young Americans, are getting a critically important lession in the epidemiology of AIDS. Lives will have been saved by Magic Johnson's selfless action. More lives will be saved by his decision to making fighting the AIDS epidemic a personal mission. I am heartened, too, by President Bush's announcement that he intends to appoint Magic Johnson to the National Commission on AIDS.

In January 1992, the Centers for Disease Control will redefine AIDS, replacing the definition last revised in 1987. The proposed new CDC guidelines will measure the degree of immune suppression by the loss of T-helper (CD4) cells and will no longer rely solely on clinical disease diagnosis. Under the previous AIDS definition, persons were diagnosed as having AIDS when certain medical symptoms appeared, many of which are now seen as advanced indicators of the disease. The new definition will allow for an earlier diagnosis of AIDS, triggered by reliable indications of a compromised immune system, which will allow many people to get earlier treatment and to plan better for the long-range effects of their illness, both medically and financially.

Dr. James Curran, head of the AIDS division at the CDC's National Center for Infectious Diseases, predicts that the broader definition could add 150,000 to 200,000 to the national AIDS caseload. Early drug therapy, already proven to be very important, will become vitally important, as will the need for early treatment and counseling of lifestyle changes. As we now know, the onset of more serious manifestations of the AIDS virus can be at least delayed by early diagnosis and treatment and the quality, even the quantity, of life for the HIV-positive person can be greatly enhanced.

As we look ahead in Federal policy making, there are issues raised by the redefinition of AIDS that will require attention. Federal funding formulas are often linked to the CDC definition of AIDS. Under the Ryan White CARE Act, for example, as many as nine new title I cities—cities heavily impacted by AIDS cases—may qualify for Federal assistance under the new AIDS definition. Under programs such as Social Security the new definition will likely affect the criteria for presumptive eligibility. There will be an impact on the drug approval process, since the CDC definition of AIDS is often used as an endpoint in clinical trials and CDC counts are often the basis for determining the efficacy and approval of experimental therapies.●

THE VETERANS HEALTH CARE AMENDMENTS ACT OF 1991

● Mr. KERREY. Mr. President, I am pleased to support S. 869, the Veterans Health Care Amendments Act of 1991.

This legislation will expand the medical services available through the Veterans' Administration, especially in the areas of post-traumatic stress disorder [PTSD] and mental health research and education. It also includes a new effort to meet the needs of homeless veterans.

The National Vietnam Veterans Readjustment Study [NVVRS] documented a large unmet need for PTSD treatment and services. Yet attention to this need has been slow to materialize. We have added some funds in the appropriations process over the past several years to initiate programs but it is only with this legislation that service people will qualify for care without going through the lengthy process for formal adjudication of service connection. In addition, various outreach and counseling services for PTSD are authorized.

S. 869 also requires the VA to establish five mental illness research, education, and clinical centers. The purpose is to improve and expand the capability of VA health facilities to respond to mental illness disabilities, such as PTSD, schizophrenia, and drug and alcohol abuse. They would be charged with research, training and education of professionals, and development of new models for care and treatment. The centers are to be affiliated with medical schools.

Studies have suggested that the number of homeless veterans probably ranges between 150,000 and 250,000. Many of these veterans are mentally ill and/or have serious medical problems. The legislation builds upon the efforts that are underway, extending the Homeless Chronically Mentally Ill Veterans Program, requiring a new assessment of needs of homeless veterans, authorizing a new pilot program of cooperation between the VA and community-based organizations at 15 sites and expanding the domiciliary care program.

Finally, the bill makes numerous other changes in VA health care which are designed to make the VA health care system more responsive and efficient.

My experience as a veteran has taught me the need for quality health care. My experience as a member of the VA-HUD-Independent Agencies Appropriations Subcommittee has taught me the scope and complexity of health care problems facing our veterans today and in the future as our veterans population continues to age. This legislation is another step in our efforts to provide the quality of care which our veterans need and deserve.●

TRIBUTE TO JOHN FINNAN

● Mr. McCONNELL. Mr. President, I rise today to recognize an outstanding Kentucky businessman who has left behind 17 years of success in the corporate banking world to pursue his dream of opening a small community bank in northern Kentucky.

This summer, John Finnan left his job as senior vice president of the largest financial institution in northern Kentucky to begin working on plans for Peoples Bank of Northern Kentucky, an institution he envisions as a local, personal bank. Since August, Mr. Finnan has been working around the clock from his Fort Mitchell dining room, lining up investors. Already, the new bank shows promise of success.

The Federal Deposit Insurance Corporation has approved Finnan's bank, and Peoples Bank of Northern Kentucky is now scheduled to open January 2, 1992. Mr. Finnan had originally planned to sell $4 million in stock for startup capital. However, interest has been much higher than expected—more than 200 people have invested $6.5 million in the bank, and Mr. Finnan expects the total to reach $7 or $8 million by January.

John Finnan's decision represents his ongoing commitment to the people of northern Kentucky. He says he's always dreamed of operating a bank where the customers are known by their first names, and are more than just account numbers.

Mr. Finnan is also an active community leader. He has been a member of the Spiral Festival board, Junior Achievement board, and Greater Cincinnati Red Cross board. He also just finished a stint as chairman of the Northern Kentucky Chamber of Commerce.

Mr. President, I congratulate John Finnan for his efforts, both personal and professional, to further enhance the quality of life in northern Kentucky. Please insert the following article from the Kentucky Post into the RECORD:

[From the Kentucky Post, Oct. 22, 1991]

BANKER TAKES CHANCE ON DREAM

(By Tim Stein)

After 17 years climbing the corporate ladder at established banks, John Finnan quit.

Since Aug. 1, he's worked 12- to 18-hour days in his Ft. Mitchell dining room lining up investors in his dream.

That dream will take Finnan from senior vice president of Star Bank, the largest financial institution in Northern Kentucky, to president of a small community bank that will first open in a Kenton County trailer.

"It was a big chance, but it was one I needed to take," Finnan said. "I've always thought there was a market for a local, personal bank. But unless I took the chance there was never going to be a way for me to find out."

Finnan will find out soon.

The new bank has been approved by the Federal Deposit Insurance Corp. and will open Jan. 2 near Lookout Farms in Crestview Hills.

Already, the new bank shows promise of success.

Finnan had planned to sell $4 million in stock for start-up capital. But more than 200 people have invested $6.5 million in the new bank. Finnan expects that total to reach $7 million or $8 million before it opens.

"It's already gone way beyond my complete expectations," said the 38-year-old Finnan. "It's been very reassuring that people believe in me and the concept of the new bank enough to purchase that much stock."

Most of the bank's founders are not bankers, Finnan said.

"The people who are investors are neighbors, are friends, are people who I've dealt with on a professional level for the 10 years that I've been here," he said.

"Never in my wildest dreams did I think it would take off like this," Finnan said.

But success has followed Finnan throughout his banking career.

Finnan, 38, who grew up in Richmond, Ind., graduated in 1975 from Miami University, Oxford, Ohio, with a degree in business administration.

His first banking job was as a teller at Richmond Bank during the summer of 1974.

"I fell in love with banking that summer and decided that's what I was going to do for a living," Finnan said.

After graduating, Finnan became a management trainee with Richmond Bank, then moved up to branch manager in 1976.

He graduated from Ball State University, in Muncie, Ind. in 1978 with a masters degree in management, and progressed to installment loan officer, commercial loan officer and in charge of branch banking with Richmond Bank.

In 1980, Finnan went to work in Jacksonville, Fla. for a statewide banking institution that loaned money to retail businesses.

In December 1981 he moved to Northern Kentucky, where he became vice president of branch adminstration and marketing for Peoples Liberty Bank.

He moved up to executive vice president of Peoples in March 1986, and became president of Peoples Liberty Banking Corp., in December 1987.

When Star Bank bought Peoples Liberty in 1988, Finnan remained with Star as president of its Kenton County affiliate bank, and then as senior vice president when its Northern Kentucky operations merged.

The merger of Star's Northern Kentucky operation and Kentucky National Bank earlier this year created the largest bank in the area, but Finnan felt it also left a void.

He saw his chance to open a community bank.

The new bank will be called Peoples Bank of Northern Kentucky. "It (the name) has name recognition from Peoples Liberty Bank name and it also gives the image that we're trying to project," Finnan said.

"I've always dreamed of operating a bank where you know your customers by a first name basis, and where people are more than a checking account for loan number," Finnan said.

"I could have played it safe and stayed with Star, which is a fine institution," he said. "But this was an opportunity for me to proceed with my dream."

Finnan works on that dream from 6:30 a.m. until after midnight most days.

"I really thought I would have some time to myself since I was working out of the house, but boy, I was sure wrong," he said. The phone rings more than 25 times a day with people interested in buying stock or finding out more about the new bank.

"If I'm not on the phone then I'm doing paperwork. If I'm not doing paperwork I'm out somewhere at a meeting.

"I'm all there is right now, and I really don't mind the long hours," he said. "When the bank finally gets off the ground, I'll probably have some time to myself."

At least he hopes so.

Finnan, who is divorced, plans to remarry next month.

A year or so ago Finnan attended his high school reunion in Richmond, and remet classmate Susan Kinder. Although they didn't date in high school, Finnan said they hit it off well and fell in love. The couple plans to take a short honeymoon.

"We'll take an extended honeymoon next summer after the bank opens," Finnan said. Finnan has an 8-year-old daughter, Stephanie, who lives with him.

Finnan has also been very active in the Northern Kentucky community.

He has been a member of the Spiral Festival board, the Community Chest board, Junior Achievement board, Greater Cincinnati Red Cross board, just finished a stint as chairman of the Northern Kentucky Chamber of Commerce, and was in charge of the United Way drive in Northern Kentucky several years ago.

"I love this area, and I plan to stay here for the rest of my life," he said.●

RETIREMENT OF WILLIAM NAHAS

● Mr. DODD. Mr. President, I rise to pay tribute to Mayor William "Willie"

Nahas, whose inestimable contribution to the city of New London cannot be overstated. Last week, Mayor Nahas passed the reigns of city governance to his successor, Mr. Anthony R. Basilica, after 20 years of faithful service on New London's city council. Swinging the gavel for the last time as Mayor on November 18, Mayor Nahas presided over the changing of New London's guard with amiable grace and honesty that has characterized his political career and earned for him the trust, respect, and reverence of the community.

Known affectionately to all, from constituent to colleague, as Willie, Mayor Nahas' approach to leadership placed the city's needs before party affiliations and personal advancement and, by the strength of his example, achieved a spirit in municipal government of true bipartisanship. Indeed, Willie's ties to the Republican Party have always been incidental to his politics, guided as he is by a devotion to the well-being of New London and an ardent parochial loyalty in short supply these days.

The adjournment of Monday's city council meeting marked the resignation of this mayor for all seasons who has sometimes stood alone, amidst a furor of doomsayers, in his unflagging optimism and belief in the certain recovery of the beleaguered New London economy.

No one who knows Willie doubts that his rich trove of experience and his great commitment to seeing New London on top again will continue to influence and enhance that city's political landscape. For me and all these who have been privileged to witness the effect of Willie's terrific spirit on a community determined to carry out his vision for it, Willie will always be on top.●

THE CONVENTIONAL FORCES IN EUROPE TREATY

● Mr. KERREY. Mr. President, I would like to express my strong support for ratification of the Conventional Forces in Europe [CFE] Treaty.

While the world has changed dramatically since this treaty was negotiated, and even since it was signed, it represents an important step that will assist us in making greater arms reductions down the road with the START Treaty and beyond.

The CFE Treaty's preamble lays out three primary objectives: To establish a secure and stable balance of conventional armed forces in Europe at lower levels; to eliminate disparities prejudicial to stability and security; and to eliminate the capability of a State or States to launch a surprise attack or to initiate large-scale offensive action in Europe.

On all three counts, I believe ratification of the treaty is justified. By requiring major cuts in Soviet Armed Forces, the treaty will enhance the security of NATO nations and also the emerging democracies of Eastern Europe. It codifies the Soviet Union's military withdrawal from Eastern Europe and promotes stability in the region. It will allow us to continue to move beyond the framework of the cold war to a new era characterized by cooperation rather than competition.

The treaty is an important benchmark. It requires that the Soviet Union destroy or disarm more than 20,000 of the 73,000 tanks, artillery, and other heavy weapons used by its forces west of the Urals. This figure, however, does not include the reductions in Soviet conventional power in Europe since the CFE negotiations began in 1989. When measured against the level of Soviet weapons deployed less than 3 years ago, the Soviet Union's arsenal will be reduced by more than two-thirds under the treaty.

I am pleased that the Senate adopted amendments related to the potential impact of future events in the Soviet republics. In particular, I support a move requiring that the administration seek Senate approval of any treaty changes required if the Soviet Republics split off and disavow the agreement. I also support Senator COHEN's effort to require the President to seek a Senate resolution of support if the decision is made to stick with the treaty even if a republic does not observe the weapons ceilings. The issue of republics' adherence to the treaty is an important one. In the event that one or more republics decline to respect the treaty it is important that we make their adherence to the treaty a high priority.

I welcome the changes called for in this agreement.●

YOUTHBUILD ACT OF 1991

● Mr. D'AMATO. Mr. President, today I am pleased to join my distinguished colleague from Massachusetts, Mr. KERRY, as a cosponsor of Senate bill 1100, the YouthBuild Act of 1991.

The effects of this legislation are far-reaching. By coordinating education and employment opportunities, it provides school dropouts the opportunity to develop technical skills while allowing apprentices to gain on the job experience and training. There is also a second and equally important facet to this legislation, and that is the role that it will play in combating homelessness and fostering neighborhood improvement.

The need for this type of program is overwhelming. Just last year we had 36,471 high school dropouts in my State alone. We also have countless numbers of homeless people on the street every night. Millions of people nationwide are being priced out of their homes. We need affordable housing. We need skills training for disadvantaged youth. This program merges those desperate needs.

Already there are three highly successful YouthBuild programs in my State alone. These programs have become models for similar programs nationwide and in fact serve as the model for this legislation.

The roots of YouthBuild came out of Manhattan and the Youth Action Program of East Harlem. The Youth Action Program provides a comprehensive approach toward expanding life choices and work opportunities for Latino and Afro-American youth. Youth Action's Construction Training Program provides school dropouts with construction skills while they rehabilitate abandoned buildings for badly needed housing for the homeless and low-income families.

In New York City, the Youth Action Program is currently rehabilitating a row of abandoned tenant buildings in East harlem which at one time housed a local gang. These programs are working in neighborhoods of high crime and drug activity. They have become a ray of hope for disadvantaged youth who would not otherwise have this opportunity to improve their life.

But there is more to the YouthBuild Program than the benefits attained from the skills, training, and workplace experience for disadvantaged youth. In preparation for employment in the construction field the individuals involved in these programs supplement their work experience with classroom academics and have the opportunity to earn their graduate equivalency diploma. Individual counseling, peer support, drivers training, parenting skills, and a host of other activities help make this a successful program.

The YouthBuild Program, and this legislation, contain valuable ideas. I believe that the Congress should include these ideas in next year's housing bill or other legislation. The Federal Government ought to support local efforts to revitalize communities and build a high skills, high quality, high performance work force for tomorrow. It's time that we invested in human capital, an idea that has been overlooked for too long.

Finally, Mr. President, let me reiterate how this program simultaneously addresses many serious problems affecting our youth, our cities, and our country. This bill supports a proven program that encourages and enhances the opportunities for disadvantaged youth to obtain education and develop employment-related skills that will enable them to enter the work force as productive employees and good citizens.

The youth are weighed down by anchors of drugs, crime, poor public education, and scarce employment opportunities. This bill attempts to cast off those anchors and enables the program's participants to chart their own course in the Nation's economic waters. As they do so, they will contribute to the economic growth of the entire country—increasing productivity, unleashing potent economic forces, and improving the financial position of all citizens.●

THE PRIMARY HEALTH CARE INVESTMENT ACT OF 1991—S. 1912

● Mr. PACKWOOD. Mr. President, I have signed on as a cosponsor of S. 1912, the Primary Health Care Investment Act of 1991.

This bill, introduced by my distinguished colleague, Senator DOMENICI of New Mexico, would be a transfusion of hope into our community health centers. This is particularly true in the rural areas of my State of Oregon, where many people will be the recipients of this primary care.

At the present time, 6 million people receive comprehensive primary and preventive health care through our Nation's community health centers. Eight million more people who presently do not have any health insurance will be helped by this legislation. The bill expands the Community Health Center Program by authorizing a 20-percent increase in funding for each of the next 5 years.

The Community Health Center Program is often overlooked as one of the very bright spots in our oft-maligned health care delivery system. Specifically, Mr. President, at a time when health care access and costs are one of our country's most talked about concerns, this bill goes a long way toward helping those Americans with no primary and preventive health care. There is just not another health care program for so many people for so few dollars.

According to the Congressional Budget Office, the community health centers provide primary care to the uninsured for under $90 per patient a year. Under the Medicaid Program, the cost to the system is $625 per person, 600 percent more. Imagine, $90 instead of $625 per person.

The bill also helps those rural areas where there is a critical shortage of health care professionals. It increases the funding for the National Health Service Corps [NHSC] Recruitment Program.

The legislation helps get more caregivers to our underserved rural areas and also into our inner cities. It also encourages hospitals to start recruiting and training more primary care physicians right now.

Mr. President, I am pleased to add my name as a cosponsor of S. 1912 and urge my colleagues to consider doing the same.●

● Mr. DODD. Mr. President, I rise today to pay tribute to a remarkable woman known for her outstanding work for her State of Connecticut and for the entire Nation. Mr. President, this woman is Marian L. Heard, and I am proud to announce that she has recently been named the first woman and the first African-American to head the United Way of Massachusetts Bay.

Marian has been with the United Way of Eastern Fairfield County since 1974, having joined as a child care program specialist. At the United Way, Marian has served in a wide range of positions including director of membership, director of allocations, director of operations, and associate executive director. In 1989, she was appointed executive director and in 1990 was appointed president and chief executive officer. As president and chief executive officer Marian played an integral role in the administration of the United Way community service system affecting the towns of Bridgeport, Fairfield, Easton, Stratford, Trumbull, and Monroe.

In addition to serving on several regional United Way committees, Marian has served her Bridgeport community as a member of the Governor's child day care council, as an instructor at Housatonic Community College, and as a leader in fighting the battle against cocaine use in Bridgeport.

It comes as no surprise, Mr. President, that Marian has received much recognition for her community service. She has won awards from such social service organizations as the American Cancer Society, Big Brothers and Big Sisters of Fairfield County, the United Way of America, and the YWCA.

At the national level, Marian is an active member of President Bush's Points of Light Foundation. She has served as interim president and chief executive officer of the foundation. Most recently, Marian was elected to the board of directors and currently serves as vice chairman.

Mr. President, Marian Heard's drive to treat the serious social ills which plague our communities, our States, and our entire Nation should be an inspiration to us all. While Connecticut will greatly miss this remarkable woman and her commitment to the Bridgeport community, we rejoice in her new challenge as the head of the United Way of Massachusetts Bay and wish her every success.●

ENDANGERED SPECIES ACT

● Mr. SYMMS. Mr. President, in the interest of ensuring that you and my other colleagues in the Senate are well informed on threatened and endangered species issues and, specifically, the Endangered Species Act itself, I ask to submit into the RECORD several articles which I believe are both timely and informative. These articles were recently produced by the National Wilderness Institute which has been conducting ongoing research on this topic. The first is the cover story from volume II, issue 1, of the institute's quarterly magazine, the NWI Resource, published in February of 1991. The second article, "The Art of Statistics," is taken from fall, 1991 edition of the NWI Resource, volume II, issue 3. The third is an excerpt from the October 1991 issue of the institute's bimonthly newsletter, Fresh Tracks. I would also like to submit for the RECORD a recent column published in the Washington Times by nationally syndicated journalist Warren Brookes which discusses the results of research conducted by the National Wilderness Institute on the Fish and Wildlife Service's Endangered and Threatened Species Recovery Program.

Frankly, Mr. President, the information brought forth in these articles is very disturbing, and I believe merits close examination during the upcoming session. So I would urge my colleagues in the Senate to review this material in the interim to more fully understand the many important issues surrounding current endangered species legislation. The manner in which we manage and recover endangered and threatened species is undoubtedly of great importance to the American people. It is our duty, therefore, as elected representatives of the people to first educate ourselves on every aspect of this issue, however contentious or unsavory, and second, accept the responsibility of addressing all aspects of an issue which, in one way or another, will deeply affect the lives and work and future opportunities of Americans for years to come. The material I have submitted here today is an important, much needed step toward fulfilling that obligation.

RESOURCE

(By Robert E. Gordon, Jr.)

One of these two owls is considered threatened by the Federal Government. Can you tell which one? Without knowing where the pictures were taken it would be pretty tough. The one on the left is a threatened Spotted owl of the Northwest. The one on the right is a Spotted owl from California and not threatened. They are nearly identical in appearance and genetic structure. The primary difference may be that they live in different places.

The Northwest-Spotted owl is now part of an exclusive club. According to the 1991 Budget Justification for the Fish and Wildlife Service, there were some 1,070 endangered and threatened plans and animals listed as of 1989. The Service states that "ultimate goal of threatened and endangered species conservation is to recover populations to levels where protection under the Act is no longer required." While that may sound pretty straightforward a close look at the Endangered Species Act, the listed plants and animals, and their record of recovery tells quite a different story.

The Service assesses different animals and plants for listing primarily on the "degree and immediacy of threat and taxonomic uniqueness." What is and isn't taxonomically unique has become extraordinarily hazy in recent years. The species is the basic category for taxonomical classification of living things—it is a kind of animal. A fairly common definition, as stated in one of the National Wildlife Federation-sponsored Peterson Field Guides, is that, "two animals are considered to be of the same species, or kind, if they are fundamentally similar in structure and interbreed to produce offspring but do not ordinarily interbreed with other groups." Harvard biologist E. O. Wilson would content that "under naturally occurring circumstances" should be added. What is and isn't a naturally occurring circumstance can be subjectively interpreted in any number of ways. Consequently, many of the species and subspecies currently listed may not merit such distinct taxonomic classification.

The degree to which truly taxonomic uniqueness is an important prerequisite for listing is questionable. About 30% of the animals listed as endangered or threatened in the U.S. are subspecies, something many scientists consider an unreliable unit of classification. For example, some antelope in Arizona are called *Antilocapra americana sonoriensis* and list as endangered, while antelope at the species level *Antilocapra americana*—which is not listed, and includes all the antelope in Arizona—is increasing in number in much of its range. In other cases, the listing at the species level is debatable. In addition to species and subspecies, Fish & Wildlife lists populations—a group of a kind of animals living somewhere. Some argue that (what they consider) distinct populations may eventually evolve into entirely different creatures and therefore merit listing. Smaller groups of creatures with smaller odds for a beneficial random mutation in genetic structure is certainly a debatable basis for listing.

Undaunted, Fish & Wildlife projects an increase for listed species from 1,070 in 1989 to 1,170 in 1991. According to the '91 Budget Justification, "the Service has set an expanded goal of 55 species proposed for listing in '91." This is only a minute fraction of what could be considered since "nearly 4,000 species are formally recognized as potential candidates for listing." This figure undoubtedly includes many subspecies and populations. But listing is supposed to be only the first step, with recovery as the "ultimate goal".

The first tactical step in recovering an endangered species is preparing a recovery plan. The Service admits a "backlong" and states that "recovery efforts shifted towards * * * increasing multi-species recovery plans." As of 1989, and were 550+ U.S. listees of which 291 are covered by plans. More than 40 plants and animals are covered by the multi-species plans. The Ash Meadows plan, for example, including four fish, one insect and seven plants. *Peromyscus polionotus*, a mouse which inhabits beaches, has five subspecies listed. It might be on sounder taxonomic grounds to have only one listing and do as well with one plan. But if the total population of each of the variants listed were combined, one must wonder whether the mouse would merit listing at all?

It's been said that failing to plan is planning to fail; that certainly holds true for Fish and Wildlife's record of achieving its "ultimate goal" in endangered species conservation—"recovery". Through 1989, a total of 27 species had been downlisted and 17 delisted since the Act was passed nearly 20 years ago. Not too good when you consider there were over 100 U.S. animals already listed prior to the Act's passage in 1973. It is even worse when you look at what 'delisted' means. For of the 17 were removed because of original data error. Six of the 17 were removed because they are now considered extinct. In five of those cases the creature was a subspecies, and in at least four of them introgression, or breeding, (recall the confusion over the definition of species) with other subspecies was considered a contributing factor to "extinction." Seven of the 17 are considered recovered. Three of the seven recovered species are found on a Pacific Trust Terriroty, Palau Island. According to one Fish & Wildlife official, early population counts of these animals may have been inaccurate. Additionally, their numbers improved following natural habitat recovery since the end of WWII. The Palau owl recovered in part because locals eradicated a coconut beetle which it ate, causing it to die of internal wounds inflicted by a spine on the beetle. Another "recovered" animal is the American alligator which Dennis David of the Florida Game and Fresh Water Commission surmises would not even have been put on the '73 list by today's standards.

He ought to know, considering there may be as many as a million alligators in Florida.

The Service states it "has increased emphasis on . . . implementation of highest priority recovery action . . ." Such actions included $580,000 worth of programs for the Bruneau Hot Springs snail in 1990. The Service also states "that for many species, particularly those that are habitat-limited, maintenance of remaining populations to prevent extinction may be a more realistic objective."

Many of the listed species have severely restricted natural ranges such as islands: there are at least 44 in Hawaii, 27 in Puerto Rico and 17 inhabiting other Trust Territories. Additionally, some are naturally rare in the U.S. like the ocelot that wanders up from Mexico to the extreme northern part of its range in Texas, Arizona and New Mexico. Furthermore, many of the listed populations of subspecies may be losing the battle for survival of the fittest. There are, for example, at least 11 animals on the list limited to a cave or cave system, and one salamander known only from algae mats in a system of spring-fed pools in Texas. The natural rarity of another listee, the New Mexican ridge-nosed rattlesnake, Crotalvs willardi obscurus (read: obscure), is revealed by its name. As Greg Easterbrook states in The New Republic: "More than 99% of the creatures to have ever come into existence have been rendered extinct . . . Nature discards creatures with a pitilessness that makes humity seem saintly."

These examples are not uncharacteristic of this issue. There are undoubtedly many valid cases that deserve our attention, including some in the above statistics. However, there are clearly many problems with the current approach that detract from the ability of the talented biologists and others at Fish & Wildlife to achieve their ultimate endangered species conservation goal—recovery. Sticking things on the list seems to be a priority—something for which we in the environmental community must bear some responsibility. Additionally, it appears evident that serious taxonomic ground rules are needed. And finally, it would seem logical that the Service be required to succeed in recovering at least a few more listees before it considers increasing the rate at which it lists things. One bright point in the '91 budget justification is the statement that the service intends to "encourage greater public participation in the recovery planning process." Hopefully this is true because the current record of performance would not be tolerated in the private sector.

The Art of Statistics: Fish and Wildlife's Report to Congress on the Endangered and Threatened Species Recovery Program

(By Robert E. Gordon, Jr.)

On October 7, 1988 President Reagan signed into law a bill amending the Endangered Species Act which, among other things, makes more specific the general requirement that the Secretary of Interior develop and implement recovery plans. The Amendment further directs the Secretary to report every two years on the status of efforts to develop and implement recovery plans for all listed species and on the status of all species for which recovery plans have been developed. Accordingly, the Fish and Wildlife Service has just released the "first comprehensive accounting" of its efforts since 1967 to conserve and recover endangered species. It is a huge glossy document with lists, codes, graphs and pie charts. The document raises questions about the trends in endangered species recovery work at F&W and, when deciphered, about their success in reaching the ultimate goal of endangered species conservation, recovery of populations "so that protection under the Act is no longer required."

PLANNING TO PLAN

In accordance with the law, the beginning step in endangered species recovery is the development of a recovery plan for each listed species. For 224 of the 581 listees that first step was not taken as of October 1, 1990. Rather oddly, F&W states that it "recognizes the need to develop recovery plans" and further states that after more than two decades "target time frames have been established to guide the development of draft and final plan preparation." While the ostensible objective of the plans is to recover endangered species, the Service repeatedly states that "the most significant recovery status difference between the species with and without recovery plans is the number of 'unknowns' for those species without recovery plans (25% 'unknowns' without plans versus 16% with plans)." Regrettably, this statement appears to be accurate.

RECOVERY . . . "A MAJOR PART OF THE SERVICE'S ENDANGERED SPECIES PROGRAM"

Fish and Wildlife states, in a rather passive voice, that "reclassifications and delistings demonstrate that there can be successes in recovery" but neglects to mention any delisting except the alligator. Dennis David of the Florida Game and Fresh Water Commission surmises that the alligator would not even have been put on the '73 list by today's standards. The only other "delisted" species include three from a U.S. trust territory several hundred miles east of the Philippines (the Palau owl, dove and fantail) and the Rydberg milk-vetch, of which the Service was unable to provide a photograph. According to one F&W official, early counts of the endangered species from Palau may have been underestimated; their habitat recovered naturally following WWII. The owl recovered in part because locals eradicated a coconut beetle which the owl ate with tragic results. A spine on the beetle inflicted fatal internal wounds.

The Report goes on to state that "implementation of recovery plan tasks provide for significant gains towards positive species recovery" and mentions such things as the successful captive breeding of California condors which F&W officials originally opposed. Rather than being presented in straight figures, the percentage of a "species' recovery objective(s) that have been met" are denoted

by an integer of 1-4 representing 0-25%, 26-50%, 51-75% and 76-100%, respectively. As of October 1, 1990, 439 of the 581 U.S. species listed, or 76%, had only between 0-25% of their recovery objectives achieved. In a high percentage of these cases zero would seem the most appropriate percentage for recovery objectives achieved. Several species presumed extinct are status "1" and numerous other "1's" have no anticipated "major recovery activity over the next reporting period", In other instances the planned activities are not impressive. The Sonoran pronghorn, for example, has been listed since 1970 and the next anticipated "major recovery activity" is to "convene a meeting of knowledgeable professionals . . . to evaluate recent information."

On the other end of the spectrum are the "Recovery Objective(s) Achieved" "4's" having 75-100% of their recovery objectives achieved of which there are only 11, or less than 2% of the list. Upon examination the "4's" as additional populations were found by the Bureau of Land Management and taxonomic studies showed that this daisy and another daisy thought to be a different kind were the same thing. In the case of another "4", the Pahrump killifish, F&W wrote a plan and Nevada Department of Wildlife personnel sprayed cattails destroying the fish's habitat with "Rodeo" (an herbicide). The Tinnean monarch, a bird found on a Pacific island, is also a "4" after 20 years without a plan and a population survey nearly a decade ago showed 40,000 birds.

The Report goes on to repeatedly state that "removal from the list is not a reasonable goal for all endangered species" and that "a more realistic measure of the Service's recovery efforts than the number of species delisted is *probably* the portion of listed species whose status as been stabilized" (emphasis added). "Stable" is one of the five status categories the Service assigns each listee. The Report includes an extraordinarily misleading graph of "declining" species to support their statement about the stabilizing effect of the list. The "82%" depicted in F&W graph represents less than 6% or 38 of the total listed species. The other three columns represent over 94% (approx. 269, 152 and 122 respectively) of the listed species unequally and are grouped in time periods of unequal length. The groupings conveniently incorporate a zero percent (from years in which there are less than 10 listees) into columns with the lowest overall percentage.

The statistical artist or artists who designed this graph are deceptively implying that it represents improvement of declining species over time. The selection of time spans which appear to be part of a continuum, the symbols "<" and ">", and the term "function" lead one to believe that these figures were generated over time. Yet, as this graph is a snapshot of "declining" species on October 1, 1990, there is no way to determine if there has been *any* change ever. A graph through time, not at a moment in time, would depict a changing condition of listees. It is, however, impossible to determine trends from the Report as no base year figures are supplied for comparison. A more appropriate name for the graph would be "Percentage of Species Declining as of Oct. 1, 1990 Selectively Grouped by Year Listed".

Additionally, the possible error in the percentage figures for "decreasing" species is tremendous because 19% of all listees are "unknowns" and therefore, possibly, "declining". The probability of this is relatively high as more than 37% of listees are considered "declining" and they are, after all, federally endangered or threatened species. It also seems strange that such a high percentage of the first year listees are known to be "declining" when none of them have plans and F&W itself states that "the most significant recovery status difference between the species with and without recovery plans is the number of unknowns for those species without recovery plans." Is it random chance that the percentage of "declining" species listed the year the Report was produced exceeds every other year's group of listees from nearly 20 to over 60 percent; or could the fact that this Report is being produced prior to the Endangered Species Act's reauthorization have affected the listing process?

This graph reminds one of the sort of figures generated by Soviet economists and would seem to be a deliberate attempt to mislead Congress and the public. One must wonder if the Service has any data to support its claim that "species listed longer appear to have a better chance of becoming stable or improving" or if it only appears that way through contrived graphs.

In explaining this rather bleak record the Report states "though the time frame involved may be perceived as long, recovery can and does happen" and goes on to state that "a serious commitment of both personnel and money are important to ensure stabilization and recovery . . ."

MONEY

According to the Report "the goal of [recovery] is the maintenance of secure, self-sustaining wild populations of species with the minimum necessary investment of resources." According to recent audits by the Interior's Inspector General the potential recovery costs for currently listed species is approximately $4.6 billion. This is an average of over $7.9 million per listed species. If that average were applied to the some 600 candidate species the Service believes "warrant listing" it would amount to another $4.7 billion; furthermore, if that average were applied to the 3,000 candidate species which the Service believes "may warrant listing" it would amount to an additional $23.7 billion. In addition to the recovery costs, the report states that "approximately 25% of all listed species have conflicts with development projects or other forms of economic activity" which certainly entails staggering costs to the economy. Even with its poor recovery record and huge economic impact, the Service argues that it "must be allowed to exercise management discretion in order to achieve the greatest conservation benefits for resources expended."

"MANAGEMENT DISCRETION"

How the Service exercises "management discretion" is also disturbing. The Report states that "Fundamentally, the Endangered Species Act is habitat-oriented. It seeks to conserve the ecosystems upon which endangered species and threatened species depend * * * this orientation has been embraced by the Service.* * *" In part, this appears to mean that the Service is trying to add to the over 87 million acres it already controls. For example, recovery actions for at least 28% of the mammals listed include plans for acquiring more land into the already enormous Federal estate. What is most disturbing is that there appears to be a definite bias within the Service against private property. In the case of the Utah prairie dog, for example, recovery criteria consist of "maintaining 3 populations [for 5 years] on public lands with a minimum number of 813 animals each as counted in Spring censuses." The actnal total population of Utah prairie dogs reached 9,200 *adults* in 1989 but *"only 34% were on public property"* (emphasis added). Strangely, F&W states that "population densities are increasingly to a point where a crash is imminent" but that none of the populations have reached "the minimum size for delisting on public lands."

The Service's view of the Endangered Species Act as a beginning rather than a final legal step in endangered species conservation is another disturbing aspect of their management discretion. The Report states "recovery of many species requires concerted efforts on the part of Federal and State authorities, as well as private parties, to enact laws and regulations and to reach agreements to protect listed species independent of the Endangered Species Act." If and when a species actually recovers it may not be delisted. The Service states: "biologically recovered species may still need the Act's protection in order to sustain population levels." F&W seems to be focusing more on empire-building than on the implementation of deeds that actually improve the condition of flora and fauna.

SUMMARY

Rather than directing their efforts toward achieving the "ultimate goal" of endangered species conservation—recovery, the Service seems to focus almost entirely on listing more species, keeping them on the list, acquiring land and budget increases, and because the law mandates, drafting past due plans. As can be seen in the statistics and examples provided, F&W's recovery record is abysmal. After decades of endangered species work with few, if any, legitimate delistings to show,the Service states that "a commitment to endangered species recovery is needed for a long time to show noticeable results." In support of their efforts, the Service states that "species listed longer appear to have a better chance of becoming stable or improving." *Appearances* can be [deliberately] deceiving as in the case of the Report's graph on percentage of declining species. Hopefully, as accurate information reaches the public and our legislators, reforms will be undertaken which result in endangered species conservation that works for those species of wildlife and plants which are truly diminishing.

Endangered Species Act Coming up for Reauthorization

Proponents and critics of the Endangered Species Act appear to be gearing up for debate. Word is that Rep. Gerry Studds (D-MA) will try to get a quick multi-year re-authorization of the Endangered Species Act to avoid opening the Act up for debate. Fish & Wildlife has demonstrated considerably more success at listing and keeping species on the list than recovering them. Critics of the Act argue that it is used to promote "Not In My Back Yard" (NIMBY) politics rather than care for rare plants and wildlife. As more candidate species are reviewed, the list will be increasingly composed of snails, mussels, beetles and minnows rather than the "warm and fuzzy" animals the general public tends to associate with endangered species. Unfortunately, there is little, if any, provision in endangered species legislation made for private recovery efforts. Here are some background facts:

According to the U.S. Fish and Wildlife Service, "the ultimate goal of threatened and endangered species conservation is to recover populations to levels where protection under the Act is no longer required." However, as of April 1990, nearly two decades since the Act was passed, there were only 16 delistings: 6 extinct; 4 removed due to data error; and 6 "recovered". This already dismal recovery record declined according to the July 1991 report in which one listee (purple-spined hedgehog cactus) previously classified as "recovered" was re-classified as "original data error."

The "recovered": 3 of 5 are indigenons to Palau Island, a tiny Pacific Trust Territory located five hundred miles east of the Philippines. According to at least one F&W official, early population counts may have been inaccurate and their habitat recovered naturally, not through Fish & Wildlife efforts, following World War II.

41% of listees are plants; 59% are animals-of which 24% are invertebrates (i.e. insects, spiders, snails, etc.) 12% are reptiles and amphibians, 25% are fishes, 25% are birds, 14% are mammals.

There are currently 1,116 listed species, about 600 of which are U.S., and the Service formally recognizes 3,600 U.S. species as candidates for listing.

Of 3,600 candidate species, Fish and Wildlife "believes 600 warrant listing" and states that "3,000 may warrant listing but sufficient information is not presently available."

Endangered species listings plummet property values. According to the Deputy Chief Tax Appraiser in Travis County, Texas property values have decreased $358.7 million since the federal listing of two songbirds, the Golden-cheeked warbler and the Black-capped vireo. Estimated shortfall in tax revenues next year to the city of Austin, Texas is $2.1 million. With this real estate having a market appraisal ten times less than before the species listing, U.S. Fish and Wildlife's Office of Endangered Species plans to create a wildlife refuge in the area. Landowners have little recourse except to sell. An interesting Constitutional question raised by such events is whether a declaration which results in property devaluations constitutes a taking.

[From the Washington Times, Oct. 18, 1991]

ENDANGERED SPECIES TURF GAME

(By Warren Brooks)

Putting any government agency in charge of solving a problem is certain to make the problem bigger and worse, because a bureaucracy now has a stake in that outcome.

There may be no better illustration of that than the U.S. Fish and Wildlife Service's report released this week on the Endangered and Threatened Species Recovery Program, which alleges great progress, but in fact demonstrates only a bureaucracy bent on expanding its turf.

The primary purpose of the Endangered Species Act is not merely listing and protection, but the development of plans to recover the species, return it to normal levels, and thus take it back off the endangered list.

But this first accounting of FWS efforts since the original act passed shows that virtually all of its activities have been directed not at "recovery" but at listing. Since 1967, some 581 species have been put on the Endangered list, but as the National Wilderness Institute notes in a special report by Director Robert Gordon, as of October 1990, recovery plans have not even been developed for 224 of those species. Yet "in accordance with the law, the beginning step in endangered species recovery is the development of a recovery plan."

FWS admits that such plans are badly needed because, it argues, that "reclassifications and delistings demonstrate that there can be successes in recovery," but as Mr. Gordon points out it "neglects to mention any delisting except the alligator," and "the alligator would not even have been put on the 1973 list by today's standards." The only other delisted species include three from Palau (several hundred miles east of the Philippines) and a plant called the Ryberg Milk-Vetch "of which the FWS was unable to provide a photograph."

What is most troubling in this report, Mr. Gordon argues, is the FWS attempt to use highly misleading graphics to suggest far more recovery has taken place than actually has. One chart shows four bars showing the percentage of species declining in each period ranging from 82 percent in the most recent year to 30 percent for those listed 15 years or more.

Yet the way the chart has been constructed, "there is no way to determine if there has been any change in the groups since listing," and because the periods chosen vary in length and the availability of data itself, it is impossible to make any inference about whether FWS is accomplishing any "recovery" at all.

As Mr. Gordon charges, the data presented "reminds one of the type of figures generated by out-of-work Soviet economists. There can be no doubt that it is part of a deliberate attempt to mislead Congress and the media.

Worse, the 2 percent of all species that are said to have achieved 75 percent to 100 percent (only 11) include species where additional populations have been discovered, suggesting they shouldn't have been listed in the first place, and one bird whose population today is identical to what it was 10 years ago, and for whom no recovery plan has ever been written! Indeed, without such plans the FWS admits there are so many "unknowns" it is almost impossible to determine whether that species is declining or rising, suggesting that entire report alleging progress is in fact fatuous in the extreme.

What is more curious about the FWS report is its frank admission it has no intention of really trying to push species back off the list as "recovered." Instead it says "removal from the list is not a reasonable goal for all endangered species," and even so, "biologically recovered species may still need the Act's protection in order to sustain population levels."

In short, the FWS is using the Act primarily as a way of expanding the total turf it already controls, with the premise that each endangered species listed adda to that turf control.

As the report frankly admits, "Fundamentally the ESA is habitat-oriented. It seeks to conserve the ecosystems upon which endangered species and threatened species depend," which is shorthand, in Mr. Gordon's eyes, for saying "the Service is trying to add to the more than 87 million acres it already controls."

What worries NWI, a market-oriented conservation group that tends to be suspicious of public land ecological policies is "the definite bias within the Service against private property."

As an example, Mr. Gordon cites the Utah prairie dog for which the FWS recovery plan lists as its criteria, "maintaining three populations [for five years] on public lands with a minimum number of 813 animals each [2,439 in all]." Yet as he points out, "the total population of Utah prairie dogs reached 9,200 adults in 1989," but the FWS complains that "only 34 percent were on public property." Worse, even though FWS now admits that the density of population of this "endangered species" has increased to a point "where a crash is imminent," FWS contends that "none of the populations have reached "the minimum size for delisting on public lands."

In others words, even though private lands are teeming with Utah prairie dogs, because the public habitats are not, the animal is endangered. There is of course something classically federal and bureaucratic about such a posture.

In that sense, NWI's Mr. Gordon argues the FWS endangered species program exhibits all the classic elements of "public choice" economics: "Rather than directing their efforts toward achieving the 'ultimate goal' of endangered species conservation, recovery, the Service seems to focus almost entirely on listing more species, keeping them on the list, acquiring land and budget increases; and because the law mandates, drafting past-due recovery plans."

We shouldn't be surprised the FWS report concludes by arguing that "a commitment to endangered species recovery is needed for a long time to show noticeable results." Like forever?

HONORING THE FORGOTTEN VICTIMS OF THE DECEMBER 7, 1941, ATTACK ON PEARL HARBOR

• Mr. AKAKA. Mr. President, I rise today to recognize the forgotten victims of the December 7, 1941, attack on Pearl Harbor—the innocent civilians who were killed that fateful morning 50 years ago.

In less than 2 weeks, our Nation will commemorate the 50th anniversary of the attack on Pearl Harbor. On behalf of the congressional delegation from the State of Hawaii, I request that a copy of the Delegation Joint Resolution No. 6 be printed in the RECORD following my remarks. The Delegation Resolution honors these forgotten casualties of the war. A copy of the resolution and an accompanying certificate of special recognition will be presented to the surviving families.

Mr. President, I would like to take this opportunity as well to express my appreciation to Ms. Nanette Purnell, a resident of my State, who has done extensive research on this issue; and to the Arizona Memorial National Park Service personnel, especially Mr. Jim Harpster and Mr. Kam Napier, who provided the background and research information for this important endeavor.

Mr. President, it is fitting and proper that we recognize these forgotten victims. As the 50th anniversary of the attack on Pearl Harbor draws near, let us honor all those Americans, both in uniform and in civilian occupations, who gave the greatest sacrifice so that freedom might flourish in this world.

The resolution follows:

There being no objection, the resolution was ordered to be printed in the RECORD, as follows:

DELEGATION JOINT RESOLUTION 6

Whereas on Sunday morning, December 7, 1941, at 7:55 a.m., first wave of bombers from

the Imperial Japanese Combined Fleet attacked military facilities in the Territory of Hawaii, United States of America; and

Whereas the first bombs fell on Kancohe Naval Air Station, and other military facilities across Oahu soon became targets to incoming bombers; and

Whereas as a result of this unprovoked attack by the Imperial Forces, there were over two thousand American military and civilian casualties; and

Whereas of the two thousand killed in connection with the attack on Pearl Harbor, over 60 were civilians; and

Whereas at least 35 civilians were killed as a result of the inadvertent explosion of American anti-aircraft ordnance which landed at approximately 12 sites on the island of Oahu; and

Whereas at least nine civilians died from direct enemy fire; and

Whereas during the commemoration of the Fiftieth Anniversary of the attack on Pearl Harbor, it is fitting and proper that we honor these innocent victims; now, therefore, Be it

Resolved That: The Hawaii Delegation to the 102nd Congress of the United States calls upon the people of Hawaii and the Nation to remember the innocent victims of that fateful morning fifty years ago; and be it further resolved that,

The Hawaii Delegation, on this Fiftieth Anniversary of the attack on Pearl Harbor, extends its deepest sympathies and compassion to the families, friends, and colleagues of those brave men and women who fell; and be it further resolved that,

A copy of this Joint Resolution of the Hawaii State Congressional Delegation be printed in the Congressional Record and that copies be distributed to Pearl Harbor civilian survivors or their next of kin and interested parties.•

ECONOMIC CRISIS CONFRONTING AMERICA

• Mr. LIEBERMAN. Mr. President, last week my colleague from Connecticut, Senator DODD, rose to speak of the economic crisis we are in and to ask that we stay here until we can offer some real help to the American people. I rise now to support my colleague.

When I think of how the administration is responding to the economic crisis confronting America, something like a cross between the Emperor Nero and Alfred E. Newman comes to mind. Nero fiddled while Rome burned, and Mr. Newman's famous line is, "What? Me Worry?"

There are some who say the President's inaction in the midst of this terrible recession is a real boon for our Democratic Party. That may be so, but, frankly, America cannot afford the luxury of politicizing our economic woes. We need the President to take charge, to lead the way to solutions to our fiscal problems. We need him to act as he did in the gulf war, when he put together an unprecedented global coalition to defeat the aggression of Iraq. We need a domestic equivalent to Operation Desert Storm.

But, we may be waiting in vain. For the President seems to believe that our problems will work themselves out through the market, which is an extremely limited and timid view, particularly in emergencies like the one we face now.

I believe it is time for all of us, Republican or Democrat, to put aside our ideological blinders and get working on a program that's practical, and that can get our economy growing again and our people back to work. Despite rhetoric to the contrary, Government has always been actively involved in the marketplace; witness Government's role in aerospace, defense, and agriculture, for example. Government can and must act in partnership with business to identify ways to promote economic growth and job creation.

The President has said he will propose nothing to Congress in the way of an economic plan, at least not until the State of the Union in January. Mr. President, our economy cannot wait for a midwinter Presidential speech to find relief. We must begin to work now on a plan that will bring relief to millions of Americans who have lost, or are at risk of losing, their jobs.

With that in mind, I believe we owe it to the American people to remain at our posts here in Washington—beyond Thanksgiving—to put together an economic recovery and growth plan. We did pass unemployment compensation legislation, which was desperately needed, and which will help millions of people whose jobless benefits are running out. But we must do more than treat the symptoms of this recession. We must work on a cure.

That means tax relief for working families. That also means tax incentives for business, to help them get back on their feet, growing, keeping and adding jobs for working people. That means passing transportation legislation, which will funnel billions of dollars into the economy in the way of construction and other kinds of jobs.

The American people are demanding answers from their Government, not adjournment. I believe we must remain on the job as long as it takes to bring more relief to our beleaguered economy.

We should stay here, passing legislation, and sending it to the President. If the President will not act on his own to help lead us out of our economic crisis, we must present him with our own solutions, and ask him to take a stand—for or against Government's help in solving this nation's recession.

Nero fiddled while Rome burned. Frankly, I do not know what the Roman Senate did at that time. Clearly, they did not do enough. Let us not make the same mistake. The American people are demanding action, and we should give them results. They do not care about the politics of it all, they just want relief. Let us stay here at work until relief is on the way.•

WILMINGTON LIONS CLUB

• Mr. BIDEN. Mr. President, in towns throughout all of our States, there are organizations that represent the best of our shared community spirit. Through caring service to those in need, active concern for neighbors and a commitment to the basic values that have strengthened our country throughout its history, those community leaders serve and inspire each of us, and help lead the way to a brighter future.

One such organization, familiar to all of us, is Lions International. I pay tribute today to the Lions Club of Wilmington, DE, which will commemorate its 70th anniversary on December 6. Over the years, it has been my privilege to work closely with members of the Lions Club, and I am pleased to have this opportunity to express my respect and appreciation for their efforts.

It would be impossible to list all the contributions and community projects of the Lions Club of Wilmington, but a few examples make clear the depth and breadth of their efforts:

In 1952, the Lions Club organized a children's zoo in Wilmington, which has since become part of the county parks system and is a center of education and enjoyment for Delawareans of all ages.

The Lions have worked with newly naturalized citizens since 1945, helping to make each new American more at home in their new country.

A leader in programs for Delawareans with special needs, the Lions Club invests thousands of dollars every year to help neighbors overcome the challenge of disability and disadvantage.

To help encourage the talents and good citizenship of our young people, and to promote the promise or our future, the Lions Club runs the Teenager of the Year Program, recognizing academic achievement and community service.

The upcoming 70th anniversary is more than a celebration of the spirit of the Lions Club of Wilmington, it is a celebration of the spirit of America—a spirit of caring and service, of pride in the past and hope for the future. I am grateful and proud that on the anniversary of one of the outstanding organizations in my home town, I can share both the meaning and the inspiration of the celebration with the Senate and the Nation.•

ALCOHOL AND DRUG ABUSE

• Mr. GORE. Mr. President, I have been following with interest the efforts of Surgeon General Antonia Novello to educate Americans about alcohol abuse. I speak today to encourage those efforts, particularly as the Surgeon General prepares for a December meeting with members of the alcohol beverage industry, a meeting where she is expected to urge those in the alcohol beverage industry to eliminate advertising aimed at young people.

The problems associated with alcohol abuse also threaten pregnant women who use alcohol unaware of its deadly impact on their pregnancy. I am very concerned about the number of women who are using alcohol during pregnancy. Study after study confirms that pregnant women are drinking alcohol not realizing that their child is very likely to be permanently damaged by fetal alcohol syndrome. We have had 17 years of research on this issue, most of it supported by the National Institute on Alcohol Abuse and Alcoholism. All of that research has proven that alcohol is a teratogenic drug—it causes birth defects.

Children who suffer from fetal alcohol syndrome have growth deficiencies that are apparent at the moment of birth. Their behavior reflects central nervous system problems. They are hyperexcitable, have poor concentration and attention. They are dependent, stubborn, sullen, or withdrawn.

Children who suffer from fetal alcohol syndrome cry and laugh too easily, and suffer periods of high anxiety. They are permanently affected by the alcohol drinking habits of their mothers. They miss most of life as you and I know it. And they miss it unnecessarily. I believe that if their mothers knew what their children would miss and the struggle their children would face just to live, then these mothers would make very different decisions about drinking alcohol during their pregnancies.

Recently, I learned that the consequences of fetal alcohol syndrome can be even more dire. Michael Dorris, the author of "The Broken Cord" wrote about his adopted son, Adam. Adam, a child of native American descent was finally diagnosed, after much searching, as a child suffering from fetal alcohol effects. Typical of FAS children, Adam could not understand or connect his actions with their consequences. He didn't understand that he should not wear black and walk home late at night along rural roads. His father had told him many times, but Adam couldn't remember that or connect it to his life. He was killed by a driver late one night. She didn't even see him.

I believe, we can prevent the disease that killed Adam. If mothers knew, they could take action to prevent this disease from hurting their children. Fetal alcohol syndrome is totally preventable. That's why I am working with my colleagues here to pass the Alcohol Beverage Advertising Labeling Act. The warning labels this bill requires can help pregnant women learn about fetal alcohol syndrome, what causes it, and what stops it.

The Surgeon General deserves credit for her efforts to stop and prevent alcohol abuse. Clearly, the stakes involved in her efforts and ours are high—they affect our children and our future.●

TRIBUTE TO BRUCE SEATON

● Mr. BREAUX. Mr. President, I would like to call to the attention of the Senate the upcoming retirement of Bruce Seaton, chairman of the board of directors and chief executive officer of American President Companies, Ltd.

Bruce is known by many members of the Senate, particularly those of us involved in the maritime and intermodal transportation communities. He became the president and chief operating officer of American President Lines in 1977, and led the company through a number of periods of growth to become the state-of-the-art intermodal transportation company it is today.

Bruce Seaton has been a visionary and an innovator within the maritime and transportation communities. Well ahead of many of his peers, he recognized that shippers would be best served by transportation companies which blended the advantage inherent in each mode of transportation and linked those modes together through sophisticated information networks.

Bruce's contributions have strengthened the U.S. maritime industry, virtually created America's leading double stack rail network, enhanced the competitiveness of U.S. goods overseas and upgraded out national defense transportation system.

Mr. President, in 1989 Bruce Seaton was named an Admiral of the Ocean Seas [AOTOS], considered by many to be the most prestigious industry award in the U.S. maritime community. By this, and many other measures, Bruce Seaton has made tremendous contributions to the transportation industry and his country.

We wish Bruce Seaton well as he retires from his current position, and look forward to his continued involvement as our Nation wrestles with the challenges of the 1990's.●

WAR ON DRUGS IS FAR FROM OVER

● Mr. DECONCINI. Mr. President, for some time now, the Bush administration has been claiming great progress in the Nation's ongoing war on drugs. This past week, two items caught my attention which would suggest that the progress may not be as great as the administration would like us to believe.

First, the Washington Post on Sunday, November 17, 1991, reported that for the first time in over a year, cocaine-related visits to hospital emergency rooms were on the rise. Since 1989, the number of cocaine-related emergencies had been decreasing slowly, however, according to a study to be released within the next 2 weeks by the drug abuse warning network and the National Institute on Drug Abuse, there was an alarming increase during the first 3 months of 1991. These figures seem to indicate that hard core cocaine use in the United States is again on the rise and remains a serious threat to the public health. It is incumbent on the President and the Director of the Office of National Drug Control Policy, Governor Martinez, to look closely at the results of this study before trying to convince Congress next year that their efforts to eradicate this country's drug problem are succeeding.

The second item which caused me enormous concern occurred on the international front. The Los Angeles Times on November 20, 1991, carried a story which comes at a critical point in the United States' relations with Mexico on counternarcotics activities. It appears that on November 7, 1991, during an inspection of a private aircraft suspected of carrying illegal drugs into Mexico, on a remote airstrip near Veracruz, Mexico, a team of Mexican-Federal law enforcement agents, working as part of a special response team cooperating with United States drug agents, were ambushed and murdered by Mexican Army troops.

According to the Times article, a group of Mexican-Federal law enforcement agents were dispatched to an airstrip where the suspect aircraft found to be carrying 800 pounds of cocaine, was brought down, only to be met by a hailstorm of gunfire and Mexican Army soldiers. Seven Mexican drug agents were killed. Two were shot in the back at close range and one was shot point blank in the mouth.

Mr. President, the Mexican Army initially depicted the attack as a tragic mistake. I find this hard to believe, particularly since the operation took place during a 2-hour period, throughout which a great deal of information concerning the operation was communicated to the Mexican Army commander. From the information in the article, it is absurd to believe that the troops responsible for the slaying could not have known that the men they were aiming fire at were their own Federal drug agents. The aircraft from which the drug agents departed carried the insigna of the Federal Attorney General's office.

Mr. President, I am outraged by this deplorable and inhumane act of criminal wrongdoing. It just demonstrates to what lengths those involved in drug trafficking will go to continue their criminal activities. The article stated that President Salinas has directed the Mexican National Human Rights Commission to investigate the incident. I hope President Salinas is serious about this investigation. Those responsible for this vicious and heinous crime must be vigorously pursued, brought to justice, and prosecuted to the fullest extent of the law.

This incident not only offends my senses, but it may as well have very serious consequences for continued United States cooperation with Mexico on drug enforcement. Since President Salinas took office, United States-Mexico

cooperation on drug interdiction has improved significantly. President Salinas has taken several positive steps to eliminate corruption and reduce the amount of drug traffic transitting Mexico. He has enacted sweeping reforms of the criminal justice system and has directed the Attorney General's office to act on recommendations made by the Human Rights Commission on allegations of abuse of individual rights. He has engaged in a cooperative drug interdiction program with the United States Customs Service allowing United States pilots to fly radar-equipped interception aircraft to conduct operations in Mexico with his law enforcement agents. He has also resumed the authority for the United States Customs Service to overfly Mexico with its P3 aircraft for detecting suspect targets destined for the United States. In fact, it was the Customs Service who altered its Mexican counterparts to the particular suspect target from South America outlined in the Times article.

Unless President Salinas takes swift and forceful action on this incident, the good will and cooperation built by his administration will be lost. How can the United States continue sensitive joint counternarcotics operations without a firm conviction that all of those involved in this partnership, including the Mexican Armed Forces, will work for the common good? How can any relationship continue if we are not convinced that the Mexican Government will take whatever action it must to prove to the world that criminal acts on the part of its own military officials will not be tolerated?

Mr. President, what if those individuals who were killed on that remote airstrip in Mexico were United States agents? Mexico would have an international incident on its hands. I want to make sure that our own United States law enforcement agents are not put at risk due to the greedy and criminal objectives of Mexican citizens, military, or otherwise. It would be irresponsible to do any less.

Mr. President, I would hate to see the progress our two countries have made over the past few years shattered, because powerful drug lords have secured protection of their operations from within. President Salinas has an opportunity to send a strong message to the United States and all those countries trying to rid their countries of drug trafficking. That message should be that Mexico is, indeed, a serious and willing partner in the international fight against drugs and here is a perfect opportunity for Mexico to demonstrate its seriousness to achieve that objective. Much of what will happen in our future dealings with Mexico in this Senator's mind will depend on the recommendations and findings of the Human Rights Commission's investigation. In the meantime, I hope that President Bush and his administration will monitor this situation closely and send a strong communication to the Mexican Government demanding justice.

Mr. President, separately, these two events over the past few weeks would be cause enough for concern. Coming within a week of one another, they only emphasize that the war on drugs needs to be more than a war of rhetoric. It is a war which affects lives here and on foreign soil. Its casualties can be found in hospital emergency rooms here in the United States, as well as on clandestine airstrips in Mexico. Mr. President, it is a war which is far from over.

Mr. President, I ask that the two articles referred to in my remarks be printed in the RECORD in their entirety.

The articles follow:

[From the Los Angeles Times, Nov. 20, 1991]

MEXICO SOLDIERS ACCUSED IN DRUG AGENT KILLINGS

(By Majorie Miller and Douglas Jehl)

MEXICO CITY.—Scores of Mexican soldiers deliberately opened fire and killed seven federal drug agents at a clandestine Veracruz airstrip earlier this month to protect a Colombian cocaine shipment, U.S. and Mexican officials now believe.

The attack had been characterized as a tragic mistake. But autopsies of the victims revealed that two of the slain Mexican agents were shot in the back at close range and a third was shot point-blank in the mouth, leaving powder burns, sources said Tuesday.

"They gave them the coup de grace there at the end," a U.S, drug enforcement official said.

The Americans and Mexicans had been cooperating in tracking the shipment of cocaine from South America to Veracruz.

The attack on the planeload of Mexican police agents, which lasted for more than two hours on the morning of Nov. 7, was filmed from another government aircraft that circled overhead, providing key evidence that has been viewed by U.S. and Mexican officials.

The three traffickers under pursuit by the Mexican agents escaped and remain at large. Sources said that a Mexican army general, based in the area, is suspected of overseeing an operation that offered the smugglers protection and resulted in the attack on the police.

The assault brought a bloody end to an anti-drug mission that began when a U.S. Customs Service radar surveillance plane guided the two planes to the airstrip, pursuing the traffickers' aircraft, sources said.

After Police Cmdr. Eduardo Salazar Carrillo climbed out of the government plane—a Beech King Air with the federal attorney general's insignia on its tail—and began to inspect the traffickers' Cessna, soldiers opened fire on him. That began the fusillade that was fatal to seven officers, although three others from the government plane, including Salazar, survived, the sources said.

An official account of the incident issued that day by the Mexican Defense Ministry and the attorney general's office explained that the seven agents were killed by mistake during a shootout between the two anti-drug forces in the predawn confusion. Other bullets issued by the Mexican government described the government craft as unmarked and said the federal police started shooting at the soldiers about 1,200 feet away.

But the U.S. and Mexican sources say that compelling evidence indicates that the soldiers attacked intentionally, first only one police agent fired a weapon and that some drug agents were shot at such close range that there could have been no doubt as to their identity as police officers.

"This was no accident, a furious senior Bush Administration official said. Added another senior U.S. official: "There is a strong belief that the Mexican army is lying through its teeth on this."

The incident has raised fears among U.S. and Mexican officials of a fracture in the 18-month-old partnership between Washington and Mexico City over the use of U.S. Customs planes to help Mexican officials interdict drug shipments.

The arrangement relies extensively on Mexican army forces and could be jeopardized if drug corruption in the military has penetrated as deeply as the clash between soldiers and police suggests, the officials warned. But U.S. and Mexican officials have gone out of their way to play down the attack and stress that their cooperation will continue.

Under orders from President Carlos Salinas de Gortari, the Defense Ministry has asked the government's National Human Rights Commission to investigate the deaths. "The president wanted an impartial investigation of this," said a Mexican source.

In Washington, spokesmen for Customs, the Drug Enforcement Administration, the State Department and other U.S. agencies declined official comment on the incident and referred inquiries to the Mexican government. The Mexican attorney general's office declined to comment, saying it will wait for the Human Rights Commission's investigation. Defense Ministry officials could not be reached for comment.

But an emerging picture of the incident, based on extensive interviews with U.S. and Mexican sources, provided this account of a brutal, deliberate assault on the police agents at the clandestine airstrip near Tlalixcoyan, 25 miles south of Veracruz.

American drug officials based at the DEA's El Paso intelligence center spotted the Cessna off the coast of Nicaragua as they monitored radar signals from an airborne Customs plane Nov. 7.

The U.S. authorities alerted Mexican drug agents. The Mexican attorney general's office, which oversees the federal judicial police, dispatched two aircraft to pursue the cocaine-laden Cessna from Mexico's southern border to its landing on the airstrip near Tlalixcoyan at about 6:15 a.m.

A truck with eight barrels of fuel was waiting on the ground for the drug plane at the strip, surrounded by more than 100 Mexican soldiers. Despite the soldiers' presence two men and woman escaped from the Cessna, discovered to be transporting more than 800 pounds of cocaine.

The first of the government planes—the King Air with government insignia—landed about half an hour after the drug plane. As Salazar inspected the Cessna, the soldiers fired on him and his agents.

Shortly after the shooting began, the attorney general's office in Mexico City advised the Veracruz army commander, Gen. Alfredo Moran Acevedo, that his troops were firing on federal police. But the soldiers continued firing for another two hours.

The army has asserted that the police agents refused to identify themselves, and a senior U.S. official said that question "remains in some dispute." But the weekly magazine Proceso reported that the surviving pilots and police commander have given sworn statements that the agents identified themselves by shouting.

U.S. and Mexican sources said that when the second government plane landed at about 8:30 a.m., the soldiers took the pilot and agents into custody while continuing to shoot at officers from the first plane.

"It is unclear whether the seven agents were killed before or after the second plane landed," said a source. But he said that two of the agents had bullet wounds in their backs and had been shot from a distance of less than 12 yards. A third agent had been shot in the mouth at close range, he said. Only one of the victims showed evidence of having fired his weapon.

In Washington, U.S. officials said the Mexican drug agents killed during the raid had been working closely with the DEA for months as part of the new response team, which relied heavily on the radar intelligence gathered by military and U.S. Customs radar planes operating off the Mexican coast. "People around here are really pissed off," one DEA official said "This is a story that really should be told."

But the Administration spokesmen who refused to comment directly on the incident went out of their way —when told that others had provided detailed accounts of the shooting—to praise the Mexican government in what seemed an attempt to forestall any rupture in relations.

[From the Washington Post, Nov. 17, 1991]

REVERSING COURSE, COCAINE-USE INDICATOR IS RISING

(By Michael Isikoff)

Federal health officials will report shortly that the number of cocaine-related visits to hospital emergency rooms has risen for the first time in more than a year, according to sources, familiar with the figures.

"This 15 percent jump in such visits recorded by the government's Drug Abuse Warning Network (DAWN) during the first three months of this year might indicate a resurgence of the nation's hard-core cocaine problems."

"This is a disturbing trend. . . . It's a real jump," said Adele Harrell, senior research analyst at the Urban Institute, who specializes in drug abuse trends. "This indicates an increase in negative health consequences from cocaine use."

The figures also tend to support the view of some federal anti-drug officials that the country may be facing a renewed heroin problem. Herion-related hospital emergencies also rose from the final three months of 1990 to the first three months of this year. But even with the 13 percent increase, the number of heroin-related emergencies was still below the total for the first three months of 1990.

White House drug advisers have used the DAWN figures as one of their principal yardsticks in measuring the nation's progress in fighting drug abuse.

When declines in cocaine emergencies were first reported last year, Secretary of Health and Human Services Louis W. Sullivan hailed it as evidence of "significant headway" in the war against drug use, a theme that has been repeated frequently by President Bush.

But the recent increase—especially if it continues—could undermine the president's ability to make that argument during next year's campaign and give Democrats new ammunition that his war on drugs has failed, particularly in the inner cities.

Rep. Charles B. Rangel (D-N.Y.), chairman of the Select Committee on Narcotics Abuse and Control, said the new figures belie "ridiculous" claims by the administration of progress. "The administration is constantly talking about DAWN reports. . . . They're always looking for good news," he said. "But the truth of the matter is they don't want to acknowledge that in the inner cities, there is still an explosion of cocaine use."

Ingrid Kolb, acting deputy director for demand reduction in the Office of National Drug Control Policy, said the drug office had not seen the new DAWN figures and could not comment. The figures had been scheduled to be released by the National Institute on Drug Abuse within the next two weeks. But a spokeswoman for NIDA said Friday the agency will wait until mid-December to release the study so it can include updated figures for the spring of 1991 that have not yet been analyzed.

Some anti-drug analysts said it is too early to draw hard conclusions from the increase, emphasizing that it could represent a number of factors: higher street purities causing an increase in overdoses, an overall growth in the number of users or possible differences in reporting methods among hospitals in the DAWN system.

Nevertheless, the DAWN system is considered one of the only government indicators capable of measuring that aspect of the drug problem that has proven most intractable: hard-core abuse, especially among the poor, unemployed and other groups that tend to be underrepresented in government-sponsored surveys of drug use.

The DAWN system consists of reporting from a sample of 535 hospital emergency rooms in 21 cities. Throughout the last half of the 1980s, cocaine-related hospital emergencies reported by DAWN skyrocketed as hospitals were flooded with the victims of the crack cocaine epidemic.

Although DAWN's reporting system has changed, the government's adjusted numbers show that the number of cocaine emergencies peaked in the summer of 1989 at 29,939. In the last three months of that year, they began to drop, with the figure leveling off at 19,381 during the last quarter of 1990.

But the trend reversed itself in the first three months of this year as cocaine emergencies rose to 22,282. In addition, heroin-related emergencies increased from 7,510 in the last quarter of 1990 to 8,465 in the first quarter of 1991, although they were still below the 9,967 during the first quarter of 1990.

The total number of drug-related hospital emergencies, which include visits for alcohol, also climbed during this period from 89,325 in the final months of last year to 96,406 in the first quarter of 1991.

Some anti-drug officials noted that there is considerable variation in DAWN figures from city to city.

For example, there was no appreciable increase in cocaine emergencies in the District of Columbia. In Miami, the number of such visits nearly doubled, from 186 to 358.

The increase in Miami is particularly ominous, some analysts said, because South Florida is an entry point for much of the nation's cocaine. A big increase in Miami might suggest that cocaine imports, after being temporarily disrupted over the past two years because of enhanced interdiction, might again be on the rise, some analysts said.●

AOJ IN EASTERN EUROPE: WHAT ADMINISTRATION? WHOSE JUSTICE?

● Mr. CRANSTON. Mr. President, I rise today to express my great dismay over the administration's failure to provide appropriate administration of justice support for the emerging democracies of Eastern Europe.

Earlier this year I introduced, together with my friends and colleagues, the Senator from South Carolina [Mr. THURMOND] and the Senator from Massachusetts [Mr. KERRY], the Omnibus Eastern European Security Assistance Act of 1991.

The purpose of this bill was to provide the emerging democracies of Eastern Europe with knowledge of, and training in, U.S. law enforcement practices.

Mr. President, the U.S. model of civil-military relations and our system of administration of justice are perhaps two of the most successful yet little-promoted underpinnings of our democracy.

Based on the essential distinction between internal security and national defense, the principle of posse comitatus has ensured that our military remain nonpartisan and our police forces professional.

Mr. President, when I introduced our legislation I pointed out the importance of drawing upon our own expertise and experience in this area in offering assistance to the governments of an Eastern Europe whose security establishment was synonymous with misrule and fear.

I pointed then to the growing sense of unease in the region, where economic dislocation, xenophobia, and a resurgence of hate crimes made it imperative that the Soviet-trained security forces in those countries be exposed to democratic models.

I called attention to the fact that foreign investment, the lode star to which so many hopes there are being attached, was a mere chimera unless contracts could be enforced, unless the criminal justice system showed signs of working, and unless businessmen were free of fears of extortion, or crime on the streets.

Mr. President, yesterday the Senator from Delaware [Mr. BIDEN] took to the floor to point out that much of what we've been dealing with on an emergency basis for the former Soviet Union could have been taken care of with strong bipartisan support for the SEED legislation we offered 2 years ago.

Today, I must point out that, in similar fashion, the administration is shooting itself in the foot because of its catch-as-catch-can attitude concerning administration of justice concerns in Eastern Europe.

When we made our proposal last spring, the State Department moved to block it. When it became part of the

discussions in the House-Senate conference on foreign aid, State moved quietly to kill it.

The word went out: Eastern Europe is not ready for an administration of justice program. What it needs they said, is antinarcotics and antiterrorism assistance.

What administration of justice support there is, comes from a $750,000 Rule of Law Program administered by USIA; $750,000 for the entire Eastern European region. Compare that to this administration's continued willingness to throw military assistance at nations with much less democratic vocation.

It is truly unfortunate, Mr. President, the realization that the administration will not work with Congress to ensure that a mere $5 million out of funds already allocated for the region be used to address this problem.

It is truly a cause for confusion to see the State Department, in the person of Special Assistant for Eastern European Affairs Bob Barry, weigh in against such a modest proposal—then have his office find that, on an important request for assistance by the Polish Interior Minister, it lacks the kind of congressional authorization provided in the Cranston-Thurmond bill.

And it is truly a moment for reflection, Mr. President, knowing that requests for assistance from our beleaguered democratic allies in Eastern Europe often go unfulfilled because Ambassador Barry and the State Department choose to kill anything that doesn't have the stamp: "Made Here."

Mr. President, the request by Polish Interior Minister Henryk Majewski included 19 areas that needed assistance. It was finally acted up at an interagency meeting in which the attending players had to pledge money from their existing budgets.

There was no mechanism for central coordination, there was no money available specifically dedicated for these purposes, and one can only wonder what the followthrough will be. This was, of course, only one request. Yet, inquiries by my office have revealed an ad hoc approach to this very important issue, and this one request is just a part of a much larger number that demand urgent attention.

Mr. President, if administration of justice concerns are being addressed in a timely and appropriate manner, why then are private individuals bankrolled by private interests rushing to fill the void, as they are? Why are businesses finding that they have to finance efforts where the U.S. Government can and should be taking the lead?

The assistance being provided is not in question. I must stress that there is not a hint of wrongdoing in the assistance that is being offered.

Yet it is unseemly, this privatization of law enforcement training. In a democracy, the administration of justice is not the concern of a select or well-heeled few.

Unfortunately, this message appears to fall on deaf ears over at the State Department.

How else to explain this scramble for money and authorities, when proposals that would give both are there for the taking?

When will the administration learn that antiterrorism and antinarcotics efforts can only be as effective as the justice system which backs them up?●

CABLE TELEVISION CONSUMER PROTECTION ACT

● Mr. DANFORTH. Mr. President, before this session of Congress draws to a close, I want to thank the majority leader for scheduling S. 12, the Cable Television Consumer Protection Act, for consideration in January. The decision to make this cable reform legislation a high priority for early next year is a victory for the consumer. It is a victory because this much-needed legislation encourages competition to cable, protects the consumer where there is no competition, and helps to ensure the continued existence of free TV.

For too long, the cable industry has been permitted to operate as an unregulated monopoly. The rate increases slated for the new year underscore this fact.

In addition to thanking the majority leader for his assistance and his commitment to bring this bill before the Senate, I want to commend Senator INOUYE, the chairman of the Communications Subcommittee, and Senator HOLLINGS, the chairman of the Commerce Committee, for their hard work on this consumer legislation.●

VIEWS ON S. 543

● Mr. SIMON. Mr. President, on Thursday November 21 the Senate passed S. 543, the banking bill, by voice vote. I wish to go on the Record to state that had there been a rollcall vote, I would have voted no on this measure.

There is little debate that Congress needs to act to recapitalize the nearly bankrupt bank insurance fund in the FDIC. It is this fund that insures deposits in banks throughout the country. The soundness of this bank insurance fund is crucial to the soundness of our banking system and indeed to our entire economy. If all we were voting on last week was a replenishing of the BIF, there would have been little argument, little negotiation. It would have been enacted swiftly and with broad consensus.

Without going through a long history of what was originally intended in bank restructuring legislation, there are two key points in S. 543 I wish to address.

First, S. 543 contains provisions changing long-standing Federal laws preventing banks from establishing national branches. This law was originally written to prevent a few large money-center banks from dominating the allocation and distribution of credit in small communities, rural areas, and even in large cities outside of the country's large commercial centers. It was intended to prevent a few large banks from absorbing deposits in States like Illinois and not providing loans and credit in those areas. I have many serious concerns about this provision in the Senate bill. That is why I voted for the Bumpers amendment insuring that only those States that affirmatively choose to "opt-in" interstate banking will be subject to these new Federal laws.

I hope that this provision will be dropped in conference. But if it is not dropped, I will oppose the conference report and I will request a rollcall vote.

Second, S. 543 originally contained several vital consumer provisions, provisions requiring banks to provide basic banking services and government check cashing services to low-income bank customers. These provisions were deleted during Senate consideration of S. 543 and were not in the bill when it was finally voted out of the Senate. I find it curious that the Senate was willing to provide to the large banks something they very much wanted, interstate banking, but did not require them to provide any services to low-income customers who will tend to be overlooked if banks continue to gain sweeping new powers.

Restructuring the financial industry is a complex project. I hope and assume the Senate will return to this task next year. I also hope that the Senate can address the issues facing the financial industry and still protect the interests of small communities, depositors, consumers, and low-income people.●

KEIRETSU AND THE BUSH ADMINISTRATION

● Mr. BAUCUS. Mr. President, in recent weeks, a host of Bush administration officials have urged Japan to address the central source of United States-Japanese friction—trade relations between our two countries.

I have frequently stated that trade should be the top issue on our agenda with Japan. I doubt that trade is yet atop the administration's agenda, but perhaps it is finally rising.

For as long as I have been involved with international trade issues, the United States has struggled to open the Japanese market.

Prime ministers and presidents change.

Exchange rates ebb and flow.

But one thing seems always to stay the same: It is extremely difficult to sell American goods in Japan. Few challenges we face have proved as illusive as reducing Japanese trade barriers.

1992
UMI

I believe Japan's keiretsu system may be the single most important impediment to better trade relations with Japan.

KEIRETSU AND UNITED STATES-JAPANESE TRADE

Most Americans have never heard of keiretsu—Japan's unique system of interlocking corporate families.

In fact, part of the problem is that we're still not sure exactly what we're dealing with. Yet if the precise definition of keiretsu is unclear, the effects are increasingly evident.

Japan can attribute its economic success in large part to the opportunities it enjoys in the American market.

Unfortunately, the United States has not enjoyed reciprocal access. Last year the Japanese surplus with the United States topped $40 billion—four times larger than the United States deficit with any other country.

The anecdotal evidence of keiretsu is also strong. This year's National Trade Estimate—a listing of foreign trade barriers—refers to the effects of keiretsu in blocking access to the Japanese markets for paper, auto parts, and motor vehicles. Strong evidence has been presented about the effects of the keiretsu system on the U.S. glass industry.

The Japanese Government's own report in connection with the structural impediments initiative recognizes the negative effects of keiretsu on trade and investment.

CURRENT EFFORTS TO ADDRESS KEIRETSU

Current efforts to address keiretsu arise out of the structural impediments initiative [SII]. SII has succeeded in sharpening our understanding of the underlying causes of United States-Japanese trade disputes.

Unfortunately, SII has been less effective in crafting remedies. This is particularly true in addressing the problems created by keiretsu.

In fact, U.S. negotiators stated in their first annual SII report that dealing with keiretsu had been one of the biggest disappointments of the SII process.

My experiences in dealing with Japan have convinced me of one thing: The United States achieves results only through sustained pressure. We need mechanisms that establish priorities, deadlines, and criteria for measuring results.

NEW REMEDIES FOR ADDRESSING KEIRETSU

I believe that keiretsu should be addressed using a coordinated combination of multilateral and bilateral mechanisms.

Frankly, what we really need to address the keiretsu system is a renewal of Super 301.

Even without its "super" provisions, "normal" section 301 has been an extremely successful in addressing unfair Japanese trade practices. The United States has used it to open markets in wood products, satellites, supercomputors, leather, footwear, construction, semiconductors, tobacco, and oranges.

It is important to emphasize that section 301 is not inconsistent with multilateral dispute resolution under the GATT.

In tandem with a section 301 investigation, and consistent with section 301 deadlines, the United States should urge the formation of a GATT panel under article XXIII—the nullification and impairment provision.

Keiretsu are not specifically addressed in the GATT. However, article XXIII of the GATT addresses the situation in which a country's practice, although not specifically outlawed, "nullifies" or "impairs" a GATT benefit.

I believe article XXIII should be applied to keiretsu. Keiretsu nullify and impair GATT benefits the United States would otherwise receive. For example, Japan's average tariff rates are quite low. U.S. exporters cannot take advantage of this benefit, however, where keiretsu block access to the market.

FOCUSING ON RESULTS

Whether a resolution to the keiretsu problem is negotiated multilaterally or bilaterally, a solution should focus on results.

Do not get me wrong. I am not talking about assigning market shares.

However, benchmarks can be used to evaluate Japan's progress in a number of areas. We can use benchmarks to compare the openness of the Japanese market to other markets, and to measure progress in addressing a particular barrier.

Benchmarks already are being used with significant effect in addressing Japanese barriers to United States semiconductors. Benchmarks also should be used in evaluating whether prices and import levels in Japan are consistent with other developed countries.

CONCLUSION

There is a lot we can learn from the Japanese. I have been reading with great interest the MIT study, "The Machine that Changed the World." This important book outlines the revolutionary contributions of Japan to the development of industrial processes.

There is much that we Americans must do for ourselves. We have our own structural impediments. There may be aspects of keiretsu that we should emulate.

But it is absolutely clear that keiretsu have seriously protectionist effects. These effects act as a unfair impediment to U.S. goods.

Our ability to eliminate the trade distorting aspects of the keiretsu represents one of the single most important challenges the United States faces in this new era of economic competition.

If President Bush travels to Japan in January, one point must be made loud and clear: Japan must reform its keiretsu system, or relations with the United States will deteriorate.●

ACCESS TO AFFORDABLE HEALTH CARE

● Mr. KERREY. Mr. President, I have made it clear in the past, that the time to reform our Nation's system of financing health care is long overdue. Reforming our Nation's health care system is not only a humanitarian issue, it is a vital economic issue. It is eroding our standard of living and threatening our ability to compete in an aggressive international marketplace.

Access to affordable health care is moving beyond the reach of the working American families. Health care costs are rising as incomes are falling. Individuals and families are spending more for health care and receiving less coverage while they are earning lower wages.

Last July, I introduced the Health USA Act of 1991 to restructure how our Nation pays for health care. Since then, I have received many letters from Nebraskans on the topic of health care and the adverse effects of its rising costs. In a recent letter from Mr. Timothy Deal of Hastings, NE, he illustrates very specifically and honestly how an increase in his families' health care premiums, accompanied by a decrease in the amount of coverage, has put his family on the edge of financial devastation.

Mr. Deal's situation is extremely troublesome. But, tragically, it's not that unusual. Rapidly rising health care costs are crowding out wage and salary increases, impairing the American people's standard of living, and putting the fear of financial ruin resulting from a serious illness into their hearts.

Mr. President, I ask that Mr. Deal's letter be printed in the RECORD. I encourage all of my colleagues to read this letter and realize that the specific situation that Mr. Deal has shared with us, is the norm throughout the Nation.

The letter follows:

HASTINGS, NE, *August 4, 1991.*

DEAR SENATOR KERREY: May I begin by saying that it is indeed a privilege of fortune to enjoy the benefits of life in America. Furthermore, should the wheels of corporate gains and industrial economics suddenly and unexpectedly cease to turn, there is no better place in the world than the USA that I would choose to be. Having made this clear, I do however wish to share with you my personal opinion and perception of present social and economic concerns.

I am well aware that you have great concerns, as do I, of current existing health care deficiencies, and have addressed these pending concerns with your own innovative health care plan. I applaud your efforts and want you to know I support your philosophy with regard to this issue. I am also aware that many have been critical of this plan and voiced openly their opposition toward its economic support. Please share my letter with them! Please note the following information reflects an honest glimpse of my family's personal income and dispersement of spending. Note as well that I am not venting discontent with these salaries, as they likewise reflect an economic portrait far above the numbers realized by many less fortunate than myself.

My wife and I are both gratefully employed full time and our family's net monthly income is $1150.00 after deductions for federal and state taxes, social security, health insurance, daycare, and education savings. Our monthly expenses are as follows:

$550.00—Housing (house payment and average utilities).

$100.00—Transportation (1977 Honda, 1981 Escort, no maintenance).

$50.00—Auto and Home Insurance.

$25.00—Medical insurance deductible.

$25.00—Dental and Optical expenses (not covered by insurance).

$25.00—Copayment of insured medical expenses (Blue Cross/Blue Shield 80/20 on all medical expenses covered under the current policy).

Total—$775.00.

As you can see, this allows only $375.00 to be appropriated for food for four, household purchases, recreation and entertainment, gifts and contributions, telephone and postal, newspaper and garbage expenses. Clothing, I do not include, but with the exception of socks and undergarments, all clothing for the family is purchased from garage sales and thrift shops.

We have been able to juggle these appropriations each month without the use of credit cards, thus we have our needs met and have therefore remained secure economically. Recently, however, our medical insurance premiums increased from $80.00 a month to $95.00 while our coverage decreased. Please note the seriousness that this change has invoked with regard to our economic stability. As of August 1st, our policy, which previously covered 100 percent of hospitalization and emergency costs with the exception to a small number of exclusions, has been amended to cover 80 percent of all medical whether basic or major medical. This policy included a $3000.00 copayment stop loss annually. I can not express effectively, the concern this presents our family. Allow me to convey it this way. I have two young children, ages 6 and 1, both of which have been hospitalized in the past 2 months for ear surgery. One of the children, our 6 year old, was hospitalized twice as an inpatient and once as an outpatient. Altogether, these medical expenses totaled several thousands of dollars. Had this medical dilemma occurred now, instead of prior to August 1st, our family could be faced with an economic hardship of such magnitude that I hesitate to ponder it. Sad as it seems, more and more medical policies have increasingly diminished in coverage while premiums increase.

Please Mr. Kerrey, I have been frank with you throughout this letter, I have disclosed valid information reflecting average midwestern economics. Please take this letter to the Senate floor and read it. If your opponents scoff at its contents, then they, not I, suffer greater social inequity.

Sincerely yours,
Timothy J. Deal

P.S. note that the $95.00 premium makes up only 20 percent of the policy's total monthly cost. My employer's benefit is nearly $400.00 a month.●

ACCESS TO QUALITY MAMMOGRAPHY SCREENING

● Mr. D'AMATO. Mr. President, I rise today to cosponsor two bills that address the urgent need for expanded access to quality mammography screening for all American women.

Expanding access to mammography screening and ensuring that such screenings meet the highest standards of quality is vital to reducing the unacceptably high death rate associated with breast cancer in this country. It is estimated that in 1991, 175,000 women will be diagnosed with breast cancer, and 44,500 women will die from the disease. This makes breast cancer the second leading cause of cancer death among women in the United States.

Mr. President, next to a cure—and we must do far more at the Federal level to speed research on effective treatments for breast cancer—our best defense against this horrible disease is early detection and treatment. Such early detection, through regular mammograph screening, can, according to the Centers for Disease Control, reduce breast cancer mortality by 30 to 40 percent for women aged 50 and older.

Unfortunately, far too few Americans women receive early cancer detection tests on a regular basis. In 1987, only 25 percent of women over age 50 reported having a mammogram within the preceding 2 years.

We need to encourage and facilitate the use of these tests by American women—and that is why on April 23, 1991, I joined Senators MACK and BREAUX in introducing S.891, legislation which provides a tax credit of up to $250 against the costs of early cancer detection procedures.

Today, I am cosponsoring two bills that I believe will further promote the availability of quality mammograms. The first, Senate Resolution 184, is a sense-of-the-Senate resolution that calls on insurance companies throughout the country to include periodic mammography screening services as part of their basic coverage for women. New York State has required health insurance policies to include coverage for annual mammography screenings since 1988. I am hopeful that this far-sighted bill, introduced by my colleague from Illinois, Senator DIXON, will encourage insurance companies in every state to follow suit.

The second bill, S.1777, will establish national quality standards for mammography to assure that every mammogram a woman receives is safe and accurate. The need to establish national standards was underscored by the findings of a recent General Accounting Office report which found that existing professional standards are not uniformly followed at many screening facilities. The same study found a need for strong Federal standards to assure the quality of mammography screening, and sufficient legal mechanisms to enforce them. S.1777 addresses this need by requiring the Secretary of Health and Human Services to develop national quality standards in the areas of equipment, personnel, oversight, quality control, and enforcement. I commend my colleague from Washington, Senator ADAMS, for introducing this bill, which, by improving the quality of mammography screening, will surely save numerous lives.

Mr. President, we know that one in every nine American women will develop breast cancer at some point in her life. We need to guarantee these women access to the best preventive health care available. These bills will help us do just that. I encourage my colleagues to join me in cosponsoring these measures, and I urge their prompt passage.●

● Mr. GLENN. Mr. President, last year, Congress passed the Chief Finance Officers Act, the first comprehensive effort in years to overhaul the Government's antiquated, inefficient and abuse-ridden financial systems.

I was very pleased to have sponsored the CFO Act, and to have taken the lead in its passage. Federal agencies desperately need to get their financial houses in order, to know what tax dollars are being spent for, and to know if they are being spent wisely. With a trillion-and-a-half-dollar budget to administer every year, Uncle Sam simply can't afford to have holes in his pockets.

With the CFO Act, in fact, I hoped that the Government was finally on its way to eliminating shoddy and duplicative accounting, mismanagement, faulty financial statements, and the unprecedented waste, fraud and abuse that so rightfully disgusts taxpayers and undermines the Government's credibility. I was initially pleased that the administration recognized the importance of the CFO Act, but after a year of watching the White House implement this legislation, I am concerned that the CFO Act is not working as its sponsors intended.

I feel the CFO Act is turning into the Complacency Act, because the White House is nominating some people with limited, if any, direct financial management experience to be agency chief financial officers. In some cases, CFO positions are being tacked onto the already overburdened shoulders of their assistant secretaries for administration or management as an afterthought. This practice all but ensures that these very important jobs—and thus financial management—will get short shrift in many agencies.

Agencies, I might add, are not unlike our country's largest corporations, in that they must account for and spend billions of dollars a year. The difference is that America's leading corporations take their financial management jobs seriously, and the people who hold corporate CFO positions generally are well-qualified for those jobs.

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

One of the purposes of the CFO Act was to bring individuals with superior qualifications into positions where they have the power and authority to make significant improvements. In fact, the CFO Act is quite specific about CFO qualifications—more so than almost any other law which authorizes Presidentially appointed, Senate-confirmed, positions.

The relevant language in the Act reads as follows: Each agency chief financial officer shall be appointed or designated, as applicable, from among individuals who possess demonstrated ability in general management of, and knowledge of and extensive practical experience in, financial management practices in large governmental or business entities.

But even this statement, strong as it is, is not the last word on CFO qualifications. In addition to the language in the law, the administration itself, through the Office of Management and Budget, has approved qualification standards for CFO's and deputy CFO's. These standards were drafted in consultation with Congress and the General Accounting Office [GAO].

Thus, the administration's own standards for CFO's require that nominees should have practical involvement with financial management in large public or private organizations; direct knowledge and experience with budgets, internal controls, accounting and financial reporting; and finally, substantial familiarity with the design or operation of large financial or management information systems.

These standards—the administration's standards—clearly envision CFO's who bring to their positions solid knowledge of, and experience in, financial management.

But, Mr. President, I think it's safe to say that the standards in the law and in OBM's own guidelines are being ignored. We now have CFOs nominated by the President, and expecting Senate confirmation, who have essentially no direct financial management experience. There is a pattern emerging that disturbs me. In several cases now, the Senate has been asked to confirm CFO's who, while perhaps qualified generally in management or policy issues, have little of the financial knowhow necessary to guide changes in major cabinet agencies. While they may be perfectly bright, hard working individuals, and qualified to assume the duties of an assistant secretary for management, I am very concerned about their abilities to fulfill the CFO mandate.

The enormous job of cleaning up the books and hauling the government into the modern financial management age cannot be undertaken by just any political appointee simply looking to polish a resume. The CFO Act envisioned and deserves must more. The taxpayers and the elimination of waste, fraud and abuse deserve much more.

I will not believe that the White House, and, yes, the Senate, are serious about financial management until they get serious about CFO nominations. Unless we appoint CFO's who understand the financial problems of our government agencies and can quickly act to fix them, then I can assure my colleagues that the CFO Act will not work—business as usual is all we will get. And if the administration and this Senate are unable to muster the interest and the political will to hold our standards high, to bring in the best and the brightest, then I would suggest that business as usual is all we deserve.

While I will not hold up the CFO nominations at the Departments of Agriculture and Health and Human Services that the authorizing committees have already seen fit to approve, I regret that I cannot support them, either. I recognize that assistant secretaries for management have responsibilities that go beyond their CFO duties, and that as a result, the authorizing committees must judge the nominees on many issues. But that is part of the problem.

The authorizing committees have chosen to report these nominations out favorably, and for that reason I am not going to oppose them. But very simply, we need to do better. The administration, the authorizing committees, this Senate, need to do better in nominating and confirming people for CFO positions.

Granted, these are not high profile jobs, but they are very important. If we are to make any progress at all, they cannot be handed out cavalierly, or like some trophy. Make no mistake, CFO jobs will be hard—their problems are tough and their responses must be tough. Our only chance to get the job done is to put in place people with the skills and experience who know what must be done, and then let them do it. That's what the CFO Act envisioned and that's what the CFO Act deserves. Financial Management, and sewing up the holes in Uncle Sam's pockets, are just too important for anything less.•

THE NEED FOR FARMLAND PRESERVATION

• Mr. WOFFORD. Mr. President, I rise today to support the need for farmland preservation. As part of the Food, Agriculture, Conservation, and Trade Act Amendments of 1991 the State of Vermont will be eligible for funding from the Commodity Credit Corporation [CCC] to support the purchase of development rights on prime farmland. I strongly support this measure because it is the first Federal program that recognizes the need for such protection and builds on existing State farmland protection programs.

The Farms for the Future Act, if expanded to other eligible States, will assist Pennsylvania and other States with approved preservation programs in preserving their most valuable resource. It will also encourage those States which currently do not have programs to initiate the process. This program is an excellent opportunity to leverage scarce public funds at both the Federal and State levels.

As many States know, land conservation is costly. But, it is a resource worth preserving in view of the billions of dollars in economic activity generated annually by agriculture industry. That economic benefit reaches into all parts of the economy making farmland preservation important to all States.

Mr. President, I support farmland preservation. It has preserved many prime farms in Pennsylvania. The assistance received from the Federal level will greatly assist States in their efforts to conserve this natural resource.•

PROPOSED SCIENCE AND TECHNOLOGY STUDY CONFERENCE

• Mr. GORE. Mr. President, in April 1988, the Carnegie Corporation created the Carnegie Commission on Science, Technology, and Government to study how Federal and State Governments could better deal with science and technology issues. The 22 members of the Commission are leaders from industry, government, and academia who have a great deal of experience dealing with science and technology issues. President Jimmy Carter and former Senators Daniel Evans and Charles McC. Mathias are among the members.

To examine how Congress deals with science and technology issues, the commission formed a Committee on Science, Technology, and Congress, chaired by John Brademus. For the last 2 years, several of my colleagues and I have served on a Congressional Advisory Council which has provided the Committee with advice and direction.

So far, the Committee has prepared two very useful reports on how the Congress gathers and utilizes information on scientific and technical questions. The first report, "Science, Technology, and Congress: Expert Advice and the Decision-Making Process," contained a number of insightful observations on the congressional process and made some helpful recommendations to the Congress.

I found one recommendation particularly useful; the report call for creation of a Science and Technology Study Conference which would help Congress deal with the increasing complicated science and technology policy issues that we face. The Study Conference would be modeled on the very successful Environmental and Energy Study Conference [EESC] which was created in 1975 to provide members and staff with information on legislation relating to energy and environment matters. Today, more than 380 members of the House and Senate contribute to the EESC and benefit from the newsletters, bulletins, and briefings that it provides.

Ten years ago, most science and technology issues were put on the back burner—they just did not get much attention on the Hill. That's not the case today. This year, there have been extended floor debates on a number of scientific programs, including the Space Station and the Superconducting Super Collider. The Commerce Committee, chaired by Senator HOLLINGS, and the Commerce Committee's Science Subcommittee, which I chair, have held numerous hearings on how the government could do more to work with industry and academia to develop new technologies. The Commerce Committee and others are working to formulate a coherent, pro-active U.S. technology policy to do just that. At the same time, the Energy committee is hard at work defining new roles for the Department of Energy's national laboratories so that they can contribute more to America's technological competitiveness. On the Armed Services Committee, Senator NUNN, Senator BINGAMAN, and I are seeking ways to leverage the billions of dollars that the Defense Department spends on technology development in order to help our civilian high-technology industries. The Judiciary Committee is grappling with difficult issues involving intellectual property rights, computer security, and bioethics. Both the Environment Committee and the Agriculture Committees face a number of thorny scientific and technological questions, too, ranging from the control of genetically-engineered organisms to the development of new technologies for less-polluting farming practices.

With so many congressional committees working on science and technology issues, I feel it would be useful to have a Science and Technology Study Conference [STSC] to keep everyone informed about developments in the Congress. We cannot hope to coordinate our science and technology policy if the right hand does not know what the left hand is doing. To coordinate you need to communicate. In addition to tracking congressional activities, the STSC could help us keep up with developments in the administration, in industry, and in the laboratories.

The Science and Technology Study Conference could publish a weekly bulletin like the EESC Bulletin that could keep congressional offices up-to-date on new legislation and new scientific developments. It could organize briefings by researchers, administration officials, and industry representatives for members and staff. It could provide a forum for discussions of key issues that span more than one committee or subcommittee.

The STSC, like other legislative service organizations, would rely on contributions from Members' clerk hire accounts. I know that none of us have extra money in our office accounts, but I think if 70 to 100 Members in the House and Senate can chip in, we can create a viable organization that could help us all keep up with fast-moving developments in science and technology. In addition, if we can get adequate funding from Members, it is likely that we would be able to attract outside funding from foundations and elsewhere to fund an institute, like the Environmental and Energy Study Institute, which could supplement the efforts of the STSC.

During the recess, my staff and I will be contacting Member's offices to gauge interest in forming a Science and Technology Study Conference and to discuss how to organize such a study conference to best help the Congress deal with the many complex issues we face. We are clearly in the formative stages, but I have already found a lot of interest. here in the Senate, Senators DOMENICI, SANFORD, and BINGAMAN and others on the Carnegie Committee's Advisory Committee have expressed interest. In the House, Congressmen TIM VALENTINE, BILL GREEN, GEORGE BROWN, and others are interested in exploring the idea. I think we all understand that there is a need here, and I look forward to working with my colleagues to address that need.•

HERE'S A WAY TO GET OUT THE VOTE

• Mr. WOFFORD, Mr. President, it is unfortunate that a constitutional right of Americans—the right to participate in the elective process—is exercised by decreasing numbers of eligible voters. In 1988, only 50.1 percent of those eligible to vote for President did so. That was the lowest voter turnout rate in 64 years. Worse still, the President of the United States was chosen by only 26.8 percent of eligible voters.

There are many reasons why people choose not to vote. But if we are to maintain Lincoln's vision that a "government of the people, by the people, for the people, shall not perish from the earth," we must find ways to encourage fuller participation in the political process.

Recently, Mr. Andrew Henshel of Philadelphia wrote an article that appeared in the Philadelphia Inquirer on this topic. In that article, Mr. Henshel offers a thoughtful, well reasoned argument on the necessity of reforming this nation's voter registration laws which I recommend to my colleagues. I ask that this article be printed in the RECORD.

[From the Philadelphia Inquirer, Sept. 16, 1991]

HERE'S A WAY TO GET OUT THE VOTE

(By Andrew Henshel)

With about one-third of eligible Americans not registered to vote, there is a clear need for national voter registration reform. According to the Federal Election Commission, only about 50 percent of the eligible voters participated in the 1988 presidential election, while less than 40 percent turned out in the 1990 congressional elections.

These deplorable rates of participation, which one congressional committee has suggested could create "serious problems for our democratic society," can be attributed in large part to archaic and restrictive voter registration laws and procedures.

The proposed National Voter Registration Act of 1991 (Senate Bill 250), which is expected to come before the Senate for consideration in the next few weeks, responds to these dismal rates of voter participation in a fair, sensible manner. The bill, sponsored by Sen. Wendell H. Ford (D., Ky.), chairman of the Rules Committee, is the most important proposed expansion of voting rights and opportunities since the passage of the Voting Rights Act of 1965. It would remove barriers to registration that presently exist in a number of states and localities.

This comprehensive measure would, for the first time, establish clear national standards for voter registration. It calls for each of the states to implement a variety of procedures to increase voter participation, including registration by mail, "motor-voter" registration and registration at government agencies that serve the public.

The bill approved by the Senate Rules Committee contains the following key provisions:

The application for a driver's license, renewal, change of address or a non-driving ID card would also serve as an application to register to vote, unless the individual is ineligible to vote or declines to exercise this option. It has been estimated that this system, which has been implemented successfully in a number of states, would enfranchise as many as 90 percent of eligible voters.

In order to reach eligible citizens who are less likely to have driver's licenses, the bill provides for agency-based voter registration and assistance in completing registration applications at government offices, such as unemployment, public assistance and vocational rehabilitation offices. In addition, such locations as public libraries, public schools, offices of city and county clerks (including marriage license bureaus), fishing and hunting license bureaus and tax offices, would be required to make voter registration applications available, Federal offices, as well as voluntary private sector agencies, also would be encouraged to participate.

A uniform mail registration system, allowing citizens the opportunity to register by mail, would be adopted nationwide. Already, more than half the states, including Pennsylvania and New Jersey, utilize some form of voter registration by mail.

The present system of "purging," or removing voters from the registration rolls for failing to vote in a prescribed number of elections would be eliminated entirely. Removal of a voter's name from the registration rolls would be permitted only at the request of the voter, because of a verifiable change of residence, upon the death of the voter, or as provided by state law for criminal conviction or mental incapacity. Any programs used by the states to update and

VOL 137 PT 24

1991
—
JA 3
1992
UMI

maintain the accuracy of voter registration lists would be required to be uniform, nondiscriminatory, and in compliance with the provisions of the Voting Rights Act.

To prevent electoral fraud or abuse in federal elections, the submission of false or fraudulent registrations and other abuses of the election process would be made a federal crime.

There is widespread support for voter registration reform. A similar bill was approved overwhelmingly by the House in February 1990 and only the threat of a filibuster prevented Senate consideration of the bill.

Although the need for this legislation is clear, a tough fight to get it enacted into law is a strong possibility. Any effort to attach amendments that would weaken the proposed bill should be opposed.

At a time when people of countries around the world are risking their lives for the principles of freedom and democracy, and the right to vote, we must increase active participation and involvement by citizens in our democratic system of government.

In this 200th anniversary year of the Bill of Rights, passage of this vital legislation would demonstrate a renewed national commitment to the revitalization of American democracy and citizen participation. As Thomas Jefferson said, "In democracy, agreement is not essential, but participation is."●

CURRENT GATT NEGOTIATIONS

● Mr. **LEAHY**. Mr. President, the recession is hitting rural America hard.

One in every eight rural Americans is now out of work—20 percent more than a year ago. Unemployment in rural areas is 27 percent higher than in urban areas.

While rural America pleads for help in these times of economic hardship, the administration turns its back.

Last week, the administration successfully blocked—for the third time this year—help for our Nation's dairy farmers. Farmers will lose thousands of dollars. Some will lose their farms.

While many farmers are wondering how they will make it through the next year, the administration is working quietly behind closed doors in Geneva on a new trade policy that could intensify their attack on dairy farmers, as well as other parts of American agriculture.

Reports from the GATT (General Agreement on Tariffs and Trade) negotiations suggest that the administration has effectively given away section 22 import protections for dairy and other commodities without any assurances that we will get a commensurate response from other countries. The administration's blanket acceptance of tariffication while leaving the details to be worked out later could undermine our ability to achieve a fair and balanced outcome for American agriculture.

Our GATT negotiators have established an artificial deadline of late December to reach a basic agreement. I am worried that this new trade package could be the kind of unwanted Christmas gift that only Ebenezer Scrooge would think of delivering.

I have long been a supporter of efforts to lower trade barriers to end subsidy wars to expand overseas markets. This is why I supported a free-trade agreement with Canada and the initial fast track GATT negotiating authority 4 years ago.

In fact, early in the GATT negotiations, I believed an agreement could benefit all agricultural commodities. In 1987, the administration calculated that 40 percent of U.S. agricultural spending was required just to offset the money spent by other nations to subsidize their exports.

It clearly makes no sense for the United States and Europeans to bid against each other and bribe other countries to buy their farm products. This only drives prices down and raises taxpayer costs. I believed our negotiators deserved the chance to end this chaos and rid agricultural trade of direct export subsidies.

But I have become increasingly concerned about the administration's trade negotiating strategy. We appear to be rushing headlong into a GATT agreement simply for the sake of getting an agreement. But we must not let our desire for an agreement lead us to an agreement that is not fair for every part of American agriculture.

As Chairman of the Senate Agriculture Committee and the Judiciary Committee's Technology Subcommittee, I met privately with administration officials, pushing them to specify their negotiating goals and positions. I also chaired hearings to flesh out the pros and cons of the GATT negotiations.

I have been troubled by the administration's refusal to give the American public greater assurances on U.S. negotiating strategy. While the administration cannot be expected to spell out each and every detail of its negotiating strategy, the public and those industries affected by the negotiations have the right to know more about how the administration plans to prevent the loss of American jobs. They need more than vague promises that these issues can be resolved in some foreign capital.

For these reasons, I voted last May against the administration's request for the extension of GATT fast track negotiating authority. I felt then—as I do now—that the administration has not shown that it is willing only to negotiate a GATT agreement that is fair for all of American agriculture.

The administration won its fast track request and continued GATT negotiations. Now, as the negotiators appear to be moving quickly to a close, my worst fears may be realized.

And despite its efforts that could negotiate away section 22 and other programs that protect American farmers from unfair foreign competition, the administration continues to refuse to promise income protection to American farmers hurt by a GATT agreement.

Despite the ominous signs for the farm community, the GATT negotiations could have potential benefits, particularly on the issue of achieving stronger protection for U.S. intellectual property—such as computers, software, motion pictures, sound recordings, and pharmaceuticals.

Intellectual property is one of the crown jewels of our economy. While smokestack industries—like steel and autos—used to fire the engine of our economic growth, more and more that engine is being fired by the works of our imagination—software, motion pictures, sound recordings, and the like. Our core copyright industries in 1989 alone accounted for $22 billion in foreign sales, more than the entire U.S. aerospace industry.

At the same time, success carries risks. Products like computer programs, pharmaceuticals, and movies are expensive to make, but easy to copy. It takes no great genius for an overseas bootlegger to duplicate a U.S.-made floppy disk or a video cassette or for a foreign chemist to break down the components of a new wonder drug.

Modern-day pirates who steal the creations of American artists, scientists, and engineers cheat the American economy of billions of dollars each year.

We must demand the highest level of worldwide protection for intellectual property. We must demand strict standards of protection and serious enforcement.

Earlier this year, the administration sent China, Thailand, and India the right messages under section 301 of the 1988 Trade Act: Entry into the United States market is not a one-way street; reciprocity must guide our trade relations; and countries that raise barriers to American goods cannot expect a free ride into our open market.

But with respect to GATT negotiations on intellectual property and services, we know that after 4 long years of negotiations, serious problems still exist. These include: the level of protection for computer software and for semiconductor chip designs; the European determination to exempt cultural industries from a Services agreement; the conditions under which countries may grant compulsory licenses for patented products; and the right, if any, of producers of sound recordings and software to prohibit rental.

Other issues remain as well. I am troubled that an agreement may preclude us from taking a unilateral action under section 301—our most potent tool for securing tougher protection for intellectual property and other industries. The last thing we want is a watered-down, least-common-denominator agreement on intellectual property that codifies inadequate levels of protection while curtailing our ability to act.

Also affected by GATT negotiations are a number of environmental issues.

For example, in a troubling ruling, a GATT panel earlier this year invalidated a United States environmental statute requiring Mexican exporters to reduce the number of dolphins killed by tuna fishermen. This means that U.S. tuna fishermen must follow one environmental standard while foreign fishermen follow another. It is unclear how a GATT negotiated agreement will affect other American environmental standards.

It is in the details of this agreement—not in the symbolism of international cooperation or in the political imperative of getting a deal—that American jobs will be won or lost.

In the end, this GATT agreement will be judged not on whether it is ideologically correct, but on whether it improves the lives of American families.●

LAWRENCE B. LINDSEY'S NOMINATION TO THE FEDERAL RESERVE BOARD OF GOVERNORS

● Mr. **MACK**. Mr. President, last Friday the Senate confirmed the nomination of Lawrence B. Lindsey as member of the Board of Governors of the Federal Reserve System. This action was a significant step toward improved Government economic policymaking.

The current economic state of affairs has us all concerned. The credit crunch is stifling business activity. Rising unemployment and bankruptcies are shaking the confidence of consumers nationwide. Plummeting real estate values are rocking our construction and financial industries. Exploding budget deficits are wiping out what little faith people had that Government can effectively deal with these problems.

What we need is some good, old-fashioned economic growth. But it's as though the burst of energy which spurred the thousands of new businesses and millions of new jobs during the 1980's has been stamped out. The avalance of Federal State and local tax and regulatory increases over the last few years have considerably slowed down the ability of the U.S. economy to grow. Frankly, Mr. President, we in Congress have forgotten that the things we do—the laws we pass, the taxes we raise, the regulations we impose—all have consequences. They affect real people with real jobs and real families.

I would like to share with you some startling numbers. Both OMB and CBO are forecasting rates of growth over the next 5 years that are well below the post-WWII trendline of 3 percent economic growth. If OMB's forecast of 2.6 percent is right, economic output over the next 5 years will be $1.6 trillion less than it would be if the economy would grow at its post-war average.

CBO's projections are even worse. It predicts an average growth rate of 2.3 percent throught 1996. If this would hold true, economic output would be $1.8 trillion less. Larry Kudlow, who is the Chief Economist for Bear Sterns in New York, calculates that this loss in output implies a stunning 6 million lost jobs!

Clearly, Congress absolutely must get its act together and correct its past fiscal policy mistakes. The luxury taxes, high capital gains taxes, arbitrary real estate tax law changes, inflexible banking and environmental regulations all must go.

Under these circumstances, it is critical that the key insitution involved in formulating monetary policy—the Board of Governors of the Federal Reserve System—be comprised of individuals who understand that strong economic growth and zero inflation are not mutually exclusive policy achievements.

Such an individual is Lawrence Lindsey. Dr. Lindsey is a highly regarded economist whose background includes President Reagan's Council of Economic Advisors, the Harvard economics faculty, and President Bush's White House Office of Policy Development.

Today's economy is globally integrated to such a degree that it is inappropriate, if not impossible, for the Federal Reserve to conduct monetary policy without a careful assessment of fiscal policy. Monetary policy's goal of negligible inflation is highly dependent upon international capital flows, exchange rate fluctuations, and domestic/international exchange rate and interest rate differentials—all of which are affected by the Government's tax, spending, and regulatory decisions.

This is precisely why Larry's presence on the Federal Reserve Board will prove valuable. He is a renowned expert on tax policy whose credentials have been earned through astute analysis of the relationship between tax policy and economic growth. His unique skills will complement those of existing Board members.

I am very pleased that the Senate has confirmed his nomination. I am confident that his impact on the shape of monetary policy will be significant.●

LIGHT OF THE WORLD CHRISTIAN CHURCH, 125TH ANNIVERSARY

Mr. **LUGAR**. Mr. President, I bring to your attention today one of the largest and fastest growing Disciples of Christ congregations in the world. Light of the World Christian Church, formerly known as Second Christian Church, was organized in Indianapolis as a mission project in 1866. It was later remodeled from materials removed from the Civil War barracks in Military Park.

Beginning November 24, 1991, Light of the World Christian Church will celebrate "125 Years of Excellence: The Victory is in the Vision." Their plan includes construction of a campus that will encompass a community and family center, the senior saint complex and the academy, which will provide Christian and cultural learning in a drug-free, gang-free and violence-free environment.

The ministry has grown and prospered under the able and visionary leadership of Dr. T. Garrett Benjamin. Technological advances have allowed the work of the church to reach some 35 million viewers.

Please join with me in congratulating my good friends, Dr. and Mrs. Benjamin, for their leadership and spiritual guidance. The Light of the World Christian Church has made a great difference in the city of Indianapolis, the State of Indiana and our Nation.

HIDTAs ARE MAKING A DIFFERENCE

Mr. **DeCONCINI**. Mr. President, I rise today to turn this body's attention to the war on drugs. It is an ongoing war that confronts us everyday in newspapers and on newscasts in every part of the country and the sad truth is that the story is always the same. Drug crime remains a front-page issue and is not likely to be fully under control in the near future. I chair the Appropriations Subcommittee on Treasury, Postal Service and General Government which has funding jurisdiction over the Treasury law enforcement bureaus, including the Customs Service, the Bureau of Alcohol, Tobacco and Firearms [ATF], the Secret Service, and the IRS as well as the Office of National Drug Control Policy [ONDCP]. They do a Herculean amount of work in the drug war, and the word from them is that they have more business than they can handle.

Halting drug trafficking is a long-term proposition demanding an intensive and aggressive approach. Drug traffickers are constantly changing their methods to adapt to existing law enforcement practices. The creativity of these traffickers in coming up with new ways to circumvent law enforcement efforts means that enforcement must have the resources to meet the fluid environment of the drug trade. We are making progress, but our future success depends on the continued support of Federal, State and local law enforcement agencies. We cannot afford to focus attention away from this Nation's drug problem. Just as importantly, is the recognition and support of enforcement programs that have proven to be effective and are slowly gaining ground in this uphill battle.

Mr. President, there is a program that is making a difference. It is the designation of certain areas in this country as High Intensity Drug Trafficking Areas [HIDTAs]. The purpose of the HIDTAs is to concentrate manpower and funds to curtail the especially high level of illegal drug trafficking in these regions. In the 1988 Anti-Drug Abuse Act, Congress authorized the designation of High Intensity Drug Trafficking Areas [HIDTAs] and directed that they be coordinated by the Office of National Drug Control Policy [ONDCP]. ONDCP designated the five areas of New York City, Houston, Los Angeles, Miami, and the southwest border as priority drug trafficking points. Following the designation of these areas, Congress provided ONDCP $25 million in the 1990 supplemental appropriations bill to support Federal anti-drug trafficking efforts in the HIDTAs. Subsequently in FY 1991, Congress increased the appropriations to $82 million for the HIDTAs with $50 million for Federal programs. Congress increased the amount for HIDTA activities in fiscal year 1991 above the Administration's request and instituted an earmark for this increase of $32 million for direct assistance to State and local law enforcement agencies in the HIDTAs. This year, despite ONDCP's failure to request funds for State and local law enforcement, we appropriated $86 million to the HIDTAs, or $36 million above the request while maintaining the $50 million for Federal programs and earmarking $36 million for State and locals. Mr. President, despite early skepticism, over the past few years the HIDTA Program has proven its value and effectiveness in combating drug trafficking. It is a program that we can be proud of. In spite of this success, yearly we receive a budget from the President that fails to request increased resources for maintaining the vigilant law enforcement activities in the HIDTA's by ignoring State and local needs.

Recently, federally funded task forces in the HIDTA's have achieved significant victories in the drug war. A few weeks ago a High-Intensity Drug Trafficking Area [HIDTA] Violent Gang Task Force made up of agents from Federal, State, and local law enforcement agencies in New York City arrested seventeen members of a vicious Dominican drug gang known as the "Gerry Curls." Months of undercover work and dedication by members of the task force culminated in the bust. The Gerry Curls are believed to be responsible for a cocaine operation worth more than $11 million. For over 2 years, they have terrorized the residents of the West 157th Street neighborhood where the gang bases its operations. It is indicative of the gang's reign of terror that even after the arrests neighbors refused to speak with the media for fear of retaliation. Two murders are directly attributed to the Gerry Curls and they are certainly responsible for many more. One of the killings was the brutal slaying of a 66-year-old resident who tried to organize tenants to oust the gang members.

Mr. President, the Gerry Curls' flamboyant manner, identified by members' distinctive hair styles and flashy gold cars, typifies the lack of fear these drug gangs have of law enforcement. Often these gangs operate on the streets and out of apartment buildings with no fear of retribution. The efforts of the New York City HIDTA Violent Gang Task Force show these gangs that such activities are no longer tolerable. The crippling of the Gerry Curls illustrates the effect organized law enforcement can have in the drug war and reinforces the importance of supporting Federal, State, and local law enforcement in the HIDTA's. I would like to congratulate the agents and officers who make up the HIDTA Task Force as well as New York County District Attorney, Robert Morgenthau, on the success of this operation.

In my own State of Arizona, a large-scale drug operation that brought an average of 16 kilos of cocaine a week into Arizona through California and Mexico was significantly curtailed by a task force supported by HIDTA funding to State and locals. Rex Holgerson of the Arizona Criminal Justice Commission said that this effort would not have been successful without HIDTA funds. The city of Phoenix used its entire allotment of 1991 HIDTA money to purchase equipment and support a multijurisdictional effort with the DEA. About 250 officers served 32 search warrants and seized 19 kilos of cocaine, over $171,000 in cash, 48 vehicles, and numerous weapons including an AR15 assault weapon and a grenade launcher. Forty-eight arrests have been made and 90 indictments are expected with the investigation still ongoing. This was a massive effort with remarkable results. Mr. President, it is gratifying to know that the money we provide to the HIDTA's, although not nearly the amount I would like, is having a strong effect in curbing drug trafficking.

Contrary to what we have heard and read lately, I can assure you that the war on drugs has not been won. Arizona, the Southwest Border States, and the other HIDTA's are still inundated with illegal drugs. Decreasing emergency room admissions cannot be used as a measure of the incidence of drug-related crime. It is wrong to claim that halting drug trafficking no longer requires an aggressive approach. Law enforcement, however, is doing its level best fighting day in and day out to put a dent into operations like the Gerry Curls and the one in Arizona. The concentration of resources in the HIDTA's makes such efforts possible. The officers in the HIDTA task forces deserve our sincere thanks and continued support as they wade into the daily battle to keep our streets and homes safe from drug crime and violence.●

TRIBUTE TO JAMES EARL COWART; ONE OF MISSISSIPPI'S FINEST

● Mr. LOTT. Mr. President, in a few weeks our Nation will pause to remember the service and dedication of the men and women who served in America's Armed Forces in Southwest Asia 1 year ago. In that campaign our cause was noble, our principle just, and our determination strong.

Our Nation's history is filled with accounts of noble pursuits and sacrificial dedication. And each time our great country sought to strike a blow for freedom, the blood of America's best was shed. Such was the case on September 16, 1964.

James Earl Cowart was a boiler technician aboard the U.S.S. *Coontz* (DLG-9) and enjoyed the good fortune of being from Poplarville, MI. On a special operation in the South China Sea, the U.S.S. *Coontz* was operating in support of the U.S.S. *Ranger* in its plane guard position while answering flank speed turns for 32 knots.

Serving on his upper level duty station, James suffered second and third degree burns over 60 percent of his body when several rear wall boiler tubes burst in the 1B boiler. James managed to escape the scalding confines of the boiler room and was transferred to the U.S.S. *Ranger* for medical attention. Sadly, 4 days later James Earl Cowart died from his injuries.

Like tens of thousands of other Americans who gave their life in pursuit of a cause, James lost his life in service to his country. Later his brother Donald was also killed while serving in the National Guard. The Cowart family endured the pain and loss twice, all in service and dedication to our country.

So it is with patriots—men whose goals are noble and dedication supreme. James was like many great Americans—Americans who sacrificed ultimately out of courage—because they had hope for the future. Napoleon once said, "Courage is like love; it must have hope for nourishment."

As the anniversary of America's involvement in Iraq approaches, I am compelled to think of all the young men and women—many of them from Mississippi—who have sacrificed with courage and hope. As the United States begins to savor our victory over communism and Soviet oppression, we can clearly see that the hope of James and the thousands of men and women like him has not been lost. Theirs is an investment which is now reaping great returns.

It is with honor and admiration that I recognize James Earl Cowart's life, his death and his sacrifice. May God bless him, his family, the state of Mississippi, and God bless the United States.●

CHAMPUS REFORM INITIATIVE CONTRACT

● Mr. McCAIN. Mr. President, last week Congress passed both a Department of Defense authorization and appropriation bill, and these bills have been forwarded to the President for his signature. The relationship between these two bills was the subject of much discussion on the Senate floor. I myself offered some remarks on this relationship when the Senate considered the appropriation bill. I believe that one particular subject area that is addressed in both bills, and on which I spoke briefly last week, deserves further clarification.

Specifically, I wish to clarify the relationship between the treatment by the two bills of the delivery of medical services under the CHAMPUS reform initiative beyond the scheduled termination of the current vendor contract on January 31, 1993. The appropriation bill directs the Secretary of Defense to extend the current contract for an additional year without the benefit of competitive bidding or any other customary procurement practices. The authorizing committees of both Houses, however, have a different position. And, that is, that competitive bidding must be the practice for such contracts as opposed to political favors. Accordingly, the authorization bill requires that the Secretary utilize competitive bidding and other customary procurement practices in any award of the right to provide services under the CHAMPUS reform initiative program beyond the scheduled termination of the current contract on January 31, 1993.

The two provisions are directly at odds. In essence, it is the intent of each provision to repeal the other and substitute its own direction to the Secretary for that provided by the other bill. For this reason, I believe that the latter of the two bills to be signed into law must prevail on this issue and effectively extinguish the earlier signed measure.

While I believe that the course taken in the authorization is the correct one, it is not my purpose here to argue that case. I am simply making clear for the record, prior to the signing of these bills by the President, my understanding as ranking member of the Subcommittee on Manpower and Personnel of the Committee on Armed Services as to the relationship between these conflicting CHAMPUS Reform Initiative provisions.●

TRIBUTE TO WILLIAM H. HUDNUT III

● Mr. LUGAR. Mr. President, I rise today to honor a man who, for the past 16 years, has served the city of Indianapolis with distinction. He was honored by the Indianapolis Star in 1979, as "Man of the Year," and in 1988, City and State magazine named him the "Nation's Outstanding Mayor."

Bill Hudnut's commitment to public service began at an early age. He graduated from Princeton University in 1954, with high honors and was selected for Phi Beta Kappa. He then attended Union Theological Seminary in New York City, where he graduated summa cum laude, and subsequently became a third generation Presbyterian minister. Prior to coming to Indianapolis, Bill served in two churches located in New York and Maryland.

In 1972, Bill Hudnut was elected to Congress. During his tenure, he sponsored 17 bills which are now public law. In 1975, he was elected mayor of Indianapolis, where he has served for 4 consecutive terms.

As a former president of the National League of Cities and the Indiana Association of Cities and Towns, Bill Hudnut has helped Indianapolis achieve spectacular growth while maintaining a small town feel. Under Bill's leadership, more than 100,000 jobs have been created and 5,000 new businesses have opened their doors. Public-private partnerships have spirited the redevelopment of downtown Indy, while preserving the historic older neighborhoods.

Mayor Hudnut has demonstrated a solid commitment to the advancement of Indianapolis' minority population. He promoted the appointment of minority candidates in the highest levels of his administration. He has also supported investment intiatives which fostered the growth of minority-owned business enterprises in the city.

I ask my colleagues to join me in saluting this outstanding public servant for his forward-looking leadership in building a better Indianapolis.●

ALLEGHENY WILD AND SCENIC RIVER BILL

● Mr. SPECTER. Mr. President, I am pleased to support passage of S. 606, the Allegheny Wild and Scenic River bill, which designates certain segments of the Allegheny River of Pennsylvania as a part of the National Wild and Scenic River System.

Our friend and colleague, Senator John Heinz, was the original sponsor and an ardent supporter of this bill. As you know, John Heinz was noted for his dedication to environmental protection and his innovative efforts to find solutions to the complex environmental threats that confront us. I feel that it would be a fitting tribute to Senator Heinz to pass this year the Allegheny Wild and Scenic River bill, which is representative of his passionate commitment to the preservation of our natural resources.

Mr. President, 22 years ago, Congress enacted the Wild and Scenic River Act to set the policy of our country in protecting and preserving certain rivers in the United States that possess remarkable scenic, geologic, historic, cultural, or recreational attributes. The Wild and Scenic Rivers System represents a balanced approach to land management that allows for productive interaction between man and nature. This program affords the people of this country the opportunity to enjoy fully the natural values of rivers such as the Allegheny while ensuring the long-term preservation of those assets so that future generations may enjoy the same benefits.

For those who have not had the pleasure to visit, the Allegheny River is located in northwestern Pennsylvania and flows through portions of the Allegheny National Forest, one of the most beautiful forests in the country. Seventy-three percent of the Allegheny River corridor is forested, predominantly with oak, hemlock, and northern and Allegheny hardwoods. The Pennsylvania Fish and Wildlife Service lists 394 species of mammals, birds, amphibians, reptiles, and fish that are likely to be found along the river corridor. Of these, 34 are designated as threatened, endangered, or of special concern in the State of Pennsylvania. Passage of this bill would extend added protection to the bald eagle, the only federally listed endangered species known to live in the corridor.

In 1978, Congress directed the Forest Service to conduct a study to determine which portions of the Allegheny River were eligible for protection under the Wild and Scenic Rivers Act. The study, completed earlier this year, concluded that 85 miles of the river contained outstanding remarkable values. In addition to the beautiful scenic value of the river, there are 109 islands containing significant ecological and recreational value. The Allegheny River also has cultural value as a principal travel route for more than 12,000 years, marked by a site known as Indian God Rock, which is listed on the National Register of Historic Places.

As no section of the Allegheny River was remote enough to be classified as a wild river area, the 85 miles of the river will be designated as a recreational river. This is fitting, as this beautiful river supports a strong tradition of fishing, canoeing, camping, and other recreational activities.

Mr. President, this bill has been developed through extensive consultation with the Forest Service, local and county governments, and members of the public. The Allegheny River is located within 3 hours of several major metropolitan areas, and there are 2,000 cottages and permanent homes located within the eligible river segments. In addition, the Allegheny study report estimates that recreational use could increase by 30 percent within 6 years following designation, creating jobs in the region and stimulating the local economy by $315,000 each year.

Mr. President, this legislation represents another step in our efforts to preserve, enhance, and protect the natural heritage and beauty of our great Nation. I am proud to join in support of this legislation to preserve a piece of our natural heritage for future generations of Pennsylvanians and all Americans.●

ORDER OF PROCEDURE

Mr. MITCHELL. Mr. President, I had several discussions throughout the evening with the Speaker and with the distinguished Republican leader and other Members of the leadership—both House and Senate, Republican and Democratic—in an effort to determine the best way to proceed to complete action on the important measures remaining before the Congress.

I am advised by the Speaker that the House will remain in session throughout the night in an effort to act upon several of those important measures, including the surface transportation conference report and, if it is available during the night, the banking bill conference report, and perhaps other measures as well.

Since, under our procedures, the Senate cannot act on those measures until after they have been acted upon by the House and transportated to the Senate, we are now in the position of awaiting House action before we can act here in the Senate.

It is my conclusion that under those circumstances it is the most sensible and prudent thing for the Senate to recess now for a period of time while we await action in the House on these measures so that, to the extent possible, Senators can get some sleep and be ready to go tomorrow morning when we do have these measures from the House.

Since at this time I am not in a position to make a judgment on precisely when those actions will occur in the House, I am going to suggest that we recess subject to the call of the Chair, with the intention of reconvening the Senate at about 9 a.m. this morning.

If a decision is made to reconvene prior to that, Senators will, of course, be given as much notice as possible.

I do not think that is likely to occur, but, of course, we do not know as we await these actions by the House.

I have discussed this with the distinguished Republican leader and I intend to meet with the Speaker shortly, to talk with the Speaker again, shortly, to get a better and perhaps more up-to-date view on the timing of the action in the House on these various measures.

Mr. President, before I do so, I will yield to the distinguished Republican leader for such comments as he may wish to make.

Mr. DOLE. Mr. President, I concur in the statements by the majority leader. I think this would permit Senate staff to get some rest, too, is that correct? So they would not have to stay here subject to the call of the Chair.

As I understand it, we are still on target. It just happens in this time we are a little ahead of the House. Generally I think the House is sometimes waiting for us. This time we are waiting for them.

It is my understanding tomorrow morning we will have the supplemental appropriation measure available. Shortly thereafter, maybe the highway bill. And they are still in conference on the banking bill. And I am not certain about Medicaid.

It seems to me we are pretty much on target. We could complete action on most of those sometime tomorrow morning, early afternoon.

Mr. MITCHELL. That is my hope and expectation.

Mr. President, so there is no misunderstanding, I may have misspoken, my intention is to, at least at this point, recess subject to the call of the Chair. Following further discussion with the Speaker, perhaps recess over to a definite time this morning.

RECESS SUBJECT TO THE CALL OF THE CHAIR

Mr. MITCHELL. Mr. President, for now, unless the distinguished Republican leader has anything further he wishes to say, or any other Senator is seeking recognition, I ask unanimous consent that the Senate stand in recess subject to the call of the Chair.

There being no objection, at 12:14 a.m., the Senate recessed subject to the call of the Chair; whereupon, the Senate reassembled at 1:02 a.m. when called to order by the Presiding Officer (Mr. FORD).

The PRESIDING OFFICER. The distinguished majority leader.

RECESS UNTIL TODAY AT 9 A.M.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate stand in recess until 9 a.m. this morning.

There being no objection, the Senate, at 1:02 and 15 seconds a.m., recessed until Wednesday, November 27, 1991, at 9 a.m.

NOMINATIONS

Executive nominations received by the Senate November 26, 1991:

THE JUDICIARY

JAMES B. FRANKLIN, OF GEORGIA, TO BE U.S. DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF GEORGIA VICE ANTHONY A. ALAIMO, RETIRED.

EDUARDO C. ROBRENO, OF PENNSYLVANIA, TO BE U.S. DISTRICT JUDGE FOR THE EASTERN DISTRICT OF PENNSYLVANIA VICE LOUIS H. POLLAK, RETIRED.

URSULA MANCUSI UNGARO, OF FLORIDA, TO BE U.S. DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF FLORIDA VICE A NEW POSITION CREATED BY PUBLIC LAW 101–650, APPROVED DECEMBER 1, 1990.

DEPARTMENT OF JUSTICE

DAVID JAMES JORDAN, OF UTAH, TO BE U.S. ATTORNEY FOR THE DISTRICT OF UTAH FOR A TERM OF 4 YEARS, VICE DEE V. BENSON, RESIGNED.

THE FOLLOWING NAMED PERSONS TO BE COMMISSIONERS OF THE U.S. PAROLE COMMISSION FOR THE TERMS INDICATED:

EDWARD F. REILLY, OF KANSAS, FOR THE REMAINDER OF THE TERM EXPIRING NOVEMBER 1, 1997, VICE BENJAMIN F. BAER.

JOHN R. SIMPSON, OF MARYLAND, FOR THE REMAINDER OF THE TERM EXPIRING NOVEMBER 1, 1997, VICE CAMERON M. BATJER, RESIGNED.

FOREIGN SERVICE

THE FOLLOWING-NAMED CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF CAREER MINISTER, FOR THE PERSONAL RANK OF CAREER AMBASSADOR IN RECOGNITION OF ESPECIALLY DISTINGUISHED SERVICE OVER A SUSTAINED PERIOD:

HERMAN J. COHEN, OF NEW YORK

CONFIRMATION

Executive Nomination Confirmed by the Senate November 26, 1991:

DEPARTMENT OF EDUCATION

CAROLYNN REID-WALLACE, OF THE DISTRICT OF COLUMBIA, TO BE ASSISTANT SECRETARY FOR POSTSECONDARY EDUCATION, DEPARTMENT OF EDUCATION.

THE ABOVE NOMINATION WAS APPROVED SUBJECT TO THE NOMINEE'S COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

HOUSE OF REPRESENTATIVES—*Tuesday, November 26, 1991*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

During this season of Thanksgiving, we earnestly pray, O God, that Your spirit will touch the lives of people and that deeds of generosity and acts of kindness will be the standard for people everywhere. May the reality of violence in communities or in our world be conquered by acts of understanding and compassion; may the spirit of hatred or suspicion be overcome with reconciliation; may the grasp for power be tempered with respect for others; and may enthusiasm for success be measured by an enthusiasm for faithfulness and for truth. Gracious God, You have created us to be Your people and to give thanks for the gifts we have received, we pray for the strength and the courage to do justice, to love kindness, and to walk humbly with You. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. DERRICK. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. DERRICK. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 283, nays 112, not voting 39, as follows:

Mr. JAMES changed his vote from "yea" to "nay."

Mr. JOHNSTON of Florida changed his vote from "nay" to "yea."

So the Journal was approved.

The result of the vote was announced as above recorded.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from West Virginia [Mr. WISE] please come forward and lead the House in the Pledge of Allegiance.

Mr. WISE led the Pledge of Allegiance as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed without amendment bills of the House of the following titles:

H.R. 1476. An act to provide for the divestiture of certain properties of the San Carlos Indian Irrigation Project in the State of Arizona, and for other purposes; and

H.R. 3370. An act to direct the Secretary of the Interior to carry out a study and make recommendations to the Congress regarding to feasibility of establishing a Native American cultural center in Oklahoma City, OK.

The message also announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 3807. An act to amend the Arms Export Control Act to authorize the President to transfer battle tanks, artillery pieces, and armored combat vehicles to member countries of the North Atlantic Treaty Organization in conjunction with implementation of the Treaty on Conventional Armed Forces in Europe.

The message also announced that the Senate agrees to the amendment of the House to the bill (S. 1891) entitled "An act to permit the Secretary of Health and Human Services to waive certain recovery requirements with respect to the construction or remodeling of facilities, and for other purposes."

The message also announced that the Senate agrees to the amendment of the House to the amendment of the Senate to the amendment of the House to the bill (S. 1193) entitled "An act to make technical amendments to various Indian laws."

The message also announced that the Senate had passed bills of the following titles, in which the concurrence of the House is requested:

S. 756. An act to amend title 17, United States Code, the copyright renewal provisions, and for other purposes;

S. 1595. An act to preserve and enhance the ability of Alaska Natives to speak and understand their native languages;

S. 2047. An act to establish a commission to commemorate the bicentennial of the establishment of the Democratic Party of the United States; and

S. 2050. An act to ensure that the ceiling established with respect to health education assistance loans does not prohibit the provision of Federal loan insurance to new and previous borrowers under such loan program, and for other purposes.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 3816

Mr. DICKS. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.R. 3816.

The SPEAKER. Is there objection to the request of the gentleman from Washington?

There was no objection.

☐ 1030

McPEAK FAMILY STRUGGLES WITH HEALTH CARE EXPENSES

(Mr. WISE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WISE. Mr. Speaker, this morning I would like to introduce another West Virginia family from Harpers Ferry that is having trouble receiving health care.

Kare McPeak has two hemophiliac sons, Anthony and Thomas, 10 and 11 years old respectively. A service agency has been covering the boys' medical expenses since their father, while he works, does not have insurance that covers the boys. His insurance does not cover preexisting illness.

Recently Mrs. McPeak just got a new job to help foot their huge medical bills. The additional income unfortunately will knock her out of the assistance she is getting from the service agency, and their medical expenses total over one-half-million-dollars per year. She and her husband together make a good income. They consider themselves middle America. But they just lost their home because they had to make a choice between paying for their mortgage and paying for the boys' medication.

Does anyone really consider that a choice?

Mr. Speaker, how much longer must citizens like Mrs. McPeak choose between working to help provide for her family and having medical care for her children? How long must families choose between paying the mortgage and paying for medicine? How much longer until Congress enacts a national health care strategy which says Anthony and Thomas will have access to affordable health care?

STATUS OF REPUBLICAN ECONOMIC GROWTH PACKAGE

(Mr. GINGRICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GINGRICH. Mr. Speaker, last night BOB MICHEL and I met with the President on our economic growth legislation. At the end of that meeting we had to rush back to the House to vote on the campaign reform bill.

The haste of our departure led some White House reporters to be confused about the tenor of that meeting.

This morning the White House issued the following statement on behalf of the President and I quote:

> Congress has had many months to pass our economic growth package. The President regrets Congress' inaction. He is enthusiastic about the House Republicans' efforts to advance a responsible growth package. As we said last night, the President reviewed the package with Bob Michel and Newt Gingrich and told them unequivocally that he liked the package, and supports their efforts to advance the growth agenda.

I hope, given this statement, that the Democratic leadership will make in order an up-or-down vote on the growth package today.

STATUS OF PRESIDENT'S INTENTIONS ON REPUBLICAN ECONOMIC GROWTH PACKAGE

(Mr. FOLEY asked and was given permission to address the House for 1 minute.)

Mr. FOLEY. Mr. Speaker, what I said to the press publicly I also want to say on the floor of the House.

We have had confusing statements from the White House and from Members of the House of Representatives on the Republican side about the President's intentions with regard to the possible continuation of this session for the purpose of considering issues relating to various proposals having to do with taxes and other matters.

Every bit of information that I have received in a private way indicates that the President does not wish that this session be extended beyond the time required to complete the announced program for the purpose of considering any so-called growth package offered by the Republican Members of the House.

I have not received any information to the contrary.

It is important to be clear about this because of suggestions that the President is willing or might be willing or that members of the White House staff might be willing or interested, and so forth. This is something that can be settled very easily.

If the President communicates directly to me, or to the majority leader, or to the majority leader and the Republican leader simultaneously today that he desires us to extend this session of the 102d Congress for the purpose of considering legislation dealing with tax reductions for middle-income taxpayers and other proposals of this kind—despite the previous indications that he wishes to consider these after the State of the Union Message—I will urge that we stay in session.

However, I believe the time has come for an end to the gamesmanship of indirect suggestions back and forth. This is not a matter on which there should be any confusion. The President either wishes us to conclude our business and adjourn this session of the Congress or he does not. We will accommodate the President's desires in this regard but he must articulate them clearly, unequivocally, and directly and should do so today.

CLARIFICATION OF PRESIDENT'S INTENTIONS WITH RESPECT TO REPUBLICAN GROWTH PACKAGE

(Mr. DELAY asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. DELAY. Mr. Speaker, it is not confusing that this Government is based on separation of powers. This House is just as important as the executive branch and this House if it wants to do something about jobs in America can do it on its own and does not need directions from the President.

The point here is that the Democrats do not want to address jobs in America.

There still is not order but I will continue because obviously the Democrats would rather talk on the floor of the House than listen about jobs in America. We are talking about jobs and this House can take any action it wants. It can vote on a growth package today or it can call us back into session after the Thanksgiving recess or we can work through Thanksgiving. The point is that America's economy is hurting and we need jobs in America. We can call this session back after Thanksgiving if we so desire. We do not need the President of the United States to tell us.

The President of the Untied States told us last night that if we pass a growth package similar to what the Republicans are offering, he will sign it, which means that we can pass it on the floor of the House today or we can come back after Thanksgiving and do what is the will of the Congress.

It is obvious to me that the Democratic leadership, Mr. Speaker, does not care about jobs in America.

DISTRIBUTION OF TRANSPORTATION FUNDS TO THE STATES

(Mr. BENNETT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BENNETT. Mr. Speaker, later today we are scheduled to consider the transportation reauthorization conference report. As of this hour, we have not received an updated analysis of how the transportation funds will be distributed to the States, nor have we seen bill language. I ask you—how can we be expected to support legislation which we have not seen and that leaves us in the dark as to how fairly or unfairly highway money is to be distributed? I don't think we can.

I have been criticized in various circles over the last 24 hours for inaccurately portraying how poorly donor States will do under this conference report. However, my analysis is based on distribution tables produced by the Federal Highway Administration on Sunday. I must stress that these are the most recently released tables from the administration. Committee leaders have told me that the numbers have changed, but when asked, they cannot produce new tables to refute those I have been distributing. I always say, "trust, but verify;" and while I believe in the integrity of the Public Works Committee, I owe it to my State and you owe it to yours to verify, on paper, the committee's claims. It is the committee that has the burden of proof and if they cannot meet the burden, we are compelled to oppose the conference report.

In reviewing the latest available material from the transportation reauthorization conference, it appears that those of us who represent donor States have every reason to be concerned. According to my analysis, as of now, the conference report that we are to vote on uses Senate formulas and only applies the 90 percent minimum allocation to about 75 percent of the total program. Gone are the FAST formulas that I, and so many of you, fought for so vigorously, and we are stuck with the continued use of an antiquated distribution system that was developed 35 years ago to construct this Nation's interstate system. Now that the system is nearly complete, it is time to move forward in an effort to meet modern transportation needs with a modern formula. This bill does not seem to do that.

Even more disconcerting is the fact that the 90 percent minimum allocation program, intended to be a safety net, has such limited application. In many cases, this means that donor States will do worse under the conference report than under either the House or Senate bill. Most States cannot live with that and neither should we. The equity and fairness that we achieved in the House bill has been lost and I can see no reason to support the conference report.

☐ 1040

THE ANGELS OF THE WORLD FOUNDATION

(Mr. LEWIS of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEWIS of Florida. Mr. Speaker, this is the ninth year I have had the honor and pleasure of delivering one of your first gifts of the holiday season.

You should have already received the 1991 Angels of the World Christmas ornament from the T&M Ranch in Indiantown, FL.

Many of you will recall the T&M Ranch is a home and school for mentally handicapped adults. There they learn the necessary skills to become working members of their community.

They craft these beautiful angel ornaments designed by sculptor Laszlo Ispanky. The project teaches them to make something with their hands, prepare it for delivery and to manage the money they earn from their efforts.

The T&M Ranch and the Angels of the World Foundation use proceeds from the sale of the ornament to create scholarships for mentally disabled persons.

It has been a great pleasure of mine to bring their gift of love to you. I hope you have a special place for the 1991, ninth edition angel, Anna of Germany. Happy holidays to you all.

WE MUST ENCOURAGE OTHER COUNTRIES TO ACCEPT HAITIAN REFUGEES

(Mr. RANGEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RANGEL. Mr. Speaker, as we try to decide today whether or not we have a sufficient amount of votes to extend the death penalty for 50 additional Federal crimes, which would include Indians and other people in this country, I would want to share the thought that, if we walk away from this Congress and do nothing about the Haitian refugees, that indirectly we may be responsible for the lives of many poor people that will be directed back to Haiti. The only thing that prevents these refugees from returning is that a Federal court order out of Miami restrains the administration from sending the Haitians back to Haiti where many would face certain death. Mr. Speaker, the Committee on the Judiciary is now considering a Mazzoli bill that would codify the law and encourage other countries to take these people, but says, "any place but Haiti."

Religious leaders around the country, Catholics, Protestants, Jewish people, and gentiles, have come together to say that at this holiday season, as Mary and Joseph found themselves homeless, let us not return these people without a country, without homes and without hope back to Haiti. We can at least go and have that Thanksgiving knowing that we have taken a vote to encourage other countries' leaders to accept these poor people rather than to send them to Haiti where they can face certain death.

THE UNFAIR BURDEN OF THE EARNINGS TEST ON AMERICA'S WORKING SENIORS

(Mr. HASTERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HASTERT. Mr. Speaker, once again Washington bureaucrats are telling us they know more about seniors than seniors themselves. And to add insult to injury, they are spending our tax dollars to do it.

The bureaucrats at the Social Security Administration are trumpeting the results of a study that suggests Americans aged 65 to 69 who are receiving Social Security benefits won't go back to work if the Social Security earnings penalty is repealed. The earnings penalty, you'll recall, is that Depression-era fossil that takes away $1 in Social Security benefits for every $3 a senior earns over $9,720 annually. For seniors earning as little as $10,000 a year, that amounts to an effective marginal tax rate of 56 percent—nearly twice the tax rate millionaires pay.

The study the SSA bureaucrats are touting says that repeal of this discriminatory law will have no effect on seniors. Mr. Speaker, nothing could be further from the truth.

Maybe if the Social Security Administration bureaucrats left their comfortable offices and actually talked to some of America's working seniors, they would realize the unfair burden the earnings test places on seniors, our Nation's businesses, and the national economy. They might even discover that tens of thousands of otherwise honest citizens have been forced into an underground cash economy.

Many seniors are forced to work after they reach retirement age simply because they cannot make ends meet on Social Security alone. With increasing property taxes, skyrocketing health care costs, and extremely low interest rates on their modest savings, more and more seniors must work.

As I walk the streets in my district every weekend, I talk to seniors who tell me they would work all year if they could do so without losing their benefits—but who quit in midfall because it is more cost effective for them to do so.

Businesses rely on seniors because older Americans respect the work ethic and are reliable. And with more people working and spending, the economy would get a badly needed shot in the arm.

And finally, Mr. Speaker, the numbers speak for themselves. According to the National Center for Policy Analysis, more than 700,000 seniors would return to the work force or emerge from the underground economy if the earnings test was repealed.

The SSA bureaucrats who want to continue to penalize seniors are afraid that repeal of the earnings test means fewer of them will be needed to push papers. But keeping bureaucrats busy is a poor reason to retain this foolish law.

A DOMESTIC PROGRAM AND A TAX CUT BY CHRISTMAS IS POSSIBLE

(Mr. WILLIAMS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILLIAMS. Mr. Speaker, my colleagues, if the indecision and confusion down at the White House was not so dangerous, it would be providing us with great yearend entertainment. In his final year, entering his final year of his term, President Bush cannot decide whether or not he is even for the domestic agenda, which is being offered by the Republicans here in the House. First it was, "Don't offer it." Now it is, "Maybe offer it." First it was, "You won't vote." Now, "Maybe you shall vote." It is dangerous.

The President has got to pay more attention to the domestic economy, and he has got to make up his mind, but from the Democratic side we tell him this: "If you don't threaten to veto, Mr. President, if you want us to stay in session, the Democrats on our side would like to give middle-income Americans a tax cut to put under their Christmas tree."

So, join us, Mr. President. Invite us to stay in session. We will do it, and we will provide middle-income Americans with a domestic program and a tax cut by Christmas.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. MAZZOLI). The Chair would remind Members that comments in the House are to be directed to the Chair and not to persons outside the Chamber.

INVESTIGATION OF THE OCTOBER SURPRISE IS A FRIVOLOUS WASTE OF TAXPAYER DOLLARS

(Mr. LIVINGSTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LIVINGSTON. Mr. Speaker, talk about gamesmanship. Where in the world are the priorities of the Democrat leadership of this House?

As my colleagues know, despite what the Democrat candidates for President have been saying for the last few months, despite what everybody acknowledges to be big problems in this country—the economy, health care, education and the like, the fact is that the priorities of this House leadership lead us to spend time and substantial money on a spurious October surprise investigation.

Mr. Speaker, that was all 12 years ago. The ordinary statute of limitations is 5 years, and other investigations have thrown cold water on the idea. There was the GAO report, the Senate Intelligence Committee, the Iran-Contra investigation, the independent counsel, and even Newsweek and New Republic have debunked this thing entirely, yet a majority of the Committee on Rules of this House voted to go ahead with this investigation.

Why, Mr. Speaker? We have big problems. There is substantial evidence of other matters that could be investigated, like the relationship of Members of the House to the Sandinista communists in the late 1980's. But why this?

What it comes down to is that we are not about to study economic problems, not address an economic program, but instead we will frivolously waste the taxpayers' dollars and our important time on this worthless investigation of the "October Surprise"—for no other reason than partisan advantage in a presidential election year.

AMENDMENTS TO THE HAWAIIAN HOMES COMMISSION ACT OF 1920

(Mr. ABERCROMBIE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ABERCROMBIE. Mr. Speaker, today I have introduced companion legislation to Senate Joint Resolutions 23 through 34. This action is to provide for the consent of the United States to certain amendments to the Hawaiian Homes Commission Act, 1920, as amended, made in 1986, 1987, and 1989, and 1990 through the enactment of laws by the State of Hawaii.

It is my hope that by introducing companion legislation to the House of Representatives that consent to these amendments will be agreed upon without further delay.

Approval of these amendments will allow more native Hawaiians to acquire homesteads more quickly and thus fulfill the original Homesteaders Act of 1920.

Mahalo and Aloha.

THE DEMOCRATS HAVE NOT DONE ONE THING TO PUT AMERICANS BACK TO WORK

(Mr. GUNDERSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUNDERSON. Mr. Speaker, and colleagues, I am absolutely amazed when Democrat Members of this institution stand up and say, "Mr. President, tell me what you want, and we will do it."

Mr. Speaker, I say to them, "You have already sent to the President of the United States no less than 24 bills he had to veto. He has told you clearly and unequivocally this crime bill will be vetoed. If you believe what you have said this morning, then don't even bring the crime bill up. Go back to conference, and do a real crime bill. You want to adjourn so you can go across this country and ask the American people if they're better off than they were 4 years ago, but I urge caution when you do that because, if you make that statement, if you ask that question, the American people very properly will ask you back, 'And what, Mr. Democratic Congressman, have you done about it?' "

Mr. Speaker, the hard cold reality is that, unless a growth package is made in order to the RTC bill later today,

the Democrats will have to admit to the American people that in the midst of the recession that they, the Democrats who control this Congress, have not done one thing to put one American back to work.

☐ 1050

ARKANSAS EDUCATIONAL TELEVISION CELEBRATES SILVER ANNIVERSARY

(Mr. THORNTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THORNTON. Mr. Speaker, my State will pass an educational milestone next month, marking the silver anniversary of its venture into educational television.

On December 4, 1966, Arkansas placed into operation the first of what would become five television stations, which now broadcast educational programming to over 90 percent of our State.

The Arkansas Educational Television Commission has been working on this silver anniversary celebration all year, using its award-winning theme, "Where Learning Never Ends," to stress the excellent variety of programming that is available to Arkansas because of its work.

The network is active 18 hours a day, offering Arkansas viewers education that ranges from "Sesame Street" to college telecourses, with geography, science, math, and GED programming in between; cultural productions that include opera, ballet, and drama; and an informative schedule of public affairs programming that includes the "MacNeil/Lehrer Newshour," "Washington Week in Review," and its own production, "Arkansas Week."

AETN and its five transmitters present to Arkansas the best in public broadcasting while helping to educate our children and to raise the levels of scholastic accomplishment in our State. AETN also presents programs like the "Arkansas Traveler" and "Ozark Mountain Christmas"—programs that make our State proud.

Mr. Speaker, I am pleased to call my colleagues' attention to this great Arkansas resource and to congratulate the staff and management of AETN for this achievement.

ELEVATING EPA STATUS

(Mr. GOSS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GOSS. Mr. Speaker, this is the time of year when we ask, what happened to such and such bills? My colleague, the gentleman from New York [Mr. BOEHLERT] has been making inquiries this week to find out whatever happened to legislation to elevate the EPA to a Cabinet level.

Incredibly, this is something that has been on the agenda since I first came to Congress almost 3 years ago. The other body has already taken positive action on such a measure, all the major environmental groups and the administration has long been asking for such action. Not surprisingly, the American people support it too. It is astonishing to note that all of this support is apparently being frustrated by the will of one House committee, of one committee chairman who has so far refused to bring this legislation to the floor. Mr. Speaker, if it looks like a Cabinet-level agency, acts like a Cabinet-level agency, and is expected to be treated like a Cabinet-level agency, then why can't this body do the right thing and finally give the EPA the forum that its responsibilities demand?

DEFICIT CONSEQUENCES TO THE REPUBLICAN GROWTH PLAN

(Mr. DURBIN asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. DURBIN. Mr. Speaker, it is time to take a closer look at the Republican growth package. This growth package which the gentleman from Georgia [Mr. GINGRICH] described this morning will add $25 billion to our national deficit over the next 5 years.

After all the carping and crying about our national debt, the House Republicans believe a bigger deficit is the answer to our economic problems.

Now, what is the centerpiece of the Gingrich Republican growth plan? Surprise, surprise. The Republican plan would cut the capital gains tax on the wealthiest Americans. The Joint Committee on Taxation estimates that 57 percent of this tax break would go to those Americans earning over $200,000 a year. For those Americans it means a tax reduction each year of over $11,000.

Let us go back on this chart to the middle-income Americans, the working families. The Republican growth package gives the working family a whopping $65 to $84 tax break. The Republican growth package would help the incomes of the wealthiest Americans grow dramatically.

Does this sound familiar? Have we heard this song before? It is the same supply side, voodoo, trickledown economics that got our country into this economic mess.

RECOGNITION OF MEMBERS

The SPEAKER pro tempore (Mr. MAZZOLI). For what purpose does the gentleman from California [Mr. DORNAN] seek recognition?

The House will be in order. The Chair will repeat, the House will be in order.

PARLIAMENTARY INQUIRY

Mr. DANNEMEYER. I have a parliamentary inquiry, Mr. Speaker.

The SPEAKER pro tempore (Mr. MAZZOLI). When the House is in order, the gentleman will be recognized.

Mr. DANNEMEYER. I have a parliamentary inquiry, Mr. Speaker.

The SPEAKER pro tempore. The gentleman from California [Mr. DANNEMEYER] will state his parliamentary inquiry.

Mr. DANNEMEYER. Mr. Speaker, when one Member of the House uses a chart as part of a presentation, do the rules provide that another Member can make a reference to that chart?

The SPEAKER pro tempore. References can be made, but the use of the chart is not guaranteed.

Mr. DANNEMEYER. Mr. Speaker, is it appropriate to make a parliamentary inquiry to ask the Chair to ask the Sergeant at Arms to go and find that chart?

The SPEAKER pro tempore. That is not a proper parliamentary inquiry.

THE ELUSIVE CHART

(Mr. DORNAN of California asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. DORNAN of California. Mr. Speaker, I want to revise and extend my remarks and take that chart and put it to literary prose and put it in immediately following my remarks. I like that chart.

I wanted to talk about that chart. I am going to go and look for it in the Speaker's Lobby afterwards and study that chart and memorize that chart, because I noticed the next item up, which was the second highest paid Americans on that chart, was U.S. Congressmen and Senators. The next category up was $100,000 to $200,000, and we pull down about $125,000 here.

I thought I would point out that under that Republican plan Members of Congress were going to get a 13.7-percent tax break, so I thought when we go home on Thanksgiving and have our town hall meetings, we may hear people stand up and say, "Mr. Congressperson, you make $125,000. Why wouldn't you give us a growth package so that we could begin to create jobs again in America?"

Under President Reagan we were creating 300,000 jobs a month, and George Bush had hoped to break that record, but because of the Democratic-controlled Congress, the House and the Senate, we are losing 50,000 jobs a month. I ask, "Why don't we stay and come back after Thanksgiving and pass this growth package? We will let you call it the Democratic growth package."

Mr. Speaker, I am going to go and look for that chart now. It is fascinating.

THE 70-PERCENT MINIMUM WAGE INCREASE WILL HURT WORKERS AND SMALL BUSINESSES IN DISTRICT OF COLUMBIA

(Mr. STEARNS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEARNS. Mr. Speaker, I could not believe my eyes when I read that the District of Columbia Wage-Hour Board has decided to increase District of Columbia's minimum wage from $4.25 to $7.25.

That's a 70-percent wage increase that will be devastating to small business men and women in the District of Columbia.

While the wage-hour board certainly had good intentions, it's decision will hurt those it intends to help—low-income workers.

The Washington Post reported yesterday that a day care center in southeast Washington will begin to lay off or close entirely because of the board's decision. This day care center has provided service to low-income families for 23 years.

The chairman and CEO of Colonial Parking, which employs 250 cashiers, also said he is considering massive layoffs.

Mr. Speaker, the way to help low-income workers is through an expanding economy that creates new jobs to give people employment options. By increasing wages by 70 percent, the D.C. Wage-Hour Board will shrink the job pool and will chase small businesses out of the city. That's no way to help the people of Washington.

BUREAUCRATIC REDTAPE HAMPERS IMPLEMENTATION OF ASSISTANCE PROGRAMS

(Mr. TALLON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TALLON. Mr. Speaker, Complexity cripples the food stamp, AFDC, and Medicaid Programs and increases the potential that families will be denied assistance because of red-tape rather than for eligibility reasons.

And taxpayer dollars are paying for ever more bureaucracy as the need for these vital programs grows.

My bill simply calls for USDA and HHS to compile a document to delineate what statutory and regulatory changes may be made to streamline and coordinate program rules.

If we pass this bill, policy makers will have, for the first time, a document from which meaningful and lasting changes can be made for the benefit of recipients and taxpayers.

To be denied assistance simply because government bureaucracy cannot keep up with itself is an inefficiency that we should not tolerate.

PORNOGRAPHY BOYCOTT

(Mr. DANNEMEYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANNEMEYER. Mr. Speaker, our first amendment right of free speech is the cornerstone of all other civil liberties. Without it religious liberty would be diminished, the right to freely associate would be meaningless, and the right to vote would be irrelevant.

But with this precious right comes responsibility. Interestingly, this right of free speech cuts both ways. That is, we can use our collective voice to rise up against that which fails to uplift the human spirit or which does not quite meet an accepted standard. Environmentalists use this right to announce boycotts against tuna manufacturers. Some black Americans once sought to boycott businesses operating in South Africa. And some people use this right to boycott the promotion of cultural decay.

Mr. Speaker, I fit in with this latter group. I have chosen to boycott the K-Mart Corp., owners of Waldenbooks, who choose to sell pornography in their stores. I am just one consumer, but I will not knowingly allow my money to go to porn merchants no matter how respectable they try to make themselves seem.

PASS THE CRIME BILL

(Mr. MAZZOLI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MAZZOLI. Mr. Speaker, the crime bill, which I hope comes to the floor later today, is being hit from the left by liberals among us because it includes additional death penalties, because it eases the exclusionary rule, and limits to some extent habeas corpus death row petitions.

That same bill is being hit from the right by the conservatives because it includes handgun waiting periods and it does not go far enough to ease the exclusionary rule or to limit habeas corpus or to add death penalties.

There is a legislative rule of thumb that I have generally lived by these 20 years I have been in political office. And that is any bill which is assaulted and decried from the left and any bill which is at the same time assaulted and decried from the right is probably a pretty good bill.

So I say the crime bill is not a great bill. But, it is a pretty good bill. I hope that that bill passes today.

JAPANESE APOLOGY FOR PEARL HARBOR ATTACK

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BENTLEY. Mr. Speaker, December 7, 1991, marks the 50th anniversary of the Imperial Japanese Navy's attack on the United States Pacific Fleet at Pearl Harbor in Hawaii. That act resulted in more than 2,400 American deaths, including 1,102 Navy personnel on the battleship *Arizona*, plus numerous other military and civilian casualties.

Not only has there never been an apology for these deaths and casualties, but it appears that Japan no longer is acknowledging responsibility inasmuch as our information indicates that Japan's history books are to be rewritten without any references to the Pearl Harbor Sunday morning attack.

Therefore, over the weekend I submitted a resolution calling upon the Japanese Government to formally apologize on or before December 7, 1991, to the widows, parents, children, other survivors, and to the people of the United States. I urge my colleagues who believe in America to join me and several other Members in supporting this bipartisan resolution concerning Pearl Harbor 50 years later.

GOVERNMENT SERVICE IS PUBLIC SERVICE

(Mr. GLICKMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GLICKMAN. Mr. Speaker, today my colleague, the gentleman from Washington [Mr. CHANDLER] and I are introducing legislation that would create a lifetime ban on working for a foreign government or foreign-controlled corporation for certain high-level appointees of the executive branch and officials involved in trade negotiations, which would involve people at the U.S. Trade Representative's Office, the International Trade Commission, the Commerce Department and the Defense Department.

The purpose is manifold: To stop opportunists who used political influence to get trade jobs in the Government, blocking out people who would choose public service as a career rather than a pit stop, to remove the financial incentives for experienced trade negotiators to leave public service, to stop the flow of insider information about trade negotiations and individual corporations to foreign interests, and to remove the unfair advantage foreign competitors gain by having a former high-level U.S. official represent them before a Federal agency, Congress or the White House.

The purpose of this bill is clear. Government service is public service, not a training program for financial self-enrichment. We need to begin to fight for our own, to keep U.S. corporations strong and to preserve American jobs.

WHY NOT AN ECONOMIC GROWTH PACKAGE TODAY?

(Mr. SANTORUM asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SANTORUM. Mr. Speaker, today we are about to embark on what the majority leader has termed the mother of all sessions. We are going to knuckle down here in the House of Representatives, and we are going to spend day and night and possibly morning solving the problems of our country. But in that expanse of time, there is no room to consider a growth package.

We have heard here this morning that if we got a call from the President of the United States to stay over that we could deal with the growth package.

This is nothing new. This is nothing new. These growth packages have been around for a year. We have been asking for them for a year. This is another delay.

We have 1 full day. We have 24 hours. We have plenty of time to come here to the floor today to do this for America today.

There are unemployed people who are sitting at home because they do not have a job right now watching us who want our help. Let us help them.

LET US DEAL WITH THE UNDERLYING CANCER

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, the Republicans have another economic growth plan which constitutes tax cuts around election time. I am not going to put the Republicans down because the Democrats also have a similar type of plan.

My colleagues in the Congress, I say the real problem is we are treating the symptoms: crime, drugs, prostitution, welfare. No one is dealing with the underlying cancer.

In my opinion, no one is looking at trade reform, tax loophole reform, because those parties are looking exactly alike. It is getting so bad, when we have a sitting President that is agreeing to an economic growth package from a group of Republican Congressmen that he has never read, then our economy is in deep trouble, big time.

I say before we go on with any more 10-year plans, 5-year plans, let us start with taking a look at the trade and tax policies of our country that are sending our jobs overseas and ruining, ruining our communities.

SOME ASPECTS OF THE GROWTH PACKAGE

(Mr. CUNNINGHAM asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CUNNINGHAM. Mr. Speaker, the majority leader said that it would require the President to extend Congress. We can do that on the RTC bill that is coming up, but let me go through just a couple of items that the package includes, not for the rich but a 30-percent inclusion from taxable income from any taxable asset. That means a home, whether it is a $15,000 home or a $200,000 home. Adjust value asset for effects of inflation. No penalty for a first-time home buyer. I know my daughter and my son are coming up to buy a home. I do not think they can do it.

The most highly taxed group in America. I do not call them senior citizens, I call them chronically gifted, a Social Security earnings limitation reduction. That is important, Mr. Speaker.

This is not for the rich. Leading employees apprentice program. This is where employers can invest to create jobs in our shipbuilding industry. In San Diego they are already doing that. They are providing jobs for young men and women coming out of high school.

We can give them a tax credit. Repeal the excise tax on boats, aircraft, and passenger vehicles. This costs the Government money.

Those are all but about 15 of the items, Mr. Speaker.

THE TRANSPORTATION BILL

(Mr. APPLEGATE asked and was given permission to address the House for 1 minute.)

Mr. APPLEGATE. Mr. Speaker, we hope we are going to have a transportation bill out today. We do not have all of the numbers together yet so we do not know where all the money is going to go, and I think it is a disservice to the Members of the House to come out with figures that are not accurate because we do not have the figures and to be telling people that they are going to be hurt.

We are looking at the donor States, and we know, and I am a donor State, I want to get everything back into my district that I can because that is what the people want. But at the same time we are looking at a national bill, we are looking, if we want to jump-start the economic engine, this is the way to do it because we are talking about 2 million jobs, something that would put the economic stimulus into the Nation and help to get us back on the road again.

But we cannot do it if it is not going to be given a fair chance and a fair opportunity today. Today we are going to vote on it. Please, wait and look and listen and find out what is going to be in the bill before making any serious mistakes and saying, "No, I am not going to do it because there is not enough in my pocket."

□ 1110

ENCOURAGING RECOGNITION OF UKRAINIAN INDEPENDENCE

(Mr. COX of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COX of California. Mr. Speaker, in just a few days the nearly 52 million people of Ukraine will vote overwhelmingly to declare their independence from the former Soviet Union. The United States should be among the first to recognize Ukrainian independence. It is vitally important that the United States side with the people of Ukraine instead of continuing to prop up a Kremlin still run by barely reconstructed Communists. In particular it is important that America not repeat the performance so embarrassing to all of us in which our Nation was nearly the last on Earth, save our Cuba, to recognize the independence of the Baltic nations.

Those who argue that Kremlin control over the military, economic, and social policies of Ukraine is somehow in America's interests are wrong. America now has the opportunity to negotiate with an independent Russia and then independent Ukraine for the wholesale destruction of nuclear weapons and for the implementation of free market reforms.

I urge my colleagues to sign a letter I have prepared for President Bush encouraging him to accept the advice of several in his administration, including Secretary Cheney, to recognize Ukraine upon their declaration of independence this weekend.

SAME OLD REPUBLICAN TRICKLEDOWN ECONOMICS

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, I listen to my colleagues on the other side, and I wish so much that it was as simple as they would like to portray it. We keep hearing about this wonderful tax package that they have, and I feel like it is a movie. This is where we came in. This is how we got in trouble. So what should we do? Do more of it?

They are talking about more cuts for luxury taxes, more cuts for the rich on their capital gains taxes. I suppose that means we are going to get trickled on one more time. For the people who have still been waiting to be trickled on for the last 10 years of tax cuts and are not even damp, I do not think this will do it.

The gentleman from Ohio makes a very good point. What is wrong with this economy is very serious and we should stay here and we should deal with it. But it goes to trade, it goes to jobs, it goes to global market, it goes to all sorts of things. It is not about a tax on boats alone, believe me.

DEMOCRATS' FOREIGN POLICY LEGISLATION IGNORES DOMESTIC NEEDS

(Mr. ROTH asked and was given permission to address the House for 1 minute.)

Mr. ROTH. Mr. Speaker, for weeks our Democrat colleagues have been attacking the President on foreign policy matters. The chief Democrat accuser has been the majority leader, who has called for putting America first. Now here we are in the last day of the session and what is the only bill that the majority leader chooses to bring up? It is the Democrat $25 billion foreign aid bill.

We have voted on this bill now for the third time, but 178 days ago the President of the United States asked for a highway bill. Where is it? We have not voted on it once. But in this foreign aid there are $3 billion to build highways overseas, but not 1 cent to build highways here at home.

Senior citizens are asking. The leading tax writer, the gentleman from Illinois [Mr. ROSTENKOWSKI], sends us a "Dear Colleague" letter, "Vote for the foreign aid bill." Senior citizens are asking if the Democrats have enough money to spend $25 billion overseas, why don't they have enough money to restore the Social Security benefits that were taken away by a Democrat Congress and a Democrat President in 1977.

In 5 months we have voted on foreign aid three times. We are shoveling it overseas so fast they cannot spend it fast enough, but in 13 years we have not voted on notch once. Now go home and tell your notchers that.

FOREIGN AID BILL REFLECTS THE PRESIDENT'S REQUESTS

(Mr. OBEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OBEY. Mr. Speaker, never have I heard more fantasy engaged in on the House floor than by the previous speaker. The previous speaker just indicated that the Democratic foreign aid bill may be before the House today. What absolute baloney.

The fact is that virtually every dollar of that foreign aid bill is in the bill at the request of George Bush in the big White House down on the other side of Pennsylvania Avenue.

The second fact which the gentleman chooses to ignore is that the IMF, which is a $13 billion piece of that bill, is in the bill at the specific request of the President of the United States. This is one Democratic chairman who is going to make very certain that that IMF never sees the light of day in the appropriations bill.

But if the Members want to know who is responsible for that $13 billion request, do not tell the American people a falsehood. Do not pretend that that bill is a Democratic bill. Virtually every dollar in that bill is at the request of the Republican White House and $13 billion IMF is in that bill because Nick Brady, the Secretary of the Treasury and the President's best friend in the Cabinet, is demanding that it be in there. So let us tell the truth.

AMERICA NEEDS GREATER CONTRIBUTION FROM ITS ALLIES

(Mr. REGULA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. REGULA. Mr. Speaker, last week in Tokyo, Secretary Dick Cheney made what I think is a very significant speech. During his remarks he called on Japan to play a more active role, militarily and politically, in the world today, and to take on greater world responsibilities, particularly by helping the emerging democracies in Eastern Europe and the Soviet Union.

I would quote directly from his remarks, as follows: "Japan can do more. Japan's economic strength gives it worldwide political influence." I think this is a very important policy statement by the Secretary of Defense. At least we are saying to one of our allies, and we should say to all of them, "You must take greater responsibility, financial and otherwise, for world peace."

We have 56,000 American U.S. service personnel stationed in Japan today. This number should be reduced substantially. This is a very expensive cost to the United States. I think it is vital that we get a greater contribution from our allies, not only Japan but also others in paying the security costs for maintaining world peace.

I commend Secretary Cheney for taking that message to our ally in the Pacific.

LAST MINUTE REPUBLICAN GROWTH PACKAGE RHETORIC

(Mr. MILLER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MILLER of California. Mr. Speaker, once again the Republicans want to repeat history. They want us to consider one of their economic growth packages in the middle of the night on the last day of the session.

Mr. Speaker, we did that in 1981 and we had the largest deficits in the history of this country created, deficits that are now crippling our economy and crippling the American family and crippling our ability to create jobs.

In 1986 the Republican-led Senate, with the full support of President Reagan and then-Vice President George Bush, took capital gains out of the Tax Code, took passive losses out of the Tax Code, took the IRA's out of the Tax Code, and told us it would create economic growth. Now George Herbert Walker Bush is back here telling us, and the Republicans are saying, put it all back in and it will create economic growth.

Which is it, folks? You ought to settle this debate within your party before you try to get us to consider it in the middle of the night. This is not so much about economic growth as it is about the growth of the bank accounts of the wealthiest people in this country who would benefit under the Republican proposal. This is not so much about their willingness to stay here in session as it is the Republicans' fear to go home and find out what they have done to the American people and this economy.

MUSINGS OF MARIO

(Mr. PAXON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAXON. Mr. Speaker, it was another weekend of the musings of Mario. Get used to it, America. We in New York have watched this sideshow for years. Last weekend Mario Cuomo laid every problem in New York at the doorstep of President Bush.

Let us set the record straight. It was Mario Cuomo who raised taxes by $1 billion in each of the last 3 years, making New York Money Magazine's tax hell. It was Mario Cuomo who moved New York to dead last on the list of Tax Freedom Days. The Center for Study of the States says our Governor accumulated the worst record for balancing the budget. Cuomo added 30,000 new State jobs, raised State spending 98 percent, and has given us the third lowest bond rating in all of America.

Financial World Magazine rates Mario Cuomo 43d in fiscal management. On his watch, SAT scores have dropped from 36th to 45th in the Nation. Now New York's biggest and fastest export is our educated youth, who leave to look for jobs elsewhere.

The Washington Post said last month, and I quote here, "Cuomo says he would have to quit as Governor to run for presidency." That is the best news New Yorkers have heard in years. Please do not disappoint us.

□ 1120

BEWARE OF STRANGERS BEARING GIFTS

(Mr. DORGAN of North Dakota asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORGAN of North Dakota. Mr. Speaker, there is an old saying, "Beware of strangers bearing gifts." Never is it more important to understand that than in the 11th hour of a legislative session.

Now we have the Republicans coming to us with their economic growth package. I call it the dollar and-a-quarter package. $1.25 a week is what they offer to middle-income families. Some stimulus, is it not?

But look a little closer at this package. Down at the bottom, those families that make over $200,000 a year, almost $12,000 a year in tax cuts. In fact, 70 percent of their tax cuts go to people with incomes over $100,000.

There is nothing new about this, but there is certainly something Republican about it. The same old tired nonsense. They continue to believe that the key of the kingdom of economic growth is in the bank accounts of the rich.

When will they understand that the middle-income families drive this economy, and if ever we would give the middle-income families a little something to work with, America would get to work again.

When will we see an economic growth package that is fair from Republicans? I hope it is soon.

THE DISTRICT OF COLUMBIA'S INTERSTATE GUN CONTROL

(Mr. INHOFE asked and was given permission to address the House for 1 minute.)

Mr. INHOFE. Mr. Speaker, much as I hate to change the subject from this very interesting topic today, I would like to recall that on Tuesday, November 5, the District of Columbia passed into law a measure that holds firearm manufacturers and sellers liable for injuries caused by the persons who purchase their guns.

This is just another gust of wind in the storm called gun control. The media and proponents of gun control have somehow fooled the public into believing that if we get rid of the firearm, we get rid of the fired upon.

We seem to be forgetting who is doing the killing. We seem to be forgetting that a person using a steak knife can kill somebody, a person driving an automobile can murder someone, a person using something as harmless as a pillow can commit a homicide. But do we hold the Sheffield Knife Co. liable, do we hold General Motors liable, do we hold the Cannon Linen Co. liable. I don't think so.

So, where are the gun control enthusiasts leading us? First to court and then on to being a totally defenseless nation. If measures like the one passed here in the District prevail, they will make a mockery of our Nation's interstate commerce laws.

Forget the fact that a dealer in Oklahoma legally sold an individual, with sporting intentions, a firearm. The lawsuits will quickly drive gundealers and manufacturers out of business and the only winners will be the incessant lawyers that feed on these types of statutes.

Mr. Speaker, when I read about the D.C. referendum in the paper, I was reminded of England between the two World Wars. Well-meaning lawmakers in the Labor Party convinced the people that by giving up their guns they would then disarm the IRA rebels and have peace. The Firearms Acts of 1922 and 1937 set up gun registration that led to confiscation. It was only when Adolph Hitler had invaded their homeland and taken away what little defense they had at Dunkirk that they realized their predicament.

They found out they had a dried-up arms industry and they had to come to barbaric America to bail them out.

A few minutes ago the gentleman from California [Mr. MILLER] talked about remembering history. I hope that we can remember this bit of history as we act on these gun control measures in this country.

Today we face the same predicament with the rebels on our own streets. Let us not make the same mistake. Only tougher laws against criminals will bring down crime rates.

Mr. Speaker, the only winners in the D.C. referendum will be criminals and lawyers.

GIVE WORKERS A CHANCE TO HAVE A REAL THANKSGIVING

(Mr. BALLENGER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BALLENGER. Mr. Speaker, Thanksgiving is coming Thursday, but almost 8,000 workers in North Carolina will not be able to afford a turkey, because this House passed the luxury tax that has destroyed the boat building industry and their jobs.

Mr. Speaker, we could pass a Democrat growth package in a couple hours. Time is not the stumbling block that prevents our vote on the Republican growth package, politics is. We have been wasting time here doing nothing but 1-minute speeches, suspensions, and special orders, so there is plenty of time for a serious effort.

Give us a chance to vote on our growth package which would help those North Carolina workers to get their jobs back and have a real Thanksgiving.

ANOTHER NEW LOW

(Mr. McEWEN asked and was given permission to address the House for 1 minute to revise and extend his remarks and to include extraneous materials.)

Mr. McEWEN. Mr. Speaker, just when you think you have heard it all, then you find out that there is another new low.

I wish to bring to the attention of my colleagues H.R. 3807 which will be messaged over from the Senate later on this afternoon. There is a provision in there to give $700 million to the Soviet Union, $700 million; but listen to this, line 19 of section 5 says this:

> The value of assistance from existing stocks and inventories of the Department of Defense or any other federal Department or agency may not be charged against those funds.

Now, not only are we going to give $700 million in cash, we can take anything that America possesses and give to them free with no accountability under any circumstances.

Now, rest assured if this amendment is allowed to pass this afternoon, I swear, I guarantee, we are going to be sending trucks to the Soviet Union to transport food, rest assured; not to your local hospital board, not to a fire department, not to a police department. We are going to be sending it to the Soviet Union so they can build aircraft.

Mr. Speaker, from Jane's Defense Weekly of November 16, 1991, I include an article as to how they are accelerating their fighter construction in order to sell on the market for hard cash; so we will pick up their expenses at home so they can sell arms abroad:

[From Jane's Defense Weekly, Nov. 16, 1991]

NEW "FROGFOOT" IN THE WINGS—RUSSIANS SEEKING FOREIGN CASH

Russia, soon to assume control of its own aircraft programmes, may have to seek foreign investment to keep its fly-by-wire MiG-29 "Fulcrum" programme alive, according to Vladimir Laptev, Deputy Minister for the Soviet Union's soon-to-be disbanded Ministry of Aviation Industry.

The MiG-29M, as it is called, is one of several combat aircraft programmes eligible for foreign participation: another is the Soviet Air Force's next-generation jet trainer.

"We're due to make a final decision in January," Laptev said. Principal bidders for the twin-engine trainer are Mikoyan, Sukhoi and Yakovlev.

So far, both sub-and supersonic designs are under consideration. The aircraft should be able to cater for both basic and advanced instruction.

The air force is fighting to maintain next year's R&D budget at current funding levels, Laptev said. Even so, programmes are having to be strictly prioritized in the scramble for the scant cash available.

"There will be a concentration of funds on the most important programmers at the expense of secondary programmes," Laptev told JDW. The MiG-29M has been sacrificed because it is not a core air force programme, he said. "We may look for a foreign partner to continue (with it)," he added.

Asked whether any next-generation combat aircraft programmes had fallen at the cash hurdle, Laptev said: "Naturally, there are financial constraints, but so far, no, none had been stopped.

"Some of these programmes are so advanced that it would be most damaging to stop them now," He added.

In September, Laptev said work for the Soviet Air Force was underway on improvements to existing MiG-29 "Fulcrums" and Su-27 "Flankers" as well as development of new fighters comparable to NATO's next-generation aircraft.

Other combat aircraft designs, notably the Yak-141 "Freestyle" and the multi-role Su-37 fighter, are open to foreign investment both to complete and—in the case of the Su-37—to start their development.

SEND BACK EDWARD LEE HOWARD, AN AMERICAN TRAITOR

(Mr. BROOMFIELD asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. BROOMFIELD. Mr. Speaker, yesterday the other body voted to transfer $500 million from the Pentagon budget to help dismantle Soviet nuclear weapons.

I suspect that is just the opening round in a series of proposals to help the people in the various Republics once controlled by the Soviet Union get back on their feet.

The Soviets are not in a position to give us much in return for our financial aid, but there is one thing they surely can do: Send back Edward Lee Howard.

He is the first American CIA operative ever to defect to the Soviet Union. According to a story in today's Washington Times, "U.S. officials have said his disclosures caused the deaths of several agents working secretly in Moscow."

Edward Lee Howard betrayed his friends, betrayed his Government, and betrayed his country. We should demand his return.

I include the Washington Times article for printing in the RECORD:

[From the Washington Times, Nov. 26, 1991]

CIA DEFECTOR NOW UNGUARDED

(By Bill Gertz)

CIA defector Edward Lee Howard has lost the round-the-clock protection provided by the KGB in Moscow and worries that he could be turned over to U.S. authorities for prosecution, according to Bush administration intelligence officials.

A Western reporter recently approached Howard at his Moscow apartment and the defector tried to have the reporter thrown out, said officials who spoke on condition of anonymity.

However, no security guards were present or came to Howard's aid in trying to oust the journalist from the apartment building, the officials said.

The officials said the incident was a clear sign the Soviets have abandoned the blanket protection once afforded their prize CIA defector.

FBI spokesman Bill Carter declined to comment on whether Howard has lost his security protection. But he said the former CIA operative still is wanted on espionage charges.

In Moscow, Alexi Zakharov, a spokesman for the Soviet security police, said of Howard: "I don't know the man, but in our country everything is possible."

Asked if someone like Howard might leave the country someday, the spokesman said of the spy business: "In these days, ours leave, and yours come, so in general everything is possible."

Howard, a CIA operative from 1981 to 1983, slipped away from FBI surveillance agents watching his New Mexico home in September 1985. Several months later he was granted political asylum in Moscow.

Trained as a Moscow case officer, he is the first CIA officer ever to defect to the KGB, and U.S. officials have said his disclosures caused the deaths of several agents working secrecy in Moscow.

The KGB, a central pillar of Soviet power, was disbanded following disclosures that its chairman, Vladimir Kryuchkov, and several top aides helped engineer the abortive coup last August.

In its place, several new organizations were set up. The internal security and conterintelligence police is called the Interrepublican Security Service. A separate foreign espionage branch was renamed the Central Security Service.

Howard told The Washington Post last year that he lived in a country house outside Moscow with two KGB guards who provided 24-hour protection against possible kidnapping by Western spy services.

At the time the defector said he regularly played chess with his guards.

David Wise, author of the 1988 book on Howard, "The Spy Who Got Away," said the defector also lives in an apartment provided by the KGB near the Arbat, a shopping area of Moscow.

It was at this second-floor apartment where the recent confrontation between Howard and a Western correspondent took place, the officials said.

"He worries a lot about being abducted," Mr. Wise said in an interview.

According to Mr. Wise, Howard told him during a series of interviews in Hungary several years ago that he feared the CIA would abduct him or poison food sent to him from abroad.

"I have to worry that the agency might try to kidnap me," Howard was quoted as saying in the Wise book. "It wouldn't take much, a hypodermic needle, throw me in the trunk of the car, and it's only two hours to the [Austrian] border."

Thomas DuHadway, the late chief of the FBI's intelligence division, said in September that the United States should press the Soviets to extradite Howard in exchange for U.S. economic assistance.

THE UNITED STATES IS THE ONLY NATION WITHOUT AN ENVIRONMENTAL DEPARTMENT

(Mr. BOEHLERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOEHLERT. Mr. Speaker, the United States is the only nation in the developed world that does not have an environmental department at the highest level of government, yet the American people repeatedly tell us they want the top environmental administrator, for our Government sitting at the President's Cabinet table.

We have a bill, Mr. Speaker, at the Speaker's table already passed by the Senate that would fix this problem, and yet the chairman of the Government Operations Committee refuses to act. We have a bipartisan coalition, a majority in this Chamber that wants to pass that legislation to elevate the EPA to Cabinet level status, yet the chairman of the Government Operations Committee refuses to act.

Every major environmental group in America and the administration has endorsed this bill, yet the chairman of the Government Operations Committee refuses to act.

The American people, the environmentalists, all of us who are so vitally concerned, Republicans and Democrats alike, know who to blame if we do not pass this legislation by the end of this session. It is the chairman of the Government Operations Committee.

ECONOMIC GROWTH, A PRIORITY

(Mr. RIGGS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RIGGS. Mr. Speaker, when Speaker FOLEY was down here in the well a few minutes ago at the beginning of the 1-minute speeches, he did say one thing that struck me as right. He said the issue is too important for gamesmanship. But what did he describe as the issue? Taxes, tax cuts, tax breaks. He could not bring himself to use the words "economic growth."

Well, Mr. Speaker, our priority before we go home, before we adjourn for the year is economic growth, because we realize that extending unemployment insurance benefits, recapitalizing the bank insurance fund, appropriating billions more for the savings and loan bailout without addressing underlying economic conditions is like pumping blood into a hemorrhaging patient without first closing the wound.

Yes, our package does have capital gains, which is an item very much supported by America's farmers and small business people.

Yes, we would repeal the luxury taxes which have cost working Americans their jobs, but we would also reinstate passive losses and repeal the Social Security's earnings limit, both ideas which have tremendous Democratic support in this House.

Mr. Speaker, it is a sad commentary on this place that we cannot have a debate on economic growth because the liberal Democratic majority that runs the place, that sets the schedule, that controls the rules, will not allow that debate to take place.

THE REPUBLICAN CHRISTMAS TREE

(Mr. DEFAZIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DEFAZIO. Mr. Speaker, imagine the so-called Republican growth package as a Christmas tree down at the White House. The President has invited in his wealthy friends. And what do we find under the tree? Well, of course, we find capital gains, because 31 percent is an egregious amount for the richest people in America to pay in terms of taxes on their income. It used to be 71 percent, but they are a little greedy; 31 percent, that is too much, let us take them to 18 and, well, it will trickle down to the rest of us for next Christmas.

Now, this bizarre thing about the tax on boats, they are not concerned about the fact that we levied a registration tax on every small boatowner in America, the people who cannot afford it; but no, those people will not find yachts under the Christmas tree.

Get this one. If a yacht costs $120,000, with this surtax it will cost $122,000.

□ 1130

And those people who can afford $120,000 yachts just will not buy them when they cost $122,000. They will not be under Christmas trees, and those people who build the yachts will be out of work.

If you believe that, I have got something special to put under your Christmas tree.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. MAZZOLI). Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on each scheduled motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken after debate has concluded on all motions to suspend the rules.

SAN CARLO APACHE TRIBE WATER RIGHTS SETTLEMENT ACT OF 1991

Mr. MILLER of California. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 291) to settle certain water rights claims of the San Carlos Apache Tribe, as amended.

The Clerk read as follows:

S. 291

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "San Carlos Apache Tribe Water Rights Settlement Act of 1991".

SEC. 2. CONGRESSIONAL FINDINGS.

(a) SPECIFIC FINDINGS.—The Congress finds and declares that—

(1) it is the policy of the United States, in fulfillment of its trust responsibility to Indian tribes, to promote Indian self-determination and economic self-sufficiency, and to settle, wherever possible, the water rights claims of Indian tribes without lengthy and costly litigation;

(2) meaningful Indian self-determination and economic self-sufficiency depend on the development of viable Indian reservation economies;

(3) qualification of rights to water and development of facilities needed to utilize tribal water supplies effectively is essential to the development of viable Indian reservation economies, particularly in arid western States;

(4) on November 9, 1871, and by actions subsequent thereto, the United States Government established a reservation for the San Carlos Apache Tribe in Arizona;

(5) the United States, as trustee for the San Carlos Apache Tribe, obtained water entitlements for the Tribe pursuant to the Globe Equity Decree of 1935; however, continued uncertainty as to the full extent of the Tribe's entitlement to water has severely limited the Tribe's access to water and financial resources necessary to develop its valuable agricultural lands and frustrated its efforts to reduce its dependence on Federal program funding and achieve meaningful self-determination and self-sufficiency;

(6) proceedings to determine the full extent and nature of the Tribe's water righte are currently pending before the United States District Court in Arizona and in the Superior Court of the State of Arizona in and for Maricopa County, as part of the General Adjudication of the Gila River System and Source;

(7) recognizing that final resolution of pending litigation will take many years and entail great expense to all parties, continue economically and socially damaging limits to the Tribe's access to water, prolong uncertainty as to the availability of water supplies and seriously impair the long-term economic planning and development of all parties, the Tribe and its neighboring non-Indian communities have sought to settle their dispute to water and reduce the burdens of litigation;

(8) after lengthy negotiations, which included participation by representatives of the United States Government, the Tribe, and neighboring non-Indian communities of the Salt River and Gila River Valleys, who are all party to the General Adjudication of the Gila River System and Source, the parties are prepared to enter into an Agreement to resolve all water rights claims between and among themselves, to quantify the Tribe's entitlement to water, and to provide for the orderly development of the Tribe's lands;

(9) pursuant to the Agreement, the neighboring non-Indian communities will relinquish claims to approximately 58,735 acre-feet of surface water to the Tribe, provide the means of storing water supplies of the Tribe behind Coolidge Dam on the Gila River in Arizona to enhance fishing, recreation, and other environmental benefits, and make substantial additional contributions to carry out the Agreement's provisions; and

(10) to advance the goal of Federal Indian policy and to fulfill the trust responsibility of the United States to the Tribe, it is appropriate that the United States participate in the implementation of the Agreement and contribute funds for the rehabilitation and expansion of existing reservation irrigation facilities so as to enable the Tribe to utilize fully its water resources in developing a diverse, efficient reservation economy.

(b) PURPOSES OF THIS ACT.—It is the purpose of this Act—

(1) to approve, ratify, and confirm the Agreement to be entered into by the Tribe and its neighboring non-Indian communities,

(2) to authorize and direct the Secretary of the Interior to execute and perform such Agreement, and

(3) to authorize the actions and appropriations necessary for the United States to fulfill its legal and trust obligations to the Tribe as provided in the Agreement and this Act.

SEC. 3. DEFINITIONS.

For purposes of this Act:

(1) "Active conservation capacity" means that storage space, exclusive of bank storage, available to store water which can be released through existing reservoir outlet works.

(2) "Agreement" means that agreement among the San Carlos Apache Tribe; the United States of America; the State of Arizona; the Salt River Project Agricultural Improvement and Power District; the Salt River Valley Water Users' Association; the Roosevelt Water Conservation District; the Arizona cities of Chandler, Glendale, Globe, Mesa, Safford, Scottsdale and Tempe, the town of Gilbert; Buckeye Water Conservation and Drainage District, Buckeye Irrigation Company, the Phelps Dodge Corporation and the Central Arizona Water Conservation District, together with all exhibits thereto, as the same is executed by the Secretary of the Interior pursuant to sections 10(c) and 11(a)(7) of this Act.

(3) "CAP" means the Central Arizona Project, a reclamation project authorized under title III of the Colorado River Basin Project Act of 1968 (43 U.S.C. 1521 et seq.).

(4) "CAWCD" means the Central Arizona Water Conservation District, organized under the laws of the State of Arizona, which is the contractor under a contract with the United States, dated December 15, 1972, for the delivery of water and repayment of costs of the Central Arizona Project.

(5) "Globe Equity Decree" means the decree dated June 29, 1935, entered in the United States of America v. Gila Valley Irrigation District, et al., Globe Equity 59, in the District Court of the United States in and for the District of Arizona, and all decrees and decisions supplemental thereto.

(6) "Reservation" means the reservation authorized by the Treaty with the Apache Nation dated July 1, 1852 (10 Stat. 979), established by the Executive orders of November 9, 1871 and December 14, 1872, as modified by subsequent Executive orders and Act of Congress including the Executive order of August 5, 1873.

(7) "RWCD" means the Roosevelt Water Conservation District, an irrigation district organized under the laws of the State of Arizona.

(8) "Secretary" means the Secretary of the Interior.

(9) "SRP" means the Salt River Project Agricultural Improvement and Power District, a political subdivision of the State of Arizona, and the Salt River Valley Water Users' Association, an Arizona Corporation.

(10) "SCIP" means the San Carlos Irrigation Project authorized pursuant to the Act of March 7, 1928 (45 Stat. 200, 210), and administered by the Bureau of Indian Affairs.

(11) "Tribe" means the San Carlos Apache Tribe, a tribe of Apache Indians organized under section 16 of the Indian Reorganization Act of June 18, 1934 (48 Stat. 987; 25 U.S.C. 476), and duly recognized by the Secretary.

SEC. 4. WATER.

(a) REALLOCATION OF WATER.—The Secretary shall reallocate, for the exclusive use of the Tribe, all of the water referred to in subsection (f)(2) of section 2 of the Act of October 19, 1984 (98 Stat. 2698), which is not required for delivery to the Ak-Chin Indian Reservation under that Act. The Secretary shall exclude, for the purposes of determining the allocation and repayment of costs of the CAP as provided in Article 9.3 of Contract No. 14-06-W-245, Amendment No. 1, between the United States and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with such water from CAWCD's repayment obligation and such costs shall be nonreimbursable.

(b) Partial Satisfaction of Claims.—Notwithstanding any other provision of this Act, in the event the authorizations contained in section 8(b) do not become effective, the water referred to in subsection 4(a) of this Act shall constitute partial satisfaction of the Tribe's claims for water in the proceeding entitled "In Re the General Adjudication of All Rights To Use Water in the Gila River System and Source, Maricopa County Superior Court Nos. W-1, W-2, W-3, and W-4 (consolidated), as against the parties identified in section 3(2) of this Act.

(c) Additional Allocations.—The Secretary shall reallocate to the Tribe an annual entitlement to 14,655 acre-feet of water from the Central Arizona Project having a CAP municipal and industrial priority, which the Secretary previously allocated to Phelps Dodge Corporation in the Notice of Final Water Allocations to Indian and non-Indian water Users and Related Decisions, dated March 24, 1983 (48 F.R. 12446 et seq.). The Tribe shall pay the United States or, if directed by the Secretary, CAWCD, all operation, maintenance and replacement costs associated with such CAP water. Except as provided in subsection (e)(3) of section 6, water service capital charges, or any other charges or payments for such CAP water other than operation, maintenance and replacement costs shall be nonreimbursable. The Secretary shall exclude, for the purposes of determining the allocation and repayment of costs of the CAP as provided in Article 9.3 of Contract No. 14-06-W-245, Amendment No. 1, between the United States and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with such water from CAWCD's repayment obligation and such costs shall be nonreimbursable.

(d) Additional Allocation.—The Secretary shall reallocate to the Tribe and annual entitlement to 3,480 acre-feet of water from the Central Arizona Project having a CAP municipal and industrial priority, which the Secretary previously allocated to the city of Globe, Arizona in the Notice of Final Water Allocations to Indian and Non-Indian Water Users and Related Decisions, dated March 24, 1983 (48 F.R. 12466 et seq.). The Tribe shall pay the United States or, if directed by the Secretary CAWCD, all operation, maintenance and replacement costs associated with such CAP water. Except as provided in subsection (e)(3) of section 6, water service capital charges, or any other charges or payments of such CAP water other than operation, maintenance and replacement costs shall be nonreimbursable. The Secretary shall exclude, for the purposes of determining the allocation and repayment of costs of the CAP as provided in Article 9.3 of contract No. 14-06-W-245, Amendment No. 1, between the United States and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with such water from CAWCD's repayment obligation and such costs shall be reimbursable.

(e) Water Storage Pool.—Notwithstanding the Act of June 7, 1924 (43 Stat. 475), as amended by the Act of March 7, 1928 (45 Stat. 200, 210), in order to permit the Tribe to maintain permanently a pool of stored water for fish, wildlife, recreation and other purposes, the Secretary shall designate for the benefit of the Tribe such active conservation capacity behind Coolidge Dam on the Gila River in Arizona as is not being used by the Secretary to meet the obligations of SCIP or irrigation storage, except that any water stored by the Tribe shall be the first water to spill ("spill water") from Coolidge Dam. The water stored by the Tribe shall be, at the Tribe's designation, the water provided to the Tribe pursuant to subsections (a), (c) and (d) of this section, its entitlement of 12,700 acre-feet of water under its Tribal CAP Delivery Contract dated December 11, 1981; the water referred to in section 10(f), or any combination thereof. A pro rata share of evaporation and seepage losses shall be deducted daily from the Tribe's stored water balance as provided in the Agreement. The Tribe shall pay an equitable share of the operation and maintenance costs for the water stored for the benefit of the Tribe, subject to the Act of July 1, 1932 (47 Stat. 564, 25 U.S.C. 386 et seq.). The water stored by the Tribe pursuant to this subsection shall not be subject to apportionments pursuant to Article VIII(2) of the Globe Equity Decree. Not later than January 31 of each year, the Secretary shall notify the United States District Court for the District of Arizona of the Tribe's stored water balance as of January 1 of that year. The Secretary shall notify said Court of the Tribe's stored water balance at least once per calendar month and at such more frequent intervals as conditions, in the Secretary's judgment, may require.

(f) Execution of Agreement.—The Secretary shall execute the Agreement which establishes, as between and among the parties to Agreement, the Tribe's permanent right, except as provided in paragraphs 13.0, 14.0 and 15.0 of the Agreement, to the on-reservation diversion and use of all ground water beneath the Tribe's Reservation, subject to the management plan referred to in section 10(D) of this Act, and all surface water in all tributaries within the Tribe's Reservation to the mainstreams of: The Black River, the Salt River below its confluence with the Black River, the San Pedro River and the Gila River, including the right, except as provided in paragraphs 14.0 and 15.0 of the Agreement, to fully regulate and store such water on the tributaries. The Tribe's rights to the mainstream of Black River, San Pedro River and the Gila River shall be as provided in the Agreement and the Globe Equity Decree. With respect to parties not subject to the waiver authorized by subsection 8(b) of this Act, the claims of the Tribe and the United States, as trustee for the Tribe, are preserved.

(g) Gila River Exchanges.—Any exchange pursuant to this legislation of Gila River water for water supplied by the CAP shall not amend, alter or conflict with the exchanges authorized by section 304(f) of the Colorado River Basin Project Act (43 U.S.C. 1524(f)).

SEC. 5. RATIFICATION AND CONFIRMATION OF CONTRACTS.

(a) Ratification of Contract.—Except as provided in section 10(i), the contract between the SRP and the RWCD District dated October 24, 1924, together with all amendments thereto and any extension thereto entered into pursuant to the Agreement, is ratified, confirmed, and declared to be valid.

(b) Subcontract.—The Secretary shall revise the subcontract of the Roosevelt Water Conservation District for agricultural water service from the CAP to include an addendum substantially in the form of Exhibit "A" to the Agreement and to execute the subcontract as revised. Notwithstanding any other provision of law, the Secretary shall approve the conversions of agricultural water to municipal and industrial uses authorized by the addendum at such time or times as the conditions authorizing such conversions, as set forth in the addendum, are found to exist.

(c) Restrictions.—The lands within RWCD and SRP shall be free from the ownership and full cost pricing limitations of Federal reclamation law and from all full cost pricing provisions of Federal law.

(d) Disclaimer.—No person, entity or lands shall become subject to the provisions of the Reclamation Reform Act of 1982 (43 U.S.C. 390aa et seq.) or any full cost pricing provision of Federal law by virtue of their participation in the settlement or their execution and performance of the Agreement, or the use, storage or delivery of CAP water pursuant to a lease, sublease or exchange of water to which the Tribe is entitled under this Act.

(e) Full Cost Pricing Provisions.—The lands within the Tribe's Reservation shall be free from all full cost pricing provisions of Federal law.

(g) Certain Extensions Authorized.—Notwithstanding any other provision of law or any other provision of this Act, the Secretary, subject to tribal approval, is authorized and directed to: extend the term of that right-of-way permit granted to Phelps Dodge Corporation on March 8, 1950, and all amendments thereto, for the construction, operation and maintenance of an electrical transmission line and existing road for access to those facilities over the lands of the Tribe; extend the term of that right-of-way permit numbered 2000089 granted on July 25, 1944, to Phelps Dodge Corporation, and all amendments thereto, for the construction, use, operation and maintenance of a water plant, pipeline, canal, water flowage easement through Willow Creek and existing road for access to those facilities over the lands of the Tribe; and grant a water flowage easement through the portions of Eagle Creek flowing through the Tribe's Reservation. Notwithstanding any other provision of law, each such right-of-way and flowage easement shall be for a term expiring on March 8, 2090, and shall be subject to the right of Phelps Dodge to renew the rights-of-way and flowage easements for an additional term of up to 100 years, subject to payment of rental at a rate based upon fair market retail value.

SEC. 6. WATER DELIVERY CONTRACT AMENDMENTS; WATER LEASE, WATER WITHDRAWAL.

(a) Amendment of Contract.—The Secretary shall amend the CAP water delivery contract between the United States and the Ak-Chin Indian Community dated December 11, 1980, and the contract between the United States and the Ak-Chin Indian Community dated October 2, 1985, as is necessary to satisfy the requirements of section 4(a) of this Act.

(b) Contract Amendment.—The Secretary shall amend the CAP water delivery contract between the United States and the Tribe dated December 11, 1980 (hereinafter referred to as the "Tribal CAP Delivery Contract"), as follows:

(1) To include the obligation by the United States to deliver water to the Tribe upon the same terms and conditions set forth in the Tribal CAP Delivery Contract as follows:

water from those sources described in subsections (a), (c), and (d) of section 4 of this Act; except that the water reallocated pursuant to such subsections shall retain the priority such water had prior to its reallocation. The cost to the United States to meet the Secretary's obligation to design and construct new facilities to delivery CAP water shall not exceed the cost of construction of the delivery and distribution system for the 12,700 acrefeet of CAP water originally allocated to the Tribe.

(2) To extend the term of such contract to December 31, 2100, and to provide for its subsequent renewal upon the same terms and conditions as the Tribal CAP Delivery Contract, as amended.

(3) To authorize the Tribe to lease or to enter into an option or options to lease the water to which the Tribe is entitled under the Tribal CAP Delivery Contract, as amended, within Maricopa, Pinal and Pima Counties for terms not exceeding one hundred years and to renew such leases.

(4) To authorize the Tribe to lease water to which the Tribe is entitled under the Tribal CAP Delivery Contract, as amended, to the city of Scottsdale under the term and conditions of the Water Lease set forth in Exhibit "B" to the Agreement.

(5) To authorize the Tribe to lease water to which the Tribe is entitled under the Tribal CAP Delivery Contract, as amended, including, but not limited to, the cities of Chandler, Glendale, Goodyear, Mesa, Peoria, Phoenix, Scottsdale, Temple and the town of Gilbert.

(c) Approval of Amendments.—Notwithstanding any other provision of law, the amendments to the Tribal CAP Delivery Contract set forth in Exhibit "C" to the Agreement are hereby authorized, approved and confirmed.

(d) Charges Not To Be Imposed.—The United States shall not impose upon the Tribe the operation, maintenance and replacement charges described and set forth in section 6 of the Tribal CAP Delivery Contract or any other charge with respect to CAP water delivered or required to be delivered to the lessee or lessees of the options to lease or leases herein authorized.

(e) Water Lease.—Except as provided in paragraph (3) of this subsection, any Water Lease entered into by the Tribe as authorized by section 6 shall specifically provide that—

(1) the lessee shall pay all operation, maintenance and replacement costs of such water to the United States, or if directed by the Secretary, to CAWCD;

(2) except as provided in paragraph (3) of this subsection, the lessee shall not be obligated to pay water service capital charges or municipal and industrial subcontract charges or any other charges or payment for such CAP water other than the operation, maintenance and replacement costs and lease payments; and

(3) with respect to the water reallocated to the Tribe pursuant to subsections (c) and (d) of section 4, the Tribe or lessee shall pay any water service capital charges or municipal and industrial subcontract charge for any water use or lease from the effective date of this Act through September 30, 1995.

(f) Allocation and Repayment of Costs.—For the purpose of determining allocation and repayment of costs of the CAP as provided in Article 9.3 of Contract Numbered 14-06-W-245, Amendment No. 1, between the United States of America and CAWCD dated December 1, 1988, and any amendment or revision thereof, the costs associated with the delivery of water to which the Tribe is entitled under the Tribal Delivery Contract, as amended, to the lessee or lessees of the options to lease or leases herein authorized shall be nonreimbursable, and such costs shall be excluded from CAWCD's repayment obligation.

(g) Agreements.—The Secretary shall, in consultation with the Tribe, enter into agreements necessary to permit the Tribe to exchange, within the State of Arizona, all or part of the water available to it under its Tribal CAP Delivery Contract, as amended.

(h) Ratification.—As among the parties to the Agreement, the right of the city of Globe to withdraw and use water from under the Cutter subarea under the Agreement, as limited and conditioned thereunder, is hereby ratified and confirmed.

(i) Use of Water.—As among the parties to the Agreement, the right of the city of Stafford to withdraw and use water from the Bonita Creek watershed as provided in the Agreement, as limited and conditioned thereunder, is hereby ratified and confirmed.

(j) Withdrawal and Use of Water.—As between the Tribe and Phelps Dodge, the right of Phelps Dodge to divert, withdraw and use water as provided in the Agreement, as limited and conditioned thereunder, is hereby ratified and confirmed.

(k) Prohibitions.—Except as authorized by this section, no water made available to the Tribe pursuant to the Agreement, the Globe Equity Decree, or this Act may be sold, leased, transferred or in any way used off the Tribe's Reservation.

SEC. 7. CONSTRUCTION AND REHABILITATION; TRUST FUND.

(a) Duties.—The Secretary is directed—

(1) pursuant to the existing authority of the Colorado River Basin Project Act (43 U.S.C. 1501 et seq.) to design and construct new facilities for the delivery of 12,700 acre-feet of CAP water originally allocated to the Tribe to tribal reservation lands at a cost which shall not exceed the cost for such design and construction which would have been incurred by the Secretary in the absence of the Agreement and this Act; and

(2) to amend the contract between the United States Economic Development Administration and the Tribe relating to the construction of Elgo Dam on the San Carlos Apache Indian Reservation, Project No. 07-81-000210, to provide that all remaining repayment obligations, owing to the United States on the date of the enactment of this Act are discharged.

(b) Fund.—There is established in the Treasury of the United States a fund to be known as the "San Carlos Apache Tribe Development Trust Fund" (hereinafter called the "Fund") for the exclusive use and benefit of the Tribe. The Secretary shall deposit into the Fund the funds authorized to be appropriated in subsection (c) and the $3,000,000 provided by the State of Arizona pursuant to the Agreement. There shall be deposited into the Fund any monies paid to the Tribe or to the Secretary on behalf of the Tribe from leases or options to lease water authorized by section 6 of this Act.

(c) Authorization.—There are authorized to be appropriated $18,800,000 in fiscal year 1993, and $19,600,000 in fiscal year 1994, together with interest accruing thereon beginning one year from the date of enactment of this Act at rates determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding Federal obligations of comparable maturity, to carry out the provisions of subsection (b).

(d) Use of Fund.—When the authorizations contained in section 8(b) of this Act are effective, the principal of the Fund and any interest or income accruing thereon may be used by the Tribe to put to beneficial use the Tribe's water entitlement, to defray the cost to the Tribe of CAP operation, maintenance and replacement charges as appropriate, and for other economic and community development purposes. The income from the Fund shall be distributed by the Secretary to the San Carlos Apache Tribe only upon presentation to the Secretary of a certified copy of a duly enacted Resolution of the Tribal Council requesting distribution and a written budget approved by the Tribal Council. Such income may thereafter be expended only in accordance with such budget. Income not distributed shall be added to principal. The principal from the Fund may be distributed by the Secretary to the San Carlos Apache Tribe only upon presentation to the Secretary of a certified copy of a duly enacted Resolution of the Tribal Council requesting distribution and a written budget approved by the Tribal Council and the Secretary. Such principal may thereafter be expended only in accordance with such budget: *Provided, however,* That the principal may only be utilized for long-term economic development projects. In approving a budget for the distribution of income or principal, the Secretary shall, in accordance with regulations promulgated pursuant to subsection (e) of this section, be assured that methods exist and will be employed to ensure the use of the funds shall be in accordance with the approved budget.

(e) Regulations.—The Secretary shall, no later than 30 days after the date the authorizations contained in section 8(b) are effective, promulgate regulations necessary to carry out the purposes of subsection (d).

(f) Disclaimer.—The United States shall not be liable for any claim or cause of action arising from the Tribe's use or expenditure of monies distributed from the Fund.

SEC. 8. SATISFACTION OF CLAIMS.

(a) Full Satisfaction of Claims.—Except as provided in subsection (e) of this section, the benefits realized by the Tribe and its members under this Act shall constitute full and compete satisfaction of all members' claims for water rights or injuries to water rights under Federal, State and other laws (including claims for water rights in ground water, surface water, and effluent) from time immemorial to the effective date of this Act. Notwithstanding the foregoing, nothing in this Act shall be deemed to recognize or establish any right of a member of the Tribe to water on the Tribe's Reservation.

(b) Release.—The Tribe, on behalf of itself and its members, and the Secretary on behalf of the United States, are authorized, as part of the performance of the obligations under the Agreement, to execute a waiver and release, except as provided in the Agreement, of all claims of water rights or injuries to water rights (including water rights in ground water, surface water and effluent), from time immemorial to the effective date of this Act, and any and all future claims of water rights (including water rights in ground water, surface water and effluent), from and after the effective date of this Act, which the Tribe and its members may have, against the United States, the State of Arizona or any agency or political subdivision thereof, or any other person, corporation, or municipal corporation, arising under the laws of the United States, the State of Arizona or otherwise.

(c) Additional Releases.—Except as provided in the Agreement, the United States shall not assert any claim against the State of Arizona or any political subdivision thereof, or any person, corporation or municipal corporation, arising under the laws of the United States, the State of Arizona or otherwise in its own right or on behalf of the Tribe based upon—

(1) water rights or injuries to water rights (including water rights in ground water, surface water and effluent) of the Tribe and its members, or

(2) water rights or injuries to water rights (including water rights in ground water, surface water and effluent) held by the United States on behalf of the Tribe and its members.

(d) SAVINGS PROVISION.—In the event the authorizations contained in subsection (b) of this section do not become effective pursuant to section 11(a), the Tribe and the United States shall retain the right to assert past and future water rights claims as to all Reservation lands.

(e) DISCLAIMER.—Nothing in this Act shall affect the water right or claims related to the San Carlos Apache Allotments outside the exterior boundaries of the Reservation.

SEC. 9. ENVIRONMENTAL COMPLIANCE.

(a) NO MAJOR FEDERAL ACTION.—Execution of the settlement agreement by the Secretary as provided for in section 10(c) shall not constitute a major Federal action under the National Environmental Policy Act (42 U.S.C. 4321 et seq.). The Secretary shall carry out all necessary environmental compliance during the implementation phase of this settlement.

(b) AUTHORIZATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out all necessary environmental compliance associated with the settlement under this Act, including mitigation measures adopted by the Secretary.

(c) LEAD AGENCY.—With respect to such settlement, the Bureau of Reclamation shall be designated as the lead agency in regard to environmental compliance, and shall coordinate and cooperate with the other affected Federal agencies as required under applicable Federal environmental laws.

(d) ENVIRONMENTAL ACTS.—The Secretary shall comply with all aspect of the National Environmental Policy Act (42 U.S.C. 4321 et seq.) and the Endangered Species Act (16 U.S.C. 1531 et seq.), and other applicable Federal environmental Acts and regulations in proceeding through the implementation phase of such settlement.

SEC. 10. MISCELLANEOUS PROVISIONS.

(a) WAIVER OF SOVEREIGN IMMUNITY.—In the event any party to the Agreement files a lawsuit in any United States district court relating only and directly to the interpretation or enforcement of this Act or the Agreement, naming the United States of America or the Tribe as parties, authorization is hereby granted to joining the United States of America or the Tribe, or both, in any such litigation, and any claim by the United States of America or the Tribe to sovereign immunity from such suit is hereby waived.

(b) CERTAIN CLAIMS PROHIBITED.—The United States of America shall make no claims for reimbursement of costs arising out of the implementation of this Act or the Agreement against any lands within the San Carlos Apache Indian Reservation, and no assessment shall be made with regard to such costs against such lands.

(c) APPROVAL OF AGREEMENT.—Except to the extent that the Agreement conflicts with the provisions of this Act, such Agreement is hereby approved, ratified and confirmed. The Secretary shall execute and perform such Agreement as approved, ratified and confirmed. The Secretary is authorized to execute any amendments to the Agreement and perform any action required by any amendments to the Agreement which may be mutually agreed upon by the parties.

(d) GROUND WATER MANAGEMENT PLAN.—The Secretary shall establish a ground water management plan for the San Carlos Apache Reservation which, except as is necessary to be consistent with the provisions of this Act, will have the same effect as a management plan developed under Arizona law.

(e) AMENDMENT TO THE ACT OF APRIL 4, 1938.—The Act of April 4, 1938 (52 Stat. 193; 25 U.S.C. 390) is amended by inserting immediately before the period at the end thereof a colon and the following: "Provided further, That concessions for recreation and fish and wildlife purposes on San Carlos Lake may be granted only by the governing body of the San Carlos Apache Tribe upon such conditions and subject to such limitations as may be set forth in the constitution and bylaws of such Tribe."

(f) SAN CARLOS RESERVOIR.—There is hereby transferred to the Tribe the Secretary's entitlement of 30,000 acre-feet of water, less any evaporation and seepage losses from the date of acquisition by the Secretary to the date of transfer, which the Secretary may have acquired through substituting CAP water for water to which the Gila River Indian Community and the San Carlos Irrigation and Drainage District had a right to be released from San Carlos Reservoir and delivered to them in 1990.

(g) LIMITATION.—No part of the Fund established by section 7(b) of this Act, including principal and income, or income from options to lease water or water leases authorized by section 6, may be used to make per capita payments to members of the Tribe.

(h) DISCLAIMER.—Nothing in this Act shall be construed to repeal, modify, amend, change or affect the Secretary's obligations to the Ak-Chin Indian Community pursuant to the Act of October 19, 1984 (98 Stat. 2698).

(i) WATER RIGHTS.—Nothing in this Act shall be construed to quantify or otherwise affect the water rights, claims or entitlements to water of any Arizona tribe, band or community, including, but not limited to, the Gila River Indian Community and the White Mountain Apache Tribe, other than the San Carlos Apache Tribe.

(j) PLANET RANCH.—The Secretary is authorized and directed to acquire, with the consent of and upon terms mutually acceptable to the city of Scottsdale ("city") and the Secretary, all of the city's right, title and interest in Planet Ranch located on the Bill Williams River in Arizona, including all water rights appurtenant to that property, and the city's January 1988 application filed with the Arizona Department of Water Resources to appropriate water from the Bill Williams River through a land exchange based on fair market value. If an exchange is made with land purchased by the Bureau of Reclamation for the construction and operation of the Central Arizona Project, then, upon commencement of repayment by CAWCD of the reimbursable costs of the Central Arizona Project, the fair market value of those lands so exchanged shall be credited in full against the annual payments due from CAWCD under Article 9.4(a) of Contract No. 14-06-W-245, Amendment No. 1, between the Untied States and CAWCD dated December 1, 1988, and any amendment or revision thereof, until exhausted: Provided, however, That the authorized appropriation ceiling of the Central Arizona Project shall not be affected in any manner by the provisions of this subsection.

(k) REPEAL.—Section 304(c)(3) of the Colorado River Basin Project Act (43 U.S.C. 1524(c)(3)) is hereby repealed. This subsection does not authorize transportation of water pumped within the exterior boundary of the Federal reclamation project established prior to September 30, 1968, pursuant to the Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 391), as amended and supplemented, across project boundaries.

(l) WATER RIGHTS.—Nothing in this Act shall be construed to affect the water rights or the water rights claims of any Federal agency other than the Bureau of Indian Affairs on behalf of the San Carlos Apache Tribe, nor shall anything in this Act be construed to prohibit the United States from confirming in the Agreement, except on behalf of Indian tribes other than the San Carlos Apache Tribe, the Gila River and Little Colorado River watershed water rights of other parties to the Agreement by making express provisions for the same in the Agreement.

SEC. 11. EFFECTIVE DATE.

(a) EFFECTIVE DATE OF AUTHORIZATION.—The authorization contained in section 8(b) of this Act shall become effective as of the date the Secretary causes to be published in the Federal Register a statement of findings that—

(1) the Secretary has fulfilled the requirements of sections 4 and 6;

(2) the Roosevelt Water Conservation District subcontract for agricultural water service from CAP has been revised and executed as appropriated in section 5(b);

(3) the funds authorized by section 7(c) have been appointed and deposited into the Fund;

(4) the contract referred to in section 7(a)(2) has been amended;

(5) the State of Arizona has appropriated and deposited into the Fund $3,000,000 as required by the Agreement;

(6) the stipulations attached to the Agreement as Exhibits "D" and "E" have been approved; and

(7) the Agreement has been modified, to the extent it is in conflict with this Act, and has been executed by the Secretary.

(b) CONDITIONS.—

(1) If the actions described in paragraphs (1), (2), (3), (4), (5), (6), and (7) of subsection (a) of this Act have not occurred by December 31, 1994, subsections (c) and (d) of section 4, subsections (a) and (b), of section 5, section 6, subsection (a)(2), (c), (d), and (f) of section 7, subsections (b) and (c) of section 8, and subsections (a), (b), (c), (d), (e), (g), (h), (j), and (l) of section 10 of this Act, together with any contracts entered into pursuant to such section or subsection, shall not be effective on and after the date of enactment of this Act, and any funds appropriated pursuant to section 7(c), and remaining unobligated and unexpended on the date of the enactment of this Act, shall immediately revert to the Treasury, as general revenues, and any funds appropriated by the State of Arizona pursuant to the Agreement, and remaining unobligated and unexpended on the date of the enactment of this Act, shall immediately revert to the State of Arizona.

(2) Notwithstanding the provisions of paragraph (1) of this subsection, if the provisions of subsections (a) and (b) of section 5 of this Act have been otherwise accomplished pursuant to provisions of the Act of October 20, 1988, the provisions of paragraph (1) of this subsection shall not be construed as affecting such subsections.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California [Mr. MILLER] will be recognized for 20 minutes, and the gentleman from Arizona [Mr. RHODES] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. MILLER].

GENERAL LEAVE

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 291, the Senate bill presently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. MILLER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support on S. 291, the San Carlos Apache Tribe Water Rights Settlement of 1991.

The House passed a similar bill in the 101st Congress. Earlier this year, the Committee on Interior and Insular Affairs held a joint hearing on this legislation with the Senate Select Committee on Indian Affairs. The Senate passed S. 291 on October 8, 1991.

The State of Arizona and its Indian and non-Indian residents have all shown tremendous leadership in formulating settlements to Indian water disputes. I congratulate all those who have participated in putting the San Carlos settlement together.

The House amendment to S. 291 deletes section 8(f) of the Senate bill. This provision would have exempted non-Indian irrigators who use water from the central Arizona project from the acreage limitation and full-cost pricing provisions of reclamation law.

This provision was included in the Senate-passed bill as a quid pro quo for the non-Indian irrigators, who have agreed to waive their claims to 33,300 acre-feet per year of water that will now become a part of the San Carlos stettlement. The non-Indians believe they had an entitlement to that water, and asked for relief from the requirements of reclamation law in return for waiving their claims.

Our review of the facts of this matter indicates that no such entitlement exists. In particular, I call the attention of my colleagues to a letter dated April 22, 1991, from Mr. Timothy W. Glidden, who chairs the Interior Department's working group on Indian water settlements. Mr. Glidden's letter presents the facts which justify deletion of section 8(f) of the Senate version of the bill. It is my understanding that the minority is agreeable to this amendment. I ask that this letter be inserted in the RECORD.

Mr. Speaker, the terms of the San Carlos settlement included in S. 291 will go a long way toward resolving years of water disputes in Arizona. Everyone agrees that the water rights of tribes in Arizona and elsewhere in the West have been wrongfully taken from them by non-Indians in many cases. Enactment of S. 291 will right some of these wrongs.

I urge my colleagues to support passage of this important bill.

Mr. Speaker, the letter to which I referred is as follows:

U.S. DEPARTMENT OF THE INTERIOR,
OFFICE OF THE SECRETARY,
Washington, DC, April 22, 1991.

Hon. GEORGE MILLER,
Vice Chairman, Committee on Interior and Insular Affairs, House of Representatives, Washington, DC.

DEAR MR. VICE CHAIRMAN: On March 21, 1991, the Department of the Interior (Department) provides testimony at the joint Senate-House Hearing on H.R. 748 and S. 291, the "San Carlos Indian Water Rights Settlement Act of 1991." During the hearing, Mr. Hayes and Mr. Swan identified several specific concerns which needed to be addressed before the Administration could support the settlement. They also stated the Administration's belief as to how important it was to outline the Administration's position on two critical aspects of the subject legislation—the Scottsdale/Planet Ranch land exchange and the Ak Chin component of the water budget. Resolution of these two issues would be moving the settlement in the proper direction; however, the Administration remains opposed to the settlement unless the subject legislation is amended to address all of the concerns identified in the testimony.

First, it is our understanding that the San Carlos Tribe (Tribe), the local settlement participants and the Arizona delegation all favor the addition of a provision which would facilitate a land exchange between the Federal Government and the City of Scottsdale. This exchange would transfer Bureau of Reclamation acquired lands (mostly within the City's limits) to the City in exchange for the City's land and water rights along the Bill Williams River in Western Arizona.

This new provision is an important component to this legislation for two reasons. First, the water lease between the Tribe and the City provided by the settlement makes it possible for the City to consider the transfer of its Planet Ranch property to the Federal Government. The new land and water rights will be an important addition to the Bill Williams Unit of the Havasu National Wildlife Refuge, which will relieve tension between the Federal Government and the City in the area of water rights. Second, by acquiring the City's existing water rights and by perfecting a right for which the City has applied under state law, the Federal Government will ensure in perpetuity the constant flow of a sizeable quantity of water into Lake Havasu for the benefit of the Central Arizona Project (CAP).[1]

We cannot overstate the importance of acquiring the Planet Ranch property from the perspective of maintaining the health and viability of the Bill Williams Wildlife Refuge. As a result, we have worked diligently with the City's representatives to make the exchange possible. Set forth below is our proposed language, which we urge you to add as an amendment to this legislation:

Section 10. Miscellaneous Provisions

(1) The Secretary is authorized to acquire, upon terms mutually acceptable to the City of Scottsdale ("the City") and Secretary, all of the City's right, title and interest to the Planet Ranch located on the Bill Williams River in Arizona; including all water rights appurtenant to that property and the City's January 1988 application to appropriate water from the Bill Williams River ("City Property"). The Secretary shall acquire full fee simple title to the City Property through a land exchange pursuant to authorities in the National Wildlife Refuge System Administration Act of 1966. All lands and interests acquired by the Secretary under this provision, including all water rights appurtenant to that property, shall be managed as an addition to the Bill Williams Unit of the Havasu National Wildlife Refuge, hereafter designated the Bill Williams National Wildlife Refuge, a unit of the National Wildlife Refuge System.

(2) If an exchange is made with land acquired by the Bureau of Reclamation for the construction and operation of the Central Arizona Project, the original cost of those lands so exchanged shall be deducted from the cost of said project to be allocated for determining repayment to the United States; provided however, that the authorized appropriation ceiling of the Central Arizona Project shall not be affected in any manner by the provisions of this subsection; provided further, that said lands shall be exchanged at their fair market value.

For the reasons stated above, the Planet Ranch exchange is a critical aspect of this legislation. We, therefore, urge that it be included as a part of the final bill. If you have any questions about this proposal we will be pleased to respond.

The second critical aspect is the proposed use of the excess Ak Chin water as a part of this settlement. At the hearing on similar legislation introduced in 1990, both the Arizona Department of Water Resources (DWR) and the Central Arizona Water Conservation District (CAWCD) opposed the settlement legislation on the basis of their opposition to the utilization of the Ak Chin supply. We want to provide the committees with our position and give you the benefit of our thinking on this matter.

We favor the use of the excess Ak Chin water for this settlement. In fact, we see the Ak Chin water as a critical component, since without it we fully expect that the settlement will not work and that viable alternative sources will not be found. In order for you to understand our position, it is necessary that we explain a number of points.

1. The history of the 1984 Ak Chin Settlement is thoroughly explained in the September 14, 1984, House of Representatives Report (House Report); and therefore, it need not be repeated here. It is sufficient to note that the Ak Chin Settlement was structured solely with water from Arizona's 2.8 million annual entitlement from the Colorado River. In

---

[1] The exchange will transfer to the U.S. Fish and Wildlife Service state law certificated water rights in the amount of approximately 14,400 acre-feet (A/F) per year, which will be changed from consumptive uses to instream flow type uses. The exchange will also transfer Scottsdale's pending application for an additional water right on the Bill Williams River. The Fish and Wildlife Service will perfect this right under State law for non-consumptive instream flow type purposes. Together these new rights will amount to approximately 40-50,000 A/F per year. The acquisition of the Planet Ranch property and the maintenance and perfection of the water rights involved will be totally a result of the utilization of government resources. If the Bureau of Reclamation acquired lands were not used for these purposes, they would be sold at public auction and the proceeds would be credited to the CAP costs with any excess over the original acquisition costs being deposited in the U.S. Treasury.

other words, there were no contributions, either in water or money, from the local parties who would have faced litigation against the Ak Chin Community and the United States.

In order to provide for the settlement, the Secretary obtained, with the approval of Congress, 50,000 acre-feet (A/F) of Colorado River water from the Yuma-Mesa Division of the Gila Project, and then reallocated that water for use on the Ak Chin Reservation, to be delivered via the CAP canal system.[2] The 50,000 A/F were added to the Ak Chin Tribe's existing CAP allocation of 58,300 A/F per year for a total of 108,300 A/F available for settlement purposes.

However, the settlement provided that in most years a quantity of 75,000 A/F per year would be delivered to the Ak Chin Community—see section 2(a) of P.L. 98–530, 98 Stat. 2698. This leaves an ordinary year surplus of 33,300 A/F per year, and it is this surplus which is proposed for use in the San Carlos Settlement. Importantly, the San Carlos Settlement expressly provides that the use of this supply in the San Carlos Settlement shall in no way impact the rights of the Ak Chin Community under the Ak Chin Settlement.

2. The essence of the argument against the use of the excess Ak Chin water in this settlement is that in the Ak Chin legislation the excess water was somehow committed to general CAP uses, and could thereafter not be used for dedicated Indian purposes. We disagree with this conclusion.

The 58,300 A/F allocation to the Ak Chin Community was made in the Secretary's CAP allocation order published in the Federal Register on March 24, 1983. That decision created an Indian CAP water pool of 309,828 A/F. In our view, that pool was not changed by the Ak Chin legislation, and the Secretary has never taken any administrative action to reduce the pool. Thus, that pool of CAP water remains available for use on Indian reservations, unless the Secretary decides to reallocate the water for some other CAP purpose, including allocation to non-Indians.

Our conclusion that the excess water remains where it was first allocated is supported by the House Report. On page 12, the House Report states: "It is the intent of the Committee that the Yuma-Mesa Division reallocation be the first segment of the permanent supply the Secretary is obligated to deliver. Any water in excess of the Secretary's obligation [to deliver 75,000 A/F per year] would be from the Ak Chin's CAP allocation." We strongly agree with the Committee's views, and it has always been the Department's position that the higher-priority Yuma-Mesa reallocation water should be the first-used foundation for the Ak Chin excess supply. As a result, the excess water will always be the unused portion of the Ak Chin CAP allocation, which was allocated as a part of the Indian CAP pool in 1983.

Most importantly, in the Ak Chin legislation Congress did not expressly direct the Secretary to utilize the excess Ak Chin water in a specific manner. Rather, section 2(k) of the Ak Chin Act speaks in general terms as to what the Secretary may do with the excess water:

(k) The water referred to in subsection (f)(1) shall be for the exclusive use and benefit of the Ak-Chin Indian Community, except that whenever, the aggregate water supply referred to in subsection (f) exceeds the quantity necessary to meet the obligations of the Secretary under this Act, the Secretary shall allocate on an interim basis to the Central Arizona Project any of the water referred to in subsection (f) which is not required for delivery to the Ak-Chin Indian Reservation under this Act.

The House Report underscores the conclusion that the decision as to how the excess water was to be used was left to the Secretary's discretion. Again on page 12 of the House Report, the committee states: "It is the intent of the Committee that water not needed to satisfy the Secretary's delivery obligation [75,000 A/F per year] be available for allocation in the State of Arizona." Similarly, on page 13 of the House Report, in specific reference to section 2(k) of the Ak Chin legislation, the Committee explains the purpose of section 2(k) and states that: "It is the intent of the Committee that any such excess water be allocated for use in Arizona." Senator Goldwater's comments on the Senate floor, printed in the Congressional Record (September 25, 1984), also support this position: "The second amendment [in section 2(k)], technical in nature, merely reconfirms the fact that any of the surplus aggregate water which the Secretary of the Interior does not use in fulfilling his obligation to the [Ak Chin] Indians goes to the Central Arizona Project."

These comments reflect an understanding by the Committee, and the Congress, of the Secretary's broad authority under section 5 of the 1929 Boulder Canyon Project Act, 43 U.S.C. 617, et seq., to allocate and contract for the use of water from the Colorado River within the lower basin area. In order to change that authority, or to circumscribe the Secretary's discretion in this area, we believe that the words of Congress must be clear and express. That did not happen in the Ak Chin legislation.

3. A second argument, which has been made, is that certain verbal understandings were established in the final hours of the Ak Chin legislation wherein the excess water was committed to non-Indian CAP users. The stated reason for the understanding was that the non-Indian CAP users deserved such a benefit in return for the utilization of the Yuma-Mesa water (50,000 A/F) which would have been diverted by the CAP in future years if that supply was not needed at the Yuma-Mesa Division. In other words, since that portion of the Yuma-Mesa water was not being used, the diversion of that water by the CAP was expected and that expectation was impacted by the reallocation.

We believe that this is not a case where the words of Congress are unclear, and if there were any ambiguity, the House Report provides the legislation history to support the conclusion that the Secretary retained the authority to use the excess water as he determines—as long as the use is within Arizona.

There is an alternate argument that the non-Indian CAP users were entitled to the Yuma-Mesa water, and therefore deserved some compensation in the form of a deal concerning the excess water. We do not give this argument great weight.

First, the fact that CAP may have used the unused Yuma-Mesa water would not have given the CAP a contract right to that water. The entitlement belonged to the Yuma-Mesa District; and therefore, at best the CAP only had an expectation of using that water. Even if Bureau of Reclamation or DWR water supply studies contributed to the expectation, that expectation did not ripen into a right.

Second, this Department must give full respect to the contract water rights of Colorado River users until such rights are withdrawn, canceled, or reduced by action of the Secretary or the Supreme Court. Thus, we cannot view all unused entitlements or portions of entitlements along the Arizona side of the Colorado River as somehow belonging to the CAP. For example, CAP may presently divert the unused City of Kingman entitlement, but the City of Kingman has projections for the use of that water. Even if Kingman cannot put its unused water to beneficial use, we have a clear expectation that the Kingman entitlement will be reallocated in the future for use within Mojave County. In other situations, unused supplies may be secured for use by the CAP.

Third, the Yuma-Mesa water was not simply reallocated by unilateral action of the Secretary. Rather, an agreement was reached with the Yuma-Mesa Division, and various forms of compensation were provided in order to obtain the consent of the Division in regard to the reduction of its contract entitlement. Thus, the notion that the non-Indian CAP users were entitled to "compensation" for the utilization of that water in the Ak Chin Settlement when the Government had already provided compensation to the Yuma-Mesa Division for the same water, seems to ignore the circumstances which led to the acquisition of the Ak Chin water.

4. We feel it is important to note that the Ak Chin Settlement was somewhat unique in that it was not supported by local contributions. The Federal Government provided the whole solution to the Ak Chin Settlement via the Community's CAP allocation and the acquired Yuma-Mesa water. In addition, the Government even faces money damage penalties if the Congressionally established supply is not delivered annually by the Secretary.

We see this as significant in light of opposition to the San Carlos legislation. As we believe you understand, only a few of the many CAP subcontractors are opposing this legislation on the basis of the Ak Chin excess water. Among that small group are the large CAP-user irrigation districts in Pinal County, such as Maricopa Stanfield and the Central Arizona Irrigation and Drainage District (CAIDD). These entities apparently support proposition that any uncommitted CAP water, which in their view is the excess AK Chin water, would enure to the benefit of the CAP agricultural users.

This position contains an inherent contradiction. The Ak Chin water was allocated by the Secretary; and therefore, was never available for use by other CAP water users. In addition, the United States bore the cost of purchasing the Colorado water used to satisfy the Ak Chin water claims. Therefore, since the United States acquired the water for the Ak Chin settlement, there could be no rights which would accrue to other CAP water users.

We disagree with the position that CAP agricultural users obtained some type of commitment to benefit from the excess Ak Chin water. We are confident that these CAP water users do not have valid legal claims to the excess water. If this legislation is enacted, a few of the agricultural entities may persist and take their claims to the Claims Court; however, we feel strongly that such claims will be rejected in that forum.

5. Finally, we wish to address this problem on a scale which is broader than the technical argument.

---

[2] By the Act of July 30, 1947, Congress had authorized the use of up to 300,000 A/F of water per year for use within the Yuma-Mesa Division. Since a need for that much water had not been demonstrated, the Division's annual entitlement was contractually reduced to 250,000 A/F as a result of the Ak Chin settlement.

Many of the CAP subcontractors are the same entities at risk in the Gila River adjudication as a result of Indian water claims.

These entities at risk face essentially three choices: (1) litigation, (2) reach a settlement by giving up some of their present uses from local sources, or (3) acquire or consent to the use of some other source of water which can be used as the basis for a settlement. Clearly the excess Ak Chin water represents a utilization of alternative number 3.

By supporting the use of the excess Ak Chin water for this settlement, which could have been reallocated by the Secretary to non-Indian users at some point in the future, the non-Indian settlement participants are making a choice to utilize an available component of the CAP supply to structure this settlement as opposed to giving up some of, or more of, the water they presently enjoy from local supplies. We see using this future water which may or may not become an entitlement as a reasonable choice.

The point is that the Ak Chin water is a critical component of this settlement in that it provides a significant portion of the settlement water budget. Without this source we assume that the settlement will fail, and we see no viable alternative solutions. Accordingly, all of us are left with no choice. Is the excess Ak Chin water an acceptable component to this settlement, or do we oppose that action to the detriment of the settlement? Based on the reasons outlined above, we support the use of the excess Ak Chin water.

In conclusion, let me say that we recognize that the Ak Chin matter is complex and the historical record is important to a clear understanding of our position. We also want the committees to have a full and complete understanding or our analysis so that you can see that we have carefully considered the problem.

Our recommendation is that you support the inclusion of the excess Ak Chin water in this settlement. We also recommend that you add the Planet Ranch exchange provision set forth herein as a way to greatly protect and enhance a unit of the national wildlife refuge system, and provide a tangible and long-term benefit to the State and CAWCD in regard to the security of the CAP water supply.

The Office of management and Budget advises that, from the standpoint of the Administration's program, there is no objection to the presentation of this report for the consideration of the committee.

Thank you for your attention to our concerns.

Sincerely,
TIMOTHY W. GLIDDEN,
Chairman, Working Group on Indian Water Settlements.

Mr. Speaker, I reserve the balance of my time.

Mr. RHODES. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I naturally rise in support of this legislation, and I would be remiss if I did not begin by thanking the chairman of the full committee, the gentleman from California, Mr. MILLER, for his assistance in getting this Senate bill to the floor with the House amendment so that we can pass the bill here in the last day of the session and proceed to conference with the Senate to resolve the remaining differences which exist in the bill.

The chairman has very, very adequately explained the process that got us to this point, and I am in full agreement with 95 percent of the chairman's statement. The chairman knows which 5 percent I am not in agreement with, and we will be continuing discussions about that 5 percent as we go along toward conference with the Senate.

This is a very important bill for the State of Arizona. It resolves a longstanding dispute and it rights many longstanding wrongs in favor of the San Carlos Apache Indians.

But as important as righting those wrongs is the fact that, with resolution of this dispute, the parties to the dispute now have an element called certainty. They now know, or will know, what their rights are as it pertains to certain quantities of water, ground water and surface water, in the State of Arizona.

This is important to the Indians; it is important to the cities who are parties to the settlement; it is important to the State of Arizona.

Without this element of certainty being acquired by the parties to this agreement, they all faced years and years of costly and expensive litigation in order for a judicial determination of various and sundry rights they have.

While that litigation is continuing, they are unable to plan for their futures, unable to know what degree of certainty they have to their wear rights and their ability to go forth into the next century.

So, achieving this negotiated settlement is an extremely important event in the lives of the participants and the lives of those who are parties to the agreement. I commend everybody who has been involved.

I certainly want to thank my fellow members of the Arizona delegation here in the House, our two Senators, Senator MCCAIN and Senator DECONCINI, for their assistance.

I again thank the gentleman from California [Mr. MILLER] and all of our staffs who worked very hard on this legislation.

Mr. Speaker, I yield such time as he may consume to the gentleman from Arizona [Mr. KYL].

Mr. KYL. I thank my colleague for yielding. I would like to express my appreciation to him and to Chairman MILLER for their work on this bill. I too support the bill.

The San Carlos Indian Tribe is in my congressional district, as are many of the communities which will benefit from the resolution of the disputes which this bill will help resolve. The only concern that we have is the change that has been made in the legislation that was alluded to by the chairman. The compromise that was delicately put together here is, to some extent, disrupted as a result of this change, but time is of the essence here. It is important this bill move to conference so these issues can be discussed.

One of the most critical things is the fact that litigation is pending, as my colleague from Arizona pointed out, and the longer that litigation proceeds and the further down the road it gets, the more difficult it is to reach these kinds of compromise agreements..

We are very concerned that unless we can bring it up soon and get this legislation passed, we may have missed the opportunity to reach a negotiated settlement which would be in the interests of all of the parties.

So, time is important. We do urge that our colleagues support this legislation, move the bill to conference, and there we can try to iron out those items upon which we currently differ.

It is legislation well worth supporting.

Mr. RHODES. Mr. Speaker, I urge our colleagues to support passage of this legislation.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MILLER of California. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California [Mr. MILLER] that the House suspend the rules and pass the Senate bill, S. 291, as amended.

The question was taken; and (two-thirds having voted in favor thereof), the rules were suspended and the Senate bill, as amended, was passed.

A motion to reconsider was laid on the table.

TELEPHONE CONSUMER PROTECTION ACT OF 1991

Mr. MARKEY. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1462) to amend the Communications Act of 1934 to prohibit certain practices involving the use of telephone equipment, as amended.

The Clerk read as follows:

S. 1462

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Telephone Consumer Protection Act of 1991".

SEC. 2. FINDINGS.

The Congress finds that:

(1) The use of the telephone to market goods and services to the home and other businesses is now pervasive due to the increased use of cost-effective telemarketing techniques.

(2) Over 30,000 businesses actively telemarket goods and services to business and residential customers.

(3) More than 300,000 solicitors call more than 18,000,000 Americans every day.

(4) Total United States sales generated through telemarketing amounted to $435,000,000,000 in 1990, a more than four-fold increase since 1984.

(5) Unrestricted telemarketing, however, can be an intrusive invasion of privacy and,

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

when an emergency or medical assistance telephone line is seized, a risk to public safety.

(6) Many consumers are outraged over the proliferation of intrusive, nuisance calls to their homes from telemarketers.

(7) Over half the States now have statutes restricting various uses of the telephone for marketing, but telemarketers can evade their prohibitions through interstate operations; therefore, Federal law is needed to control residential telemarketing practices.

(8) The Constitution does not prohibit restrictions on commercial telemarketing solicitations.

(9) Individuals' privacy rights, public safety interests, and commercial freedoms of speech and trade must be balanced in a way that protects the privacy of individuals and permits legitimate telemarketing practices.

(10) Evidence compiled by the Congress indicates that residential telephone subscribers consider automated or prerecorded telephone calls, regardless of the content or the initiator of the message, to be a nuisance and an invasion of privacy.

(11) Technologies that might allow consumers to avoid receiving such calls are not universally available, are costly, are unlikely to be enforced, or place an inordinate burden on the consumer.

(12) Banning such automated or prerecorded telephone calls to the home, except when the receiving party consents to receiving the call or when such calls are necessary in an emergency situation affecting the health and safety of the consumer, is the only effective means of protecting telephone consumers from this nuisance and privacy invasion.

(13) While the evidence presented to the Congress indicates that automated or prerecorded calls are a nuisance and an invasion of privacy, regardless of the type of call, the Federal Communications Commission should have the flexibility to design different rules for those types of automated or prerecorded calls that it finds are not considered a nuisance or invasion of privacy, or for noncommercial calls, consistent with the free speech protections embodied in the First Amendment of the Constitution.

(14) Businesses also have complained to the Congress and the Federal Communications Commission that automated or prerecorded telephone calls are a nuisance, are an invasion of privacy, and interfere with interstate commerce.

(15) The Federal Communications Commission should consider adopting reasonable restrictions on automated or prerecorded calls to businesses as well as to the home, consistent with the constitutional protections of free speech.

SEC. 3. RESTRICTIONS ON THE USE OF TELEPHONE EQUIPMENT.

(a) Amendment.—Title II of the Communications Act of 1934 (47 U.S.C. 201 et seq.) is amended by adding at the end the following new section:

“SEC. 227. RESTRICTIONS ON THE USE OF TELEPHONE EQUIPMENT.

“(a) Definitions.—As used in this section—

“(1) The term ‘automatic telephone dialing system’ means equipment which has the capacity—

“(A) to store or produce telephone numbers to be called, using a random or sequential number generator; and

“(B) to dial such numbers.

“(2) The term ‘telephone facsimile machine’ means equipment which has the capacity (A) to transcribe text or images, or both, from paper into an electronic signal and to transmit that signal over a regular telephone line, or (B) to transcribe text or images (or both) from an electronic signal received over a regular telephone line onto paper.

“(3) The term ‘telephone solicitation’ means the initiation of a telephone call or message for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services, which is transmitted to any person, but such term does not include a call or message (A) to any person with that person's prior express invitation or permission, (B) to any person with whom the caller has an established business relationship, or (C) by a tax exempt nonprofit organization.

“(4) The term ‘unsolicited advertisement’ means any material advertising the commercial availability or quality of any property, goods, or services which is transmitted to any person without that person's prior express invitation or permission.

“(b) Restrictions on the Use of Automated Telephone Equipment.—

“(1) Prohibitions.—It shall be unlawful for any person within the United States—

“(A) to make any call (other than a call made for emergency purposes or made with the prior express consent of the called party) using any automatic telephone dialing system or an artificial or prerecorded voice—

“(i) to any emergency telephone line (including any ‘911’ line and any emergency line of a hospital, medical physician or service office, health care facility, poison control center, or fire protection or law enforcement agency);

“(ii) to the telephone line of any guest room or patient room of a hospital, health care facility, elderly home, or similar establishment; or

“(iii) to any telephone number assigned to a paging service, cellular telephone service, specialized mobile radio service, or other radio common carrier service, or any service for which the called party is charged for the call;

“(B) to initiate any telephone call to any residential telephone line using an artificial or prerecorded voice to deliver a message without the prior express consent of the called party, unless the call is initiated for emergency purposes or is exempted by rule or order by the Commission under paragraph (2)(B);

“(C) to use any telephone facsimile machine, computer, or other device to send an unsolicited advertisement to a telephone facsimile machine; or

“(D) to use an automatic telephone dialing system in such a way that two or more telephone lines of a multi-line business are engaged simultaneously.

“(2) Regulations; Exemptions and other provisions.—The Commission shall prescribe regulations to implement the requirements of this subsection. In implementing the requirements of this subsection, the Commission—

“(A) shall consider prescribing regulations to allow businesses to avoid receiving calls made using an artificial or prerecorded voice to which they have not given their prior express consent; and

“(B) may, by rule or order, exempt from the requirements of paragraph (1)(B) of this subsection, subject to such conditions as the Commission may prescribe—

“(i) calls that are not made for a commercial purpose; and

“(ii) such classes or categories of calls made for commercial purposes as the Commission determines—

“(I) will not adversely affect the privacy rights that this section is intended to protect; and

“(II) do not include the transmission of any unsolicited advertisement.

“(3) Private right of action.—A person or entity may, if otherwise permitted by the laws or rules of court of a State, bring in an appropriate court of that State—

“(A) an action based on a violation of this subsection or the regulations prescribed under this subsection to enjoin such violation,

“(B) an action to recover for actual monetary loss from such a violation, or to receive $500 in damages for each such violation, whichever is greater, or

“(C) both such actions.

If the court finds that the defendant willfully or knowingly violated this subsection or the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

“(c) Protection of Subscriber Privacy Rights.—

“(1) Rulemaking proceeding required.—Within 120 days after the date of enactment of this section, the Commission shall initiate a rulemaking proceeding concerning the need to protect residential telephone subscribers' privacy rights to avoid receiving telephone solicitations to which they object. The proceeding shall—

“(A) compare and evaluate alternative methods and procedures (including the use of electronic databases, telephone network technologies, special directory markings, industry-based or company-specific ‘do not call’ systems, and any other alternatives, individually or in combination) for their effectiveness in protecting such privacy rights, and in terms of their cost and other advantages and disadvantages;

“(B) evaluate the categories of public and private entities that would have the capacity to establish and administer such methods and procedures;

“(C) consider whether different methods and procedures may apply for local telephone solicitations, such as local telephone solicitations of small businesses or holders of second class mail permits;

“(D) consider whether there is a need for additional Commission authority to further restrict telephone solicitations, including those calls exempted under subsection (a)(3) of this section, and, if such a finding is made and supported by the record, propose specific restrictions to the Congress; and

“(E) develop proposed regulations to implement the methods and procedures that the Commission determines are most effective and efficient to accomplish the purposes of this section.

“(2) Regulations.—Not later than 9 months after the date of enactment of this section, the Commission shall conclude the rulemaking proceeding initiated under paragraph (1) and shall prescribe regulations to implement methods and procedures for protecting the privacy rights described in such paragraph in an efficient, effective, and economic manner and without the imposition of any additional charge to telephone subscribers.

“(3) Use of database permitted.—The regulations required by paragraph (2) may require the establishment and operation of a single national database to compile a list of telephone numbers of residential subscribers who object to receiving telephone solicitations, and to make that compiled list and parts thereof available for purchase. If the Commission determines to require such a database, such regulations shall—

“(A) specify a method by which the Commission will select an entity to administer such database;

“(B) require each common carrier providing telephone exchange service, in accordance with regulations prescribed by the Commission, to inform subscribers for telephone exchange service of the opportunity to provide notification, in accordance with regulations established under this paragraph, that such subscriber objects to receiving telephone solicitations;

“(C) specify the methods by which each telephone subscriber shall be informed, by the common carrier that provides local exchange service to that subscriber, of (i) the subscriber's right to give or revoke a notification of an objection under subparagraph (A), and (ii) the methods by which such right may be exercised by the subscriber;

“(D) specify the methods by which such objections shall be collected and added to the database;

“(E) prohibit any residential subscriber from being charged for giving or revoking such notification or for being included in a database compiled under this section;

“(F) prohibit any person from making or transmitting a telephone solicitation to the telephone number of any subscriber included in such database;

“(G) specify (i) the methods by which any person desiring to make or transmit telephone solicitations will obtain access to the database, by area code or local exchange prefix, as required to avoid calling the telephone numbers of subscribers included in such database; and (ii) the costs to be recovered from such persons;

“(H) specify the methods for recovering, from persons accessing such database, the costs involved in identifying, collecting, updating, disseminating, and selling, and other activities relating to, the operations of the database that are incurred by the entities carrying out those activities;

“(I) specify the frequency with which such database will be updated and specify the method by which such updating will take effect for purposes of compliance with the regulations prescribed under this subsection;

“(J) be designed to enable States to use the database mechanism selected by the Commission for purposes of administering or enforcing State law;

“(K) prohibit the use of such database for any purpose other than compliance with the requirements of this section and any such State law and specify methods for protection of the privacy rights of persons whose numbers are included in such database; and

“(L) require each common carrier providing services to any person for the purpose of making telephone solicitations to notify such person of the requirements of this section and the regulations thereunder.

“(4) Considerations required for use of database method.—If the Commission determines to require the database mechanism described in paragraph (3), the Commission shall—

“(A) in developing procedures for gaining access to the database, consider the different needs of telemarketers conducting business on a national, regional, State, or local level;

“(B) develop a fee schedule or price structure for recouping the cost of such database that recognizes such differences and—

“(i) reflect the relative costs of providing a national, regional, State, or local list of phone numbers of subscribers who object to receiving telephone solicitations;

“(ii) reflect the relative costs of providing such lists on paper or electronic media; and

“(iii) not place an unreasonable financial burden on small businesses; and

“(C) consider (i) whether the needs of telemarketers operating on a local basis could be met through special markings of area white pages directories, and (ii) if such directories are needed as an adjunct to database lists prepared by area code and local exchange prefix.

“(5) Private Right of Action.—A person who has received more than one telephone call within any 12-month period by or on behalf of the same entity in violation of the regulations prescribed under this subsection may, if otherwise permitted by the laws or rules of court of a State bring in an appropriate court of that State—

“(A) an action based on a violation of the regulations prescribed under this subsection to enjoin such violation,

“(B) an action to recover for actual monetary loss from such a violation, or to receive up to $500 in damages for each such violation, whichever is greater, or

“(C) both such actions.

It shall be an affirmative defense in any action brought under this paragraph that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent telephone solicitations in violation of the regulations prescribed under this subsection. If the court finds that the defendant willfully or knowingly violated the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

“(6) Relation to subsection (b).—The provisions of this subsection shall not be construed to permit a communication prohibited by subsection (b).

“(d) Technical and Procedural Standards.—

“(1) Prohibition.—It shall be unlawful for any person within the United States—

“(A) to initiate any communication using a telephone facsimile machine, or to make any telephone call using any automatic telephone dialing system, that does not comply with the technical and procedural standards prescribed under this subsection, or to use any telephone facsimile machine or automatic telephone dialing system in a manner that does not comply with such standards; or

“(B) to use a computer or other electronic device to send any message via a telephone facsimile machine unless such person clearly marks, in a margin at the top or bottom of each transmitted page of the message or on the first page of the transmission, the date and time it is sent and an identification of the business, other entity, or individual sending the message and the telephone number of the sending machine or of such business, other entity, or individual.

“(2) Telephone facsimile machines.—The Commission shall revise the regulations setting technical and procedural standards for telephone facsimile machines to require that any such machine which is manufactured after one year after the date of enactment of this section clearly marks, in a margin at the top or bottom of each transmitted page or on the first page of each transmission, the date and time sent, an identification of the business, other entity, or individual sending the message, and the telephone number of the sending machine or of such business, other entity, or individual.

“(3) Artificial or prerecorded voice systems.—The Commission shall prescribe technical and procedural standards for systems that are used to transmit any artificial or prerecorded voice message via telephone. Such standards shall require that—

“(A) all artificial or prerecorded telephone messages (i) shall, at the beginning of the message, state clearly the identity of the business, individual, or other entity initiating the call, and (ii) shall, during or after the message, state clearly the telephone number or address of such business, other entity, or individual; and

“(B) any such system will automatically release the called party's line within 5 seconds of the time notification is transmitted to the system that the called party has hung up, to allow the called party's line to be used to make or receive other calls.

“(e) Effect on State Law.—

“(1) State law not preempted.—Except for the standards prescribed under subsection (d) and subject to paragraph (2) of this subsection, nothing in this section or in the regulations prescribed under this section shall preempt any State law that imposes more restrictive intrastate requirements or regulations on, or which prohibits—

“(A) the use of telephone facsimile machines or other electronic devices to send unsolicited advertisements;

“(B) the use of automatic telephone dialing systems;

“(C) the use of artificial or prerecorded voice messages; or

“(D) the making of telephone solicitations.

“(2) State Use of Databases.—If, pursuant to subsection (c)(3), the Commission requires the establishment of a single national database of telephone numbers of subscribers who object to receiving telephone solicitations, a State or local authority may not, in its regulation of telephone solicitations, require the use of any database, list, or listing system that does not include the part of such single national database that relates to such State.

“(f) Actions by States.—

“(1) Authority of states.—Whenever the attorney general of a State, or an official or agency designated by a State, has reason to believe that any person has engaged or is engaging in a pattern or practice of telephone calls or other transmissions to residents of that State in violation of this section or the regulations prescribed under this section, the State may bring a civil action on behalf of its residents to enjoin such calls, an action to recover for actual monetary loss or receive $500 in damages for each violation, or both such actions. If the court finds the defendant willfully or knowingly violated such regulations, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under the preceding sentence.

“(2) Exclusive jurisdiction of federal courts.—The district courts of the United States, the United States courts of any territory, and the District Court of the United States for the District of Columbia shall have exclusive jurisdiction over all civil actions brought under this subsection. Upon proper application, such courts shall also have jurisdiction to issue writs of mandamus, or orders affording like relief, commanding the defendant to comply with the provisions of this section or regulations prescribed under this section, including the requirement that the defendant take such action as is necessary to remove the danger of such violation. Upon a proper showing, a permanent or temporary injunction or restraining order shall be granted without bond.

"(3) RIGHTS OF COMMISSION.—The State shall serve prior written notice of any such civil action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the State shall serve such notice immediately upon instituting such action. The Commission shall have the right (A) to intervene in the action, (B) upon so intervening, to be heard on all matters arising therein, and (C) to file petitions for appeal.

"(4) VENUE; SERVICE OF PROCESS.—Any civil action brought under this subsection in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the violation occurred or is occurring, and process in such cases may be served in any district in which the defendant is an inhabitant or where the defendant may be found.

"(5) INVESTIGATORY POWERS.—For purposes of bringing any civil action under this subsection, nothing in this section shall prevent the attorney general of a State, or an official or agency designated by a State, from exercising the powers conferred on the attorney general or such official by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

"(6) EFFECT ON STATE COURT PROCEEDINGS.—Nothing contained in this subsection shall be construed to prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

"(7) LIMITATION.—Whenever the Commission has instituted a civil action for violation of regulations prescribed under this section, no State may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for any violation as alleged in the Commission's complaint.

"(8) DEFINITION.—As used in this subsection, the term 'attorney general' means the chief legal officer of a State.".

(b) CONFORMING AMENDMENT.—Section 2(b) of the Communications Act of 1934 (47 U.S.C. 152(b)) is amended by striking "Except as provided" and all that follows through "and subject to the provisions" and inserting "Except as provided in sections 223 through 227, inclusive, and subject to the provisions".

(c) DEADLINE FOR REGULATIONS; EFFECTIVE DATE.—

(1) REGULATIONS.—The Federal Communications Commission shall prescribe regulations to implement the amendments made by this section not later than 9 months after the date of enactment of this Act.

(2) EFFECTIVE DATE.—The requirements of section 228 of the Communications Act of 1934 (as added by this section), other than the authority to prescribe regulations, shall take effect one year after the date of enactment of this Act.

SEC. 4. AM RADIO SERVICE.

Section 331 of the Communications Act of 1934 is amended—

(1) in the heading of such section, by inserting "AND AM RADIO STATIONS" after "TELEVISION STATIONS";

(2) by inserting "(a) VERY HIGH FREQUENCY STATIONS.—" after "SEC. 331."; and

(3) by adding at the end the following new subsection:

"(b) AM RADIO STATIONS.—It shall be the policy of the Commission, in any case in which the licensee of an existing AM daytime-only station located in a community with a population of more than 100,000 persons that lacks a local full time aural station licensed to that community and that is located within a Class I station primary service area notifies the Commission that such licensee seeks to provide full-time service, to ensure that such a licensee is able to place a principal community contour signal over its entire community of license 24 hours a day, if technically feasible. The Commission shall report to the appropriate committees of Congress within 30 days after the date of enactment of this Act on how it intends to meet this policy goal.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts [Mr. MARKEY] will be recognized for 20 minutes, and the gentleman from New Jersey [Mr. RINALDO] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Massachusetts [Mr. MARKEY].

Mr. MARKEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today the House will consider a substitute amendment to Senate 1462 that embodies the text of H.R. 1304, the Telephone Advertising Consumer Rights Act, which passed this body on November 16. I am offering this compromise amendment with the gentleman from New Jersey [Mr. RINALDO]. The compromise effectively merges and improves legislation passed by the Senate dealing with automatic dialing systems and unsolicited facsimile messages.

☐ 1140

In short, Mr. Speaker, the compromise will finally give the public the opportunity to just say no to unsolicited phone or fax advertisements. The compromise gives the public a fighting chance to start to curtail unwanted telemarketing practices by requiring the FCC to conduct a rulemaking and weigh the alternative methods for protecting consumers' privacy rights and to put them in place before our home telephones become the receptacles of junk calls in the same way that junk mail often inundates our mailboxes.

Mr. Speaker, today in America more than 300,000 solicitors make more than 19 million calls every day, while some 75,000 stockbrokers make 1.5 billion telemarketing calls a year. Automatic dialing machines, on the other hand, have the capacity to call 20 million Americans during the course of a single day, with each individual machine delivering a prerecorded message to 1,000 homes.

In addition, automatic dialing machines place calls randomly, meaning they sometimes call unlisted numbers, or numbers of hospitals, police and fire stations, causing public safety problems. Our bill, H.R. 1304, would prohibit advertising calls to public safety numbers, as well as to paging, specialized mobile radio and cellular equipment.

In the final analysis a person's home is his castle. Preservation of the tranquility and privacy of that castle should compel us to avail consumers of the opportunity to place the telephone line into their home, the sanctuary from which they escape all the other trials that society and Congress cause them, off limits to intrusive and annoying interruptions. I believe that telemarketing can be a powerful and effective business tool, but the nightly ritual of phone calls to homes from strangers and robots has many Americans fed up.

Mr. Speaker, the aim of this legislation is not to eliminate the brave new world of telemarketing, but rather to secure an individual's right to privacy that might be unintentionally intruded upon by these new technologies. For this reason the legislation addresses live unsolicited commercial telemarketing to residential subscribers. If a live call is being made for the purpose other than for a commercial solicitation, then it is not regulated under this bill. In the context of the legislation a telephone solicitation is a call to encourage the purchase, rental of, or investment in property, goods, or services.

In addition, the compromise bill makes it unlawful for any person to initiate any telephone call to any residence using an artificial or prerecorded voice to deliver a message. The legislation makes two absolute exceptions to this prohibition:

First, where there is the prior express consent of the called party; and second, where the call is initiated for emergency purposes. The term "emergency purposes" is also intended to include any automated telephone call that notifies consumers of impending or current power outages, whether these outages are for scheduled maintenance, unscheduled outages caused by storms, or power interruptions for load management programs.

Second, the bill also allows the Federal Communications Commission to exempt, by rule or order, classes or categories of calls made for commercial purposes that do not "adversely affect the privacy rights" that this section of the bill is intended to protect and, that "do not include the transmission of any unsolicited advertisement." An example of such a use may be to leave messages with consumers to call a debt collection agency to discuss their student loan or to notify a consumer that a product they have ordered is ready to be picked up at the store. I fully expect the Commission to grant an exemption, for instance, for voice messaging services that forward calls. For example, if a consumer is late catching a plane and calls his home to tell his wife he'll be arriving late and can't get through to her, this service allows him to leave a

message and board the plane. While he is traveling, the service automatically dials the number repeatedly until the message is delivered. Such a voice messaging service is a benefit to consumers and should not be hindered by this legislation.

I believe we have put together a consensus compromise, one that reflects a responsible approach to address what the record indicates is of greatest concern to consumers.

I, as usual, want to thank the gentleman from New Jersey [Mr. RINALDO] for his leadership, for his cooperation, for his steadfast support in the development of this legislation. It is typical of the working relationship that we have had on the subcommittee for the last 5 years that we could produce such a complex piece of legislation. As well, I would like to thank the gentleman from New York [Mr. LENT] on the minority side who, along with his staff, have worked with us in the development of the legislation, the gentleman from Tennessee [Mr. COOPER], the gentlewoman from New Jersey [Mrs. ROUKEMA], the gentleman from Massachusetts [Mr. FRANK], along with the gentleman from Texas [Mr. BRYAND]. Each and every one of them has played a role in helping to craft this legislation and, working with the majority staff of David Leach at the full committee level and Mick Regan on the minority side, we have been able to put this legislation together. So, I want to thank all of the parties involved.

Mr. Speaker, I think this is an excellent piece of legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. RINALDO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I urge my colleagues to join me in supporting S. 1462, the Automated Telephone Consumer Protection Act of 1991. This bill is substantially similar to H.R. 1304, the Telephone Advertising Consumer Rights Act, a bill that the House recently passed.

This bill addresses widespread and growing concern about abuses associated with automatic dialers, junk faxes, and unwanted telephone solicitations. Under this bill, those who use automatic dialers would be prohibited from making computer-generated calls to emergency lines at health care facilities, fire protection, or law enforcement agencies, any telephone line at a patient room in a hospital, or paging or cellular telephone numbers.

In addition to addressing these serious health and safety concerns, the bill would prohibit autodialed calls to anyone that has not given the caller prior express consent. This bill also requires the FCC to restrict only those categories of artificial or prerecorded voice calls which are made for commercial purposes and will affect the privacy rights that the bill intends to protect. Among categories which should be made available to the public are voice messaging services which deliver legitimate personal messages to one or more persons.

The FCC has already authorized as in the public interest a service which allows a caller from a coin telephone to record a message for later delivery when encountering a busy signal or no answer. Likewise, a similar service which the FCC has also authorized would allow a person to send a message to a group of people through a recorded message. Clearly, these types of personal voice messaging services are not invasive of a person's privacy rights, and this bill is not intended to prohibit these or other such services yet to be developed.

S. 1462 also directs the FCC to determine the most effective and efficient method of allowing telephone subscribers to avoid live telephone solicitation calls. Specifically, the Commission must consider an electronic database, special directory markings, industry-based or company-specific "do not call" systems, as well as other alternative solutions to the problem of unsolicited calls.

In drafting this legislation, we recognized that many legitimate businesses make telephone calls, including solicitations, without annoying consumers. Thus, the bill exempts businesses that have a preestablished business relationship with a customer as well as telephone calls from nonprofit organizations. In addition, the bill mandates that the FCC consider whether different methods and procedures should apply for local telephone solicitations, particularly from small businesses and holders of second-class mail permits, such as newspapers.

I want to briefly mention an important issue relating to a person's change in residence and change in telephone number. In the committee report on H.R. 1304, we state that during the first 6 to 12 months after a change in a person's telephone number, a telephone subscriber should reasonably expect to receive telemarketing calls. No matter what telemarketing control alternatives are selected by the FCC, implementation may take up to 12 months for a new resident. This initial contact during that period may actually help introduce new residents to local goods and services available in their new community. We expect that such calls will be allowed during the first 6 to 12 months.

To ensure a uniform approach to this nationwide problem, this bill would preempt the States from adopting a database approach, if the FCC mandates a national database. From the industry's perspective, this preemption has the important benefit of ensuring that telemarketers are not subject to duplicative regulation.

Finally, this bill promotes the allocation of fulltime AM radio channels to medium-sized cities located in or adjacent to major metropolitan markets that lack a fulltime AM station.

I would like to thank Messrs. DINGELL, LENT, and MARKEY for their help and leadership in crafting this important bill. I would also like to thank Senators HOLLINGS, DANFORTH, and PRESSLER for their hard work in developing consensus, bipartisan legislation. I urge my colleagues to support this important measure.

Mr. Speaker, I would like to once again particularly thank the chairman of the subcommittee, the gentleman from Massachusetts [Mr. MARKEY], for his help, for his leadership, for his cooperation in seeing that this bill got to the floor and in working out some of the problems associated with the legislation. I would also like to thank Senators DANFORTH, HOLLINGS, and PRESSLER for their hard work in developing consensus bipartisan legislation. In addition, I think it should be noted that the gentleman from Michigan [Mr. DINGELL], the chairman of the full Committee on Energy and Commerce, and my good friend, the gentleman from New York [Mr. LENT], the ranking minority member of that committee, exhibited a great amount of leadership in seeing that the bill got through the full committee and onto the floor.

Finally, Mr. Speaker, I would like to thank the members of the committee and acknowledge their hard work and dedication in seeing that this bill would get to the floor. I thank my good friend and colleague, the gentlewoman from New Jersey [Mrs. ROUKEMA], who worked extremely hard to see to it that this bill got to where it is today and will be on the President's desk shortly.

Mr. Speaker, I reserve the balance of my time.

☐ 1150

Mr. MARKEY. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. BRYANT].

Mr. BRYANT. Mr. Speaker, I represent the home area of MessagePhone, Inc., a company which is engaged in the business of message forwarding. Senator HOLLING's legislation, as it passed the Senate—the Automated Telephone Consumer Protection Act, S. 1462, would have inadvertently ended their operations. The bill however has been corrected to avoid this inadvertent result.

Automatic message delivery, developed by MessagePhone, gives a caller, who encounters a busy or unanswered telephone call, the opportunity to record a short message for subsequent delivery. For example, the technology for this service could call the original destination number every 15 minutes for several hours or until the telephone was answered and the message was delivered. For the purpose of privacy, after delivery, the call attempts are stopped and the message is destroyed.

MessagePhone designed the service to give the calling party an alternative to busy and unanswered telephone calls which make up 30 percent of all telephone calls.

Unlike the technology used by telemarketers for their random solicitations, this service is a prepaid, person-to-person communication, not all that different from a regular telephone call. The service is designed so that the messages are short and the content is personal in nature.

Take for instance the scenario where you are at an airport, you missed your flight and only have a few minutes to call your spouse with the updated flight information. The line is busy and you have to leave. With my constituent's service, you could record a message; they would attempt to deliver a few minutes later, even if you were completely removed from a telephone.

Furthermore, Bell Atlantic currently offers this very service from its payphones. In order to do so, Bell Atlantic had to receive a waiver from the FCC's Computer II rules. To qualify for the waiver, the service had to pass a rigorous public interest test. A similar request that must meet the same public interest test recently was filed by BellSouth. In comments to the FCC, these two Regional Bell Companies have demonstrated that there are well over 1 billion busy and unanswered telephone calls, from payphones, annually.

It is important to note that, in 1988, Judge Greene granted the Regional Bell Operating Companies a waiver of the modified final judgment, concluding that automatic message delivery services were little more than a delay in a standard telephone transmission and that the Regional Bells should be allowed to offer these caller-directed services to the public.

MessagePhone's automatic message delivery services does not consist of random calls with prerecorded messages that invade the privacy of our constituents. Rather, they provide a message service that clearly is beneficial to the public. It is important that existing and emerging technologies and services that are beneficial to the public should not be prohibited by this legislation.

The broadness of the Senator's original definition of an autodialer would have prevented the telemessaging services I have described.

MessagePhone, Inc., has been providing the messaging service described above which has been favorably perceived by the public. Family members, friends, or business associates can receive a recorded message of very limited duration for subsequent delivery when the telephone line is answered or free.

I understand that the legislation we have before us now does not shut down all telemessaging services. The bill allows the Federal Communications Commission to exempt:

(i) calls that are not made for a commercial purpose; and

(ii) such classes or categories of calls made for commercial purposes as the Commission determines—

(I) will not adversely affect the privacy rights that this section is intended to protect; and

(II) do not include the transmission of any unsolicited advertisement.

I am pleased that this issue was resolved without a formal conference with the Senate, and I further understand that the FCC is amenable to this language as a means of preserving these valuable telemessaging services.

I thank you for your valuable assistance on this issue.

Mr. Speaker, I would like to ask the chairman of the subcommittee, the gentleman from Massachusetts [Mr. MARKEY] if I am correct in my understanding of the bill.

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. BRYANT. I yield to the gentleman from Massachusetts.

Mr. MARKEY. Mr. Speaker, the gentleman has accurately described the intention of the legislation. We have made the commonsense exceptions that in fact improve communications between individuals using the modern telecommunications technologies while at the same time targeting that abusive robotic use of the technology which has become such an intrusive part of the American society.

Mr. BRYANT. Mr. Speaker, I further understand that the FCC is amenable to the direction that the bill is taking now with regard to this automated type of messaging service; is that correct?

Mr. MARKEY. The gentleman is correct.

Mr. BRYANT. Mr. Speaker, I would like to express my very deep thanks to the gentleman from New Jersey [Mr. RINALDO], too, for allowing us to make this needed correction to the bill.

Mr. RINALDO. Mr. Speaker, I yield 3 minutes to the ranking minority member of the full committee, the gentleman from New York [Mr. LENT].

Mr. LENT. Mr. Speaker, I urge my colleagues to support S. 1462, the Telephone Protection Act of 1991. This bill contains many of the same provisions included in H.R. 1304, the Telephone Advertising Consumer Rights Act, which the House passed last week. The bill reflects a consensus that has been worked out between the House and the Senate on concerns about the telemarketing industry. I want to commend both the gentleman from Massachusetts [Mr. MARKEY] and the gentleman from New Jersey [Mr. RINALDO] as well as the gentlelady from New Jersey [Mrs. ROUKEMA], for an outstanding job and Mike Regan, Jerry Waldron, David Leach, and other Energy and Commerce Committee staff for helping to bring this bill to the floor.

This is important legislation with bipartisan support designed to address various consumer concerns without unnecessarily burdening the telemarketing industry. The bill before the House today reflects a further effort to address problems in the telemarketing industry, while accommodating legitimate concerns of telemarketers that their industry not be unfairly stifled.

S. 1462 explicitly recognizes that there are certain classes and categories of calls that consumers do not mind, and in fact would probably like to receive. Calls informing a customer that a bill is overdue, or a previously unstocked item is now available at a store are clearly not burdensome, and should not be prohibited: Similarly, the bill grants the FCC the latitude to exempt certain services that telephone companies presently offer, or in the future are likely to offer, to send messages and other important information.

While the telemarketing industry is understandably concerned about being subject to excessive regulation, I believe that the Nation's consumers have a reasonable concern regarding privacy. S. 1462 balances both of these concerns, and I urge my colleagues to join me in supporting the bill.

Mr. MARKEY. Mr. Speaker, I yield 2 minutes to the gentleman from Tennessee [Mr. COOPER].

Mr. COOPER. Mr. Speaker, I thank the distinguished chairman of the subcommittee for yielding time to me. I congratulate him for his leadership in moving this legislation. And I add my congratulations to the distinguished ranking member, the gentleman from New Jersey.

Mr. Speaker, I rise in support of this legislation because it effectively addresses the nightly assault by telemarketing machines and operators on the privacy of our homes. Yet it does so in a balanced way that permits telemarketing to continue its important function of promoting commerce.

I have said here before that some of these calls are much more annoying than others. For example, I regard and I hope the FCC will regard, robotic calls by machines such as autodialers and computer-generated voices to be a much greater threat to the privacy of our homes than calls by live operators. At least you can vent your anger to a real person if they have interrupted your dinner. You can ask them questions and hold them accountable to some extent. At least a live person can only call one person at a time.

Among calls placed by live operators, there are some that we may not mind so much. Some are even helpful. We may not mind a call from a local business in town reminding us of a special sale or opportunity. If they are rude or intrusive, they are accountable in the local area by the damage to their reputation among the people who live there. For interstate calls, especially

there. For interstate calls, especially from other time zones, there is no such accountability. Unwanted calls are tainting the wanted ones and make us cringe at the thought of answering the telephone at night. As I have said before, it's a classic case of the bad apples spoiling the whole barrel.

Chairman MARKEY and the Subcommittee on Telecommunications and Finance crafted an excellent bill that would enable the Federal Communications Commission to protect consumers from the calls they don't want, but not restrict their ability to receive the calls they do want. The FCC was given broad flexibility to fashion regulatory approaches to achieve this result. I am pleased to see that in working out a compromise on the legislation passed by the other body, the chairman preserved this flexibility. I commend him for preserving the opportunity for a choice by the consumer.

Under the legislation before us the FCC still has the same breadth of options available to address this issue. Some options are spelled out as examples for the Commission's consideration, but they are not limiting. I was concerned that the compromise with the other body might narrow the options and tilt the regulatory process toward adoption of a national data base. That has clearly not occurred here.

My own belief is that the national database will not bear up well under close scrutiny. I think the company-specific do-not-call approach offers consumers greater choice. To me, it seems more efficient in terms of the cost of implementation and the lag times required to implement it, as compared to the national database. But that is for the FCC to decide.

I am especially pleased that the Commission still has the opportunity to prescribe methods and procedures for local telephone solicitations that are different from that selected for the non-local calls. This will enable the Commission to take into account that telemarketers making local calls already have an accountability within the community by virtue of their reputation as businesses and as individuals. The other methods and procedures available to the Commission for the local option might be entirely different approaches from that selected for the nonlocal calls. For example, the Commission might decide to use a hybrid approach of a mandatory, company-specific do-not-call system at the local level and something else, perhaps even a national database for other calls.

Overall, Mr. Speaker, this is a good compromise. The FCC has the latitude, the tools, to strike a good balance between curbing annoying telemarketing while preserving telemarketing's contribution to commerce. I thank the chairman for his leadership and I wholeheartedly support and endorse this legislation.

Mr. RINALDO. Mr. Speaker, I yield 1 minute to the distinguished minority whip, the gentleman from Georgia [Mr. GINGRICH].

Mr. GINGRICH. Mr. Speaker, I thank my friend for yielding time to me.

Mr. Speaker, I simply want to report to the House that the President 5 minutes ago met with the press and, in response to the Speaker's request for instructions on economic growth, said this House has had a full year to play around with the issue. He is requesting that the Democrats make in order this afternoon a vote on the Republican growth plan.

As soon as the transcript of his exact comments is available, I will bring the transcript to the floor and read his exact words into the RECORD. I think it is now up the Speaker to make in order a vote on the bill.

Mr. MARKEY. Mr. Speaker, I yield such time as he may consume to the gentleman from Oklahoma [Mr. SYNAR].

Mr. SYNAR. Mr. Speaker, I thank the chairman of the subcommittee for yielding this time to me.

Mr. Speaker, I rise in support of today's legislation, and I want to commend the gentleman from New Jersey [Mr. RINALDO] and the gentleman from Massachusetts [Mr. MARKEY], as well as the staffs of the majority and the minority for the outstanding job that they have done to bring us this legislation today.

I also want to particularly commend the chairman of the subcommittee for his statement in which he says that the term "emergency purposes" is also intended to include any automated telephone calls that notify consumers of impending or current power shortages, whether these outages are for scheduled maintenance or unscheduled outages caused by storms or power interruptions for load management programs. That language is inserted, I'm told, in order to try to accommodate the concerns many of our rural electric cooperatives have had with respect to doing normal maintenance on their lines.

Mr. Speaker, I appreciate the personal attention of the subcommittee chairman, and I will convey to the REC's their concerns have been addressed by this legislation.

☐ 1200

Mr. RINALDO. Mr. Speaker, I yield 1 minute to the distinguished gentlewoman from my home State of New Jersey [Mrs. ROUKEMA].

Mr. MARKEY. Mr. Speaker, I yield 1 minute to the gentlewoman from New Jersey.

The SPEAKER pro tempore. The gentlewoman from New Jersey [Mrs. ROUKEMA] is recognized for 2 minutes.

Mrs. ROUKEMA. Mr. Speaker, I rise today in strong support of S. 1462, the Telephone Advertising Regulation Act. I also want to thank the distinguished chairman of the Subcommittee on Telecommunications and Finance, Mr. MARKEY, and the distinguished ranking member, my colleague from New Jersey, Mr. RINALDO, for their expeditious handling of this compromise legislation, which preserves the rights of consumers and protects the health and safety of the public. At long last a reliable law will be passed.

Telecommunications and computer technology advances have made information exchange easier, and brought our Nation and the world closer together. However, as with any vital technology, telecommunications and computer equipment may be used in a counterproductive and abusive fashion.

Today, we unfortunatley find that automatic dialing recorded message players are being used in record numbers to systematically solicit unsuspecting and unwilling residential and commercial telephone subscribers. This practice is an unwarranted invasion of privacy, and it can be dangerous and life-threatening. This Congress can no longer stand by the wayside and allow telephones to become a potential health hazard.

I am sure my colleagues have heard many complaints about computer-generated phone calls from their constituents. In my case, I have been contacted by a number of physicians in my district who have justifiably complained that their office emergency lines, typically reserved for critical cases, are being clogged with unsolicited computer calls. One of these physicians also happens to be my husband, Dr. Richard W. Roukema, who has repeatedly suffered this problem on his phone lines reserved for emergency calls from the hospital. I especially appreciate the support of Chairman MARKEY in this respect. His wife, also a practicing physician, understood the problem immediately.

This is harassment.

Computer calls are also harassing police and fire emergency numbers. This problem is particularly serious when the computer-generated call will not disconnect and free up the phone line until after its message has been completed. Mr. Speaker, this practice must stop before lives are lost.

S. 1462 contains a provision which prohibits computer-generated calls to emergency phone lines or pagers at hospitals, physicians' or medical service offices, health care facilities, and fire protection and law enforcement agencies.

Yet, as alluded to earlier, it is not just calls to doctors' offices or police and fire stations that pose a public health hazard. I have previously recounted the story of a New York mother who tried to call an ambulance for her injured child, and the sheer terror she experienced when she picked up her

1992
UMI

phone only to find it occupied by a computer call that would not disconnect. Fortunately, that injured child survived, but, Mr. Speaker, let us not wait for tragedy before we act.

S. 1462 also contains a provision requiring computer-generated calls to disconnect as soon as the receiver seeks to terminate the message. This is a commonsense provision which ensures the saftey of telephone customers who may have received unsolicited and unwanted computer-generated calls.

Another important aspect of S. 1462 is that it protects the privacy of telephone subscribers by allowing those citizens who object to receiving computer-generated phone calls to add their names to a national database or a comparable substitute as determined by the FCC. This key provision finally guarantees telephone subscribers freedom from unwanted intrusions into their privacy.

The Senate language has tightened up the prohibition on automatic dialing computers by completely prohibiting their use unless the FCC grants an exemption in the public interest. Such an exemption would include emergency information about natural disasters and health-related evacuations.

Under the provisions of the bill, live telemarketers will still be able to make commercial calls to those customers who have not requested an exemption from such calls. This will allow legitimate telemarketers to conduct business in a safe and responsible fashion, without penalty.

In conclusion, this compromise is faithful to the basic purposes of the original intent of the legislation. It preserves the privacy of the consumer through the ban on autodialers except where consumers choose the exemption.

I support the bill.

Mr. MARKEY. Mr. Speaker, will the gentlewoman yield?

Mrs. ROUKEMA. I yield to the gentleman from Massachusetts.

Mr. MARKEY. Mr. Speaker, I would like to make it quite clear that that particular provision is a direct result of the interest which the husband of the gentlewoman from New Jersey [Mrs. ROUKEMA] showed on this subject.

Mrs. ROUKEMA. My husband and your wife.

Mr. MARKEY. Mr. Speaker, I would simply like to point out that when the gentlewoman from New Jersey [Mrs. ROUKEMA] a year or a year and a half ago approached me with this problem that her husband, a physician, had with the inability for him to have complete control over his telephones for emergency purposes, that that triggered the discussion, the process, which has resulted in the provision being built into this legislation which will protect not only your husband, but my wife, who is also a physician, and the other tens of thousands of physicians and emergency personnel across the country, from having their lines stopped up by these junk calls which in dire circumstances could prevent the proper treatment by physicians of some very serious medical problems in the country.

Mr. Speaker, I want to congratulate the gentlewoman from New Jersey [Mrs. ROUKEMA] and congratulate her husband, because this provision is really in the name of her husband.

Mr. RINALDO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MARKEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to once again thank the chairman of the full committee, the gentleman from Michigan [Mr. DINGELL], for his work, along with his work, along with his staff on these issues. I would like to thank Senator HOLLINGS, Senator PRESSLER, Senator INOUYE, and Senator DANFORTH for their work on these issues.

I would like to thank John Windhausen and Mary McManus from the Senate Commerce staff for their work, and the yeoman work, to use the words of the gentlewoman from New Jersey [Mrs. ROUKEMA], of Steve Cope from legislative counsel, who has helped us enormously.

When a bill of this magnitude is passed, I recognize my indebtedness to the people who work for me directly on an ongoing basis. At this juncture I would just like to personally acknowledge the work of Gerry Salemme and Jerry Waldron and Colin Crowell and Ed Joseph, who each have participated in this long process. Also I would like to note as well, so that all of the proper thank yous are made, Justin Lilley on the minority side as well, who helped to construct this effort that has produced a piece of legislation which the gentleman from New Jersey [Mr. RINALDO] and I, the gentleman from Michigan [Mr. DINGELL] and the gentleman from New York [Mr. LENT], have been able to bring out to the floor here today.

Mr. RINALDO. Mr. Speaker, will the gentleman yield?

Mr. MARKEY. I am glad to yield to the gentleman from New Jersey.

Mr. RINALDO. Mr. Speaker, I just want to underscore what the chairman of the committee has stated. I think it is important to note for the RECORD that we have a situation on the Subcommittee on Telecommunications and Finance where both majority and minority staffs work very well together in an effort to work out problems with legislation, to compromise effectively, to negotiate, and to come up with the kind of package that meets the needs of the people we represent and the people of this great country of ours, and I would particularly acknowledge the endeavors of David Leach, Jerry Waldron, Colin Crowell, Mike Regan, Justin Lilley, and Cathy Reid, for the fine job they have done, not working for any partisan interest, but working together to achieve the kind of results that we see here this morning, of course once again, in the very bipartisan and fair manner in which Chairman MARKEY runs the subcommittee.

Mr. MARKEY. Mr. Speaker, reclaiming my time, I thank the gentleman from New Jersey [Mr. RINALDO].

Mr. Speaker, I would just like to say that this is the beginning of the end for junk faxes and junk calls in America. This knows no partisan line. This is not a Democrat or Republican issue, this is not a liberal or conservative issue. When those junk faxes start coming over your machine, you do not think like a Republican or a Democrat, you just think how are you going to be able to get your hands around the neck of the person making you pay with your paper for whatever message they are trying to send you.

We are sending instructions over to the FCC that we want them to begin the process here of shutting down the abuse of the telephones and fax machines that have grown over the last half a decade.

Mr. Speaker, I yield 1 minute to the gentleman from New Mexico [Mr. RICHARDSON].

Mr. RICHARDSON. Mr. Speaker, I want to just attest to the effective bipartisanship of both the gentleman from Massachusetts [Mr. MARKEY] and the gentleman from New Jersey [Mr. RINALDO] on a number of telecommunications issues.

Last night we passed the Corporation for Public Broadcasting bill that had a number of provisions important to women and minorities in rural areas, giving them access to telemarketing. I especially want to note the cooperation I got from the gentleman from Massachusetts [Mr. MARKEY] on a number of issues relating to exemptions when there are medical emergencies and safety issues.

Mr. Speaker, I can attest again to the gentleman from New Jersey [Mr. RINALDO] and the gentleman from Massachusetts [Mr. MARKEY] effectively working on a number of bills. I think we have had a lot of suspensions in this area, and I just want to join in commending them for this very strong effort and their excellent staffs.

Mr. Speaker, I rise today in strong support of S. 1462, the Automated Telephone Consumer Protection Act. I commend the gentlemen from Massachusetts and New Jersey for producing a final product that strikes an appropriate balance so that individuals will be protected from unwanted calls while still having the ability to take advantage of doing some of their shopping and subscription renewals at home over the telephone.

As an early cosponsor of the House version of the bill, H.R. 1304, I am a strong supporter of the effort to control unwanted calls. The question, however, was how to do this while still allowing those telephone solicitation calls

that consumers might want: From their alma mater, from their favorite charity, from their newspaper or magazine about a lapsed subscription. This bill gives the Federal Communications Commission [FCC] a way of regulating these types of calls and provides some necessary guidance and considerations for the FCC as part of their deliberations.

The bill appropriately singles out calls in which there is an existing business relationship between the caller and the consumer. Different rules should apply to these types of calls. Businesses need to be able to contact customers with whom they have a prior or existing business relationship. Generally, these calls are not objectionable to the recipient; they allow the customer to take advantage of special promotions and other offers from vendors with whom they are already familiar. At the same time, I want to emphasize that these vendors should be keeping track of customers' wishes regarding telephone calls and where and when he likes to receive them or not. Responsible telemarketers should respect certain basic privacy concerns irregardless of whether there is an existing business relationship.

Responsible telemarketing practices will not be restricted by this legislation, and the industry will continue to play a beneficial consumer role in our society. For example, newspapers often use telemarketing to renew lapsed subscriptions or offer special promotions to people who receive the paper only a few days a week. Customers are familiar with these calls and generally find it a convenience not to have to get in touch with their distributor about renewal.

Finally, the bill allows the FCC to evaluate alternatives for protecting residential phone customers from unwanted calls. The FCC is authorized to consider several options for how best to accomplish this. It is my personal opinion that the creation of a giant national database containing the names of people who do not wish to receive telemarketing calls is not the best way to go. This proposal is extremely problematic and may cause more harm than good. I would, therefore, urge the FCC to adopt another, less intrusive, means of protecting residential telephone customers from unwanted telemarketing.

Once again, let me congratulate the sponsors of the bill for their extraordinary efforts to produce a final products that deals with various concerns raised by different parties. Because of the leadership of the subcommittee chairman and ranking Republican member, we are able to pass this consensus bill before the end of the first session. I would urge my colleagues to vote for the bill.

Mr. MARKEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would just like to note that, as usual, from my 5 years as subcommittee chairman, the gentleman from New Mexico [Mr. RICHARDSON] has, as he has on every single piece of legislation, inserted provisions that are going to be very important and vital for the protection of the American public. I would like to make that notation here before we conclude debate.

Mr. Speaker, again, we worked in a bipartisan fashion. We hope that the House sees fit to accept this legislation today.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Massachusetts [Mr. MARKEY] that the House suspend the rules and pass the Senate bill, S. 1462, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the Senate bill, as amended, was passed.

A motion to reconsider was laid on the table.

REGARDING UNFAIR IMPRISONMENT OF DR. NGUYEN DAN QUE BY GOVERNMENT OF VIETNAM

Mr. SOLARZ. Mr. Speaker, I move to suspend the rules and concur in the Senate concurrent resolution (S. Con. Res. 78) regarding the unfair imprisonment and trial of Dr. Nguyen Dan Que by the Government of Vietnam.

The Clerk read as follows:

S. CON. RES. 78

Whereas the normalization of relations with the Socialist Republic of Vietnam and the potential lifting of the economic embargo depend in part on that nation taking certain steps related to the recognition of certain human rights;

Whereas Dr. Nguyen Dan Que is a nonviolent advocate for human rights and democracy in the Socialist Republic of Vietnam;

Whereas Dr. Nguyen Dan Que's right to free expression is guaranteed by Article 19 of the Universal Declaration of Human Rights;

Whereas Dr. Nguyen Dan Que has been imprisoned for 12 of the last 13 years and has for 14 years suffered from ill health;

Whereas Dr. Nguyen has finally been charged with treason and trying to overthrow the Vietnamese government;

Whereas Dr. Nguyen is scheduled to go on trial on November 29, 1991; and

Whereas numerous international human rights organizations have called for the release of Dr. Nguyen: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that—

(1) Dr. Nguyen Dan Que should be accorded a fair and impartial trial as is his right under Articles 10 and 11 of the Universal Declaration of Human Rights;

(2) to ensure fairness and impartiality during his impending trail, international observers should be permitted access to all court proceedings and evidence; and

(3) if Dr. Nguyen is merely guilty of nonviolently expressing his views regarding human rights, he should be released immediately.

SEC. 2. The Secretary of the Senate shall transmit a copy of this concurrent resolution to the following persons: the Permanent Representative of Vietnam to the United Nations, the Speaker of the Vietnamese National Assembly, the Foreign Minister and the Prime Minister of the Socialist Republic of Vietnam, as well as the Secretary of State and the President of the United States.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York [Mr. SOLARZ] will be recognized for 20 minutes, and the gentleman from Michigan [Mr. BROOMFIELD] will be recognized for 20 minutes.

The Chair recognizes the gentleman from New York [Mr. SOLARZ].

Mr. SOLARZ. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this resolution was introduced by Senator ROBB and passed by the other body on Saturday. It expresses the deep concern of the Congress about the impending trial of Dr. Nguyen Dan Que of Vietnam.

Dr. Que, a human rights activist who has spent most of the past 14 years in prison, was arrested in Ho Chi Minh City on June 14, 1990, apparently for the high crime of signing a petition for nonviolent political reform and respect for human rights in Vietnam.

According a Asia Watch, one of the most respected human rights organizations in the world, which is noted in particular for the excellence of the people who work for it, Dr. Que's crime is the exercise of basic human rights of speech and association, as guaranteed, believe it or not, by Vietnam's own constitution, as well as by the International Covenant on Civil and Political Rights, to which the government of Vietnam has acceded.

According to a Ho Chi Minh City law journal, Dr. Que's accusers take as evidence of his so-called criminal intent such alleged facts as—now, listen to this one—his interest in studying Russian, his membership in Amnesty International, his letters protesting human rights abuses in China, Turkey, Greece, Colombia, and the Philippines, his sending a telegram to the government of Japan protesting the repatriation of a defecting Chinese pilot, and testimony from others that Dr. Que is apparently the sort of person who "asks others to join him in action, the same way Western politicians do."

☐ 1210

My friends, these may be serious crimes in Vietnam, but in the United States and most other countries around the world, they would be seen not as evidence of criminality, but as a manifestation of decency and good will and a commitment to the cause of fundamental human rights.

The resolution before us today urges that Dr. Que be accorded a fair and impartial trial and that international observers be permitted access to all court proceedings and evidence.

It also states that if Dr. Que is merely guilty of the nonviolent expression of his views, as Asia Watch and other groups assert, he should be released immediately.

Mr. Speaker, this is a significant resolution, as it reaffirms the importance of human rights in the evolving bilateral relationship between the United States and Vietnam. I think it is very important for the leadership in Hanoi to know that the continued and systematic violation of basic human rights will inevitably limit the degree of bilateral cooperation between our two countries.

I also hope that the adoption of this resolution will serve to encourage the government in Vietnam to expedite the release and emigration of those so-called reeducation camp detainees who remain in long-term detention and who have been there in most if not all instances for nearly 17 years.

The fact is, of course, that the Government of Vietnam has released most of the thousands of people who had been held in reeducation camps since 1975, and a number of us worked long and hard to bring that about, but the State Department and human rights groups have contended that there are about 100 who remain in long-term detention in these reeducation camps, and we hope the day will soon come when literally all of them are released.

Finally, Mr. Speaker, I want to express my appreciation to the gentleman from Virginia [Mr. WOLF], my very good friend, who encouraged the Committee on Foreign Affairs to move this resolution expeditiously to the floor. For many years now he has been an outspoken advocate on behalf of the cause of human rights in Vietnam in general and the plight of the reeducation camp prisoners over there in particular.

I think we all owe him a debt of gratitude for reminding us of our continuing obligation to speak up on behalf of these people, who suffer either by virtue of their association with our country during the course of the war in Vietnam or because they espouse the fundamental ideals and principles upon which our own great republic was founded 200 years ago.

This resolution will probably not attract much attention over here. I doubt it will be on the front page of the Washington Post tomorrow. But I suspect that Dr. Que somehow or other will learn about it, and I have no doubt it will embolden him and greatly enhance his morale.

Mr. FASCELL. Mr. Speaker, will the gentleman yield?

Mr. SOLARZ. I am pleased to yield to the gentleman from Florida [Mr. FASCELL], my beloved chairman.

Mr. FASCELL. Mr. Speaker, I simply want to join my colleague in his eloquent statement with regard to this legislation and commend the original sponsor, the gentleman from Virginia [Mr. WOLF] and my distinguish ranking member or the Committee on Foreign Affairs, the gentleman from Michigan [Mr. BROOMFIELD].

It is important. The time has come to normalize our relationship after a long, bitter confrontation.

In that process, as we move along, the gentleman is absolutely correct, if there is one constancy about the United States and its people it is our strong conviction with regard to the nonviolent expression of political opinion and human rights.

It is the one thing that is respected around the world by all people regardless of what language they speak. We have seen the constancy of the American people in a firm belief of their value system as the one thing that changed the world and certainly what we see happening all over the world now is ample proof of that.

None of us should take lightly the importance of passing a resolution expressing the conviction of the American people in a matter of this kind.

Mr. Speaker, I rise in support of Senate Concurrent Resolution 78 and urge its immediate adoption by the House. This resolution expresses the sense of the Congress that the Government of Vietnam should accord Dr. Nguyen Dan Que, an outspoken advocate for democracy in that country who is scheduled to go on trial for treason this Friday, his internationally recognized human right to due process of law.

The resolution further calls on the Government of Vietnam to release immediately Dr. Nguyen Dan Que who, in our opinion and that of the international human rights community, has been imprisoned solely for the nonviolent expression of his political views.

Mr. Speaker, as the process of normalizing the relations between the United States and Vietnam begins, it is essential that the United States Government insist that respect for human rights and greater political freedoms for the people of Vietnam be on the bilateral diplomatic agenda. One of the first steps the Government of Vietnam can take—and for which the United States Government should press—is the release of Dr. Nguyen and all others who languish in Vietnamese prisons for their attempts to exercise their internationally recognized human rights, including freedom of thought, expression, association and assembly.

I urge unanimous passage of this resolution.

Mr. SOLARZ. Mr. Speaker, I thank the gentleman for his observation.

Mr. Speaker, I reserve the balance of my time.

Mr. BROOMFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to express my strong support for this resolution.

Senate Concurrent Resolution 78 calls on Vietnam to give Dr. Nguyen Dan Que a fair trial and to release him if in fact his only crime is expressing his views.

Several years ago, Dr. Que, a Vietnamese physician, criticized the lack of medical supplies available to doctors. The Vietnamese authorities punished him for his candor by throwing him in a reeducation camp for 10 years.

After his release in 1988, Dr. Que remained steadfast in his determination to speak the truth about conditions in his country. He continued to speak out for nonviolent political change in Vietnam. The Government has responded by charging him with treason and trying to overthrow the regime.

For 35 years, the Communist government in Hanoi has boasted of its achievements. During the Vietnam war, there were some who were willing to believe that the Communists in Hanoi were only patriots who wanted to build a better future for their country.

Today, the failure of communism in Vietnam is obvious to all except the Government in Hanoi. The country is poor and has a few friends. But the Communists continue to stamp out human rights, and seek to silence men such as Dr. Que, who try to speak out.

For the past few years, the Vietnamese Government has called for an end to the American economic embargo and for normalization of relations between our two countries. Vietnam says that we should bury the past and seek a better relationship with their country.

I'm all for seeking reconciliation with former enemies, including Vietnam. But it seems to me that while the American people's attitudes towards Vietnam have changed, the men in Hanoi are still playing by the old rules and attitudes.

It's time that the Government in Hanoi begins to respect the human rights of its citizens. Senate Concurrent Resolution 78 sends a message to Vietnam that the United States is following Dr. Que's case closely, and that we expect Vietnam to fully respect the principles of the Universal Declaration on Human Rights.

I urge my colleagues to support this important resolution.

Mr. Speaker, I yield such time as he may consume to the gentleman from Virginia [Mr. WOLF].

Mr. WOLF. Mr. Speaker, I want to thank the gentleman from Florida [Mr. FASCELL], the committee chairman, the gentleman from New York [Mr. SOLARZ], and the gentleman from Michigan [Mr. BROOMFIELD], the ranking Republican member, for moving this and for their work on this and other pieces of legislation like this.

I think the Vietnamese Government will know now that the three of them are interested in this, and with the threat of them watching to see what the outcome of this trial would be, I feel much better about it, and I am sure that they know that the three of them are going to be looking to see how it goes and what the results are of the trial.

So to the three gentleman, I appreciate their putting this on and moving it so quickly.

Mr. Speaker, I rise in support of Senate Concurrent Resolution 78 which calls on the Vietnamese Government to guarantee a fair and impartial trial for Dr. Nguyen Dan Que, a prisoner of conscience, who will be brought to trial on November 29, 1991, in Ho Chi Minh City and formally charged with "activities aimed at overthrowing the people's

government." Dr. Que could face the death penalty for this offense.

According to Amnesty International, Dr. Nguyen Dan Que was born in 1942 in northern Vietnam, studied medicine at Saigon University and, on graduation, joined the teaching staff of the university medical school. Dr. Que remained in Ho Chi Minh City after the end of the Vietnam war in 1975, and was appointed director of Cho-ray Hospital. Concerned by the shortage of medicines and standards of medical care in the country, he became disillusioned with the new Government's health care policies and expressed criticisms openly. This led to his dismissal as hospital director and in February 1978, he was arrested and accused of "rebelling against the regime." He was imprisoned for 10 years without charge or trial.

Dr. Que was released in February 1988, and later became a founding member of a political movement established in 1990 under the name of the High Tide of Humanism Movement. In May 1990 this organization launched a petition calling for nonviolent political, social and economic change in Vietnam, including the introduction of a multiparty system for government. In clear violation of the Universal Declaration of Human Rights, Dr. Que was re-arrested one month later, on June 14, 1990, and has been held without charge or trial since. He has allegedly been ill-treated and tortured and is currently suffering ill-health.

Dr. Que will be brought to trial on November 29, and could be put to death for "activities aimed at overthrowing the people's government."

The freedom of expression, the bedrock of free societies, the first amendment of our own Constitution, is being suppressed in Vietnam. Dr. Que will be tried on Friday for non-violently calling for change. As the United States moves toward normalizing relations with Vietnam, the Congress cannot stand by and allow the same country to suppress the most fundamental freedoms.

I call on the Congress to send a message to Vietnam that the United States will not tolerate Vietnam's shirking of international standards of human rights and demand that if Dr. Que is merely guilty of nonviolently expressing his views regarding human rights, he should be released immediately.

□ 1220

Mr. SOLARZ. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey [Mr. ANDREWS].

Mr. ANDREWS of New Jersey. Mr. Speaker, I thank the gentleman for yielding the time and thank the subcommittee chairman and commend him and the ranking minority members for this very forceful and appropriate resolution. I rise in strong support of the resolution.

Mr. Speaker, freedom is winning around the world, but it has not yet won. This is chilling evidence of the fact that there are places in the world where when a man or woman speaks his or her mind or takes an act of political conscience, the penalty can still be severe. I commend the committee for pointing this out, and I would suggest that the only way that the momentum of freedom that we have seen in the last few years can be reversed is if good people of good faith like the members of this committee fail to act and fail to tell Vietnam, in this case, that the world is watching this trial.

So I thank and commend the members of the committee.

Mr. SOLARZ. Mr. Speaker, I simply want to thank the gentleman from New Jersey and let him know that anytime he cares to make remarks like that he will always be eligible for time from the Committee on Foreign Affairs. We appreciate it very much.

Mr. BROOMFIELD. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SOLARZ. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from New York [Mr. SOLARZ] that the House suspend the rules and concur in the Senate concurrent resolution, Senate Concurrent Resolution 78.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SOLARZ. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate concurrent resolution just concurred in.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

SENSE OF HOUSE WITH RESPECT TO LEGISLATION RELATING TO AMORTIZATION OF GOODWILL AND CERTAIN OTHER INTANGIBLES

Mr. ROSTENKOWSKI. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 292) expressing the sense of the House of Representatives with respect to legislation relating to the amortization of goodwill and certain other intangibles.

The clerk read as follows:

H. RES. 292

Resolved, That it is the sense of the House of Representatives that any legislation enacted with respect to amortization of goodwill and certain other intangibles for Federal income tax purposes should contain a provision permitting taxpayers to elect in a consistent manner the provisions of such legislation with respect to transactions after the date on which H.R. 3035 of the One Hundred Second Congress was introduced and before the otherwise prescribed effective date of such legislation.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 20 minutes, and the gentleman from Texas [Mr. ARCHER] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the pending resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of House Resolution 292, expressing the sense of the House with respect to the effective date of legislation to simplify the tax treatment of intangible assets.

As reported by the Committee on Ways and Means, this sense of the House resolution would promote economic stability by ensuring that normal business transactions are not held up while tax simplification legislation works its way through the legislative process.

Last July, I introduced H.R. 3035, which would eliminate much of the controversy over the tax treatment of intangible assets by providing a uniform, predictable set of rules for amortizing these assets. This bill was one of a series of bills that I introduced this year relating to tax simplification.

The Committee on Ways and Means has held 2 days of hearings on H.R. 3035 and the issue of the tax treatment of intangibles. While some problems remain to be worked out, I have been encouraged by the public response to the bill, which has been overwhelmingly favorable. I am also gratified by the Treasury Department's position in support of the bill.

As introduced, H.R. 3035 would become effective on the date of enactment of the bill. Concern has recently been expressed that business transactions are being held up because of uncertainty as to when this legislation might be enacted.

House Resolution 292 would alleviate these concerns by stating the sense of the House that in the event that intangible legislation is enacted into law, taxpayers should be allowed to elect to apply the legislation to all acquisitions of intangible assets taking place after the date of introduction of H.R. 3035—July 25, 1991—and before its enactment.

Because it is an election at the taxpayer's choice, this sense of the House resolution would not harm any taxpayer, but instead would ensure that taxpayers could proceed with business as usual without fear of losing the benefit of pending tax simplification.

I want to emphasize, Mr. Speaker, that passage of this resolution today is not intended to prejudge or otherwise prejudice important issues that must be worked out next year with respect to H.R. 3035. Issues such as the treatment of computer software, government licenses, movie distribution rights, and retroactivity all must be resolved on their merits in the substantive markup anticipated next year House Resolution 292 is merely intended to allow business transactions to proceed while the underlying intangibles bill works its way through the legislative process.

Mr. Speaker, I urge all my colleagues to support this sense of the House resolution.

Mr. ROSTENKOWSKI. Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, frequently, the mere anticipation of congressional action influences significant business and personal decisions.

A significant change in the law is proposed by a leading lawmaker, and people naturally begin to ask themselves how the proposal might affect them. They may change or delay action they were planning to take.

That has apparently been the case with legislation proposed by Chairman ROSTENKOWSKI on July 25 to change the taxation of intangible assets such as goodwill, customer lists, computer software, know how, and the like.

There is anecdotal evidence that the uncertainty over changes in the amortization of intangibles may be delaying business transactions that would otherwise be taking place.

This resolution attempts to alleviate some of that uncertainty. The last thing the economy needs now is people postponing investments and acquisitions that could produce jobs.

I commend the chairman for moving House Resolution 292 forward. It is a responsible attempt to ease taxpayer concerns while the amortization of intangibles issue is still being considered.

It says that if Congress should enact legislation changing the taxation of intangible assets, we intend to allow taxpayers an election to use the benefits of the new law back to July 25, 1991—if it is to their advantage.

The resolution does not attempt to settle the underlying question of the tax treatment of intangibles. That is a separate issue for another day.

I personally have real concerns about forcing taxpayers to amortize any asset—intangible or otherwise—over a period longer than its economic life.

Importantly, a vote for this resolution today does not obligate anyone to support the chairman's intangibles bill or any other bill. The resolution has no bearing on whether or when amortization legislation will be enacted—or how it would be structured.

It says only that we plan to give taxpayers a choice of new or old law—retroactive to July 25, 1991—if we pass a law on intangibles.

The resolution does not carry with it the force of law. It makes no guarantees. It will however, give taxpayers some degree of assurance that the House doesn't intend to penalize taxpayers who go forward now.

House Resolution 292 deserves our support. I urge its adoption.

Mr. Speaker, I reserve the balance of my time.

□ 1230

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. STARK].

Mr. STARK. Mr. Speaker, I just wanted to take this opportunity to engage in a colloquy with the distinguished ranking minority member of the committee.

Mr. Speaker, just to repeat this gentleman's understanding that this resolution does not bind the members of the Ways and Means Committee to vote one way or the other on any procedure, including the issue of retroactivity. Is that the gentleman's understanding?

Mr. ARCHER. Mr. Speaker, if the gentleman will yield, that is my understanding. It is a nonbinding resolution.

Mr. STARK. And that therefore an attorney out on Wall Street today advising his or her clients on a merger or an acquisition when it comes to the possibility of tax treatment of intangibles could not use this as a basis for a legal opinion; would that be the gentleman's understanding?

Mr. ARCHER. Mr. Speaker, if the gentleman will yield further, I am afraid I cannot speculate on legal opinions.

Mr. STARK. All right, but so far as the gentleman knows, there is nothing in this bill that in effect has the force of law?

Mr. ARCHER. I do not think that it is of any benefit to expand on the response that I made initially, but I would simply add, if the gentleman will yield further, that any individual who does enter into an acquisition on the assumption that the intangibles bill will pass is taking a very real risk, because I do not think it is at all certain that it is going to pass.

Mr. STARK. Mr. Speaker, I thank the gentleman. To go on further, that is what I wanted to suggest, that in its most definitive interpretation, this bill could merely represent that a majority of the Ways and Means Committee favored bringing it and that as far as we know, at least two-thirds of the House of Representatives would not object to it as a policy, but that it otherwise would have no force and effect at this moment.

Mr. ARCHER. That is my understanding.

Mr. STARK. Mr. Speaker, I thank the gentleman.

Mr. ARCHER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Illinois [Mr. ROSTENKOWSKI] that the House suspend the rules and agree to the resolution, House Resolution 292.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

TECHNICAL CORRECTIONS ACT OF 1991

Mr. ROSTENKOWSKI. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1555) to make technical corrections relating to the Revenue Reconciliation Act of 1990, and for other purposes, as amended.

The Clerk read as follows:

H.R. 1555

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Technical Corrections Act of 1991".

TITLE I—REVENUE PROVISIONS

SEC. 101. AMENDMENT OF 1986 CODE.

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

SEC. 102. AMENDMENTS RELATED TO REVENUE RECONCILIATION ACT OF 1990.

(a) AMENDMENTS RELATED TO SUBTITLE A.—

(1) Subparagraph (B) of section 59(j)(3) is amended by striking "section 1(i)(3)(B)" and inserting "section 1(g)(3)(B)".

(2) Paragraph (2) of section 897(a) is amended by striking "21" in the heading of such paragraph and in subparagraph (A) and inserting "24".

(3) Clause (ii) of section 32(b)(1)(B) is amended by inserting a comma after "greater".

(4) Section 541 is amended by striking "28 percent" and inserting "31 percent".

(5) Subsection (c) of section 32 is amended by adding at the end thereof the following new paragraph:

"(4) TREATMENT OF DEDUCTION FOR MEDICAL INSURANCE OF SELF-EMPLOYED.—In determining the amount of adjusted gross income for purposes of this section, the amount of the

deduction under section 162(l) shall be determined without regard to section 162(l)(3)(B)."

(6) Clause (i) of section 151(d)(3)(C) is amended by striking "joint of a return" and inserting "joint return".

(7) Subparagraph (B) of section 402(e)(1) is amended by striking the last sentence thereof.

(8) Subsection (b) of section 1 is amended by striking "$26,500" in the table contained therein and inserting "$26,050".

(b) AMENDMENTS RELATED TO SUBTITLE B.—

(1) Paragraph (1) of section 11212(e) of the Revenue Reconciliation Act of 1990 is amended by striking "Paragraph (1) of section 6724(d)" and inserting "Subparagraph (B) of section 6724(d)(1)".

(2) Subsection (b) of section 4082 is amended to read as follows:

"(b) TAX ON CERTAIN USES.—If any person uses gasoline (other than in the production of gasoline or special fuels referred to in section 4041), such use shall for purposes of this chapter be considered a removal."

(3)(A) Subparagraph (B) of section 4093(c)(2) is amended by inserting before the period "unless such fuel is sold for exclusive use by a State or any political subdivision thereof".

(B) Paragraph (4) of section 6427(l) is amended by inserting before the period "unless such fuel was used by a State or any political subdivision thereof".

(4) Paragraph (1) of section 6416(b) is amended by striking "chapter 32 or by section 4051" and inserting "chapter 31 or 32".

(5) Paragraph (1) of section 9502(e) is amended to read as follows:

"(1) INCREASES IN TAX REVENUES BEFORE 1993 TO REMAIN IN GENERAL FUND.—In the case of taxes imposed before January 1, 1993, the amounts required to be appropriated under paragraphs (1), (2), and (3) of subsection (b) shall be determined without regard to any increase in a rate of tax enacted by the Revenue Reconciliation Act of 1990."

(6) Section 7012 is amended—

(A) by striking "production or importation of gasoline" in paragraph (3) and inserting "taxes on gasoline and diesel fuel", and

(B) by striking paragraph (4) and redesignating paragraphs (5) and (6) as paragraphs (4) and (5), respectively.

(7) Subsection (c) of section 5041 is amended by striking paragraph (6) and by inserting the following new paragraphs:

"(6) CREDIT FOR TRANSFEREE IN BOND.—If—

"(A) wine produced by any person would be eligible for any credit under paragraph (1) if removed by such person during the calendar year,

"(B) wine produced by such person is removed during such calendar year by any other person (hereafter in this paragraph referred to as the 'transferee') to whom such wine was transferred in bond and who is liable for the tax imposed by this section with respect to such wine, and

"(C) such producer holds title to such wine at the time of its removal and provides to the transferee such information as is necessary to properly determine the transferee's credit under this paragraph,

then, the transferee (and not the producer) shall be allowed the credit under paragraph (1) which would be allowed to the producer if the wine removed by the transferee had been removed by the producer on that date.

"(7) REGULATIONS.—The Secretary may prescribe such regulations as may be necessary to carry out the purposes of this subsection, including regulations—

"(A) to prevent the credit provided in this subsection from benefiting any person who produces more than 250,000 wine gallons during a calendar year, and

"(B) to assure proper reduction of such credit for persons producing more than 150,000 wine gallons of wine during a calendar year."

(8) Paragraph (3) of section 5061(b) is amended to read as follows:

"(3) section 5041(f),".

(9) Section 5354 is amended by inserting "(taking into account the appropriate amount of credit with respect to such wine under section 5041(c))" after "any one time".

(10) Effective on the date of the enactment of this Act, paragraph (7) of section 11202(i) of the Revenue Reconciliation Act of 1991 is amended by adding at the end thereof the following: "The Secretary may treat any person who bore the ultimate burden of the tax imposed by this subsection as the person to whom a credit or refund under such provisions may be allowed or made."

(c) AMENDMENTS RELATED TO SUBTITLE C.—

(1) Paragraph (4) of section 56(g) is amended by redesignating subparagraph (I) as subparagraph (H).

(2) Subparagraph (B) of section 6724(d)(1) is amended—

(A) by striking "or" at the end of clause (xi),

(B) by striking the period at the end of the clause added by section 11212(e) of the Revenue Reconciliation Act of 1990 and inserting ", or", and

(C) by redesignating the clause added by section 11323(c)(2) of such Act as clause (xiii).

(3) Subsection (g) of section 6302 is amended by inserting ", 22," after "chapters 21".

(4) The earnings and profits of any insurance company to which section 11305(c)(3) of the Revenue Reconciliation Act of 1990 applies shall be determined without regard to any deduction allowed under such section; except that, for purposes of applying sections 56, 902, 952(c)(1), and 960 of the Internal Revenue Code of 1986, such deduction shall be taken into account.

(5) Subparagraph (D) of section 6038A(e)(4) is amended—

(A) by striking "any transaction to which the summons relates" and inserting "any affected taxable year", and

(B) by adding at the end thereof the following new sentence: "For purposes of this subparagraph, the term 'affected taxable year' means any taxable year if the determination of the amount of tax imposed for such taxable year is affected by the treatment of the transaction to which the summons relates."

(6) Subparagraph (A) of section 6621(c)(2) is amended by adding at the end thereof the following new sentence: "The preceding sentence shall be applied without regard to any such letter or notice which is withdrawn by the Secretary."

(7) Clause (i) of section 6621(c)(2)(B) is amended by striking "this subtitle" and inserting "this title".

(d) AMENDMENTS RELATED TO SUBTITLE D.—

(1) Paragraph (9) of section 132(h) is amended by striking "or the last sentence of subsection (c)(1) thereof".

(2) Notwithstanding section 11402(c) of the Revenue Reconciliation Act of 1990, the amendment made by section 11402(b)(1) of such Act shall apply to taxable years ending after December 31, 1989.

(3) Clause (ii) of section 143(m)(4)(C) is amended—

(A) by striking "any month of the 10-year period" and inserting "any year of the 4-year period",

(B) by striking "succeeding months" and inserting "succeeding years", and

(C) by striking "over the remainder of such period (or, if lesser, 5 years)" and inserting "to zero over the succeeding 5 years".

(e) AMENDMENTS RELATED TO SUBTITLE E.—

(1) Subsection (d) of section 39 is amended—

(A) by redesignating the paragraph added by section 11511(b)(2) of the Revenue Reconciliation Act of 1990 as paragraph (1), and

(B) by redesignating the paragraph added by section 11611(b)(2) of such Act as paragraph (2).

(2)(A) Subsection (h) of section 56 is amended—

(i) by striking "subsection (g)(4)(G)" in paragraph (5) and inserting "subsection (g)(4)(F)", and

(ii) by striking "section 613(e)(3)" in paragraph (7)(B) and inserting "section 613(e)(2)".

(B) Clause (ii) of section 56(d)(1)(B) is amended to read as follows:

"(ii) appropriate adjustments in the application of section 172(b)(2) shall be made to take into account the limitation of subparagraph (A)."

(C) Subparagraph (B) of section 56(g)(1) is amended by striking "and the alternative tax net operating loss deduction" and inserting ", the alternative tax net operating loss deduction, and the deduction under subsection (h)".

(3) Clause (i) of section 613A(c)(3)(A) is amended by striking "the table contained in".

(4) Section 6501 is amended—

(A) by striking subsection (m) (relating to deficiency attributable to election under section 44B) and by redesignating subsections (n) and (o) as subsections (m) and (n), respectively, and

(B) by striking "section 40(f) or 51(j)" in subsection (m) (as redesignated by subparagraph (A)) and inserting "section 40(f), 43, or 51(j)".

(5) Paragraph (2) of section 55(c) is amended by striking "29(b)(5)" and inserting "29(b)(6)".

(6) Subparagraph (C) of section 38(c)(2) (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990) is amended by inserting before the period at the end of the first sentence the following: "and without regard to the deduction under section 56(h)".

(7) Clauses (iii) and (iv) of section 53(d)(1)(B) are each amended by striking "section 29(b)(5)(B)" and inserting "section 29(b)(6)(B)".

(8) Subparagraph (B) of section 56(h)(4) is amended by striking "For purposes of subparagraph (A), the" and inserting "The".

(f) AMENDMENTS RELATED TO SUBTITLE F.—

(1)(A) Section 2701(a)(3) is amended by adding at the end thereof the following new subparagraph:

"(C) VALUATION OF QUALIFIED PAYMENTS WHERE NO LIQUIDATION, ETC. RIGHTS.—In the case of an applicable retained interest which is described in subparagraph (B)(i) but not subparagraph (B)(ii), the value of the distribution right shall be determined without regard to this section."

(B) Section 2701(a)(3)(B) is amended by inserting "CERTAIN" before "QUALIFIED" in the heading thereof.

(C) Sections 2701 (d)(1) and (d)(4) are each amended by striking "subsection (a)(3)(B)" and inserting "subsection (a)(3) (B) or (C)".

(2) Clause (i) of section 2701(a)(4)(B) is amended by inserting "(or, to the extent provided in regulations, the rights as to either income or capital)" after "income and capital".

(3)(A) Section 2701(b)(2) is amended by adding at the end thereof the following new subparagraph:

"(C) APPLICABLE FAMILY MEMBER.—For purposes of this subsection, the term 'applicable family member' includes any lineal descendant of any parent of the transferor or the transferor's spouse."

(B) Section 2701(e)(3) is amended—

(i) by striking subparagraph (B), and

(ii) by striking so much of paragraph (3) as precedes "shall be treated as holding" and inserting:

"(3) ATTRIBUTION OF INDIRECT HOLDINGS AND TRANSFERS.—An individual".

(C) Section 2704(c)(3) is amended by striking "section 2701(e)(3)(A)" and inserting "section 2701(e)(3)".

(4) Clause (i) of section 2701(c)(1)(B) is amended to read as follows:

"(i) a right to distributions with respect to any interest which is junior to the rights of the transferred interest,".

(5)(A) Clause (i) of section 2701(c)(3)(C) is amended to read as follows:

"(i) IN GENERAL.—Payments under any interest held by a transferor which (without regard to this subparagraph) are qualified payments shall be treated as qualified payments unless the transferor elects not to treat such payments as qualified payments. Payments described in the preceding sentence which are held by an applicable family member shall be treated as qualified payments only if such member elects to treat such payments as qualified payments."

(B) The first sentence of section 2701(c)(3)(C)(ii) is amended to read as follows: "A transferor or applicable family member holding any distribution right which (without regard to this subparagraph) is not a qualified payment may elect to treat such right as a qualified payment, to be paid in the amounts and at the times specified in such election."

(C) The time for making an election under the second sentence of section 2701(c)(3)(C)(i) of the Internal Revenue Code of 1986 (as amended by subparagraph (A)) shall not expire before the due date (including extensions) for filing the transferor's return of the tax imposed by section 2501 of such Code for calendar year 1991.

(6) Section 2701(d)(3)(A)(iii) is amended by striking "the period ending on the date of".

(7) Subclause (I) of section 2701(d)(3)(B)(ii) is amended by inserting "or the exclusion under section 2503(b)," after "section 2523,".

(8) Section 2701(e)(5) is amended—

(A) by striking "such contribution to capital or such redemption, recapitalization, or other change" in subparagraph (A) and inserting "such transaction", and

(B) by striking "the transfer" in subparagraph (B) and inserting "such transaction".

(9) Section 2701(d)(4) is amended by adding at the end thereof the following new subparagraph:

"(C) TRANSFER TO TRANSFERORS.—In the case of a taxable event described in paragraph (3)(A)(ii) involving a transfer of an applicable retained interest from an applicable family member to a transferor, this subsection shall continue to apply to the transferor during any period the transferor holds such interest."

(10) Section 2701(e)(6) is amended by inserting "or to reflect the application of subsection (d)" before the period at the end thereof.

(11)(A) Section 2702(a)(3)(A) is amended—

(i) by striking "to the extent" and inserting "if" in clause (i),

(ii) by striking "or" at the end of clause (i),

(iii) by striking the period at the end of clause (ii) and inserting ", or", and

(iv) by adding at the end thereof the following new clause:

"(iii) to the extent that regulations provide that such transfer is not inconsistent with the purposes of this section."

(B)(i) Section 2702(a)(3) is amended by striking "incomplete transfer" each place it appears and inserting "incomplete gift".

(ii) The heading for section 2702(a)(3)(B) is amended by striking "INCOMPLETE TRANSFER" and inserting "INCOMPLETE GIFT".

(12) Section 2703(b)(2) is amended by striking "members of the decedent's family" and inserting "natural objects of the bounty of the transferor".

(g) AMENDMENTS RELATED TO SUBTITLE G.—

(1)(A) Subsection (a) of section 1248 is amended—

(i) by striking ", or if a United States person receives a distribution from a foreign corporation which, under section 302 or 331, is treated as an exchange of stock" in paragraph (1), and

(ii) by adding at the end thereof the following new sentence: "For purposes of this section, a United States person shall be treated as having sold or exchanged any stock if, under any provision of this subtitle, such person is treated as realizing gain from the sale or exchange of such stock."

(B) Paragraph (1) of section 1248(e) is amended by striking "or receives a distribution from a domestic corporation which, under section 302 or 331, is treated as an exchange of stock".

(C) Subparagraph (B) of section 1248(f)(1) is amended by striking "or 361(c)(1)" and inserting "355(c)(1), or 361(c)(1)".

(D) Paragraph (1) of section 1248(i) is amended to read as follows:

"(1) IN GENERAL.—If any shareholder of a 10-percent corporate shareholder of a foreign corporation exchanges stock of the 10-percent corporate shareholder for stock of the foreign corporation, such 10-percent corporate shareholder shall recognize gain in the same manner as if the stock of the foreign corporation received in such exchange had been—

"(A) issued to the 10-percent corporate shareholder, and

"(B) then distributed by the 10-percent corporate shareholder to such shareholder in redemption or liquidation (whichever is appropriate).

The amount of gain recognized by such 10-percent corporate shareholder under the preceding sentence shall not exceed the amount treated as a dividend under this section."

(2) Section 897 is amended by striking subsection (f).

(3) Paragraph (13) of section 4975(d) is amended by striking "section 408(b)" and inserting "section 408(b)(12)".

(4) Clause (iii) of section 56(g)(4)(D) is amended by inserting ", but only with respect to taxable years beginning after December 31, 1989" before the period at the end thereof.

(5)(A) Paragraph (11) of section 11701(a) of the Revenue Reconciliation Act of 1990 (and the amendment made by such paragraph) are hereby repealed, and section 7108(r)(2) of the Revenue Reconciliation Act of 1989 shall be applied as if such paragraph (and amendment) had never been enacted.

(B) Subparagraph (A) shall not apply to any building if the owner of such building establishes to the satisfaction of the Secretary of the Treasury or his delegate that such owner reasonably relied on the amendment made by such paragraph (11).

(h) AMENDMENTS RELATED TO SUBTITLE H.—

(1)(A) Clause (vi) of section 168(e)(3)(B) is amended by striking "or" at the end of subclause (I), by striking the period at the end of subclause (II) and inserting ", or", and by adding at the end thereof the following new subclause:

"(III) is described in section 48(l)(3)(A)(ix) (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990)."

(B) Subparagraph (K) of section 168(g)(4) is amended by striking "section 48(a)(3)(A)(iii)" and inserting "section 48(l)(3)(A)(ix) (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990)".

(2) Clause (ii) of section 172(b)(1)(E) is amended by striking "subsection (m)" and inserting "subsection (h)".

(3) Sections 805(a)(4)(E), 832(b)(5)(C)(ii)(II), and 832(b)(5)(D)(ii)(II) are each amended by striking "243(b)(5)" and inserting "243(b)(2)".

(4) Subparagraph (A) of section 243(b)(3) is amended by inserting "of" after "In the case".

(5) The subsection heading for subsection (a) of section 280F is amended by striking "INVESTMENT TAX CREDIT AND".

(6) Clause (i) of section 1504(c)(2)(B) is amended by inserting "section" before "243(b)(2)".

(7) Paragraph (3) of section 341(f) is amended by striking "351, 361, 371(a), or 374(a)" and inserting "351, or 361".

(8) Paragraph (2) of section 243(b) is amended to read as follows:

"(2) AFFILIATED GROUP.—For purposes of this subsection:

"(A) IN GENERAL.—The term 'affiliated group' has the meaning given such term by section 1504(b), except that for such purposes sections 1504(b)(2), 1504(b)(4), and 1504(c) shall not apply.

"(B) GROUP MUST BE CONSISTENT IN FOREIGN TAX TREATMENT.—The requirements of paragraph (1)(A) shall not be treated as being met with respect to any dividend received by a corporation if, for any taxable year which includes the day on which such dividend is received—

"(i) 1 or more members of the affiliated group referred to in paragraph (1)(A) choose to any extent to take the benefits of section 901, and

"(ii) 1 or more other members of such group claim to any extent a deduction for taxes otherwise creditable under section 901.".

(9) The amendment made by section 11813(b)(17) of the Revenue Reconciliation Act of 1990 shall be applied as if the material stricken by such amendment included the closing parenthesis after "section 48(a)(5)".

(10) Paragraph (1) of section 179(d) is amended—

(A) by striking "in a trade or business" and inserting "a trade or business", and

(B) by adding at the end thereof the following new sentence: "Such term shall not include any property described in section 50(b) and shall not include air conditioning or heating units and horses".

(11) Subparagraph (E) of section 50(a)(2) is amended by striking "section 48(a)(5)(A)" and inserting "section 48(a)(5)".

(12) The amendment made by section 11801(c)(9)(G)(ii) of the Revenue Reconciliation Act of 1990 shall be applied as if it struck "Section 422A(c)(2)" and inserted "Section 422(c)(2)".

(13) Subparagraph (B) of section 424(c)(3) is amended by striking "a qualified stock option, an incentive stock option, an option granted under an employee stock purchase plan, or a restricted stock option" and inserting "an incentive stock option or an option granted under an employee stock purchase plan".

(14) Subsections (a)(45), (b)(14), and (c)(21) of section 11801 of the Revenue Reconciliation Act of 1990 are hereby repealed, and the Internal Revenue Code of 1986 shall be applied and administered as if such subsections (and the amendments made by such subsections) had not been enacted.

(15) Subparagraph (E) of section 1367(a)(2) is amended by striking "section 613A(c)(13)(B)" and inserting "section 613A(c)(11)(B)".

(16) Subparagraph (B) of section 460(e)(6) is amended by striking "section 167(k)" and inserting "section 168(e)(2)(A)(ii)".

(17) Subparagraph (C) of section 172(h)(4) is amended by striking "subsection (b)(1)(M)" and inserting "subsection (b)(1)(E)".

(18) Section 6503 is amended—

(A) by redesignating the subsection relating to extension in case of certain summonses as subsection (j), and

(B) by redesignating the subsection relating to cross references as subsection (k).

(19) Paragraph (4) of section 1250(e) is hereby repealed.

(i) EFFECTIVE DATE.—Any amendment made by this section shall take effect as if included in the provision of the Revenue Reconciliation Act of 1990 to which such amendment relates.

SEC. 103. MISCELLANEOUS PROVISIONS.

(a) APPLICATION OF AMENDMENTS MADE BY TITLE XII OF OMNIBUS BUDGET RECONCILIATION ACT OF 1990.—Except as otherwise expressly provided, whenever in title XII of the Omnibus Budget Reconciliation Act of 1990 an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

(b) TREATMENT OF CERTAIN AMOUNTS UNDER HEDGE BOND RULES.—

(1) Clause (iii) of section 149(g)(3)(B) is amended to read as follows:

"(iii) AMOUNTS HELD PENDING REINVESTMENT OR REDEMPTION.—Amounts held for not more than 30 days pending reinvestment or bond redemption shall be treated as invested in bonds described in clause (i)."

(2) The amendment made by paragraph (1) shall take effect as if included in the amendments made by section 7651 of the Omnibus Budget Reconciliation Act of 1989.

(c) TREATMENT OF CERTAIN DISTRIBUTIONS UNDER SECTION 1445.—

(1) IN GENERAL.—Paragraph (3) of section 1445(e) is amended by adding at the end thereof the following new sentence: "Rules similar to the rules of the preceding provisions of this paragraph shall apply in the case of any distribution to which section 301 applies and which is not made out of the earnings and profits of such a domestic corporation."

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to distributions after the date of the enactment of this Act.

(d) TREATMENT OF CERTAIN CREDITS UNDER SECTION 469.—

(1) IN GENERAL.—Subparagraph (B) of section 469(c)(3) is amended by adding at the end thereof the following new sentence: "If the preceding sentence applies to the net income from any property for any taxable year, any credits allowable under subpart B (other than section 27(a)) or D of part IV of subchapter A for such taxable year which are attributable to such property shall be treated as credits not from a passive activity to the extent the amount of such credits does not exceed the regular tax liability of the taxpayer for the taxable year which is allocable to such net income."

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to distributions after the date of the enactment of this Act.

(d) TREATMENT OF CERTAIN CREDITS UNDER SECTION 469.—

(1) IN GENERAL.—Subparagraph (B) of section 469(c)(3) is amended by adding at the end thereof the following new sentence: "If the preceding sentence applies to the net income from any property for any taxable year, any credits allowable under subpart B (other than section 27(a)) or D of part IV of subchapter A for such taxable year which are attributable to such property shall be treated as credits not from a passive activity to the extent the amount of such credits does not exceed the regular tax liability of the taxpayer for the taxable year which is allocable to such net income."

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to taxable years beginning after December 31, 1986.

(e) TREATMENT OF DISPOSITIONS UNDER PASSIVE LOSS RULES.—

(1) IN GENERAL.—Subparagraph (A) of section 469(g)(1) is amended to read as follows:

"(A) IN GENERAL.—If all gain or loss realized on such disposition is recognized, the excess of—

"(i) any loss from such activity for such taxable year (determined after the application of subsection (b)), over

"(ii) any net income or gain for such taxable year from all other passive activities (determined after the application of subsection (b)),

shall be treated as a loss which is not from a passive activity."

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to taxable years beginning after December 31, 1986.

(f) MISCELLANEOUS AMENDMENTS TO FOREIGN PROVISIONS.—

(1) COORDINATION OF UNIFIED ESTATE TAX CREDIT WITH TREATIES.—Subparagraph (A) of section 2102(c)(3) is amended by adding at the end thereof the following new sentence: "For purposes of the preceding sentence, property shall not be treated as situated in the United States if such property is exempt from the tax imposed by this subchapter under any treaty obligation of the United States.".

(2) TREATMENT OF CERTAIN INTEREST PAID TO RELATED PERSON.—

(A) IN GENERAL.—Subparagraph (B) of section 163(j)(1) is amended by inserting before the period at the end thereof the following: "(and clause (ii) of paragraph (2)(A) shall not apply for purposes of applying this subsection to the amount so treated)".

(B) EFFECTIVE DATE.—The amendment made by subparagraph (A) shall apply as if included in the amendments made by section 7210(a) of the Revenue Reconciliation Act of 1989.

(3) TREATMENT OF INTEREST ALLOCABLE TO EFFECTIVELY CONNECTED INCOME.—

(A) IN GENERAL.—

(i) Subparagraph (B) of section 884(f)(1) is amended by striking "to the extent" and all that follows down through "subparagraph (A)" and inserting "to the extent that the allocable interest exceeds the interest described in subparagraph (A)".

(ii) The second sentence of section 884(f)(1) is amended by striking "reasonably expected" and all that follows down through the period at the end thereof and inserting "reasonably expected to be allocable interest.".

(iii) Paragraph (2) of section 884(f) is amended to read as follows:

"(2) ALLOCABLE INTEREST.—For purposes of this subsection, the term 'allocable interest' means any interest which is allocable to income which is effectively connected (or treated as effectively connected) with the conduct of a trade or business in the United States."

(B) EFFECTIVE DATE.—The amendments made by subparagraph (A) shall take effect as if included in the amendments made by section 1241(a) of the Tax Reform Act of 1986.

(4) CLARIFICATION OF SOURCE RULE.—

(A) IN GENERAL.—Paragraph (2) of section 865(b) is amended by striking "863(b)" and inserting "863".

(B) EFFECTIVE DATE.—The amendment made by subparagraph (A) shall take effect as if included in the amendments made by section 1211 of the Tax Reform Act of 1986.

(5) REPEAL OF OBSOLETE PROVISIONS.—

(A) Paragraph (1) of section 6038(a) is amended by striking ", and" at the end of subparagraph (E) and inserting a period, and by striking subparagraph (F).

(B) Subsection (b) of section 6038A is amended by adding "and" at the end of paragraph (2), by striking ", and" at the end of paragraph (3) and inserting a period, and by striking paragraph (4).

(g) TREATMENT OF ASSIGNMENT OF INTEREST IN CERTAIN BOND-FINANCED FACILITIES.—

(1) IN GENERAL.—Subparagraph (A) of section 1317(3) of the Tax Reform Act of 1986 is amended by adding at the end thereof the following new sentence: "A facility shall not fail to be treated as described in this subparagraph by reason of an assignment (or an agreement to an assignment) by the governmental unit on whose behalf the bonds are issued of any part of its interest in the property financed by such bonds to another governmental unit."

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect as if included in such section 1317 on the date of the enactment of the Tax Reform Act of 1986.

(h) CLARIFICATION OF TREATMENT OF MEDICARE ENTITLEMENT UNDER COBRA PROVISIONS.—

(1) IN GENERAL.—

(A) Subclause (V) of section 4980B(f)(2)(B)(i) is amended to read as follows:

"(V) MEDICARE ENTITLEMENT FOLLOWED BY QUALIFYING EVENT.—In the case of a qualifying event described in paragraph (3)(B) that occurs less than 18 months after the date the covered employee became entitled to benefits under title XVIII of the Social Security Act, the period of coverage for qualified beneficiaries other than the covered employee shall not terminate under this clause before the close of the 36-month period beginning on the date the covered employee became so entitled."

(B) Clause (v) of section 602(2)(A) of the Employee Retirement Income Security Act of 1974 is amended to read as follows:

"(v) MEDICARE ENTITLEMENT FOLLOWED BY QUALIFYING EVENT.—In the case of a qualifying event described in section 603(2) that occurs less than 18 months after the date the covered employee became entitled to benefits under title XVIII of the Social Security Act, the period of coverage for qualified beneficiaries other than the covered employee shall not terminate under this subparagraph before the close of the 36-month period beginning on the date the covered employee became so entitled."

(C) Clause (iv) of section 2202(2)(A) of the Public Health Service Act is amended to read as follows:

"(iv) MEDICARE ENTITLEMENT FOLLOWED BY QUALIFYING EVENT.—In the case of a qualifying event described in section 2203(2) that occurs less than 18 months after the date the covered employee became entitled to benefits under title XVIII of the Social Security Act, the period of coverage for qualified beneficiaries other than the covered employee shall not terminate under this subparagraph before the close of the 36-month period beginning on the date the covered employee became so entitled."

(2) EFFECTIVE DATE.—The amendments made by this subsection shall apply to plan years beginning after December 31, 1989.

(i) MISCELLANEOUS CLERICAL AMENDMENTS.—

(1) Subclause (II) of section 56(g)(4)(C)(ii) is amended by striking "of the subclause" and inserting "of subclause".

(2) Paragraph (2) of section 72(m) is amended by inserting "and" at the end of subparagraph (A), by striking subparagraph (B), and by redesignating subparagraph (C) as subparagraph (B).

(3) Paragraph (2) of section 86(b) is amended by striking "adusted" and inserting "adjusted".

(4)(A) The heading for section 112 is amended by striking "**COMBAT PAY**" and inserting "**COMBAT ZONE COMPENSATION**".

(B) The item relating to section 112 in the table of sections for part III of subchapter B of chapter 1 is amended by striking "combat pay" and inserting "combat zone compensation".

(C) Paragraph (1) of section 3401(a) is amended by striking "combat pay" and inserting "combat zone compensation".

(5) Clause (i) of section 172(h)(3)(B) is amended by striking the comma at the end thereof and inserting a period.

(6) Clause (ii) of section 543(a)(2)(B) is amended by striking "section 563(c)" and inserting "section 563(d)".

(7) Paragraph (1) of section 958(a) is amended by striking "sections 955(b)(1)(A) and (B), 955(c)(2)(A)(ii), and 960(a)(1)" and inserting "section 960(a)(1)".

(8) Subparagraph (B) of section 4092(b)(1) is amended by striking "or" at the end of clause (i).

(9) Subsection (g) of section 642 is amended by striking "under 2621(a)(2)" and inserting "under section 2621(a)(2)".

(10) Section 1463 is amended by striking "this subsection" and inserting "this section".

(11) Subsection (k) of section 3306 is amended by inserting a period at the end thereof.

(12) The item relating to section 4472 in the table of sections for subchapter B of chapter 36 is amended by striking "and special rules".

(13) Paragraph (2) of section 4978(b) is amended by striking the period at the end of subparagraph (A) and inserting a comma, and by striking the period and quotation marks at the end of subparagraph (B) and inserting a comma.

(14) Paragraph (3) of section 5134(c) is amended by striking "section 6662(a)" and inserting "section 6665(a)".

(15) Paragraph (2) of section 5206(f) is amended by striking "section 5(e)" and inserting "section 105(e)".

(16) Paragraph (1) of section 6050B(c) is amended by striking "section 85(c)" and inserting "section 85(b)".

(17) Subsection (k) of section 6166 is amended by striking paragraph (6).

(18) Subsection (e) of section 6214 is amended to read as follows:

"(e) CROSS REFERENCE.—

"For provision giving Tax Court jurisdiction to order a refund of an overpayment and to award sanctions, see section 6512(b)(2)."

(19) The section heading for section 6043 is amended by striking the semicolon and inserting a comma.

(20) The item relating to section 6043 in the table of sections for subpart B of part III of subchapter A of chapter 61 is amended by striking the semicolon and inserting a comma.

(21) The table of sections for part I of subchapter A of chapter 68 is amended by striking the item relating to section 6662.

(22)(A) Section 7232 is amended—

(i) by striking "**LUBRICATING OIL,**" in the heading, and

(ii) by striking "lubricating oil," in the text.

(B) The table of sections for part II of subchapter A of chapter 75 is amended by striking "lubricating oil," in the item relating to section 7232.

(23) Paragraph (1) of section 6701(a) of the Omnibus Budget Reconciliation Act of 1989 is amended by striking "subclause (IV)" and inserting "subclause (V)".

(24) Clause (ii) of section 7304(a)(2)(D) of such Act is amended by striking "subsection (c)(2)" and inserting "subsection (c)".

(25) Paragraph (1) of section 7646(b) of such Act is amended by striking "section 6050H(b)(1)" and inserting "section 6050H(b)(2)".

(26) Paragraph (10) of section 7721(c) of such Act is amended by striking "section 6662(b)(2)(C)(ii)" and inserting "section 6661(b)(2)(C)(ii)".

(27) Subparagraph (A) of section 7811(i)(3) of such Act is amended by inserting "the first place it appears" before "in clause (i)".

(28) Paragraph (10) of section 7841(d) of such Act is amended by striking "section 381(a)" and inserting "section 381(c)".

(29) Paragraph (2) of section 7861(c) of such Act is amended by inserting "the second place it appears" before "and inserting".

(30) Paragraph (1) of section 460(b) is amended by striking "the look-back method of paragraph (3)" and inserting "the look-back method of paragraph (2)".

(31) The heading for paragraph (2) of section 6427(b) is amended by striking "3-CENT" and inserting "3.1-CENT".

TITLE II—MEDICARE MISCELLANEOUS AND TECHNICAL AMENDMENTS

SEC. 200. REFERENCES TO OBRA-1990; EFFECTIVE DATE.

(a) REFERENCES TO OMNIBUS BUDGET RECONCILIATION ACT OF 1990.—In this title, the term "OBRA-1990" means the Omnibus Budget Reconciliation Act of 1990.

(b) EFFECTIVE DATE.—Except where otherwise provided, the amendments made by this title and the provisions of this title shall take effect as if included in the enactment of the Omnibus Budget Reconciliation Act of 1990.

Subtitle A—Amendments Relating to Part A of the Medicare Program

SEC. 201. EXCLUDING DISTINCT PSYCHIATRIC AND REHABILITATION UNITS FROM ADJUSTMENT TO PAYMENT AMOUNTS FOR PPS-EXEMPT HOSPITALS (SECTION 4005 OF OBRA-1990).

(a) IN GENERAL.—Section 1886(b)(1)(B)(ii) of the Social Security Act (42 U.S.C. 1395ww(b)(1)(B)(ii)), as amended by section 4005(a)(1) of OBRA-1990, is amended by striking "(ii) in the case of" and inserting "(ii) for a hospital that is not a subsection (d) hospital (other than a unit of a hospital described in subsection (d)(1)(B)(ii)), in the case of".

(b) CONFORMING AMENDMENT.—Section 1886(d)(1)(B) of such Act (42 U.S.C. 1395ww(d)(1)(B)) is amended—

(1) in clause (i), by striking "1861(f)," and inserting "1861(f)) or a rehabilitation hospital (as defined by the Secretary),";

(2) by amending clause (ii) to read as follows:

"(ii) in accordance with regulations of the Secretary, a psychiatric or rehabilitation unit of the hospital which is a distinct part of the hospital (as defined by the Secretary),"; and

(3) by striking the semicolon at the end of clause (v) and all that follows and inserting a period.

SEC. 202. CLARIFICATION OF DRG PAYMENT WINDOW EXPANSION (SECTION 4003 OF OBRA-1990).

(a) APPLICATION TO WHOLLY OWNED ENTITIES.—Section 1886(a)(4) of the Social Security Act (42 U.S.C. 1395ww(a)(4)), as amended by section 4003(a) of OBRA-1990, is amended—

(1) in the first sentence, by striking "wholly owned or operated by" and inserting "related to"; and

(2) by adding at the end the following new sentence: "In the first sentence of this paragraph, an entity is 'related to' a hospital if the hospital is to a significant extent associated or affiliated with or has control of or is controlled by the entity.".

(b) NON-APPLICATION TO PPS-EXEMPT HOSPITALS.—The first sentence of section 1886(a)(4) of such Act (42 U.S.C. 1395ww(a)(4)) is further amended by striking "and includes" and inserting "and (in the case of a subsection (d) hospital) includes".

SEC. 203. ESSENTIAL ACCESS COMMUNITY HOSPITAL PROGRAM.

(a) INCREASING NUMBER OF PARTICIPATING STATES.—Section 1820(a)(1) of the Social Security Act (42 U.S.C. 1395i-4(a)(1)) is amended by striking "7" and inserting "9".

(b) PERMITTING DESIGNATION OF HOSPITALS LOCATED IN URBAN AREAS.—Section 1820 of the Social Security Act (42 U.S.C. 1395i-4) is amended—

(1) by striking paragraph (1) of subsection (e) and redesignating paragraphs (2) through (6) as paragraphs (1) through (5); and

(2) in subsection (e)(1)(A) (as redesignated by paragraph (1)—

(A) by striking ", (ii)" and inserting "or (ii)",

(B) by striking "or (iii)" and all that follows through "section,", and

(C) in subsection (i)(1)(B), by striking "paragraph (3)" and inserting "paragraph (2)".

(c) PERMITTING HOSPITALS LOCATED IN ADJOINING STATES TO PARTICIPATE IN STATE PROGRAM.—

(1) IN GENERAL.—Section 1820 of such Act (42 U.S.C. 1395i-4) is amended—

(A) by redesignating subsection (k) as subsection (l); and

(B) by inserting after subsection (j) the following new subsection:

"(k) ELIGIBILITY OF HOSPITALS NOT LOCATED IN PARTICIPATING STATES.—Notwithstanding any other provision of this section—

"(1) for purposes of including a hospital or facility as a member institution of a rural health network, a State may designate a hospital or facility that is not located in the State as an essential access community hospital or a rural primary care hospital if the hospital or facility is located in an adjoining State and is otherwise eligible for designation as such a hospital; and

"(2) the Secretary may designate a hospital or facility that is not located in a State receiving a grant under subsection (a)(1) as an essential access community hospital or a rural primary care hospital if the hospital or facility is a member institution of a rural health network of a State receiving a grant under such subsection.

"(3) a hospital or facility designated by a State pursuant to paragraph (1) shall be eligible to receive a grant under subsection (a)(2).".

(2) CONFORMING AMENDMENT.—Section 1820(c)(1) of such Act (42 U.S.C. 1395i-4(c)(1)) is amended by striking "paragraph (3)" and inserting "paragraph (3) or subsection (k)".

(d) CLARIFICATION OF PHYSICIAN STAFFING REQUIREMENT FOR RURAL PRIMARY CARE HOSPITALS.—Section 1820(f)(1)(H) of such Act (42 U.S.C. 1395i-4(f)(1)(H)) is amended by striking the period and inserting the following: ", except that in determining whether a facility meets the requirements of this subparagraph, subparagraphs (E) and (F) of that paragraph shall be applied as if any reference to a 'physician' is a reference to a physician as defined in section 1861(r)(1).".

(e) MISCELLANEOUS TECHNICAL AMENDMENTS.—(1) Section 1812(a)(1) of such Act (42 U.S.C. 1395d(a)(1)) is amended—

(A) by striking "inpatient hospital services" the first place it appears and inserting "inpatient hospital services or inpatient rural primary care hospital services";

(B) by striking "inpatient hospital services" the second place it appears and inserting "such services"; and

(C) by striking "and inpatient rural primary care hospital services".

(2) Sections 1813(a) and 1813(b)(3)(A) of such Act (42 U.S.C. 1395e(a), 1395e(b)(3)(A)) are each amended by striking "inpatient hospital services" each place it appears and inserting "inpatient hospital services or inpatient rural primary care hospital services".

(3) Section 1813(b)(3)(B) of such Act (42 U.S.C. 1395e(b)(3)(B)) is amended by striking "inpatient hospital services" and inserting "inpatient hospital services, inpatient rural primary care hospital services".

(4) Section 1861(a) of such Act (42 U.S.C. 1395x(a)) is amended—

(A) in paragraphs (1), by striking "inpatient hospital services" and inserting "inpatient hospital services, inpatient rural primary care hospital services"; and

(B) in paragraph (2), by striking "hospital" and inserting "hospital or rural primary care hospital".

SEC. 204. CARE OF PATIENTS RECEIVING QUALIFIED PSYCHOLOGIST SERVICES.

Section 1861(e)(4) of the Social Security Act (42 U.S.C. 1395x(e)(4)) is amended by striking "physician;" and inserting "physician, except that a patient receiving qualified psychologist services (as defined in subsection (ii)) may be under the care of a clinical psychologist with respect to such services to the extent permitted under State law;".

SEC. 205. TREATMENT OF CERTAIN MILITARY FACILITIES.

(a) COVERAGE OF SERVICES PROVIDED IN CERTAIN UNIFORMED SERVICES TREATMENT FACILITIES.—

(1) IN GENERAL.—The Secretary of Health and Human Services may not take any action to recover amounts that were paid by the United States under title XVIII of the Social Security Act to the facilities described in paragraph (2) (or to other individuals or entities with whom such facilities had entered into agreements to provide services under such title) for services provided during the period beginning October 1, 1986, and ending December 31, 1989.

(2) FACILITIES DESCRIBED.—The facilities referred to in paragraph (1) are the hospitals described in section 248c of title 42, United States Code, that are located in Boston, Massachusetts; Baltimore, Maryland; and Seattle, Washington.

(b) STUDY OF JOINT MEDICAL FACILITY.—

(1) STUDY.—The Secretary of Health and Human Services, in consultation with the Secretary of Defense, shall conduct a study of the feasibility and desirability of establishing a joint medical facility among the Department of Defense, the Department of Veterans' Affairs, and other public and private entities, and shall include in such study an analysis of the need to make changes in the medicare and medicaid programs (including facility certification standards under such programs) in order to facilitate the establishment of such joint medical facility.

(2) REPORT.—Not later than June 1, 1992, the Secretary of Health and Human Services shall submit a report on the study conducted under paragraph (1) to the Committee on Finance of the Senate and the Committees on Ways and Means and Energy and Commerce of the House of Representatives.

SEC. 206. TECHNICAL CORRECTION RELATING TO NURSING HOME REFORM (SECTION 4008 OF OBRA-1990).

Section 1819(b)(3)(C)(i)(I) of the Social Security Act (42 U.S.C. 1395i-3(b)(3)(C)(i)(I)), as amended by section 4008(h)(2)(C) of OBRA-1990, is amended by striking "not later than" before "14 days".

Subtitle B—Amendments Relating to Part B of the Medicare Program

SEC. 211. PHYSICIAN PAYMENT PROVISIONS (SECTIONS 4101 THROUGH 4118 OF OBRA-1990).

(a) OVERVALUED PROCEDURES (SECTION 4101 OF OBRA-1990).—(1) Section 1842(b)(16)(B)(iii) of the Social Security Act, as added by section 4101(b) of OBRA-1990, is amended—

(A) by striking ", simple and subcutaneous",

(B) by striking "; small" and inserting "and small",

(C) by striking "treatments;" the first place it appears and inserting "and",

(D) by striking "lobectomy;",

(E) by striking "enterectomy; colectomy; cholecystectomy;",

(F) by striking "; transurerethral resection" and inserting "and resection", and

(G) by striking "sacral laminectomy;".

(2) Section 4101(b)(2) of OBRA-1990 is amended—

(A) in the matter before subparagraph (A), by striking "1842(b)(16)" and inserting "1842(b)(16)(B)", and

(B) in subparagraph (B)—

(i) by striking ", simple and subcutaneous",

(ii) by striking "(HCPCS codes 19160 and 19162)" and inserting "(HCPCS code 19160)", and

(iii) by striking all that follows "(HCPCS codes 92250" and inserting "and 92260).".

(b) RADIOLOGY SERVICES (SECTION 4102 OF OBRA-1990).—(1) Section 1834(b)(4) of the Social Security Act is amended by redesignating subparagraphs (E) and (F) (as previously redesignated by section 4102(a)(1) of OBRA-1990) as subparagraphs (F) and (G), respectively.

(2) Section 1834(b)(4)(D) of the Social Security Act, as inserted by section 4102(a)(2) of OBRA-1990, is amended—

(A) in the matter before clause (i), by striking "shall be determined as follows:" and inserting "shall, subject to clause (vii), be reduced to the adjusted conversion factor for the locality determined as follows:",

(B) in clause (iv), by striking "LOCAL ADJUSTMENT.—Subject to clause (vii), the conversion factor to be applied to" and inserting "ADJUSTED CONVERSION FACTOR.—The adjusted conversion factor for",

(C) in clause (vii), by striking "under this subparagraph", and

(D) in clause (vii), by inserting "reduced under this subparagraph by" after "shall not be".

(3) Section 4102(c)(2) of OBRA-1990 is amended by striking "radiology services" and all that follows and inserting "nuclear medicine services".

(4) Section 4102(d) of OBRA-1990 is amended by striking "new paragraph" and inserting "new subparagraph".

(5) Section 1834(b)(4)(E) of the Social Security Act, as inserted by section 4102(d) of OBRA-1990, is amended by inserting "RULE FOR CERTAIN SCANNING SERVICES.—" after "(E)".

(6) Section 1848(a)(2)(D)(iii) of the Social Security Act, as added by section 4102(g)(2)(B) of OBRA-1990, is amended by striking "that are subject to section 6105(b) of the Omnibus Budget Reconciliation Act of 1989" and by striking "provided under such section" and inserting "provided under section 6105(b) of the Omnibus Budget Reconciliation Act of 1989".

(c) ANESTHESIA SERVICES (SECTION 4103 OF OBRA-1990).—(1) Section 4103(a) of OBRA-1990 is amended by striking "REDUCTION IN FEE SCHEDULE" and inserting "REDUCTION IN PREVAILING CHARGES".

(2) Section 1842(q)(1)(B) of the Social Security Act, as inserted by section 4103(a)(2) of OBRA-1990, is amended—

(A) in the matter before clause (i), by striking "shall be determined as follows:" and inserting "shall, subject to clause (iv), be reduced to the adjusted prevailing charge conversion factor for the locality determined as follows:", and

(B) in clause (iii), by striking "Subject to clause (iv), the prevailing charge conversion factor to be applied in" and inserting "The adjusted prevailing charge conversion factor for".

(d) ASSISTANTS AT SURGERY (SECTION 4107 OF OBRA-1990).—(1) Section 1848(i)(2)(B) of the Social Security Act, as added by section 4107(a)(1) of OBRA-1990, is amended by striking "performed under this part" and inserting "paid under this part".

(2) Section 4107(c) of OBRA-1990 is amended by inserting "(a)(1)" after "subsection".

(3) Section 4107(a)(2) of OBRA-1990 is amended by adding at the end the following: "In applying section 1848(g)(2)(D) of the Social Security Act for services of an assistant-at-surgery furnished during 1991, the recognized payment amount shall not exceed the maximum amount specified under section 1848(i)(2)(A) of such Act (as applied under this paragraph in such year).".

(e) TECHNICAL COMPONENTS OF DIAGNOSTIC SERVICES (SECTION 4108 OF OBRA-1990).—Section 1842(b) of the Social Security Act is amended by redesignating paragraph (18), as added by section 4108(a) of OBRA-1990, as paragraph (17) and, in such paragraph, by inserting ", tests specified in paragraph (14)(C)(i)," after "diagnostic laboratory tests".

(f) STATEWIDE FEE SCHEDULES (SECTION 4117 OF OBRA-1990).—Section 4117 of OBRA-1990 is amended—

(1) in subsection (a)—

(A) by striking "IN GENERAL.—", and

(B) by striking ", if the" and all that follows through "1991, "; and

(2) by striking subsections (b), (c), and (d).

(g) Reciprocal Billing Arrangements (Section 4110 of OBRA-1990).—Clause (D) of section 1842(b)(6) of the Social Security Act, as inserted by section 4110(a)(2) of OBRA-1990), is amended to read as follows: "(D) payment may be made to a physician for physicians' services (and services furnished incident to such services) furnished by a second physician to patients of the first physician if (i) the first physician is unavailable to provide the services; (ii) the services are furnished pursuant to an arrangement between the two physicians that (I) is informal and reciprocal, or (II) involves per diem or other fee-for-time compensation for such services; (iii) the services are not provided by the second physician over a continuous period of more than 60 days; and (iv) the claim form submitted to the carrier for such services includes the second physician's unique identifier (provided under the system established under subsection (r)) and indicates that the claim meets the requirements of this clause for payment to the first provider".

(h) Study of Aggregation Rule for Claims of Similar Physician Services (Section 4113 of OBRA-1990).—Section 4113 of OBRA-1990 is amended—

(1) by inserting "of the Social Security Act" after "1869(b)(2)"; and

(2) by striking "December 31, 1992" and inserting "December 31, 1993".

(i) Other Miscellaneous and Technical Amendments.—(1) The heading of section 1834(f) of the Social Security Act (42 U.S.C. 1395m(f)), as amended by section 4104(a) of OBRA-1990, is amended by striking "Fiscal Year".

(2)(A) Section 4105(b) of OBRA-1990 is amended—

(i) in paragraph (2), by striking "amendments" and inserting "amendment", and

(ii) in paragraph (3), by striking "amendments made by paragraphs (1) and (2)" and inserting "amendment made by paragraph (1)".

(B) Section 1848(f)(2)(C) of the Social Security Act (42 U.S.C. 1395w-4(f)(2)(C)), as added by section 4105(c)(2) of OBRA-1990, is amended by inserting "Performance standard rates of increase for fiscal year 1991.—" after "(C)".

(C) Section 4105(d) of OBRA-1990 is amended by inserting "Publication of performance standard rates.—" after "(d)".

(3) Section 1842(b)(4)(F) of the Social Security Act (42 U.S.C. 1395u(b)(4)(F)), as amended by section 4106(a)(1) of OBRA-1990, is amended—

(A) in clause (i), by striking "prevailing charge" the first place it appears and inserting "customary charge"; and

(B) in clause (ii)(III), by striking "second, third, and fourth" and inserting "first, second, and third".

(4) Section 1842(b)(4)(F)(ii)(I) of the Social Security Act (42 U.S.C. 1395u(b)(4)(F)(ii)(I)), as amended by section 4106(a)(1) of OBRA-1990, is amended by striking "respiratory therapist,".

(5) Section 4106(c) of OBRA-1990 is amended by inserting "of the Social Security Act" after "1848(d)(1)(B)".

(6) Section 4114 of OBRA-1990 is amended by striking "patients" the second place it appears.

(7) Section 1848(e)(1)(C) of the Social Security Act, as added by section 4118(c)(2) of OBRA-1990, is amended by inserting "date of the" after "since the".

(8) Section 4118(f)(1)(D) of OBRA-1990 is amended by striking "is amended".

(9) Section 4116(f)(1)(N)(ii) of such Act is amended by striking "subsection (f)(5)(A)" and inserting "subsection (f)(5)(A))".

(10) Section 1845(e) of the Social Security Act (42 U.S.C. 1395w-1(e)), as amended by section 4118(j)(1)(D) of OBRA-1990, is amended—

(A) by striking paragraph (2); and

(B) by redesignating paragraphs (3), (4), and (5) as paragraphs (2), (3), and (4).

(11) Section 4118(j)(2) of OBRA-1990 is amended by striking "In section" and inserting "Section".

(12)(A) Section 1848(i)(3) of the Social Security Act, as added by section 4118(k) of OBRA-1990, is amended by striking the space before the period at the end.

(B) Section 1834(a)(10)(B) of the Social Security Act is amended by striking "as such provisions apply to physicians' services and physicians and a reasonable charge under section 1842(b)".

SEC. 212. SERVICES FURNISHED IN AMBULATORY SURGICAL CENTERS (SECTION 4151 OF OBRA-1990).

(a) Payment Amounts for Services Furnished in Ambulatory Surgical Centers.—(1)(A) Section 1833(i)(2)(A)(i) of the Social Security Act (42 U.S.C. 1395l(i)(2)(A)(i)) is amended by striking the comma at the end and inserting the following: ", as determined in accordance with a survey (based upon a representative sample of procedures and facilities) taken not later than July 1, 1993, and every 5 years thereafter, of the actual audited costs incurred by such centers in providing such services,".

(B) Section 1833(i)(2) of such Act (42 U.S.C. 1395l(i)(2)) is amended—

(i) in the second sentence of subparagraph (A) and the second sentence of subparagraph (B), by striking "and may be adjusted by the Secretary, when appropriate,"; and

(ii) by adding at the end the following new subparagraph:

"(C) Notwithstanding the second sentence of subparagraph (A) or the second sentence of subparagraph (B), if the Secretary has not updated amounts established under such subparagraphs with respect to facility services furnished during a fiscal year (beginning with fiscal year 1994), such amounts shall be increased by the percentage increase in the consumer price index for all urban consumers (U.S. city average) for the 12-month period ending with March of the preceding fiscal year.".

(C) The second sentence of section 1833(i)(1) of such Act (42 U.S.C. 1395l(i)(1)) is amended by striking the period and inserting the following: ", in consultation with appropriate trade and professional organizations.".

(2) Section 4151(c)(3) of OBRA-1990 is amended by striking "for the insertion of an intraocular lens" and inserting "for an intraocular lens inserted".

(b) Adjustments to Payment Amounts for New Technology Intraocular Lenses.—(1) Not later than 1 year after the date of the enactment of this Act, the Secretary of Health and Human Services (hereafter referred to as the "Secretary") shall develop and implement a process under which interested parties may request review by the Secretary of the appropriateness of the reimbursement amount provided under section 1833(i)(2)(A)(iii) of the Social Security Act with respect to a class of new technology intraocular lenses. For purposes of the preceding sentence, an intraocular lens may not be treated as a new technology lens unless it has been approved by the Food and Drug Administration.

(2) In determining whether to provide an adjustment of payment with respect to a particular lens under paragraph (1), the Secretary shall take into account whether use of the lens is likely to result in reduced risk of intraoperative or postoperative complication or trauma, accelerated postoperative recovery, reduced induced astigmatism, improved postoperative visual acuity, more stable postoperative vision, or other comparable clinical advantages.

(3) The Secretary shall publish notice in the Federal Register from time to time (but no less often than once each year) of a list of the requests that the Secretary has received for review under this subsection, and shall provide for a 30-day comment period on the lenses that are the subjects of the requests contained in such notice. The Secretary shall publish a notice of his determinations with respect to intraocular lenses listed in the notice within 90 days after the close of the comment period.

(4) Any adjustment of a payment amount (or payment limit) made under this subsection shall become effective not later than 30 days after the date on which the notice with respect to the adjustment is published under paragraph (3).

SEC. 213. DURABLE MEDICAL EQUIPMENT (SECTION 4152 OF OBRA-1990).

(a) Updates to Payment Amounts.—Subparagraph (A) of section 1834(a)(14) of the Social Security Act, as added by section 4152(b)(4) of OBRA-1990, is amended to read as follows:

"(A) for 1991 and 1992, the percentage increase in the consumer price index for all urban consumers (U.S. city average) for the 12-month period ending with June of the previous year reduced by 1 percentage point; and".

(b) Treatment of Potentially Overused Items and Advanced Determinations of Coverage.—(1) Effective on the date of the enactment of this Act, section 1834(a)(15) of the Social Security Act, as added by section 4152(e) of OBRA-1990, is amended to read as follows:

"(15) Special treatment for potentially overused items.—

"(A) Development of list of items by secretary.—The Secretary shall develop and periodically update a list of items for which payment may be made under this subsection that are potentially overused, and shall include in such list seat-lift mechanisms, transcutaneous electrical nerve stimulators, motorized scooters, and any such other item determined by the Secretary to be potentially overused on the basis of any of the following criteria—

"(i) the item is marketed directly to potential patients;

"(ii) the item is marketed with an offer to potential patients to waive the costs of coinsurance associated with the item or is marketed as being available at no cost to policyholders of a medicare supplemental policy (as defined in section 1882(g)(1));

"(iii) the item has been subject to a consistent pattern of overutilization; or

"(iv) a high proportion of claims for payment for such item under this part may not be made because of the application of section 1862(a)(1).

"(B) Items subject to special carrier scrutiny.—Payment may not be made under this part for any item contained in the list developed by the Secretary under subparagraph (A) unless the carrier has subjected the claim for payment for the item to special scrutiny or has followed the procedures described in paragraph (11)(C) with respect to the item.".

(2) Effective January 1, 1992, section 1834(a)(11) of such Act (42 U.S.C. 1395m(a)) is amended by adding at the end the following new subparagraph:

"(C) Carrier determinations for certain items in advance.—A carrier shall determine in advance whether payment for an item may not be made under this subsection because of the application of section 1862(a)(1) if—

"(i) the item is a customized item (other than inexpensive items specified by the Secretary); or

"(ii) the item is a specified covered item under subparagraph (B).".

(3) Section 1842(c) of such Act (42 U.S.C. 1395u(c)) is amended by adding at the end the following new paragraph:

"(4) Each contract under this section which provides for the disbursement of funds, as described in subsection (a)(1)(B), shall require the carrier to meet criteria developed by the Secretary to measure the timeliness of carrier responses to requests for payment of items described in section 1834(a)(11)(C).".

(4) Section 1834(h)(3) of such Act, as added by section 4153(a) of OBRA-1990, is amended by striking "paragraph (10) and paragraph (11)" and inserting "paragraphs (10) and (11)".

(c) Study of Variations in Durable Medical Equipment Supplier Costs.—

(1) Collection and analysis of supplier cost data.—The Administrator of the Health Care Financing Administration shall, in consultation with appropriate organizations, collect data on supplier costs of durable medical equipment for which payment may be made under part B of the medicare program, and shall analyze such data to determine the proportions of such costs attributable to the service and product components of furnishing such equipment and the extent to which such proportions vary by type of equipment and by the geographic region in which the supplier is located.

(2) Development of geographic adjustment index; reports.—Not later than January 1, 1993—

(A) the Administrator shall submit a report to the Committees on Energy and Commerce and Ways and Means of the House of Representatives and the Committee on Finance of the Senate on the data collected and the analysis conducted under subparagraph (A), and shall include in such report the Administrator's recommendations for a geographic cost adjustment index for suppliers of durable medical equipment under the medicare program and an analysis of the impact of such proposed index on payments under the medicare program; and

(B) the Comptroller General shall submit a report to the Committees on Energy and Commerce and Ways and Means of the House of Representatives and the Committee on Finance of the Senate analyzing on a geographic basis the supplier costs of durable medical equipment under the medicare program.

(A) by striking "12907(c)(4)(A)" and inserting "4207(b)(4)(B)(i)", and

(B) by striking "feasibilitly" and inserting "feasibility".

(9) Section 4207(b)(4)(B)(iii)(III) of OBRA-1990 is amended by striking the period at the end and inserting a semicolon.

(10) Subsections (c)(3) and (e) of section 2355 of the Deficit Reduction Act of 1984, as amended by section 4207(b)(4)(B) of OBRA-1990, are each amended by striking "12907(c)(4)(A)" each place it appears and inserting "4207(b)(4)(B)".

(11) Section 4207(c)(2) of OBRA-1990 is amended by striking "the Committee on Ways and Means" each place it appears and inserting "the Committees on Ways and Means and Energy and Commerce".

(12) Section 4207(d) of OBRA-1990 is amended by redesignating the second paragraph (3) (relating to effective date) as paragraph (4).

(13) Section 4207(i)(2) of OBRA-1990 is amended—

(A) by striking the period at the end of clause (iii) and inserting a semicolon, and

(B) in clause (v), by striking "residents" and inserting "patients".

(14) Section 4207(j) of OBRA-1990 is amended by striking "title" each place it appears and inserting "subtitle".

Subtitle D—Medicare Supplemental Insurance Policies

SEC. 231. CORRECTIONS RELATING TO MEDICARE SUPPLEMENTAL INSURANCE POLICIES (SECTIONS 4351 THROUGH 4361 OF OBRA-1990).

(a) SIMPLIFICATION OF MEDICARE SUPPLEMENTAL POLICIES (SECTION 4351 OF OBRA-1990).—

(1) Section 4351 of OBRA-1990 is amended by striking "(a) IN GENERAL.—".

(2) Section 1882(p) of the Social Security Act, as added by section 4351 of OBRA-1990, is amended—

(A) in paragraph (1)(A)—

(i) by striking "promulgates" and inserting "changes the revised NAIC Model Regulation (described in subsection (m)) to incorporate",

(ii) by striking "(such limitations, language, definitions, format, and standards referred to collectively in this subsection as 'NAIC standards')", and

(iii) by striking "included a reference to the NAIC standards" and inserting "were a reference to the revised NAIC Model Regulation as changed under this subparagraph (such changed regulation referred to in this section as the '1991 NAIC Model Regulation')";

(B) in paragraph (1)(B)—

(i) by striking "promulgate NAIC standards" and inserting "make the changes in the revised NAIC Model Regulation",

(ii) by striking "limitations, language, definitions, format, and standards described in clauses (i) through (iv) of such subparagraph (in this subsection referred to collectively as 'Federal standards')" and inserting "a regulation", and

(iii) by striking "included a reference to the Federal standards" and inserting "were a reference to the revised NAIC Model Regulation as changed by the Secretary under this subparagraph (such changed regulation referred to in this section as the '1991 Federal Regulation')";

(C) in paragraph (1)(C)(i), by striking "NAIC standards or the Federal standards" and inserting "1991 NAIC Model Regulation or 1991 Federal Regulation";

(D) in paragraphs (1)(C)(ii)(I), (1)(E), (2), and (9)(B), by striking "NAIC or Federal standards" and inserting "1991 NAIC Model Regulation or 1991 Federal Regulation";

(E) in paragraph (2)(C), by striking "(5)(B)" and inserting "(4)(B)";

(F) in paragraph (4)(A)(i), by inserting "or paragraph (6)" after "(B)";

(G) in paragraph (4), by striking "applicable standards" each place it appears and inserting "applicable 1991 NAIC Model Regulation or 1991 Federal Regulation";

(H) in paragraph (6), by striking "in regard to the limitation of benefits described in paragraph (4)" and inserting "described in clauses (i) through (iii) of paragraph (1)(A)";

(I) in paragraph (7), by striking "policyholder" and inserting "policyholders";

(J) in paragraph (8), by striking "after the effective date of the NAIC or Federal standards with respect to the policy, in violation of the previous requirements of this subsection" and inserting "on and after the effective date specified in paragraph (1)(C) (but subject to paragraph (10)), in violation of the applicable 1991 NAIC Model Regulation or 1991 Federal Regulation insofar as such regulation relates to the requirements of subsection (o) or (q) or clause (i), (ii), or (iii) of paragraph (1)(A)";

(K) in paragraph (9), by adding at the end the following new subparagraph:

"(D) Subject to paragraph (10), this paragraph shall apply to sales of policies occurring on or after the effective date specified in paragraph (1)(C)."; and

(L) in paragraph (10), by striking "this subsection" and inserting "paragraph (1)(A)(i)".

(3) The Secretary of Health and Human Services shall publish in the Federal Register a list described in section 1882(p)(10) of the Social Security Act by not later than December 31, 1991.

(4) For purposes of section 1882 of the Social Security Act, when the National Association of Insurance Commissioners modifies its 1991 NAIC Model Regulation (adopted in July 1991) to delete from section 15C the exception which begins with "unless", such modification shall be considered to be part of that Regulation under such section. If subsection (p)(1)(A) of such section is applicable, until the Association makes such modification, such section shall be applied as if such exception had been deleted. Any 1991 Federal Regulation adopted under such section shall not include such exception. If the Secretary of Health and Human Services identifies a State as requiring legislative action in order to conform its regulatory program to the modification described in this paragraph, the State regulatory program shall not be considered to be out of compliance with the requirements of such section due solely to failure to make such modification until the close of the first regular legislative session that begins after the date of the enactment of this Act.

(b) Guaranteed Renewability (Section 4352 of OBRA-1990).—Section 1882(q) of the Social Security Act, as added by section 4352 of OBRA-1990, is amended—

(1) in paragraph (2), by striking "paragraph (2)" and inserting "paragraph (4)", and

(2) in paragraph (4), by striking "the succeeding issuer" and inserting "issuer of the replacement policy".

(c) Enforcement of Standards (Section 4353 of OBRA-1990).—

(1) Section 1882(a)(2) of the Social Security Act, as added by section 4353(a)(2)(B) of OBRA-1990, is amended—

(A) in subparagraph (A), by striking "NAIC standards or the Federal standards" and inserting "1991 NAIC Model Regulation or 1991 Federal Regulation", and

(B) by striking "after the effective date of the NAIC or Federal standards with respect to the policy" and inserting "on and after the effective date specified in subsection (p)(1)(C)".

(2) The sentence in section 1882(b)(1) of the Social Security Act added by section 4353(c)(5) of OBRA-1990 is amended—

(A) by striking "The report" and inserting "Each report",

(B) by inserting "and requirements" after "standards",

(C) by striking "and" after "compliance,", and

(D) by striking the comma after "Commissioners".

(3) Section 1882(g)(2)(B) of the Social Security Act is amended by striking "Panel" and inserting "Secretary".

(4) Section 1882(b)(1) of such Act is amended by striking "the the Secretary" and inserting "the Secretary".

(d) Preventing Duplication (Section 4354 of OBRA-1990).—

(1) Section 1882(d)(3)(A) of the Social Security Act, as amended by section 4354(a)(1) of OBRA-1990, is amended—

(A) by inserting before the first sentence the following:

"(i) Effective before January 1, 1994, it is unlawful for a person to sell or issue to an individual entitled to benefits under part A or enrolled under part B of this title—

"(I) a health insurance policy with knowledge that the policy duplicates health benefits to which the individual is otherwise entitled under this title or title XIX,

"(II) a medicare supplemental policy with knowledge that the individual is entitled to benefits under another medicare supplemental policy, or

"(III) a health insurance policy (other than a medicare supplemental policy) with knowledge that the policy duplicates health benefits to which the individual is otherwise entitled, other than benefits to which the individual is entitled under a requirement of State or Federal law.";

(B) by designating the current first sentence as clause (ii) and, in such clause, by striking "It is unlawful" and inserting "Effective January 1, 1994, it is unlawful";

(C) by designating the current second sentence as clause (iii) and, in such clause, by striking "the previous sentence" and inserting "clause (i) or (ii)";

(D) by designating the current third sentence as clause (iv) and, in such clause—

(i) by striking "the previous sentence" and inserting "clause (i) or (ii) with respect to the sale of a medicare supplemental policy", and

(ii) by striking "the sale of the policy will not duplicate health benefits to which the individual is otherwise entitled" and inserting "the individual is not entitled to benefits under another medicare supplemental policy"; and

(E) by striking the last sentence.

(2) Section 1882(d)(3)(B) of the Social Security Act, as amended by section 4354(a)(2) of OBRA-1990, is amended—

(A) in clause (i)(I), by striking "clause (II)" and inserting "clause (ii)",

(B) in clause (ii)(II), by striking "65 years of age or older",

(C) in clause (iii)(I), by striking "another medicare" and inserting "a medicare",

(D) in clause (iii)(I), by striking "such a policy" and inserting "a medicare supplemental policy",

(E) in clause (iii)(II), by striking "another policy" and inserting "a medicare supplemental policy", and

(F) by amending subclause (III) of clause (iii) to read as follows:

"(III) If the statement required by clause (i) is obtained and indicates that the individual is entitled to any medical assistance under title XIX, the sale of the policy is not in violation of clause (i) (insofar as such clause relates to such medical assistance), if a State medicaid plan under such title pays the premiums for the policy, or, in the case of a qualified medicare beneficiary described in section 1905(p)(1), if the State pays less than the individual's full liability for medicare cost-sharing (as defined in section 1905(p)(3)).".

(3)(A) Section 1882(d)(3)(C) of the Social Security Act is amended—

(i) by striking "the selling" and inserting "(i) the sale or issuance", and

(ii) by inserting before the period at the end the following: ", (ii) the sale or issuance before January 1, 1994, of a policy or plan described in subparagraph (A)(i)(I) (other than a medicare supplemental policy to an individual entitled to any medical assistance under title XIX) under which all the benefits are fully payable directly to or on behalf of the individual without regard to other health benefit coverage of the individual but only if there is disclosed in a prominent manner as part of the application a statement of the extent to which benefits payable under the policy or plan duplicate benefits under this title, or (iii) the sale or issuance before January 1, 1994, of a policy or plan described in subparagraph (A)(i)(III) under which all the benefits are fully payable directly to or on behalf of the individual without regard to other health benefit coverage of the individual".

(B) The requirement of a disclosure under section 1882(d)(3)(C)(ii) of the Social Security Act shall not apply to an application made for a policy or plan before 90 days after the date of the enactment of this Act.

(4) Subparagraphs (A) and (B) of section 1882(q)(5)(A) of the Social Security Act, as added by section 4354(b) of OBRA-1990, is amended by striking "of the Social Security Act".

(5) The second subsection (b) of section 4354 of OBRA-1990 (relating to effective date) is amended by redesignating such subsection as subsection (c).

(e) Loss Ratios and Refunds of Premiums (Section 4355 of OBRA-1990).—

(1) Section 1882(r) of the Social Security Act, as added by section 4355(a)(3) of OBRA-1990, is amended—

(A) in paragraph (1), by striking "or sold" and inserting "or renewed";

(B) in paragraph (1)(A), by inserting "for periods after the effective date of these provisions" after "the policy can be expected";

(C) in paragraph (1)(A), by striking "Commissioners," and inserting "Commissioners)";

(D) in paragraph (1)(B), by inserting before the period at the end the following: ", treating policies of the same type as a single policy for each standard package";

(E) by adding at the end of paragraph (1) the following: "For the purpose of calculating the refund or credit required under paragraph (1)(B) for a policy issued before the date specified in subsection (p)(1)(C), the refund or credit calculation shall be based on the aggregate benefits provided and premiums collected under all policies issued by an insurer in a State and shall be based only on aggregate benefits provided and premiums collected under the policies after such date.";

(F) in the first sentence of paragraph (2)(A), by striking "by policy number" and inserting "by standard package";

(G) by striking the second sentence of paragraph (2)(A) and inserting the following: "Paragraph (1)(B) shall not apply to a policy until 12 months following issue. In the case of a policy issued before the date specified in subsection (p)(1)(C), paragraph (1)(B) shall not apply until 12 months following such date.";

(H) in the last sentence of paragraph (2)(A), by striking "in order" and all that follows through "are effective";

(I) in paragraph (2), by striking "policy year" each place it appears and inserting "calendar year";

(J) in paragraph (4), by striking "disiIlowance", "loss-ratios", and "loss-ratio" and inserting "disallowance", "loss ratios", and "loss ratio", respectively;

(K) in paragraph (6)(A), by striking "issues a policy in violation of the loss ratio requirements of this subsection" and "such violation" and inserting "fails to provide refunds or credits as required in paragraph (1)(B)" and "policy issued for which such failure occurred", respectively; and

(L) in paragraph (6)(B), by striking "to policyholders" and inserting "to the policyholder or, in the case of a group policy, to the certificate holder".

(2) Section 1882(b)(1) of the Social Security Act is amended by transferring and inserting the subparagraph (G) added by section 4355(c)(3) of OBRA-1990 immediately after the subparagraph (F) added by section 4353(c)(3) of that Act.

(3) Section 4355(d) of OBRA-1990 is amended by striking "sold or issued" and all that follows and inserting "issued or renewed on or after the date specified in section 1882(p)(1)(C) of the Social Security Act.".

(f) Treatment of HMO's (Section 4356 of OBRA-1990).—

(1) Section 1882(g)(1) of the Social Security Act, as amended by section 4356(a) of OBRA-1990, is amended by striking "a health maintenance organization or other direct service organization" and all that follows through "1833" and inserting "an eligible organization (as defined in section 1876(b)) if the policy or plan provides benefits pursuant to a contract under section 1876 or an approved demonstration project described in section 603(c) of the Social Security Amendments of 1983, section 2355 of the Deficit Reduction Act of 1984, or section 9412(b) of the Omnibus Budget Reconciliation Act of 1986 or, during the 1-year period beginning on the date specified in subsection (p)(1)(C), a policy or plan of an organization if the policy or plan provides benefits pursuant to an agreement under section 1833(a)(1)(A)".

(2) Section 4356(b) of OBRA-1990 is amended by striking "on the date of the enactment of this Act" and inserting "on the date specified in section 1882(p)(1)(C) of the Social Security Act".

(g) Pre-Existing Condition Limitations (Section 4357 of OBRA-1990).—Section 1882(s) of the Social Security Act, as added by section 4357(a)(2) of OBRA-1990, is amended—

(1) in paragraph (2)(A), by striking "for which an application is submitted" and inserting "in the case of an individual for whom an application is submitted prior to or", and

(2) in paragraph (2)(B), by striking "before it" and inserting "before the policy".

(h) Medicare Select Policies (Section 4358 of OBRA-1990).—

(1) Section 1882(t) of the Social Security Act, as added by section 4358(a) of OBRA-1990, is amended—

(A) in paragraph (1), by inserting "medicare supplemental" after "If a",

(B) in paragraph (1), by striking "NAIC Model Standards" and inserting "1991 NAIC Model Regulation or 1991 Federal Regulation",

(C) in paragraph (1)(A), by inserting "or agreements" after "contracts",

(D) in subparagraphs (E)(i) and (F) of paragraph (1), by striking "NAIC standards" and inserting "standards in the 1991 NAIC Model Regulation or 1991 Federal Regulation", and

(E) in paragraph (2), by inserting "the issuer" before "is subject to a civil money penalty".

(2) Section 1154(a)(4)(B) of the Social Security Act, as amended by section 4358(b)(3) of OBRA-1990, is amended—

(A) by inserting "that is" after "(or", and

(B) by striking "1882(t)" and inserting "1882(t)(3)".

(i) Health Insurance Counseling (Section 4360 of OBRA-1990).—Section 4360 of OBRA-1990 is amended—

(1) in subsection (b)(2)(A)(ii), by striking "Act" and inserting "Act)";

(2) in subsection (b)(2)(D), by striking "services" and inserting "counseling";

(3) in subsection (b)(2)(I), by striking "assistance" and inserting "referrals";

(4) in subsection (c)(1), by striking "and that such activities will continue to be maintained at such level";

(5) in subsection (d)(3), by striking "to the rural areas" and inserting "eligible individuals residing in rural areas";

(6) in subsection (e)—

(A) by striking "subsection (c) or (d)" and inserting "this section",

(B) by striking "and annually thereafter, issue an annual report" and inserting "and annually thereafter during the period of the grant, issue a report",

(C) in paragraph (1), by striking "Statewide", and

(D) in subsection (f), by striking paragraph (2) and by redesignating paragraphs (3) through (5) as paragraphs (2) through (4), respectively; and

(7) by redesignating the second subsection (f) (relating to authorization of appropriations for grants) as subsection (g).

(j) Telephone Information System (Section 4361 of OBRA-1990).—

(1) Section 1804 of the Social Security Act is amended—

(A) by adding at the end of the heading the following: "; Medicare and Medigap Information",

(B) by inserting "(a)" after "1804.", and

(C) by adding at the end the following new subsection:

"(b) The Secretary shall provide information via a toll-free telephone number on the programs under this title.".

(2) Section 1882(f) of the Social Security Act is amended by adding at the end the following new paragraph:

"(3) The Secretary shall provide information via a toll-free telephone number on medicare supplemental policies (including the relationship of State programs under title XIX to such policies).".

(3) Section 1889 of the Social Security Act, as inserted by section 4361(a) of OBRA-1990, is repealed.

TITLE III—CORRECTIONS RELATING TO SOCIAL SECURITY, INCOME SECURITY AND HUMAN RESOURCES, AND TARIFF AND CUSTOMS

Subtitle A—Social Security

SEC. 301. TECHNICAL CORRECTIONS RELATED TO OASDI IN THE OMNIBUS BUDGET RECONCILIATION ACT OF 1990.

(a) Amendments Related to Provisions in Section 5103(b) Relating to Disabled Widows.—Section 223(f)(2) of the Social Security Act (42 U.S.C. 423(f)(2)) is amended—

(1) in subparagraph (A), by striking "(in a case to which clause (ii)(II) does not apply)"; and

(2) by striking subparagraph (B)(ii) and inserting the following:

"(ii) the individual is now able to engage in substantial gainful activity; or".

(b) Amendments Related to Provisions in Section 5105(d) Relating to Representative Payees.—Section 5105(d)(1)(A) of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508) is amended—

(1) by striking "Section 205(j)(5)" and inserting "Section 205(j)(6)"; and

(2) by redesignating the paragraph (5) as amended thereby as paragraph (6).

(c) Amendments Related to Provisions in Section 5106 Relating to Coordination of Rules under Titles II and XVI Governing Fees for Representatives of Claimants with Entitlements under Both Titles.—

(1) Calculation of fee of claimant's representative based on amount of past-due supplemental security income benefits after application of windfall offset provision.—Section 1631(d)(2)(A)(i) of the Social Security Act (as amended by section 5106(a)(2) of the Omnibus Budget Reconciliation Act of 1990) (42 U.S.C. 1383(d)(2)(A)(i)) is amended to read as follows:

"(i) by substituting, in subparagraphs (A)(ii)(I) and (C)(i), the phrase '(determined before any applicable reduction under section 1631(g), and reduced by the amount of any reduction in benefits under this title or title II made pursuant to section 1127(a))' for the parenthetical phrase contained therein; and".

(2) Calculation of past-due benefits for purposes of determining attorney fees in judicial proceedings.—

(A) In general.—Section 206(b)(1) of such Act (42 U.S.C. 406(b)(1)) is amended—

(i) by inserting "(A)" after "(b)(1)"; and

(ii) by adding at the end the following new subparagraph:

"(B) For purposes of this paragraph—

"(i) the term 'past-due benefits' excludes any benefits with respect to which payment has been continued pursuant to subsection (g) or (h) of section 223, and

"(ii) amounts of past-due benefits shall be taken into account to the extent provided under the rules applicable in cases before the Secretary.".

(B) Protection from offsetting SSI benefits.—The last sentence of section 1127(a) of such Act (as added by section 5106(b) of the Omnibus Budget Reconciliation Act of 1990) (42 U.S.C. 1320a-6(a)) is amended by striking "section 206(a)(4)" and inserting "subsection (a)(4) or (b) of section 206".

(3) Application of single dollar amount ceiling to concurrent claims under titles II and XVI.—

(A) IN GENERAL.—Section 206(a)(2) of such Act (as amended by section 5106(a)(1) of the Omnibus Budget Reconciliation Act of 1990) (42 U.S.C. 406(a)(2)) is amended—

(i) by redesignating subparagraph (C) as subparagraph (D); and

(ii) by inserting after subparagraph (B) the following new subparagraph:

"(C) In any case involving—

"(i) an agreement or agreements described in subparagraph (A) with any person relating to both a claim of entitlement to past-due benefits under this title and a claim of entitlement to past-due benefits under title XVI, and

"(ii) a favorable determination made by the Secretary with respect to both such claims,

the Secretary may approve such agreement or agreements only if the total fee or fees specified in such agreement or agreements do not exceed, in the aggregate, the dollar amount in effect under subparagraph (A)(ii)(II).".

(B) CONFORMING AMENDMENT.—Section 206(a)(3)(A) of such Act (as amended by section 5106(a)(1) of the Omnibus Budget Reconciliation Act of 1990) (42 U.S.C. 406(a)(3)(A)) is amended by striking "paragraph (2)(C)" and inserting "paragraph (2)(D)".

(d) AMENDMENT RELATED TO PROVISIONS IN SECTION 5115 RELATING TO ADVANCE TAX TRANSFERS.—Section 201(a) of the Social Security Act (42 U.S.C. 401(a)) is amended in the last sentence by striking "and" the second place it appears.

(e) EFFECTIVE DATE.—Each amendment made by this section shall take effect as if included in the provisions of the Omnibus Budget Reconciliation Act of 1990 to which such amendment relates.

Subtitle B—Income Security and Human Resources

SEC. 311. REPEAL OF PROVISION INADVERTENTLY INCLUDED IN THE OMNIBUS BUDGET RECONCILIATION ACT OF 1990.

Section 5057 of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101–508), and the amendment made by such section, are hereby repealed, and section 1139(d) of the Social Security Act shall be applied and administered as if such section 5057 had never been enacted.

SEC. 312. CORRECTIONS RELATED TO THE INCOME SECURITY AND HUMAN RESOURCES PROVISIONS OF THE OMNIBUS BUDGET RECONCILIATION ACT OF 1990.

(a) AMENDMENT RELATED TO SECTION 5035(a)(2).—Section 5035(a)(2) of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101–508) is amended by striking "a semicolon" and inserting " '; and' ".

(b) AMENDMENTS RELATED TO SECTION 5105(d)(T11)(b).—Section 5105(d)(1)(B) of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101–508) is amended—

(1) by striking "Section 1631(a)(2)(E)" and inserting "Section 1631(a)(2)(F)"; and

(2) by redesignating the subparagraph (E) as amended thereby as subparagraph (F).

(c) AMENDMENT RELATED TO SECTION 5105(a)(1)(b).—The second paragraph of section 1631(a) of the Social Security Act (42 U.S.C. 1383(a)) is amended by striking "(A)(i) Payments" and inserting "(2)(A)(i) Payments".

(d) AMENDMENTS RELATED TO SECTION 5106(b).—Section 1631(a)(2)(C) of the Social Security Act (42 U.S.C. 1383(a)(2)(C)) is amended—

(1) by striking clause (ii);

(2) by redesignating clauses (iii), (iv), and (v) as clauses (ii), (iii), and (iv), respectively; and

(3) in clause (iv) (as so redesignated), by striking "(iii), and (iv)" and inserting "and (iii)".

(e) AMENDMENTS RELATED TO SECTION 5107(a)(2)(b).—Section 1631(c)(1)(B) of the Social Security Act (42 U.S.C. 1383(c)(1)(B)) is amended by striking "paragraph (1)" each place such term appears and inserting "subparagraph (A)".

(f) AMENDMENT RELATED TO SECTION 5109(a)(2).—Section 1631 of the Social Security Act (42 U.S.C. 1383) is amended by redesignating the subsection (n) added by section 5109(a)(2) of the Omnibus Budget Reconciliation Act of 1990, as subsection (o).

(g) AMENDMENTS RELATED TO SECTION 11115(b)(2).—Section 11115(b)(2) of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101–508) is amended—

(1) in subparagraph (A), by striking "paragraph (8)" and inserting "paragraph (9)";

(2) in subparagraph (B), by striking "paragraph (9)" and inserting "paragraph (10)"; and

(3) in subparagraph (C), by redesignating the new paragraph added thereby as paragraph (11).

(h) EFFECTIVE DATE.—Each amendment made by this section shall take effect as if included in the provision of the Omnibus Budget Reconciliation Act of 1990 to which the amendment relates at the time such provision became law.

SEC. 313. CORRECTION RELATED TO SECTION 8006 OF THE OMNIBUS BUDGET RECONCILIATION ACT OF 1989.

(a) CORRECTION.—Section 473(a)(6)(B) of the Social Security Act (42 U.S.C. 673(a)(6)(B)) is amended by striking "474(a)(3)(B)" and inserting "474(a)(3)(C)".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) of this section shall take effect as if included in section 8006 of the Omnibus Budget Reconciliation Act of 1989 at the time such section 8006 became law.

SEC. 314. AMENDMENT RELATED TO SECTION 13101(d)(2) OF THE OMNIBUS BUDGET RECONCILIATION ACT OF 1990.

(a) IN GENERAL.—Section 256(k)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 is amended—

(1) by striking "—" the second place it appears and all that follows through "(I)"; and

(2) by striking "; or" and all that follows through "(II)" and inserting ", except that a State may not be allotted an amount under this subparagraph that exceeds".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) of this section shall take effect as if included in section 13101(d)(2) of the Omnibus Budget Reconciliation Act of 1990 at the time such section 13101(d)(2) became law.

Subtitle C—Tariff and Customs

SEC. 331. TECHNICAL AMENDMENTS TO THE HARMONIZED TARIFF SCHEDULE OF THE UNITED STATES.

(a) IN GENERAL.—The Harmonized Tariff Schedule of the United States is amended as follows:

(1) REMOVAL OF ODR FROM COLUMN 2 RATE LIST.—General Note 3(b) is amended by striking "German Democratic Republic".

(2) TAPESTRY AND UPHOLSTERY FABRICS.—The article description for subheading 5112.19.20 is amended by striking "of a weight exceeding 300 g/m²".

(3) GLOVES.—

(A) Chapter 61 is amended by redesignating subheading 6116.10.45 as subheading 6116.10.48.

(B) Chapter 62 is amended by striking the superior text "Other:" that appears between subheadings 6216.00.46 and 6216.00.52.

(4) AGGLOMERATE STONE FLOOR AND WALL TILES.—The article description for subheading 6810.19.12 is amended to read as follows: "Of stone agglomerated with binders other than cement".

(5) 2,4-DIAMINOBENZENESULFONIC ACID.—The article description for heading 9902.30.43 is amended by striking "2921.51.50" and inserting "2921.59.50".

(6) MACHINES USED IN THE MANUFACTURE OF BICYCLE PARTS.—The article description for heading 9902.84.79 is amended by striking "8479.89.90" and inserting "8462.49.00, 8479.89.90 or 9031.80.00".

(7) COPYING MACHINES AND PARTS.—The article description for heading 9902.90.90 is amended by inserting "or 8473.40.40" after "8472.90.80".

(b) STAGED RATE REDUCTIONS FOR GLOVES.—Any staged reduction of a special rate of duty set forth in subheading 6116.10.45 of such Schedule that takes effect on or after October 1, 1990, by reason of section 10011(a)(2) of Omnibus Budget Reconciliation Act of 1990 shall apply to the corresponding rate of duty in subheading 6116.10.48 (as redesignated by subsection (a)(3)(A)).

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by subsection (a) shall apply with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of the enactment of this Act.

(2) RETROACTIVE APPLICATION FOR CERTAIN LIQUIDATIONS AND RELIQUIDATIONS.—

(A) Notwithstanding section 514 of the Tariff Act of 1930 or any other provision of law, upon proper request filed with the appropriate customs officer on or before the 90th day after the date of the enactment of this Act, any entry—

(i) that was made after the applicable date and before the 15th day after such date of enactment; and

(ii) with respect to which there would have been a lesser or no duty if any amendment made by subsection (a) applied to such entry;

shall be liquidated or reliquidated as though such amendment applied to such entry.

(B) For purposes of this subsection, the term "applicable date" means—

(i) if such amendment is made by subsection (a)(4) or (a)(7), December 31, 1988; and

(ii) if such amendment is made by subsection (a)(2), (a)(3), (a)(5), (a)(6), September 30, 1990.

SEC. 322. CLARIFICATION REGARDING THE APPLICATION OF CUSTOMS USER FEES.

(a) IN GENERAL.—Subparagraph (D) of section 13031(b)(8) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(b)(8)(D)) is amended—

(1) by striking out "and" at the end of clause (iv);

(2) by striking out the period at the end of clause (v) and inserting "; and"; and

(3) by inserting after clause (v) the following new clause:

"(vi) in the case of merchandise entered from a foreign trade zone (other than merchandise to which clause (v) applies), be applied only to the value of the merchandise subject to duty under section 3 of the Act of June 18, 1934 (commonly known as the Foreign Trade Zones Act, 19 U.S.C. 81c)."

(b) EFFECTIVE DATE.—The amendments made by subsection (a) apply to—

(1) any entry made from a foreign trade zone on or after the 15th day after the date of the enactment of this Act; and

(2) any entry made from a foreign trade zone after November 30, 1986, and before such 15th day if the entry was not liquidated before such 15th day.

SEC. 323. TECHNICAL AMENDMENTS TO THE OMNIBUS TRADE AND COMPETITIVENESS ACT OF 1988.

(a) IN GENERAL.—Paragraph (2) of section 1102(a) of the Omnibus Trade and Competitiveness Act of 1988 (19 U.S.C. 2902(a)(2)) is amended—

(1) in subparagraph (A)—

(A) by striking "the date of enactment of this Act" and inserting "January 1, 1989"; and

(B) by striking "such date of enactment" and inserting "January 1, 1989"; and

(2) in subparagraph (B), by striking "such date of enactment" and inserting "January 1, 1989".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect January 1, 1989.

(c) CONSTRUCTION.—For purposes of applying the amendments made by subsection (a), the column 1-general rate of duty established by any amendment to the Harmonized Tariff Schedule of the United States that was enacted after January 1, 1989, shall, if—

(1) such amendment has, or is statutorily treated as having, an effective date of January 1, 1989; or

(2) application for liquidation or reliquidation at such rate with respect to entries made after December 31, 1988, and before the effective date of the amendment, is provided for;

be treated as the rate in effect on January 1, 1989.

SEC. 324. TECHNICAL AMENDMENT TO THE CUSTOMS AND TRADE ACT OF 1990.

Subsection (b) of section 484H of the Customs and Trade Act of 1990 (19 U.S.C. 1553 note) is amended by striking ", or withdrawn from warehouse for consumption," and inserting "for transportation in bond".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 20 minutes, and the gentleman from Texas [Mr. ARCHER] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include herein extraneous material on H.R. 1555, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to present to the House H.R. 1555, the Technical Corrections Act of 1991, as unanimously approved by the Ways and Means Committee.

The primary purpose of this legislation is to make technical corrections to the provisions of the Omnibus Budget Reconciliation Act of 1990 within the jurisdiction of the Ways and Means Committee. It includes technical corrections relating to past tax, Social Security, health, human resources, and trade legislation.

Mr. Speaker, I want to assure my colleagues that this bill is not intended to make substantive changes to the 1990 act or other recent legislation. Like past technical corrections bills, H.R. 1555 is revenue neutral. The Joint Committee on Taxation and the Congressional Budget Office have certified that the bill will not cause any overall loss of Federal revenues.

H.R. 1555 has broad bipartisan support, including the support of the administration. The legislation is the product of the majority and minority staffs of the Ways and Means Committee working with the staff of the Joint Committee on Taxation, appropriate administration departments and agencies, and the Office of the Legislative Counsel to review and make recommendations for technical corrections and clarifications. In addition, our staff worked with the staff of the Energy and Commerce Committee on the relevant Medicare provisions. I want to particularly thank Chairman JOHN DINGELL and other members of the Energy and Commerce Committee for their cooperation and the cooperation of their staffs in bringing H.R. 1555 to the floor today.

Mr. Speaker, it is important to pass this legislation as expeditiously as possible. To the extent that the bill corrects or clarifies Tax Code provisions, it will guide taxpayers in properly filing their tax returns; it will also help the Internal Revenue Service in its task of interpreting and administering the laws consistent with congressional intent. The Medicare corrections are needed to clarify provisions affecting payments to hospitals, physicians, and other health care providers.

Therefore, Mr. Speaker, I urge my colleagues to support this important measure.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to join the chairman of the Ways and Means Committee in support of H.R. 1555, the Technical Corrections Act of 1991.

H.R. 1555 contains necessary technical corrections to prior tax, trade, and health legislation. The provisions of the bill have been worked out in cooperation between the minority and majority staffs of the Ways and Means Committee and the Joint Committee on Taxation. The bill is supported by the Treasury. These provisions are all nonsubstantive changes to current law and I urge their adoption.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. STARK].

Mr. STARK. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I just want to suggest to the Members that title II of this bill contains a number of miscellaneous and technical amendments to the Medicare statute. These amendments have been developed in a cooperative effort with our ranking minority member, Mr. GRADISON, and with the Energy and Commerce Committee majority and minority.

These provisions are all truly no-cost items according to the CBO. In addition there are no spending items with offsetting savings provisions which redistribute Medicare funds in any way.

These provisions clarify payments to hospitals exempt from prospective payment, the DRG payment window, the EACH program, payments to ambulatory surgery centers, payments for durable medical equipment, and end-stage renal disease benefits.

Title II also amends the Medigap sections of OBRA '90. These provisions make clarifications in the areas of duplicate coverage and loss ratios. In addition, they include a number of minor, technical, and conforming changes in the statutory language of OBRA '90.

Again, let me reiterate that these amendments are all minor and no cost. I urge my colleagues to support this bill.

Mr. DONNELLY. Mr. Speaker, will the gentleman yield?

Mr. STARK. I yield to the gentleman from Massachusetts.

Mr. DONNELLY. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, it is my understanding that the Medicare technical corrections bill contains provisions that are only technical in nature. There are no policy changes or substantive changes in the document before the House.

Mr. STARK. The gentleman's understanding is correct.

Mr. DONNELLY. Mr. Speaker, I thank the gentleman.

Mr. ARCHER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois [Mr. ROSTENKOWSKI] that the House suspend the rules and pass the bill, H.R. 1555, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

TAX EXTENSION ACT OF 1991

Mr. ROSTENKOWSKI. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3909) to amend the Internal Revenue Code of 1986 to extend certain expiring provisions, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3909

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; AMENDMENT OF 1986 CODE.

(a) Short Title.—This Act may be cited as the "Tax Extension Act of 1991".

(b) Amendment of 1986 Code.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

TITLE I—6-MONTH EXTENSION OF CERTAIN EXPIRING TAX PROVISIONS

SEC. 101. ALLOCATION OF RESEARCH AND EXPERIMENTAL EXPENDITURES.

(a) Extension.—Paragraph (5) of section 864(f) (relating to allocation of research and experimental expenditures) is amended to read as follows:

"(5) Years to which rule applies.—

"(A) In general.—This subsection shall apply to the taxpayer's first 3 taxable years beginning after August 1, 1989, and on or before August 1, 1992.

"(B) Reduction.—Notwithstanding subparagraph (A), in the case of the taxpayer's first taxable year beginning after August 1, 1991, this subsection shall only apply to qualified research and experimental expenditures incurred during the first 6 months of such taxable year."

(b) Effective Date.—The amendment made by subsection (a) shall apply to taxable years beginning after August 1, 1989.

SEC. 102. RESEARCH CREDIT.

(a) Extension.—Subsection (h) of section 41 (relating to credit for increasing research activities) is amended—

(1) by striking "December 31, 1991" each place it appears and inserting "June 30, 1992", and

(2) by striking "January 1, 1992" each place it appears and inserting "July 1, 1992".

(b) Conforming Amendment.—Subparagraph (D) of section 28(b)(1) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

(c) Effective Date.—The amendments made by this section shall apply to taxable years ending after December 31, 1991.

SEC. 103. EMPLOYER-PROVIDED EDUCATIONAL ASSISTANCE.

(a) Extension.—

(1) In general.—Subsection (d) of section 127 (relating to educational assistance programs) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

(2) Special rule.—In the case of any taxable year beginning in 1992, only amounts paid before July 1, 1992, by the employer for educational assistance for the employee shall be taken into account in determining the amount excluded under section 127 of the Internal Revenue Code of 1986 with respect to such employee for such taxable year.

(b) Effective Date.—The amendment made by this section shall apply to taxable years beginning after December 31, 1991.

SEC. 104. EMPLOYER-PROVIDED GROUP LEGAL SERVICES PLANS.

(a) Extension.—

(1) In general.—Subsection (e) of section 120 (relating to amounts received under qualified group legal service plans) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

(2) Special rule.—In the case of any taxable year beginning in 1992, only amounts paid before July 1, 1992, by the employer for coverage for the employee, his spouse, or his dependents, under a qualified group legal services plan for periods before July 1, 1992, shall be taken into account in determining the amount excluded under section 120 of the Internal Revenue Code of 1986 with respect to such employee for such taxable year.

(b) Effective Date.—The amendment made by this section shall apply to taxable years beginning after December 31, 1991.

SEC. 105. TARGETED JOBS CREDIT.

(a) In General.—Paragraph (4) of section 51(c) (relating to termination) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

(b) Effective Date.—The amendment made by this section shall apply to individuals who begin work for the employer after December 31, 1991.

SEC. 106 ENERGY INVESTMENT CREDIT FOR SOLAR AND GEOTHERMAL PROPERTY.

Subparagraph (B) of section 48(a)(2) (relating to energy percentage) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

SEC. 107. LOW-INCOME HOUSING CREDIT.

(a) Extension.—

(1) Paragraph (1) of section 42(o) is amended—

(A) by striking ", for any calendar year after 1991",

(B) by inserting before the comma at the end of subparagraph (A) "to any amount allocated after June 30, 1992", and

(C) by striking "1991" in subparagraph (B) and inserting "June 30, 1992".

(2) Paragraph (2) of section 42(o) is amended—

(A) by striking "1992" each place it appears and inserting "July 1, 1992",

(B) by striking "December 31, 1991" in subparagraph (B) and inserting "June 30, 1992",

(C) by striking "December 31, 1993" in subparagraph (B) and inserting "June 30, 1994", and

(D) by striking "January 1, 1994" in subparagraph (C) and inserting "July 1, 1994".

(b) Effective Date.—The amendments made by this section shall apply to calendar years after 1991.

SEC. 108. QUALIFIED MORTGAGE BONDS.

(a) In General.—Subparagraph (B) of section 143(a)(1) (defining qualified mortgage bond) is amended by striking "December 31, 1991" each place it appears and inserting "June 30, 1992".

(b) Mortgage Credit Certificates.—Subsection (h) of section 25 (relating to interest on certain home mortgages) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

(c) Effective Dates.—

(1) Bonds.—The amendment made by subsection (a) shall apply to bonds issued after December 31, 1991.

(2) Certificates.—The amendment made by subsection (b) shall apply to elections for periods after December 31, 1991.

SEC. 109. QUALIFIED SMALL ISSUE BONDS.

(a) In General.—Subparagraph (B) of section 144(a)(12) (relating to termination dates) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

(b) Effective Date.—The amendment made by this section shall apply to bonds issued after December 31, 1991.

SEC. 110. HEALTH INSURANCE COSTS OF SELF-EMPLOYED INDIVIDUALS.

(a) Extension.—

(1) In general.—Paragraph (6) of section 162(l) (relating to special rules for health insurance costs of self-employed individuals) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

(2) Special rule.—In the case of any taxable year beginning in 1992—

(A) only amounts paid before July 1, 1992, by the individual for insurance coverage for periods before July 1, 1992, shall be taken into account in determining the amount deductible under section 162(l) of the Internal Revenue Code of 1986 with respect to such individual for such taxable year, and

(B) for purposes of subparagraph (A) of section 162(l)(2) of such Code, the amount of the earned income described in such subparagraph taken into account for such taxable year shall be the amount which bears the same ratio to the total amount of such earned income as the number of months in such taxable year ending before July 1, 1992, bears to the number of months in such taxable year.

(b) Effective Date.—The amendment made by this section shall apply to taxable years beginning after December 31, 1991.

SEC. 111. EXPENSES FOR DRUGS FOR RARE CONDITIONS.

(a) In General.—Subsection (e) of section 28 (relating to clinical testing expenses for certain drugs for rare diseases or conditions) is amended by striking "December 31, 1991" and inserting "June 30, 1992".

(b) Effective Date.—The amendment made by this section shall apply to taxable years ending after December 31, 1991.

SEC. 112. CHARITABLE CONTRIBUTIONS OF APPRECIATED PROPERTY.

Subparagraph (B) of section 57(a)(6) (relating to appreciated property charitable deduction) is amended by adding at the end thereof the following new sentence: "In the case of a contribution made before July 1, 1992, in a taxable year beginning in 1992, such term shall not include any tangible personal property."

TITLE II—MODIFICATION TO CORPORATE ESTIMATED TAX PROVISIONS

SEC. 201. TEMPORARY INCREASE IN AMOUNT OF CORPORATE ESTIMATED TAX PAYMENTS.

(a) General Rule.—Subsection (d) of section 6655 (relating to amount of required installment) is amended by adding at the end thereof the following new paragraph:

"(3) Temporary increase in amount of installment based on current year tax.—In the case of any taxable year beginning after 1991 and before 1997—

"(A) Paragraph (1)(B)(i) and subsection (e)(3)(A)(i) shall be applied by substituting for '90 percent' each place it appears the current year percentage determined under the following table:

In the case of a taxable year beginning in:	The current year percentage is:
1992	93
1993 or 1994	94
1995 or 1996	95.

"(B) Appropriate adjustments to the table contained in subsection (e)(2)(B)(ii) shall be made to reflect the provisions of subparagraph (A)."

(b) Conforming Amendment.—Paragraph (1) of section 6655(e) is amended by striking "modified by subsection (d)(2)" and inserting "modified by paragraphs (2) and (3) of subsection (d)".

(c) Effective Date.—The amendments made by subsection (a) shall apply to taxable years beginning after December 31, 1991.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois [Mr. Rostenkowski) will be recognized for 20 minutes, and the gentleman from Texas [Mr. Archer] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Illinois [Mr. Rostenkowski].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on H.R. 3909, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

□ 1240

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as reported by the Committee on Ways and Means, this bill would extend for 6 months 12 expiring provisions of the Internal Revenue Code that were enacted to provide incentives for low-income housing, research and development, education, and other activities beneficial to the economy. Many Members of the House have written to me and the Ways and Means Committee urging us to act on the expiring provisions prior to adjournment.

H.R. 3909 will allow these important programs to continue beyond their scheduled expiration of December 31, 1991. Without this emergency legislation, these programs will expire at year-end, causing injury to millions of taxpayers who benefit from these provisions, and further jeopardizing important sectors of the economy. The 6-month extension contained in H.R. 3909 should be adequate to allow for the development of a permanent solution in the event that there is a tax bill next year.

The Senate Finance Committee has reported identical legislation. It is my hope that both Houses will pass the identical legislation before we adjourn, so that it may be signed into law as soon as possible.

Mr. Speaker, I want to express my intention that this will be the last temporary extension of these 12 expiring tax provisions. Over the past few years, these temporary extensions have become an annual ritual. Such on-again, off-again legislation is bad for government and bad for taxpayers, who cannot plan ahead to utilize the incentives. This annual uncertainty does not reflect well on the Congress or the administration, and creates needless instability in the economy.

Yet the current budgetary and political realities in the closing days of the first session of this Congress demand such a temporary solution. Early next year, however, the Ways and Means Committee will hold hearings to review all the expiring tax provisions and will vote on each one individually, to decide whether each one should be made permanent or allowed to expire. The burden will be on those who support individual extensions, both in the administration and in the Congress, to present the case for a permanent extension and to recommend ways to pay for them.

Mr. Speaker, in compliance with the budgetary pay-as-you-go requirements, H.R. 3909 contains a revenue offset which would speed up estimated tax payments for large corporations. Under current law, these corporations are required to make estimated tax payments equal to 90 percent of their current tax liability. The bill would temporarily raise this required percentage to 95 percent, after a 3-year phasein period.

Commitments have been made in both Houses of Congress to keep this legislation clean of all amendments. I would urge that these commitments be honored, so this important emergency legislation is not jeopardized. I strongly urge my colleagues to vote for this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I yield myself such time as I may consume and ask unanimous consent to revise and extend my remarks.

H.R. 3909, the Tax Extension Act of 1991, provides for a 6-month extension of a dozen tax provisions that are generally due to expire at the end of this year.

These tax provisions have become known euphemistically as the extenders inasmuch as Congress has extended these provisions generally 1 year at a time for the past several years.

These expiring tax provisions include such provisions as the research and experimentation tax credit—deduction of health insurance costs for self-employed individuals, the exclusion for employer-provided educational assistance, extension of qualified mortgages bonds which provides low interest mortgage for first time home buyers, and the low-income housing tax credit.

Several of the expiring provisions are of such unquestionable merit that they should have been extended permanently years ago. Unfortunately, revenue constraints in recent years have led us to extend them for only short periods of time.

I look forward to working with Chairman Rostenkowski next year in reviewing the entire list of expiring provisions. We should extend permanently those provisions that merit permanent extension and eliminate those that do not.

The bill is funded through a modification to the estimated tax payments for corporations. Under current law, a corporation generally is required to pay estimated tax payments equal to 90 percent of the corporation's final tax liability.

Under the bill, this 90-percent requirement would be increased to 95 percent.

While this revenue raiser may sound rather innocuous at first blush, I have serious concerns about the proposal. No hearings have been held. I seriously doubt that 5 percent of the corporate tax directors in this country are even aware we are considering this proposal today.

Second, the Ways and Means Committee recently considered a similar modification to the estimated tax payment rules for individuals in the context of the unemployment bill. The committee soundly rejected the proposal until numerous concerns had been remedied.

The estimated tax payment process is not a simple one for small businesses that lack the sophistication to adequately comply.

The current law 90-percent rule provides a 10-percent margin of error to accommodate the good faith estimated tax calculations taxpayers are required to make four times each tax year. Increasing the degree of accuracy to 95 percent will strain the practical ability of many small business owners.

Unfortunately, the problem can be far worse for large corporations.

I recently heard from 1 corporation in my district that has approximately 300 domestic subsidiaries and 150 foreign subsidiaries. It is virtually impossible for this corporation to gather accurate tax information from this far-flung enterprise in order to file accurate estimated taxes. Because penalties for underpayment of estimated tax are nondeductible, this company will be forced to overpay its taxes, thereby providing an interest-free loan to the U.S. Government. This is fundamentally unfair.

In the coming months, we will have an opportunity to monitor the problems raised by this and past modifications to the estimated tax rules. I hope that we will have an opportunity next year to comprehensively review the estimated tax payment rules in order to simplify and improve these rules.

Mr. Speaker, I yield 1 minute to the gentleman from Rhode Island [Mr. Machtley].

Mr. MACHTLEY. Mr. Speaker, I rise in strong support of H.R. 3909.

I wish to thank the chairman and the ranking member as well as the members of the committee for extending these very important programs; specifically, the mortgage revenue bond and the low-income housing tax credit. These programs provide 1.3 million Americans with homes, provides some 400,000 rental units. I believe these are the types of programs which have worked and which I hope, as the committee goes back to review this, they will make permanent.

I think our country needs the housing program; I think these are programs which have been proven.

Mr. Speaker, I commend the committee for extending these programs so that there is no disruption in the building programs and the housing for our homeless.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of this legislation.

Mr. Speaker, we have heard a lot of talk today dealing with the need for action on our economy. There is no question that we must take action to reverse this recession and its damaging impact on families across this great land.

Make no mistake about it, Democrats have a plan and are ready to act if the President will join us productively, rather than merely threaten another veto.

In the interim, I want to commend the chairman of the Ways and Means Committee for bringing this bill, extending critical expiring tax provisions to keep investment going in our economy. As I discussed with the chairman, this bill is a lifeline to our home building industry, without which this recession will only become deeper and more severe.

Housing starts are now at the lowest level of any year since World War II. Over 15 percent of those employed by the homebuilding industry on a national level—and over 60 percent in the Washington metropolitan region—are out of work today. This industry and its impact on our economy are clearly in a crisis.

At the same time, it is important to note that Housing has led our Nation out of every recession. Without a turnaround in the housing industry, we may continue to flounder and sink in the rough seas in which we now find ourselves.

This legislation will keep in place critical lifelines to the homebuilding industry. Without these extensions, financing that is now available through mortgage revenue bonds and capital that is available for low-income housing would dry up and turn a crisis into a disaster and a recession into a depression.

To point out the importance of these provisions, it is important to note that State-issued mortgage revenue bonds have funded more than 1.3 million lower income mortgages—and over 131,000 in 1990 alone. Local housing authorities have provided another 474,000 mortgage revenue bond [MRB] loans. In 1990, in Maryland, over 4,400 families have received MRB-assisted loans. This means jobs for employees of the homebuilding industry and means the recession is that much less painful.

The Chairman's bill will allow us to get to next year, when we can include these provisions in an overall package that focuses on spurring and sustaining economic growth.

I also commend the chairman on his commitment to review these issues next year and make them permanent if they are found to be productive. At long last we can stop the gameplaying of making these issues a political football on an annual basis and provide some confidence and stability to capital markets for the homebuilding industry. I thank the chairman for this action today and urge adoption of this important legislation.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. RANGEL].

Mr. RANGEL. Mr. Speaker, let me congratulate the Chairman, the gentleman from Illinois [Mr. ROSTENKOWSKI], and also the ranking Member, the gentleman from Texas [Mr. ARCHER], for coming together to make such an important issue to the American people and the Nation a nonpartisan issue.

Clearly, all 12 of these extenders have a great constituency, but I am concerned about the creation of jobs for the underprivileged, especially our teenagers, and the targeted job credits where we reach out and encourage people to hire the disadvantaged and give them the training necessary to keep them working, off the welfare rolls and out of trouble.

In addition, we are talking about the low-income housing credit, where 95 percent of all the housing that has been built in the last 3 years where the rent has been $450 or less per month has been built under the low-income housing credit.

So I do join with the minority and the majority, hoping that it soon will become permanent. But it took a lot of cooperation and a lot of work for us to get where we are today, and I congratulate both of these gentlemen.

□ 1250

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentlewoman from Connecticut [Mrs. KENNELLY].

Mrs. KENNELLY. Mr. Speaker, I rise today in strong support of the bill, and I rise in relief that we are considering H.R. 3909. I thank the gentleman from Illinois [Mr. ROSTENKOWSKI], the chairman of the Committee on Ways and Means, and certainly thank the gentleman from Texas [Mr. ARCHER].

This legislation would extend the 12 tax provisions that are slated to expire on December 31, 1991. These include important programs like mortgage revenue bonds, the low-income housing tax credit, and the research and development tax credit.

Extending these proven programs is the least complicated and least costly way to stimulate the economy. I am the lead sponsor of the mortgage revenue bond extender. This is a vital program that helps working families purchase their first home. It is supported by 391 Members of the House.

The Mortgage Revenue Bond Program helped more than 605,000 families become homeowners in 1990 alone. Since 1988, 10,239 families in Connecticut have become first time homebuyers with the assistance of mortgage revenue bonds.

The Mortgage Revenue Bond Program is a proven program. It is one of the few things that is still moving homes in the residential real estatemarket. In addition, more than 60 percent of all lower priced RTC home sales have been financed by the Mortgage Revenue Bond Program, the only gold star the RTC can claim.

The extension of the Low-Income Housing Tax Credit Program will also provide much needed stimulus for our fragile economy. The low-income housing tax credit is the most important housing program we have today, providing for more new construction than any other Federal program. The credit produces 120,000 units of low-income rental housing each year. And since its inception this vital program has added 28,000 new low-income housing units in Connecticut.

If my colleagues really want to do something for jobs, and if they want to do something for real estate, and, most importantly, if they want to do something for the American people, here it is. Here is something practical we can do in this very good economic package in front of us, and I am delighted we have it and hope everybody comes together, as they have on the committee, to support it.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentlewoman from Connecticut [Mrs. KENNELLY] who just spoke is absolutely correct. The public would like for this Congress to come together without partisan bickering to try to help the economy, and this is one step today in this bill where we have come together, where we can go arm and arm, Democrats and Republicans, to the American people and say, "We do want to create jobs."

Mr. Speaker, this targeted jobs tax credit, which will be renewed by this bill, creates job opportunities for Americans. The mortgage revenue bond provision, which is renewed, will create the construction of more homes, and the sale of more homes and the creation of more jobs. The R&D tax credits will create more jobs for those people who are at the cutting edge of developing technology that will keep this country in the forefront and competing with its foreign trading partners. That is in addition to low income housing. The credit there will create more jobs.

So, this Congress is taking at least a small step forward in a positive way today to help to move us out of a recession and into greater job creation.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from North Dakota [Mr. DORGAN].

Mr. DORGAN of North Dakota. Mr. Speaker, I thank the gentleman from Illinois [Mr. ROSTENKOWSKI] for yielding this time to me, and let me say that I was pleased yesterday when the Committee on Ways and Means Democrats and Republicans decided together to do what I think all of us understand is necessary for the economy. These are public policies that are important, and we have decided to extend these extended tax provisions so we do not get in positions where our failure to extend

them depresses the economy further and causes further loss of jobs. This is a package that will help stimulate and help produce some economic activity, and I am pleased to see that we can work together and can have a spirit of bipartisanship and harmony on these issues.

I do want to take one of these extenders and discuss it just for a moment. That is the 25-percent health insurance deduction for self-employed. I am pleased that that is not allowed to expire, that that is in fact extended, but it is not nearly enough. There is no excuse at all in these times when we talk about the need for incentives to have health insurance to say to a small business or a farmer on one side of the street, "You get a 25-percent deduction for your health insurance on your income tax, but your competitor across the street is incorporated, and you get, Mr. Competitor, a 100-percent deduction. If you're incorporated, you get a full 100-percent deduction for health insurance costs, but if you're a self proprietor or self-employed, you only get 25 percent."

Mr. Speaker, we have to correct that, and we have to do it soon. I am hoping next year when we discuss this we will decide that the self-employed, the unincorporated businesses of America, will have a 100-percent education for health insurance costs, just as the incorporated businesses have. There is no justification of that difference in public policy.

Once again let me say in the midst of all of this partisan chaos around there that this is at least one small shining example of how Republicans and Democrats can work together to bring something to the floor that is good for the country, and I congratulate the gentleman from Illinois [Mr. ROSTENKOWSKI], the chairman of the Committee on Ways and Means, and I congratulate the ranking member, the gentleman from Texas [Mr. ARCHER] and the folks on that side of the aisle as well.

Mr. ARCHER. Mr. Speaker, I yield 3 minutes to the gentleman from Iowa [Mr. GRANDY].

Mr. GRANDY. Mr. Speaker, I thank the gentleman from Texas [Mr. ARCHER] for yielding this time to me, and let me agree with my friend, the gentleman from North Dakota [Mr. DORGAN] on the timeliness and importance of extending these expiration provisions. I salute the chairman, the gentleman from Illinois [Mr. ROSTENKOWSKI]. I salute the gentleman from Texas [Mr. ARCHER] and will expand only for a moment on how this is a small way is a package that Members on both sides of the aisles can take home and say, "We have done something for growth and for competitiveness."

The gentleman from North Dakota [Mr. DORGAN] expanded on the 25-percent deductibility, which is really not so much a tax issue as it is a fairness issue, and I will not elaborate on that except to say that both he and I have sponsored legislation to expand that deductibility to 100 percent, and indeed that proposal is incorporated in many of the health care reform packages that both Republicans and Democrats have offered.

But, as a Representative from a rural area, Mr. Speaker, let me highlight some provisions that I think are terribly important to rural communities that have suffered outmigration and has sustained a lack of growth for many years. In addition to health care deductibility for self-employed individuals, and in our case that usually means farmers, there are two other provisions that are terribly important. The provisions which extends the qualified small new manufacturing bonds are those bonds from which beginning farmer lender programs grow. Iowa has had a very successful beginning farmer program. It depends on these private activity bonds and will be allowed to continue at least for 6 months, which is good news for a lot of young farmers who otherwise would not be enfranchised in agriculture.

Similarly, the low-income housing tax credit more and more in rural areas where we are suffering a tremendous shortage in housing is now combining with Farmers Home and FHA to provide housing needs for the rural poor. That is a tremendously important extension.

Let me add one more personal note. To reauthorize section 127, which is employer-provided education assistance, is not only good tax policy, it is good competitive policy for this country. We all know and have heard in the Committee on Ways and Means and on the floor of this House how important it is to move our work force to a skill force. Unless employers get involved, this will not happen, so this provision, and hopefully others to come, provide a tremendous opportunity for growth and competitiveness.

I salute the gentleman from Illinois [Mr. ROSTENKOWSKI], the chairman of the Committee on Ways and Means, and I salute the gentleman from Texas [Mr. ARCHER], and I encourage all Members to support enthusiastically the expiring provisions.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. ANDREWS].

Mr. ANDREWS of Texas. Mr. Speaker, I rise, too, in support of this important bipartisan legislation, the Tax Extension Act of 1991. This may be one of the most significant pieces of legislation that Congress considers this session to encourage risk-taking, investment, and jobs creation.

Mr. Speaker, history has shown us that the research and development tax credit has helped businesses develop new products that stimulate economic growth and make us more competitive with our trading partners. It is absolutely critical that we extend this important credit.

Second, Mr. Speaker, the targeted jobs credit has enabled many businesses to employ the disadvantaged. Over a half a million workers benefit from this specific tax provision.

Finally, the extension of the 25-percent tax deduction for the self-employed is absolutely critical if we are going to control insurance costs for small businesses. This is an issue that we must address as a Congress and in the Ways and Means Committee in this next legislative session. But today we are saying to the small businessman that we must keep their insurance costs from going up. We are, therefore, extending this important deduction.

Mr. Speaker, the Ways and Means Committee will be back 6 months from now to review these provisions and to look at other provisions that can encourage growth in our economy.

I want to commend the chairman and the ranking minority member. This is a bipartisan bill; it is an important piece of legislation, and I encourage its passage.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentlewoman from New York [Mrs. LOWEY].

Mrs. LOWEY of New York. Mr. Speaker, I rise today to thank Chairman ROSTENKOWSKI for bringing this important legislation to the floor before adjournment. The extension of these provisions of the Tax Code are critically important as my letter to the committee last week, signed by 94 of our colleagues, pointed out. This bill is essential to the stability of our economy, particularly during this recession.

Among the programs extended are the low-income housing tax credit and Mortgage Revenue Bond Program which are very important to our housing industry, especially at this difficult time. The bill also extends the targeted jobs tax credit which has clearly served to create jobs that we need now more than ever. The research and experimentation tax credit is also important to expanding our economy, and this bill keeps that credit in operation as well. It also preserves the tax exclusion for employer-provided educational and legal expenses and tax provisions related to the value of donated works of art.

Mr. Speaker, we all know that these particular tax provisions have histories of success, and it is indeed good news that this bill is being moved quickly through the Congress before adjournment. I commend the committee for its timely action and urge my colleagues to lend their full support to its passage today. I submit my letter of November 22 along with the list of signers to be printed at this point in the RECORD.

House of Representatives,
Washington, DC, November 22, 1991.
Hon. Dan Rostenkowski,
Chairman, Committee on Ways and Means,
Longworth Building, Washington, DC.

Dear Mr. Chairman: We respectfully urge you to convene your committee at the first opportunity to consider a short term extension of the expiring provisions of the tax code before we adjourn for the year. At this time, when our economy is mired in recession, we must maintain the viability of these programs, all of which have positive economic and societal impacts.

Although we would urge a long term or even permanent extension of these provisions, we are aware of the constraints imposed by the 1990 Budget Agreement. Hence, we want you to know of our support for a short-term extension, even as short as three months, to keep these programs operating while we grapple with the tough economic and tax questions which we all know must be addressed in early 1992.

Mr. Chairman, we understand your reservations about opening up the tax code so late in the year, but we ask that you do so to ensure that the social and economic benefits from these important programs are not jeopardized at this critical time. While all of us have changes we would like to see in the tax code, we realize the overriding importance of maintaining continuity for these long-standing provisions which are set to expire December 31. We encourage you to bring an extension bill to the floor under suspension of the rules before we adjourn.

Sincerely,

Nita M. Lowey, Mike Espy, Claude Harris, John Cox, Jr., Lane Evans, W.G. Hefner, Frank Pallone, Jr., Tim Johnson, Hamilton Fish, Jr., Matthew J. Rinaldo, William H. Zeliff, Jr., Chalmers P. Wylie, Stephen L. Neal, and Beverly Byron.

John Conyers, Jr., Les AuCoin, Collin Peterson, David R. Nagle, James H. Bilbray, Glen Browder, Robert E. Cramer, Jr., Ben Nighthorse Campbell, William Lehman, Matthew McHugh, Glenn Anderson, Patricia Schroeder, J. Roy Rowland, David Price, Vic Fazio, and Robert J. Mrazek.

Ileana Ros-Lehtinen, Ben Jones, Bill Emerson, Robin Tallon, Richard Lehman, Jon Kyl, Scott Klug, Peter H. Kostmayer, Joseph Gaydos, Walter Jones, Thomas Ewing, Norman F. Lent, Mary Rose Oakar, and Henry J. Nowak.

John Tanner, Jim Jontz, Bernard J. Dwyer, James F. Sensenbrenner, Jr., Randy "Duke" Cunningham, Jack Reed, Craig Thomas, Robert A. Borski, Terry Bruce, Dick Swett, Dan Burton, Jose E. Serrano, James V. Hansen, Constance Morella, Howard Coble, Wally Herger, William L. Dickinson, Joel Hefley, Dan Schaefer, and Tom Lewis.

Tom Bevill, Larry Smith, Bill Alexander, Ronald K. Machtley, Porter Goss, Robert W. Davis, Charles Taylor, James H. Scheuer, Arthur Ravenel, Jr., Bill Lowery, Gerry Studds, Jerry F. Costello, Marilyn Lloyd, and Floyd Spence.

Gary Ackerman, Dave Camp, Thomas McMillen, Bart Gordon, Chester G. Atkins, Sam Gejdenson, Glenn English, Douglas "Pete" Peterson, Charles A. Hayes, Robert J. Lagomarsino, Dale E. Kildee, Wayne Owens, John M. Spratt, Jim Bacchus, Tom Andrews, Susan Molinari, and Alex J. McMillan,

Members of Congress.

☐ 1300

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Michigan [Mr. Levin].

Mr. LEVIN of Michigan. Mr. Speaker, I would like to congratulate the chairman of the committee for finding a way to bridge this gap. The extenders are being extended because they have stood the test of time. These are deserving provisions. They have been placed in the rather unusual situation of every so often having to be renewed. But they are renewed because they serve basic economic needs for employers, large and small, for employers of all kinds.

Next year they are going to have to stand the rest of financial stringency, and I hope all of us who support the essence of these provisions will look ahead and try to find a way to fit these provisions into an overall tax package on a permanent basis.

So, Mr. Speaker, I rise in strong support of this action. It is a responsible one. In 6 months we will take another look and make sure we can handle this on a permanent basis.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Rhode Island [Mr. Reed].

Mr. REED. Mr. Speaker, I rise in support of this measure and commend the chairman of the committee for his leadership.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. Panetta].

Mr. PANETTA. Mr. Speaker, I want to commend the chairman of the committee and the committee for bringing this proposal to the floor.

I have some concerns obviously about the on-and-off nature of these extenders, but I think the most important point made by the committee is that in advancing these extenders they paid for them. The cost of these extenders for 5 years is $3.1 billion. They raised $3.1 billion by increasing the corporate estimated tax in terms of its payment.

There are a lot of tax proposals that are being thrown around here. Some of them are paid for, some of them are not. The worst thing we could do is to cut taxes for some people while increasing the worst tax of all, which is the deficit on the American people. That is a lesson that both the President and my colleagues need to learn.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 1 minute to the gentleman from Maryland [Mr. Cardin].

Mr. CARDIN. Mr. Speaker, I want to thank my chairman for yielding me the time, and I want to congratulate the gentleman from Illinois [Mr. Rostenkowski] and the gentleman from Texas [Mr. Archer] for finding a way to bring this extender bill to the floor.

These expiring tax provisions are very important to our economy and very important to many programs that we have in our State and local governments and throughout our communities.

I want to underscore the point that the gentleman from Illinois [Mr. Rostenkowski] made earlier, and that is that we need to take up these expiring tax provisions next year. I hope at that time that we will be able to look at permanent extensions for these tax provisions and also look at ways in which we can modify some of these provisions to make them more effective. Unfortunately, we just extend many of these provisions without looking at each individual one. I think that is important, and I thank the chairman of the committee for giving us that opportunity again next year.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. Thomas], a member of the committee.

Mr. THOMAS of California. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, it is ironic that the morning after the House passed a multimillion dollar campaign finance bill with no funding source, there is a discussion about a tax package that actually pays for itself. We are talking about $3.1 billion in which a committee, on which it is my pleasure to be a member, was at least responsible enough to include sufficient revenue for the revenue lost.

Last night in a fit of orgy this House passed a bill that includes tax credits that the Joint Tax Committee estimates will, over a 5-year period, cost about $780 million. It included a postage subsidy which was between $50 and $75 million a year, and it included matching funds which the other side of the aisle said all last night were to be paid for out of voluntary funds. If we would take a look at this morning's Washington Post, we would see that the gentleman from Connecticut has already reneged on that commitment and says he reserves the right to use tax dollars.

Mr. Speaker, I wish those Members who just took the microphone and talked about responsibility in terms of covering the cost of requests would have been at the microphone last night when this body unfortunately passed a multibillion-dollar package financing campaigns with taxpayers' money and did not have the coverage to pay for it.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentlewoman from Connecticut [Mrs. Johnson].

Mrs. JOHNSON of Connecticut. Mr. Speaker, I thank the gentleman very much for yielding this time to me.

Mr. Speaker, I rise in strong support of this bill to extend key expiring tax provisions.

There are disagreements in this House, and they are legitimate disagreements. We fight tough battles about what the future tax policy of

this Nation ought to be and these are valid battles. But it indeed would be a shame if we were unable to provide the predictability of policy that is so important to the success of the programs that we currently have in place.

These extenders are the most successful housing policy the Federal Government participates in in my district and in my State. These extenders provide the most powerful and successful educational assistance to working people that my constituents enjoy. It is imperative in an era of skyrocketing health care costs that we preserve the right of self-employed, small businessmen and women to deduct at least 25 percent of their health care premiums. Failure to renew the targeted jobs tax credit would throw a new round of people into the unemployment lines in Connecticut. These programs funded through tax expenditures create opportunity for millions of Americans, and thousands of my constituents.

So, Mr. Speaker, I commend the chairman and the ranking member for being able to create the discipline in this and the other body to bring the bill to the floor. By so doing we restore the predictability and certainty that makes sound tax policy. We restore benefits to thousands of folks out there that are crucial to their well-being and to the opportunity they have to realize new dreams and we restore Congress' credibility as the steward of the people's interests.

Mr. ARCHER. Mr. Speaker, I yield 30 seconds to the gentleman from Pennsylvania [Mr. Murtha].

Mr. MURTHA. Mr. Speaker, I just wonder if there is a message in all the compliments that are being paid to the chairman. I usually only see these kinds of compliments when someone has either died or is retiring.

May I ask the chairman if there is a message there?

Mr. ROSTENKOWSKI. Mr. Speaker, will the gentleman yield?

Mr. MURTHA. I yield to the chairman of the committee.

Mr. ROSTENKOWSKI. Mr. Speaker, I am sure that the gentleman was aware that the extensions of gratitude were rendered to both Mr. Rostenkowski and the gentleman from Texas [Mr. Archer].

The SPEAKER pro tempore (Mr. Mazzoli). The time of the gentleman from Pennsylvania [Mr. Murtha] has expired.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Utah [Mr. Orton].

Mr. ORTON. Mr. Speaker, I rise in enthusiastic support of extending these provisions in a manner that they may be paid for as we go.

Mr. ARCHER. Mr. Speaker, I think we should quit while we are ahead.

Mr. Speaker, I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, one certain evidence we have seen here is that the Congress can work together. These are very important provisions. They are provisions that both the minority and the majority, not only in the Committee on Ways and Means but in conference as well, have been struggling with for a long time. That is one of the reasons why in the past we did extend them permanently, and only because of budget constraints and revenues we continuously cut them back to a point where only this year we had them for 9 months.

I think there is much to be said about the Ways and Means Committee reviewing these extenders, as they are known, and doing something about them on a permanent basis.

Mr. Speaker, in conclusion, I wish to say that I am especially pleased that by this bill we are able to extend the low-income-housing tax credit for 6 months.

☐ 1310

In Chicago alone it will enable us to create 2000 new units of housing for the poorest of the citizens. It is of the utmost importance to me, and I think to generally the poor people of the country, that we pass this legislation, both for our inner cities and rural areas. They certainly deserve it, are counting on it, and I think we should move with great dispatch.

Mr. FRANKS of Connecticut. Mr. Speaker, I rise in strong support of passage of H.R. 3909, which authorizes the extension of 12 expiring tax provisions.

It is fitting that as we begin to celebrate the holiday season, we can point to an issue which has united both sides of the aisle.

For too long, the Congress has delayed taking action on these expiring tax credits which have been an essential part of our economy.

While the 6 month extension of these tax credits will show the business community that Congress supports these credits and that we have a strong interest in seeing them continued, I hope Members will continue to support efforts to extend them permanently or on a yearly basis.

Premanent extension of these provisions will allow businesses to make the financial plans to fully utilize their credits on a yearly basis.

Earlier this year, I introduced the Small Business Jobs and Tax Benefits Act which would extend 5 of the 12 expiring provisions which I believe are crucial to the success and expansion of the small business community. I am pleased that these five expiring provisions were included in H.R. 3909.

Real long-term economic growth and expanded job opportunities will depend on Congress passing measures such as H.R. 3909 which create incentives for business to invest and expand.

These provisions will also assist employers who offer educational programs, target jobs to disadvantaged and disabled workers, relieve the burden of insurance for self-employed individuals, assist in the development of solar and geothermal energy equipment and exclude employer provided group legal services from taxes.

Mr. Speaker, I am also very concerned about the ability of working families to find affordable housing.

That is why I am very pleased two other provisions will be extended—the Mortgage Revenue Bond Program and the Low Income Housing Tax Assistance Program.

These will be the first step that Congress takes in passing legislation which will get our economy up and running again.

Mr. Speaker, I urge all Members to support this bill.

Mr. MOODY. Mr. Speaker, I rise in strong support of H.R. 3909, the bill to extend the 12 tax provisions that will expire at the end of this year. I commend Chairman Rostenkowski and my fellow members of the Ways and Means Committee for working together to find a way to extend these provisions.

I cosponsored legislation to extend these crucial provisions because each of them serves an essential need in our communities. Several of these items are among the most successful that we have enacted in the Ways and Means Committee in recent years.

I'd like to single out the targeted jobs tax credit and the low-income housing tax credit for special notice. Both of these tax credits are very important in my district and in my State. This Wisconsin Housing and Economic Development Authority has been especially supportive of the low-income housing credit, and have proclaimed it to be a major success in Milwaukee. Several other nongovernmental, nonprofit community groups make extensive use of these credits to build affordable housing for low-income families without the direct involvement of the Government.

The targeted jobs tax credit is another good example of a successful approach to using the private sector to address a public need by providing the necessary resources without Government micromanagement. This credit helps defray the costs of hiring young men and women that have had difficulty getting into or staying in the work force. It gives these workers real jobs in the private sector, providing them with experience and training.

This legislation also extends the 25-percent deductibility of health insurance for the self-employed. This is obviously a minimum necessity given the high and ever-growing cost of health insurance. However, it is only a stop-gap measure. I have introduced legislation with my colleague Byron Dorgan to make health insurance fully deductible for the self-employed. There is no reason that one set of businesses should be allowed to deduct 100 percent of this cost, and another set of businesses denied this benefit. The real long-term solution to this problem, however, is a fundamental reform of the health insurance system that puts serious controls on rising health costs. I hope we achieve this reform in this Congress by adopting a bill I have introduced to establish a single-payer health insurance system that will reduce costs for the vast majority of American families and businesses.

There are other provisions in this bill which I heartily support, including: mortgage revenue bonds to help working families buy their own homes; small issue manufacturing bonds to help communities attract and retain business for economic development; and the research and experimentation tax credit which continues to give American business the incentive to invest in research projects that will contribute to the long-term competitiveness of this economy.

While I am extremely happy that we are able to extend these provisions for 6 months, I think that it is essential that we make it a priority to permanently extend each of them before they expire next year. I look forward to working with Members of the committee and the House to find a way to do this.

Mr. REED. Mr. Speaker, I rise today in strong support of H.R. 3909 and in recognition of Chairman ROSTENKOWSKI's efforts to bring this legislation to the floor.

H.R. 3909 demonstrates our commitment to improving the economy, affordable housing, health care, jobs, and research. Its passage will continue for 6 months a host of programs of vital importance to our States. I would like to highlight a few.

The Mortgage Revenue Bond Program and the low-income housing tax credit are two of the most effective tools we have to create affordable housing as well as meet our goal of providing all Americans with decent, accessible, and safe housing.

Since its inception 12 years ago, the targeted jobs tax credit has helped millions of low-income Americans go from tax users to tax payers. At the same time, the targeted jobs tax credit also affords businesses, large and small, the opportunity to reduce their tax burden. The targeted jobs tax credit also increases hiring from groups in our society which are historically disadvantaged and structurally unemployed, and thus begin to break the vicious cycle of poverty.

While health insurance costs have been escalating dramatically for all businesses, the costs have been significantly higher for small business. New data on health coverage in small firms indicates that they still employ a disproportionately large share of workers without employer provided health insurance. Moreover, nearly half of the self-employed workforce is uninsured.

The continuation of the 25 percent deduction for health insurance costs provides an incentive for more small business owners to purchase health insurance for themselves and their employees.

Again, I would like to state my support for the worthy programs I mentioned above as well as continuing the authority of States to issue tax-exempt small issue manufacturing bonds.

Mr. BLACKWELL. Mr. Speaker, I rise today to express my strong support for H.R. 3909. This economy needs a jump start and I can think of no better way to help get it going than by supporting this bill that will give tax credits for the construction of low-income housing. The low-income housing tax credit is the Nation's primary affordable housing tool, responsible for 94 percent of all low-income housing starts and more than 35 percent of all rental housing starts each year. In addition, this bill allows tax exempt status for mortgage revenue bonds, and gives tax credit for the hiring of disabled and disadvantaged workers. I firmly believe that we need affordable housing for the poor and the working class. We need jobs for all Americans, including the disabled, and we must support programs that encourage people to further their education. This comprehensive bill will offer millions of people the push that they need to get on with their lives. By supporting this legislation, we can help these people, and stimulate our fragile economy at the same time.

Ms. SLAUGHTER of New York. Mr. Speaker, I rise in support of the H.R. 3909, the compromise bill on extenders that will temporarily rescue the 12 expiring provisions of the Tax Code. I commend the wisdom of the Ways and Means Committee and the Senate Finance Committee in recognizing the importance of these expiring provisions.

While I strongly support the tax breaks for low-income housing, research and experimentation, and employer-provided educational assistance, among others, there is one expiring provision about which I have been particularly concerned. That provision is the deduction for interest on industrial revenue bonds, [IDB's] issued to provide capital for small manufacturers.

By providing a sound, responsible, reliable means of capital development, IDB's have played a critical role for small manufacturing firms. Such firms have long been a key component of the economy of my district, which includes parts of Greater Rochester, NY. While the manufacturing sector of our economy has been in decline in recent years, IDB's have been a useful mechanism in the struggle to reverse this trend. By reducing the cost of capital, IDB's encourage investment by small manufacturing firms. In recent years in New York, estimates are that $1 of every $10 invested in the small manufacturing industries has involved IDB's. In the Rochester area alone, IDB-financed projects have created more than 1,000 new jobs over the last 4 years.

I have fought to keep open the manufacturing sector's access to needed capital by introducing legislation, both this year and last, to extend the tax exemption on IDB's for a 5-year period. A 5-year extension is needed because our practice of piecemeal extensions of shorter time periods has discouraged some manufacturers from using IDB financing. While IDB's do work, small manufacturers need a program in place that provides continuity and an adequate planning horizon. Accordingly, H.R. 3909's 6-month extension is only a partial victory for small manufacturers. Congress must recognize the job creation and economic stimulus potential of a full 5-year extension of the IDB exemption.

As American manufacturers struggle to survive a recession, a credit crunch, and stiffening foreign competition, we owe nothing less to this backbone sector of our Nation's economy.

Ms. PELOSI. Mr. Speaker, I rise today in strong support of H.R. 3909, to extend 12 expiring tax provisions for 6 months. I would like to commend Chairman ROSTENKOWSKI and Ranking Member ARCHER for their work to develop this package. I know that bringing this bill to the floor today was not easy and required persistence, creativity, and commitment.

Included in these provisions are a number of important programs. Of particular interest to my constituents are the extension of the low-income housing tax credit and the mortgage revenue bond [MRB] programs. These two programs provide much need assistance for the development of affordable housing. I was pleased to work with Representative MACHTLEY in initiating a letter to Chairman ROSTENKOWSKI and Ranking Member ARCHER, cosigned by 225 of our colleagues, urging that these 2 worthy programs be extended.

The tax credit is a significant Federal incentive for the production and rehabilitation of low-income rental housing. Fully utilized, the credit is capabile of facilitating the production and rehabilitation of over 120,000 units of low-income house annually. If made permanent, the tax credit over the next decade could save approximately 620,000 low-income rental units which would otherwise be lost from the house stock. In the San Francisco Bay area, the tax credit has been used in a number of innovative affordable projects. I am very pleased that today we are acting to prevent its expiration.

The Mortgage Revenue Bond Progam, too, plays a significant role in providing affordable housing. The MRB Progam help to reduce home mortgage costs for lower income families, and in my city of San Francisco, helps to provide for moderate-income workers in the city who would otherwise not able to afford to live there. Nationwide, MRB's have assisted over 1.3 million low- and moderate-income families become homeowners.

The bill before us today takes a step in the direction of reordering our domestic priorities. The mechanism developed to raise the revenue needed to extend these expiring tax provisions will speed up tax collections on corporations. Currently, corporations pay taxes based on 90 percent of the current year's tax liability without having to pay an assessment for failure to pay estimated tax. H.R 3909 will require corporations with taxable income over $1 million to pay quarterly taxes based on 95 percent of their income. We implemented a similar change for individuals in orfer to fund the extension of unemployment benefits. It is fitting that today we are using changes to coporate taxation to fund the development of affordable housing.

Again, I would like to commend Chairman ROSTENKOWSKI and Congressman ARCHER for their success with this measure. I urge my colleagues to support H.R. 3909.

Mrs. ROUKEMA. Mr. Speaker, I rise today in strong support of H.R. 3909, a bill to extend for 6 months 12 vital tax provisions that are due to expire on December 31, 1991.

On November 23, I wrote to the chairman of the Ways and Means Committee, Mr. ROSTENKOWSKI, urging that he bring before the full House, prior to adjournment of this first session, legislation to extend these crucial tax provisions. I wish to thank both the chairman and the ranking Republican member of the Ways and Means Committee, Mr. ARCHER, for their efforts to bring this bill before us today.

Given our current recessionary economy, this bill is among the most important legislative initiatives that we will consider prior to adjournment. A number of New Jersey businesses have brought to my attention their strong support for extending various of these 12 tax provisions that they view as crucial to their operations. Also, I wish to point out that

this bill will help to ensure the availability of affordable housing for low- and moderate-income families, health insurance benefits for self-employed persons and their families, and employer-sponsored educational benefits for many Americans.

As the ranking Republican member of the Banking, Housing and Urban Affairs Subcommittee on Housing, and a strong proponent of affordable housing alternatives, I am particularly pleased to note that H.R. 3909 extends both the low-income housing tax credit and the authority of States to issue tax-exempt mortgage-revenue bonds. Earlier this year, I cosponsored H.R. 413 and H.R. 1067, bills to extend on a permanent basis the low-income housing tax credit and mortgage-revenue bond programs, respectively. Government entities and individual groups, together with many Members of this body committed to affordable housing, know the successful history of these programs.

Mr. Speaker, the mortgage-revenue bond program has enabled many low- and moderate-income Americans to purchase their own homes. In New Jersey, where real estate prices are amongst the highest in the Nation, and the gap between household income and home purchase prices has widened, mortgage-revenue bonds and the low-income housing tax credit are the only forms of Federal assistance remaining to facilitate affordable housing.

Mr. Speaker, the bill before us also extends the health insurance deduction for self-employed individuals and their families. Without this provision, many more American families would likely find themselves without necessary health care coverage. One illness or medical emergency could thrust such families into poverty. Thus, the extension of this provision will serve to protect the health and economic well-being of self-employed persons and their families.

I also wish to address the extreme importance of extending tax credits for business research and experimentation [R&E]. Since its enactment in 1981, this tax credit has proven to be an extremely effective incentive to American companies to increase their level of research on new technologies and new products. American businesses would be severely disadvantaged in international markets if the research and experimentation tax credits were allowed to lapse. It is estimated that the extension of these tax credits could lead to $27.5 billion in increased spending for R&E from 1991 to 1995. In addition to the obvious technological research benefits of this increased R&E spending, it would also serve to stimulate jobs, thereby bolstering local economies and businesses.

Last year, during the final hours of the budget debate, Congress approved a 12-month extension of these tax provisions. This year, under the resulting 1990 budget agreement, we must offset this 6-month extension of these tax provisions. This bill does so by speeding up tax collection from certain corporations who make quarterly estimated tax payments. Since a large number of such corporations benefit from these tax provisions, this is an appropriate offset.

While a permanent extension of these credits would be preferable, I believe that we will revisit this issue next year when we tackle the difficult economic and tax issues that we all know must be addressed at the earliest possible opportunity.

Mr. Speaker, I urge my colleagues to lend their support to this bill. It is good for business, good for job creation, good for the economy, and good for America. I also urge our colleagues in the other body to act quickly on this high-priority measure so that we may ensure that there will be no interruption in the operation of these 12 essential programs.

Ms. DELAURO. Mr. Speaker, today, on the last day of this legislative session, we are debating one of the most important bills we have considered this year. H.R. 3909, which will extend a number of crucial tax incentives, is good news for businesses in my State and around the country.

The Government policies addressed in this legislation will help businesses that are struggling to survive this recession—they must not be allowed to lapse. Between 1980 and 1990, an average of 183 businesses per year declared bankruptcy in my State of Connecticut. This year, 526 businesses declared bankruptcy in the first 8 months. Clearly, something must be done.

This bill would extend a dozen vital tax measures scheduled to expire at the end of this year. The incentives in this bill will help businesses, expecially in the slumping real estate sector, to endure these tough economic times. If we allow them to expire, we risk doing serious damage to businesses already weakened by the recession.

Some of the most significant provisions are: Tax credits for business research and experimentation, which will help American businesses and universities invest in the future; low-income housing tax credits and mortgage-revenue bonds, which are vital to the development of affordable housing for low- and moderate-income Americans; deductions of health insurance costs for the self-employed, which allow self-employed individuals to deduct their health care costs in the same manner as larger businesses; and the targeted jobs tax credit, which encourages businesses to hire disabled and disadvantaged workers.

Other provisions in this bill include: Exclusion from taxes of employee-provided education assistance, tax credits for business investment in solar and geothermal energy equipment, and authority to issue tax-exempt small issue manufacturing bonds.

This legislation will not solve the economic ills facing our country. We need to do much, much more. The bill before us extends most of the expiring tax incentives only through the first 6 months of next year. Many, if not most, of these provisions will need to be extended further, and some are worthy of permanent extension.

But this bill represents our commitment to helping businesses through this devastating period and creating new growth, new jobs, and new hope for the future. For businesses surviving on the edge, this legislation will bring a much needed reprieve from the economic pressures they face.

Mr. Speaker, we cannot afford to allow these vital programs to expire. I call on my colleagues to join me in supporting this important proposal.

Mr. ROSTENKOWSKI. Mr. Speaker, I have no further requests for time and yield back the balance of my time.

The SPEAKER pro tempore, (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Illinois [Mr. ROSTENKOWSKI] that the House suspend the rules and pass the bill (H.R. 3909) as amended.

The question was taken.

Mr. ARCHER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 5 of rule I and the Chair's prior announcement, further proceedings on this motion will be postponed.

FOOD, AGRICULTURE, CONSERVATION AND TRADE ACT AMENDMENTS OF 1991

Mr. DE LA GARZA. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 305) concurring in the Senate amendment to H.R. 3029 with an amendment.

The Clerk read as follows:

H. RES. 305

Resolved, That upon adoption of this resolution, the House shall be considered to have taken from the Speaker's table the bill (H.R. 3029) to make technical corrections to agricultural laws, with the Senate amendment thereto, and to have concurred in the Senate amendment with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Food, Agriculture, Conservation, and Trade Act Amendments of 1991".

SEC. 2. TABLE OF CONTENTS.

The table of contents for this Act is as follows:

TITLE I—AGRICULTURAL COMMODITY PROGRAMS

Sec. 101. References.
Sec. 102. Conserving use acres.
Sec. 103. Double cropping of 0/92 acres.
Sec. 104. Announcement of acreage reduction programs for rice.
Sec. 105. Corn and sorghum bases.
Sec. 106. Cover crops on reduced acreage.
Sec. 107. Cotton user marketing certificates.
Sec. 108. Malting barley.
Sec. 109. Deficiency payments for wheat, barley, and oats.
Sec. 110. Minor oilseed loan rates.
Sec. 111. Sugar.
Sec. 112. Crop acreage base.
Sec. 113. Miscellaneous amendments to the Agricultural Act of 1949.
Sec. 114. Miscellaneous amendments relating to the Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 115. Miscellaneous amendments to the Agricultural Adjustment Act.
Sec. 116. Miscellaneous amendments to the Agricultural Adjustment Act of 1938.
Sec. 117. Section redesignation.
Sec. 118. Other miscellaneous commodity amendments.
Sec. 119. Sense of Congress regarding imported barley and oats.

Sec. 120. Cotton classing fees.
Sec. 121. Sense of Congress regarding targeted option payments.
Sec. 122. Transfer of peanut quota undermarketings.
Sec. 123. Cotton futures contracts.
Sec. 124. Lamb price and supply reporting services report and system.
Sec. 125. Cotton first handler marketing certificates.
Sec. 126. Production of black-eyed peas for donation.
Sec. 127. Milk price support program limited to 48 contiguous States.
Sec. 128. Modification of milk production termination program.
TITLE II—CONSERVATION
Sec. 201. Amendments to the Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 202. Amendment to the Soil Conservation and Domestic Allotment Act.
Sec. 203. Farms for the Future.
Sec. 204. Amendments to the Food Security Act of 1985.
TITLE III—AGRICULTURAL TRADE
Sec. 301. Superfluous punctuation in farmer to farmer provisions.
Sec. 302. Punctuation correction in Enterprise for the Americas Initiative.
Sec. 303. Spelling correction in section 604.
Sec. 304. Missing word in section 606.
Sec. 305. Punctuation error in section 607.
Sec. 306. Typographical correction in section 612.
Sec. 307. Erroneous quotation.
Sec. 308. Punctuation correction.
Sec. 309. Date correction.
Sec. 310. Missing subtitle heading correction.
Sec. 311. Redesignation of subsection.
Sec. 312. Date correction to section 404.
Sec. 313. Date correction to section 416.
Sec. 314. Redesignation of section.
Sec. 315. Cross reference correction.
Sec. 316. Placement clarification.
Sec. 317. Punctuation correction.
Sec. 318. Elimination of obsolete cross reference.
Sec. 319. Cross reference correction.
Sec. 320. Correcting clerical errors in section 204 of the Agricultural Trade Act of 1978.
Sec. 321. Capitalization correction.
Sec. 322. Correction of error in date.
Sec. 323. Correction of typographical error.
Sec. 324. Cross reference correction.
Sec. 325. Elimination of superfluous word.
Sec. 326. Cross reference correction.
Sec. 327. Amendment to section 602.
Sec. 328. Section 407 corrections.
Sec. 329. Section 407(b) amendment.
Sec. 330. Supplemental views in annual report.
Sec. 331. Consultations with Congress.
Sec. 332. Statute designation.
Sec. 333. Correction of placement and indentation of subparagraph.
Sec. 334. Export credit guarantee program.
Sec. 335. Technical amendments to the Food for Progress Program.
Sec. 336. Miscellaneous amendment to the Agricultural Trade Development and Assistance Act of 1954.
Sec. 337. Reporting requirements.
Sec. 338. Sharing United States agricultural expertise and information.
Sec. 339. Conforming amendment relating to the Environment for the Americas Board.
TITLE IV—RESEARCH
Sec. 401. Competitive, special, and facilities research grants.
Sec. 402. National Agricultural Research, Extension, and Teaching Policy Act of 1977.
Sec. 403. Rural development and small farm research and education.
Sec. 404. National Genetic Resources Program.
Sec. 405. Alternative agricultural research and commercialization.
Sec. 406. Deer tick research.
Sec. 407. Miscellaneous research provisions.
Sec. 408. Sustainable agriculture research and education.
TITLE V—CREDIT
Sec. 501. Amendments to the Consolidated Farm and Rural Development Act.
Sec. 502. Amendments to the Farm Credit Act of 1971.
Sec. 503. Federal Agricultural Mortgage Corporation.
TITLE VI—CROP INSURANCE AND DISASTER ASSISTANCE
Sec. 601. Federal crop insurance.
Sec. 602. Disaster relief.
TITLE VII—RURAL DEVELOPMENT
Sec. 701. Amendments to the Consolidated Farm and Rural Development Act.
Sec. 702. Amendments to the Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 703. Amendments to the Rural Electrification Act of 1936.
Sec. 704. Rural health leadership development.
TITLE VIII—AGRICULTURAL PROMOTION
Sec. 801. Short title.
Sec. 802. Pecans.
Sec. 803. Mushrooms.
Sec. 804. Potatoes.
Sec. 805. Limes.
Sec. 806. Soybeans.
Sec. 807. Honey.
Sec. 808. Cotton.
Sec. 809. Fluid milk.
Sec. 810. Wool.
TITLE IX—FOOD AND NUTRITION PROGRAMS
Subtitle A—Food Stamp Program
Sec. 901. Application of Food Stamp Act of 1977 to disabled persons.
Sec. 902. Categorical eligibility for recipients of general assistance.
Sec. 903. Exclusions from income.
Sec. 904. Resources that cannot be sold for a significant return.
Sec. 905. Resource exemption for households exempt under AFDC or SSI.
Sec. 906. Technical amendment on transitional housing.
Sec. 907. Performance standards for employment and training programs.
Sec. 908. Suspension of certain requirements, and study, of food stamp program on Indian reservations.
Sec. 909. Value of allotment.
Sec. 910. Prorating within a certification period.
Sec. 911. Recovery of claims caused by nonfraudulent household errors.
Sec. 912. Demonstration projects for vehicle exclusion limit.
Sec. 913. Definition of retail food store.
Subtitle B—Commodity Distribution
Sec. 921. Extension of elderly commodity processing demonstrations.
Sec. 922. Reduction of Federal paperwork for distribution of commodities.
Subtitle C—Indian Subsistence Farming Demonstration Grant
Sec. 931. Purposes.
Sec. 932. Definitions.
Sec. 933. Indian subsistence farming demonstration grant program.
Sec. 934. Training and technical assistance.
Sec. 935. Tribal consultation.
Sec. 936. Use of grants.
Sec. 937. Amount and term of grant.
Sec. 938. Other requirements.
Sec. 939. Authorization of appropriations.
Subtitle D—Technical Amendments
Sec. 941. Technical amendments to the Food Stamp Act of 1977.
Sec. 942. Amendment relating to the Hunger Prevention Act of 1988.
TITLE X—MISCELLANEOUS TECHNICAL CORRECTIONS
Sec. 1001. Organic certification.
Sec. 1002. Agricultural fellowships.
Sec. 1003. Outreach and assistance for socially disadvantaged farmers and ranchers.
Sec. 1004. Protection of pets.
Sec. 1005. Critical agricultural materials.
Sec. 1006. Amendments to FIFRA and related provisions.
Sec. 1007. Grain standards.
Sec. 1008. Packers and stockyards.
Sec. 1009. Redundant language in Warehouse Act.
Sec. 1010. Clarification of Food, Agriculture, Conservation, and Trade Act of 1990.
Sec. 1011. Perishable agricultural commodities.
Sec. 1012. Egg products inspection.
Sec. 1013. Prevention of introduction of brown tree snakes to Hawaii from Guam.
Sec. 1014. Grant to prevent and control potato diseases.
Sec. 1015. Collection of fees for inspection services.
Sec. 1016. Exemption and study of certain food products.
Sec. 1017. Fees for laboratory accreditation.
Sec. 1018. State and private forestry technical amendments.
TITLE XI—EFFECTIVE DATES
Sec. 1101. Effective dates.

TITLE I—AGRICULTURAL COMMODITY PROGRAMS

SEC. 101. REFERENCES.

Except as otherwise specifically provided, whenever in this title a section is amended, repealed, or referenced, such amendment, repeal, or reference shall be considered to be made to that section of the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.).

SEC. 102. CONSERVING USE ACRES.

(a) RICE.—Section 101B(c)(1)(E) (7 U.S.C. 1441–2(c)(1)(E)) is amended—

(1) by indenting 2 ems the left margin of clauses (i) and (ii) and redesignating such clauses as subclauses (I) and (II), respectively;

(2) by striking "(E) ALTERNATIVE CROPS.—The Secretary" and inserting the following:

"(E) ALTERNATIVE CROPS.—

"(i) INDUSTRIAL AND OTHER CROPS.—The Secretary";

(3) by indenting 2 ems the left margin of clause (i) (as amended by paragraph (2));

(4) by striking "sesame, castor beans, crambe," and inserting "castor beans,";

(5) by striking "rye, mung beans," and inserting "rye, millet, mung beans,";

(6) in subclause (I) (as redesignated by paragraph (1)), by striking "and will not affect farm income adversely"; and

(7) by adding at the end the following new clause:

"(ii) SESAME AND CRAMBE.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sesame and crambe. In implementing this clause, if the Secretary determines that sesame or crambe are considered oilseeds under section 205, the Secretary shall provide that, in order to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of sesame or crambe produced on the farm.".

(b) COTTON.—Section 103B(c)(1)(E) (7 U.S.C. 1444–2(c)(1)(E)) is amended—

(1) by indenting 2 ems the left margin of clauses (i) and (ii) and redesignating such clauses as subclauses (I) and (II), respectively;

(2) by striking "(E) ALTERNATIVE CROPS.—The Secretary" and inserting the following:

"(E) ALTERNATIVE CROPS.—

"(i) INDUSTRIAL AND OTHER CROPS.—The Secretary";

(3) by indenting 2 ems the left margin of clause (i) (as amended by paragraph (2));

(4) by striking "sesame, castor beans, crambe," and inserting "castor beans,";

(5) by striking "rye, mung beans," and inserting "rye, millet, mung beans,";

(6) in subclause (I) (as redesignated by paragraph (1)), by striking "and will not affect farm income adversely"; and

(7) by adding at the end the following new clause:

"(ii) SESAME AND CRAMBE.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sesame and crambe. In implementing this clause, if the Secretary determines that sesame or crambe are considered oilseeds under section 205, the Secretary shall provide that, in order to receive payments under subparagraph (D), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of sesame or crambe produced on the farm.".

(c) FEED GRAINS.—Section 105B(c)(1)(F) (7 U.S.C. 1444f(c)(1)(F)) is amended—

(1) in clause (i)—

(A) by striking "sesame, castor beans, crambe," and inserting "castor beans,";

(B) by striking "rye, mung beans," and inserting "rye, millet, mung beans,"; and

(C) in subclause (I), by striking "and will not affect farm income adversely"; and

(2) in clause (ii), by striking "mustard seed, and" and inserting "mustard seed, sesame, crambe, and".

(d) WHEAT.—Section 107B(c)(1)(F) (7 U.S.C. 1445b–3a(c)(1)(F)) is amended—

(1) in clause (i)—

(A) by striking "sesame, castor beans, crambe," and inserting "castor beans,";

(B) by striking "rye, mung beans," and inserting "rye, millet, mung beans,"; and

(C) in subclause (I), by striking "and will not affect farm income adversely"; and

(2) in clause (ii), by striking "mustard seed, and" and inserting "mustard seed, sesame, crambe, and".

SEC. 103. DOUBLE CROPPING OF 0/92 ACRES.

(a) FEED GRAINS.—Section 105B(c)(1)(F) (7 U.S.C. 1444f(c)(1)(F)) is amended by adding at the end the following new clause:

"(iii) DOUBLE CROPPING.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any portion of the acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) that is devoted to an industrial, oilseed, or other crop pursuant to clause (i) or (ii) to be subsequently planted during the same crop year to any crop described in subparagraph (B), (C), or (D) of section 504(b)(1). The planting of soybeans as such subsequently planted crop shall be limited to farms determined by the Secretary to have an established history of double cropping soybeans during at least 3 of the preceding 5 years. In implementing this clause, the Secretary shall require producers to agree to forego eligibility to receive loans under this Act for the crop of the subsequently planted crop that is produced on a farm under this clause.".

(b) WHEAT.—Section 107B(c)(1)(F) (7 U.S.C. 1445b–3a(c)(1)(F)) is amended by adding at the end the following new clause:

"(iii) DOUBLE CROPPING.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any portion of the acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) that is devoted to an industrial, oilseed, or other crop pursuant to clause (i) or (ii) to be subsequently planted during the same crop year to any crop described in subparagraph (B), (C), or (D) of section 504(b)(1). The planting of soybeans as such subsequently planted crop shall be limited to farms determined by the Secretary to have an established history of double cropping soybeans during at least 3 of the preceding 5 years. In implementing this clause, the Secretary shall require producers to agree to forego eligibility to receive loans under this Act for the crop of the subsequently planted crop that is produced on a farm under this clause.".

SEC. 104. ANNOUNCEMENT OF ACREAGE REDUCTION PROGRAMS FOR RICE.

Section 101B(e)(1) (7 U.S.C. 1441–2(e)(1)) is amended by striking subparagraph (C) and inserting the following new subparagraph:

"(C) ANNOUNCEMENTS.—

"(i) PRELIMINARY ANNOUNCEMENT.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall make a preliminary announcement of any such program not later than December 1 of the calendar year preceding the year in which the crop is harvested (or, for the 1992 crop, as soon as practicable after the date of enactment of this subparagraph). The preliminary announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the rice crop acreage base described in paragraph (2)(A).

"(ii) FINAL ANNOUNCEMENT.—Not later than January 31 of the calendar year in which the crop is harvested, the Secretary shall make a final announcement of the program. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the rice crop described in paragraph (2)(A).".

SEC. 105. CORN AND SORGHUM BASES.

Section 105B(e)(2) (7 U.S.C. 1444f(c)(2)) is amended by adding at the end the following new subparagraph:

"(H) CORN AND SORGHUM BASES.—Notwithstanding any other provision of this Act, with respect to each of the 1992 through 1995 crops of corn and grain sorghums—

"(i) the Secretary shall combine the permitted acreages established under subparagraph (D) for a farm for a crop year for corn and grain sorghums;

"(ii) for each crop year, the sum of the acreage planted and considered planted to corn and grain sorghum, as determined by the Secretary under this section and title V, shall be prorated to corn and grain sorghum based on the ratio of the crop acreage base for the individual crop of corn or grain sorghum, as applicable, to the sum of the crop acreage bases for corn and grain sorghum established for each crop year; and

"(iii) for each crop year, the sum of the corn and grain sorghum payment acres, as determined under subsection (c), shall be prorated to corn and grain sorghum based on the ratio of the maximum payment acres for the individual crop of corn or grain sorghum, as applicable, to the sum of the maximum payment acres for corn and grain sorghum established for each crop year.".

SEC. 106. COVER CROPS ON REDUCED ACREAGE.

(a) RICE.—Clause (i) of section 101B(e)(4)(B) (7 U.S.C. 1441–2(e)(4)(B)(i)) is amended to read as follows:

"(i) REQUIRED.—

"(I) IN GENERAL.—Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of rice under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of rice, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

"(II) ARID AREAS.—Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

"(III) APPROVAL OF COVER CROPS AND PRACTICES.—The State committees, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.".

(b) COTTON.—Clause (i) of section 103B(e)(4)(B) (7 U.S.C. 1444–2(e)(4)(B)(i)) is amended to read as follows:

"(i) REQUIRED.—

"(I) IN GENERAL.—Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of upland cotton under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of upland cotton, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

"(II) ARID AREAS.—Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

"(III) APPROVAL OF COVER CROPS AND PRACTICES.—The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.".

(c) FEED GRAINS.—Clause (i) of section 105B(e)(4)(B) (7 U.S.C. 1444f(e)(4)(B)(i)) is amended to read as follows:

"(i) REQUIRED.—

"(I) IN GENERAL.—Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of feed grains under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of feed grains, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

"(II) ARID AREAS.—Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

"(III) APPROVAL OF COVER CROPS AND PRACTICES.—The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.".

(d) WHEAT.—Clause (i) of section 107B(e)(4)(B) (7 U.S.C. 1445b–3a(e)(4)(B)(i)) is amended to read as follows:

"(i) REQUIRED.—

"(I) IN GENERAL.—Except as provided in subclause (II) and paragraph (2), a producer who participates in an acreage reduction program established for a crop of wheat under this subsection shall be required to plant to, or maintain as, an annual or perennial cover 50 percent (or more at the option of the producer) of the acreage that is required to be removed from the production of wheat, but not to exceed 5 percent (or more at the option of the producer) of the crop acreage base established for the crop.

"(II) ARID AREAS.—Subclause (I) shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary. If the Secretary determines any county in a State to be arid, the respective State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may designate any other county or counties or all of the State as arid for the purposes of this paragraph.

"(III) APPROVAL OF COVER CROPS AND PRACTICES.—The State committee, after receiving recommendations from the county committees, shall approve appropriate crops planted or maintained as cover, including, as appropriate, annual or perennial native grasses and legumes or other vegetation. The State committee shall establish the final seeding date for the planting of the cover and shall approve appropriate cover crops or practices, after consulting the Soil Conservation Service State Conservationist regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion. After the Secretary establishes the State technical committee for the State pursuant to section 1261 of the Food Security Act of 1985 (16 U.S.C. 3861), the State committee shall consult with the technical committee (rather than the Soil Conservation Service State Conservationist) regarding whether the crops or practices will sufficiently protect the land from weeds and wind and water erosion.".

SEC. 107. COTTON USER MARKETING CERTIFICATES.

(a) ISSUANCE.—Section 103B(a)(5)(E) (7 U.S.C. 1444–2(a)(5)(E)) is amended—

(1) by striking clause (i) and inserting the following new clause:

"(i) ISSUANCE.—Subject to clause (iv), during the period beginning August 1, 1991, and ending July 31, 1996, the Secretary shall issue marketing certificates or cash payments to domestic users and exporters for documented purchases by domestic users and sales for export by exporters made in the week following a consecutive 4-week period in which—

"(I) the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe exceeds the Northern Europe price by more than 1.25 cents per pound; and

"(II) the prevailing world market price for upland cotton (adjusted to United States quality and location), established under subparagraph (C), does not exceed 130 percent of the current crop year loan level for the base quality of upland cotton, as determined by the Secretary.";

(2) in clause (ii), by striking "marketing certificates" and inserting "marketing certificates or cash payments"; and

(3) by adding at the end the following new clause:

"(iv) EXCEPTION.—The Secretary shall not issue marketing certificates or cash payments under clause (i) if, for the immediately preceding consecutive 10-week period, the Friday through Thursday average price quotation for the lowest priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificate issued under this subparagraph, exceeds the Northern Europe price by more than 1.25 cents per pound.".

(b) PREVAILING WORLD MARKET PRICE.—Section 103B(a)(5)(C)(ii) (7 U.S.C. 1444–2(a)(5)(C)(ii)) is amended by striking "and (B)" and inserting ", (B), and (E)".

SEC. 108. MALTING BARLEY.

Section 105B (7 U.S.C. 1444f) is amended—

(1) in subsection (e)(2)(G), by adding at the end the following new sentence: "The Secretary shall make an annual determination of whether to exempt such producers from compliance with any acreage limitation under this paragraph and shall announce such determination in the Federal Register."; and

(2) by striking subsection (p) and inserting the following new subsection:

"(p) MALTING BARLEY.—

"(1) ASSESSMENT REQUIRED.—In order to help offset costs associated with deficiency payments made available under this section to producers of barley, the Secretary shall provide for an assessment for each of the 1991 through 1995 crop years to be levied on any producer of malting barley produced on a farm that is enrolled for the crop year in the production adjustment program under this section. The Secretary shall establish such assessment at not more than 5 percent of the value of the malting barley produced on program payment acres on the farm during each of the 1991 through 1995 crop years. The production per acre on which the assessment is based shall not be greater than the farm program payment yield.

"(2) VALUE OF MALTING BARLEY.—The Secretary may establish the value of such malting barley at the lesser of the State or national weighted average market price received by producers of malting barley for the first 5 months of the marketing year. In calculating the State or national weighted average market price, the Secretary may exclude the value of malting barley that is contracted for sale by producers prior to planting.

"(3) EXCEPTION TO ASSESSMENT.—In counties where malting barley is produced, participating barley producers may certify to the Secretary prior to computation of final deficiency payments that part or all of the producer's production was (or will be) sold or used for nonmalting purposes. The portion certified as sold or used for nonmalting purposes shall not be subject to the assessment. The Secretary may require producers to provide to the Secretary such documentation as the Secretary considers appropriate to carry out this paragraph.".

SEC. 109. DEFICIENCY PAYMENTS FOR WHEAT, BARLEY, AND OATS.

Section 114(c) (7 U.S.C. 1445j(c)) is amended—

(1) in the material preceding the paragraphs, by striking "sections" and inserting "section";

(2) by redesignating paragraph (3) as paragraph (4); and

(3) by striking paragraph (2) and inserting the following new paragraphs:

"(2) With respect to feed grains (excluding barley and oats), 75 percent of the final projected deficiency payment for the crop, reduced by the amount of the advance, shall be made available as soon as practicable after the end of the first 5 months of the applicable marketing year.

"(3) With respect to wheat, barley, and oats, the final projected deficiency payment

for the crop, reduced by the amount of the advance, shall be made available as soon as practicable after the end of the first 5 months of the applicable marketing year. Such projected payment shall be based on the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 10 cents per bushel with respect to wheat or 7 cents per bushel with respect to barley and oats.".

SEC. 110. MINOR OILSEED LOAN RATES.

Section 205(c) (7 U.S.C. 1446f(c)) is amended—

(1) in paragraph (2), by striking "flaxseed" and inserting "flaxseed, individually,";

(2) in paragraph (3), by striking "that, in the case of cottonseed, in no event less" and inserting "in no event shall the level for such oilseeds (other than cottonseed) be less"; and

(3) by adding after and below paragraph (3) the following new sentence:

"To ensure that producers have an equitable opportunity to produce an alternative crop in areas of limited crop options, the Secretary may limit, insofar as practicable, adjustments in the loan rate established under paragraph (2) applicable to a particular region, State, or county for the purpose of reflecting transportation differentials such that the regional, State, or county loan rate does not increase or decrease by more than 9 percent from the basic national loan rate.".

SEC. 111. SUGAR.

(a) SUGAR PRICE SUPPORT AND MARKETING ASSESSMENTS.—Section 206 (7 U.S.C. 1446g) is amended—

(1) in subsection (e), by striking "announce the loan rate" and inserting "announce the basic loan rates for beet sugar and cane sugar";

(2) in subsection (f), by striking "Loans" and inserting "Except as provided in subsection (g), loans";

(3) by striking subsection (g) and inserting the following new subsection:

"(g) SUPPLEMENTARY NONRECOURSE LOANS.—The Secretary shall make available to eligible processors price support loans with respect to sugar processed from sugar beets and sugarcane harvested in the last 3 months of a fiscal year. Such loans shall mature at the end of the fiscal year. The processor may repledge the sugar as collateral for a price support loan in the subsequent fiscal year, except that the second loan shall—

"(1) be made at the loan rate in effect at the time the second loan is made; and

"(2) mature in 9 months less the quantity of time that the first loan was in effect."; and

(4) in subsection (i)—

(A) by striking paragraphs (1), (2), and (3) and inserting the following new paragraphs:

"(1) SUGARCANE.—Effective only for marketings of raw cane sugar during the 1992 through 1996 fiscal years, the first processor of sugarcane shall remit to the Commodity Credit Corporation a nonrefundable marketing assessment in an amount equal to .18 cents per pound of raw cane sugar, processed by the processor from domestically produced sugarcane or sugarcane molasses, that has been marketed (including the transfer or delivery of the sugar to a refinery for further processing or marketing).

"(2) SUGAR BEETS.—Effective only for marketings of beet sugar during the 1992 through 1996 fiscal years, the first processor of sugar beets shall remit to the Commodity Credit Corporation a nonrefundable marketing assessment in an amount equal to .193 cents per pound of beet sugar, processed by the processor from domestically produced sugar beets or sugar beet molasses, that has been marketed.

"(3) COLLECTION.—

"(A) TIMING.—Marketing assessments required under this subsection shall be collected on a monthly basis and shall be remitted to the Commodity Credit Corporation within 30 days after the end of each month. Any cane sugar or beet sugar processed during a fiscal year that has not been marketed by September 30 of that year shall be subject to assessment on that date. The sugar shall not be subject to a second assessment at the time that it is marketed.

"(B) MANNER.—Subject to subparagraph (A), marketing assessments shall be collected under this subsection in the manner prescribed by the Secretary and shall be nonrefundable."; and

(B) in paragraph (4), by striking "collect or remit the reduction" and inserting "remit the assessment".

(b) SECURITY INTERESTS.—Subsection (b) of section 405 (7 U.S.C. 1425) is amended to read as follows:

"(b) SUGARCANE AND SUGAR BEETS.—The security interests obtained by the Commodity Credit Corporation as a result of the execution of security agreements by the processors of sugarcane and sugar beets shall be superior to all statutory and common law liens on raw cane sugar and refined beet sugar in favor of the producers of sugarcane and sugar beets and all prior recorded and unrecorded liens on the crops of sugarcane and sugar beets from which the sugar was derived. The preceding sentence shall not affect the application of section 401(e)(2).".

(c) SUGAR INFORMATION REPORTING.—Section 359a of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359aa) is amended—

(1) by striking subsection (a) and inserting the following new subsection:

"(a) DUTY OF PROCESSORS, REFINERS AND MANUFACTURERS TO REPORT.—

"(1) PROCESSORS AND REFINERS.—All sugarcane processors, cane sugar refiners, and sugar beet processors shall furnish the Secretary, on a monthly basis, such information as the Secretary may require to administer sugar programs, including the quantity of purchases of sugarcane, sugar beets, and sugar, and production, importation, distribution, and stock levels of sugar.

"(2) MANUFACTURERS OF CRYSTALLINE FRUCTOSE.—All manufacturers of crystalline fructose from corn (hereafter in this part referred to as 'crystalline fructose') shall furnish the Secretary, on a monthly basis, such information as the Secretary may require with respect to the manufacturer's distribution of crystalline fructose.";

(2) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively;

(3) by inserting after subsection (a) the following new subsection:

"(b) DUTY OF PRODUCERS TO REPORT.—The Secretary may require a producer of sugarcane or sugar beets to report, in the manner prescribed by the Secretary, the producer's sugarcane or sugar beet yields and acres planted to sugarcane or sugar beets, respectively."; and

(4) in subsection (d) (as redesignated by paragraph (2))—

(A) by striking "data on imports," and inserting "data on production, imports,"; and

(B) by inserting "composite data on distributions of" after "sugar and".

(d) MARKETING ALLOTMENTS FOR SUGAR AND CRYSTALLINE FRUCTOSE.—Section 359b of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359bb) is amended—

(1) by striking subsection (a) and inserting the following new subsection:

"(a) SUGAR ESTIMATES.—

"(1) IN GENERAL.—Before the beginning of each of the fiscal years 1992 through 1996, the Secretary shall estimate—

"(A) the quantity of sugar that will be consumed in the United States during the fiscal year (other than sugar imported for the production of polyhydric alcohol or to be refined and reexported in refined form or in sugar containing products) and the quantity of sugar that would provide for reasonable carryover stocks;

"(B) the quantity of sugar that will be available from carry-in stocks or from domestically-produced sugarcane and sugar beets for consumption in the United States during the year; and

"(C) the quantity of sugar that will be imported for consumption in the United States during the year (other than sugar imported for the production of polyhydric alcohol or to be refined and reexported in a refined form or in sugar containing products), based on the difference between—

"(i) the sum of the quantity of estimated consumption and reasonable carryover stocks; and

"(ii) the quantity of sugar estimated to be available from domestically-produced sugarcane and sugar beets and from carry-in stocks.

"(2) QUARTERLY REESTIMATES.—The Secretary shall make quarterly reestimates of sugar consumption, stocks, production, and imports for a fiscal year no later than the beginning of each of the second through fourth quarters of the fiscal year.";

(2) by striking subsection (b) and inserting the following new subsection:

"(b) SUGAR ALLOTMENTS.—

"(1) IN GENERAL.—For any fiscal year in which the Secretary estimates, under subsection (a)(1)(C), that imports of sugar for consumption in the United States (other than sugar imported for the production of polyhydric alcohol or to be refined and reexported in refined form or in sugar containing products) will be less than 1,250,000 short tons, raw value, the Secretary shall establish for that year appropriate allotments under section 359c for the marketing by processors of sugar processed from domestically-produced sugarcane and sugar beets, at a level that the Secretary estimates will result in imports of sugar of not less than 1,250,000 short tons, raw value, for that year.

"(2) PRODUCTS.—The Secretary may include sugar products, whose majority content is sucrose or crystalline fructose for human consumption, derived from sugarcane, sugar beets, molasses or sugar in the allotments under paragraph (1) if the Secretary determines it to be appropriate for purposes of this part."; and

(3) in subsection (d)(4), by inserting after "the United States" the following: "(including, with respect to any integrated processor and refiner, the movement of raw cane sugar into the refining process)".

(e) ESTABLISHMENT OF MARKETING ALLOTMENTS.—Section 359c of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359cc) is amended—

(1) in subsection (b)(1)—

(A) by striking "from the estimated sugar consumption" and inserting "from the sum of the estimated sugar consumption and reasonable carryover stocks (at the end of the fiscal year)"; and

(B) in subparagraph (A), by striking "(representing minimum imports of sugar for consumption in the United States during the fiscal year)";

(2) in subsection (b)(2), by striking "prevent the accumulation of sugar acquired by" and inserting "avoid the forfeiture of sugar to";

(3) in subsection (f)—

(A) in the subsection heading, by striking "Sugarcane Allotment" and inserting "Cane Sugar Allotments"; and

(B) by striking "allotted among the 5 States in the United States in which sugarcane is produced" and inserting "allotted, among the 5 States in the United States in which sugarcane is produced,";

(4) in subsection (g)—

(A) by striking paragraph (1) and inserting the following new paragraph:

"(1) In general.—The Secretary shall, based on reestimates under section 359b(a)(2)—

"(A) adjust upward or downward marketing allotments established under subsections (a) through (f) in a fair and equitable manner;

"(B) establish marketing allotments for the fiscal year or any portion of such fiscal year; or

"(C) suspend the allotments,

as the Secretary determines appropriate, to reflect changes in estimated sugar consumption, stocks, production, or imports.".

(B) by striking paragraph (3) and inserting the following new paragraph:

"(3) Reductions.—Whenever a marketing allotment for a fiscal year is required to be reduced during the fiscal year under this subsection, if the quantity of sugar marketed, including sugar pledged as collateral for a price support loan under section 206 of the Agricultural Act of 1949 (7 U.S.C. 1446g), for the fiscal year at the time of the reduction by any individual processor covered by the allotment exceeds the processor's reduced allocation, the allocation of an allotment, if any, next established for the processor shall be reduced by the quantity of the excess sugar marketed."; and

(5) by striking subsection (h) and inserting the following new subsection:

"(h) Filling Cane Sugar and Beet Sugar Allotments.—Each marketing allotment for cane sugar established under this section may only be filled with sugar processed from domestically grown sugarcane, and each marketing allotment for beet sugar established under this section may only be filled with sugar processed from domestically grown sugar beets.".

(f) Allocation of Marketing Allotments.—Section 359d of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359dd) is amended—

(1) in subsection (a)(2) by striking "after such hearing" both places it appears and inserting "after a hearing, if requested by interested parties,"; and

(2) by striking subsection (b) and inserting the following new subsection:

"(b) Filling Cane Sugar Allotments.—Except as otherwise provided in section 359e, a State cane sugar allotment established under section 359c(f) for a fiscal year may be filled only with sugar processed from sugarcane grown in the State covered by the allotment.".

(g) Reassignments of Deficits.—Section 359e of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359ee) is amended to read as follows:

"SEC. 359e. REASSIGNMENT OF DEFICITS.

"(a) Estimates of Deficits.—At any time allotments are in effect under this part, the Secretary, from time to time, shall determine whether (in view of then-current inventories of sugar, the estimated production of sugar and expected marketings, and other pertinent factors) any processor of sugarcane will be unable to market the sugar covered by the portion of the State cane sugar allotment allocated to the processor and whether any processor of sugar beets will be unable to market sugar covered by the portion of the beet sugar allotment allocated to the processor.

"(b) Reassignment of Deficits.—

"(1) Cane sugar.—If the Secretary determines that any sugarcane processor who has been allocated a share of a State cane sugar allotment will be unable to market the processor's allocation of the State's allotment for the fiscal year—

"(A) the Secretary first shall reassign the estimated quantity of the deficit to the allocations for other processors within that State, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it and taking into account the interests of producers served by the processors;

"(B) if after the reassignments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit proportionately to the allotments for other cane sugar States, depending on the capacity of each other State to fill the portion of the deficit to be assigned to it, with the reassigned quantity to each State to be allocated among processors in that State in proportion to the allocations of the processors; and

"(C) if after the reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

"(2) Beet sugar.—If the Secretary determines that a sugar beet processor who has been allocated a share of the beet sugar allotment will be unable to market that allocation—

"(A) the Secretary first shall reassign the estimated quantity of the deficit to the allotments for other sugar beet processors, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it and taking into account the interests of producers served by the processors; and

"(B) if after the reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

"(3) Corresponding increase.—The allocation of each processor receiving a reassigned quantity of an allotment under this subsection for a fiscal year shall be increased to reflect the reassignment.".

(h) Provisions Applicable to Producers.—Section 359f(b) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359ff(b)) is amended—

(1) in paragraph (1)(A), by striking "250 producers in such State" and inserting "250 sugarcane producers in the State (other than Puerto Rico)";

(2) in paragraph (2), by striking "establish proportionate shares for the crop of sugarcane that is harvested during" and inserting "establish a proportionate share for each sugarcane-producing farm that limits the acreage of sugarcane that may be harvested on the farm for sugar or seed during"; and

(3) by striking paragraphs (3), (4), and (5) and inserting the following new paragraphs:

"(3) Method of determining.—For purposes of determining proportionate shares for any crop of sugarcane:

"(A) The Secretary shall establish the State's per-acre yield goal for a crop of sugarcane at a level (not less than the average per-acre yield in the State for the preceding 5 years, as determined by the Secretary) that will ensure an adequate net return per pound to producers in the State, taking into consideration any available production research data that the Secretary considers relevant.

"(B) The Secretary shall adjust the per-acre yield goal by the average recovery rate of sugar produced from sugarcane by processors in the State.

"(C) The Secretary shall convert the State allotment for the fiscal year involved into a State acreage allotment for the crop by dividing the State allotment by the per-acre yield goal for the State, as established under subparagraph (A) and as further adjusted under subparagraph (B).

"(D) The Secretary shall establish a uniform reduction percentage for the crop by dividing the State acreage allotment, as determined for the crop under subparagraph (C), by the sum of all adjusted acreage bases in the State, as determined by the Secretary.

"(E) The uniform reduction percentage for the crop, as determined under subparagraph (D), shall be applied to the acreage base for each sugarcane-producing farm in the State to determine the farm's proportionate share of sugarcane acreage that may be harvested for sugar or seed.

"(4) Acreage base.—For purposes of this subsection, the acreage base for each sugarcane-producing farm shall be determined by the Secretary, as follows:

"(A) The acreage base for any farm shall be the number of acres that is equal to the average of the acreage planted and considered planted for harvest for sugar or seed on the farm in each of the 5 crop years preceding the fiscal year the proportionate share will be in effect.

"(B) Acreage planted to sugarcane that producers on a farm were unable to harvest to sugarcane for sugar or seed because of drought, flood, other natural disaster, or other condition beyond the control of the producers may be considered as harvested for the production of sugar or seed for purposes of this paragraph.

"(5) Violation.—

"(A) In general.—Whenever proportionate shares are in effect in a State for a crop of sugarcane, producers on a farm shall not knowingly harvest, or allow to be harvested, for sugar or seed an acreage of sugarcane in excess of the farm's proportionate share for the fiscal year, or otherwise violate proportionate share regulations issued by the Secretary under section 359h(a).

"(B) Civil penalty.—Any producer who violates subparagraph (A) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of the quantity of sugar produced from that quantity of sugarcane involved in the violation. The quantity of sugarcane involved shall be determined based on the per-acre yield goal established under paragraph (3).".

(i) Special Rules.—Section 359g of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359gg) is amended—

(1) by striking subsections (a) and (b) and inserting the following new subsections:

"(a) Transfer of Acreage Base History.—For the purpose of establishing proportionate shares for sugarcane farms under section 359f, the Secretary, on application of any producer, with the written consent of all owners of a farm, may transfer the acreage base history of the farm to any other parcels of land of the applicant.

"(b) Preservation of Acreage Base History.—If for reasons beyond the control of a producer on a farm, the producer is unable to harvest an acreage of sugarcane for sugar or seed with respect to all or a portion of the proportionate share established for the farm under section 359f, the Secretary, on the application of the producer and with the written consent of all owners of the farm, may preserve for a period of not more than 3 consecutive years the acreage base history of the farm to the extent of the proportionate share involved. The Secretary may permit the proportionate share to be redistributed to other farms, but no acreage base history for purposes of establishing acreage bases shall accrue to the other farms by virtue of the redistribution of the proportionate share."; and

(2) in subsection (c)—

(A) by striking "hearing and"; and

(B) by inserting "required to be" after "proportionate share was".

(j) Regulations.—Subsection (a) of section 359h of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359hh(a)) is amended to read as follows:

"(a) Regulations.—The Secretary or the Commodity Credit Corporation, as appropriate, shall issue such regulations as may be necessary to carry out the authority vested in the Secretary in administering this part."; and

(k) Appeals.—Paragraph (2) of section 359i(b) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359ii(b)(2)) is amended to read as follows:

"(2) Hearing.—The Secretary shall provide each appellant an opportunity for a hearing before an administrative law judge in accordance with sections 554 and 556 of title 5, United States Code. The expenses for conducting the hearing shall be reimbursed by the Commodity Credit Corporation.".

SEC. 112. CROP ACREAGE BASE.

(a) Acreage Considered Planted.—Section 503(c) (7 U.S.C. 1463(c)) is amended—

(1) by redesignating paragraphs (6) and (7) as paragraphs (7) and (8) respectively; and

(2) by inserting after paragraph (5) the following new paragraph:

"(6) acreage in an amount not to exceed 20 percent of the crop acreage base for a crop of feed grains or wheat if—

"(A) the acreage is planted to dry peas, (limited to Austrian peas, wrinkled, seed, green, yellow, and umatilla) and lentils; and

"(B) payments are not received by producers under sections 105B(c)(1)(E) and 107B(c)(1)(E), as the case may be;".

(b) Adjustment of Bases.—Section 503(h) (7 U.S.C. 1463(h)) is amended—

(1) by striking "Bases.—The county" and inserting the following: "Bases.—

"(1) In general.—The county"; and

(2) by adding at the end the following new paragraph:

"(2) Restoration of crop acreage base.—

"(A) In general.—For the 1992 through 1995 crop years, the county committee shall allow an eligible producer to increase individual crop acreage bases on the farm, subject to subsection (a)(2), above the levels of base that would otherwise be established under this section, in order to restore the total of crop acreage bases on the farm for the 1992 through 1995 crop years to the same level as the total of crop acreage bases on the farm for the 1990 crop year.

"(B) Eligible producer defined.—For the purposes of this paragraph, the term 'eligible producer' means a producer of upland cotton or rice who, the appropriate county committee determines—

"(i) was required to reduce one or more individual crop acreage bases on the farm during the 1991 crop year in order to comply with subsection (a)(2) and the change in the calculation of cotton and rice crop acreage bases to a 3-year formula as provided in this section; and

"(ii) has participated in the price support program during the 1991 crop year and each subsequent crop year through the current crop year.

"(C) Regulations.—The Secretary shall issue regulations to carry out this paragraph.".

(c) Planting Flexibility.—Section 504(b)(1) (7 U.S.C. 1464(b)(1)) is amended—

(1) by striking "and" at the end of subparagraph (C);

(2) by striking the period at the end of subparagraph (D) and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(E) mung beans.".

SEC. 113. MISCELLANEOUS AMENDMENTS TO THE AGRICULTURAL ACT OF 1949.

The Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) is further amended—

(1) in section 101B(c)(1)(B) (7 U.S.C. 1441–2(c)(1)(B)), by redesignating the second clause (ii) as clause (iii);

(2) in section 103B(a) (7 U.S.C. 1444–2(a))—

(A) in paragraph (1)(B), by striking "upland cotton," and inserting "upland cotton),"; and

(B) in paragraph (3), by striking "the date of enactment of this Act" and inserting "November 28, 1990";

(3) in section 103B(n)(1)(D) (7 U.S.C. 1444–2(n)(1)(D)), by striking "effective date of the proclamation" and inserting "date the special quota is established by the Secretary";

(4) in section 105B(c)(1)(B)(iii)(IV)(bb) (7 U.S.C. 1444f(c)(1)(B)(iii)(IV)(bb)) by striking "(bb) Barley Calculations.—" and inserting "(bb) Barley calculations.—";

(5) in section 105B(g) (7 U.S.C. 1444f(g))—

(A) in paragraph (1), by striking "subsection (d)" and inserting "subsection (e)"; and

(B) in paragraph (6)(E), by striking "is" both places it appears and inserting "are";

(6) in section 107B(g)(1) (7 U.S.C. 1445b–3a(g)(1)), by striking "subsection (d)" and inserting "subsection (e)";

(7) in section 110 (7 U.S.C. 1445e)—

(A) in subsection (n), by striking "the date of enactment of this section" and inserting "November 28, 1990";

(B) by redesignating subsection (o) as subsection (p) and transferring such subsection to the end of the section; and

(C) in the second subsection (k)—

(i) by redesignating such subsection as subsection (o);

(ii) by striking "(o) In" and inserting "(o) Review.—In"; and

(iii) by striking "subsection (e)(1)" and inserting "this section";

(8) in section 201 (7 U.S.C. 1446), by redesignating subsection (b) (as amended by section 1161(b)(3) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3521)) as subsection (c);

(9) in section 202 (7 U.S.C. 1446a)—

(A) by striking "Administrator of Veterans' Affairs" each place it appears and inserting "Secretary of Veterans Affairs"; and

(B) by striking "Administrator" each place it appears and inserting "Secretary of Veterans Affairs";

(10) in section 204(h)(3) (7 U.S.C. 1446e(h)(3)), by adding at the end the following new sentence: "A refund under this subsection shall not be considered as any type of price support or payment for purposes of sections 1211 and 1221 of the Food Security Act of 1985 (16 U.S.C. 3811 and 3821).";

(11) in section 406(b)(4) (7 U.S.C. 1426(b)(4)), by striking "the date of enactment of this subsection" and inserting "November 28, 1990,"; and

(12) in section 426 (7 U.S.C. 1433e)—

(A) in subsection (c)—

(i) by striking "division" in paragraphs (1) and (6) and inserting "Division"; and

(ii) by striking "subsection (e)" in paragraph (7) and inserting "subsection (f)";

(B) in subsection (f), by striking "county or State" and inserting "State or county";

(C) in subsection (g), by striking "County Committees" and inserting "county committees"; and

(D) in subsection (h), by striking "section 8(e)" and inserting "section 8(b)".

SEC. 114. MISCELLANEOUS AMENDMENTS RELATING TO THE FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.

(a) In General.—The Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3359) is amended—

(1) in section 1124 (7 U.S.C. 1445e note; 104 Stat. 3506), by striking "warehouse" both places it appears and inserting "warehousemen";

(2) in section 1156 (7 U.S.C. 1421 note), by striking subsection (b) and inserting the following new subsection:

"(b) Funds.—The Corporation shall expend such funds as may be required to conduct the pilot program for futures options contract trading in the manner specified in this subtitle and the regulations issued, and contracts entered into, to carry out this subtitle, except that funds of the Corporation may not be used to carry out this subtitle unless the Secretary, in the sole discretion of the Secretary, determines in advance that such funds shall be used for this purpose.";

(3) in section 1353 (7 U.S.C. 1622 note; 104 Stat. 3567), by striking "et seq" and inserting "et seq.";

(4) in section 2241 (7 U.S.C. 1421 note; 104 Stat. 3963)—

(A) in subsection (a)(4)(A), by inserting "extra long staple cotton," after "upland cotton," each place it appears;

(B) in subsection (b)(1), by inserting "extra long staple cotton," after "upland cotton,"; and

(C) in subsection (b)(4), by inserting "extra long staple cotton," after "upland cotton,";

(5) in section 2243(b)(2)(A) (7 U.S.C. 1421 note; 104 Stat. 3966), by striking "to harvest" and inserting "for harvest";

(6) in section 2249 (7 U.S.C. 1421 note; 104 Stat. 3972), by striking "chapter" and inserting "subchapter" each place it appears;

(7) in section 2250(b)(1) (7 U.S.C. 1421 note; 104 Stat. 3973), by striking "cotton" and inserting "upland cotton, extra long staple cotton";

(8) in section 2257 (7 U.S.C. 1421 note; 104 Stat. 3974), by striking "chapter" and inserting "subchapter" each place it appears;

(9) in section 2258 (7 U.S.C. 1421 note; 104 Stat. 3975), by striking "chapter" and inserting "subchapter";

(10) in section 2259 (7 U.S.C. 1421 note; 104 Stat. 3975), by striking "chapter" and inserting "subchapter";

(11) in section 2263 (7 U.S.C. 1421 note; 104 Stat. 3975), by striking "chapter" and inserting "subchapter" each place it appears;

(12) in section 2265 (7 U.S.C. 1421 note; 104 Stat. 3976), by striking "chapter" and inserting "subchapter";

(13) in section 2266(a) (7 U.S.C. 1421 note; 104 Stat. 3976), by striking "subchapter" and inserting "chapter";

(14) in section 2267 (7 U.S.C. 1421 note; 104 Stat. 3976)—

(A) in subsection (a), by striking "subchapter" and inserting "chapter" each place it appears; and

(B) in subsection (b), by striking "chapter 1" and inserting "this chapter";

(15) in section 2268(b) (7 U.S.C. 1421 note; 104 Stat. 3976), by striking "subchapter" and inserting "chapter"; and

(16) in section 2271 (7 U.S.C. 1421 note; 104 Stat. 3977), by striking "payment of" and inserting "payments or".

(b) PRICE SUPPORT FOR HIGH MOISTURE FEED GRAINS.—

(1) IN GENERAL.—Section 105B of the Agricultural Act of 1949 (7 U.S.C. 1444f) is amended—

(A) by redesignating subsection (q) as subsection (r); and

(B) by inserting after subsection (p) the following new subsection:

"(q) PRICE SUPPORT FOR HIGH MOISTURE FEED GRAINS.—

"(1) RECOURSE LOANS.—Notwithstanding any other provision of law, effective for each of the 1991 through 1995 crops of feed grains, the Secretary (through the Commodity Credit Corporation) shall make available recourse loans, as determined by the Secretary, to producers on a farm who—

"(A) normally harvest all or a portion of their crop of feed grains in a high moisture state, hereinafter in this subsection defined as a feed grain having a moisture content in excess of Commodity Credit Corporation standards for loans made by the Secretary under paragraphs (1) and (6) of subsection (a);

"(B)(i) present certified scale tickets from an inspected, certified commercial scale, including licensed warehouses, feedlots, feed mills, distilleries, or other similar entities approved by the Secretary, pursuant to regulations issued by the Secretary; or

"(ii) present field or other physical measurements of the standing or stored feed grain crop in regions of the country, as determined by the Secretary, that do not have certified commercial scales from which certified scale tickets may be obtained within reasonable proximity of harvest operation;

"(C) certify that they were the owners of the feed grain at the time of delivery to, and that the quantity to be placed under loan was in fact harvested on the farm and delivered to, a feedlot, feed mill, or commercial or on-farm high-moisture storage facility, or to such facilities maintained by the users of such high-moisture feed grain;

"(D) comply with deadlines established by the Secretary for harvesting the feed grain and submit applications for loans within deadlines established by the Secretary; and

"(E) participate in an acreage limitation program for the crop of feed grains established by the Secretary.

"(2) ELIGIBILITY OF ACQUIRED FEED GRAINS.—The loans shall be made on a quantity of feed grains of the same crop acquired by the producer equivalent to a quantity determined by multiplying—

"(A) the acreage of the feed grain in a high moisture state harvested on the producer's farm; by

"(B) the lower of the farm program payment yield or the actual yield on a field, as determined by the Secretary, that is similar to the field from which such high moisture feed grain was obtained.".

(2) CONFORMING AMENDMENT.—Section 404 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 1444f–1) is repealed.

SEC. 115. MISCELLANEOUS AMENDMENTS TO THE AGRICULTURAL ADJUSTMENT ACT.

The Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended—

(1) in section 8b(b)(2) (7 U.S.C. 608b(b)(2)), by striking "(7 U.S.C. 1445c–2)" and inserting "(7 U.S.C. 1445c–3)"; and

(2) in section 8c(5)(B)(ii) (7 U.S.C. 608c(5)(B)(ii)), is amended by striking "and," before clause (f) and inserting ", and".

SEC. 116. MISCELLANEOUS AMENDMENTS TO THE AGRICULTURAL ADJUSTMENT ACT OF 1938.

The Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) is amended—

(1) in section 319(l) (7 U.S.C. 1314e(l))—

(A) by inserting "in a State" after "one farm";

(B) by striking "of Tennessee"; and

(C) by adding at the end the following new sentence: "This subsection shall apply only to the States of Tennessee and Virginia.";

(2) in section 374(a) (7 U.S.C. 1374(a))—

(A) by inserting after "30 inch rows" the following: "(or, at the option of those cotton producers who had an established practice of using 32 inch rows before the 1991 crop, 32 inch rows)"; and

(B) by adding at the end the following new sentence: "For the 1992 through 1995 crops, the rules establishing the requirements for eligibility for conserving use for payment acres shall be the same rules as were in effect for 1991 crops."; and

(3) in section 379(a) (7 U.S.C. 1379(a))—

(A) by striking "or" at the end of paragraph (4);

(B) by striking the period at the end of paragraph (5) and inserting "; or";

(C) by striking "; or" at the end of paragraph (6) and inserting a period; and

(D) by redesignating paragraph (7) as subsection (c), moving such subsection to appear after subsection (b), and conforming the left margin of such subsection to subsection (b).

SEC. 117. SECTION REDESIGNATION.

(a) SECTION REDESIGNATION.—Sections 359 and 359a of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359 and 1359a) are redesignated as sections 358d and 358e, respectively.

(b) CONFORMING AMENDMENTS AS RESULT OF REDESIGNATIONS.—

(1) PRICE SUPPORT PROGRAM.—The Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) is amended—

(A) in section 108A(3)(A) (7 U.S.C. 1445c–2(3)(A)), by striking "section 359" each place it appears and inserting "section 358d"; and

(B) in section 108B(c)(1) (7 U.S.C. 1445c–3(c)(1)), by striking "sections 359 and 359a" each place it appears and inserting "sections 358d and 358e".

(2) MARKETING QUOTAS.—The Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) is amended—

(A) in section 358(v)(3) (7 U.S.C. 1358(v)(3)), by striking "section 359(c)" and inserting "section 358d(c)";

(B) in section 358–1(e)(3) (7 U.S.C. 1358–1(e)(3)), by striking "section 359(c)" and inserting "section 358d(c)";

(C) in section 358d (7 U.S.C. 1359), as redesignated by subsection (a)—

(i) by striking "section 359(a)" in subsection (b) and inserting "subsection (a)"; and

(ii) by striking "section 108B" each place it appears in subsections (m)(1)(C), (p)(1), and (r)(2)(A) and inserting "section 108A"; and

(D) in section 358e(b)(1) (7 U.S.C. 1359a(b)(1)), as redesignated by subsection (a), by striking "section 359(c)" and inserting "section 358d(c)".

SEC. 118. OTHER MISCELLANEOUS COMMODITY AMENDMENTS.

(a) MISSING LANGUAGE.—Section 5(i)(3) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note) is amended by striking "(42 U.S.C. 1396d(5)))" and inserting "(42 U.S.C. 1396d(5))))".

(b) MISSING LANGUAGE.—Section 1001(2)(B)(iv) of the Food Security Act of 1985 (7 U.S.C. 1308(2)(B)(iv)) is amended by inserting "section" before "107B(c)(1)".

(c) EXTRA LANGUAGE.—Section 1001A(a)(2) of the Food Security Act of 1985 (7 U.S.C. 1308–1(a)(2)) is amended by striking "0 to".

(d) AMENDMENT TO FOOD AND AGRICULTURE ACT OF 1962.—Section 326 of the Food and Agriculture Act of 1962 (7 U.S.C. 1339a) is amended by adding at the end the following sentences: "The authority provided in this section shall be in addition to any other authority provided to the Secretary under any other Act. This section shall be applicable to an action taken by a representative of the Secretary that occurs before, on, or after November 28, 1990. This section shall not apply to a pattern of conduct where authorized representatives of the Secretary take actions or provide advice with respect to producers that the representatives and producers know are inconsistent with applicable laws and regulations.".

(e) AMENDMENT TO THE FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.—Section 102(b)(1)(B) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 1446e–1(b)(1)(B)) is amended by striking "Commodity Credit Corporation" and inserting "Secretary".

(f) CLARIFICATION OF AMENDMENT.—Section 704 of the National Wool Act of 1954 (7 U.S.C. 1782) is amended by striking "SEC." and all that follows through "If payments" in the first sentence of subsection (a) and inserting the following:

"SEC. 704. PAYMENT AS MEANS OF PRICE SUPPORT.

"(a) USE OF PAYMENTS.—If payments".

SEC. 119. SENSE OF CONGRESS REGARDING IMPORTED BARLEY AND OATS.

(a) FINDINGS.—Congress finds that—

(1) significant quantities of barley and oats are currently being imported into the United States from Norway, Sweden, and Finland origins, and there is reason to believe that such imports will continue in the future;

(2) such imported barley and oats are being purchased at a price artificially established at a level significantly below that of domestically produced barley and oats due to unfair and predatory export subsidies and schemes employed by the exporting countries of origin; and

(3) it is likely that the continued importation of such quantities of subsidized barley and oats will significantly and adversely affect producers of domestic barley and oats and impair the operations of existing farm commodity programs for barley and oats in the United States.

(b) SENSE OF CONGRESS.—Based on these findings, it is the sense of Congress that the Secretary of Agriculture and the President of the United States should immediately and aggressively employ all available options under existing laws, including those under section 22 of the Agricultural Adjustment Act (7 U.S.C. 624), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, in order to prevent material damage to the producers of domestic barley and oats and to prevent material interference with the programs established pursuant to section 105B of the Agricultural Act of 1949 (7 U.S.C. 1444f).

SEC. 120. COTTON CLASSING FEES.

(a) EXTENSION OF AUTHORIZATION.—The first sentence of section 3a of the Cotton Statistics and Estimates Act (7 U.S.C. 473a)

is amended to read as follows: "Effective for each of fiscal years 1992 through 1996, the Secretary of Agriculture shall make cotton classification services available to producers of cotton and shall provide for the collection of classification fees from participating producers, or agents who voluntarily agree to collect and remit the fees on behalf of producers.".

(b) FEES.—The first proviso in the second sentence of section 3a of such Act is amended—

(1) by striking clauses (1) and (2) and inserting the following new clauses: "(1) the uniform per bale classification fee to be collected from producers, or their agents, for the classification service in any year shall be the fee established in the previous year for the prevailing method of classification service, exclusive of adjustments to the fee made in the previous year under clauses (2), (3), and (4), and as may be adjusted by the percentage change in the implicit price deflator for the gross national product as indexed during the most recent 12-month period for which statistics are available; (2) the fee calculated in accordance with clause (1) for a crop year may be increased by an amount not to exceed 1 percent for every 100,000 running bales, or portion thereof, that the Secretary estimates will be classed by the United States Department of Agriculture in the crop year below the level of 12,500,000 running bales, or decreased by a quantity not to exceed 1 percent for every 100,000 running bales, or portion thereof, that the Secretary estimates will be classed by the United States Department of Agriculture in the crop year above the level of 12,500,000 running bales;"; and

(2) by striking clause (7) and inserting the following new clause: "(7) the Secretary shall announce the uniform classification fee and any surcharge for the crop not later than June 1 of the year in which the fee applies.".

(c) CLARIFICATION OF SERVICES.—The third sentence of section 3a of such Act is amended to read as follows: "Classification services, other than the prevailing method, provided at the request of the producer shall not be subject to the restrictions specified in clauses (1), (2), and (3) of the preceding sentence.".

(d) REPEAL OF STUDY ON PROCESSING CERTAIN COTTON GRADES.—Section 3 of the Uniform Cotton Classing Fees Act of 1987 (7 U.S.C. 473a note) is repealed.

(e) EFFECTIVE DATE.—Subsections (a), (b), and (c), and the amendments by subsections (a), (b), and (c), shall be effective for the period beginning on the date of enactment of this Act and ending on September 30, 1996.

SEC. 121. SENSE OF CONGRESS REGARDING TARGETED OPTION PAYMENTS.

(a) FINDINGS.—Congress finds that—

(1) thousands of agricultural producers are facing extremely difficult economic times and low commodity prices;

(2) the conditions on each farm are unique and require a unique plan to meet the income, conservation, and soil and weather conditions of the farm; and

(3) agricultural producers need the maximum possible flexibility to tailor the agricultural price support and production adjustment program to their farms' individual needs.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Agriculture should offer targeted option payments for each of the 1992 through 1995 crops of wheat, feed grains, upland cotton, and rice as authorized by sections 107B(e)(3), 105B(e)(3), 103B(e)(3), and 101B(e)(3) of the Agricultural Act of 1949 (7 U.S.C. 1445b–3a(e)(3), 1444f(e)(3), 1444–2(e)(3), and 1441–2(e)(3)), respectively.

SEC. 122. TRANSFER OF PEANUT QUOTA UNDERMARKETINGS.

Section 358b(a) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358b(a)) is amended—

(1) in paragraph (1)—

(A) by inserting "(including any applicable undermarketings)" after "any part of the poundage quota"; and

(B) by inserting "(including any applicable undermarketings)" after "any such lease of poundage quota";

(2) in the first sentence of paragraph (2), by striking "for the farm" and inserting "(including any applicable undermarketings)"; and

(3) in paragraph (3), by inserting after "farm poundage quota" the following: "(including any applicable undermarketings)".

SEC. 123. COTTON FUTURES CONTRACTS.

Subsection (c)(1) of the United States Cotton Futures Act (7 U.S.C. 15b(c)(1)) is amended by inserting before the period at the end the following: ", except that any cotton futures contract that, by its terms, is settled in cash is excluded from the coverage of this paragraph and Act".

SEC. 124. LAMB PRICE AND SUPPLY REPORTING SERVICES REPORT AND SYSTEM.

(a) REPORT.—Not later than 90 days after the date of enactment of this Act, the Secretary of Agriculture shall submit a report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on measures that are necessary to improve the lamb price and supply reporting services of the Department of Agriculture, including recommendations to establish a complete information gathering system that reflects the market structure of the national lamb industry. In preparing the report, the Secretary shall examine measures to improve information on—

(1) price reporting series of wholesale, retail, box, carcass, pelt, offal, and live lamb sales in the United States, including markets in—

(A) California (including San Francisco);

(B) the East Coast region (including Washington, D.C.);

(C) the Midwest region (including Chicago, Illinois);

(D) Texas;

(E) the Rocky Mountain region; and

(F) Florida;

(2) sheep and lamb inventories, including on-feed reports;

(3) the price and supply relationships between retailers and breakers;

(4) the viability of voluntary or mandatory reporting for sheep prices; and

(5) information on the import and export of sheep, analyzed by cut, carcass, box, breeder stock, and sex.

(b) PRICE DISCOVERY AND REPORTING SYSTEM.—

(1) SYSTEM REQUIRED.—Based on the report required under subsection (a), the Secretary shall—

(A) develop a price discovery system formula for the lamb market, such as carcass equivalent pricing; and

(B) establish a price discovery and reporting system for the lamb market to assist lamb producers to better allocate their resources and make informed production and marketing decisions.

(2) IMPLEMENTATION.—The price discovery and reporting system for the lamb market shall be implemented by the Secretary not later than 180 days after the date of the submission of the report.

(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to develop and establish the system required under this subsection.

(c) CONSULTATION.—In preparing the report required under subsection (a) and establishing the price discovery and reporting system required under subsection (b), the Secretary shall consult with lamb producers and other persons in the national lamb industry.

SEC. 125. COTTON FIRST HANDLER MARKETING CERTIFICATES.

Section 103B(a)(5)(B) (7 U.S.C. 1444–2(a)(5)(B)) is amended—

(1) by inserting "or cash payments" after "marketing certificates" each place it appears in clauses (i) and (ii); and

(2) in clause (iii), by inserting "or cash payment" after "certificate".

SEC. 126. PRODUCTION OF BLACK-EYED PEAS FOR DONATION.

(a) 50/92 PROGRAM FOR COTTON.—Section 103B(c)(1)(D) (7 U.S.C. 1444–2(c)(1)(D)) is amended by adding at the end the following new clause:

"(ix) BLACK-EYED PEAS FOR DONATION.—The Secretary may permit, under such terms and conditions as will ensure optimum producer participation, all or any part of the acreage required to be devoted to conservation uses as a condition for qualifying for payments under this subparagraph to be devoted to the production of black-eyed peas if—

"(I) the producer agrees to donate the harvested peas from the acreage to a food bank, food pantry, or soup kitchen (as defined in paragraphs (3), (4), and (7) of section 110(b) of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note)) that is approved by the Secretary; and

"(II) the Secretary finds that such action will not result in the disruption of normal channels of trade.".

(b) ACREAGE REDUCTION PROGRAM.—Section 103B(e)(2) of such Act (7 U.S.C. 1444–2(e)(2)) is amended by adding at the end the following new subparagraph:

"(G) BLACK-EYED PEAS FOR DONATION.—The Secretary may permit, under such terms and conditions as will ensure optimum producer participation, producers on a farm to plant black-eyed peas on not more than one-half of the reduced acreage on the farm if—

"(i) the producer agrees to donate the harvested peas from such acreage to a food bank, food pantry, or soup kitchen (as defined in paragraphs (3), (4), and (7) of section 110(b) of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note)) that is approved by the Secretary; and

"(ii) the Secretary finds that such action will not result in the disruption of normal channels of trade.".

SEC. 127. MILK PRICE SUPPORT PROGRAM LIMITED TO 48 CONTIGUOUS STATES.

(a) IN GENERAL.—Section 204 (7 U.S.C. 1446e) is amended—

(1) in subsection (a), by inserting "produced in the 48 contiguous States" after "the price of milk";

(2) in subsection (c)(1), by inserting before the period the following: "produced in the 48 contiguous States";

(3) in subsection (d)(5)(B), by striking "United States" both places it appears and inserting "48 contiguous States and the District of Columbia"; and

(4) in subsections (g)(1) and (h)(1), by striking "United States" each place it appears and inserting "48 contiguous States".

(b) EFFECTIVE DATE.—This section and the amendments made by this section shall take effect as of January 1, 1991.

SEC. 128. MODIFICATION OF MILK PRODUCTION TERMINATION PROGRAM.

(a) CERTAIN TRANSFERS AUTHORIZED.—If the Secretary of Agriculture determines that a natural disaster renders unusable the land or milk production facilities of the producers on a farm, the Secretary shall allow the producers to transfer the production unit (including dairy animals and equipment) to a farm idled under the milk production termination program established under section 201(d)(3) of the Agricultural Act of 1949 (7 U.S.C. 1446(d)(3)), without penalty, if the producers on the farm agree to comply with all terms and conditions of the program contract for the remainder of the contract period.

(b) APPLICATION.—This section shall apply with respect to any natural disaster occurring during the period beginning on October 1, 1990, and ending on February 1, 1991.

TITLE II—CONSERVATION

SEC. 201. AMENDMENTS TO THE FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.

(a) AMENDMENTS TO SECTION 1451.—Section 1451 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5822) is amended—

(1) in subsection (b)(1)(D), by striking "(e)" and inserting "(f)";

(2) in subsection (d), by inserting "each of" before "the calendar";

(3) in subsection (f)(5), by striking "assisting" and inserting "assist"; and

(4) in subsection (h)(7)(B)—

(A) in clause (i), by inserting before the period at the end of the first sentence the following: ", but only to the extent that such number exceeds the number of acres resulting from the reduction in payment acres under an amendment made by section 1101 of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101–508; 104 Stat. 1388–1)"; and

(B) in clause (ii), by striking "under" and all that follows through "Agricultural" and inserting "under section 101B(c)(1)(D), 103B(c)(1)(D), 105B(c)(1)(E), or 107B(c)(1)(E) of the Agricultural".

(b) AMENDMENTS TO SECTION 1466.—Section 1466 of such Act (7 U.S.C. 4201 note) is amended—

(1) in subsection (c), by striking "Funds" and inserting "funds"; and

(2) in each of subsections (e) and (f), by striking "section (b)" and inserting "subsection (b)".

(c) AMENDMENT TO SECTION 1468(a)(2).—Section 1468(a)(2) of such Act (7 U.S.C. 4201 note) is amended by striking "Funds" and inserting "funds".

(d) AMENDMENTS TO SECTION 1473(a).—Section 1473(a) of such Act (7 U.S.C. 5403(a)) is amended—

(1) in paragraph (1), by striking "subparagraph (B)" and inserting "paragraph (2)"; and

(2) in paragraph (2), by striking "subparagraph (A)" " and inserting "paragraph (1)".

(e) AMENDMENT TO SECTION 1483(c).—Section 1483(c) of such Act (7 U.S.C. 5503(c)) is amended by inserting "and" after "Animal".

(f) AMENDMENT TO SECTION 1485.—Section 1485 of such Act (7 U.S.C. 5505) is amended—

(1) in subsection (a), by striking "Administrator" both places it appears " and inserting "Director";

(2) in subsection (a)(3), by striking "Atmospheric Agency, the" " and inserting "Atmospheric Administration, the"; and

(3) in subsection (b)(3), by striking "subsection (a)" " and inserting "this subsection".

(g) AMENDMENTS TO SECTION 1499.—Section 1499 of such Act (7 U.S.C. 5506) is amended—

(1) in the 4th sentence of subsection (a)—

(A) by inserting "Agricultural" before "Environmental"; and

(B) by striking "1612" and inserting "1472";

(2) in subsection (b)—

(A) by striking "AFFECT" and inserting "EFFECT"; and

(B) by inserting "and section 1499A" after "subsection (a)"; and

(3) in subsection (c), by inserting "and" after "Animal".

(h) NEW SECTION.—

(1) EDUCATION PROGRAM.—Such Act is amended by inserting after section 1499 (7 U.S.C. 5506) the following new section:

"SEC. 1499A. EDUCATION PROGRAM REGARDING HANDLING OF AGRICULTURAL CHEMICALS AND AGRICULTURAL CHEMICAL CONTAINERS.

"Subject to the availability of funds appropriated in advance, the Secretary of Agriculture shall direct the Extension Service to operate a program in each State to catalogue the Federal, State, and local laws and regulations that govern the handling of unused or unwanted agricultural chemicals and agricultural chemical containers in the State. The program established under this section shall make available to producers of agricultural commodities and the general public, and provide on request, educational materials developed or collected by the program.".

(2) The table of contents in section 1(b) of such Act (104 Stat. 3363) is amended by inserting after the item relating to section 1499 the following new item:

"Sec. 1499A. Education program regarding handling of agricultural chemicals and agricultural chemical containers.".

SEC. 202. AMENDMENT TO THE SOIL CONSERVATION AND DOMESTIC ALLOTMENT ACT.

The 14th sentence of the 5th undesignated paragraph of section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) is amended by inserting ", except that, in the case of a person elected to be a national officer or State president of the National Association of Farmer Elected Committeemen, the limitation shall be four consecutive terms" before the period.

SEC. 203. FARMS FOR THE FUTURE.

(a) IN GENERAL.—Sections 1465 through 1469 of the Farms for the Future Act of 1990 (7 U.S.C. 4201 note) are amended to read as follows:

"SEC. 1465. SHORT TITLE, PURPOSE, AND DEFINITION.

"(a) SHORT TITLE.—This chapter may be cited as the 'Farms for the Future Act of 1990'.

"(b) PURPOSE.—It is the purpose of this chapter to promote a national farmland protection effort to preserve our vital farmland resources for future generations.

"(c) DEFINITIONS.—As used in this chapter:

"(1) ALLOWABLE INTEREST RATE.—The term 'allowable interest rate' refers to the interest rate that the State trust fund pays on each eligible loan (including the interest paid by the State trust fund, State, or State agency on bonds or other obligations described in paragraph (2)).

"(2) ELIGIBLE LOAN.—The term 'eligible loan' means each loan made by lending institutions to each State trust fund, or to the State acting in conjunction with the State trust fund, to further the purposes of this chapter, and the proceeds from any issuance of obligations, or other bonded indebtedness, of any eligible State, the State trust fund, or any agency of an eligible State, except that no eligible loan shall bear an interest rate in excess of 10 percent per year.

"(3) ELIGIBLE STATE.—The term 'eligible State' means—

"(A) the State of Vermont; and

"(B) at the option of the Secretary and subject to appropriations, any State that—

"(i) operates or administers a land preservation fund that invests funds in the protection or preservation of farmland for agricultural purposes; and

"(ii) works in coordination with the governing bodies of counties, towns, townships, villages, or other units of general government below the State level, or with private nonprofit or public organizations, to assist in the preservation of farmland for agricultural purposes.

"(4) LENDING INSTITUTION.—The term 'lending institution' means any Federal or State chartered bank, savings and loan association, cooperative lending agency, other legally organized lending agency, State government or agency, political subdivision of a State, or any nonprofit conservation organization.

"(5) PROGRAM.—The term 'program' means the farmland preservation program established under this chapter to be known as the 'Agricultural Resource Conservation Demonstration Program'.

"(6) SECRETARY.—The term 'Secretary' means the Secretary of Agriculture.

"(7) STATE.—The term 'State' means any State of the United States, the Commonwealth of Puerto Rico, and the Virgin Islands of the United States.

"(8) STATE TRUST FUND.—The term 'State trust fund' means any trust fund or an account established by an eligible State, or other public instrumentality of the eligible State, where such eligible State is approved to participate by the Secretary in the program under application procedures set forth in section 1466(j) or 1468.

"SEC. 1466. ESTABLISHMENT OF PROGRAM.

"(a) IN GENERAL.—

"(1) PURPOSE.—The Secretary shall establish and implement a program, to be known as the 'Agricultural Resource Conservation Demonstration Program', to provide Federal guarantees and interest assistance for eligible loans described in section 1465(c)(2) made to, or issued for the benefit of, State trust funds.

"(2) ASSISTANCE.—Under the program the Secretary shall guarantee for a period of 10 years the timely payment of the principal amount and interest due on each eligible loan described in section 1465(c)(2) made to, or issued for the benefit of, State trust funds and shall for each such 10-year period subsidize the interest on such eligible loans at the allowable interest rate for the first 5 years after the loan is made, or issued, and at no less than 3 percentage points for the second 5 years under procedures described in subsection (b).

"(b) MANDATORY ASSISTANCE TO EACH STATE TRUST FUND.—The Secretary shall—

"(1) fully guarantee with the full faith and credit of the United States each eligible loan described in section 1465(c)(2) made to, or issued for the benefit of, each State trust fund under procedures established by the Secretary;

"(2) annually pay to each State trust fund an amount calculated by applying the allowable interest rate to the amount of each loan described in section 1465(c)(2) made to, or issued for the benefit of, each State trust fund during each of the first 5 years after the date

on which each such loan was made or issued; and

"(3) annually pay to each State trust fund, for each year during the second 5-year period after each such eligible loan is made to, or issued for the benefit of, the State trust fund, an amount calculated by applying the interest rate difference, between the rate of interest charged to borrowers of direct loans as described in section 316(a)(2) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1946(a)(2)) and the allowable interest rate, to the amount of each such loan made to, or issued for the benefit of, the State trust fund, as determined under procedures established by the Secretary.

"(c) FUNDING.—

"(1) ISSUANCE OF STOCK.—The Secretary of Agriculture shall make and issue stock, in the same manner as notes are issued under section 309(c) or 309A(d) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1929(c) or 1929a(d)), to the Secretary of the Treasury for the purpose of obtaining funds from the Secretary of the Treasury that are necessary for discharging the obligations of the Secretary of Agriculture under this chapter. The stock shall not pay dividends and shall not be redeemable.

"(2) PURCHASE OF STOCK.—The Secretary of the Treasury shall provide the funding necessary to implement this chapter. The Secretary of the Treasury shall purchase any stock of the Secretary of Agriculture issued to implement this chapter. The Secretary of the Treasury shall use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code. The purposes for which the securities may be issued under such chapter are extended to include the raising of funds to purchase stock issued by the Secretary of Agriculture to implement this chapter with respect to each eligible State. The Secretary of Agriculture shall make and issue such stock as is necessary to fund this chapter to the Secretary of Treasury who shall promptly purchase the stock (within 60 days) being offered by the Secretary of Agriculture.

"(3) COMMODITY CREDIT CORPORATION.—If the Secretary of Agriculture fails to issue stock as required under this chapter, or if funding is otherwise not provided as set forth in this chapter, for the eligible State described in section 1465(c)(3)(A), notwithstanding any other provision of law, the Secretary of Agriculture shall use the funds, services and facilities of the Commodity Credit Corporation to carry out the requirements of this chapter. The procedure described in paragraph (2) shall be used to reimburse the Corporation for funds expended to carry out this paragraph.

"(d) REQUIRED PURCHASES OF STOCK.—The Secretary shall promptly notify the Secretary of the Treasury, in writing, each time an application of an eligible State is approved by the Secretary under this chapter. The Secretary of the Treasury shall promptly purchase stock (within 60 days) offered by the Secretary under subsection (c) and the Secretary of Agriculture shall deposit the proceeds from each such sale of stock in accounts created to administer the program.

"(e) ENTITLEMENTS.—The Secretary is entitled to receive funds, and shall receive funds, from the Secretary of the Treasury in an amount equal to the total par-value of the stock issued to the Secretary of the Treasury. Each State trust fund is entitled to receive, and the Secretary of Agriculture shall promptly pay to each such trust fund, amounts calculated under procedures described in subsection (b).

"(f) REGULATIONS.—Except regarding the eligible State described in section 1465(c)(3)(A), the Secretary shall promulgate proposed and final regulations, under the prior public comment provisions of section 553 of title 5, United States Code, setting forth—

"(1) the application procedures for eligible States;

"(2) the factors to be used in approving applicants;

"(3) procedures for the prompt payment of the obligations of the Secretary under subsection (b);

"(4) recordkeeping requirements for approved State trust funds;

"(5) requirements to prevent program abuse and procedures to recover improperly obtained funds;

"(6) rules permitting State trust funds to act as revolving funds or to otherwise accumulate additional capital, based on investments, to be subsequently used to promote the purposes of this chapter; and

"(7) any other rules necessary and appropriate to carry out the program.

"(g) DURATION OF PROGRAM.—The program established under this chapter shall expire on September 30, 1996, except that any financial obligations of the Secretary shall continue to be met as required by this chapter.

"(h) ELIGIBLE USES FOR GUARANTEED LOAN FUNDS.—

"(1) IN GENERAL.—Funds from eligible loans (including proceeds from the sale of bonds or other obligations described in section 1465(c)(2)) guaranteed under this chapter, and any earnings of the State trust funds, may be used—

"(A) to purchase development rights, conservation easements or other types of easements, or to purchase agricultural land in fee simple or some lesser estate in land;

"(B) to pay all reasonable and customary costs including appraisal, survey and engineering fees, and legal expenses;

"(C) to pay the costs of enforcing easements or land use restrictions;

"(D) to cover the costs of complying with any regulations issued by the Secretary under this program and the costs of implementing the farmland plan of operation, except that the guaranteed loan proceeds shall not be used to pay overhead expenses of the State trust fund (rent, utilities, salaries, wages, insurance premiums, and the like); and

"(E) to generate earnings (including through investments not exceeding 10 years in duration for each eligible loan), to be used for future farmland preservation efforts, through investments in direct obligations of the United States or obligations guaranteed by the United States or an agency thereof or by depositing funds in any member bank of the Federal Reserve System or any Federally insured State nonmember bank.

"(2) COLLATERAL FOR LOANS.—To the extent consistent with relevant banking laws and practices, the investments or deposits described in paragraph (1)(E) may serve as collateral for loans made to, or on behalf of, the State trust fund.

"(i) STATE USE OF GUARANTEED LOAN FUNDS.—The Secretary may issue regulations or procedures requiring each State trust fund to report to the Secretary regarding the uses of the eligible loans (described in section 1465(c)(2)) guaranteed by the Secretary and the Secretary may monitor the uses of the funds to ensure that the loans are used for purposes related to this chapter. Neither the Secretary or the lending institution shall have the power to require approval of each specific use of the loans guaranteed by the Secretary, the specific terms of each use of the loan funds, or the specific provisions of each purchase or investment made with loans guaranteed by the Secretary. The Secretary may require that each State trust fund provide a State farmland preservation plan of operation to the Secretary setting forth the plans for administering the program in the State and may require each State trust fund to periodically report to the Secretary on the purchases of interests in farmland and on other specific uses of the funds.

"(j) SPECIAL RULES FOR THE PILOT PROJECT STATE.—Notwithstanding any other provisions of this chapter, the following special rules shall apply to the eligible State described in section 1465(c)(3)(A):

"(1) PROVISION OF LOAN GUARANTEE AND INTEREST ASSISTANCE AGREEMENT.—Within 30 days of the date any State trust fund in the eligible State receives a commitment for each eligible loan from a lending institution, the Secretary shall provide the lending institution with the loan guarantee and the interest assistance agreement so that the lending institution may disburse the full amount of the loan proceeds to the State trust fund on the date of loan closing to carry out this program. After the loan closing, the lending institution shall have no obligation to monitor or approve the use of loan proceeds by the State trust fund.

"(2) APPROVAL OF APPLICATION.—The Secretary shall annually approve the completed application from the eligible State within 30 days after receipt if the application sets forth the general goals and policies of the State trust fund. The Secretary shall provide the Federal assistance required under this chapter beginning on the date the application or plan is approved.

"(3) AMOUNT OF GUARANTEES.—The Secretary shall calculate the total amount of guarantees to be provided for fiscal year 1992 in an amount equal to double the sum of—

"(A) the amount that was made available in fiscal year 1991 to the State trust fund (the Vermont Conservation and Housing Board regardless of whether the fund had been approved by the Secretary in fiscal year 1991), by the State described in section 1465(c)(3)(A), political subdivisions thereof, charitable organizations, private persons, or any other entity, in addition to the proceeds from the sale of obligations of the State related to the purposes of the State trust fund and the fair market value of donations of interests in land to the State trust fund; and

"(B) the matching contribution calculated under section 1468(c) for fiscal year 1992 for the State.

"(k) MISCELLANEOUS PROVISIONS.—

"(1) OPERATION.—Each State trust fund may operate through nonprofit corporations, municipalities, or other political subdivisions of States in carrying out the purposes of the program established in this chapter.

"(2) EARNINGS.—Earnings on funds of each State trust fund may be used for any purposes related to carrying out the operations of the trust fund in a manner not inconsistent with the requirements of this chapter or the farmland preservation plan.

"SEC. 1467. FEDERAL ACCOUNTS AND COMPLIANCE.

"(a) ACCOUNTS.—To carry out the purposes of this chapter, the Secretary may establish in the Treasury of the United States an account, to be known as the 'Agricultural Resource Conservation Revolving Fund' (hereafter referred to in this chapter as the 'Fund'), for the use by the Secretary to meet the obligations of the Secretary under this chapter.

"(b) COMPLIANCE.—If the Secretary determines that any State trust fund is failing to comply, to a significant degree, with any requirements of this chapter, the Secretary shall report the failure to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate, shall fully investigate the matter, may decline to provide additional Federal guarantees or interest subsidies to the State trust fund, and shall take other steps as may be appropriate to prevent the use of Federal assistance in a manner not consistent with this chapter.

"SEC. 1468. APPLICATIONS AND ADMINISTRATION.

"(a) APPLICATIONS.—In applying for assistance under this chapter an eligible State described in section 1465(c)(3)(B) shall—

"(1) prepare and submit, to the Secretary, an application at such time, in such manner, and containing such information as the Secretary shall require;

"(2) agree that the State trust fund will use any funds provided, or guaranteed, by the Secretary under this chapter in a manner that is consistent with the chapter and the regulations promulgated by the Secretary; and

"(3) agree to comply with any other requirements set forth in agreements with the Secretary or as the Secretary may prescribe by regulation.

"(b) ANNUAL APPLICATIONS.—Eligible States described in section 1465(c)(3)(B) may apply for Federal assistance under this chapter on an annual basis. The Secretary shall approve or disapprove each application for assistance, and notify the applicant of the action not later than 30 days after receipt of a complete application.

"(c) MATCH AND MAXIMUM AMOUNT.—

"(1) IN GENERAL.—The total amount of any guarantees provided by the Secretary under this program for each eligible State shall equal an amount that is equal to double the amount that is, or shall be, made available to the trust fund (including matching funds described in paragraphs (2) through (4)) in each such eligible State by the State, political subdivisions thereof, charitable organizations, private persons, or any other entity, for acquiring interests in land to protect and preserve important farmlands for future agricultural use but in no event shall the total Federal share exceed $10,000,000 in any fiscal year for any given State.

"(2) EARNINGS.—Earnings of the State trust fund and funds expended by the State or the State trust fund prior to loan closing for purposes consistent with this chapter, and in the same fiscal year, may be considered as matching funds.

"(3) OBLIGATIONS.—Proceeds from the sale of tax-exempt general obligation bonds, or other obligations, of the State or State trust fund shall be an allowable source of matching funds under this chapter for the same fiscal year.

"(4) LAND.—The fair market value of any donation of an interest in land to the State trust fund, or a charitable organization working with the State trust fund, may be considered as matching funds, for the same fiscal year, if—

"(i) the fair market value is based on an appraisal determined to be adequate by the State trust fund; and

"(ii) the donation is consistent with the State farmland preservation plan,

except that the value of land donated to charitable organizations by the State trust fund shall not be included as part of the match.

"(d) CLARIFICATION OF FEDERAL LAW.—Sellers of land, or of interests in land, to any State trust fund are not, and shall not be considered by the Secretary as, recipients or beneficiaries of Federal assistance.

"SEC. 1469. REPORT.

"Not later than September 30, 1992, and annually thereafter, the Secretary of Agriculture shall prepare and submit, to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, a report concerning the operation of the program established under this chapter.".

(b) REGULATIONS.—Section 1470 of the Farms for the Future Act of 1990 (7 U.S.C. 4201 note) is amended—

(1) by striking "This" and inserting "(a) IN GENERAL.—This"; and

(2) by adding at the end the following new subsection:

"(b) REGULATIONS.—Not later than December 31, 1991, the Secretary of Agriculture shall publish in the Federal Register interim final regulations to implement this chapter. The regulations shall not require each State's program to give a priority to the acquisition of land, or interests in land, that is subject to significant urban pressure.".

(c) REPORTS; STOCK ISSUANCE.—Such Act is amended by adding at the end the following new sections:

"SEC. 1470A. COMPTROLLER GENERAL REPORTS.

"On February 15 of 1992, and on December 1 of each of the years 1992 through 1996, the Comptroller General of the United States shall report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, on whether the Secretary of Agriculture is complying with the requirements of this chapter. The report shall include information concerning loans guaranteed under this chapter and the steps the Secretary of Agriculture has taken to comply with this chapter.

"SEC. 1470B. SPECIAL RULES FOR ISSUANCE OF STOCK FOR 1992.

"The Secretary shall issue the stock required to be issued to the Secretary of Treasury under this chapter with respect to the eligible State described in section 1465(c)(3)(A), for fiscal year 1992, on or before December 20, 1991.".

SEC. 204. AMENDMENTS TO THE FOOD SECURITY ACT OF 1985.

Title XII of the Food Security Act of 1985 (16 U.S.C. 3801 et seq.) is amended—

(1) in section 1211 (16 U.S.C. 3811)—

(A) in paragraph (1)(D), by striking "(16 U.S.C. 1421 note)" and inserting "(7 U.S.C. 1421 note)";

(B) in paragraph (3)(D), by inserting "of subtitle D" after "chapter 2"; and

(C) in paragraph (3)(E), by inserting "of subtitle D" after "chapter 3";

(2) in section 1212 (16 U.S.C. 3812)—

(A) in subsection (f)(4)(A), by striking "such violations" and inserting "such violation"; and

(B) in subsection (g)(2), by striking "XIII,". and inserting "XIII";

(3) in section 1221(1)(D) (16 U.S.C. 3821(1)(D)), by striking "(16 U.S.C. 1421 note)" and inserting "(7 U.S.C. 1421 note)";

(4) in section 1223 (16 U.S.C. 3823), by striking "and" at the end of paragraph (3);

(5) in section 1232(a) (16 U.S.C. 3832(a))—

(A) by striking the extra semicolon at the end of paragraph (6); and

(B) in paragraph (7)—

(i) by striking "fall and winter"; and

(ii) by striking "for an applicable reduction in rental payment" and inserting "and occurs during the 7-month period in which grazing of conserving use acreage is allowed in a State under the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) or after the producer harvests the grain crop of the surrounding field for a reduction in rental payment commensurate with the limited economic value of such incidental grazing".

(6) in section 1237(d) (16 U.S.C. 3837(d)), by striking "subsection (d)" and inserting "subsection (c)";

(7) in section 1239(b)(1)(A) (16 U.S.C. 3839(b)(1)(A)), by striking "corridors," and inserting "corridors;"; and

(8) in section 1247(b) (16 U.S.C. 3847(b)), by striking "subsection 1234(b)" and inserting "section 1234(b)".

TITLE III—AGRICULTURAL TRADE

SEC. 301. SUPERFLUOUS PUNCTUATION IN FARMER TO FARMER PROVISIONS.

Section 501(a)(3) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1737(a)(3)) is amended by striking the comma after "public".

SEC. 302. PUNCTUATION CORRECTION IN ENTERPRISE FOR THE AMERICAS INITIATIVE.

Section 603(a)(3) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1738b(a)(3)) is amended by inserting a hyphen between "Inter" and "American".

SEC. 303. SPELLING CORRECTION IN SECTION 604.

Section 604(a)(2) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1738c(a)(2)) is amended by striking "AVALIABILITY" and inserting "AVAILABILITY".

SEC. 304. MISSING WORD IN SECTION 606.

Section 606(c) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1738e(c)) is amended by inserting "accounts" after "Corporation".

SEC. 305. PUNCTUATION ERROR IN SECTION 607.

Section 607(a) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C 1738f(a)) is amended by striking the quotation mark before "Fund" and inserting it after "Fund" the last place it appears.

SEC. 306. TYPOGRAPHICAL CORRECTION IN SECTION 612.

Section 612(a)(1) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C 1738k(a)(1)) is amended by striking "462), and—" and inserting "2281 et seq.);".

SEC. 307. ERRONEOUS QUOTATION.

Section 1515(b) of the Food, Agriculture, Conservation, and Trade Act of 1990 is amended by striking "title I and" and inserting "titles I and".

SEC. 308. PUNCTUATION CORRECTION.

Section 103(d)(2) of the Agricultural Trade Act of 1978 (7 U.S.C. 5603(d)(2)) is amended by inserting a close parenthesis mark before the final period.

SEC. 309. DATE CORRECTION.

Section 203(g)(3) of the Agricultural Trade Act of 1978 (7 U.S.C. 5623(g)(3)) is amended by striking "the date of enactment of this Act" and inserting "November 28, 1990,".

SEC. 310. MISSING SUBTITLE HEADING CORRECTION.

Title II of the Agricultural Trade Act of 1978 is amended by inserting after the title heading the following:

"Subtitle A—Programs".

SEC. 311. REDESIGNATION OF SUBSECTION.

Section 301 of the Agricultural Trade Act of 1978 (7 U.S.C. 5651) is amended by redesignating subsection (g) as subsection (f).

SEC. 312. DATE CORRECTION TO SECTION 404.

Section 404 of the Agricultural Trade Act of 1978 (7 U.S.C. 5664) is amended by striking out "the date of enactment of this Act" and inserting "November 28, 1990".

SEC. 313. DATE CORRECTION TO SECTION 416.

Section 416(e) of the Agricultural Trade Act of 1978 (7 U.S.C. 5676(e)) is amended by striking out "the effective date of this section" and inserting "November 28, 1990".

SEC. 314. REDESIGNATION OF SECTION.

The Agricultural Trade Act of 1978 is amended by redesignating section 506 (7 U.S.C. 5695) as section 505.

SEC. 315. CROSS REFERENCE CORRECTION.

Section 601 of the Agricultural Trade Act of 1978 (7 U.S.C. 5711) is amended by striking "section 104" each place it appears and inserting "section 103".

SEC. 316. PLACEMENT CLARIFICATION.

Section 1532 of the Food, Agriculture, Conservation, and Trade Act of 1990 is amended by striking "thereof" and inserting "of title I".

SEC. 317. PUNCTUATION CORRECTION.

Section 108(b) of the Agricultural Act of 1954 (7 U.S.C. 1748) is amended by striking the period at the end of paragraph (1)(B) and inserting a semicolon.

SEC. 318. ELIMINATION OF OBSOLETE CROSS REFERENCE.

Section 108(b)(4) of the Agricultural Act of 1954 (7 U.S.C. 1748(b)(4)) is amended by striking "the trade assistance office" and all that follows through "section 201),".

SEC. 319. CROSS REFERENCE CORRECTION.

Section 407(c) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736a(c)) is amended by inserting "title I of" before "this Act" each place it appears in paragraphs (2)(B) and (3).

SEC. 320. CORRECTING CLERICAL ERRORS IN SECTION 204 OF THE AGRICULTURAL TRADE ACT OF 1978.

Section 204(d) of the Agricultural Trade Act of 1978 (7 U.S.C. 5624) is amended—

(1) by striking "AGENCY OR PRIVATE PARTIES" in the heading and inserting "AGENCIES"; and

(2) by striking "government" and inserting "Government".

SEC. 321. CAPITALIZATION CORRECTION.

Section 403(i)(2)(C) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1733(i)(2)(C)) is amended by striking "Committees" and inserting "committees".

SEC. 322. CORRECTION OF ERROR IN DATE.

Section 409, 410(a), 410(b), 410(c), and 411(e) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736c, 1736d(a), 1736d(b), 1736d(c), and 1736e(e)) are each amended by striking "the date of enactment of this Act" and inserting "November 28, 1990".

SEC. 323. CORRECTION OF TYPOGRAPHICAL ERROR.

Section 406(b)(5)(D) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736(b)(5)(D)) is amended by striking "items" and inserting "time".

SEC. 324. CROSS REFERENCE CORRECTION.

Section 407(c)(1)(A) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736a(c)(1)(A)) is amended by striking "this section" and inserting "title I".

SEC. 325. ELIMINATION OF SUPERFLUOUS WORD.

Section 407(c)(1)(C) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736a(c)(1)(C)) is amended by striking "other".

SEC. 326. CROSS REFERENCE CORRECTION.

Section 411(a) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736e(a)) is amended by striking "this title" and inserting "title I".

SEC. 327. AMENDMENT TO SECTION 602.

Section 602(a) of the Agricultural Trade Act of 1978 (7 U.S.C. 5712(a)) is amended—

(1) in paragraph (1), by striking "designate as produced" and inserting "designate produced"; and

(2) in paragraph (2), by striking "in accordance with subsection (c)".

SEC. 328. SECTION 407 CORRECTIONS.

(a) SUBSECTION (c)(4).—Section 407(c)(4) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736a(c)(4)) is amended—

(1) by inserting "provides or" after "in which such person"; and

(2) by striking "if the person is" and inserting "of a person".

(b) ELIMINATION OF WORD.—Section 407(d)(3) of the Agricultural Trade Development and Assistance Act of 1954 is amended by striking "other".

SEC. 329. SECTION 407(b) AMENDMENT.

Section 407(b)(1) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736a(b)(1)) is amended by striking "or agricultural commodity donated".

SEC. 330. SUPPLEMENTAL VIEWS IN ANNUAL REPORT.

Section 614 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1738m) is amended—

(1) by striking "Not later" and inserting "(a) IN GENERAL.—Not later"; and

(2) by adding at the end the following:

"(b) SUPPLEMENTAL VIEWS IN ANNUAL REPORT.—No later than December 15 of each fiscal year, each member of the Board shall be entitled to receive a copy of the report required under subsection (a). Each member of the Board may prepare and submit supplemental views to the President on the implementation of this title by December 31 for inclusion in the annual report when it is transmitted to Congress pursuant to this section.".

SEC. 331. CONSULTATIONS WITH CONGRESS.

The Agricultural Trade Development and Assistance Act of 1954 is amended by inserting after section 614 (7 U.S.C. 1738m) the following:

"SEC. 615. CONSULTATIONS WITH CONGRESS.

"The President shall consult with the appropriate congressional committees on a periodic basis to review the operation of the Facility under this title and the eligibility of countries for benefits from the Facility under this title.".

SEC. 332. STATUTE DESIGNATION.

Section 407(d)(4) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736a(d)(4)) is amended by striking "the Federal Property Act of 1949, as amended," and inserting "the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.)".

SEC. 333. CORRECTION OF PLACEMENT AND INDENTATION OF SUBPARAGRAPH.

Subparagraph (B) of section 1514(5) of the Food, Agriculture, Conservation, and Trade Act of 1990, 104 Stat. 3663) is amended to read as follows:

"(B) by inserting after subparagraph (E) the following new subparagraph:

" '(F) The provisions of sections 403(i) and 407(c) of the Agricultural Trade Development and Assistance Act of 1954 shall apply to donations, sales and barters of eligible commodities under this subsection.' ".

SEC. 334. EXPORT CREDIT GUARANTEE PROGRAM.

Section 202(i) of the Agricultural Trade Act of 1978 (7 U.S.C. 5622(i)) is amended by striking "or proceeds payable under a credit guarantee issued by the Commodity Credit Corporation under this section if it is determined by the Corporation that" and inserting "issued by the Commodity Credit Corporation under this section if it is determined by the Corporation, at the time of the assignment, that".

SEC. 335. TECHNICAL AMENDMENTS TO THE FOOD FOR PROGRESS PROGRAM.

The Food for Progress Act of 1985 (7 U.S.C. 1736o) is amended—

(1) in subsection (l), by striking "September 30," where it appears immediately before "December 31";

(2) in subsection (m), by striking "this Act" each place it appears and inserting "this section"; and

(3) by redesignating subsections (l) and (m) (as amended by paragraphs (1) and (2)) as subsections (k) and (l), respectively.

SEC. 336. MISCELLANEOUS AMENDMENT TO THE AGRICULTURAL TRADE DEVELOPMENT AND ASSISTANCE ACT OF 1954.

The first sentence of section 411(b) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736e) is amended by inserting before the period at the end the following: "at least 10 days prior to providing the debt relief".

SEC. 337. REPORTING REQUIREMENTS.

Section 214 of the Tobacco Adjustment Act of 1983 (7 U.S.C. 509(f)) is amended—

(1) by redesignating subsections (c) through (f) as subsections (d) through (g), respectively; and

(2) by inserting after subsection (b) the following new subsection:

"(c) EXCEPTIONS.—The reporting and recordkeeping requirements of this section shall not apply with respect to cigars, cigar tobaccos, pipe tobacco, chewing tobacco in retail packaging, and snuff in retail packaging. In order to qualify for the exception under this subsection, the tobacco must have a certification that its end use is for cigars, cigar tobacco, pipe tobacco, chewing tobacco in retail packaging, or snuff in retail packaging.".

SEC. 338. SHARING UNITED STATES AGRICULTURAL EXPERTISE AND INFORMATION.

Section 1542(d) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5622 note) is amended—

(1) by striking the subsection heading and inserting the following:

"(d) E (KIKA) DE LA GARZA AGRICULTURAL FELLOWSHIP PROGRAM.—The Secretary of Agriculture (hereafter in this section referred to as the 'Secretary') shall establish a program, to be known as the 'E (Kika) de la Garza Agricultural Fellowship Program', to develop agricultural markets in emerging democracies and to promote cooperation and exchange of information between agricultural institutions and agribusinesses in the United States and the Soviet Union, as follows:

"(1) DEVELOPMENT OF AGRICULTURAL SYSTEMS.—";

(2) in paragraph (1), by indenting 2 ems the left margin of subparagraphs (A) and (B) and redesignating such subparagraphs as clauses (i) and (ii), respectively;

(3) in paragraph (2), by indenting 2 ems the left margin of subparagraphs (A) and (B) and redesignating such subparagraphs as clauses (i) and (ii), respectively;

(4) by indenting 2 ems the left margin of paragraphs (1) through (9) and redesignating

such paragraphs as subparagraphs (A) through (I), respectively;

(5) by striking "subsection" each place it appears and inserting "paragraph";

(6) by striking "paragraph (1)" each place it appears and inserting "subparagraph (A)";

(7) by striking "paragraph (2)(A)" each place it appears and inserting "subparagraph (B)";

(8) by striking "paragraph (2)(B)" each place it appears and inserting "subparagraph (B)";

(9) in paragraph (1)(B) (as so redesignated)—

(A) by striking "and" at the end of clause (i);

(B) by striking the period at the end of clause (ii) and inserting "; and"; and

(C) by adding at the end the following new clause:

"(iii) by providing for necessary subsistence expenses in emerging democracies and necessary transportation expenses of United States agricultural producers and other individuals knowledgeable in agricultural and agribusiness matters to assist in transferring their knowledge and expertise to entities in emerging democracies.";

(10) in paragraph (1)(I) (as so redesignated), by striking "$5,000,000" and inserting "$10,000,000"; and

(11) by adding at the end the following new paragraph:

"(2) Agricultural information program.—

"(A) Establishment of program.—The Secretary shall establish a program, administered to complement the emerging democracies export promotion program developed under this section, to initiate and develop collaboration between the United States Department of Agriculture, United States agribusinesses, and appropriate agricultural institutions in the Soviet Union in order to promote the exchange of information and resources that will make a long-term contribution to the establishment of a free market food production and distribution system in the Soviet Union and the enhancement of agricultural trade with the United States.

"(B) Implementation.—The Secretary shall draw on the Department of Agriculture's experience to design, implement, and evaluate, on a cost-sharing basis with cooperating agricultural institutions, a program to—

"(i) compile, through contacts with the Government of the Soviet Union and private sector officials in the Soviet Union, a list of their agricultural institutions, including the location, capabilities, and needs of the institutions;

"(ii) make such information available through an appropriate agency of the Department of Agriculture to agribusinesses and agricultural institutions in the United States and other agencies of the United States Government; and

"(iii) carry out a program—

"(I) to review available agricultural information resources, to determine which would be useful for the purposes of this program;

"(II) to arrange for the exchange of persons associated with such agricultural institutions and agribusinesses with experience or interest in the areas of need identified in clause (i); and

"(III) to help establish contacts between agricultural entrepreneurs and businesses in the United States and the Soviet Union, which may include individuals and entities participating in the program established under paragraph (1), to facilitate cooperation and joint enterprises.

"(C) Consultation and coordination.—The Secretary shall consult and coordinate with the Secretary of State and the Agency for International Development in the formulation and implementation of this program in conjunction with overall assistance to the Soviet Union.

"(D) Definition.—For the purposes of this subsection, the term 'Soviet Union' means the Soviet Union, its successor entities, or any of the individual republics of the Soviet Union.

"(E) Authorization for appropriations.—There are authorized to be appropriated such sums as may be necessary to carry out the program established under this paragraph.".

SEC. 339. CONFORMING AMENDMENT RELATING TO THE ENVIRONMENT FOR THE AMERICAS BOARD.

Section 610(b)(1) of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1738i(b)(1)) is amended—

(1) in subparagraph (A)—

(A) by striking "five" and inserting "six"; and

(B) by inserting ", at least one of whom shall be a representative of the Department of Agriculture" after "Government"; and

(2) in subparagraph (B), by striking "four" and inserting "five".

TITLE IV—RESEARCH

SEC. 401. COMPETITIVE, SPECIAL, AND FACILITIES RESEARCH GRANTS.

(a) Short Title.—Subsection (a) of section 2 of Public Law 89–106 (7 U.S.C. 450i) is amended—

(1) by inserting "(1)" before "In order"; and

(2) by adding at the end the following new paragraph:

"(2) Short Title.—This section may be cited as the 'Competitive, Special, and Facilities Research Grant Act'.".

(b) Other Amendments.—Such section is further amended—

(1) in subsection (b)(10), by striking "and" after "1993,";

(2) in subsection (e)—

(A) by striking "Record Keeping.—" and inserting "Inter-Regional Research Project Number 4.—";

(B) in paragraphs (1) and (7), by striking "this section" and inserting "this subsection";

(C) in paragraphs (2), (3), (4), (5)(C), and (6)(A), by striking "IR–4 program" and inserting "IR–4 Program";

(D) in paragraph (5)(B)—

(i) by striking "registration," and inserting "registrations,"; and

(ii) by inserting "and" at the end of the subparagraph; and

(E) in paragraph (6)—

(i) by striking "within one year of the date of the enactment of this paragraph" and inserting "not later than November 28, 1991,"; and

(ii) by inserting a comma after "reregistrations" in the first sentence;

(3) in subsection (f), by striking "Limits on Overhead Costs.—" and inserting "Record Keeping.—";

(4) in subsection (g), by striking "Authorization of Appropriations.—" and inserting "Limits on Overhead Costs.—";

(5) in subsection (h)—

(A) by striking "Rules.—" and inserting "Authorization of Appropriations.—";

(B) by striking "subsection (b) of this section" and inserting "subsections (b) and (e)"; and

(C) by striking "the provisions of";

(6) in subsection (i)—

(A) by striking "Application of Other Laws.—" and inserting "Rules.—";

(B) by striking "is authorized to" and inserting "may"; and

(C) by striking "the provisions of";

(7) in subsection (j) (as redesignated by section 1497(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 3630)), by inserting "Application of Other Laws.—" after "(j)"; and

(8) by redesignating subsections (j), (k), and (l) (as inserted by section 1615(b) of such Act (104 Stat. 3731)) as subsections (k), (l), and (m), respectively.

SEC. 402. NATIONAL AGRICULTURAL RESEARCH, EXTENSION, AND TEACHING POLICY ACT OF 1977.

The National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101 et seq.) is amended—

(1) in section 1407(e) (7 U.S.C. 3122(e)) by striking the semicolon at the end of paragraph (7) and inserting a period;

(2) in section 1408 (7 U.S.C. 3123)—

(A) in subsection (e), by striking "government" and inserting "Government"; and

(B) in subsection (g)(1), by striking "Federally" and inserting "federally";

(3) in sections 1404(18) and 1408A(a) (7 U.S.C. 3103(18) and 3123a(a)), by inserting "and" after "Science";

(4) in section 1408A(c)(2)(H) (7 U.S.C. 3123a(c)(2)(H)), by striking "farmerworkers" and inserting "farmworkers";

(5) in section 1412 (7 U.S.C. 3127), by striking "and Advisory Board" in subsections (b) and (c) and inserting ", Advisory Board, and Technology Board";

(6) in section 1417(i) (7 U.S.C. 3152(c)), by striking the second sentence;

(7) in section 1419(b) (7 U.S.C. 3154(b)), by striking "subsection (c)" and inserting "subsection (d)";

(8) in section 1432 (7 U.S.C. 3194), by striking "Sec. 1432. (a)";

(9) in section 1446(d)(2) (7 U.S.C. 3222a(d)(2), by striking "the needs identified" and inserting "the purposes identified";

(10) in section 1446(e) (7 U.S.C. 3222a(e)), by striking "objective or" and inserting "objective of";

(11) in section 1458(a) (7 U.S.C. 3291(a)), by striking the period at the end of paragraph (3) and inserting a semicolon;

(12) in section 1463(a) (7 U.S.C. 3311), by striking "subtitle H and";

(13) in section 1473 (7 U.S.C. 3319), by striking "subsection (c)(2)" and inserting "subsection (c)(1)(B)"; and

(14) by repealing section 1473E (7 U.S.C. 3319e).

SEC. 403. RURAL DEVELOPMENT AND SMALL FARM RESEARCH AND EDUCATION.

(a) Programs Authorized.—Section 502 of the Rural Development Act of 1972 (7 U.S.C. 2662) is amended—

(1) in subsection (f)—

(A) by striking the subsection heading and inserting "Competitive Grants for Financially Stressed Farmers, Dislocated Farmers, and Rural Families.—"; and

(B) in paragraph (2), by striking "during the period beginning on the date of the enactment of this Act and ending on" and inserting "until"; and

(2) in the subsections following subsection (g)—

(A) by striking "(b) Rural Development Extension" and inserting "(h) Rural Development Extension";

(B) by striking "(h) Rural Health" and inserting "(i) Rural Health";

(C) by striking "(h) Research Grants.—" and inserting "(j) Research Grants.—"; and

(D) by arranging such subsections to appear in the proper order.

(b) Distribution of Funds.—Section 503(c)(1) of that Act (7 U.S.C. 2663(c)(1)) is amended—

(1) by striking "the provisions of section 502(e) of this title" and inserting "subsections (e) and (i) of section 502"; and

(2) by striking "objectives of section 502(e) of this title" and inserting "objectives of those subsections".

SEC. 404. NATIONAL GENETIC RESOURCES PROGRAM.

(a) In General.—Subtitle C of title XVI of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3744) is amended—

(1) in the subtitle heading, by striking "**Genetics**" and inserting "**Genetic**"; and

(2) in section 1633(a) (7 U.S.C. 5842(a)), by striking "Resources program" and inserting "Resources Program".

(b) Table of Contents.—The item relating to such subtitle in section 1(b) of such Act (104 Stat. 3365) is amended to read as follows:

"Subtitle C—National Genetic Resources Program".

SEC. 405. ALTERNATIVE AGRICULTURAL RESEARCH AND COMMERCIALIZATION.

(a) Punctuation Correction.—Section 1658(d) of the Alternative Agricultural Research and Commercialization Act of 1990 (7 U.S.C. 5902(d)) is amended—

(1) by striking the period at the end of paragraph (2) and inserting "; and"; and

(2) by striking "; and" at the end of paragraph (3) and inserting a period.

(b) Establishment of Regional Centers.—Section 1663(a)(2) of such Act (7 U.S.C. 5907(a)(2)) is amended by striking "A Regional Center may not be established or operated" and inserting "No Regional Centers may be established".

SEC. 406. DEER TICK RESEARCH.

Section 1672 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5925) is amended—

(1) in subsection (i), by striking "Agricultural Research Service" and inserting "Secretary of Agriculture, acting through the Cooperative State Research Service, to make competitive grants"; and

(2) in subsection (k)(1), by striking "Except for research funded under subsection (i), research" and inserting "Research".

SEC. 407. MISCELLANEOUS RESEARCH PROVISIONS.

Title XVI of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3703) is amended—

(1) in section 1604(a) (Public Law 101–624; 104 Stat. 3706), by striking "(7 U.S.C. 3122(a))" and inserting "(7 U.S.C. 3122)".

(2) in section 1619(b)(8) (7 U.S.C. 5801(b)(8)), by striking "Marianas Islands" and inserting "Mariana Islands";

(3) in section 1628(c) (7 U.S.C. 5831(c)), by striking "education" and inserting "educational";

(4) in section 1629(c)(1) (7 U.S.C. 5832(c)(1)), by striking "insure" and inserting "ensure";

(5) in section 1634(1) (7 U.S.C. 5843(1)), by striking "committee established" and inserting "council established";

(6) in section 1638(b)(5) (7 U.S.C. 5852(b)(5)), by striking "National Sciences Foundation" and inserting "National Science Foundation";

(7) in section 1639(a) (7 U.S.C. 5853(a)), by striking "Act" and inserting "subtitle";

(8) in section 1652(b)(1) (7 U.S.C. 5883(b)(1)), by striking "pheremones" and inserting "pheromones";

(9) in section 1668(g)(2) (7 U.S.C. 5921(g)(2)), by striking "Witholdings" and inserting "Withholdings";

(10) in section 1670(d) (7 U.S.C. 5923(d)), by striking "acquaculture" and inserting "aquaculture";

(11) in section 1672(c) (7 U.S.C. 5925(c)), by redesignating paragraphs (A) through (I) as paragraphs (1) through (9), respectively;

(12) in section 1673(f) (7 U.S.C. 5926(f)), by striking "programs or" and inserting "programs of";

(13) in section 1674 (7 U.S.C. 5927)—

(A) in subsection (d)(3)(A), by striking "Schedules" and inserting "Schedule"; and

(B) in subsection (f), by striking "Committee" both places it appears and inserting "Committees";

(14) in section 1675(c) (7 U.S.C. 5928(c))—

(A) by striking paragraph (1) and inserting the following new paragraph:

"(1) Establishment.—Notwithstanding subsection (g)(1), the Secretary shall establish not more than four centers."; and

(B) in paragraph (2), by striking "Periods and preferences.—Grants" and inserting the following: "Operating grants.—The Secretary shall make grants to operate the centers established under paragraph (1). Such grants shall be competitively awarded based on merit and relevance in reference to meeting the purposes specified in subsection (a). Such grants";

(15) in section 1677 (7 U.S.C. 5930)—

(A) by striking "Reservation" each place it appears in subsections (a), (b), and (e) and inserting "reservation";

(B) by striking "Reservations" both places it appears in subsection (a) and inserting "reservations"; and

(C) by striking "Tribal" in subsection (c) and inserting "tribal";

(16) in section 1678(d) (7 U.S.C. 5931(d)), by striking "Teaching, and Extension" and inserting "Extension, and Teaching"; and

(17) in section 1681(a)(2), (7 U.S.C. 5934(a)(2)), by striking "teacheal mite" and inserting "tracheal mite".

SEC. 408. SUSTAINABLE AGRICULTURE RESEARCH AND EDUCATION.

Section 1624 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5814) is amended by striking "and 1623" and inserting "and 1622".

TITLE V—CREDIT

SEC. 501. AMENDMENTS TO THE CONSOLIDATED FARM AND RURAL DEVELOPMENT ACT.

(a) Amendments to Section 304.—Section 304 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1924) is amended—

(1) by striking subsection (a); and

(2) by redesignating subsection (d) as subsection (a) and moving such subsection to appear before subsection (b).

(b) Amendment to Section 312(a).—Section 312(a) of such Act (7 U.S.C. 1942(a)) is amended by striking "systems." and all that follows and inserting "systems (for purposes of this subtitle, the term 'solar energy' means energy derived from sources (other than fossil fuels) and technologies included in the Federal Nonnuclear Energy Research and Development Act of 1974) (42 U.S.C. 5901 et seq.), (12) training in maintaining records of farming and ranching operations for limited resource borrowers receiving loans under section 310D, and (13) borrower training under section 359.".

(c) Amendments to Section 331.—

(1) Direct amendments.—Section 331(b)(4) of such Act (7 U.S.C. 1981(b)(4)) is amended—

(A) by striking "this title"; and

(B) by striking "1949 from" and inserting "1949, from".

(2) Indirect amendments.—

(A) Clarification of repeal.—Section 1805 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 3819) is amended by striking subsections (b) and (c) and inserting the following:

"(b) Payment of Accrued Interest.—Section 331 (7 U.S.C. 1981) is amended by striking subsection (h) and redesignating subsections (i) and (j) as subsections (h) and (i), respectively.".

(B) Clarification of technical corrections.—Section 2388(d)(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 4052) is amended—

(i) by inserting ", as amended by section 1805(b) of this Act," before "is amended";

(ii) in clause (i) of subparagraph (A), by striking "(h), and (i)" and inserting "and (h)";

(iii) by striking clause (iv) and redesignating clauses (v), (vi), and (vii) of subparagraph (A) as clauses (iv), (v), and (vi), respectively;

(iv) in clause (iv) of subparagraph (A) (as so redesignated by clause (iii) of this subparagraph), by striking "(i)" and inserting "(h)"; and

(v) in clause (vi) of subparagraph (A) (as so redesignated by clause (iii) of this subparagraph)—

(I) by striking "(j)" and inserting "(i)"; and

(II) by striking "(10)" and inserting "(9)".

(d) Amendments to Section 331E.—

(1) In general.—Section 331E of such Act (7 U.S.C. 1981e) is amended—

(A) by striking "The" and inserting "(a) In General.—The"; and

(B) by adding at the end the following new subsection:

"(b) Calculation of Yields.—

"(1) In general.—For purposes of averaging past yields of the farm of a borrower or applicant over a period of crop years to calculate future yields for the farm under this title (except for loans under subtitle C), the Secretary shall permit the borrower or applicant to exclude the crop year with the lowest actual or county average yield for the farm from the calculation, if the borrower or applicant was affected by a disaster during at least 2 of the crop years during the period.

"(2) Affected by a disaster.—For purposes of paragraph (1), a borrower or applicant was affected by a disaster if the Secretary finds that the borrower or applicant's farming operations have been substantially affected by a natural disaster in the United States or by a major disaster or emergency designated by the President under the Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), including a borrower or applicant who has a qualifying loss but is not located in a designated or declared disaster area.

"(3) Application of subsection.—Paragraph (1) shall apply to all actions taken by the Secretary to carry out this title (except for loans under subtitle C) that involve the yields of a farm of a borrower or applicant, including making loans and loan guarantees, servicing loans, and making credit sales.".

(2) Regulations.—

(A) Interim regulations.—Notwithstanding section 553 of title 5, United States Code, as soon as practicable after the date of enactment of this Act and without a requirement for prior public notice and comment, the Secretary of Agriculture shall issue interim regulations that provide for the implementation of the amendment made by paragraph (1) beginning in crop year 1992.

(B) Final regulations.—The Secretary of Agriculture shall provide for public notice and comment before the issuance of final regulations to implement the amendment made by paragraph (1).

(3) Effective Date.—

(A) In general.—Except as provided in subparagraph (B), the amendment made by paragraph (1) shall become effective on the date of publication of the interim regulations issued pursuant to paragraph (2)(A).

(B) Exception.—The amendment made by paragraph (1) shall apply to each primary loan servicing application submitted on or after the date of enactment of this Act.

(e) Amendments to Section 333(2)(A).—Section 333(2)(A) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1983(2)(A)) is amended by redesignating clauses (1), (2), and (3), as clauses (i), (ii), and (iii), respectively.

(f) Amendments to Section 335(e)(1).—Section 335(e)(1) of such Act (7 U.S.C. 1985(e)(1)) is amended—

(1) in subparagraph (A)(i), by striking "the borrower" and all that follows through "the 'borrower-owner')" and inserting "borrower-owner (as defined in subparagraph (F)"; and

(2) by adding at the end the following new subparagraph:

"(F) As used in this paragraph, the term 'borrower-owner' means—

"(i) a borrower from whom the Secretary acquired real farm or ranch property (including the principal residence of the borrower) used to secure any loan made to the borrower under this title; or

"(ii) in any case in which an owner of property pledged the property to secure the loan and the owner is different than the borrower, the owner.".

(g) Amendments to Section 352.—Section 352 of such Act (7 U.S.C. 2000) is amended—

(1) in subsection (a)—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2) The term 'borrower-owner' means—

"(A) a borrower of a loan made or insured by the Secretary or the Administrator who meets the eligibility requirements of subsection (c)(1); or

"(B) in any case in which an owner of homestead property pledged the property to secure the loan and the owner is different than the borrower, the owner.".

(2) by striking "borrower" each place it appears and inserting "borrower-owner".

(h) Amendments to Section 353.—Section 353 of such Act (7 U.S.C. 2001) is amended—

(1) in subsection (c)(6)(A)(ii), by striking "the date of enactment of this paragraph" and inserting "November 28, 1990"; and

(2) in subsection (m), by striking "335(e)(1)(A)" and inserting "335(e)(1)".

(i) Amendments to Section 363.—Section 363 of such Act (7 U.S.C. 2006e) is amended—

(1) by striking "3801(a)(16))" and inserting "3801(a)(16)))"; and

(2) by striking "prior to the date of enactment of this section" and inserting "before November 28, 1990".

SEC. 502. AMENDMENTS TO THE FARM CREDIT ACT OF 1971.

(a) Amendments to Section 1.11(a).—Section 1.11(a) of the Farm Credit Act of 1971 (12 U.S.C. 2019(a)) is amended—

(1) by striking "(a) Agricultural or Aquatic Purposes" and inserting the following:

"(a) Agricultural or Aquatic Purposes";

(2) by striking "(1) In general" and inserting the following:

"(1) In general"; and

(3) by striking "(2) Limitation on loans for basic processing and marketing operations" and inserting the following:

"(2) Limitation on loans for basic processing and marketing operations".

(b) Amendment to Section 2.0(b)(8).—Section 2.0(b)(8) of such Act (12 U.S.C. 2071(b)(8)) is amended by striking "charter to" and inserting "charter, to".

(c) Amendment to Section 2.1.—Section 2.1 of such Act (12 U.S.C. 2072) is amended by striking "or stockholder" and inserting "stockholder, or agent".

(d) Amendment to Section 2.11.—Section 2.11 of such Act (12 U.S.C. 2092) is amended by striking "or stockholder" and inserting "stockholder, or agent".

(e) Amendment to Section 3.7(b).—

(1) In general.—Section 3.7(b) of such Act (12 U.S.C. 2128(b)) is amended—

(A) by inserting "(1)" after the subsection designation;

(B) by striking "(1) a domestic" and inserting "(A) a domestic";

(C) by inserting "or products thereof" after "commodities";

(D) by striking "(2) a domestic" and inserting "(B) a domestic"

(E) by striking "clause (1) of this subsection" and inserting "subparagraph (A)"; and

(F) by adding at the end the following new paragraphs:

"(2) A bank for cooperatives is authorized to make or participate in loans and commitments, and to extend other technical and financial assistance, to any domestic or foreign entity that is eligible for a guarantee or insurance as described in subparagraphs (A) and (B) with respect to transactions involving the Soviet Union (its successor entities or any of the individual republics of the Soviet Union) or an emerging democracy (as defined in section 1542(f) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5622 note)) for the export of agricultural commodities and products thereof from the United States, including (where applicable) the cost of freight, if in each case—

"(A) the loan involved is unconditionally guaranteed or insured by a department, agency, bureau, board, commission, or establishment of the United States or any corporation wholly owned directly or indirectly by the United States; and

"(B) the guarantee or insurance—

"(i) covers at least 95 percent of the amount loaned for the purchase of the commodities or products; and

"(ii) is issued on or before September 30, 1995.

"(3) A bank for cooperatives is authorized to provide such services as may be customary and normal in maintaining relationships with domestic or foreign entities to facilitate the activities specified in paragraphs (1) and (2), consistent with this Act.".

(2) Conforming amendment.—Section 3.8(b)(1)(D) of such Act (12 U.S.C. 2129(b)(1)(D)) is amended by striking "section 3.7(f)" and inserting "subsection (b) or (f) of section 3.7".

(f) Amendments to Section 3.8.—Section 3.8 of such Act (12 U.S.C. 2129) is amended—

(1) in subsection (a)(4), by striking "(4) A" and inserting "(4) a"; and

(2) in subsection (b)(1), by moving subparagraph (D) 2 ems to the right so that the left margin of such subparagraph is aligned with the left margin of subparagraph (C).".

(g) Amendment to Section 4.28.—Section 4.28 of such Act (12 U.S.C. 2214) is amended by striking "2.17" and inserting "2.16".

(h) Amendment to Section 5.17(a)(8)(B)(ii).—Section 5.17(a)(8)(B)(ii) of such Act (12 U.S.C. 2252(a)(8)(B)(ii)) is amended by striking the last period.

(i) Amendment to Section 5.35(3).—Section 5.35(3) of such Act (12 U.S.C. 2271(3)) is amended by striking "D" and inserting "E".

(j) Amendment to Section 5.58(4)(B).—Section 5.58(4)(B) of such Act (12 U.S.C. 2277a-7(4)(B)) is amended by inserting after "and the Corporation," the following: "in any capacity,".

(k) Amendments to Section 5.65.—Section 5.65(d)(1) of such Act (12 U.S.C. 2277a-14(d)(1)) is amended by striking "insured".

(l) Amendments to Section 6.2(d).—Section 6.2(d) of such Act (12 U.S.C. 2278a-2(d)) is amended by striking "subchapter 1" each place such term appears and inserting "subchapter I".

(m) Amendments to Section 6.23.—Section 6.23 of such Act (12 U.S.C. 2278b-3) is amended by inserting before the period at the end the following: ", except in the event of a restructuring or liquidation to a successor System institution".

(n) Amendment to Section 7.11(a)(2).—Section 7.11(a)(2) of such Act (12 U.S.C. 2279e(a)(2)) is amended by striking "30 days" and inserting "60 days".

SEC. 503. FEDERAL AGRICULTURAL MORTGAGE CORPORATION.

(a) Section 8.11 of the Farm Credit Act of 1971 (12 U.S.C. 2279aa-11) is amended—

(1) by amending paragraph (1) of subsection (a) to read as follows:

"(1) Authority.—Notwithstanding any other provision of this Act, the Farm Credit Administration shall have the authority to provide, acting through the Office of Secondary Market Oversight—

"(A) for the examination of the Corporation and its affiliates; and

"(B) for the general supervision of the safe and sound performance of the powers, functions, and duties vested in the Corporation and its affiliates by this title, including through the use of the authorities granted to the Farm Credit Administration under—

"(i) part C of title V; and

"(ii) beginning 6 months after the date of enactment of this section, section 5.17(a)(9).";

(2) by adding at the end of subsection (a) the following new paragraph:

"(3) Office of Secondary Market Oversight.—

"(A) Not later than 180 days after the date of enactment of this paragraph, the Farm Credit Administration Board shall establish within the Farm Credit Administration the Office of Secondary Market Oversight.

"(B) The Farm Credit Administration Board shall carry out the authority set forth in this section through the Office of Secondary Market Supervision.

"(C) The Office of Secondary Market Supervision shall be managed by a full-time Director who shall be selected by and report to the Farm Credit Administration Board.";

(3) by adding at the end thereof the following new subsection:

"(f) The Farm Credit Administration Board shall ensure that—

"(1) the Office of Secondary Market Supervision has access to a sufficient number of qualified and trained employees to adequately supervise the secondary market activities of the Corporation; and

"(2) the supervision of the powers, functions, and duties of the Corporation is performed, to the extent practicable, by personnel who are not responsible for the supervision of the banks and associations of the Farm Credit System.";

(b) Title VIII of the Farm Credit Act of 1971 (12 U.S.C. 2279aa et seq.) is amended—

(1) by inserting after section 8.0 the following:

"Subtitle A—Establishment and Activities of Federal Agricultural Mortgage Corporation"; and

(2) by inserting after section 8.14 the following new subtitle:

"Subtitle B—Regulation of Financial Safety and Soundness of Federal Agricultural Mortgage Corporation

"SEC. 8.31. DEFINITIONS.

"For purposes of this subtitle:

"(1) Compensation.—The term 'compensation' means any payment of money or the provision of any other thing of current or potential value in connection with employment.

"(2) Core capital.—The term 'core capital' means, with respect to the Corporation, the sum of the following (as determined in accordance with generally accepted accounting principles):

"(A) The par value of outstanding common stock.

"(B) The par value of outstanding preferred stock.

"(C) Paid-in capital.

"(D) Retained earnings.

"(3) Director.—The term 'Director' means the Director of the Office of Secondary Market Oversight of the Farm Credit Administration, appointed under section 8.11(a)(3).

"(4) Office.—The term 'Office' means the Office of Secondary Market Oversight of the Farm Credit Administration, established in section 8.11(a).

"(5) Regulatory capital.—The term 'regulatory capital' means, with respect to the Corporation, the core capital of the Corporation plus an allowance for losses and guarantee claims, as determined in accordance with generally accepted accounting principles.

"(6) State.—The term 'State' means the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

"SEC. 8.32. RISK-BASED CAPITAL LEVELS.

"(a) Risk-Based Capital Test.—Not later than the expiration of the 2-year period beginning on the date of the enactment of this Act, the Director of the Office of Secondary Market Oversight shall, by regulation, establish a risk-based capital test under this section for the Corporation. When applied to the Corporation, the risk-based capital test shall determine the amount of regulatory capital for the Corporation that is sufficient for the Corporation to maintain positive capital during a 10-year period in which both of the following circumstances occur:

"(1) Credit risk.—With respect to securities representing an interest in, or obligations backed by, a pool of qualified loans owned or guaranteed by the Corporation and other obligations of the Corporation, losses on the underlying qualified loans occur throughout the United States at a rate of default and severity (based on any measurements of default reasonably related to prevailing industry practice in determining capital adequacy) reasonably related to the rate and severity that occurred in contiguous areas of the United States containing an aggregate of not less than 5 percent of the total population of the United States that, for a period of not less than 2 years (as established by the Director), experienced the highest rates of default and severity of agricultural mortgage losses, in comparison with such rates of default and severity of agricultural mortgage losses in other such areas for any period of such duration, as determined by the Director.

"(2) Interest rate risk.—Interest rates on Treasury obligations of varying terms increase or decrease over the first 12 months of such 10-year period by not more than the lesser of (A) 50 percent (with respect to the average interest rates on such obligations during the 12-month period preceding the 10-year period), or (B) 600 basis points, and remain at such level for the remainder of the period. This paragraph may not be construed to require the Director to determine interest rate risk under this paragraph based on the interest rates for various long-term and short-term obligations all increasing or all decreasing concurrently.

"(b) Considerations.—

"(1) Establishment of test.—In establishing the risk-based capital test under subsection (a)—

"(A) the Director shall take into account appropriate distinctions based on various types of agricultural mortgage products, varying terms of Treasury obligations, and any other factors the Director considers appropriate;

"(B) the Director shall conform loan data used in determining credit risk to the minimum geographic and commodity diversification standards applicable to pools of qualified loans eligible for guarantee;

"(C) the Director shall take into account retained subordinated participating interests under section 8.6(b)(2);

"(D) the Director may take into account other methods or tests to determine credit risk developed by the Corporation before the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991; and

"(E) the Director shall consider any other information submitted by the Corporation in writing during the 180-day period beginning on the date of the enactment of such Act.

"(2) Revising test.—Upon the expiration of the 5-year period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, the Director shall examine the risk-based capital test under subsection (a) and may revise the test. In making examinations and revisions under this paragraph, the Director shall take into account that, before the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, the Corporation has not issued guarantees for pools of qualified loans. To the extent that the revision of the risk-based capital test causes a change in the classification of the Corporation within the enforcement levels established under section 8.35, the Director shall waive the applicability of any additional enforcement actions available because of such change for a reasonable period of time, to permit the Corporation to increase the amount of regulatory capital of the Corporation accordingly.

"(c) Risk-Based Capital Level.—For purposes of this subtitle, the risk-based capital level for the Corporation shall be equal to the sum of the following amounts:

"(1) Credit and interest rate risk.—The amount of regulatory capital determined by applying the risk-based capital test under subsection (a) to the Corporation, adjusted to account for foreign exchange risk.

"(2) Management and operations risk.—To provide for management and operations risk, 30 percent of the amount of regulatory capital determined by applying the risk-based capital test under subsection (a) to the Corporation.

"(d) Specified Contents.—The regulations establishing the risk-based capital test under this section shall contain specific requirements, definitions, methods, variables, and parameters used under the risk-based capital test and in implementing the test (such as loan loss severity, float income, loan-to value ratios; taxes, yield curve slopes, default experience, prepayment rates, and performance of pools of qualified loans). The regulations shall be sufficiently specific to permit an individual other than the Director to apply the test in the same manner as the Director.

"(e) Availability of Model.—The Director shall make copies of the statistical model or models used to implement the risk-based capital test under this section available for public acquisition and may charge a reasonable fee for such copies.

"SEC. 8.33. MINIMUM CAPITAL LEVEL.

"(a) In General.—Except as provided in subsection (b), for purposes of this subtitle, the minimum capital level for the Corporation shall be an amount of core capital equal to the sum of—

"(1) 2.50 percent of the aggregate on-balance sheet assets of the Corporation (other than assets referred to in paragraph (3)), as determined in accordance with generally accepted accounting principles;

"(2) 0.45 percent of the unpaid principal balance of outstanding securities guaranteed by the Corporation and backed by pools of qualified loans and substantially equivalent instruments issued or guaranteed by the Corporation, and other off-balance sheet obligations of the Corporation; and

"(3) the percentage of the aggregate assets of the Corporation acquired pursuant to the linked portfolio option under section 8.6(g) that is determined under subsection (c).

"(b) 18-Month Transition.—During the 18-month period beginning upon the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, for purposes of this subtitle, the minimum capital level for the Corporation shall be an amount of core capital equal to the sum of—

"(1) 1.50 percent of the aggregate on-balance sheet assets of the Corporation (other than assets referred to in paragraph (3)), as determined in accordance with generally accepted accounting principles;

"(2) 0.40 percent of the unpaid principal balance of outstanding securities guaranteed by the Corporation and backed by pools of qualified loans and substantially equivalent instruments issued or guaranteed by the Corporation, and other off-balance sheet obligations of the Corporation; and

"(3) the percentage of the aggregate assets of the Corporation acquired pursuant to the linked portfolio option under section 8.6(g) that is determined under subsection (c).

"(c) Linked Portfolio Assets.—The percentage of any aggregate assets of the Corporation acquired pursuant to the linked portfolio option under section 8.6(g) that is referred to in subsections (a)(3) and (b)(3) of this section (and in section 8.34(3)(A)) shall be—

"(1) during the 5-year period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991—

"(A) 0.45 percent of any such assets not exceeding $1,000,000,000;

"(B) 0.75 percent of any such assets in excess of $1,000,000,000 but not exceeding $2,000,000,000;

"(C) 1.00 percent of any such assets in excess of $2,000,000,000 but not exceeding $3,000,000,000;

"(D) 1.25 percent of any such assets in excess of $3,000,000,000 but not exceeding $4,000,000,000;

"(E) 1.50 percent of any such assets in excess of $4,000,000,000 but not exceeding $5,000,000,000; and

"(F) 2.50 percent of any such assets in excess of $5,000,000,000.

"(2) after the expiration of such 5-year period, 2.50 percent of any such aggregate assets.

"SEC. 8.34. CRITICAL CAPITAL LEVEL.

"For purposes of this subtitle, the critical capital level for the Corporation shall be an amount of core capital equal to the sum of—

"(1) 1.25 percent of the aggregate on-balance sheet assets of the Corporation (other than assets referred to in paragraph (3)), as determined in accordance with generally accepted accounting principles;

"(2) 0.25 percent of the unpaid principal balance of outstanding securities guaranteed by the Corporation and backed by pools of qualified loans and substantially equivalent instruments issued or guaranteed by the Corporation, and other off-balance sheet obligations of the Corporation; and

"(3) a percentage of any aggregate assets of the Corporation acquired pursuant to the linked portfolio option under section 8.6(g), which shall be—

"(A) during the 5-year period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, one-half of the percentage that is determined under section 8.33(c)(1); and

"(B) after the expiration of such 5-year period, 1.25 percent of any such aggregate assets.

"SEC. 8.35. ENFORCEMENT LEVELS.

"(a) IN GENERAL.—The Director shall classify the Corporation, for purposes of this subtitle, according to the following enforcement levels:

"(1) LEVEL I.—The Corporation shall be classified as within level I if the Corporation—

"(A) maintains an amount of regulatory capital that is equal to or exceeds the risk-based capital level established under section 8.32; and

"(B) equals or exceeds the minimum capital level established under section 8.33.

"(2) LEVEL II.—The Corporation shall be classified as within level II if—

"(A) the Corporation—

"(i) maintains an amount of regulatory capital that is less than the risk-based capital level; and

"(ii) equals or exceeds the minimum capital level; or

"(B) the Corporation is otherwise classified as within level II under subsection (b) of this section.

"(3) LEVEL III.—The Corporation shall be classified as within level III if—

"(A) the Corporation—

"(i) does not equal or exceed the minimum capital level; and

"(ii) equals or exceeds the critical capital level established under section 8.34; or

"(B) the Corporation is otherwise classified as within level III under subsection (b) of this section.

"(4) LEVEL IV.—The Corporation shall be classified as within level IV if the Corporation—

"(A) does not equal or exceed the critical capital level; or

"(B) is otherwise classified as within level IV under subsection (b) of this section.

"(b) DISCRETIONARY CLASSIFICATION.—If at any time the Director determines in writing (and provides written notification to the Corporation and the Farm Credit Administration) that the Corporation is taking any action not approved by the Director that could result in a rapid depletion of core capital or that the value of the property subject to mortgages securitized by the Corporation or property underlying securities guaranteed by the Corporation, has decreased significantly, the Director may classify the Corporation—

"(1) as within level II, if the Corporation is otherwise within level I;

"(2) as within level III, if the Corporation is otherwise within level II; or

"(3) as within level IV, if the Corporation is otherwise within level III.

"(c) QUARTERLY DETERMINATION.—The Director shall determine the classification of the Corporation for purposes of this subtitle on not less than a quarterly basis (and as appropriate under subsection (b)). The first such determination shall be made for the quarter ending March 31, 1992.

"(d) NOTICE.—Upon determining under subsection (b) or (c) that the Corporation is within level II or III, the Director shall provide written notice to the Congress and to the Corporation—

"(1) that the Corporation is within such level;

"(2) that the Corporation is subject to the provisions of section 8.36 or 8.37, as applicable; and

"(3) stating the reasons for the classification of the Corporation within such level.

"(e) IMPLEMENTATION.—Notwithstanding paragraphs (1) and (2) of subsection (a), during the 30-month period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991, the Corporation shall be classified as within level I if the Corporation equals or exceeds the minimum capital level established under section 8.33.

"SEC. 8.36. MANDATORY ACTIONS APPLICABLE TO LEVEL II.

"(a) CAPITAL RESTORATION PLAN.—If the Corporation is classified as within level II, the Corporation shall, within the time period provided in section 8.40(b) and in consultation with the Director, submit to the Director a capital restoration plan that complies with section 8.40 and, after approval, carry out the plan.

"(b) RESTRICTION ON DIVIDENDS.—If the Corporation is classified as within level II, the Corporation may not make any payment of dividends that would result in the Corporation being reclassified as within level III or IV.

"(c) RECLASSIFICATION FROM LEVEL II TO LEVEL III.—The Director shall immediately reclassify the Corporation as within level III (and the Corporation shall be subject to the provisions of section 8.37), if—

"(1) the Corporation is within level II; and

"(2)(A) the Corporation does not submit a capital restoration plan that is substantially in compliance with section 8.40 within the applicable period or the Director does not approve the capital restoration plan submitted by the Corporation; or

"(B) the Director determines that the Corporation has failed to make, in good faith, reasonable efforts necessary to comply with the capital restoration plan and fulfill the schedule for the plan approved by the Director.

"(d) EFFECTIVE DATE.—This section shall take effect upon the expiration of the 30-month period beginning on the date of the enactment of the Federal Agricultural Mortgage Corporation Safety and Soundness Act of 1991.

"SEC. 8.37. SUPERVISORY ACTIONS APPLICABLE TO LEVEL III.

"(a) MANDATORY SUPERVISORY ACTIONS.—

"(1) CAPITAL RESTORATION PLAN.—If the Corporation is classified as within level III, the Corporation shall, within the time period provided in section 8.40(b) and in consultation with the Director, submit to the Director a capital restoration plan that complies with section 8.40 and, after approval, carry out the plan.

"(2) RESTRICTIONS ON DIVIDENDS.—

"(A) PRIOR APPROVAL.—If the Corporation is classified as within level III, the Corporation—

"(i) may not make any payment of dividends that would result in the Corporation being reclassified as within level IV; and

"(ii) may make any other payment of dividends only if the Director approves the payment before the payment.

"(B) STANDARD FOR APPROVAL.—If the Corporation is classified as within level III, the Director may approve a payment of dividends by the Corporation only if the Director determines that the payment (i) will enhance the ability of the Corporation to meet the risk-based capital level and the minimum capital level promptly, (ii) will contribute to the long-term safety and soundness of the Corporation, or (iii) is otherwise in the public interest.

"(3) RECLASSIFICATION FROM LEVEL III TO LEVEL IV.—The Director shall immediately reclassify the Corporation as within level IV (and the Corporation shall be subject to the provisions of section 8.38), if—

"(A) the Corporation is classified as within level III; and

"(B)(i) the Corporation does not submit a capital restoration plan that is substantially in compliance with section 8.40 within the applicable period or the Director does not approve the capital restoration plan submitted by the Corporation; or

"(ii) the Director determines that the Corporation has failed to make, in good faith, reasonable efforts necessary to comply with the capital restoration plan and fulfill the schedule for the plan approved by the Director.

"(b) DISCRETIONARY SUPERVISORY ACTIONS.—In addition to any other actions taken by the Director (including actions under subsection (a)), the Director may, at any time, take any of the following actions if the Corporation is classified as within level III:

"(1) LIMITATION ON INCREASE IN OBLIGATIONS.—Limit any increase in, or order the reduction of, any obligations of the Corporation, including off-balance sheet obligations.

"(2) LIMITATION ON GROWTH.—Limit or prohibit the growth of the assets of the Corporation or require contraction of the assets of the Corporation.

"(3) PROHIBITION ON DIVIDENDS.—Prohibit the Corporation from making any payment of dividends.

"(4) ACQUISITION OF NEW CAPITAL.—Require the Corporation to acquire new capital in any form and in any amount sufficient to provide for the reclassification of the Corporation as within level II.

"(5) RESTRICTION OF ACTIVITIES.—Require the Corporation to terminate, reduce, or modify any activity that the Director determines creates excessive risk to the Corporation.

"(6) CONSERVATORSHIP.—Appoint a conservator for the Corporation consistent with part C of title V.

"(c) EFFECTIVE DATE.—This section shall take effect on January 1, 1992.

(c) AMENDMENT TO SECTION 8.3(c).—Section 8.3(c) of such Act (12 U.S.C. 2279aa-3(c)) is amended—

(1) by redesignating paragraph (13) as paragraph (14); and

(2) by inserting after paragraph (12) the following new paragraph:

"(13) To establish, acquire, and maintain affiliates (as such term is defined in section 8.11(g)) under applicable State laws to carry out any activities that otherwise would be performed directly by the Corporation under this title.".

(d) AMENDMENT TO SECTION 8.6.—Section 8.6 of such Act (12 U.S.C. 2279aa-6) is amended by adding at the end the following new subsection:

"(g) PURCHASE OF GUARANTEED SECURITIES.—

"(1) PURCHASE AUTHORITY.—The Corporation (and affiliates) may purchase, hold, and sell any securities guaranteed under this section by the Corporation that represent interests in, or obligations backed by, pools of qualified loans. Securities issued under this section shall have maturities and bear rates of interest as determined by the Corporation.

"(2) ISSUANCE OF DEBT OBLIGATIONS.—The Corporation (and affiliates) may issue debt obligations solely for the purpose of obtaining amounts for the purchase of any securities under paragraph (1), for the purchase of qualified loans (as defined in section 8.0(9)(B)), and for maintaining reasonable amounts for business operations (including adequate liquidity) relating to activities under this subsection.

"(3) TERMS AND LIMITATIONS.—

"(A) TERMS.—The obligations issued under this subsection shall have maturities and bear rates of interest as determined by the Corporation, and may be redeemable at the option of the Corporation before maturity in the manner stipulated in the obligations.

"(B) REQUIREMENT.—Each obligation shall clearly indicate that the obligation is not an obligation of, and is not guaranteed as to principal and interest by, the Farm Credit Administration, the United States, or any other agency or instrumentality of the United States (other than the Corporation).

"(C) AUTHORITY.—The Corporation may not issue obligations pursuant to paragraph (2) under this subsection while any obligation issued by the Corporation under section 8.13(a) remains outstanding.".

TITLE VI—CROP INSURANCE AND DISASTER ASSISTANCE

SEC. 601. FEDERAL CROP INSURANCE.

The Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) is amended—

(1) in section 506(d) (7 U.S.C. 1506(d))—

(A) by striking "section 508(c)" and inserting "section 508(f)"; and

(B) by striking the semicolon at the end and inserting a period;

(2) in section 506(m) (7 U.S.C. 1506(m))—

(A) by striking "wilfully" and inserting "willfully"; and

(B) by striking "to" after "exceed";

(3) in section 507(c)(2) (7 U.S.C. 1507(c)(2)), by inserting a comma after "private insurance companies";

(4) in section 508(a) (7 U.S.C. 1508(a)), by striking "(1)";

(5) in section 508 (7 U.S.C. 1508), by redesignating subsections (l), (m), and (n) as subsections (k), (l), and (m), respectively; and

(6) in section 518 (7 U.S.C. 1518) by striking "subsection (a) or (l)" and inserting "subsection (a) or (k)".

SEC. 602. DISASTER RELIEF.

(a) 1989 ACT.—Section 104(d)(1) of the Disaster Assistance Act of 1989 (7 U.S.C. 1421 note) is amended by inserting "(A)" after the paragraph heading.

(b) 1988 ACT.—Section 301(b) of the Disaster Assistance Act of 1988 (7 U.S.C. 1464 note) (as amended by section 1541 of the Food, Agriculture, Conservation, and Trade Act of 1990) is amended—

(1) in the subsection heading, by striking "SUNFLOWER SEED" and inserting "SUNFLOWERSEED"; and

(2) in paragraph (2)(A)—

(A) by inserting a comma after "(7 U.S.C. 612c)" in clause (i);

(B) by striking "such Act" in clause (i) and inserting "such section"; and

(C) by striking "sunflower seed" in clause (iv) and inserting "sunflowerseed".

(c) CLARIFICATION OF AMENDMENT.—Section 2232(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101-510; 104 Stat. 3959) is amended—

(1) by striking "is amended to read:" and inserting "is amended by striking the material before the clauses and inserting the following:";

(2) by inserting open double quotes before "(A)"; and

(3) by moving the left margin of subparagraph (A) 2 ems to the right.

TITLE VII—RURAL DEVELOPMENT

SEC. 701. AMENDMENTS TO THE CONSOLIDATED FARM AND RURAL DEVELOPMENT ACT.

(a) AMENDMENTS TO SECTION 306(a).—Section 306(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)) is amended—

(1) in paragraph (11)(B)(ii)—

(A) in subclause (I), by inserting "and" after the semicolon; and

(B) in subclause (II), by striking "; and" and inserting a period; and

(2) by striking paragraph (21).

(b) AMENDMENTS TO SECTION 306C(a)(2).—Subparagraphs (A) and (B) of section 306C(a)(2) of such Act (7 U.S.C. 1926c(a)(2)(A) and (B)) are each amended by moving the left margin of such subparagraphs 2 ems to the right.

(c) AMENDMENTS TO SECTION 310B.—Section 310B of such Act (7 U.S.C. 1932) is amended—

(1) in subsection (i)(2)(B)(iv), by striking "(ii) of this subsection" and inserting "(iii) of this subparagraph";

(2) in subsection (i)(5)(A), by striking "365(b)(3)," and inserting "365(b)(3)),";

(3) by transferring to the end of such section the provision added by section 2386 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 4051);

(4) by redesignating the provision so transferred as subsection (j); and

(5) in subsection (j) (as so redesignated), by striking "The Secretary" and inserting "GRANTS TO BROADCASTING SYSTEMS.—The Secretary.

(d) AMENDMENTS TO SECTION 364(e).—Section 364(e) of such Act (7 U.S.C. 2006f(e)) is amended—

(1) in paragraph (2), by striking "the date of enactment of this section" and inserting "November 28, 1990"; and

(2) in paragraph (3), by striking "the date of enactment of this section" and inserting "November 28, 1990,".

(e) AMENDMENTS TO SECTION 365(b).—Section 365(b) of such Act (7 U.S.C. 2008(b)) is amended—

(1) in paragraph (4)(A), by striking "(3)(C)" and inserting "(3)(A)(iii)"; and

(2) in paragraph (5), by striking "(3)(B)" and inserting "(3)(A)(ii)".

(f) AMENDMENT TO SECTION 366(h).—Section 366(h) of such Act (7 U.S.C. 2008a(h)) is amended by striking "of such officer" and inserting "of such officer's".

(g) AMENDMENT TO SECTION 367(b)(1).—Section 367(b)(1) of such Act (7 U.S.C. 2008b(b)(1)) is amended by striking "365(b)(6)" and inserting "366(b)(6)".

(h) MISCELLANEOUS AMENDMENTS.—

(1) IDENTICAL AMENDMENTS.—Each of the following provisions of such Act is amended by striking "this Act" each place such term appears and inserting "this title":

(A) Section 306(a)(12)(D) (7 U.S.C. 1926(a)(12)(D)).

(B) Section 306(a)(20) (7 U.S.C. 1926(a)(20)).

(C) Section 310B(d)(5) (7 U.S.C. 1932(d)(5)).

(D) Section 310B(d)(7) (7 U.S.C. 1932(d)(7)).

(E) Section 331(b)(3) (7 U.S.C. 1981(b)(3)).

(F) Section 346(b)(3)(C) (7 U.S.C. 1994(b)(3)(C)).

(2) OTHER MISCELLANEOUS AMENDMENT.—Section 352(b)(3) of such Act (7 U.S.C. 2000(b)(3)) is amended by striking "be".

SEC. 702. AMENDMENTS TO THE FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.

(a) AMENDMENT TO SECTION 2302(b)(1).—Section 2302(b)(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 2006f note) is amended by striking "the date of enactment of this section" and inserting "November 28, 1990".

(b) AMENDMENTS TO SECTION 2311.—Section 2311 of such Act (7 U.S.C. 2007a) is amended—

(1) in paragraph (2)(A)(ii)—

(A) by striking "4(b)" and inserting "4(e)";

(B) by striking "the section 4(c)" and inserting "section 4(l)"; and

(C) by striking "450b(c)))" and inserting "450b(l)))"; and

(2) in paragraph (4), by striking "this Act" and inserting "this chapter".

(c) AMENDMENTS TO SECTION 2313.—Section 2313 of such Act (7 U.S.C. 2007c) is amended—

(1) in subsection (a)(2), by striking "Fund established under paragraph (1)" and inserting "Rural Business Investment Fund";

(2) in subsection (b)(1), by striking "fund established by subsection (a)" and inserting "Rural Business Investment Fund"; and

(3) in subsection (c)(6), by inserting "Business Investment" before "Fund".

(d) AMENDMENT TO SECTION 2314(a)(1)(A)(i).—Section 2314(a)(1)(A)(i) of such Act (7 U.S.C. 2007d(a)(1)(A)(i)) is amended by striking "from the Fund under this chapter" and inserting "under this chapter from the Rural Business Investment Fund".

(e) AMENDMENT TO SECTION 2315(d)(2).—Section 2315(d)(2) of such Act (7 U.S.C. 2007e(d)(2)) is amended by striking "engage in conduct, in".

(f) AMENDMENTS TO SECTION 2322.—Section 2322 of such Act (7 U.S.C. 1926-1) is amended—

(1) in subsection (d)(1)(B)—

(A) by striking "section 306(a)(9) and 306(a)(10)" and inserting "paragraphs (9) and (10) of section 306(a)"; and

(B) by striking "sections 306(a)(19)(A) and (B)" and inserting "subparagraphs (A) and (B) of section 306(a)(19)"; and

(2) in subsection (i)(1), by striking "and (3)".

(g) AMENDMENT TO SECTION 2332.—Section 2332 of such Act (7 U.S.C. 950aaa-1) is amended by striking "Federal government" and inserting "Federal Government".

(h) AMENDMENTS TO SECTION 2388(h).—

(1) AMENDMENTS.—Section 2388(h) of such Act (104 Stat. 4053) is amended—

(A) in paragraph (1), by inserting "and" after the semicolon;

(B) in paragraph (2), by striking "; and" and inserting a period; and

(C) by striking paragraph (3).

(2) SPECIAL RULE.—The Consolidated Farm and Rural Development Act shall be applied and administered as if the amendment made by 2388(h)(3) of the Food, Agriculture, Conservation, and Trade Act of 1990 had never been enacted.

(i) REPEAL OF SECTION 2388(i).—Subsection (i) of section 2388 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 4053) is hereby repealed and the Consolidated Farm and Rural Development Act shall be applied and administered as if the amendments made by such subsection had never been enacted.

SEC. 703. AMENDMENTS TO THE RURAL ELECTRIFICATION ACT OF 1936.

(a) AMENDMENT TO SECTION 11A.—Section 11A(e) of the Rural Electrification Act of 1936 (7 U.S.C. 911a(e)) is amended by striking "1 percent" and inserting "2 percent".

(b) REPEAL OF SECTION 17.—Section 17 of such Act (7 U.S.C. 917) is repealed.

(c) AMENDMENTS TO SECTION 501.—Section 501 of such Act (7 U.S.C. 950aa) is amended—

(1) in paragraph (6), by inserting "and" after the semicolon;

(2) by striking paragraph (7); and

(3) by redesignating paragraph (8) as paragraph (7).

(d) AMENDMENT TO SECTION 502.—Section 502(a)(2) of such Act (7 U.S.C. 950aa-1(a)(2)) is amended by striking "as defined in this Act".

SEC. 704. RURAL HEALTH LEADERSHIP DEVELOPMENT.

(a) IN GENERAL.—Section 502(i)(1) of the Rural Development Act of 1972 (7 U.S.C. 2662) (as redesignated by section 403(a)(2)(B) of this Act) is amended by adding at the end the following new subparagraph:

"(C) RURAL HEALTH LEADERSHIP DEVELOPMENT.—The Secretary, in consultation with the Office of Rural Health Policy of the Department of Health and Human Services, may make grants to academic medical centers or land grant colleges and universities, or any combination thereof, for the establishment of rural health leadership development education programs that shall assist rural communities in developing health care services and facilities that will provide the maximum benefit for the resources invested and assist community leaders and public officials in understanding their roles and responsibilities relative to rural health services and facilities, including—

"(i) community decisions regarding funding for and retention of rural hospitals;

"(ii) rural physician and allied health professionals recruitment and retention;

"(iii) the aging rural population and senior services required to care for the population;

"(iv) the establishment and maintenance of rural emergency medical services systems; and

"(v) the application of computer-assisted capital budgeting decision aids for rural health services and facilities.".

(b) CONFORMING AMENDMENT.—The first sentence of section 502(i)(4) of the Rural Development Act of 1972 (7 U.S.C. 2662) (as redesignated by section 403(a)(2)(B) of this Act) is amended by inserting after "to States" the following "or entities described in paragraph (1)(C)".

TITLE VIII—AGRICULTURAL PROMOTION

SEC. 801. SHORT TITLE.

Section 1901 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6001 note; 104 Stat. 3838) is amended by striking "This Act" and inserting "This title".

SEC. 802. PECANS.

Subtitle A of title XIX of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6001 et seq., 104 Stat. 3838) is amended—

(1) in section 1907(22) (7 U.S.C. 6002(22)), by striking "inshell" and inserting "in-shell";

(2) in section 1910(b)(8)(G) (7 U.S.C. 6005(b)(8)(G))—

(A) by striking "paragraph 3(A), (B), and (C)," and inserting "subparagraphs (A), (B), and (C) of paragraph (3),"; and

(B) by striking "paragraph (3)(D) and (E)" and inserting "subparagraphs (D) and (E) of paragraph (3)"; and

(3) in section 1915(b)(2) (7 U.S.C. 6010(b)(2)), by striking "section" after "1913 or".

SEC. 803. MUSHROOMS.

Subtitle B of title XIX of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6101 et seq.; 104 Stat. 3854) is amended—

(1) in section 1925(h) (7 U.S.C. 6104(h)), by striking "government" and inserting "governmental";

(2) in section 1928(d)(1)(A) (7 U.S.C. 6107(d)(1)(A)), by striking "United States district court" and inserting "United States District Court"; and

(3) in section 1929(b)(2) (7 U.S.C. 6108(b)(2)), by striking "section" after "1927 or".

SEC. 804. POTATOES.

Section 310(a)(2) of the Potato Research and Promotion Act (7 U.S.C. 2619(a)(2)) is amended by striking "(2) when" and inserting "(2) When".

SEC. 805. LIMES.

Subtitle D of title XIX of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6201 et seq.; 104 Stat. 3870) is amended—

(1) in section 1955(e)(1)(B) (7 U.S.C. 6204(e)(1)(B)), by striking "government employees" and inserting "Government employees";

(2) in section 1958(d)(1) (7 U.S.C. 6207(d)(1)), by striking "United States district court" and inserting "United States District Court"; and

(3) in section 1959(b)(2) (7 U.S.C. 6208(b)(2)), by striking "section" after "1957 or".

SEC. 806. SOYBEANS.

Subtitle E of title XIX of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 6301 et seq.; 104 Stat. 3881) is amended—

(1) in section 1969 (7 U.S.C. 6304)—

(A) in subsection (g)(2)(A)(ii), by striking "Argicultural" and inserting "Agricultural";

(B) in subsection (l)(2)(F)(vii)(V), by striking "that requests" and inserting "that request"; and

(C) in subsection (q)(4)—

(i) by inserting a comma after "and"; and

(ii) by striking the semicolon after "Board";

(2) in section 1970(b)(3) (7 U.S.C. 6305(b)(3)), by striking "this Act" and inserting "this subtitle"; and

(3) in section 1974 (7 U.S.C. 6309)—

(A) in subsection (b)(3), by striking "section 1969(k)(4)" and inserting "section 1969(l)(4)"; and

(B) by redesignating the second subsection (b) as subsection (c).

SEC. 807. HONEY.

The Honey Research, Promotion, and Consumer Information Act (7 U.S.C. 4601 et seq.) is amended—

(1) in section 9(h) (7 U.S.C. 4608(h)), by inserting "to" before "an importer"; and

(2) in section 11A(b)(2) (7 U.S.C. 4610a(b)(2)), by striking "section" after "10 or".

SEC. 808. COTTON.

(a) COTTON PROMOTION ACT.—The Cotton Research and Promotion Act (7 U.S.C. 2101 et seq.) is amended—

(1) in section 7(e)(4) (7 U.S.C. 2106(e)(4)), by striking "title" and inserting "Act";

(2) in section 8(b)(2) (7 U.S.C. 2107(b)(2)), by striking "section 17C(2)" and inserting "section 17(c)(2)";

(3) in section 10(b) (7 U.S.C. 2109(b)), by striking "section 8(b) or 8(c)" and inserting "subsection (b) or (c) of section 8"; and

(4) in section 11(a) (7 U.S.C. 2110(a))—

(A) by inserting "of this Act" after "section"; and

(B) by striking "of this Act," after "subsection (b),".

(b) REPORTS.—Section 1998 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 2101 note; 104 Stat. 3913) is amended by striking "title" each place it appears in subsections (a) and (b) and inserting "subtitle".

SEC. 809. FLUID MILK.

Section 1999L(b) of the Fluid Milk Promotion Act of 1990 (7 U.S.C. 6411(b); 104 Stat. 3922) is amended by striking "this subsection" and inserting "this section".

SEC. 810. WOOL.

Section 708 of the National Wool Act of 1954 (7 U.S.C. 1787) is amended by inserting after the third sentence the following new sentence: "In any agreement entered into under this section, the Secretary shall prohibit the use of any funds made available through pro rata deductions from payments under section 704 of this title in any manner for the purpose of influencing legislation or government action or policy, except for the development or recommendation to the Secretary of amendments to the research and promotion program.".

TITLE IX—FOOD AND NUTRITION PROGRAMS

Subtitle A—Food Stamp Program

SEC. 901. APPLICATION OF FOOD STAMP ACT OF 1977 TO DISABLED PERSONS.

Section 3 of the Food Stamp Act of 1977 (7 U.S.C. 2012) is amended by inserting after "title I, II, X, XIV, or XVI of the Social Security Act" both places it appears in subsections (g)(7) and (i) the following: ", or are individuals described in paragraphs (2) through (7) of subsection (r),".

SEC. 902. CATEGORICAL ELIGIBILITY FOR RECIPIENTS OF GENERAL ASSISTANCE.

The third sentence of section 5(a) of the Food Stamp Act of 1977 (7 U.S.C. 2014(a)) is amended by striking "appropriate for categorical treatment" and inserting "based on income criteria comparable to or more restrictive than those under subsection (c)(2), and not limited to one-time emergency payments that cannot be provided for more than one consecutive month,".

SEC. 903. EXCLUSIONS FROM INCOME.

Section 5(d) of the Food Stamp Act of 1977 (7 U.S.C. 2014(d)) is amended—

(1) in paragraph (3)—

(A) in subparagraph (A), by striking "to the extent" and all that follows through "involved)" and inserting "awarded to a household member enrolled"; and

(B) in subparagraph (B)—

(i) by inserting after "amount" the following: "used for or"; and

(ii) by striking "or program for" and inserting "program, or other grantor, for tuition and mandatory fees (including the rental or purchase of any equipment, materials, and supplies related to the pursuit of the course of study involved),";

(2) by striking "and" at the end of paragraph (14); and

(3) by inserting before the period at the end the following: ", and (16) any amounts necessary for the fulfillment of a plan for achieving self-support of a household member as provided under section 1612(b)(4)(B)(iv) of the Social Security Act (42 U.S.C. 1382a(b)(4)(B)(iv))".

SEC. 904. RESOURCES THAT CANNOT BE SOLD FOR A SIGNIFICANT RETURN.

Section 5(g)(5) of the Food Stamp Act of 1977 (7 U.S.C. 2014(g)(5)) is amended by adding at the end the following new sentences: "A resource shall be so identified if its sale or other disposition is unlikely to produce any significant amount of funds for the support of the household. The Secretary shall not require the State agency to require verification of the value of a resource to be excluded under this paragraph unless the State agency determines that the information provided by the household is questionable.".

SEC. 905. RESOURCE EXEMPTION FOR HOUSEHOLDS EXEMPT UNDER AFDC OR SSI.

Subsection (j) of section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014(j)) is amended to read as follows:

"(j) Notwithstanding subsections (a) through (i), a State agency shall consider a household member who receives supplemental security income benefits under title XVI of the Social Security Act (42 U.S.C. 1382 et seq.), aid to the aged, blind, or disabled under title I, II, X, XIV, or XVI of such Act (42 U.S.C. 301 et seq.), or who receives benefits under a State plan approved under part A of title IV of such Act (42 U.S.C. 601 et seq.) to have satisfied the resource limitations prescribed under subsection (g).".

SEC. 906. TECHNICAL AMENDMENT ON TRANSITIONAL HOUSING.

Section 5(k)(2)(F) of the Food Stamp Act of 1977 (7 U.S.C. 2014(k)(2)(F)) is amended by inserting before the semicolon the following: ", if the State agency calculates a shelter allowance to be paid under the State plan separate and apart from payments for other household needs even though it may be paid in combination with other allowances in some cases".

SEC. 907. PERFORMANCE STANDARDS FOR EMPLOYMENT AND TRAINING PROGRAMS.

(a) IN GENERAL.—Subparagraph (L) of section 6(d)(4) of the Food Stamp Act of 1977 (7 U.S.C. 2015(d)(4)(L)) is amended to read as follows:

"(L)(i) The Secretary shall establish performance standards and measures applicable to employment and training programs carried out under this paragraph that are based on employment outcomes, including increases in earnings.

"(ii) Final performance standards and measures referred to in clause (i) shall be published not later than 12 months after the date that the final outcome-based performance standards are published for job opportunities and basic skills training programs under part F of title IV of the Social Security Act (42 U.S.C. 681 et seq.).

"(iii) The standards shall encourage States to serve those individuals who have greater barriers to employment and shall take into account the extent to which persons have elected to participate in employment and training programs under this paragraph. The standards shall require participants to make levels of efforts comparable to those required under the regulations set forth in section 273.7(f)(1) of title 7, Code of Federal Regulations in effect on January 1, 1991.

"(iv) The performance standards in effect under subparagraph (K) shall remain in effect during the period beginning on October 1, 1988, and ending on the date the Secretary implements the outcome-based performance standards described in this subparagraph.

"(v) A State agency shall be considered in compliance with applicable performance standards under subparagraph (K) if the State agency operates an employment and training program in a manner consistent with its approved plan and if the program requires participants to make levels of effort comparable to those required under the regulations set forth in section 273.7(f)(1) of title 7, Code of Federal Regulations in effect on January 1, 1991.".

(b) LIMITATION.—Section 6(d)(4)(K)(i) of such Act is amended—

(1) by striking "50 percent through September 30, 1989" and inserting "10 percent in fiscal years 1992 and 1993, and 15 percent in fiscal years 1994 and 1995"; and

(2) by adding at the end the following new sentence: "The Secretary shall not require the plan of a State agency to provide for the participation of a number of recipients greater than 10 percent in fiscal years 1992 and 1993, and 15 percent in fiscal years 1994 and 1995, of the persons who are subject to employment requirements under this section and who are not exempt under subparagraph (D).".

SEC. 908. SUSPENSION OF CERTAIN REQUIREMENTS, AND STUDY, OF FOOD STAMP PROGRAM ON INDIAN RESERVATIONS.

(a) SUSPENSION OF REQUIREMENTS.—

(1) STAGGERED ISSUANCE OF COUPONS.—No State agency shall be required to implement section 7(h)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2016(h)(1)), regarding the staggering of issuance of food stamp coupons, until April 1, 1993. The Secretary of Agriculture shall issue final regulations requiring the staggered issuance of coupons no later than December 1, 1992.

(2) EXEMPTION FROM MONTHLY REPORTING SYSTEMS.—No State agency shall be required to exempt households residing on Indian reservations from food stamp program monthly reporting systems until April 1, 1993. The Secretary shall issue final regulations requiring the exemption of households residing on Indian reservations from food stamp program monthly reporting systems no later than December 1, 1992.

(b) STUDY.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Comptroller General of the United States shall report to the Committee on Agriculture, Nutrition and Forestry of the Senate and the Committee on Agriculture of the House of Representatives on the difficulties that residents of Indian reservations experience in obtaining food stamp benefits, in using food stamp benefits, and in purchasing food economically with food stamps.

(2) COMPONENTS.—In carrying out paragraph (1), the Comptroller General shall—

(A) examine whether monthly reporting requirements are a burden to food stamp households residing on Indian reservations;

(B) examine whether prices at food stores serving reservations are increased during the parts of months when food stamps are issued or are decreased during times of the month when most households have exhausted their food stamp allotments;

(C) examine whether eligible households residing on reservations would prefer that the households' food stamp issuances be—

(i) staggered throughout the month;

(ii) concentrated on the same day of each month; or

(iii) staggered during approximately the first 2 weeks of the month; and

(D) analyze problems associated with transportation difficulties in terms of food stamp program participation and any actions that could be taken at the Federal, State, or local level to remedy the problems.

(3) CONSULTATION.—In completing the report and recommendations, the Comptroller General shall consult with Indian tribes, State agencies, and other appropriate parties.

SEC. 909. VALUE OF ALLOTMENT.

Section 8(b) of the Food Stamp Act of 1977 (7 U.S.C. 2017(b)) is amended—

(1) by striking "the allotment provided any eligible household" and inserting "benefits that may be provided under this Act, whether through coupons, access devices, or otherwise"; and

(2) by striking "an allotment" and inserting "benefits".

SEC. 910. PRORATING WITHIN A CERTIFICATION PERIOD.

Section 8(c) of the Food Stamp Act of 1977 (7 U.S.C. 2017(c)) is amended—

(1) in paragraph (1), by adding at the end the following new sentence: "Households shall receive full months' allotments for all months within a certification period, except as provided in the first sentence of this paragraph with respect to an initial month."; and

(2) in paragraph (2)(B), by striking "previous participation in such program" and inserting "the expiration of a certification period or after the termination of the certification of a household, during a certification period, when the household ceased to be eligible after notice and an opportunity for a hearing under section 11(e)(10)".

SEC. 911. RECOVERY OF CLAIMS CAUSED BY NONFRAUDULENT HOUSEHOLD ERRORS.

The first sentence of section 13(b)(2)(A) of the Food Stamp Act of 1977 (7 U.S.C. 2022(b)(2)(A)) is amended by inserting before the period the following: ", except that the household shall be given notice permitting it to elect another means of repayment and given 10 days to make such an election before the State agency commences action to reduce the household's monthly allotment".

SEC. 912. DEMONSTRATION PROJECTS FOR VEHICLE EXCLUSION LIMIT.

The Secretary of Agriculture shall solicit requests to participate in the demonstration projects required by section 17(h) of the Food Stamp Act of 1977 (7 U.S.C. 2026(h)) by May 1, 1992. The projects shall commence operations no later than January 1, 1993.

SEC. 913. DEFINITION OF RETAIL FOOD STORE.

Section 11002(f)(3) of the Homeless Eligibility Clarification Act (Public Law 99-570; 7 U.S.C. 2012 note) is amended by striking "and (b)" and inserting ", (b), and (c)".

Subtitle B—Commodity Distribution

SEC. 921. EXTENSION OF ELDERLY COMMODITY PROCESSING DEMONSTRATIONS.

Section 1114(a)(2)(D) of the Agriculture and Food Act of 1981 (7 U.S.C. 1431e(2)(D)) is amended by striking "1992 and 1993" and inserting "1992, 1993, and 1994".

SEC. 922. REDUCTION OF FEDERAL PAPERWORK FOR DISTRIBUTION OF COMMODITIES.

(a) HUNGER PREVENTION ACT.—Section 110 of the Hunger Prevention Act of 1988 (7 U.S.C. 612c note) is amended—

(1) in paragraphs (1) and (2) of subsection (c), by inserting after "to needy persons" each place it appears the following: "and to other institutions that can demonstrate, in accordance with subsection (j)(3), that they serve predominantly needy persons"; and

(2) by adding at the end the following new subsections:

"(j) PRIORITY SYSTEM FOR STATE DISTRIBUTION OF COMMODITIES.—

"(1) SOUP KITCHENS.—In distributing commodities under this section, the distributing

agency, under procedures determined appropriate by the distributing agency, shall offer, or otherwise make available, its full allocation of commodities for distribution to soup kitchens and other like organizations that serve meals to homeless persons, and to food banks for distribution to such organizations.

"(2) INSTITUTIONS THAT SERVE ONLY LOW-INCOME RECIPIENTS.—If distributing agencies determine that they will not likely exhaust their allocation of commodities under this section through distribution to institutions referred to in paragraph (1), the distributing agencies shall make the remaining commodities available to food banks for distribution to institutions that distribute commodities to the needy. When such institutions distribute commodities to individuals for home consumption, eligibility for such commodities shall be determined through a means test as determined appropriate by the State distributing agency.

"(3) OTHER INSTITUTIONS.—If the distributing agency's commodity allocation is not likely to be exhausted after distribution under paragraphs (1) and (2) (as determined by the food bank), food banks may distribute the remaining commodities to institutions that serve meals to needy persons and do not employ a means test to determine eligibility for such meals, provided that the organizations have documented, to the satisfaction of the food bank, that the organizations do, in fact, serve predominantly needy persons.

"(k) SETTLEMENT AND ADJUSTMENT OF CLAIMS..—

"(1) IN GENERAL.—The Secretary or a designee of the Secretary shall have the authority to—

"(A) determine the amount of, settle, and adjust any claim arising under this section; and

"(B) waive such a claim if the Secretary determines that to do so will serve the purposes of this section.

"(2) LITIGATION.—Nothing contained in this subsection shall be construed to diminish the authority of the Attorney General of the United States under section 516 of title 28, United States Code, to conduct litigation on behalf of the United States.".

(b) EMERGENCY FOOD ASSISTANCE ACT.—The Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by adding at the end the following new section:

"SEC. 215. SETTLEMENT AND ADJUSTMENT OF CLAIMS.

"(a) IN GENERAL.—The Secretary or a designee of the Secretary shall have the authority to—

"(1) determine the amount of, settle, and adjust any claim arising under this Act; and

"(2) waive such a claim if the Secretary determines that to do so will serve the purposes of this Act.

"(b) LITIGATION.—Nothing contained in this section shall be construed to diminish the authority of the Attorney General of the United States under section 516 of title 28, United States Code, to conduct litigation on behalf of the United States.".

(c) COMMODITY SUPPLEMENTAL FOOD PROGRAM.—Section 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note) is amended by adding at the end the following new subsection:

"(k)(1) The Secretary or a designee of the Secretary shall have the authority to—

"(A) determine the amount of, settle, and adjust any claim arising under the commodity supplemental food program; and

"(B) waive such a claim if the Secretary determines that to do so will serve the purposes of the program.

"(2) Nothing contained in this subsection shall be construed to diminish the authority of the Attorney General of the United States under section 516 of title 28, United States Code, to conduct litigation on behalf of the United States.".

Subtitle C—Indian Subsistence Farming Demonstration Grant

SEC. 931. PURPOSES.

The purposes of this subtitle are to—

(1) provide technical assistance and training through the Extension Service in the Department of Agriculture to Indian tribes and Alaska Natives for the development and operation of subsistence farming programs to improve the nutritional health of Indians living on or near Indian reservations;

(2) establish the Indian subsistence farming demonstration grant program within the Department of Agriculture; and

(3) provide a supplemental source of fresh produce for Indians and Alaska Natives who—

(A) have special dietary needs;

(B) are participating in—

(i) the food stamp program established under the Food Stamp Act of 1977 (7 U.S.C. 2011 et. seq.); or

(ii) the food distribution program on Indian reservations established under section 4(b) of such Act (7 U.S.C. 2013(b)); or

(C) have income below 185 percent of the poverty line referred to in section 5(c)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2014(c)(1)).

SEC. 932. DEFINITIONS.

For the purposes of this subtitle:

(1) ELIGIBLE RECIPIENT.—The term "eligible recipient" means an Indian who—

(A) is identified by the Secretary as having special dietary needs;

(B) is participating in—

(i) the food stamp program established under the Food Stamp Act of 1977 (7 U.S.C. 2011 et. seq.); or

(ii) the food distribution program on Indian reservations established under section 4(b) of such Act (7 U.S.C. 2013(b)); or

(C) has income below 185 percent of the poverty line referred to in section 5(c)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2014(c)(1)).

(2) INDIAN.—The term "Indian" means a person who is a member of an Indian tribe, or who is an Alaska Native and a member of a Regional Corporation (as defined in section 3(g) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(g)).

(3) INDIAN RESERVATION.—The term "Indian reservation" has the same meaning given to the term "reservation" under section 3(d) of the Indian Financing Act of 1974 (25 U.S.C. 1452(d)).

(4) INDIAN TRIBE.—The term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community (including any Alaska Native village, Regional Corporation, or Regional Corporation (as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)), which is recognized as eligible for the special services provided by the United States to Indians because of their status as Indians.

(5) INTER-TRIBAL CONSORTIUM.—The term "inter-tribal consortium" means a partnership between—

(A) an Indian tribe or tribal organization on an Indian reservation; and

(B) one or more Indian tribes or tribal organizations of other Indian tribes.

(6) PROGRAM.—The term "program" means any subsistence farming program funded or assisted under this subtitle.

(7) SECRETARY.—The term "Secretary" means the Secretary of Agriculture.

SEC. 933. INDIAN SUBSISTENCE FARMING DEMONSTRATION GRANT PROGRAM.

(a) IN GENERAL.—The Secretary may establish an Indian subsistence farming demonstration grant program that provides grants to any Indian tribe, or intertribal consortium, for the establishment on Indian reservations of subsistence farming operations that grow fresh produce for distribution to eligible recipients.

(b) APPLICATION.—Any Indian tribe or tribal consortium may submit to the Secretary an application for a grant under this subtitle. Any such application shall—

(1) be in such form as the Secretary may prescribe;

(2) be submitted to the Secretary on or before the date designated by the Secretary; and

(3) specify—

(A) the nature and scope of the subsistence farming project proposed by the applicant;

(B) the extent to which the project plans to use or incorporate existing resources and services available on the reservation; and

(C) the number of Indians who are projected as eligible recipients of produce grown under the project.

SEC. 934. TRAINING AND TECHNICAL ASSISTANCE.

The Extension Service may conduct, with respect to the projects established under this title, site surveys, workshops, short courses, training, and technical assistance on such topics as nutrition food preservation and preparation techniques, spacing, depth of seed placement, soil types, and other aspects of subsistence farming operations.

SEC. 935. TRIBAL CONSULTATION.

An Indian tribe participating in any subsistence farming program established under this subtitle shall consult with appropriate tribal and Indian Health Service officials regarding the specific dietary needs of the population to be served by the operation of the Indian subsistence farming project.

SEC. 936. USE OF GRANTS.

Funds provided under this subtitle may be used for—

(1) the purchase or lease of agricultural machinery, equipment, and tools for the operation of the program;

(2) the purchase of seeds, fertilizers, and such other resources as may be required for the operation of the program;

(3) the construction of greenhouses, fences, and other structures or facilities;

(4) accounting and distribution of produce grown under the program; and

(5) the employment of persons for the management and operation of the program.

SEC. 937. AMOUNT AND TERM OF GRANT.

(a) AMOUNT.—The maximum amount of any grant awarded under this subtitle shall not exceed $50,000.

(b) TERM.—The maximum term of any grant awarded under this subtitle shall be 3 years.

SEC. 938. OTHER REQUIREMENTS.

Each recipient of a grant awarded under this subtitle shall—

(1) furnish the Secretary with such information as the Secretary may require to—

(A) evaluate the program for which the grant is made;

(B) ensure that the grant funds are expended for the purposes for which the grant was made; and

(C) ensure that the produce grown is distributed to eligible recipients on the reservation; and

(2) submit to the Secretary at the close of the term of the grant a final report that shall include such information as the Secretary may require.

SEC. 939. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this subtitle $2,000,000 for each of the fiscal years 1993 through 1995.

Subtitle D—Technical Amendments

SEC. 941. TECHNICAL AMENDMENTS TO THE FOOD STAMP ACT OF 1977.

The Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) is amended—

(1) in section 3 (7 U.S.C. 2012)—

(A) in subsection (j), by striking "section 3(p) of this Act" and inserting "subsection (p)";

(B) in subsection (o)(6), by striking "per centun" and inserting "percent"; and

(C) by redesignating subsection (u) as subsection (t);

(2) in section 5 (7 U.S.C. 2014)—

(A) in subsection (d)(2), by striking "section 5(f) of this Act" and inserting "subsection (f)";

(B) in subsection (h)(1), by striking "Disaster Relief and Emergency Assistance Act" and inserting "Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.)"; and

(C) in subsection (k)(2), by moving the margin of subparagraph (E) to the left so as to align with the margin of subparagraph (D);

(3) in section 6 (7 U.S.C. 2015)—

(A) in subsection (c)(1)(A), by moving the margin of clause (ii) to the left so as to align with the margin of clause (i);

(B) in subsection (d)(1)(A)—

(i) by striking "who is physically" and inserting "who is a physically";

(ii) by striking "Secretary;" in clause (i) and all that follows through "refuses" in clause (ii) and inserting "Secretary; (ii) refuses"; and

(iii) by striking "two months" in clause (ii) and all that follows through "refuses" in clause (iii) and inserting "two months; or (iii) refuses";

(C) in subsection (d)(4)(B)(vii)—

(i) by striking "Secretary,," and inserting "Secretary,"; and

(ii) by striking "aimed an" and inserting "aimed at";

(D) in subsection (d)(4)(D)(iii), by striking "clauses (i) or (ii)" and inserting "clause (i) or (ii)"; and

(E) in subsection (d)(4)(I)(i)(II)—

(i) by striking "601 et seq.))" and inserting "601 et seq.)"; and

(ii) by striking ", but in" and inserting "), but in";

(4) in section 9(a)(1) (7 U.S.C. 2018(a)(1)), by redesignating paragraphs (1), (2), and (3) as subparagraphs (A), (B), and (C), respectively;

(5) in section 11(e) (7 U.S.C. 2020(e))—

(A) in paragraph (2), by striking the period at the end and inserting a semicolon;

(B) in paragraph (3)—

(i) in subparagraph (D), by inserting a close parenthesis after "section 6"; and

(ii) in subparagraph (E), by striking "verified under this Act, and that the State agency shall provide the household" and inserting "verified under this Act,

and that the State agency shall provide the household"; and

(C) in paragraph (15), by striking the period at the end and inserting a semicolon;

(6) in section 11 (7 U.S.C. 2020), by redesignating subsection (p) as subsection (b) and transferring such subsection to the location after subsection (a);

(7) in section 16 (7 U.S.C. 2025)—

(A) in subsection (g), by inserting a comma after "1991"; and

(B) in subsection (h)(4), by striking "the Act" and inserting "this Act";

(8) in the first sentence of section 17(b)(3)(C) (7 U.S.C. 2026(b)(3)(C)), by striking "402(g)(1)(A)" and inserting "402(g)(1)(A))";

(9) in section 19(b)(1)(A)(i) (7 U.S.C. 2028(b)(1)(A)(i)), by striking "directly." and inserting "directly";

(10) in section 20(g)(2) (7 U.S.C. 2029(g)(2))—

(A) by moving the margins of subparagraphs (A) and (B) 2 ems to the left; and

(B) in subparagraph (B), by moving the margins of clauses (i) and (ii) 2 ems to the left; and

(11) in section 22 (7 U.S.C. 2031)—

(A) by inserting the following section heading above the section designation:

"FOOD STAMP PORTION OF MINNESOTA FAMILY INVESTMENT PLAN";

(B) in subsection (d)(2)(B), by striking "paragraph (b)(3)(D)(iii)" and inserting "subsection (b)(3)(D)(iii)"; and

(C) in subsection (h), by striking "subsection b(12)" and inserting "subsection (b)(12)".

SEC. 942. AMENDMENT RELATING TO THE HUNGER PREVENTION ACT OF 1988.

Section 1772(h)(5) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3809) is amended by striking "Relief" and inserting "Prevention".

TITLE X—MISCELLANEOUS TECHNICAL CORRECTIONS

SEC. 1001. ORGANIC CERTIFICATION.

Title XXI of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat 3935) is amended—

(1) in section 2105 (7 U.S.C. 6504), by striking the period at the end of paragraph (2) and inserting "; and";

(2) in section 2110 (7 U.S.C. 6509)—

(A) in subsection (d)(1)(B), by striking "paraciticides" and inserting "parasiticides"; and

(B) by redesignating subsection (h) as subsection (g);

(3) in section 2111(a)(1) (7 U.S.C. 6510(a)(1)), by striking "post harvest" and inserting "postharvest";

(4) in section 2112(b) (7 U.S.C. 6511(b)), by striking "PRE-HARVEST" and inserting "PREHARVEST";

(5) in section 2116(j)(2) (7 U.S.C. 6515(j)(2)), by striking "certifying such" and inserting "such certifying";

(6) in section 2118(c)(1)(B)(i) (7 U.S.C. 6517(c)(1)(B)(i)), by striking "paraciticides" and inserting "parasiticides"; and

(7) in section 2119(a) (7 U.S.C. 6518(a)), by striking "(to" and inserting "to";

(8) in section 2120(f) (7 U.S.C. 6519(f)), by inserting a comma after "et seq.)" the first place it appears; and

(9) in section 2121(b) (7 U.S.C. 6520(b)), by striking "District Court for the District" and inserting "district court for the district".

SEC. 1002. AGRICULTURAL FELLOWSHIPS.

Section 1543(e) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 3293; 104 Stat. 3694) is amended by striking "Program" and inserting "program".

SEC. 1003. OUTREACH AND ASSISTANCE FOR SOCIALLY DISADVANTAGED FARMERS AND RANCHERS.

Section 2501 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 2279) is amended—

(1) in subsection (a)(3), by striking "section" and inserting "subsection";

(2) in subsection (c)(1)(C), by inserting "program" after "agricultural"; and

(3) in subsection (d)(3), by striking "Not later than 1 year after the date of enactment of this Act," and inserting "Not later than November 28, 1991,".

SEC. 1004. PROTECTION OF PETS.

Section 28(b)(2)(F) of the Animal Welfare Act (7 U.S.C. 2158(b)(2)(F)) is amended by striking "subsection (b)" and inserting "subsection (a)".

SEC. 1005. CRITICAL AGRICULTURAL MATERIALS.

The Critical Agricultural Materials Act (7 U.S.C. 178 et seq.) is amended—

(1) in section 5(b)(9) (7 U.S.C. 178c(b)(9)), by striking the first comma after "industrial purposes"; and

(2) in section 11 (7 U.S.C. 178i), by striking "insure" both places it appears and inserting "ensure".

SEC. 1006. AMENDMENTS TO FIFRA AND RELATED PROVISIONS.

(a) IN GENERAL.—The Federal Insecticide, Fungicide, and Rodenticide Act is amended—

(1) in section 2(e)(1) (7 U.S.C. 136(e)(1))—

(A) by striking "section 4" and inserting "section 11";

(B) by striking "use" in the second sentence and inserting "uses"; and

(C) by striking "section 2(ee) of this Act" and inserting "subsection (ee)";

(2) in section 2(q)(2)(A)(i) (7 U.S.C. 136(q)(2)(A)(i)), by striking "size of form" and inserting "size or form";

(3) in section 3(c)(1) (7 U.S.C. 136a(c)(1))—

(A) by striking subparagraphs (E) and (F);

(B) by redesignating subparagraph (D) as subparagraph (F);

(C) by inserting after subparagraph (C) the following:

"(D) the complete formula of the pesticide;

"(E) a request that the pesticide be classified for general use or for restricted use, or for both; and"; and

(D) in subparagraph (F) (as so redesignated)—

(i) by striking "(i) with" and inserting "(i) With";

(ii) by striking the semicolon at the end of clauses (i), (ii), and (iii) and inserting a period;

(iii) by striking "(ii) except" and inserting "(ii) Except"; and

(iv) by striking "(iii) after" and inserting "(iii) After";

(4) by conforming the left margin of paragraph (3) of section 4(f) (7 U.S.C. 136a–1(f)) to the left margin of the preceding paragraph;

(5) in section 6(f)(3)(B) (7 U.S.C. 136d(f)(3)(B)), by striking "an unreasonable adverse affect" and inserting "an unreasonable adverse effect";

(6) in section 11 (7 U.S.C. 136i)—

(A) in the section heading, by striking "APPPLICATORS" and inserting "APPLICATORS";

(B) in subsection (b), by striking "this paragraph" each place it appears and inserting "subsection (a)(2)"; and

(C) in subsection (c), by striking "subsections (a) and (b)" and inserting "subsection (a)";

(7) in section 12(a)(2) (7 U.S.C. 136j(a)(2))—

(A) by striking "thereunder. It" in subparagraph (F) and inserting "thereunder, except that it";

(B) by striking "or" at the end of subparagraph (O); and

(C) by striking the period at the end of subparagraph (P) and inserting a semicolon;

(8) in section 14(a)(2) (7 U.S.C. 136l(a)(2))—

(A) by striking ": *Provided*, That" and inserting ", except that"; and

(B) by striking "use" and inserting "uses";

(9) in section 17(a) (7 U.S.C. 136o), by removing the last sentence from paragraph (2) and placing it as full measure sentence under such paragraph;

(10) in section 20(a) (7 U.S.C. 136r(a)), by striking "insure" and inserting "ensure"; and

(11) in section 26(c) (7 U.S.C. 136w-1(c)), by striking "use" and inserting "uses".

(b) Gender.—

(1) Such Act is amended by striking "he" each place it appears in sections 3(c)(2)(A), 3(c)(5), 3(c)(6), 3(d)(1)(A), 3(d)(1)(B), 3(d)(1)(C), 3(d)(2), 5(b), 5(e), 5(f), 6(a)(1), 6(b), 6(c)(1), 6(c)(3), 7(b), 8(a), 9(c)(3), 10(c), 11(b), 16(b), 16(d), 18, 20(a), 21(b), 25(a)(3), 25(b), 25(c)(5), and 25(d) (7 U.S.C. 136a(c)(2)(A), 136a(c)(5), 136a(c)(6), 136a(d)(1)(A), 136a(d)(1)(B), 136a(d)(1)(C), 136a(d)(2), 136c(b), 136c(e), 136c(f), 136d(a)(1), 136d(b), 136d(c)(1), 136d(c)(3), 136e(b), 136f(a), 136g(c)(3), 136h(c), 136i(b), 136n(b), 136n(d), 136p, 136r(a), 136s(b), 136w(a)(3), 136w(b), 136w(c)(5), and 136w(d)) and inserting "the Administrator".

(2) Such Act is amended by striking "his" each place it appears in sections 3(c)(2)(A), 3(c)(3)(A), 3(c)(6), 6(b), 6(c)(1), 6(d), 10(b), 11(a)(2), 16(b), 17(c), 18, 21(b), and 25(c)(4) (7 U.S.C. 136a(c)(2)(A), 136a(c)(3)(A), 136a(c)(6), 136d(b), 136d(c)(1), 136d(d), 136h(b), 136i(a)(2), 136n(b), 136o(c), 136p, 136s(b), and 136w(c)(4)) and inserting "the Administrator's".

(3) Such Act is amended—

(A) in section 2(e)(2) (7 U.S.C. 136(e)(2)), by striking "him or his" and inserting "the applicator or the applicator's";

(B) in section 2(e)(3), by striking "he" and inserting "the applicator";

(C) in section 6(a)(2) (7 U.S.C. 136d(a)(2), by striking "he" and inserting "the registrant";

(D) in section 6(c)(3), by striking "him" and inserting "the Administrator";

(E) in section 6(d), by striking "him" and inserting "the Administrator";

(F) in section 7(c)(1) (7 U.S.C. 136e(c)(1), by striking "he" each place it appears and inserting "the producer";

(G) in section 7(c)(2)—

(i) by striking "him" and inserting "the Administrator"; and

(ii) by striking "he" and inserting "the producer";

(H) in the fourth sentence of section 9(a)(2) (7 U.S.C. 136g(a)(2)), by striking "he" and inserting "the officer or employee";

(I) in the third sentence of section 9(c)(1), by striking "his" and inserting "the person's";

(J) in section 10(a) (7 U.S.C. 136h(a)), by striking "his" and inserting "the applicant's";

(K) in section 11(a)(1) (7 U.S.C. 136i(a)(1))—

(i) in the ninth sentence, by striking "his" and inserting "the applicator"; and

(ii) in the last sentence, by striking "him" and inserting "the Administrator";

(L) in section 12(a)(2)(C) (7 U.S.C. 136j(a)(2)(C))—

(i) by striking "his" and inserting "the person's"; and

(ii) by striking "he" and inserting "the person";

(M) in section 12(a)(2)(D), by striking "his" and inserting "the person's";

(N) in section 12(b)(1)—

(i) by striking "he" and inserting "the person";

(ii) by striking "him" and inserting "the person";

(O) in section 12(b)(3), by striking "his official duties" and inserting "the official duties of the public official"; and

(P) in the second sentence of section 16(b) (7 U.S.C. 136n(b)), by striking "him" and inserting "the Administrator".

(c) Unexecutable Amendment.—The phrase sought to be struck in section 102(b)(2)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1988 (Public Law 100-532; 102 Stat 2667) shall be deemed to be "an end-use product".

(d) Recordkeeping.—Section 1491 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 136i-1) is amended—

(1) in subsection (a), by striking "(7 U.S.C. 136a(d)(1)(C))" and inserting "(7 U.S.C. 136a(d)(1)(C)))"; and

(2) in subsection (d)(1), by inserting "of" after "fine".

(e) Maintenance Fee.—Paragraph (5) of section 4(i) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136a-1(i)(5)) is amended to read as follows:

"(5) Maintenance fee.—

"(A) Subject to other provisions of this paragraph, each registrant of a pesticide shall pay an annual fee by January 15 of each year of—

"(i) $650 for the first registration; and

"(ii) $1,300 for each additional registration, except that no fee shall be charged for more than 200 registrations held by any registrant.

"(B) In the case of a pesticide that is registered for a minor agricultural use, the Administrator may reduce or waive the payment of the fee imposed under this paragraph if the Administrator determines that the fee would significantly reduce the availability of the pesticide for the use.

"(C) The amount of each fee prescribed under subparagraph (A) shall be adjusted by the Administrator to a level that will result in the collection under this paragraph of, to the extent practicable, an aggregate amount of $14,000,000 each fiscal year.

"(D) The maximum annual fee payable under this paragraph by—

"(i) a registrant holding not more than 50 pesticide registrations shall be $55,000; and

"(ii) a registrant holding over 50 registrations shall be $95,000.

"(E)(i) For a small business, the maximum annual fee payable under this paragraph by—

"(I) a registrant holding not more than 50 pesticide registrations shall be $38,500; and

"(II) a registrant holding over 50 pesticide registrations shall be $66,500.

"(ii) For purposes of clause (i), the term 'small business' means a corporation, partnership, or unincorporated business that—

"(I) has 150 or fewer employees; and

"(II) during the 3-year period prior to the most recent maintenance fee billing cycle, had an average annual gross revenue from chemicals that did not exceed $40,000,000.

"(F) If any fee prescribed by this paragraph with respect to the registration of a pesticide is not paid by a registrant by the time prescribed, the Administrator, by order and without hearing, may cancel the registration.

"(G) The authority provided under this paragraph shall terminate on September 30, 1997.".

(f) Registration and Expedited Processing Fund.—Section 4(k)(3)(A) of such Act (7 U.S.C. 136a-1(k)(3)(A)) is amended by striking "each fiscal year not more than $2,000,000 of the amounts in the fund" and inserting "for each of the fiscal years 1992, 1993, and 1994, 1/7th of the maintenance fees collected, up to $2 million each year".

SEC. 1007. GRAIN STANDARDS.

The United States Grain Standards Act (7 U.S.C. 71 et seq.) is amended—

(1) in section 3 (7 U.S.C. 75), by striking "The" in subsections (i), (j), (k), (u), (v), (w), (x), (z), and (aa) and inserting "the";

(2) in section 16(a) (7 U.S.C. 87e(a)), by striking "Administrtor." in the second sentence and inserting "Administrator."; and

(3) in section 17B(a) (7 U.S.C. 87f-2(a))—

(A) by striking "The" and inserting "On December 1 of each year, the";

(B) by striking "committee on Agriculture" and inserting "Committee on Agriculture; and

(C) by striking "one year" and all that follows through "such committees".

SEC. 1008. PACKERS AND STOCKYARDS.

The Packers and Stockyards Act, 1921 (7 U.S.C. 181 et seq.) is amended—

(1) in section 202(c) (7 U.S.C. 192(c)), by striking "dealer. any" and inserting "dealer, any"; and

(2) in section 406(b)(2) (7 U.S.C. 227(b)(2)), by striking the comma after "unmanufactured form,".

SEC. 1009. REDUNDANT LANGUAGE IN WAREHOUSE ACT.

Section 17(c)(1)(B) of the United States Warehouse Act (7 U.S.C. 259(c)(1)(B)) is amended by striking ", or to a specified person".

SEC. 1010. CLARIFICATION OF FOOD, AGRICULTURE, CONSERVATION, AND TRADE ACT OF 1990.

Notwithstanding any other provision of law, the Secretary of Agriculture is directed immediately to implement the establishment within the Department of Agriculture of the Rural Development Administration established by subtitle A of title XXIII of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 2006f et seq.) and the amendments made by such subtitle.

SEC. 1011. PERISHABLE AGRICULTURAL COMMODITIES.

The Perishable Agricultural Commodities Act, 1930 (7 U.S.C. 499a et seq.), is amended—

(1) in the first section (7 U.S.C. 499a)—

(A) by striking out "That when used in this Act—" and inserting the following:

"SECTION 1. SHORT TITLE AND DEFINITIONS.

"(a) Short Title.—This Act may be cited as the 'Perishable Agricultural Commodities Act, 1930'.

"(b) Definitions.—For purposes of this Act:"; and

(B) by striking the semicolon at the end of paragraphs (1), (2), (3), (4), (5), (6), and (9) and inserting a period;

(2) in section 4(a) (7 U.S.C. 499d(a)), by striking "anual" in the material before the first proviso and inserting "annual";

(3) in section 5(c)(2) (7 U.S.C. 499e(c)(2)), by striking "(as" and inserting ", as";

(4) in section 6 (7 U.S.C. 499f)—

(A) by adding a period at the end of subsection (c); and

(B) by striking the semicolon at the end of subsection (d) and inserting a period;

(5) in section 7 (7 U.S.C. 499g), by striking the semicolon at the end of subsections (a), (b), and (c) and inserting a period;

(6) in section 8(a) (7 U.S.C. 499h(a))—

(A) by redesignating paragraphs (a) and (b) as paragraphs (1) and (2), respectively; and

(B) by striking the semicolon at the end of the subsection and inserting a period;

(7) in section 14(a) (7 U.S.C. 499n(a))—

(A) by striking "(7 U.S.C., Supp. 2, secs. 1 to 17 (a))" and inserting "(7 U.S.C. 1 et seq.)"; and

(B) by striking the semicolon at the end of the subsection and inserting a period; and

(8) by striking section 18 (7 U.S.C. 499r).

SEC. 1012. EGG PRODUCTS INSPECTION.

(a) Findings and Purposes.—

(1) Findings.—Congress finds that—

(A) food borne illness is a serious health problem;

(B) its incidence can be reduced through proper handling of food; and

(C) eggs are perishable and therefore are particularly susceptible to supporting microbial growth if proper temperature controls are not maintained.

(2) Purposes.—It is the purpose of this section to prescribe the temperature at which eggs are maintained in order to reduce the potential for harmful microbial growth to protect the health and welfare of consumers.

(b) Inspection of Egg Products.—Section 5 of the Egg Products Inspection Act (21 U.S.C. 1034) is amended by adding at the end the following new subsection:

"(e)(1) Subject to paragraphs (2), (3), and (4), the Secretary shall make such inspections as the Secretary considers appropriate of a facility of an egg handler (including a transport vehicle) to determine if shell eggs destined for the ultimate consumer—

"(A) are being held under refrigeration at an ambient temperature of no greater than 45 degrees Fahrenheit after packing; and

"(B) contain labeling that indicates that refrigeration is required.

"(2) In the case of a shell egg packer packing eggs for the ultimate consumer, the Secretary shall make an inspection in accordance with paragraph (1) at least once each calendar quarter.

"(3) The Secretary of Health and Human Services shall cause such inspections to be made as the Secretary considers appropriate to ensure compliance with the requirements of paragraph (1) at food manufacturing establishments, institutions, and restaurants, other than plants packing eggs.

"(4) The Secretary shall not make an inspection as provided in paragraph (1) on any egg handler with a flock of not more than 3,000 layers.

"(5) A representative of the Secretary and the Secretary of Health and Human Services shall be afforded access to a place of business referred to in this subsection, including a transport vehicle, for purposes of making an inspection required under this subsection.".

(c) Prohibited Acts.—Section 8 of such Act (21 U.S.C. 1037) is amended—

(1) by redesignating subsections (c) through (e) as subsections (d) through (f), respectively; and

(2) by inserting after subsection (b) the following new subsection:

"(c) No egg handler shall possess any eggs after the eggs have been packed into a container that is destined for the ultimate consumer unless the eggs are stored and transported under refrigeration at an ambient temperature of no greater than 45 degrees Fahrenheit, as prescribed by rules and regulations promulgated by the Secretary.".

(d) Penalties.—Section 12 of such Act (21 U.S.C. 1041) is amended—

(1) in the first sentence of subsection (a), by striking "$1,000" and inserting "$5,000";

(2) by designating the last sentence of subsection (a) as subsection (d) and transferring such subsection to the end of the section;

(3) by redesignating subsection (b) as subsection (e) and transferring such subsection to the end of the section;

(4) by redesignating subsection (c) as subsection (b); and

(5) by inserting after subsection (b) the following new subsection:

"(c)(1)(A) Except as otherwise provided in this subsection, any person who violates any provision of this Act or any regulation issued under this Act, other than a violation for which a criminal penalty has been imposed under this Act, may be assessed a civil penalty by the Secretary of not more than $5,000 for each such violation. Each violation to which this subparagraph applies shall be considered a separate offense.

"(B) No penalty shall be assessed against any person under this subsection unless the person is given notice and opportunity for a hearing on the record before the Secretary in accordance with sections 554 and 556 of title 5, United States Code.

"(C) The amount of the civil penalty imposed under this subsection—

"(i) shall be assessed by the Secretary, by written order, taking into account the gravity of the violation, degree of culpability, and history of prior offenses; and

"(ii) may be reviewed only as provided in paragraph (2).

"(2)(A) The determination and order of the Secretary under this subsection shall be final and conclusive unless the person against whom such a violation is found under paragraph (1) files an application for judicial review within 30 days after service of the order in the United States court of appeals for the circuit in which the person has its principal place of business or in the United States Court of Appeals for the District of Columbia Circuit.

"(B) Judicial review of any such order shall be based on the record on which the determination and order are based.

"(C) If the court determines that additional evidence needs to be taken, the court shall order the hearing to be reopened for this purpose in such manner and on such terms and conditions as the court considers proper. The Secretary may modify the findings of the Secretary as to the facts, or make new findings, on the basis of the additional evidence so taken.

"(3) If any person fails to pay an assessment of a civil penalty after the penalty has become a final and unappealable order, or after the appropriate court of appeals has entered a final judgment in favor of the Secretary, the Secretary shall refer the matter to the Attorney General. The Attorney General shall institute a civil action to recover the amount assessed in an appropriate district court of the United States. In the collection action, the validity and appropriateness of the Secretary's order imposing the civil penalty shall not be subject to review.

"(4) All penalties collected under this subsection shall be paid into the Treasury of the United States.

"(5) The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty assessed under this subsection.

"(6) Paragraph (1) shall not apply to an official plant.".

(e) Reporting of Violation to United States Attorney for Institution of Criminal Proceedings.—The last sentence of section 13 of such Act (21 U.S.C. 1042) is amended by inserting before the period at the end the following: "or an action to assess civil penalties".

(f) Imports.—Section 17(a) of such Act (21 U.S.C. 1046(a)) is amended—

(1) by designating the first, second, and third sentences as paragraphs (1), (2), and (4), respectively; and

(2) by inserting after paragraph (2) (as so designated) the following new paragraph:

"(3) No eggs packed into a container that is destined for the ultimate consumer shall be imported into the United States unless the eggs are accompanied by a certification that the eggs have at all times after packaging been stored and transported under refrigeration at an ambient temperature of no greater than 45 degrees Fahrenheit, as required by sections 5(e) and 8(c).".

(g) Relation to Other Authorities.—The first sentence of section 23(b) of such Act (21 U.S.C. 1052(b)) is amended by striking "and (2)" and inserting the following: "(2) with respect to egg handlers specified in paragraphs (1) and (2) of section 5(e), no State or local jurisdiction may impose temperature requirements pertaining to eggs packaged for the ultimate consumer which are in addition to, or different from, Federal requirements, and (3)".

(h) Effective Date.—This section and the amendments made by this section shall become effective 12 months after the Secretary of Agriculture promulgates final regulations implementing this section and the amendments.

SEC. 1013. PREVENTION OF INTRODUCTION OF BROWN TREE SNAKES TO HAWAII FROM GUAM.

(a) In General.—The Secretary of Agriculture shall, to the extent practicable, take such action as may be necessary to prevent the inadvertent introduction of brown tree snakes into other areas of the United States from Guam.

(b) Introduction Into Hawaii.—The Secretary shall initiate a program to prevent, to the extent practicable, the introduction of the brown tree snake into Hawaii from Guam. In carrying out this section, the Secretary shall consider the use of sniffer or tracking dogs, snake traps, and other preventative processes or devices at aircraft and vessel loading facilities on Guam, Hawaii, or intermediate sites serving as transportation points that could result in the introduction of brown tree snakes into Hawaii.

(c) Authority.—The Secretary shall use the authority provided under the Federal Plant Pest Act (7 U.S.C. 150aa et seq.) to carry out subsections (a) and (b).

(d) Control of Brown Tree Snakes.—The Act of March 2, 1931 (46 Stat. 1468, chapter 370; 7 U.S.C. 426) is amended by inserting "brown tree snakes," after "rabbits,".

(e) Importation of Brown Tree Snakes.—The first sentence of section 42(a)(1) of title 18, United States Code, is amended by inserting "brown tree snakes," after "reptiles,".

SEC. 1014. GRANT TO PREVENT AND CONTROL POTATO DISEASES.

Notwithstanding any other provision of law, funds available to the Animal and Plant Health Inspection Service of the Department of Agriculture for fiscal year 1992 shall be made available as a grant in the amount of $530,000 to the State of Maine Department of Agriculture, Food, and Rural Resources for potato disease detection, control, prevention, eradication and related activities, including the payment of compensation to persons for economic losses associated with such efforts conducted or to be conducted in the State of Maine. Any unobligated balances of funds previously appropriated or allocated for potato disease efforts by the Secretary of Agriculture shall remain available until expended by the Secretary.

SEC. 1015. COLLECTION OF FEES FOR INSPECTION SERVICES.

Section 2509(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (21 U.S.C. 136a(a)) is amended—

(1) in paragraph (1)—

(A) by striking "(1) QUARANTINE AND INSPECTION.—The Secretary" and inserting the following:

"(1) QUARANTINE AND INSPECTION.—

"(A) In general.—The Secretary";

(B) by indenting 2 ems the left margin of paragraph (1); and

(C) by adding at the end the following new subparagraphs:

"(B) Airport Inspection Services.—For airport inspection services, the Secretary shall collect no more than $69,000,000 in fiscal year 1992 and $75,000,000 in fiscal year 1993 from international airline passengers and commercial aircraft operators.

"(C) Commercial Truck and Railroad Car Inspection Services.—For commercial truck and railroad car inspection services, the Secretary shall collect no more than $3,667,000 in fiscal year 1992 and $3,890,000 in fiscal year 1993 from commercial truck and railroad car operators.

"(D) Costs.—Fees, including fees from international airline passengers and commercial aircraft operators, may only be collected to the extent that the Secretary reasonably estimates that the amount of the fees are commensurate with the costs of agricultural quarantine and inspection services with respect to the class of persons or entities paying the fees. The costs of such services with respect to passengers as a class includes the costs of related inspections of the aircraft.";

(2) in paragraph (3)(B), by striking clause (ii) and inserting the following new clause:

"(ii) Reimbursement.—The Secretary of the Treasury shall use the Account to provide reimbursements to any appropriation accounts that incur the costs associated with the administration of this subsection and all other activities carried out by the Secretary at ports in the customs territory of the United States and at preclearance or preinspection sites outside the customs territory of the United States in connection with the enforcement of the animal quarantine laws. Any such reimbursement shall be subject to appropriations under clause (v)."; and

(3) in paragraph (4), by striking "The" and inserting "Subject to the limits set forth in paragraph (1), the".

SEC. 1016. EXEMPTION AND STUDY OF CERTAIN FOOD PRODUCTS.

(a) Amendments to Federal Meat Inspection Act.—Section 23 of the Federal Meat Inspection Act (21 U.S.C. 623) is amended—

(1) by redesignating subsection (c) as subsection (d); and

(2) by inserting after subsection (b) the following new subsection:

"(c)(1) Under such terms and conditions as the Secretary shall prescribe through rules and regulations issued under section 24 that may be necessary to ensure food safety and protect public health such as special handling procedures, the Secretary shall exempt pizzas containing a meat food product from the inspection requirements of this Act if—

"(A) the meat food product components of the pizzas have been prepared, inspected, and passed in a cured or cooked form as ready-to-eat in compliance with the requirements of this Act; and

"(B) the pizzas are to be served in public or private nonprofit institutions.

"(2) The Secretary may withdraw or modify any exemption under this subsection whenever the Secretary determines such action is necessary to ensure food safety and to protect public health. The Secretary may reinstate or further modify any exemption withdrawn or modified under this subsection.".

(b) Amendments to Poultry Products Inspection Act.—Section 15 of the Poultry Products Inspection Act (21 U.S.C. 464) is amended—

(1) by redesignating subsection (d) and (e) as subsections (e) and (f), respectively;

(2) in subsection (e) (as so redesignated), by striking "(c)" and inserting "(d)"; and

(3) by inserting after subsection (c) the following new subsection:

"(d)(1) Under such terms and conditions as the Secretary shall prescribe through rules and regulations issued under this section that may be necessary to ensure food safety and protect public health such as special handling procedures, the Secretary shall exempt pizzas containing a poultry product from the inspection requirements of this Act if—

"(A) the poultry product components of the pizzas have been prepared, inspected, and passed in a cured or cooked form as ready-to-eat in compliance with the requirements of this Act; and

"(B) the pizzas are to be served in public or private nonprofit institutions.

"(2) The Secretary may withdraw or modify any exemption under this subsection whenever the Secretary determines such action is necessary to ensure food safety and to protect public health. The Secretary may reinstate or further modify any exemption withdrawn or modified under this subsection.".

(c) Regulations.—No later than August 1, 1992, the Secretary of Agriculture shall issue final rules, through prior notice and comment rulemaking procedures, to implement the exemption authorized by section 23(c) of the Federal Meat Inspection Act (as added by subsection (a)) and the exemption authorized by section 15(d) of the Poultry Products Inspection Act (as added by subsection (b)). Prior to the issuance of the final rules, the Secretary shall hold at least one public hearing examining the public health and food safety issues raised by the granting of each of the exemptions.

(d) Studies.—

(1) In general.—Not later than 24 months after the date of enactment of this Act, the Secretary of Agriculture, in consultation with the National Academy of Sciences, shall conduct—

(A) a study to develop criteria for, and evaluate, present and future inspection exemptions for meat food products and poultry products under the Federal Meat Inspection Act (21 U.S.C. 601 et seq.) and the Poultry Products Inspection Act (21 U.S.C. 451 et seq.), respectively, which shall examine the potential effect on consumers, on the affected industries, on public health and food safety, on the role of the Department of Agriculture, and the scientific basis for the exemptions; and

(B) a study of the appropriateness of granting an exemption from the requirements of the Federal Meat Inspection Act or the Poultry Products Inspection Act, as appropriate, for wholesale meat outlets selling to hotels, restaurants, or other similar institutional users provided that the processing of meat by the outlets is limited to cutting, slicing, grinding, or repackaging into smaller quantities.

(2) Results.—On completion of each study required under paragraph (1), the Secretary shall provide the results of the study to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

SEC. 1017. FEES FOR LABORATORY ACCREDITATION.

Section 1327 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 138f) is amended to read as follows:

"SEC. 1327. FEES.

"(a) In General.—At the time that an application for accreditation is received by the Secretary and annually thereafter, a laboratory seeking accreditation by the Secretary under the authority of this subtitle, the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), or the Poultry Products Inspection Act (21 U.S.C. 451 et seq.) shall pay to the Secretary a nonrefundable accreditation fee. All fees collected by the Secretary shall be credited to the account from which the expenses of the laboratory accreditation program are paid and, subject to subsection (e), shall be available immediately and remain available until expended to pay the expenses of the laboratory accreditation program.

"(b) Amount of Fee.—The fee required under this section shall be established by the Secretary in an amount that will offset the cost of the laboratory accreditation programs administered by the Secretary under the statutory authorities set forth in subsection (a).

"(c) Reimbursement of Expenses.—Each laboratory that is accredited under a statutory authority set forth in subsection (a) or that has applied for accreditation under such authority shall reimburse the Secretary for reasonable travel and other expenses necessary to perform onsite inspections of the laboratory.

"(d) Adjustment of Fees.—The Secretary may, on an annual basis, adjust the fees imposed under this section as necessary to support the full costs of the laboratory accreditation programs carried out under the statutory authorities set forth in subsection (a).

"(e) Appropriations Prerequisite.—No fees collected under this section may be used to offset the cost of laboratory accreditation without appropriations made under subsection (f).

"(f) Authorization of Appropriations.—There are authorized to be appropriated each fiscal year such sums as may be necessary for laboratory accreditation services under this section.".

SEC. 1018. STATE AND PRIVATE FORESTRY TECHNICAL AMENDMENTS.

(a) Cooperative Forestry Assistance.—The Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101 et seq.) is amended—

(1) in section 5(d) (16 U.S.C. 2103a(d)), by striking "State Foresters" each place it appears and inserting "State foresters";

(2) in section 7 (16 U.S.C. 2103c)—

(A) in subsection (d)(2), by striking "Not later than 1 year after the date of enactment of this section," and inserting "Not later than November 28, 1991,";

(B) in subsection (e), by striking "Within 1 year from the date of enactment of this section and in consultation with State Forest Stewardship Advisory Committees established under section 15(b)" and inserting "Not later than November 28, 1991, and in consultation with State Forest Stewardship Coordinating Committees established under section 19(b)"; and

(C) in subsection (f), by striking "subsection (d)" and inserting "subsection (e)";

(3) in section 9 (16 U.S.C. 2105)—

(A) in subsection (g)(1)(C), by striking "subsection (e)" and inserting "subsection (f)";

(B) in subsection (g)(3)(E), by striking "subsection (e)" and inserting "subsection (f)";

(C) in subsection (h)(1), by striking "subsection (f)" and inserting "subsection (g)"; and

(D) in subsection (h)(2), by striking "subsection (f)(3)" and inserting "subsection (g)(3)"; and

(4) in section 10(g)(2) (16 U.S.C. 2106(g)(2)), by striking "fire fighting organization" and inserting "firefighting organization".

(b) Commission on State and Private Forests.—Section 1245(g)(4) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3549; 16 U.S.C. 1601 note) is amended by striking "the Director of the Office Technology Assessment may furnish".

(c) Forest Products Institute.—Section 1247(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3551; 16 U.S.C. 2112 note) is amended by striking "in this section" the second place it appears.

(d) Renewable Resources Extension.—Section 3(a) of the Renewable Resources Extension Act of 1978 (16 U.S.C. 1672(a)) is amended—

(1) by striking "and" at the end of paragraph (8);

(2) by striking the period at the end of the first paragraph (9) (as added by section 1219(b)(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3539) and inserting "; and"; and

(3) by redesignating the second paragraph (9) (as added by section 1251(b)(3) of such Act (104 Stat. 3552) as paragraph (10).

(e) America the Beautiful.—Section 1264(n)(1) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3556; 16 U.S.C. 2101 note) is amended by striking "this Act" and inserting "this subtitle".

(f) Reforestation Assistance.—Section 1271(c)(3)(C) of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624; 104 Stat. 3558; 16 U.S.C. 2106a) is amended—

(1) by inserting "(16 U.S.C. 2101 et seq.)" after "1978"; and

(2) by striking "(16 U.S.C. 590h, 590l, or 590p)" and inserting "(16 U.S.C. 590p(b))".

SEC. 1019. REPEAL.

Public Law 76–543 (54 Stat. 231) is hereby repealed.

TITLE XI—EFFECTIVE DATES

SEC. 1101. EFFECTIVE DATES.

(a) In General.—Except as otherwise provided in this Act, this Act and the amendments made by this Act shall take effect on the date of enactment of this Act.

(b) Inclusion in Food, Agriculture, Conservation, and Trade Act of 1990.—The amendments made by the following provisions of this Act shall take effect as if included in the provision of the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101–624) to which the amendment relates:

(1) Section 201 (other than section 201(h)).

(2) Section 307.

(3) Subsections (a) through (c), (e), (h), and (i) of section 501.

(4) Subsections (a), (b), (f) through (i), and (l) of section 502.

(5) Section 602(c).

(6) Section 701 (except as provided in subsection (c) of this section).

(7) Section 702.

(8) Section 703(c).

(c) Miscellaneous Amendments to Consolidated Farm and Rural Development Act.—The amendments made by section 701(h) of this Act to any provision specified therein shall take effect as if such amendments had been included in the Act that added the provision so specified at the time such Act became law.

(d) Food and Nutrition Programs.—

(1) In general.—Except as otherwise provided in this subsection, title IX of this Act, and the amendments made by title IX of this Act, shall take effect and be implemented no later than February 1, 1992.

(2) PASS accounts exclusion.—

(A) In general.—The amendment made by section 903(3) of this Act shall take effect on the earlier of—

(i) the date of enactment of this Act;

(ii) October 1, 1990, for food stamp households for which the State agency knew, or had notice, that a member of the household had a plan for achieving self-support as provided under section 1612(b)(4)(B)(iv) of the Social Security Act (42 U.S.C. 1382a(b)(4)(B)(iv)); or

(iii) beginning on the date that a fair hearing was requested under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) contesting the denial of an exclusion for food stamp purposes for amounts necessary for the fulfillment of such a plan for achieving self-support.

(B) Limitation on application of section.—Notwithstanding section 11(b) of the Food Stamp Act of 1977 (as redesignated by section 941(6) of this Act), no State agency shall be required to search its files for cases to which the amendment made by section 903(3) of this Act applies, except where the excludability of amounts described in section 5(d)(16) of the Food Stamp Act of 1977 (as added by section 903(3) of this Act) was raised with the State agency prior to the date of enactment of the Act.

(3) Performance standards for employment and training programs.—The amendments made by section 906 of this Act shall take effect on September 30, 1991.

(4) Recovery of claims caused by nonfraudulent household errors.—The amendment made by section 911 of this Act shall take effect on the date of enactment of this Act.

(5) Definition of retail food store.—The amendment made by section 913 of this Act shall take effect on October 1, 1990, and shall not apply with respect to any period occurring before such date.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas [Mr. de la Garza] will be recognized for 20 minutes, and the gentleman from Missouri [Mr. Coleman] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. de la Garza].

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the House amendment to the Senate amendment to H.R. 3029, the Food, Agriculture, Conservation and Trade Act Amendments of 1991, is a bipartisan, House-Senate compromise making technical and a limited number of substantive changes in our agriculture, export promotion and nutrition programs.

The House version of H.R. 3029 was overwhelmingly approved 417 to 5 on July 31. The Senate measure was approved by voice vote just last Friday, November 22. Over the weekend the staff of the House and Senate Agriculture Committees worked quickly to resolve the areas of minor differences between the two bills and today Members of the House and Senate resolved the remaining outstanding issues.

The bulk of the compromise language on H.R. 3029 involves correcting technical and drafting errors and clarifying various provisions in Public Law 101–624, the Food, Agriculture, Conservation and Trade Act of 1990, that was signed into law last November.

There are some provisions in this bill that contain somewhat more substantive policy changes. Most of these provisions seek to correct implementation problems which have come to our attention since enactment of the 1990 Farm Act. These problems involve unclear wording in last year's farm bill or issues raised by farmers and others in the initial interpretations of the law made by the U.S. Department of Agriculture.

This bill also contains some substantative policy changes that originated in the other body that were found acceptable by our side and are included in this House amendment.

We have worked closely with the Department of Agriculture in drafting this bill, and although we do not have a formal statement of administration views on this bill, I believe the administration will support this legislation.

Basically, the compromise on H.R. 3029 seeks to achieve the original intent of the 1990 farm bill by providing the Department of Agriculture the direction it needs to carry out these programs in a fair and equitable manner.

Mr. Speaker, I briefly want to highlight the major provisions in each title of the House amendment to the Senate amendment of H.R. 3029:

TITLE I—AGRICULTURAL COMMODITY PROGRAMS

The bill clarifies various provisions in the operations of various commodity programs that were reauthorized in the 1990 Farm Act. Provisions contained in the bill also ensure that farmers can take full advantage of the planting flexibility provisions of last year's farm act.

TITLE II—CONSERVATION

The bill contains several provisions making technical improvements to the conservation and environmental aspects of commodity program operations authorized or reauthorized in the 1990 Farm Act.

TITLE III—AGRICULTURAL TRADE

The bill contains mainly technical corrections to the 1990 Farm Act's trade title.

TITLE IV—RESEARCH

The bill contains various technical corrections to the 1990 Farm Act's research title, including a clarification on the number of regional Alternative Agricultural Research and Commercialization Centers to be created out of appropriated funds.

TITLE V—CREDIT

The bill requires Farmers Home Administration to allow a farmer borrower who has been affected by disaster during at least 2 previous crop years to exclude the lowest yield from the calculation of the farm's future yields. The bill also authorizes the bank for cooperatives to make loans for the export of agricultural commodities if certain conditions are met.

TITLE VI—CROP INSURANCE AND DISASTER ASSISTANCE

The bill makes a limited number of technical corrections in the wording of the 1990 Farm Act's crop insurance and disaster relief title.

TITLE VII—RURAL DEVELOPMENT

The bill makes various technical changes to the operations of the rural development lending programs administered by Farmers Home Administration and the Rural Electrification Administration. The bill also authorizes the establishment of a rural health leadership development program by the U.S. Department of Agriculture, in consultation with the Department of Health and Human Services, to help rural areas develop health care services and facilities.

TITLE VIII—AGRICULTURAL PROMOTION

The bill makes various technical corrections to the research and promotion programs for pecans, mushrooms, potatoes, limes, soybeans, honey, cotton, fluid milk, and wool that were authorized in the 1990 Farm Act.

TITLE IX—FOOD AND NUTRITION PROGRAMS

The bill has several provisions which clarify and makes explicit certain changes in the Food Stamp and Nutrition Programs to benefit low-income Americans. The bill also establishes a grant program and technical assistance to help Indian tribes and Alaska Natives develop and operate subsistence farming programs to improve the nutrition and health of Indians living on or near Indian reservations.

TITLE X—MISCELLANEOUS TECHNICAL CORRECTIONS

The bill makes various technical changes or corrections in the 1990 Farm Act's provisions on organic certification, pesticide programs, forestry programs, and the maintenance fees authorized for pesticide registrations, for international passenger inspection services, and for laboratory accreditation. In addition, the bill contains provisions regarding the inspection of eggs, preventive measures to stop the spread of brown tree snakes from Guam, and exempting pizzas containing meat products from duplicative inspection under certain circumstances.

The Committee on Agriculture has been and wants to continue to be sensitive to the budget problems our Nation faces. I would point out to my colleagues that this technical corrections bill is not only budget neutral—it actually provides us with some budget savings over the next 5 years.

Based on preliminary estimates by the Congressional Budget Office, the bill is scored as saving about $2 million in fiscal year 1992 and $0.3 million over the next 5 years. Preliminary estimates by the Department of Agriculture indicates the bill will cost nothing in fiscal year 1992 and save $7 million over the next 5 years.

Mr. Speaker, this bill will help our farm programs operate more effectively and as we in Congress intended when we debated and passed the 1990 farm bill. This bill will benefit the entire agricultural sector of our economy and it will strengthen the interests of consumers who are concerned about the availability of a safe, abundant and affordable supply of food and fiber. I urge my colleagues to support passage of this very necessary piece of legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. COLEMAN of Missouri. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3029, a bill making technical corrections to the 1990 Food, Agriculture, Conservation, and Trade Act.

This bill passed the House last July 31 by a vote of 417 to 5, and the legislation has changed relatively little since it was acted upon by the House. It does make minor, technical corrections to the 1990 farm bill, and I understand the administration has no objections to its adoption.

For instance, the bill deals with conserving use acres, double cropping on 0/92 acres, clarifying corn and sorghum bases, and deficiency payments for wheat, barley, and oats to name four of the technical provisions contained in the commodity program title.

Other provisions of the bill concern conservation, agricultural trade, research, credit, rural development, agricultural promotion programs, food and nutrition matters and other technical, miscellaneous corrections to the bill.

In concluding, Mr. Speaker, I want to assure my colleagues in the Banking Committee who are concerned about the provisions dealing with Farmer Mac's linked portfolio strategy: the Agriculture Committee will actively oversee the Farm Credit Administration's regulation of Farmer Mac. We will work closely with the Banking Committee in carrying out that responsibility. I appreciate the Banking Committee's agreeing to this compromise.

Mr. Speaker, I urge the House to agree to the Senate amendments and finish this important piece of legislation.

Mr. Speaker, I yield such time as he may consume to the gentleman from Nebraska [Mr. BEREUTER].

Mr. BEREUTER. Mr. Speaker, I rise to support the 1990 farm bill technical corrections measure since it has many important provisions including the provisions related to feed grain base flexibility, introduced by my distinguished colleague from Nebraska [Mr. BARRETT], and this Member and important provisions on wheat deficiency payments. It also clarifies the authority of the Federal Agricultural Mortgage Corporation, so called Farmer Mac, to engage in certain activities. However, I support the legislation with reservations because of some of the provisions related to the Farm Credit Administration relations to Farmer Mac.

As provided by the bill, the Corporation, known as Farmer Mac, would be allowed to undertake secondary market activities—for example, set up subsidiaries and go to debt markets—in a manner similar to those engaged by the Fannie Mae and Freddie Mac. Farmer Mac has called its activity the linked portfolio strategy and is intended to offer more attractive interest rates to borrowers.

Specifically, however, this Member would like to draw the attention of this body to other provisions pertaining to regulation of Farmer Mac. In exchange for authorizing the linked portfolio strategy, some members of the Agriculture Committee have insisted that the Farm Credit Administration retain regulatory and rulemaking authority over Farmer Mac—through a separate Office of Secondary Market Supervision to be established within the Farm Credit Administration.

This Member again states that allowing the Farm Credit Administration to regulate Farmer Mac is the worst of all options. It is a blatant conflict of interest to allow a regulator to supervise a secondary market as well as the market's participants, in this case, the Farm Credit System institutions.

Mr. Speaker, this Member expects only the worst in terms of quality of regulation from the Farm Credit Administration and it will be up to the agency to prove me wrong.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Oklahoma [Mr. ENGLISH], the chairman of the Subcommittee on Conservation, Credit and Rural Development.

Mr. ENGLISH. Mr. Speaker, I, too, would like to rise in support of this legislation. I think that as the chairman has stated, whenever this legislation left the House of Representatives it was primarily a technical corrections bill. Most of the provisions in it still are.

The other body did add a few substantive items, and one of those dealt with, as has been referred to before, Farmer Mac. The provisions that are contained in the bill are a compromise between various concerns with regard to the Farmer Mac operation.

Mr. Speaker, I think this legislation contains a proper approach, one that is balanced and one that I wholeheartedly support.

Mr. COLEMAN of Missouri. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. COMBEST].

Mr. COMBEST. Mr. Speaker, I rise in strong support of the conference report to the 1990 farm bill technical corrections bill. This legislation contains technical changes to the 1990 farm bill. These alterations resolve minor problems which have been discovered during implementation of farm programs. Section 107, black-eyed peas for donation, is one such provision which will help ease the ability of farmers to satisfy the rising demand for food donations to food banks, food pantries and soup kitchens. This is the same provision, with minor modifications, which was offered to the House Agriculture Cotton, Rice and Sugar Subcommittee mark-up of the technical corrections legislation.

The intent of the language is to give the U.S. Department of Agriculture [USDA] the authority to allow mechanical harvesting of black-eyed peas on cotton-conserving-use acres and set-aside acreage for donation to charitable organizations. The language in section 107 provides that the Secretary of Agriculture shall not prohibit implementation of this section unless he determines that it would disrupt the normal channels of trade. The Secretary should implement the section in such a manner to ensure optimum producer participation. Clearly, the intent of the legislation is not designed to negatively impact the market for black-eyed peas raised for sell but rather it is designed to provide for the mechanical harvest of black-eyed peas for donation to food-bank-type charitable organizations.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Speaker, I rise in support of H.R. 3029 which makes technical changes to farm programs enacted by the farm bill, the Food, Agriculture, Conservation, and Trade Act of 1990.

Since February, the Committee on Agriculture has taken an active oversight role in the implementation of the 1990 farm bill. I appreciate and compliment Chairman DE LA GARZA and ranking member, Mr. COLEMAN, for their efforts in getting this bill to the floor today. I know producers in Kansas and all over rural America, preparing for spring planting, appreciate your efforts as well.

Last March the Subcommittee on Wheat, Soybeans, and Feed Grains, held a hearing in Washington to discuss with producer groups their problems with the farm bill. The subcommittee then traveled to Bonner Springs, KS, to hear from farmers themselves about how they are dealing with the farm bill's new programs.

I am sure the subcommittee will stay active in overseeing this farm bill as the years progress, but I must say these two hearings were very helpful in outlining a few issues the House and Senate Agriculture Committees overlooked when completing the details of the 1990 farm act.

Mr. Speaker, the provisions contained in H.R. 3029 are budget neutral, so they will not cost the Government any additional money to implement. They will, however, make sure the programs of the 1990 act are implemented the way in which we intended.

Second, Mr. Speaker, the provisions in H.R. 3029 expand upon a number of objectives established in the 1985 Food Security Act and then again extended in the 1990 Farm Act. First and foremost of these objectives was the committee's desire to include more planting options for producers participating in farm programs. For many years, farmers were restricted to growing only the crops for which they have a history of planting. The committee remedied this in the 1990 farm bill by allowing them to divert a percentage of their acres to other crops.

Because producers are receiving less Government support on their acres than ever before, H.R. 3029 comes at an important time. In short, the bill lifts planting restrictions to enable farmers to respond even better to market prices. The provisions outlined below, which are amendments to the wheat, feed grains, and oilseeds titles of the 1990 farm bill, are an attempt to do just that; they loosen program constraints and expand certain programs.

One, H.R. 3029 allows the planting of certain minor use, experimental, and industrial-use crops on conserving-use acres—0/92 program.

Two, H.R. 3029 allows producers who plant minor oilseeds, or minor use, experimental, or industrial-use crops, on conserving use acres to double crop that acreage with soybeans. However, the producer must have a history of double-cropping soybeans to take advantage of this option.

Three, H.R. 3029 gives the State and county ASCS committees more control over the types of cover crops that must be planted on set-aside acres. It also gives the State committees discretion to exempt certain arid areas of their States from this planting requirement.

Four, H.R. 3029 requires the Department of Agriculture to provide wheat, oats, and barley producers' income-support payments more expeditously than provided in the 1990 farm bill.

Five, corn and grain-sorghum producers will be allowed once again, as they were under the 1985 farm bill, to combine their corn and grain-sorghum acreages and plant whichever crop best fits their crop rotation practice. This provision is particularly important to producers in Kansas and the Plains States.

Six, H.R. 3029 allows producers, through the 1995 crop year, to plant as much as 20 percent of a crop-acreage base to peas and lentils. This provision extends a similar provision which was in effect for the 1989 through 1991 crop years.

Mr. Speaker, I know that my producers in Kansas and all other wheat and feed grains producers in this country will benefit from these changes in the farm programs. In fact they have been waiting for us to act on this bill. At a time when Government support for agriculture is declining, farmers need the flexibility to grow different crops for the best market return without being penalized by the farm program. My subcommittee worked very hard in analyzing different flexibility options and I believe this bill incorporates the best of those options.

Finally, Mr. Speaker, in the 1990 farm bill, we created a new oilseed program, providing marketing loans or price supports to oilseeds such as sunflower, canola, flaxseed, and rapeseed. As with all new programs, the potential for problems to arise is not uncommon. I want to take this time to recognize one potential problem and assure my colleagues that I will actively monitor this and, if required, to address it further through legislation.

In implementing the new minor oilseeds program, the Department decided to establish separate loan programs for oil-type and confection sunflowerseed. Under normal circumstances, processors of confection seed must offer a premium of 2 to 3 cents per pound over prevailing prices for oil-type seed to ensure sufficient production. This incentive is required to offset higher management and input costs and risk involved in production of confection seed.

With loan support of 8.9 cents per pound under the 1990 farm bill for oil-type seed, confection processors will, under normal circumstances, need to offer 11 cents or higher to encourage production of confection seed. In the event prices for oil-type sunflower fall below the prevailing loan level, the price differential between oil-type and confection seed could widen beyond the traditional 2 to 3 cent spread. This situation could well result in making U.S. confection seed and products uncompetitive in foreign markets, and encourage confection seed production in other countries.

If this happens, I will take the necessary action to correct it. This program was created to spur the production of minor oilseeds, especially sunflowers, not to spur the growth of imports.

In closing, I strongly encourage my colleagues to vote for this bill. To jog your memories, the House passed almost the same bill on July 30th of this year. These technical changes, will undoubtedly make the 1990 farm bill a better bill and a better bill for farmers.

Mr. COLEMAN of Missouri. Mr. Speaker, I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank members of the committee and staff on both sides who have worked so diligently to get us to the point where we are at. Everything to my knowledge is in agreement and accord. Not everyone is entirely happy, but I appreciate this very much.

Mr. WEBER. Mr. Speaker, I intend to support this legislation because it will help Minnesota farmers. However, I rise to express my opposition to the provision concerning exemptions from inspection under the Federal Meat Inspection Act. While the amendment does contain significant provision to assure protection of public health, I remain concerned that the structure of this amendment grants an exemption from Federal meat inspection before undertaking the assessment of public health implications. It is shoot public health first and ask questions later approach. A sounder policy for granting exemptions from a major requirement of a public health protection statue would be for the assessment of the public health implications to precede the grant of the exemption.

The Federal Meat Inspection Act and the Poultry Products Inspection Act are among the Nation's oldest statutes designed to protect the public health. These acts achieve their purpose by requiring the daily presence of a Government inspector at facilities manufacturing meat and poultry products for resale. Such inspection ensures that exacting manufacturing and processing requirements result in wholesome and properly labeled meat and poultry products. In effect, these inspectors are the eyes of consumers.

This continuous inspection is necessary because products of animal origin can be carriers for disease and microbiological contaminants that could jeopardize the public. Hence inspection is generally required of all further processing of the cured/cooked product when it is used in further processed products designated for resale. There are many reasons for such inspection. First, further processing of the meat may reintroduce old dangers or create new dangers, such as under processing a canned meat product. Second, a safe cooked/cured product may be recontaminated during processing or distribution. Third, manufacture for resale, by definition, means a third party will handle the product and may introduce new dangers of mishandling.

Notwithstanding the above, it is appropriate, from time to time, to review whether inspection is necessary in every instance. There may be limited situations when the risks discussed above are not present, or where there are protections available other than continuous Federal inspection. If such situations are identified, consideration should be given to exempting the processing of such products from inspection.

However, before protections are lowered or altered, it must be clearly established that consumers will not be placed at risk; microbiological contaminants are an ever present threat. This provision does not abandon these principles nor, if properly implemented, does it lower public health protections.

SECTION-BY-SECTION ANALYSIS

This section requires the Secretary to exempt pizzas from inspection requirements of the FMIA. However, this authority is limited both procedurally and substantively. Further, the section mandates the Secretary, in consultation with NAS, to conduct a study to evaluate present and future exemptions.

Subsection (a) would amend section 23 of the FMIA, 21 U.S.C. §623, to require the Secretary to exempt from inspection, by regulation, the processing of pizzas containing previously inspected and passed meat components in a cured or cooked form. In promulgating regulations to implement this provision, the Secretary shall prescribe whatever terms and conditions are necessary to ensure food safety and public health. These terms and conditions are to be issued under §§21 and 24 of the FMIA. Section 21 is the Secretary's general rulemaking authority to adopt regulations for the efficient execution of the act. It is not expressly cited in the statute as the Secretary has the clear authority to adopt any and all needed conditions for the exemption. Section 24 authorizes the establishment of storage and handling requirements for facilities not processing under inspection. It is anticipated that these requirements will include those applicable to inspected establishments, as is the case for exempt custom operations. 9 CFR §30.31(a)(2)(i). It is also expected the Secretary will impose whatever additional requirements may be necessary to ensure that public health problems do not arise. Thereby, the Secretary will ensure public safety in the absence of the daily inspection.

Further, the exemption may be granted for the processing of pizzas which contain only cooked or cured meat and if the product will be distributed only to public or private nonprofit institutions that operate under supervision that the Secretary determines will protect public health, such as the direct supervision of a registered dietician. The Secretary has broad authority to withdraw or modify any exemption.

Subsection (b) requires the Secretary to implement subsection (a) through notice and comment rulemaking, which shall include at least one public hearing examining public health and food safety issues raised by the granting of this exemption. In such rulemaking, the Secretary is required to develop such terms and conditions as may be necessary to ensure food safety and protect the public health from any increased risk associated with granting of an exemption under subsection (a). This rulemaking should be completed by August 1, 1992.

Subsection (c) requires the Secretary, in consultation with the National Academy of Sciences, to conduct a study to evaluate and develop criteria for exemptions from inspection of meat food products, as well as reviewing existing exemptions.

ANALYSIS

The legislation would provide a procedural and substantive framework for the Secretary to grant an exemption from inspection of pizzas.

As an initial matter, the new authority granted by this legislation would exempt the processing of pizzas from the requirement of daily inspection if certain conditions are met. The processing operation and products manufactured under such an exemption would still remain within the Secretary's authority and would be subject to the adulteration, misbranding, and other provisions of the FMIA or the PPIA, including storage, handling, processing and facility requirements.

The Secretary has broad authority to impose additional requirements upon an exemption as necessary to assure the exemption does not endanger public health. Moreover, the Secretary has broad discretionary authority to withdraw or modify such exemptions to effectuate the purposes or provisions of the act. The Secretary would expressly be given the authority to withdraw or modify any exemption in particular instances or at particular facilities, subject to appropriate due process protections. Further, the Secretary may indefinitely suspend a previously granted exemption and then reassess the exemption through a new rulemaking proceeding if there is basis to believe a risk to public health exists.

Subsections (a) would impose several procedural preconditions on the grant of an exemption. The requirement to grant an exemption applies only where such an exemption would not enganger public health. Since an exemption from inspection would not necessitate continuous inspection, the Secretary must obtain the broadest public review and comment in assessing whether an exemption creates unacceptable public health risks. Notice and comment rulemaking provides an appropriate structure for the Secretary to receive such input, and hence is required. Such rulemaking, which includes a public hearing, shall focus on evaluating the public health implications of granting any proposed exemption. The notice and comment rulemaking is to identify public health problems that may arise through such an exemption, and to guarantee that such risks must be fully eliminated through the terms and conditions, the Secretary must adopt as a precondition of implementation of the exemption. The Secretary's duty with respect to such terms and conditions could not be cast in stronger terms. School children and, perhaps, the ill or elderly are likely consumers of these noninspected pizzas. Therefore, such terms and conditions must go beyond merely providing for food safety.

The requirement for the Secretary to grant an exemption from inspection of pizzas must not be construed as a statutory mandate to lower food safety protections for the vulnerable populations of private and nonprofit institutions. Indeed, the mandate to ensure food safety and protect public health in the absence of continuous inspection premised on the expectation that the Secretary will prescribe existing terms and conditions on these facilities. Even if the inspector is not present on a daily basis, equipment and facilities must adhere to high standards of cleanliness and safe food handling must be assured. Only when the Secretary has developed such terms and conditions should the Secretary promulgate a final rule to implement subsection (a). If such terms and conditions cannot be established, no regulations to grant the exemption should be published.

Earlier versions of this provision, passed by both the House and Senate, authorized, but did not require, the Secretary to grant exemptions. In this provision, the word "shall" replaces the word "may" to make clear that it is the firm intent of Congress that the Secretary must address this issue. The new authority established herein is not mere discretionary authority for the Secretary to exercise to the extent, and at whatever time, the Secretary deems appropriate. The Secretary is obliged by this authority to prosecute a thorough and carefully considered rulemaking. However, this requirement does not relieve the Secretary of his public health protection duties.

The substantive requirements of the legislation have been designed to make certain that a product exemption will not be granted where there are substantial risks inherent in manufacturing the pizza for resale. To be eligible for exemption, the meat component of the pizza must have been previously inspected and passed by USDA in a cured or cooked form. Failure to start with such meat would clearly entail risk. Furthermore, there are risks inherent in the storage handling and processing of meat. The legislation requires the Secretary to mandate requirements for facilities processing without daily inspection. Sanitary specifications for facilities, equipment, and storage rules, as well as acceptable processing methods must be adopted to fully eliminate the risks preparing meat food products. Finally, the pizza may only be distributed to public or nonprofit private institutions. Such institutions may purchase such products for immediate consumption, thereby avoiding some food handling risks. Given that these institutions, by definition, do not have a profit motive, there is a presumption that they are insulated from pressures to compromise public health. The sponsors envision that such institutions will be op-

erated under supervision that assures that food handling and sanitation practices protect public health, such as the direct supervision of a registered dietician.

Admittedly, the Secretary bears a substantial burden to develop terms and conditions that are so effective as to ensure food safety when an inspector is not present on a daily basis. However, development of such terms and conditions is more appropriately within the exercise of the Secretary's informed expertise, including consideration of pertinent operational data and the relevant scientific basis, and public comment. In the evaluation of information from these sources, the Secretary would consider the history and nature of the product, whether a pattern of insanitary conditions may exist in the industry, educational level and training of personnel, compliance with ingredient specifications, and the health status and vulnerabilities of likely consumers, among others.

The Secretary retains broad discretion to withdraw or modify such exemption to effectuate the purposes of the act. When this authority is exercised with respect to a particular facility, due process protections must, of course, be afforded. Regarding an exemption generally, in the event new evidence arises or the Secretary, in his discretion, otherwise determines that a risk to public health exists, such exemption should be suspended pending completion of a rulemaking to reevaluate the matters and promulgate such new terms and conditions as are required to ensure food safety and protect public health or eliminate the exemption.

In addition, the Secretary is expected to assure that manufacturers of exempt products comply with all relevant labeling requirements. Failure to require scrupulous adherence to such labeling requirements would result in an unlevel playing field for competitors and disserve institutional consumers who increasingly rely on product labeling. The Secretary is expected to promptly exercise his discretionary authority to refuse or withdraw an exemption from inspection in any case where an exempt facility manufactures for resale a product that fails to fully comply with relevant labeling requirements.

In the development of this legislation, concerns were expressed regarding current exemption provisions of the FMIA. It is alleged that these provisions have resulted in a patchwork of inconsistent exemption decisions, not based on a public health standard. Accordingly, subsection (c) of the legislation would require the Secretary to begin reviewing these exemptions by directing the Secretary to undertake a study, in consultation with the National Academy of Sciences, to develop criteria for, and evaluate, present and future exemptions for meat and poultry products, as well as the affects those exemptions would have on public health. Once that study is completed, within 24 months from the date of enactment, it is anticipated that the Secretary will work with the Congress to resolve the controversy and ensure public health protection. The sponsors envision the fruit of this study to be a coherent policy for product exemptions.

Mr. Roberts. Mr. Speaker, I rise in support of H.R. 3029, the Flood, Agricultura, Conservation and Trade Act Amendments of 1991.

It was about this time 1 year ago when we completed action on the 1990 farm bill—a bill designed to bring consistency and predictabiliy into our Federal farm programs, and to assist this Nation's farmers and stockmen in their efforts to provide this Nation's consumers with a high quality, low cost, food supply second to none in terms of wholesomeness and variety.

Unfortunately during our efforts to complete the 1990 farm bill, technical mistakes with the language were overlooked. And, as the USDA worked to implement the legislation, they discovered the authority to make common sense adjustments to the Federal farm programs in certain areas, was severly limited.

This legislation is aimed at correcting those mistakes and providing other critically needed technical changes to the 1990 farm bill.

For example, this bill will correct the problem faced by feed grain producers who lost an important flexibility option. In the 1985 farm bill, Congress authorized USDA to allow corn and grain sorghum producers to interchange plantings of these two feed grains on their crop bases. Congress fully intended to extend this option for the term of the 1990 farm bill.

A technical glitch in the commodity program provisions effectively eliminated the corn/sorghum substitution option.

I strongly support this bill's correction provision to restore the feed grain flexibility needed by corn and sorghum producers to meet farm management challenges such as safer pest control, water conservation and marketing options.

I also appreciate the provisions to correct the Secretary of Agriculture's problem in implementing the high moisture loan program. This program option helps stockmen meet the feeding needs of their livestock operations, as well as providing a viable marketing option for feed grain farmers.

I am disappointed that the urgency of adjournment has affected the reconciliation of the differences between the two technical correction bills, forcing the omission of various report language statements intended to clarify congressional intent relative to certain 1990 farm bill provisions.

Originally, for example H.R. 3029 included report language addressing concerns over the administration of the sunflower marketing loan program relative to the establishment of separate loan programs for oil and confection sunflowers. Historically, confection sun seed processors must pay a 2-to 3-cent premium to ensure sufficient production to meet processing needs.

The major concern involves a scenario where sunflower oilseed prices fall below the announced loan rate forcing confection sunflower seed market rates to be set at an uncompetitive price relative to foreign markets. USDA's Foreign Agriculture Service has worked hand-in-glove with the U.S. sunflower industry to establish stable markets for U.S. grown confection sunflower seed products.

I remain concerned that if the current two-program loan system causes confection sunflower market prices to go beyond the historical price spread, there is a significant potential for our domestic sunflower industry to be dealt a severe blow by foreign competitors. I strongly urge the USDA to keep vigilant in monitoring the sunflower marketing loan programs, market prices and the activities of U.S. competitors in these newly developed markets. In addition, I ask my colleagues to be prepared to address this issue in the future.

Finally, Mr. Speaker, I want to mention this bill contains language to address a problem faced by the Environmental Protection Agency in their efforts to fulfill the mandates of the 1988 amendments of FIFRA. Due to unforseen circumstances, the EPA has been unable to meet the goal of collecting $14 million in reregistration fees as was agreed to by EPA and the chemical industry. The provisions in this bill, which were cooperatively worked out by the Agency and registrants, will enable EPA to meet the fee collection goal and help keep the reregistration process on schedule to the extent possible.

I would inform my colleagues that FIFRA will be a major item on agriculture's agenda next year and look forward to working with my colleagues on the issues of food and pesticide safety.

Certainly there are many other noteworthy provisions of this package that time does not permit us to discuss in detail. I want to commend the staff who worked very hard and diligently to prepare this urgently needed corrections package for our consideration before adjournment. I urge my colleagues support of its passage.

Mr. PENNY. Mr. Speaker, I strongly support the technical amendments to the 1990 farm bill. I applaud the efforts of Chairman DE LA GARZA, Congressman THOMAS COLEMAN, ranking minority member, and our counterparts on the Senate Aguriculture Committee for their hard work on this legislation. Included in this package are several provisions of great importance to farmers in Minnesota, and throughout the nation.

The amendments will restore the price support loan program for high-moisture corn established in the 1985 Food Security Act. This program is especially important for dairy farmers for corn used on the farm for feed or sold as silage. This loan program has kept many of our family dairy farmers in Minnesota in business by providing short-term operating loan funds.

The legislation also makes clarifications of the planting requirements for cover crops on acreage set aside for conserving uses. This is an important provision for plantings to reduce erosion and provide wildlife habitat on farms that are enrolled in commodity acreage reduction programs. The bill will allow producers to plant and maintain perennial grasses as cover crops rather than planting a new crop each year.

Finally, the bill gives producers additional flexibility to plant alternative crops on acreage enrolled in the acreage reduction programs. A major focus of the 1990 farm bill was increased planting flexibility for farmers to allow them to respond more easily and quickly to rapidly changing market forces and reduced federal agricultural price supports. This amendment will allow the planting of certain minor-use, industrial, and experimental crops on such acreage, thus giving our farmers more viable options in their cropping programs.

Mr. BARRETT. Mr. Speaker, I rise in support of H.R. 3029, legislation making technical

UMI

corrections and amendments to the 1990 farm bill. I'm particularly pleased with a provision of the bill that addresses problems farmers would face in coming seasons, because of an unintended effect of last year's farm bill.

Under the 1985 farm bill, producers could plant corn or grain sorghum on a combined corn and grain base, in a manner that is best suited to their rotation and production needs. Unfortunately, the 1990 farm bill unintentionally took away that flexibility. The 1990 act separates corn and sorghum base acres and does not allow their interchange—thereby eliminating the farmer's ability to undertake the best management practices in the farm operation.

The loss of this flexibility could have a dramatic impact on Nebraska's economy. The value of our corn and grain sorghum production reaches over $2.2 billion annually, and generated more than $1.8 billion in cash receipts in 1989 for Nebraska farmers. If Secretary of Agriculture Clayton Yeutter had not found a way to provide for the fair and equitable establishment of corn and sorghum bases during the 1991 crop year, we would have seen a decline in farm income.

To address this problem, I introduced H.R. 980, the Corn and Grain Sorghum Base Clarification Act. This would expressly provide the Secretary of Agriculture the authority to allow producers to interchange corn and sorghum base acres. I am pleased that the committee included language in section 105, similar to H.R. 980 in the legislation we are considering.

Mr. Speaker, I strongly urge my colleagues to join me in supporting H.R. 3029.

Mr. FASCELL. Mr. Speaker, I rise in support of H.R. 3029. I would like to take this opportunity to thank Chairman DE LA GARZA for the cooperation of the Committee on Agriculture in working to accommodate the concerns of the Committee on Foreign Affairs with regard to the trade title of this bill, over which the Foreign Affairs Committee has a jurisdictional interest.

The bill before us today contains an agricultural information program to support collaboration between the United States Department of Agriculture, United States agri-businesses, and appropriate agricultural institutions in the Soviet Union. At the request of the Committee on Foreign Affairs, the bill now provides that the Secretary of Agriculture is required to consult and coordinate with the Secretary of State and the Administrator of the Agency for International Development on the formulation and implementation of this program. While it is my understanding that the primary purpose of this program is to promote United States agricultural exports, coordination with other United States Government programs being developed for the Soviet Union is necessary to assure that various agencies of the United States Government do not work at cross purposes or with incomplete information as to what other agencies may be undertaking.

Chairman DE LA GARZA has proposed that United States land-grant universities should receive support for the establishment of programs of linkage and exchange with agricultural institutions in the republics of the former Soviet Union. Indeed, I understand that a number of U.S. universities have already on their own initiated such programs. The Agency for International Development has for many years supported the land-grant universities and other universities with similar programs in other countries, and I urge A.I.D. to support the efforts of United States universities to establish linkages with institutions in the Soviet Union. I would hope, however, that other United States Government agencies would not seek to establish similar programs of university-to-university exchange just for the former Soviet Union.

I appreciate the concern of the Committee on Agriculture concerning the need for stability in the agricultural sector of the former Soviet Union as it seeks to make a difficult and perhaps painful transition to a free-market agricultural economy. I hope that resources of the Department of Agriculture can be used effectively in coordination with other resources of the U.S. Government to support this transition.

Mr. COLEMAN of Missouri. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA] that the House suspend the rules and agree to the resolution House Resolution 305.

The question was taken; and (two-thirds having voted in favor thereof) the resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING CORRECTION OF ENROLLMENT OF H.R. 3029, FOOD, AGRICULTURE, CONSERVATION AND TRADE ACT AMENDMENTS OF 1991, PURSUANT TO H. RES. 305

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that the clerk be authorized to correct spelling, punctuation, section designation, errors, and conform the table of contents necessary to reflect the action of the House in agreeing to H. Res. 305.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 5 of rule I, the Chair will now redesignate the time for further proceedings on questions postponed on today and on the legislative day of November 23. Such proceedings will be resumed today after further consideration of H.R. 2929 in the Committee of the Whole pursuant to House Resolution 279.

MODIFICATION TO BLAZ AMENDMENTS EN BLOC NO. 10 TO H.R. 2929, THE CALIFORNIA DESERT PROTECTION ACT OF 1991

Mr. BLAZ. Mr. Speaker, I ask unanimous consent that when H.R. 2929 is considered in the Committee of the Whole, in lieu of my amendment No. 10 made in order under the rule, I be permitted to offer a modified amendment in the form of an amendment at the desk.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Guam [Mr. BLAZ]?

Mr. VENTO. Mr. Speaker, I reserve the right to object so that I may again ask the gentleman from Guam to confirm that this is the same proposed amendment that he and I agreed upon earlier.

Mr. BLAZ. Mr. Speaker, will the gentleman from Minnesota yield under his reservation?

Mr. VENTO. I am glad to yield to the gentleman.

Mr. BLAZ. Mr. Speaker, I thank the gentleman for yielding, and I can assure him that this is the same modification to my amendment that he and I have worked out together. I am renewing my unanimous-consent request of Friday.

Mr. VENTO. Mr. Speaker, I again thank the gentleman from Guam for his cooperation and persistence with regard to this important matter. I believe that this Vento-Blaz form of the Blaz amendment fully and properly addresses both the genuinely necessary renewal of the military withdrawals of the China Lake and Chocolate Mountain areas, and the perceived need of the military for a disclaimer concerning continued overflights by military aircraft of the lands dealt with in this bill. I fully support the proposed amendment, and so I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Guam?

There was no objection.

The SPEAKER pro tempore. The modification will be printed in the RECORD at this point.

The text of the amendment, as modified, is as follows:

Amendment as modified, offered by Mr. BLAZ: Instead of the matter proposed to be inserted, insert the following: Page 65, after line 15, and the following new title:

TITLE VIII—MILITARY LANDS AND OVERFLIGHTS

SEC. 801. SHORT TITLE AND FINDINGS.

(a) SHORT TITLE.—This title may be cited as the "California Military Lands Withdrawal and Overflights Act of 1991".

(b) FINDINGS.—The Congress finds that—

(1) the Federal lands within the desert regions of California have provided essential opportunities for military training, research, and development for the Armed Forces of the United States and allied nations;

(2) alternative sites for military training and other military activities carried out on

Federal lands in the California desert area are not readily available;

(3) While changing world conditions have lessened to some extent the immediacy of military threats to the national security of the United States and its allies, there remains a need for military training, research, and development activities of the types that have been carried out on Federal lands in the California desert area; and

(4) continuation of existing military training, research, and development activities, under appropriate terms and conditions, is not incompatible with the protection and proper management of the natural, environmental, cultural, and other resources and values of the Federal lands in the California desert area.

SEC. 802. WITHDRAWALS.

(a) CHINA LAKE.—(1) Subject to valid existing rights and except as otherwise provided in this title, the Federal lands referred to in paragraph (2), and all other areas within the boundary of such lands as depicted on the map specified in such paragarph which may become subject to the operation of the public land laws, are hereby withdrawn from all forms of appropriation under the public land laws (including the mining laws and the mineral leasing laws). Such lands are reserved for use by the Secretary of the Navy for—

(A) use as a research, development, test, and evaluation laboratory;

(B) use as a range for air warfare weapons and weapon systems;

(C) use as a high hazard training area for aerial gunnery, rocketry, electronic warfare and countermeasures, tactical maneuvering and air support; and

(D) subject to the requirements of section 804(f), other defense-related purposes consistent with the purposes specified in this paragraph.

(2) The lands referred to in paragraph (1) are the Federal lands, located within the boundaries of the China Lake Naval Weapons Center, comprising approximately 1,100,000 acres in Inyo, Kern, and San Bernardino Counties, California, as generally depicted on a map entitled "China Lake Naval Weapons Center Withdrawal—Proposed", dated January 1985, and filed in accordance with section 803.

(b) CHOCOLATE MOUNTAIN.—(1) Subject to valid existing rights and except as otherwise provided in this title, the Federal lands referred to in paragraph (2), and all other areas within the boundary of such lands as depicted on the map specified in such paragraph which may become subject to the operation of the public land laws, are hereby withdrawn from all forms of appropriation under the public land laws (including the mining laws and the mineral leasing and the geothermal leasing laws). Such lands are reserved for use by the Secretary of the Navy for—

(A) testing and training for aerial bombing, missile firing, tactical maneuvering and air support; and

(B) subject to the provisions of section 804(f), other defense-related purposes consistent with the purposes specified in this paragraph.

(2) The lands referred to in paragraph (1) are the Federal lands comprising approximately 226,711 acres in Imperial County, California, as generally depicted on a map entitled "Chocolate Mountain Aerial Gunnery Range Proposed—Withdrawal" dated November 1991 and filed in accordance with section 803.

SEC. 803. MAPS AND LEGAL DESCRIPTIONS.

(a) PUBLICATION AND FILING REQUIREMENT.—As soon as practicable after the date of enactment of this title, the Secretary of the Interior shall—

(1) publish in the Federal Register a notice containing the legal description of the lands withdrawn and reserved by this title; and

(2) file maps and the legal description of the lands withdrawn and reserved by this title with the Committee on Energy and Natural Resources of the United States Senate and with the Committee on Interior and Insular Affairs of the United States House of Representatives.

(b) TECHNICAL CORRECTIONS.—Such maps and legal descriptions shall have the same force and effect as if they were included in this title except that the Secretary of the Interior may correct clerical and typographical errors in such maps and legal descriptions.

(c) AVAILABILITY FOR PUBLIC INSPECTION.—Copies of such maps and legal descriptions shall be available for public inspection in the Office of the Director of the Bureau of Land Management, Washington, District of Columbia; the Office of the Director, California State Office of the Bureau of Land Management, Sacramento, California; the office of the commander of the Naval Weapons Center, China Lake, California; the office of the commanding officer, Marine Corps Air Station, Yuma Arizona; and the Office of the Secretary of Defense, Washington, District of Columbia.

(d) REIMBURSEMENT.—The Secretary of Defense shall reimburse the Secretary of the Interior for the cost of implementing this section.

SEC. 804. MANAGEMENT OF WITHDRAWN LANDS.

(a) MANAGEMENT BY THE SECRETARY OF THE INTERIOR.—(1) Except as provided in subsection (g), during the period of the withdrawal the Secretary of the Interior shall manage the lands withdrawn under section 802 pursuant to the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) and other applicable law, including this title.

(2) To the extent consistent with applicable law and Executive orders, the lands withdrawn under section 802 may be managed in a manner permitting—

(A) the continuation of grazing pursuant to applicable law and Executive orders where permitted on the date of enactment of this title;

(B) protection of wildlife and wildlife habitat;

(C) control of predatory and other animals;

(D) recreation (but only on lands withdrawn by section 802(a) (relating to China Lake));

(E) the prevention and appropriate suppression of brush and range fires resulting from nonmilitary activities; and

(F) geothermal leasing on the lands withdrawn under section 802(a) (relating to China Lake).

(3)(A) All nonmilitary use of such lands, including the uses described in paragraph (2), shall be subject to such conditions and restrictions as may be necessary to permit the military use of such lands for the purposes specified in or authorized pursuant to this title.

(B) The Secretary of the Interior may issue any lease, easement, right-of-way, or other authorization with respect to the nonmilitary use of such lands only with the concurrence of the Secretary of the Navy.

(b) CLOSURE TO PUBLIC.—(1) If the Secretary of the Navy determines that military operations, public safety, or national security require the closure to public use of any road, trail, or other portion of the lands withdrawn by this title, the Secretary may take such action as the Secretary determines necessary or desirable to effect and maintain such closure.

(2) Any such closure shall be limited to the minimum areas and periods which the Secretary of the Navy determines are required to carry out this subsection.

(3) Before and during any closure under this subsection, the Secretary of the Navy shall—

(A) keep appropriate warning notices posted; and

(B) take appropriate steps to notify the public concerning such closures.

(c) MANAGEMENT PLAN.—The Secretary of the Interior (after consultation with the Secretary of the Navy) shall develop a plan for the management of each area withdrawn under section 802 during the period of such withdrawal. Each plan shall—

(1) be consistent with applicable law;

(2) be subject to conditions and restrictions specified in subsection (a)(3);

(3) include such provisions as may be necessary for proper management and protection of the resources and values of such area; and

(4) be developed not later than three years after the date of enactment of this title.

(d) BRUSH AND RANGE FIRES.—The Secretary of the Navy shall take necessary precautions to prevent and suppress brush and range fires occurring within and outside the lands withdrawn under section 802 as a result of military activities and may seek assistance from the Bureau of Land Management in the suppression of such fires. The memorandum of understanding required by subsection (e) shall provide for Bureau of Land Management assistance in the suppression of such fires, and for a transfer of funds from the Department of the Navy to the Bureau of Land Management as compensation for such assistance.

(e) MEMORANDUM OF UNDERSTANDING.—(1) The Secretary of the Interior and the Secretary of the Navy shall (with respect to each land withdrawal under section 802) enter into a memorandum of understanding to implement the management plan developed under subsection (c). Any such memorandum of understanding shall provide that the Director of the Bureau of Land Management shall provide assistance in the suppression of fires resulting from the military use of lands withdrawn under section 802 if requested by the Secretary of the Navy.

(2) The duration of any such memorandum shall be the same as the period of the withdrawal of the lands under section 802.

(f) ADDITIONAL MILITARY USES.—(1) Lands withdrawn by section 802 may be used for defense-related uses other than those specified in such section. The Secretary of Defense shall promptly notify the Secretary of the Interior in the event that the lands withdrawn by this title will be used for defense-related purposes other than those specified in section 802. Such notification shall indicate the additional use or uses involved, the proposed duration of such uses, and the extent to which such additional military uses of the withdrawn lands will require that additional or more stringent conditions or restrictions be imposed on otherwise-permitted nonmilitary uses of the withdrawn land or portions thereof.

(g) MANAGEMENT OF CHINA LAKE.—(1) The Secretary of the Interior may assign the management responsibility for the lands withdrawn under section 802(a) to the Secretary of the Navy who shall manage such lands, and issue leases, easements, rights-of-way, and other authorizations, in accordance with this title and cooperative management arrangements between the Secretary of the Interior and the Secretary of the Navy. In the case that the Secretary of the Interior assigns such management responsibility to the Secretary of the Navy before the development of the management plan under subsection (c), the Secretary of the Navy (after consultation with the Secretary of the Interior) shall develop such management plan.

(2) The Secretary of the Interior shall be responsible for the issuance of any lease, easement, right-of-way, and other authorization with respect to any activity which involves both the lands withdrawn under section 802(a) and any other lands. Any such authorization shall be issued only with the consent of the Secretary of the Navy and, to the extent that such activity involves lands withdrawn under section 802(a), shall be subject to such conditions as the Secretary of the Navy may prescribe.

(3) The Secretary of the Navy shall prepare and submit to the Secretary of the Interior an annual report on the status of the natural and cultural resources and values of the lands withdrawn under section 802(a). The Secretary of the Interior shall transmit such report to the committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(4) The Secretary of the Navy shall be responsible for the management of wild horses and burros located on the lands withdrawn under section 802(a) and may utilize helicopters and motorized vehicles for such purposes. Such management shall be in accordance with laws applicable to such management of public lands and with an appropriate memorandum of understanding between the Secretary of the Interior and the Secretary of the Navy.

(5) Neither this title nor any other provision of law shall be construed to prohibit the Secretary of the Interior from issuing and administering any lease for the development and utilization of geothermal steam and associated geothermal resources on the lands withdrawn under section 802(a) pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) and other applicable law, but no such lease shall be issued without the concurrence of the Secretary of the Navy.

(6) This title shall not affect the geothermal exploration and development authority of the Secretary of the Navy under section 2689 of title 10, United States Code, except that the Secretary of the Navy shall obtain the concurrence of the Secretary of the Interior before taking action under that section with respect to the lands withdrawn under section 802(a).

SEC. 805. DURATION OF WITHDRAWALS.

(a) Duration.—The withdrawal and reservation established by this title shall terminate 15 years after the date of enactment of this title.

(b) Draft Environmental Impact Statement.—No later than 12 years after the date of enactment of this title, the Secretary of the Navy shall publish a draft environmental impact statement concerning continued or renewed withdrawal of any portion of the lands withdrawn by this title for which that Secretary intends to seek such continued or renewed withdrawal. Such draft environmental impact statement shall be consistent with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applicable to such a draft environmental impact statement. Prior to the termination date specified in subsection (a), the Secretary of the Navy shall hold a public hearing on any draft environmental impact statement published pursuant to this subsection. Such hearing shall be held in the State of California in order to receive public comments on the alternatives and other matters included in such draft environmental impact statement.

(c) Extensions or Renewals.—The withdrawals established by this title may not be extended or renewed except by an Act or joint resolution.

SEC. 806. ONGOING DECONTAMINATION.

(a) Program.—Throughout the duration of the withdrawals made by this title, the Secretary of the Navy, to the extent funds are made available, shall maintain a program of decontamination of lands withdrawn by this title at least at the level of decontamination activities performed on such lands in fiscal year 1986.

(b) Reports.—At the same time as the President transmits to the Congress the President's proposed budget for the first fiscal year beginning after the date of enactment of this title and for each subsequent fiscal year, the Secretary of the Navy shall transmit to the Committees on Appropriations, Armed Services, and Energy and Natural Resources of the Senate and to the Committees on Appropriations, Armed Services, and Interior and Insular Affairs of the House of Representatives a description of the decontamination efforts undertaken during the previous fiscal year on such lands and the decontamination activities proposed for such lands during the next fiscal year including:

(1) amounts appropriated and obligated or expended for decontamination of such lands;

(2) the methods used to decontaminate such lands;

(3) amount and types of contaminants removed from such lands;

(4) estimated types and amounts of residual contamination on such lands; and

(5) an estimate of the costs for full decontamination of such lands and the estimate of the time to complete such decontamination.

SEC. 807. REQUIREMENTS FOR RENEWAL.

(a) Notice and Filing.—(1) No later than three years prior to the termination of the withdrawal and reservation established by this title, the Secretary of the Navy shall advise the Secretary of the Interior as to whether or not the Secretary of the Navy will have a continuing military need for any of the lands withdrawn under section 802 after the termination date of such withdrawal and reservation.

(2) If the Secretary of the Navy concludes that there will be a continuing military need for any of such lands after the termination date, the Secretary shall file an application for extension of the withdrawal and reservation of such needed lands in accordance with the regulations and procedures of the Department of the Interior applicable to the extension of withdrawals of lands for military uses.

(3) If, during the period of withdrawal and reservation, the Secretary of the Navy decides to relinquish all or any of the lands withdrawn and reserved by this title, the Secretary shall file a notice of intention to relinquish with the Secretary of the Interior.

(b) Contamination.—(1) Before transmitting a notice of intention to relinquish pursuant to subsection (a), the Secretary of Defense, acting through the Department of Navy, shall prepare a written determination concerning whether and to what extent the lands that are to be relinquished are contaminated with explosive, toxic, or other hazardous materials.

(2) A copy of such determination shall be transmitted with the notice of intention to relinquish.

(3) Copies of both the notice of intention to relinquish and the determination concerning the contaminated state of the lands shall be published in the Federal Register by the Secretary of the Interior.

(c) Decontamination.—If any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is contaminated, and the Secretary of the Interior, in consultation with the Secretary of the Navy, determines that decontamination is practicable and economically feasible (taking into consideration the potential future use and value of the land) and that upon decontamination, the land could be opened to operation of some or all of the public land laws, including the mining laws, the Secretary of the Navy shall decontaminate the land to the extent that funds are appropriated for such purpose.

(d) Alternatives.—If the Secretary of the Interior, after consultation with the Secretary of the Navy, concludes that decontamination of any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is not practicable or economically feasible, or that the land cannot be decontaminated sufficiently to be opened to operation of some or all of the public land laws, or if Congress does not appropriate a sufficient amount of funds for the decontamination of such land, the Secretary of the Interior shall not be required to accept the land proposed for relinquishment.

(e) Status of Contaminated Lands.—If, because of their contaminated state, the Secretary of the Interior declines to accept jurisdiction over lands withdrawn by this title which have been proposed for relinquishment, or if at the expiration of the withdrawal made by this title the Secretary of the Interior determines that some of the lands withdrawn by this title are contaminated to an extent which prevents opening such contaminated lands to operation of the public land laws—

(1) the Secretary of the Navy shall take appropriate steps to warn the public of the contaminated state of such lands and any risks associated with entry onto such lands;

(2) after the expiration of the withdrawal, the Secretary of the Navy shall undertake no activities on such lands except in connection with decontamination of such lands; and

(3) the Secretary of the Navy shall report to the Secretary of the Interior and to the Congress concerning the status of such lands and all actions taken in furtherance of this subsection.

(f) Revocation Authority.—Notwithstanding any other provision of law, the Secretary of the Interior, upon deciding that it is in the public interest to accept jurisdiction over lands proposed for relinquishment pursuant to subsection (a), is authorized to revoke the withdrawal and reservation established by this title as it applies to such lands. Should the decision be made to revoke the withdrawal and reservation, the Secretary of the Interior shall publish in the Federal Register an appropriate order which shall—

(1) terminate the withdrawal and reservation;

(2) constitute official acceptance of full jurisdiction over the lands by the Secretary of the Interior; and

(3) state the date upon which the lands will be opened to the operation of some or all of the public lands laws, including the mining laws.

SEC. 808. DELEGABILITY.

(a) Defense.—The functions of the Secretary of Defense or the Secretary of the Navy under this title may be delegated.

(b) Interior.—The functions of the Secretary of the Interior under this title may be delegated, except that an order described in section 807(f) may be approved and signed only by the Secretary of the Interior, the Under Secretary of the Interior, or an Assistant Secretary of the Department of the Interior.

SEC. 809. HUNTING, FISHING, AND TRAPPING.

All hunting, fishing, and trapping on the lands withdrawn by this title shall be conducted in accordance with the provisions of section 2671 of title 10, United States Code.

SEC. 810. IMMUNITY OF UNITED STATES.

The United States and all departments or agencies thereof shall be held harmless and shall not be liable for any injury or damage to persons or property suffered in the course of any geothermal leasing or other authorized nonmilitary activity conducted on lands described in section 802 of this title.

SEC. 811. EL CENTRO RANGES.

The Secretary of the Interior is authorized to permit the Secretary of the Navy to use until January 1, 1994, the approximately 44,870 acres of public lands in Imperial County, California, known as the East Mesa and West Mesa ranges, in accordance with the Memorandum of Understanding dated June 29, 1987, between the Bureau of Land Management, the Bureau of Reclamation, and the Department of the Navy. Such use shall be consistent with such Memorandum of Understanding and such additional terms and conditions as the Secretary of the Interior may require in order to protect the natural, scientific, environmental, cultural, and other resources and values of such lands and to minimize the extent to which use of such lands for military purposes impedes or restricts use of such or other public lands for other purposes. All military uses of such lands shall cease on January 1, 1994, unless authorized by subsequent Act of Congress.

SEC. 812. MILITARY OVERFLIGHTS.

(a) Disclaimer.—Nothing in this Act shall preclude low-level overflights by military aircraft, the designation of new units of special airspace, or the use or establishment of military flight training routes over the new units of the National Park or National Wilderness Preservation Systems (or any additions to existing units of such Systems) designated by this Act.

(b) Monitoring.—The Secretary of the Interior shall monitor the effects of aircraft overflights on the resources and values of the units of the National Park System and National Wilderness Preservation System designated or expanded by this Act, and on visitor enjoyment of such units. The Secretary of the Interior shall actively seek the assistance of the Secretary of Defense, consistent with national security needs, to resolve concerns related to such overflights and to prevent, eliminate, or minimize the derogation of resources and values and of visitor enjoyment associated with overflight activities.

□ 1320

PRESS CONFERENCE FROM THE OVAL OFFICE

(Mr. GINGRICH asked and was given permission to address the House for 1 minute.)

Mr. GINGRICH. Mr. Speaker, as I promised earlier, I wanted to read into the Record the transcript, 11:35 a.m. this morning, the Oval Office.

Question. Mr. President, what do you really think about the economic package that was presented to you yesterday?

The President. I'm for it.

Question. You're for it?

The President. Yes.

Question. How strongly?

The President. That's what I've said.

Question. Enough to keep Congress in session?

The President. Listen, Congress has been here all year long. If they want to pass this, let them pass it today.

Question. You're not going to ask them to stay in?

The President. I want the package passed and I want to see it done fast. And I've wanted a lot of legislation that they've had all year to pass. And this kind of ploy at the end is just that—it's a ploy. We've got a good package up there. I've had one up there all year long. Now there's another good one. Let's see them vote on it. They can vote if they want to. This idea of dancing around, that's not good enough for the American people.

Question. The Republicans——

The President. Look, we've got to get on with our business here. Put me down as enthusiastically for it.

Question. You were misinterpreted, weren't you?

The President. Misinterpreted. If they just print what I say, what our statements say, then we would avoid some of this intepretation. I am for this; would like to see it voted on today. And there's no point in Congress sticking around, in my view.

Question. Sir, the economy troubled ordinary Americans wonder why not keep them in?

The President. Because they've been here all year long and the economy is in trouble. That's the answer.

PARLIAMENTARY INQUIRY

Mr. ABERCROMBIE. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore (Mr. Mazzoli). The gentleman will state it.

Mr. ABERCROMBIE. Mr. Speaker, did the gentleman read the entire transcript or read it selectively? I have the transcript here, and I notice he has left key words out at key points.

The SPEAKER pro tempore. The Chair would advise the gentleman that that is not a parliamentary inquiry.

CALIFORNIA DESERT PROTECTION ACT OF 1991

The SPEAKER pro tempore. Pursuant to House Resolution 279 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 2929.

□ 1322

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 2929) to designate certain lands in the California desert as wilderness, to establish the Death Valley, Joshua Tree, and Mojave National Park, and for other purposes, with Mr. Glickman, Chairman pro tempore, in the chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore (Mr. Glickman). When the Committee of the Whole rose on Friday, November 22, 1991, amendment No. 1 offered by the gentleman from California [Mr. Lewis] has been disposed of.

It is now in order to consider amendment No. 2 printed in House Report 102–314.

Mr. LEHMAN of California. Mr. Chairman, if I might, that amendment will be offered later in the en bloc amendment offered by the gentleman from California [Mr. Miller]. We are not going to offer it at this time.

The CHAIRMAN pro tempore. Since that amendment will be deferred, it is now in order to consider amendment No. 3 printed in House Report 102–314.

PARLIAMENTARY INQUIRY

Mr. LEWIS of California. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN pro tempore. The gentleman will state it.

Mr. LEWIS of California. Mr. Chairman, the bill has been brought up in relatively short notice in terms of the circumstance of these closing moments. Is there a way of giving reasonable notice, of deferring this?

I do not want to see a Member lose their opportunity because they do not know that we are up yet.

Mr. LEHMAN of California. Mr. Chairman, I have no objection, if the gentleman from California [Mr. Dannemeyer] wants to reserve his space.

Mr. LEWIS of California. Mr. Chairman, it is clear that really none of these Members are here. It is a delicate circumstance.

The CHAIRMAN pro tempore. Without objection, the gentleman may strike the last word. In the Committee of the Whole, the Chair cannot entertain the request to change the order of amendments when it was stated in the rule.

There was no objection.

Mr. LEWIS of California. Mr. Chairman, I move to strike the last word.

My concern is that we do have a number of amendments that Members are serious about because we are in the closing day and because of the confusing schedule.

I would hope that we could give Members who have amendments filed notice immediately, if we could proceed with that, so that we do not literally cut the sand from under the feet of a Member who is legitimately in line to be heard but may not know that he is up yet, if there is a way we can handle that.

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. LEWIS of California. I yield to the gentleman from Minnesota.

PARLIAMENTARY INQUIRY

Mr. VENTO. Mr. Chairman, I have a parliamentary inquiry.

UMI

The CHAIRMAN pro tempore. The gentleman will state it.

Mr. VENTO. Mr. Chairman, I note that the gentleman from Guam [Mr. BLAZ] has an amendment that is not controversial and the gentleman is present. If we could ask unanimous consent, I thought perhaps we could move ahead with that.

The CHAIRMAN pro tempore. The Chair would state that the gentleman from California [Mr. MILLER] chairman of the committee can offer amendments en bloc at any time. The Chair unfortunately cannot by unanimous consent recognize for amendments out of order since in the Committee of the Whole and the order was provided in the rule.

The Chair would recommend either that the gentleman from California be recognized or else the Chair would recognize Members to strike the last word, without objection, if there is no objection, for a short period of time until such time as we get reasonable notice to Members.

The Chair agrees with the gentleman from California, this bill did come up instantly.

It is now in order to consider amendment No. 3 printed in House Report 102-314.

AMENDMENTS EN BLOC OFFERED BY MR. DANNEMEYER

Mr. DANNEMEYER. Mr. Chairman, I offer amendments en bloc.

The CHAIRMAN pro tempore. The Clerk will designate the amendments en bloc.

The text of the amendments en bloc is as follows:

> Amendments en bloc offered by Mr. DANNEMEYER:
>
> Page 43, strike line 11 and all that follows through line 7 on page 54 (all of title IV), and redesignate succeeding titles accordingly.
>
> Page 55, strike lines 11 through 20, and on line 21 strike "(4)" and insert "(3)".

The CHAIRMAN pro tempore. Under the rule, the gentleman from California [Mr. DANNEMEYER] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

The Chair recognizes the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. Mr. Chairman, I rise in support of this amendment to strike from the bill the inclusion of what is known as the East Mohave area. I think it is appropriate to talk about the political force that essentially is driving the consideration by the House to lock up this area of our State.

Three years ago I sent an intern to the records of the Federal Elections Commission and asked that intern to check an analysis of the records on file there for some of the organizations that comprise the Environmental Party in American politics.

This list is by no means exclusive, but the organizations in that unit include the following: The Center for Marine Conservation, the Clean Water Action Project, the Environmental Defense Fund, Greenpeace U.S.A., National Audubon Society, National Wildlife Federation, Natural Resources Defense Council, the Nature Conservancy, Public Interest Research Groups, the Sierra Club, the Wilderness Society, and the World Wildlife Fund.

This is a short list, by no means exclusive. These organizations have a combined membership in the country of a little less than 13 million people who annually put up $335 million to influence public policy.

□ 1330

Of that sum, about $127 million is spent on grassroots lobbying. The two major political parties in the country, the Democratic Party and the Republican Party, have a contributing base of about 2.3 million people, that is at the national level, who annually put up about $93 million to influence all aspects of public policy. So the Environmental Party has four times the contributing base and four times the resources to influence public policy.

No one who hears my comments should believe that these people do not have the right to organize into a party and influence public policy. I am not saying that at all. I am just saying that we Americans better wake up to the reality that this Environmental Party seeks to change our society to one that worships the creation rather that the creator. If you wander through life and you do not believe in a hereafter, which I believe the leaders of the Environmental Party do not, what they see in this world is all there ever will be and they get disturbed when anybody wants to tear down a tree and make a piece of lumber to build a house, or if somebody wants to catch a fish or if somebody wants to bag a deer and eat that meat or share it with somebody else, these people in the Environmental Party get real uptight. This is the movement we are dealing with in this issue.

In the East Mojave area I think we should understand something. It is comprised of 210,000 acres. The Union Pacific Transcontinental Railroad cuts across the area for 55 miles and forms 35 miles of the southwest boundary. We have about 40,000 miners mining the minerals in the State of California, and about 20,000 have their jobs in this area. The reality is if this bill passes is that these 20,000 jobs are going to be gone.

I have never been able to understand why the proponents of this legislation who profess such a tender concern for the working men and women of our society; namely, the members of the Democratic Party, are so unconcerned about the loss of jobs and economic growth and activity that is going to take place in the State of California if this measure is adopted.

Let me just recite to my colleagues some of the activity that is going on in this area. Over 10,000 mining claims exist. Four hundred and thirty thousand acres in the East Mojave have been leased for oil and gas development. Over 2,500 miles of major and secondary roads cover the proposed monument. Since grazing allotments encompass more than 90 percent of the East Mojave, over 700 miles of cattle fence, water pipelines, tanks, troughs, an corrals exist in this area.

AT&T, Sprint, and Wiltel have miles of cable, including fiberoptics, running across the area. A natural gas pipeline runs almost 40 miles along the southern section of the proposed monument. Southern California Edison maintains 75 miles of wood pole power lines. Pacific telephone lines wind on for 120 miles inside the designated area. High voltage steel tower transmission lines criss-cross the area. Southern California Edison shares 425 miles of power lines with the Los Angeles Department of Water and Power.

In short, this is a developed area of southern California. It is desert area, it is true, but it is a vast resource of minerals that the people of this country need, the 20,000 people working in this region of our State need for a livelihood.

I ask for an "aye" vote for this amendment that would delete this portion from the bill.

The CHAIRMAN. The time of the gentleman from California [Mr. DANNEMEYER] has expired.

Does the gentleman from California [Mr. LEHMAN] oppose the amendment?

Mr. LEHMAN of California. Mr. Speaker, I am opposed to the amendment.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] is recognized for 5 minutes.

Mr. LEHMAN of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, it is hard to take this amendment seriously, but I will, and it is certainly not my intention to get into a theological discussion this afternoon with my good friend, the gentleman from California [Mr. DANNEMEYER].

This is one of the most important parts of this legislation that Mr. DANNEMEYER seeks to gut, the designation of the East Mojave as a national monument. When we examined all of the areas in the California Desert, 25 million acres, we found the East Mojave to be one of the most deserving of protection, and in fact so well deserving that we decided to give it a higher designation. The original proposal had this area designated as a national park. We made it as a national monument in the legislation on the floor to facilitate some more multiple use planning.

Both the Bureau of Land Management and the National Park Service professional staff have studied the Mojave's resources and have made strong recommendations for designation of the area as a national park. I quote from the Park Service study on the East Mojave:

> Cultural and natural resource values of the East Mojave study area are so diverse and outstanding that the area readily qualifies for national park or monument status. In all the California Desert, and I am quoting from this study by the Park Service, there is no finer grouping of different wildlife habitats than the East Mojave.

What about the mineral and geological aspects of the East Mojave? Well, it is not as Mr. DANNEMEYER has stated. According to a recent U.S. Geological Survey report on the East Mojave, and I quote from it,

> The prospects for further mineral discoveries in the Mojave are relatively poor.

In the parlance of mineral resources, this does not appear to be an area of world class deposits.

Again with respect to the wilderness areas in this bill, the mining can continue. Mining has not been prohibited and will not be. Indeed, with respect to the major mine in the East Mojave we have not designated that land as wilderness to even give them a further protection there in the park to continue to mine under the auspices of the Park Service.

The East Mojave is the gem of the California Desert. We recognize it as such in this legislation. Not even the gentleman from California [Mr. LEWIS], who in his substitute last week changed the designations of this area went as far as the gentleman from California [Mr. DANNEMEYER] and removed all protections of this area, whether it is wilderness or Park Service. This takes all protection from the East Mojave and keeps the status quo.

Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO], the chairman of the Subcommittee on National Parks and Public Lands.

Mr. VENTO. Mr. Chairman, I rise in opposition to these Dannemeyer amendments en bloc.

These amendments would delete from the bill the sections that establish the East Mojave National Monument and that designate as wilderness some of the lands within that unit of the National Park System.

As has been noted before, national monument status for the East Mojave area has been supported by the professional judgment of the land managers: In 1979, the BLM reported that—

> Cultural and natural resource value of the East Mojave area are so diverse and outstanding that the area readily qualifies for national park or monument status.

And in 1987, after reviewing the proposed designation of the area as a national park, the professional staff of the National Park Service's western region found that the area met the required criteria specified in the service's management policies, and they concluded that the area would be a worthy and valuable addition to the National Park System.

The Interior Committee agreed with those professional judgments, and the House should do so, too, and should reject these Dannemeyer amendments en bloc.

The Dannemeyer amendments also should be rejected because they would delete from the bill all the wilderness designations for lands within the East Mojave area. The President has proposed that some of these lands be designated as wilderness.

The substitute offered by the gentleman from California [Mr. LEWIS], designated some of these lands as wilderness. The gentleman offering these amendments voted for that substitute, so he evidently supports designation of some wilderness in the East Mojave. The gentleman's amendment has consequences that he doesn't intend or he has changed his views.

The lands that would be designated as wilderness by the bill have wilderness values, and they should be so designated and managed, which would not occur if these Dannemeyer en bloc amendments were adopted. I urge the House to reject the Dannemeyer amendments.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the distinguished gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I rise in opposition to this amendment. The amendment would gut the essence of this legislation. It is extremely important to protect this extraordinarily fragile and vital resource. The East Mojave, as the chairman of the subcommittee indicated, was originally designated a national park. It is now designated a national monument. The subcommittee chairman read quotes that are extremely important that emphasize that the staff of both the BLM and the National Park Service have come to the conclusion that the East Mojave is worthy of national park status.

I would like to respond briefly to two points of the proponent, one to suggest that this is a lockup, a canard. The fact is this is a preservation provision that is essential to this extraordinary resource. Second, although I do not intend, either, to get into a theological debate, to suggest that this amendment should be passed because somehow environmentalists are subversive or ungodly is not worthy of a response, but certainly is not an appropriate reason to not protect this extraordinarily precious resource.

Mr. LEHMAN of California. Mr. Chairman, I yield myself the remaining time.

The CHAIRMAN. The gentleman from California is recognized for 1 minute.

Mr. LEHMAN of California. Mr. Chairman, the quote I read earlier was from the Bureau of Land Management desert planning staff that was submitted to the Park Service on the study of the East Mojave. As I alluded to, a study was also done by the National Park Service. The Regional Director of the Park Service recommended that the Mojave, and I quote, "would be a worthy and valuable addition to the National Park System."

□ 1340

In addition, we have allowed for in the bill under national monument status that we can make some adjustments outside just the domain of being in the park as far as land use management in the area is concerned. We have accommodated the utilities that exist in the area and none of them are opposed to this legislation. We have worked with the cattle interests in the area and have gone beyond what is usually done in a national park in terms of the 10-year phaseout or an immediate phaseout and given them up to 25 years for those six operations in the area.

Mr. Speaker, this is a bad amendment. It kills our bill. I ask for a "no" vote.

The CHAIRMAN. The question is on the amendments en bloc offered by the gentleman from California [Mr. DANNEMEYER].

The amendments en bloc were rejected.

The CHAIRMAN. It is now in order to consider amendment No. 4 printed in House Rept. 102-314.

For what purpose does the gentleman from Montana [Mr. MARLENEE] rise?

AMENDMENTS OFFERED BY MR. MARLENEE

Mr. MARLENEE. Mr. Chairman, I offer amendments.

The CHAIRMAN. The Clerk will designate the amendments.

The text of the amendments is as follows:

> Amendments offered by Mr. MARLENEE:
>
> Page 44, line 16, insert "(a)" after "402.".
>
> Page 44, after line 25, add the following:
>
> (b) The Secretary shall permit hunting on all lands within the monument in accordance with applicable Federal and State law. The Secretary may, after consultation with the California Department of Fish and Game, designate zones where, and establish periods when, such activities will not be permitted for reasons of public safety, administration, fish and wildlife habitat, or public use and enjoyment, subject to terms and conditions as he deems necessary in furtherance of this Act. Nothing in this Act shall be construed as affecting the jurisdiction or responsibilites of the State of California with respect to fish and wildlife.

The CHAIRMAN. Under the rule, the gentleman from Montana [Mr. MARLENEE] will be recognized for 5 minutes and a Member opposed will be recognized for 5 minutes.

Mr. LEHMAN of California. Mr. Chairman, I oppose the amendment.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes.

The Chair recognizes the gentleman from Montana [Mr. MARLENEE].

Mr. MARLENEE. Mr. Chairman, I yield 2 minutes to the gentleman from Pennsylvania [Mr. SCHULZE].

Mr. SCHULZE. Mr. Chairman I rise in strong support of the Marlenee amendment to H.R. 2929, the California Desert Protection Act. The Marlenee amendment would protect hunters rights in the Mojave National Monument created by H.R. 2929.

Public lands provide access to hunters who don't have the financial ability to own their own land or belong to a private hunting club.

Restricting access to an additional 1.5 million acres would further diminish the multiple use of our public lands. In addition to prohibiting hunting on the Mojave Monument, the designation of 4.3 million acres of wilderness in H.R. 2929 further restricts the opportunity for hunters.

Although hunting is allowed in wilderness areas, restricted access to those areas makes it much more difficult for the hunter to utilize the area.

Hunting and hunters have contributed greatly to wildlife and wildlife management. The foundation for the conservation of desert bighorn sheep and many other conservation organizations should be commended for their work in reestablishing viable wildlife populations.

They should not be punished by having access to public lands denied or restricted.

Allowing hunting in this area will contribute greatly to the management of wildlife species. In my home State of Pennsylvania, we have the Gettysburg National Military Park and the Eisenhower National Historic Site. Both of these areas are managed by the Park Service and hunting is not allowed.

Because no hunting is allowed, deer populations have soared and are six times greater than the carrying capacity of the ecosystem. This is causing severe economic and environmental stress.

Do not let this happen in the Mojave National Monument. For the conservation of our Nation's wildlife, I urge my colleagues to support the Marlenee amendment.

Mr. LEHMAN of California. Mr. Chairman, I yield myself 1 minute.

Mr. Chairman, I oppose this amendment. The gentleman from Minnesota [Mr. VENTO] will go into the arguments with regard to Park Service rules.

The desert has 25 million acres in it, my friends. Three million acres are in the Mojave area and have always been off limits to hunting. Less than 1 million acres are in Joshua Tree and have always been off limits. That leaves 21 million acres.

With this bill, an additional 1.5 million acres out of the mix would be put in the national monument and hunting will not be allowed in that area. There will still be almost 19 million acres on the desert where you can hunt.

Now, the good gentleman talks about wildlife in this area. The facts should be clearly on top, especially with respect to deer. Last year in California we shot 30,000 deer statewide. How many were shot in the East Mojave? Exactly 25.

In response to that statistic, in committee the gentleman from Montana [Mr. MARLENEE] said, well, a lot of us like maybe not just to shoot, but to go walk around out there.

Well, that is fine, but you still have 19 million acres on which to do that.

Everyone in this bill in order to protect the California desert is being asked to give just a little. The utilities have given a little. The cattle interests are giving a little. The mining interests are giving a little. This should not be the only group not to give anything to protect the species in the area.

Mr. Chairman, I ask for a no vote.

Mr. MARLENEE. Mr. Chairman, I yield myself 2 minutes.

Mr. Chairman, recently a "Dear Colleague" letter was circulated by those who oppose this amendment. That "Dear Colleague" letter said this would destroy the few remaining big game species in that area. What a misleading statement that is; what a blatantly/misleading statement that is.

I assure you and I assure all my colleagues that it must be an insult to the California State Fish and Game Department, under those whose control the harvesting of wild game takes place.

It further states that there are very few animals to hunt and very few animals taken. That is not the question. What we are trying to do here is protect the areas and the accessibility and the opportunity for sportsmen across the United States of America, sportsman who in fact have put waterholes and water out there, reintroduced the big horn desert sheep in that particular area, and now the antihunters are going to tell those sportsmen they are going to remove 1.5 million acres because somebody said we ought not to allow hunting.

They will also tell you that this is unprecedented that we are allowing hunting on national parks, but there is a precedent. In these particular areas, Big Cypress Reserve of Florida, Delware Water, Fire Island National, Glenn Canyon area, all these areas are in the National Park System and allow hunting to take place.

The harvesting of game is natural and it must take place to prevent overpopulation and degradation of the environment.

I am chagrined that such a misleading "Dear Colleague" letter would be sent out.

You know, this amendment is simple. It is either you are for the sportsmen or you are against them.

We want no net loss of hunting or hunting areas to take place.

Mr. LEHMAN of California. Mr. Chairman, I yield 2 minutes to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in strong opposition to the amendment, which would open to hunting the new East Mojave National Monument designated by this bill.

I am a hunter and I do not think we need to hunt in national parks and monuments.

The fact of the matter is the list the gentleman from Montana placed up there are not national parks or monunments. There is only one national park on that list, and that is the Grand Tetons, and that is the hunting of elk, and the individuals who do that have to be deputize to do so, so what we are about to do or what the gentleman proposes to do is to throw our a 75-year history of policy with regard to national parks and monuments that are established to preserve the species in perpetuity, but the gentleman would say we are going to reverse this whole policy. We are going to stand it on its head because the hunters of America look at this as a symbol. I do not think this is a symbol. I think we have to get down to the facts, and the facts are that in order for people to hunt, there has to be game in these particular areas. There is very little game in these areas.

What we are saying in this type of Mojave Desert area is that we want to see the natural processes take place without being interfered with by man, permitting the types of desert species that occur there to live in as natural a condition as possible.

We know that most hunters are good people; they are conservationists. We also know that there are a lot of directional and informational signs that get shot up and a lot of other damage that goes on in some of these areas because some people—some hunters—are not as responsible.

So I will just emphasize, Mr. Chairman, we are being asked here to reverse a 75-year time-honored policy with regard to the National Park System. All the other units that permit such activities are preserves. In Alaska we have some examples, and the Tetons, where individuals have to be deputized in order to hunt.

The amendment would undermine one of the basic, longstanding principles under which National Park System monuments and national parks are managed—that they are sanctuaries for wildlife, and are off limits to sport hunting.

I understand that supporters of this amendment claim that it is necessary in order to save hunting on public lands in California. Of course, that is not the case. Just in the California desert alone, there are millions and millions of acres of public lands that would be left wide open to hunting by this bill. Establishment of the East Mojave National Monument is not a threat to hunting on these other lands, and there is no need to save hunting through this amendment.

Furthermore, hunters hunt game—they don't hunt acres. It's true the East Mojave is a fairly large area, but it is not really one that is important for hunters. We have been told that of some 30,000 deer taken by hunters in California annually, only about 25 or 30 come from the East Mojave area.

Twenty-five or thirty deer out of 30,000 deer taken annually in California. Obviously, the East Mojave is not an important part of the deer hunting scene in California. And the story is the same for other game species as well.

The fact is, the East Mojave is a rugged desert area, remote from any major population centers. Closing it to hunting will not have any significant effect on hunting opportunities for the sportsmen of California.

The author of the amendment is well aware that there are some types of National Park System units where hunting is permitted—but he is not proposing to change the designation of the East Mojave. So, what is the purpose of this amendment? The answer is, It is an attack on the principle that national parks and national monuments are off limits to hunting.

Finally, Mr. Chairman, I note that many of the backers of this amendment are opposed to the bill, and at the same time they urge a vote for the amendment, they urge opposition to final passage. That tells me that this amendment isn't intended to address any real need to save hunting, but is strictly an attempt to derail the conservation designations in this overall desert legislation and it generally damages 75 years of time honored policy. Not to hunt in national parks and monuments.

I urge the House to reject the amendment.

Mr. MARLENEE. Mr. Speaker, I yield 30 seconds to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. Mr. Chairman and my colleagues, this is another part of the desert lockout bill. I told you the other day that the desert lockout bill locks out 100,000 blue collar families from the California desert, and the South Algodones is doomed.

In this particular area, they are locking out 22,000 blue collar families that, yes, they cannot go deer hunting north in Montana or Wyoming, but they do take the kids and they go out with their campers from L.A., from San Diego and other points in the inland empire to go hunting for a couple days for dove, for quail, and for rabbits in the desert.

□ 1350

This is another part of the Democrat lockout bill.

Support the Marlenee amendment.

Mr. MARLENEE. Mr. Chairman, I reserve the balance of my time.

Mr. LEHMAN of California. Mr. Chairman, I yield my remaining 2 minutes to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. I thank the gentleman for yielding.

Mr. Chairman, let me begin by responding to my friend from California who talked about 22,000 hunters in this area. Those 22,000 hunters bagged all of 25 deer last year in the East Mojave.

Now there may be 22,000 hunters, there may be 22,000 hunters in the entire wilderness area, but let us get our facts straight. This bill leaves 9 million wilderness acres available for hunting. The part of the bill that we are talking about is an area which claimed 25 deer, 25 deer.

Now we are talking about the East Mojave. When people claim this is a lockout, which the other side consistently does, let us talk about what we are protecting. We are protecting an essential part of the fragile resource, which we discussed in the last amendment, which was defeated on a voice vote.

This amendment is nothing more than a subterfuge for eroding protection in National Park Service land, national parks and national mounuments in those areas.

It is an effort to allow hunting in parks. It is extraordinarily important to understand what is at stake here. We are simply suggesting that this fragile resource in the East Mojave, leaving 9 million wilderness acres available for hunting, should be protected.

To my friends on the other side who suggest that somehow there is an over-population-of-wildlife problem here, that is simply contravened by the facts. This area, this entire area, netted 25 deer. And for the extraordinary effort that is occurring to try to keep hunting in an area which claimed 25 deer in the last year, I believe that tells us what the real intent of this amendment is. The real intent of the amendment is to open up our national parks and to open up our national monuments to hunting.

The CHAIRMAN. The Chair recognizes the gentleman from Montana [Mr. MARLENEE] for 30 seconds.

Mr. MARLENEE. I yield myself 30 seconds.

Mr. Chairman, this is not to open up a national park. They are the ones on that side of the aisle who are creating a new national park that will reserve, 1.5 million acres and take it away from the sportsmen, the sportsmen who have developed the area, who provided watering holes and reintroduced species.

We are not talking about how many game animals that have been harvested during this period of time. We are talking about the opportunities, as my good friend, DUNCAN HUNTER, understands very well, the opportunity to go out there with your family and enjoy a day of hunting and field activity.

The CHAIRMAN. The time of the gentleman from Montana [Mr. MARLENEE] has expired. All time has expired.

Mr. BLAZ. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from Montana.

The CHAIRMAN. The gentleman is recognized.

Mr. VENTO. Regular order, Mr. Chairman.

Mr. Chairman, under the rule there are 10 minutes given to this amendment. I would ask would it not be appropriate at this time to call for the question?

The CHAIRMAN. The Chair would remind the gentleman from Minnesota [Mr. VENTO] that under the rule the chairman or ranking minority member of the Committee on Interior and Insular Affairs may offer pro forma amendments.

PARLIAMENTARY INQUIRY

Mr. VENTO. Mr. Chairman, as the chairman, I would make a parliamentary inquiry: Has Mr. BLAZ assumed that role?

The CHAIRMAN. Yes. Mr. BLAZ assumed that position during the entire general debate.

The Chair is trying to be consistent.

The gentleman from Montana [Mr. MARLENEE] is recognized.

Mr. MARLENEE. Mr. Chairman, I realize there is an attempt to muzzle this side of the aisle continually, and particularly to muzzle this side of the aisle——

PARLIAMENTARY INQUIRY

Mr. VENTO. Mr. Chairman, a point of parliamentary inquiry. Is a different amendment being offered by the gentleman from Guam?

Mr. MARLENEE. Mr. Chairman, I do not yield. I do not yield. I do not yield.

The CHAIRMAN. The Chair would remind the gentleman from Minnesota the gentleman from Montana [Mr. MARLENEE] has been recognized.

Mr. MARLENEE. Mr. Chairman, as I said, I realize there is a continual attempt by the animal activists to eliminate hunting wherever that opportunity exists. If it was of no significance, why is this amendment supported to such a great degree by the National Rifle Association and other conservation groups such as Quail Unlimited, California Wildlife Federation, California Chapter of the Izaak Walton League, Society for the Conservation of Bighorn Sheep, Safari Club International, Fish and Wildlife Legislative Fund, the International Association of Fish and Wildlife Agencies.

They recognize that we have got to be in a position of no net loss on hunting. Otherwise, we are going to have those strict preservationists take from the American sportsman all of the opportunity to enjoy and participate in outdoor activity.

The CHAIRMAN. The gentleman from Guam [Mr. BLAZ] controls the time, and it will be designated by the gentleman from Guam and not by the Chair.

Mr. BLAZ. I thank the Chair.

Mr. Chairman, I yield to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. I thank the gentleman for yielding.

Mr. Chairman, at this point in the debate I also want to offer my thanks to the gentleman from Guam for his very statesmanlike handling of this particular piece of legislation that has been, I think, a very difficult piece of legislation.

Let me just say to the people on the other side of the aisle who have talked about deer hunting on the Mojave and said, "You are not shooting any deer, so let us lock it up," the Mojave is not a deer hunting area. The Mojave is a place where blue-collar families can get on highway 10 from Los Angeles, millions of them, and you will see literally thousands and thousands of pickups and campers leaving on an exodus every Friday night to go out to the Mojave with their family and to go hunting for a few duck, quail, chukar partridge, maybe jackrabbits and cotton-tail rabbits.

It is not a deer hunting area, but it is a place where the average family in California that cannot afford to go fly fishing in New Zealand, like some of the Sierra Clubbers can, can go out and have a decent time.

We are locking up California, and we are locking it up from precisely the same people, blue-collar people who lost 114,000 jobs over the last year. The Democratic leadership ought to be concentrating on a jobs package, which they refused to bring up today, that will help middle-class America instead of locking them out of national lands.

Mr. SCHULZE. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I am happy to yield to the gentleman from Pennsylvania.

Mr. SCHULZE. I thank the gentleman for yielding.

Mr. Chairman, earlier one of our colleagues referred to the fact that there were something like 30,000 deer harvested in all of California. Let me tell you that close to 40,000 deer a year are killed on the highways in the Commonwealth of Pennsylvania, at an average cost of about $1,000 per incident, not counting the loss of life and limb and hospital bills associated with that. Much of this is due to some unwise utilization of hunting and preservation in certain areas. We have got to have a balance.

The greatest conservationists in the United States of America are the sportsmen of America. They do not want to eliminate species. They have spent thousands and thousands of dollars continuing the propagation of bighorn sheep in this very area.

Mr. HUNTER. I thank the gentleman for his comments. The people who built water guzzlers, they have gone out there and built water guzzlers for small game and big game in the 110-degree heat in the desert, have been sportmen. They have been people who like to hunt and fish. They developed this desert so that Californians can use it.

We are now in the process of locking Californians out of their own desert.

Mr. MARLENEE. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from Montana.

Mr. MARLENEE. I thank the gentleman for yielding.

Mr. Chairman, I note the "Dear Colleague" said that opening up this hunting would destroy the few remaining species of big-game species. How would they do that? That is an incredible statement. How would they do that?

Mr. HUNTER. In the first place, they would not do it because the vast majority of the people who hunt in the Mojave are people who hunt small game, like dove and quail and rabbits.

Second, you have very stringent game laws, and you have game management very effective in California. We can see to it that you have no overharvest.

The facts are that American sportsmen and Californians ought to be trusted. The whole theme of the Democratic side is you cannot trust Californians to use their own public lands. Let us lock them out with their off-road vehicles, they cannot use them in the desert where you have sand dunes; let us lock them out of the hunting areas because you cannot trust them.

You cannot trust them. You have to trust people who live in condominiums in San Francisco and who can go off to foreign countries and have great vacations and come back and say, "Now, for an encore, I am going to lock out some middle-class people."

The CHAIRMAN. The time of the gentleman from Guam [Mr. BLAZ] has expired.

The question is on the amendments offered by the gentleman from Montana [Mr. MARLENEE].

The question was taken, and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. VENTO. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 235, noes 193, not voting 6, as follows:

NOT VOTING—6

Byron
Edwards (OK)
Ford (MI)
Lowery (CA)
Reed
Towns

□ 1420

The Clerk announced the following pairs:

On this vote:

Mr. LOWERY of California for, with Mr. TOWNS against.

Mrs. SCHROEDER, Mr. JAMES, and Mr. HUGHES changed their vote from "aye" to "no."

Mrs. LLOYD and Messrs. TRAXLER, WILSON, CARR, PICKLE, SIKORSKI, BARNARD, ERDREICH, MARTINEZ, and BRYANT changed their vote from "no" to "aye."

So the amendments were agreed to.

The result of the vote was announced as above recorded.

□ 1420

The CHAIRMAN. It is now in order to consider amendment No. 5 printed in House Report 102-314.

AMENDMENTS EN BLOC OFFERED BY MR. DELAY

Mr. DELAY. Mr. Chairman, I offer amendments en bloc.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendments en bloc is as follows:

Amendments en bloc offered by Mr. DELAY: Page 54, beginning on line 1, strike "thereof" and all that follows through "title." on line 7, and insert "thereof.".

Page 65, after line 6, insert the following new section:

LAND ACQUISITION ON A WILLING SELLER BASIS

SEC. 612. Lands may not be acquired by the Secretary for the purposes of this Act without the consent of the owner thereof.

Mr. DELAY (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

The CHAIRMAN. Under the rule, the gentleman from Texas [Mr. DELAY] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

Is the gentleman from California [Mr. LEHMAN] opposed to the amendments?

Mr. LEHMAN of California. I am opposed to the amendments, Mr. Chairman.

The CHAIRMAN. The Chair recognizes the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Chairman, currently the Federal government may acquire land without the consent of the owner. This is an infringement on property rights, and should not be allowed to occur except in the gravest of situations. The situation described in H.R. 2929 is not grave. In fact, the bill has been criticized by many, including members of the California delegation, for designating lands that do not meet minimum wilderness protection standards, as well as protecting more land than necessary to preserve the California desert.

My amendment would establish some reason and fairness by requiring that the Federal Government obtain the consent of the property owner before taking his or her land for public use. Already the Federal Government owns, manages, or controls approximately one-third of all of the Nation's land. If one includes State and local government holdings, the total Government land ownership of the United States jumps to about 40 percent. Most of this federally-owned land is located in the West, with about 63 percent of all the land in the 13 Western States owned by the Federal Government.

We have to establish some restraints on this outrageous land grab. Do you realize that the millions of acres of land affected by this bill will be the second largest land withdrawal in U.S. history after Alaska? As Mr. John Kenneth Galbraith, a well-known liberal perceptfully observed:

> The public lands of the United States exceed the combined areas of Germany, France, Italy, Belgium, Holland, Switzerland, Denmark, Hungary, and Albania. Where socialized ownership of land is concerned, only the U.S.S.R. and China can claim company with the United States.

This statement clearly shows that the U.S. Government is far exceeding its bounds in the taking of land. The irony is that the Soviet Government is finally selling its land to private citizens, while the United States continues to move in the opposite direction by taking land away from its citizens. Considering our country was founded with the belief that the cornerstone of all our freedom depends upon the widest possible distribution of property, securely protected under a system of private ownership, this is a staggeringly high percentage of government ownership of land and resources.

H.R. 2929, the California Desert Protection Act, if passed, will add another 828,000 acres of State and privately owned land to the Federal inventory. This may be a silly question, but do we need this?

Furthermore, this bill does not account for either the wishes of the landowners or how they will be compensated. H.R. 2929 allows the Federal Government to acquire these lands through exchange, but considering there are only 550,000 acres of suitable land available in California for exchange, this still leaves several hundred thousand acres of land unaccounted for. And, although the bill also allows for the purchase of land, we must keep in mind that we are deeply in debt at this time. While the Constitution allows the taking of land for public use, the fifth amendment requires that there be just compensation. This bill does not reflect the constitutional mandate.

Giving the Government the power to take land without any restraints regarding the willingness of the property owner will only tempt it to continue to acquire more land which we do not need. My amendment will require the consent of the owners of the land included in this bill before the Federal Government may purchase it, which will help curb the Government's hungry appetite. I urge you to support this amendment to H.R. 2929 and help keep these lands in the hands of citizens, where it belongs.

□ 1430

Mr. LEHMAN of California. Mr. Chairman, I yield myself 1½ minutes.

Mr. Chairman, the gentleman from Texas has completely misstated the language in the bill and has completely misinterpreted existing law. Under existing law, condemnation is prohibited in the Wilderness Act and thus, in over half the acreage in the bill, no condemnation could take place anyway.

Second, there is language in this bill which we inserted requiring consent of a property owner in the Mojave before an action could take place unless they were using the land in such a way that was adverse to the monument.

Third, over seven eighths of the holdings in this bill, that is over 85 percent, are owned by two entities, the State of California and the Catellus Land Co.

We have already worked out the details for change with regard to those, those entities, at their request. There is no taking of private land in the bill, as I just said. We have developed an exchange procedure for seven eighths of the holdings.

The experience in the area is exactly the contrary to what the gentleman has stated. In the Death Valley National Monument there has been absolutely no condemnation since it was created.

It is interesting how some opponents get upset regarding Federal ownership of land. Remember that this is BLM desert land, leftover land in the West that no one else wanted. Suddenly, when we try to protect it from destruction, we are told it ought to be put in private hands.

It has long been the goal of the land management agencies to consolidate land holdings.

Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in opposition to these amendments en bloc by the gentleman from Texas. This legislation has no or insignificant impact on public land ownership. It deals with how we manage such lands. Public lands are the heritage of all Americans. We don't have to apologize for that.

The amendments would restrict the authority of the Secretary of the Interior with respect to acquisition of lands—authority that he has today. The effect of the amendments would be to limit the Secretary so that acquisitions would occur only on a willing-seller basis. The basic law that governs BLM lands provides this authority nationwide. Just the classification changes are no basis for such a restriction; if anything, such a tool is needed even more under these designations.

As a practical matter, Mr. Chairman, it is unlikely that there will be any significant acquisitions in the desert on any other basis. The American people, through the National Government, are already the major landowner there. The second largest landowner is the State of California which has school lands granted by the United States at the time California was admitted to the Union—and the State is not only willing, but eager, to transfer these lands to the National Government under the exchange provisions of the bill.

So, the amendments are not necessary. Furthermore, Mr. Chairman, as a matter of sound land management, the National Government should retain the option of making unrestricted acquisitions in those exceptional circumstances that may arise where that would be necessary to protect the public interest. By denying that option, these amendments en bloc would place an unnecessary and unwise restriction on the National Government.

Mr. Chairman, it is interesting that the gentleman from Texas wants to amend the bill in order to restrict the National Government in this way. The substitute bill offered by the Gentleman from California [Mr. LEWIS] did not include any such restriction—and the gentleman from Texas voted for that substitute, which suggests that his support for these restrictions is selective, and not across the board.

The en bloc amendments are unnecessary, unwise, and would be bad public policy. I urge their rejection by the House.

Mr. DELAY. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Alaska [Mr. YOUNG].

Mr. YOUNG of Alaska. Mr. Chairman, I rise in support of this amendment. If there is no private land under this bill that is taken without the consent of the owner, then there should be no objection to the amendment. May I suggest respectfully, we have already $3 and $5 billion authorized private land that the Congress has not acquired. I believe very strongly that the protection of the private land is crucial. In fact, if the individual does not want to sell his land, he should not be required to do that.

The gentleman from Texas is absolutely correct. We own over 647 million acres of land in the United States and it does not take one nickel of taxes.

Remember, every acre of land that we take out and put into public ownership does not produce $1 for the workingman, nor does it produce any dollar for the Treasury to conduct the programs. Yet we continue to do that. So this is wrong. This is a simple amendment that says if the owner does not wish to sell that land, he does not have to sell the land. There is private land in this bill.

I urge adoption of the amendment.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MILLER], chairman of the Committee on Interior and Insular Affairs.

Mr. MILLER of California. Mr. Chairman, the suggestion is somehow that this is a great land grab if we look here at the map, the blue is the State land. In the bill it says upon request of the State Lands Commission. The same is true for the biggest private land holder; 735 acres out of 830,000 acres is upon request of those landowners to engage in the exchange. The rest of it is protected not by the amendment of the gentleman from Texas [Mr. DELAY], not by this bill, but by the Constitution of the United States.

There is nothing we can do about that. People are entitled to that compensation should there be a taking. There will be no taking without compensation. That is the Constitution.

So the gentleman ought not to misrepresent the bill or misrepresent the facts. It is about upon request. On page 51, section 610 "Upon request the California State Lands Commission," and I think it is very important for Members to understand that.

The suggestion is here somehow this committee is willy-nilly going around scooping up lands in the California desert, and that is simply not the case. This is after years of study, and the private landowners, the State landowners have come to us and asked for those exchanges.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from Florida [Mr. SMITH].

Mr. SMITH of Florida. Mr. Chairman, I thank the gentleman for yielding time to me.

The last amendment passed, and I think a number of Members were not aware fully of its impact. But they better be aware of the full impact of what this amendment does. This is the Liberty Lobby amendment.

Oh, it hurts. This will start unraveling the capability of the Federal Government to protect anything in this country; the Liberty Lobby would like to take all Government lands away from Government ownership.

This will start the ball rolling in that direction. Be very careful, my colleagues, there will be no protection of anything in this country, not the Everglades in Florida, not the national parks, and certainly not this property in California if we vote yes.

I urge my colleagues to vote "no." This can be one of the most devastating votes that they could make on this bill. It is wrong and the concept is wrong.

I say to our Republican colleagues, if they do not like it, they can vote against it, too.

Mr. LEHMAN of California. Mr. Chairman, I yield 30 seconds to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I would just like to underscore two of the key issues here. No. 1, there is no taking of private land required by this bill, and we ought to get the facts straight.

In terms of the Catellus property and the State Lands property, seven-eighths of the properties here, those entities prefer exchanges. The exchange has been worked out. This is a red herring.

It is not necessary. It presents a danger that does not exist in the bill. I strongly urge a no vote on the DeLay amendment. It raises an assertion that is flatly false.

Mr. BLAZ. Mr. Chairman, I move to strike the last word.

Mr. DANNEMEYER. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from California.

Mr. DANNEMEYER. Mr. Chairman, I would like to ask the gentleman from California [Mr. LEHMAN] a question. I

do not want to misstate him, but I thought I heard him say there is no private land to be taken in this land grab.

Mr. LEHMAN of California. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from California.

Mr. LEHMAN of California. Mr. Chairman, that is correct.

Mr. DANNEMEYER. Mr. Chairman, if the gentleman will continue to yield, I ask the gentleman from California [Mr. LEHMAN] does he see this map?

Mr. LEHMAN of California. Mr. Chairman, if the gentleman will continue to yield, that is by request, as the gentleman from California stated it.

Mr. DANNEMEYER. Mr. Chairman, this is a map of the East Mojave area. On the legend the white is the private ownership that has existed there for sometime. The blue is the State land. The yellow is the BLM and look at the checkered white land on this map. This is private land. People are using it for all of the purposes for which private property exists in this country. And all the amendment of the gentleman from Texas [Mr. DELAY] says is that before this land grab can be successful with this private land, these private property owners have to consent.

I concede that the Government could take private land for building a road, or a school, or a highway, that is part of America.

1440

But this is different. Right now the Environmental Party in America wants to grab to itself all the land that it can. There are people in this movement in this country who believe that all undeveloped land belongs only in public ownership. I suggest that these private property owners have the right to say that before their land is part of this land grab they have to consent.

Mr. LEWIS of California. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from California.

Mr. LEWIS of California. Mr. Chairman, I thank the gentleman for yielding.

I want to follow up on the point Mr. DANNEMEYER has been making. There are a minimum of 584,000 acres of private land which would be affected by passage of H.R. 2929. Some suggest that these lands can be negotiated away by way of a trade for other public lands. The fact is that there has been no trade. Any private holder, whether they are a public interest or otherwise, that wants to try to trade with our agencies faces considerable delay and substantial doubt as to the final outcome.

In the meantime, the private landholders have been there for generations. They deserve a fair hearing, and assurance that they will get fair compensation for their land. Their voice should be heard when they agree to a transfer, before they agree to a transfer of that land.

Mr. THOMAS of California. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from California.

Mr. THOMAS of California. Mr. Chairman, I thank the gentleman for yielding.

I think we should listen to the chairman of the committee very carefully. What he said was a right was guaranteed in the Constitution, and that is correct, a right for compensation. That is not what this amendment is about. The Chairman knows that.

There was the only asbestos-free talc mine in the United States that was taken, that was taken. Was there compensation? Yes. Was there permission? No. This amendment requires permission. That is all.

Mr. DELAY. Mr. Chairman, will the gentleman yield?

Mr. BLAZ. I yield to the gentleman from Texas.

Mr. DELAY. Mr. Chairman, I appreciate the gentleman yielding.

I cannot believe what I am hearing. I have to charge that there are some serious misrepresentations going on here. I am not trying to inflame the passions of people that want to grab this land. All I am saying is let us have a little fairness here. If a group does not want to give up their land, then they should not have to. I am not attempting to do anything to compensation. If they have a land swap deal with private ownerships that went consent, my amendment does not touch that at all. But if in this case, if there is a landowner here that does not want to give up his land and there are private landowners here that do not want to give up their land, then they should not be made to do so.

I have a list of 23 organizations that agree with me. I think Members ought to really pay attention to what is going on here. What I am talking about is a land grab for no outrageous reason other than an environmental group wants to take land, more land, and put land into the environmental system. I am just trying to slow down what is happening here.

Mr. LEHMAN of California. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentleman from California is recognized for 5 minutes under the rule.

Mr. LEHMAN of California. Mr. Chairman, I yield to the gentleman from Minnesota, [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I will just reiterate that we are not changing any of the laws with regard to the powers of the Secretary of the Interior. The Secretary of the Interior has the same powers under the proposals that are being made here generally that he has in terms of the public domain. In fact, with respect to the lands that have been illustrated here in terms of the Mojave National Monument, there is a special provision on page 53 of the bill that points out, and I will read it, Mr. Chairman, "Lands or interests therein within the boundary of the monument which are not owned by the State of California or any political subdivision may be acquired only with the consent of the owner," only with the consent of the owner.

There is an exception made if after written notice the owner had the opportunity for comment that the property was to somehow be developed in an adverse way within a national monument, that then we would have the opportunity, for instance, to stop such development, Mr. Chairman.

So the provisions of this bill are very reasonable. The powers that the Secretary has today are reasonable. We are not changing those powers generally. If anything, we are restricting them in this bill. We should not accept this type of general amendment which would take away the power of the Secretary of the Interior to manage the public lands and the designations that we are making in this bill.

Mr. Chairman, I request a no vote on the DeLay amendment.

Mr. LEHMAN of California. Mr. Chairman, it is amazing to me how selective Mr. DELAY is being with this amendment. Imagine the mischief in this country if this amendment were applied to the highway system. Imagine the mischief in this country if this amendment were applied to the military and expansion of military bases, one of which is being proposed under this legislation. There are no trades in the bill. There is a provision to allow for trades, a provision that has already been negotiated out with the entities that own seven-eighths of the property. There is no controversy over it.

We are talking here also, the Members should know, about State lands in California, land use for the State Teachers Retirement System. I hope the gentleman from California on the other side has no objection to that.

Mr. MILLER of California. Mr. Chairman, will the gentleman yield?

Mr. LEHMAN of California. I yield to the gentleman from California.

Mr. MILLER of California. Mr. Speaker, I think the gentleman from California [Mr. LEHMAN] just put his finger on it. Later tonight hopefully or early tomorrow morning you are going to vote on a $151 billion highway bill and transit bill. Which of you would put in the way of the transit or highway system in your State or your district this requirement, that one willing seller would hold up a highway, or buyer, because they chose not to do it?

For 75 years the Department of Interior has amassed what many of us refer to when we go back to our districts as

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

the crown jewels of this country: The National Park System, the national monuments, some of the wilderness areas. We talk about how proud we are, and the millions and millions of Americans that have visited them every day. This bill seeks to do for the desert that which we do for the Grand Tetons, that which we did for Yellowstone or for Glacier or for Olympic National Park, that which we did for Fire Island.

It is the same process but now we are into an ideological debate here about the Environmentalist Party seeking to violate the Constitution or people's rights.

But when you come here to expand a military base there will be no amendment about willing sellers and willing buyers. Later tonight, in a $151 billion transportation bill, none of you will give the right to a landowner in your district to delay a single highway, an off ramp, an access road, or a transit pass. None of you will do that because you know what this amendment does. This amendment simply creates mischief.

Yes, utilities and cities and States and the Federal Government from time to time have a right under eminent domain to take property. In this particular case, we have some three-quarters of the land where the sellers are excited to engage in an exchange. So let us keep our eye and understanding out of the ideological debate here about whether or not this is a taking or a willing seller and willing buyer. The gentleman knows exactly what his amendment does.

There will later be amendments offered in this process to expand Fort Irwin or to engage in the military, and I suspect that not the gentleman or anyone else will suggest that the willing seller, willing buyer provision would stand in the way of that provision.

The CHAIRMAN. All time has expired.

The question is on the amendment en bloc offered by the gentleman from Texas [Mr. DELAY].

The question was taken; and the Chair being in doubt, the Committee divided and there were—ayes 43, noes 43.

RECORDED VOTE

Mr. DELAY. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device and there were—ayes 143, noes 289, not voting 2, as follows:

[Roll No. 430]

NOT VOTING—2

Lowery (CA)
Roe

☐ 1512

Mr. REED changed his vote from "aye" to "no."

Mr. APPLEGATE and Mr. RIDGE changed their vote from "no" to "aye."

So the amendments en bloc were rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 6 printed in House Report 102–314.

AMENDMENTS EN BLOC OFFERED BY MR. ALLARD

Mr. ALLARD. Mr. Chairman, pursuant to the rule, I offer amendments en bloc.

The CHAIRMAN. The Clerk will designate the amendments en bloc.

The text of the amendments en bloc is as follows:

Amendments en bloc offered by Mr. ALLARD:

Page 60, line 17, after "by this Act," insert the following: "and subject to the limitations set forth in subsection (e),".

Page 61, after line 15, insert the following:

(e) With respect to the Havasu and Imperial Wilderness areas designed by section 111(a) of this Act, no rights to water of the Colorado are reserved, either expressly, impliedly, or otherwise.

The CHAIRMAN. Under the rule, the gentleman from Colorado [Mr. ALLARD] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

Does the gentleman from California [Mr. LEHMAN] rise in opposition to the amendment?

Mr. LEHMAN of California. Yes, Mr. Chairman.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes in opposition to the amendment.

The Chair recognizes the gentleman from Colorado [Mr. ALLARD].

Mr. ALLARD. Mr. Chairman, I offer amendments en bloc today to prevent a Federal reserve water right created in the California Desert Protection Act from interfering with the Colorado River Compact. The amendment I have today has been voted on by this body before. It was passed in the Arizona Wilderness Act of 1990.

Mr. Chairman, this amendment has been taken word for word from that provision. This amendment applies to the same refugee areas, the Imperial and the Havasu refuge areas. It has an unintended consequence not brought to our attention until after the full committee. The only difference is this bill affects the California side of the Colorado River which divides these same refuge areas.

Mr. Chairman, this is an important issue. I know it was not the intent of the sponsors to introduce a bill to this body that will undo the extremely complicated and fragile Colorado River Compact system. We must not let Federal reserve water rights take precedence over the Colorado River Compact worked out by California, Arizona, Nevada, Utah, New Mexico, Colorado, and Wyoming.

Mr. Chairman, the Committee on Interior and Insular Affairs in its report on H.R. 2889 states its intent that the bill would not affect water rights on the Colorado River, but the report is not legally binding. The report language offered by the committee after passing the Arizona bill recognized the fact that it does not have the law behind it. My amendment puts into law this clarification.

I hope the sponsors will view this as a friendly amendment.

Mr. Chairman, I yield 1 minute to the gentleman from Colorado [Mr. HEFLEY].

Mr. HEFLEY. Mr. Chairman, I thank the gentleman from Colorado [Mr. ALLARD] for yielding this time to me.

Mr. Chairman, I rise in support of the amendment offered by my friend, the gentleman from Colorado [Mr. ALLARD]. Mr. ALLARD's amendment clarifies the intent of Congress with respect to wilderness water rights for the Colorado River. This amendment is identical to one added to last year's Arizona Desert Wilderness Act. That law has now been embraced as boilerplate for the water law throughout the Western States.

Mr. Chairman, the Colorado River supplies water for the rest of the West. The Colorado is at the center of a body of law intended to safeguard the rights and needs of all. It is essential then that any legislation be neutral in its impact on the river or on the water compacts and water rights associated with it.

The amendment of the gentleman from Colorado [Mr. ALLARD] provides this safeguard in a way that builds on past precedent and improves the underlying bill, and I urge my colleagues to join me in voting for this amendment.

Mr. ALLARD. Mr. Chairman, I reserve the balance of my time.

Mr. LEHMAN of California. Mr. Chairman, I yield myself 1 minute.

Mr. Chairman, I am rising in opposition to the amendments en bloc offered by the gentleman from Colorado [Mr. ALLARD], and I understand the gentleman's statement, that he means this not as a harmful amendment to the bill. He is trying to clarify something.

Mr. Chairman, we are opposed on this side. We think the amendment is unnecessary, and we fear it could create problems that might not be anticipated right now.

The boundaries of the wilderness area in question were specifically drawn above the historic high-water mark just to make sure that there was no question as to whether the Colorado River would be involved. The lines were drawn above the high water mark.

The report language specifically states, and I quote from it:

> The Committee notes, with regard to this section on water rights, that boundaries of both of the Wildlife Refuge wilderness units designated in section 111 are above the historic high water mark of the Colorado River. Neither of these wilderness areas include any portion of the Colorado River. Therefore, the express reservation of water for wilderness purposes in section 608 does not affect the Colorado River, its water management or any compacts associated with it.

☐ 1520

Finally, the Colorado River is 100 percent appropriated whether we in California like that or not, and there is no water right there for the Federal Government to obtain. We have taken care of the problem in the legislation. The area in question is not included, and the report language adequately clarifies that.

Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Chairman, I appreciate what the gentleman from Colorado [Mr. ALLARD] is trying to do, and I understand why they are offering the amendment, but I must say that I think that in fact this amendment is somewhat mischievous as to what is really settled law with respect to the compact, and to suggest that somehow a Federal water right could be perfected in the lower basin and then somebody could go to the northern basin to perfect that water right is to stand the compact on its head. I would really raise the question with the gentleman that to pursue this amendment and lend that suggestion, whether it is in this bill or whether it is the question of that being opened up, raises a question, and I would ask him if he might reconsider.

We have worked with the gentleman. We recognize the concerns of all the parties to the compact. As the gentleman from California [Mr. LEHMAN] pointed out, the boundaries have been drawn in a very conservative fashion, recognizing there is no abutment to the Colorado River. I really raise this issue in all sincerity, that to suggest anybody in the southern basin could perfect a water right in any fashion where there is no water and then somehow go and deal with that in the north, I think the legislation speaks to that and I would hope the Members would oppose the amendment.

The CHAIRMAN. The time of the gentleman from California [Mr. MILLER] has expired.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 additional minute to the gentleman from California [Mr. MILLER].

Mr. ALLARD. Mr. Chairman, will the gentleman yield?

Mr. MILLER of California. I yield to the gentleman from Colorado.

Mr. ALLARD. Mr. Chairman, I would just like to point out to the gentleman from California that the language we have in this amendment is the exact same language that is in the Arizona Wilderness Act, and this particular language was a hard-fought compromise in 1990 when that language came through, and the same set of facts that applied in that period of time still apply at this time.

I think this is a very important amendment, and I would ask that the sponsor of the bill go ahead and accept the amendment. It is really a technical amendment.

Mr. MILLER of California. Mr. Chairman, reclaiming my time, I understand that.

The CHAIRMAN. The time of the gentleman from California [Mr. MILLER] has expired.

Mr. ALLARD. Mr. Chairman, I yield 1 minute to the gentleman from Arizona [Mr. RHODES.]

Mt. RHODES. Mr. Chairman, I thank the gentleman for yielding time to me.

The Imperial Havasu Refuge is astraddle the river. On the Arizona side of the river, the law specifically says that as to those refuges there is no Federal reserve water right in the Colorado River. If as to the California side of the two refuges we are silent except for report language, my concern is that we are lending confusion to the managers of those lands.

My concern also is having the report language refer to the historical high-water mark of the river. Those of us who live in both Arizona and California know that that river fluctuates both in terms of width and breadth and also

UMI

height frequently and historically, and the historical high-water mark of the river could well not be the historical high-water mark of the river once you Californians get over your drought and the river gets back to where it is supposed to be.

It simply seems to me that consistency calls for having the language defining the water rights or the lack of water rights of these two refuges be consistent on both sides of the river.

Mr. Chairman, I urge adoption of the Allard amendment.

The CHAIRMAN. The gentleman from Colorado [Mr. ALLARD] has 1 minute remaining, and the gentleman from California [Mr. LEHMAN] has 2½ minutes remaining.

Mr. LEHMAN of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I would just like to reiterate what Chairman MILLER suggested here. We do not mean any mischief on this side as far as what water rights are going to be under the legislation. There is a possibility of talking about this and trying to work it out. If you think the language on this side does some harm to you, let me just say that we are not willing at this time to accept the language that you have, not knowing what the impacts of it might be down the line.

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. LEHMAN of California. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Chairman, I would ask the gentleman from Colorado whether there are any areas of this wilderness in the bill that touch the Colorado River. The fact is that they do not, so that being the case, does the gentleman believe a wilderness could have a water right outside the wilderness boundaries?

That is what this is about. We are setting some precedents here in terms of granting water rights outside. A lot of people argue about water rights within a wilderness. Now, this language would suggest that the water rights of the wildness somehow go outside. This does not even touch the Colorado River.

I might say, with reference to the hard-fought Arizona water language, that we really did not have any debate at all on that particular portion of the water rights. It came back from the Senate. I was the manager, along with Congressman Udall. We accepted it. It was not necessary in the Arizona bill, and it is not necessary in this bill.

I think the mischief is that you are, I think, accidentally trying to create water rights outside of a wilderness that do not exist. We argue about them within. There is no reason to try to suggest there are water rights outside. We are not suggesting that, and we hope the gentleman from Colorado is not suggesting it.

Mr. ALLARD. Mr. Chairman, will the gentleman yield?

Mr. LEHMAN of California. I yield to the gentleman from Colorado.

Mr. ALLARD. The precedent has been set in the Arizona wilderness bill. We are just using the same language. We are even applying it to the same refuge area.

Mr. VENTO. Mr. Chairman, if the gentleman from California will yield further, yes, the precedent has been set. It is a bad precedent, and we ought not duplicate it here, because you are extending it outside the wilderness where there is no wilderness designation. It is a bad precedent, and we should not set it.

Mr. LEHMAN of California. Mr. Chairman, I would suggest that the gentleman is also setting a bad precedent for his own purposes in that if this were to pass, in future acts, if there were nothing done with respect to rivers outside a wilderness area, somebody might interpret that because nothing was done, there might be a right there, and that would certainly harm interests that were not intended to be harmed under this legislation.

Mr. Chairman, I urge a "no" vote on the amendment.

The CHAIRMAN. The gentleman from Colorado [Mr. ALLARD] has 1 minute remaining.

Mr. ALLARD. Mr. Chairman, I yield my remaining 1 minute to the gentleman from Utah [Mr. ORTON].

Mr. ORTON. Mr. Chairman, I rise in strong support of this amendment. It is designed to accomplish one simple but essential goal. It clarifies that the California Desert Protection Act has absolutely no impact on the carefully balanced compact which determines water rights in the Colorado River.

Water is absolutely essential to life for those of us who live in the arid west. Our agriculture, industry, and even the population density in our dry Western States could not exist without a very well-developed system to store, transport and efficiently utilize water. My own State of Utah is the second driest in the Nation. Water is our life blood and is an issue of overriding importance to us. I realize that it is hard for those of my colleagues from States with higher levels of precipitation to understand our overriding preoccupation with water.

Almost 40 years ago, the States in the Colorado River Basin finally arrived at an agreement on how the flow of the Colorado River would be utilized. This Colorado River Basin compact was enacted into law and has worked well in the years since. Like most water agreements, it is a very delicately balanced compromise between competing interests.

In the Western States there is never enough water. That is the reality we must always live with. So the water which is available must be clearly allocated among many competing uses.

What this amendment will do is simply ensure that the carefully crafted agreement among the Colorado River Basin States is not inadvertently upset by the legislation before us to designate wilderness in California.

This is a simple amendment which is identical to one which the House has placed in previous legislation. When the Congress enacted the Arizona wilderness bill in the last session, it included this identical provision. We are asking for nothing more than what has already been agreed to in the past to ensure that the rights to water in the Colorado are not affected by wilderness designation.

There is another important element of this issue which I hope all of my colleagues will consider. When the Congress enacted the Wilderness Act in 1964, and FLPMA in 1976, it created wilderness designation as a category or system of management of public lands. I can find no provision of either act which would create any water rights attached to public lands or being reserved to the Federal Government. Water rights lie within the jurisdiction of the separate States and must be reserved to the States, not preempted by the Federal Government. While water is perhaps more essential to those of us who live in areas where it is scarce, the question raised by claims of Federal reserved water rights is one which goes far beyond the arid public land States of the West. I would submit that ownership of water rights is vital to every State. Whether it is for municipal use, transportation, agriculture, industry, or recreation, the rights and responsibilities of the various States versus the Federal Government is a question which must be reserved to State statute.

I would urge all my colleagues to realize the true implications of this amendment and support it.

The CHAIRMAN. All time for debate has expired.

Mr. BLAZ. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentleman from Guam [Mr. BLAZ] is recognized for 5 minutes.

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from Wyoming [Mr. THOMAS].

Mr. THOMAS of Wyoming. Mr. Chairman, I thank the gentleman for his time.

There is no question for those of us who come from the arid public land States that there is nothing more important than water rights. There is nothing more important to us than having it clearly defined in the law where we stand in the future with regard to water. It has to do with the shifting of rivers, it has to do with the use of the boundary, a boundary of the wilderness or a park area. The shifting may change that. It has particular importance in the Colorado River where we have now congressionally approved compacts between the upper and the lower.

I think this amendment is simply designed to make it certain that we do not find ourselves in court wondering what the interpretation of the law would be, and I certainly stand in support of the amendment offered by the gentleman from Colorado [Mr. ALLARD].

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from Utah [Mr. HANSEN].

Mr. HANSEN. Mr. Chairman, I rise in strong support of the Allard amendment.

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from Colorado [Mr. ALLARD].

□ 1530

MR. ALLARD. Mr. Chairman, I would just summarize by quickly saying I think this is an important amendment. I think a precedent has been set prior to this time, and we need to continue it in order to honor it in this body. So I am going to ask for a yes vote on the Allard amendment.

Mr. OWENS of Utah. Mr. Chairman it is clear from the report language of the committee that there is no intention to effect a reserved water right to the Colorado River in this wilderness bill. The boundaries of the wilderness areas in the Imperial and Havasu National Wildlife Refuges next to the river do not even extend to the historic high water mark—a sure indication that no reserved water right is sought on the Colorado River.

That having been said, while there is no clear need for this amendment, I also do not see the harm in clarifying the committee's intent directly in the text of the bill. In any case, this legislation is not likely to emerge from the Senate without this language which mirrors the language the Senate added to the Arizona Wilderness Area last year for the same refuges on the other side of the Colorado River.

Nothing causes as much suspicion and consternation in the West, especially in Upper Basin States like Utah, as the possibility that rights under the Colorado River Compact might be affected. We can allay those fears simply by establishing that the intent of this bill was not to establish a Federal reserved water right on the Colorado. When proponents of wilderness, myself included, can make rational compromises, then I think we should. Even as I vote for this amendment, I want my colleagues to understand that I am in no way repudiating the Winters Doctrine and the importance of Federal reserved water rights to wilderness areas. I believe that wilderness is entitled to the water necessary to fulfill the purpose of its establishment. I am simply saying that we should, as much as possible, signal our willingness to work to calm fears and exhibit a spirit of compromise on issues this emotionally powerful.

Mr. BLAZ. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendments en bloc offered by the gentleman from Colorado [Mr. ALLARD].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. ALLARD. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 155, noes 274, not voting 5, as follows:

□ 1554

Mr. HYDE changed his vote from "no" to "aye."

So the amendments en bloc were rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 7 printed in House Report 102-314.

AMENDMENT OFFERED BY MR. DANNEMEYER

Mr. DANNEMEYER. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. DANNEMEYER: Page 61, line 7, after section 611 insert the following new section:

ECONOMIC IMPACT STATEMENT

SEC. 612. (a) Notwithstanding any other provision of this Act, lands in the State of California designated in sections 102, 402, and 501 of this Act shall not be designated as wilderness or established as a national park or monument unless—

(1) the Secretary has prepared an economic impact analysis with respect to each land designation;

(2) the Secretary determines, based on that analysis, that the environmental benefits of each land designation outweigh the economic costs of each land designation; and

(3) the Secretary publishes an economic impact statement describing the findings of that analysis.

(b)(1) The Secretary shall perform an economic impact analysis in accordance with this paragraph with respect to each land designation in sections 102, 402, and 501.

(2) An economic impact analysis under this paragraph shall include the following:

(A) The economic consequences of each land designation, including aggregate statistical data which indicates—

(i) identifiable and potential job losses or diminishments resulting from a designation,

(ii) identifiable losses or diminishments in the value of real property resulting from a designation; and

(iii) losses or diminishments in the value of business enterprises resulting from a designation.

(B) The effect that a designation will have on revenues received by the Federal Government or by State and local governments, including any revenue losses attributable to losses or diminishments in value described in clause (i).

(C) The effects that a designation will have on outlays by Federal, State, and local governments, including—

(i) effects on payments made pursuant to paragraph (1),

(ii) effects on expenditures required for Federal unemployment compensation, aid to families with dependent children, medicaid, and other Federal, State, and local programs,

(iii) the effect that a designation will have on the competitive position of any individual business or aggregate industry affected by a designation, determined jointly with the Secretary of Commerce, and

(iv) any other potential economic, budgetary, or ecological effects that the Secretary considers appropriate.

(c) Not later than one year after the date of enactment, the Secretary shall determine, based on the analysis performed under paragraph (2), whether the economic costs of each designation outweigh the environmental benefits of each designation.

(d) In implementing this Act with respect to each land designation in subsections 102, 402, and 501, the Secretary shall limit losses incurred by persons as a result of each land designation.

(e) The Secretary shall pay to any person who incurs an economic loss as a result of a land designation the amount of that loss, including—

(1) any diminishment in the value of tangible or intangible property, and

(2) any loss resulting from the loss or diminishment of a job.

(f) The Secretary shall issue regulations establishing procedures for obtaining payments under this subsection.

(g) A person may not recover any amount under this subsection for any de minimis or wholly speculative loss.

(h) Any denial by the Secretary of an application for payment under this subsection may be appealed in the appropriate Federal district court of the United States, including any determination by the Secretary that a person is ineligible for payment by reason of paragraph (3).

(i) Any person (including any State or local governmental entity) may intervene in any proceeding under this subsection for the purpose of assisting the Secretary in issuing payments under this subsection to individuals or businesses who suffer demonstrable loss as a result of a land designation.

The CHAIRMAN. Under the rule, the gentleman from California [Mr. DANNEMEYER] will be recognized for 5 minutes and a Member opposed will be recognized for 5 minutes.

Is the gentleman from California [Mr. LEHMAN] opposed to the amendment?

Mr. LEHMAN of California. I am, Mr. Chairman.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes.

The Chair recognizes the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this map to my left tells quite a story. The western United States is owned predominantly by the Federal Government. Government ownership of land in my State of California is about 46 percent of the 100 million acres.

These landgrabbers today want some more land, another 4.5 million acres.

Our world really is turned upside down, because we have an Endangered Species Act which has been in the law since 1973, which requires an environmental impact statement to determine whether or not we are going to list one of these critters on the list of endangered species.

In my State of California we have seen thousands of people in the lumber industry in northern California out of work because of the spotted owl. In my area of southern California, the Least Bell's bireo, a little bird, threatens the whole Santa Ana River flood control project.

There is nothing in this Endangered Species Act that gives any consideration to the impact on jobs and businesses and private property when we list one of these critters. I say it is high time in this country, Mr. Chairman, that we have a law which says that we should recognize jobs, and people, and businesses, and private property at least on the same basis as we recognize critters. What is more important in this world, people or animals?

Our world is turned upside down. The Environmental Party likes it that way. They want to preserve the creation, worship the creation rather than the Creator, and I say just the opposite should be the case.

All my amendment does is say that we have to prepare an economic impact statement in order to determine what the impact is going to be on jobs, on property and businesses if this law comes into existence.

When Members read the report on pages 70 and 71, it is uncertain as to what the cost is going to be. Now they have conveniently shunted aside any evaluation of the minerals under the ground. It so happens in my State of California that the mineral reserves are estimated at $360 billion.

Mr. ROHRABACHER. Mr. Chairman, will the gentleman yield?

Mr. DANNEMEYER. I yield to my friend from California.

Mr. ROHRABACHER. Mr. Chairman, let us note that in the middle of the worst drought in California history, 1.8 billion gallons of water were dumped into the ocean because of a bird nest on the Prado Dam. Things are topsy-turvy. The gentleman is right. We are putting more value on the life of small critters and things rather than on human life and the lifestyles of the people themselves.

I think that this body should have some reflection on the values that our legislation maintains in this country.

☐ 1600

Mr. DANNEMEYER. I thank my colleague for his comment.

Mr. Chairman, this economic impact statement that I ask be adopted would show that we in California lead all States in the production of asbestos, borates, portland cement, diatomite, calcined gypsum, construction sand and gravel, tungsten, yttrium, and rare earths.

We have over 40,000 people working in the mining industry in the State of California, about 20,000 of them are going to be put out of work.

Now, the unemployment rate in California today is 7.3 percent. That is a half a percentage point higher than the Nation.

We have been talking in this Chamber in the last few days about jobs creation. This bill is a Job Unemployment Act of 1991 waiting to be adopted.

Where in the world in the tender concern in the hearts of the Democrat leadership who are pushing this bill for the 20,000 people who are going to be put out of work in the mining industry in the State of California if this turkey becomes law?

I do not understand this at all, and this is the reason for this economic impact statement which would also show that each $1 million in mining output in the desert provides about 15.1 jobs, $334,000 plus of personal income, $28,000 in local tax revenues, $47,000 in State tax revenues, and $1.8 million overall to the southern California economy.

Gold production in the desert area is about 400,000 ounces in 1989.

We have 12 of 21 geothermal sites in California or in the desert that supply about 450,000 watts of power.

Mr. ROHRABACHER. Mr. Chairman, will the gentleman yield for a question?

Mr. DANNEMEYER. I yield to my colleague, the gentleman from California.

Mr. ROHRABACHER. Mr. Chairman, there has been a lot of talk in this body about which party represents the working men and women of America.

I would like to know how this proposal the gentleman is making today affects them.

The CHAIRMAN. The time of the gentleman from California [Mr. DANNEMEYER] has expired.

Mr. LEHMAN of California. Mr. Chairman, I yield myself 2 minutes.

Mr. Chairman, the other gentleman from California has talked here for 5 minutes about the Endangered Species Act. The Endangered Species Act is not in this bill. The Endangered Species Act is not affected by this bill, nor will it be affected by the gentleman's amendment.

No one who wants any level of protection, no matter how minimal it is on the California desert, could support the amendment of the gnetleman from California [Mr. DANNEMEYER].

The gentleman from California [Mr. LEWIS] did not have this provision in his substitute before us last week. Even in the substitute of the gentleman from California [Mr. LEWIS] the findings state:

> It is in the national interst that these wilderness areas be promptly designated as components of the National Wilderness Preservation system.

The purpose of this amendment is to make sure that they are never designated. It is an amendment to delay forever.

But what about the economic consequencies? It is not as if they had not been studied.

Again I quote from the U.S. Geological Survey:

> The prospects for future mineral discoveries in the Mojave are relatively poor. In the parlance of mineral resources, this does not appear to be an area of world calss deposits.

None of the 14 minerals identified by the Office of Technology Assessment of meeting the criteria for strategic minerals is produced anywhere in the Calfiornia desert conservation area.

The Mountain Pass Mine which produces 97 percent of the U.S. output of rare earth minerals is excluded from the boundaries of the Mojave Monument.

This idea that there are thousands of jobs lost is ludicrous. In 1990, the U.S. Department of Commerce statistics state there were 1,100 mining jobs in all of San Bernardino County, and understand that the mines in wilderness areas are protected. Understand that the other major ones have been taken out. Understand that when the national monument is created there will be many, many new jobs associated with that monument in its place.

Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I actually think in general in concept the idea of an economic impact statement has some merit, I do not believe it has any merit as applied to this particular bill for several reasons.

First of all, this bill has been around now for 5 years. This is the third Congress that has looked at this bill. We have had extensive hearings.

This proposal, this suggestion, has never been made at the committee level, has never been made at the subcommittee level, and frankly what an impact statement would be designed to review has been studied very thoroughly in the deliberations leading up to the floor consideration of this bill.

As the gentleman from California [Mr. LEHMAN] has indicated, mines within the boundaries of this legislation are protected.

This does not put people out of work. This does not cost jobs. This bill simply does not deal with any of the things that the author of the amendment suggested that it would do.

The fact of the matter is that this is a proposal in terms of Death Valley, in terms of Johua Tree, in terms of the East Mojave. It has been looked at carefully. It has been analyzed carefully.

The economic consequences of these provisions have been evaluated and analyzed and studied and all the representations that have been made have been found wanting.

I would say that if there was a serious suggestion to have an economic impact statement, that that could have been made at any point in time during the 5 years in which this bill was considered, but to bring it up today at the 11th hour on the House floor and to support it with a range of arguments that have been repudiated thoroughly throughout this process simply is an effort again to delay extraordinarily important desert protection legislation that Congress should act upon positively today.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in opposition to the amendment.

The Dannemeyer amendment providing for an economic impact statement may sound appealing on the surface, but I assure my colleagues that this would lead us into unchartered waters.

The bottom line of this amendment as an example states that the Secretary of the Interior shall pay to any person who incurs any economic loss as the result of land designation the amount of that loss.

Then it goes on to include all sorts of tangible and intangible losses, an appeals process. This could subject the Federal Government to unreasonable and unlimited costs.

Where is the CBO estimate on this?

The fact of the matter is they have been arguing in the courts and the Supreme Court for years about whether the classification or zoning of land is an authority of the National Government or any local government.

This particular amendment makes a finding in favor of the landowners. It comes down and states that classification changes must be paid for by the Federal Government.

The truth of the matter is that we have very little understanding of many of the impacts of the environmental classification and the species. The fauna and flora. We ought to do a much better job regarding the science of such ecosystems.

This is not a debate about the Endangered Species Act. This is simply a stumbling block that is attempting to be placed in the way of the designation of the California Desert Act, and as such it should be defeated.

Mr. BLAZ. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. Mr. Chairman, I thank my colleague, the delegate from Guam [Mr. BLAZ] for yielding to me.

I want to say one more time to the Members that I appreciate the very fine job the gentleman has done in helping to add some balance to this debate.

Mr. Chairman, it was suggested earlier by the gentleman from California [Mr. LEVINE] and others that I did not include an economic impact statement in my substitute.

Mr. Chairman, we do have economic impacts regarding this bill versus the substitute that I had before the House the other day. The Bureau of Land Management did give us a guesstimate. If H.R. 2929 became law, the cost would be somewhere between $290 and $610 million.

If our substitute had been implemented instead, the Bureau of Land Management suggested the spread might be between $45 and $170 million.

To say the least, there is a huge difference reflected in these estimates.

The guesstimates were that if H.R. 29 was implemented that the loss of jobs would be in the neighborhood of 20,000 jobs, versus less than 2,000 jobs in the substitute.

Indeed, this proposal is going to have a huge economic effect. Detailed economic impact analysis is appropriate for H.R. 2929 since it was not a product of a public process.

☐ 1610

Let me make the point in this way: Two organizations have very sizable holdings in this territory. The California Public Employees Retirement System has large holdings that they had planned to be developed for the benefit of retirees. Everybody admits that there is potential resource value that has not been evaluated or tapped.

The California Teachers Association has similar holdings. Their retirees are at risk without effective evaluation of the underlying resource potential here. To suggest that economic impact evaluation would not help them in their eventual decisions as to what is required for a trade of land, for example, is unreasonable.

These lands have great economic potential for the retired teachers of California and for the retired employees of California.

Mr. Chairman, are the ranking members suggesting that we should ask them to trade their land without an economic evaluation first? Certainly not.

Mr. DANNEMEYER is simply suggesting that, up front, such evaluation should be made because the studies, the detailed have not been done. The people who will lose if you do not accept this kind of approach are the people of California. A very significant number of the landholders are the retired former employees of the people of California.

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. I thank the gentleman for yielding.

Let me tell my colleagues just what my amendment would do. It would require the Secretary to determine that environmental benefits must outweigh economic losses or costs before land in the above sections can be designated. Now, that is a balance in our law that I think is missing in a very significant way today because what we have done—look at this map. At least a third of the western part of the United States is already in public ownership.

How much land is enough? How much land does the environmental party need before it satisfies its lust to take all land in private ownership and put it into public ownership?

Now, it may create a world where we have clean air and clean water in America, but I ask you one simple question: Where are the jobs going to be for the people of this country who want to work and make a living? Somebody has to watch out for these people, and that is what this amendment does. It just says there has got to be balance when we make these environmental decisions.

The CHAIRMAN. The time of the gentleman from Guam [Mr. BLAZ] has expired.

Mr. LEHMAN of California. Mr. Chairman, I move to strike the penultimate word.

Mr. Chairman, first of all, contrary to the presentation just made, there is no increase in the amount of Federal land owned under this legislation. The land that is being changed is having its designation changed, not its ownership. The Federal Government owns the land now, and the Federal Government will continue to own the land in the future. We are changing the way in which the land is managed.

The provisions in the bill allowing for acquisition on a case-by-case basis in the future provide for exchange of land. Again, there is not going to be a change in the value of land owned by the Federal Government, and probably not in the amount.

So that is not really an issue here. The CBO estimate of the cost of this legislation shows that it is negligible. As far as mining is concerned, it says:

> Loss of receipts from mining activities relative to current law, we do not expect the loss of receipts to the Federal Government from mineral leasing activities to be significant over the next 5 years.

The report shows zero, zero outlays for 1990, 1991, 1992, 1993, 1994, and 1995.

The costs here are not significant. The great cost is not acting to protect the desert. The great cost is to those of us in California and those around the country if we fail to act to save the desert now while we still have a chance.

Are we going to let amendments like this drive off the day of decision until it is too late to protect the endangered species? Until it is too late to protect the land from total degradation?

Or are we going to do it now while we still have a chance?

That is the issue. That is the heart of the matter.

Mr. Chairman, I yield to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. I thank the gentleman for yielding.

Mr. Chairman, the gentleman's amendment goes to a different direction; it has nothing to do with public ownership of land versus nonpublic. It has to do with how we conduct the policy on public lands, the designations. He is saying that the Secretary "shall pay to any person who incurs an economic loss as a result of land designation, that means zoning, the amount that that loss, including," and then he goes through all that. So he is on uncharted waters in terms of in fact committing the Congress and the U.S. Government to such payment.

The other thing the gentleman says is that we are going to turn over to the Secretary of the Interior the right to make the decision on how this land should be designated.

Well, Mr. Chairman, the reason that our committee has so many measures on the floor is because Congress has reserved to itself the right to make designations as to wilderness, as to parks and other uses of our land.

We do not give that job to the bureaucrats the unelected in this country. We think it is an important decision that ought to rest with Congress.

I do not care if it is done under an economic impact statement excuse or done on some other basis; in other words, Congress ought to be involved in the terms of making such decisions.

I think that that by itself is enough reason to vote "no" on this amendment. We should not transfer this unlimited power in the California desert to the Secretary of the Interior or to anyone else. We ought to make the decisions on the floor ourselves with regard to wilderness, with regard to parks and monuments. That is what we have been struggling to do this week, and I hope we will do so by defeating this poorly crafted amendment.

Mr. LEHMAN of California. Mr. Chairman, I yield to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. I thank the gentleman for yielding.

Mr. Chairman, in a nutshell this amendment is an amendment designed to kill desert protection. Let us be candid about what we are trying to do here.

This is an amendment that seeks to impose requirements on this legislation that simply cannot be met. It is impossible, it is simply impossible to quantify the educational, the scientific, the scenic, the historic, and natural values associated with preserving desert lands for future generations. That is the essence of this legislation.

One point on cost: Mr. LEWIS raises a number of cost figures. It is important to understand that CBO spells out $6 million in cost beyond those that are currently undertaken by the Federal Government in order to provide this type of desert protection.

For an additional $6 million a year, that is an extraordinary good deal for the American taxpayer, for the American citizen and those future taxpayer, for the American citizen and those future generations who will, I think, be pleased that this legislation is enacted into law.

Mr. LEHMAN of California. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from California [Mr. DANNEMEYER].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. DANNEMEYER. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 110, noes 316, not voting 8, as follows:

☐ 1638

Mr. GLICKMAN changed his vote from "aye" to "no."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 8 printed in House Report 102–314.

AMENDMENT OFFERED BY MR. NICHOLS

Mr. NICHOLS. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

> Amendment offered by Mr. NICHOLS: Page 61, line 17, insert "(a)" after "SEC. 609.
>
> Page 61, after line 19, insert the following:
>
> (b) EFFECTIVE DATE.—This section shall take effect in the fiscal year following the first fiscal year after the date of enactment of this Act in which Federal revenues are equal to or greater than Federal expenditures.

☐ 1640

The CHAIRMAN. Under the rule, the gentleman from Kansas [Mr. NICHOLS] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

Mr. LEHMAN of California. Mr. Chairman, I am opposed to the amendment.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes.

The Chair recognizes the gentleman from Kansas [Mr. NICHOLS].

Mr. NICHOLS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the Department of Interior already faces a budget shortfall of astronomical proportions. When I say astronomical, I mean approaching $8½ to $10½ billion. That may not seem like much here in Washington, but that is an awful lot of money to the citizens of this country.

To break that down, this means that the U.S. Department of the Interior already faces a $3 to $5 billion backlog of land acquisition—a $5 billion backlog in major repairs and construction—and a $375 million shortfall in their annual operations budget. Why are we proposing to spend more money than the department has?

We, as a nation, must learn fiscal responsibility. We are writing checks on a line of credit that long ago went bad—the pot of gold is empty. We have absolutely no right, no right whatsoever, to authorize any additional spending unless it is an urgent investment in the ongoing prosperity and well-being of the citizen taxpayers of this country. And that, my colleagues, is why I offer this amendment today.

I am not against protecting the very fragile and uniquely beautiful environment and ecosystem of the California desert. I have visited the area with my family. We have driven through Death Valley and marveled at the region.

I wholeheartedly understand the desire to add to the already existing expanses of protected desert wilderness in the California desert. However, now is not the time. Not with a record deficit of $269 billion this year alone. Not at a time when our Government needs to drastically reevaluate its spending practices. Not when the taxpayers of our Nation are frustrated by the political process that is supposed to be protecting them.

My amendment merely places a condition on the expenditures of funds for the enactment of this act until Congress is able to balance the budget.

All across America, families are having to carefully limit their spending for the upcoming holiday season, while Congress continues to spend like everyday is Christmas. Why can't this great body, full of so many honorable and distinguished Members, use good, sound judgment when it comes to spending money. The time to reduce spending is not some time in the future, it is now. . .

I urge you to vote "aye" on my balanced budget amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. LEHMAN of California. Mr. Chairman, I yield myself 1 minute.

This is not a balanced budget amendment. In fact, it has nothing to do with the balanced budget. All of the expenditures by the Park Service can continue to go on even with this amendment..

All the amendment affects is the ability of the Federal Government to enter into the land exchange after 1996 with the State teachers retirement system in California. Under this amendment none of those exchanges will be allowed to take place. Those exchanges are not going to cost the Federal Government any money.

As the bill states, property will be exchanged value for value and we will have an even playing field.

We have done that to ensure that the Federal Government does not lose any money and that the State teachers retirement system is held whole in its land holdings and so that we can consolidate the national monument.

This amendment will not pay them any money. It will place a hardship on the State teachers retirement system and do great damage to this bill.

Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in opposition to the Nichols so-called balanced-budget amendment. The fact of the matter is that almost all these lands that are being designated here are already managed by the Federal land management agencies, by the Park Service, by the Bureau of Land Management. So we are transferring some of these lands from the jurisdiction of the BLM to the Park Service. There may be some turf battles involved, but the fact of the matter is the money within the Department of the Interior can flow to the Park Service in these instances.

Likewise, they may, for instance, as we look at these designations, we are asking the BLM to manage some of the lands as wilderness area and releasing other lands from being managed as wilderness.

Furthermore the private land would be insignificant because most of this is public land.

I would challenge the gentleman's figures that he has on the chart concerning the backlog; the figure is closer to $3 billion. In any case the land acquisition funding is not based on a pot of gold. It is based on a pot of oil, offshore Continental Shelf receipts, the land-water conservation fund which are credited to the land-water acquisition programs which has over $7 billion available until appropriated.

Mr. NICHOLS. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Smoke and mirrors, Mr. Chairman. They say there will be no cost. What about the cost of the 20,000 jobs that will be lost?

I would hate to manage millions of dollars and millions of acres myself. The gentleman said it is all BLM land. I thought we were just talking about exchange of millions of acres of land that would come into this. Who is going to maintain that? Who is going to maintain the roads? Who is going to maintain the water? Who is going to maintain the rest of it?

We the taxpayers are going to do that. It is going to take this public land off the tax rolls.

What about the revenue from the mineral sources? The other side of the aisle and many Members on this side of the aisle are always looking for alternative fuel sources. What about the geothermal that will not be looked into because this bill only covers, as I understand it, existing lines, existing coverages.

Some of my friends say, I've got to protect my environment vote. My heart bleeds for them. How about protecting the people instead of their environmental vote?

Take a look at the map that was up here before. If Members on the east coast had to live with the amount of Government-owned land, I do not think they could stand it. Remember the four Congressmen that represent that area want "no" on 2929 and "yes" on this amendment.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute and 30 seconds to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I will just mention briefly that the common thrust of these amendments is to do one thing. It is to delay this bill so long that California desert protection will never occur. I do not know that there is a coordinated effort with regard to these amendments. I suspect there is not. But there is one common theme. It is delay, delay, delay until this basically cannot occur.

The other point that I just want to emphasize is that that the subcommittee chairman emphasized. We have gone to great lengths to protect the retired teachers of the States of California in this bill. The lands that are being exchanged are lands that are very important to the retired teachers in California. This provision would hurt California's retired teachers by blocking the exchange that has been very carefully worked out and that the State retired teachers and the public lands commission are strongly supporting.

I strongly urge a "no" vote on this amendment.

□ 1650

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. LEVINE of California. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Chairman, the House had a similar amendment before us when we were dealing with the Flint Hills Prairie Park. That amendment was defeated on a vote of 153 to 249. I think the House would do well to defeat this amendment on the same basis it defeated that amendment.

Mr. NICHOLS. Mr. Chairman, I yield 1 minute to the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Chairman, I appreciate the gentleman from California trying to make this my amendment by saying this is delay, delay, delay, delay, but I must point out that it is the gentleman from Kansas [Mr. NICHOLS] that brought the amendment and it is not a delay tactic. What it is is fiscal responsibility.

What we are saying is right now we cannot pay for the land that we have tried to acquire. I am told that the Park Service is in arrears right now $4 to $5 billion, trying to pay for the land they have already acquired. Since they cannot pay for it, land not only in this desert but in other areas of the country, this land cannot be used, it cannot be sold, nobody will use it. It is amazing to me that if we do not have the money now to pay for land, and we do not have the money, even if it is not true, I am just told that it is true, but even if it is not true, we do not have the money when we are talking about a $350 billion deficit, we do not have the money for this kind of action. All the gentleman is saying is we cannot do it until we have the money.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MILLER], the chairman of the full committee.

Mr. MILLER of California. Mr. Chairman, I would hope that we would reject this amendment. I think we should understand that what is happening in this legislation is that we seek for the most part the exchange of lands. There are very substantial private inholdings within the boundaries of this area. Many in the private sector would like to exchange those lands out. Their lands are not productive for any economic purpose. They are valuable from an environmental point of view, from a cultural point of view, from an anthropological point of view, but the fact is they have no economic value for that company, that holding. They believe they can trade those off for lands of economic value which they can then use, they can use in their endeavors to create jobs, to create economic activity. We will be able to put the park and the monument and others together for the purposes of better management.

So this makes sense all around. This is a win-win. This allows the private sector to go out and utilize its expertise and talents on those lands. It allows the public sector to have the most economical unit in order to run. This is a very foolish amendment.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] has 45 seconds remaining.

Mr. LEHMAN of California. Mr. Chairman, I yield myself the 45 seconds.

Again, this amendment has nothing to do with anything except some land that the State teachers' retirement system in California owns. It has nothing to do with purchasing any other land. The provisions of the bill allow that the State of California, the State lands commission, may exchange those lands with lands offered to it by the Federal Government after the year 1996. That is all we allow for in the bill.

The losers, if this amendment is going to pass, are going to be the State of California and the State teachers' retirement system in California, an innocent party. It is not going to be anything else and it is not going to be anyone else.

We have carefully worked out the compromise with the State lands commission and the state teachers' retirement system over months and months of work. This House should abide by that work at this time.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from Kansas [Mr. NICHOLS].

The question was taken; and the Chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. NICHOLS. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 133, noes 292, not voting 9, as follows:

□ 1713

Mr. MOODY change is vote from "aye" to "no."

Mr. JAMES and Mr. RAY changed their vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 10, printed in House Report 102–314.

AMENDMENT AS MODIFIED OFFERED BY MR. BLAZ

Mr. BLAZ. Mr. Chairman, I offer an amendment as modified.

The CHAIRMAN. The Clerk will designate the amendment as modified.

The text of the amendment, as modified, is as follows:

Amendment as modified; offered by Mr. BLAZ; instead of the matter proposed to be inserted, insert the following:

Page 65, after line 15, add the following new title:

TITLE VIII—MILITARY LANDS AND OVERFLIGHTS

SEC. 801. SHORT TITLE AND FINDINGS.

(a) SHORT TITLE.—This title may be cited as the "California Military Lands Withdrawal and Overflights Act of 1991".

(b) FINDINGS.—The Congress finds that—

(1) the Federal lands within the desert regions of California have provided essential opportunities for military training, research, and development for the Armed Forces of the United States and allied nations;

(2) alternative sites for military training and other military activities carried out on Federal lands in the California desert area are not readily available;

(3) while changing world conditions have lessened to some extent the immediacy of military threats to the national security of the United States and its allies, there remains a need for military training, research, and development activities of the types that have been carried out on Federal lands in the California desert area; and

(4) continuation of existing military training, research, and development activities, under appropriate terms and conditions, is not incompatible with the protection and proper management of the natural, environmental, cultural, and other resources and values of the Federal lands in the California desert area.

SEC. 802. WITHDRAWALS.

(a) CHINA LAKE.—(1) Subject to valid existing rights and except as otherwise provided in this title, the Federal lands referred to in paragraph (2), and all other areas within the boundary of such lands as depicted on the map specified in such paragraph which may become subject to the operation of the public land laws, are hereby withdrawn from all forms of appropriation under the public land laws (including the mining laws and the mineral leasing laws). Such lands are reserved for use by the Secretary of the Navy for—

(A) use as a research, development, test, and evaluation laboratory;

(B) use as a range for air warfare weapons and weapon systems;

(C) use as a high hazard training area for aerial gunnery, rocketry, electronic warfare and countermeasures, tactical maneuvering and air support; and

(D) subject to the requirements of section 804(f), other defense-related purposes consistent with the purposes specified in this paragraph.

(2) The lands referred to in paragraph (1) are the Federal lands, located within the boundaries of the China Lake Naval Weapons Center, comprising approximately 1,100,000 acres in Inyo, Kern, and San Bernardino Counties, California, as generally depicted on a map entitled "China Lake Naval Weapons Center Withdrawal—Proposed", dated January 1985, and filed in accordance with section 803.

(b) CHOCOLATE MOUNTAIN.—(1) Subject to valid existing rights and except as otherwise provided in this title, the Federal lands referred to in paragraph (2), and all other areas within the boundary of such lands as depicted on the map specified in such paragraph which may become subject to the operation of the public land laws, are hereby withdrawn from all forms of appropriation under the public land laws (including the mining laws and the mineral leasing and the geothermal leasing laws). Such lands are reserved for use by the Secretary of the Navy for—

(A) testing and training for aerial bombing, missile firing, tactical maneuvering and air support; and

(B) subject to the provisions of section 804(f), other defense-related purposes consistent with the purposes specified in this paragraph.

(2) The lands referred to in paragraph (1) are the Federal lands comprising approximately 226,711 acres in Imperial County, California, as generally depicted on a map entitled "Chocolate Mountain Aerial Gunnery Range Proposed—Withdrawal" dated November 1991 and filed in accordance with section 803.

SEC. 803. MAPS AND LEGAL DESCRIPTIONS.

(a) PUBLICATION AND FILING REQUIREMENT.—As soon as practicable after the date of enactment of this title, the Secretary of the Interior shall—

(1) publish in the Federal Register a notice containing the legal description of the lands withdrawn and reserved by this title; and

(2) file maps and the legal description of the lands withdrawn and reserved by this title with the Committee on Energy and Natural Resources of the United States Senate and with the Committee on Interior and Insular Affairs of the United States House of Representatives.

(b) TECHNICAL CORRECTIONS.—Such maps and legal descriptions shall have the same force and effect as if they were included in this title except that the Secretary of the Interior may correct clerical and typographical errors in such maps and legal descriptions.

(c) AVAILABILITY FOR PUBLIC INSPECTION.—Copies of such maps and legal descriptions shall be available for public inspection in the Office of the Director of the Bureau of Land Management, Washington, District of Columbia; the Office of the Director, California State Office of the Bureau of Land Management, Sacramento, California; the office of the commander of the Naval Weapons Center, China Lake, California; the office of the commanding officer, Marine Corps Air Station, Yuma Arizona; and the Office of the Secretary of Defense, Washington, District of Columbia.

(d) REIMBURSEMENT.—The Secretary of Defense shall reimburse the Secretary of the Interior for the cost of implementing this section.

SEC. 804. MANAGEMENT OF WITHDRAWN LANDS.

(a) MANAGEMENT BY THE SECRETARY OF THE INTERIOR.—(1) Except as provided in subsection (g), during the period of the withdrawal the Secretary of the Interior shall manage the lands withdrawn under section 802 pursuant to the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) and other applicable law, including this title.

(2) To the extent consistent with applicable law and Executive orders, the lands withdrawn under section 802 may be managed in a manner permitting—

(A) the continuation of grazing pursuant to applicable law and Executive orders where permitted on the date of enactment of this title;

(B) protection of wildlife and wildlife habitat;

(C) control of predatory and other animals;

(D) recreation (but only on lands withdrawn by section 802(a) (relating to China Lake));

(E) the prevention and appropriate suppression of brush and range fires resulting from nonmilitary activities; and

(F) geothermal leasing on the lands withdrawn under section 802(a) (relating to China Lake).

(3)(A) All nonmilitary use of such lands, including the uses described in paragraph (2), shall be subject to such conditions and restrictions as may be necessary to permit the military use of such lands for the purposes specified in or authorized pursuant to this title.

(B) The Secretary of the Interior may issue any lease, easement, right-of-way, or other authorization with respect to the nonmilitary use of such lands only with the concurrence of the Secretary of the Navy.

(b) CLOSURE TO PUBLIC.—(1) If the Secretary of the Navy determines that military operations, public safety, or national security require the closure to public use of any road, trail, or other portion of the lands withdrawn by this title, the Secretary may take such action as the Secretary determines necessary or desirable to effect and maintain such closure.

(2) Any such closure shall be limited to the minimum areas and periods which the Secretary of the Navy determines are required to carry out this subsection.

(3) Before and during any closure under this subsection, the Secretary of the Navy shall—

(A) keep appropriate warning notices posted; and

(B) take appropriate steps to notify the public concerning such closures.

(c) MANAGEMENT PLAN.—The Secretary of the Interior (after consultation with the Secretary of the Navy) shall develop a plan for the management of each area withdrawn under section 802 during the period of such withdrawal. Each plan shall—

(1) be consistent with applicable law;

(2) be subject to conditions and restrictions specified in subsection (a)(3);

(3) include such provisions as may be necessary for proper management and protection of the resources and values of such area; and

(4) be developed not later than three years after the date of enactment of this title.

(d) BRUSH AND RANGE FIRES.—The Secretary of the Navy shall take necessary precautions to prevent and suppress brush and range fires occurring within and outside the lands withdrawn under section 802 as a result of military activities and may seek assistance from the Bureau of Land Management in the suppression of such fires. The memorandum of understanding required by subsection (e) shall provide for Bureau of Land Management assistance in the suppression of such fires, and for a transfer of funds from the Department of the Navy to the Bureau of Land Management as compensation for such assistance.

(e) MEMORANDUM OF UNDERSTANDING.—(1) The Secretary of the Interior and the Secretary of the Navy shall (with respect to each land withdrawal under section 802) enter into a memorandum of understanding to implement the management plan developed under subsection (c). Any such memorandum of understanding shall provide that the Director of the Bureau of Land Management shall provide assistance in the suppression of fires resulting from the military use of lands withdrawn under section 802 if requested by the Secretary of the Navy.

(2) The duration of any such memorandum shall be the same as the period of the withdrawal of the lands under section 802.

(f) ADDITIONAL MILITARY USES.—(1) Lands withdrawn by section 802 may be used for defense-related uses other than those specified in such section. The Secretary of Defense shall promptly notify the Secretary of the Interior in the event that the lands withdrawn by this title will be used for defense-related purposes other than those specified in section 802. Such notification shall indicate the additional use or uses involved, the proposed duration of such uses, and the extent to which such additional military uses of the withdrawn lands will require that additional or more stringent conditions or restrictions be imposed on otherwise-permitted nonmilitary uses of the withdrawn land or portions thereof.

(g) MANAGEMENT OF CHINA LAKE.—(1) The Secretary of the Interior may assign the management responsibility for the lands withdrawn under section 802(a) to the Secretary of the Navy who shall manage such lands, and issue leases, easements, rights-of-way, and other authorizations, in accordance with this title and cooperative management arrangements between the Secretary of the Interior and the Secretary of the Navy. In the case that the Secretary of the Interior assigns such management responsibility to the Secretary of the Navy before the development of the management plan under subsection (c), the Secretary of the Navy (after consultation with the Secretary of the Interior) shall develop such management plan.

(2) The Secretary of the Interior shall be responsible for the issuance of any lease, easement, right-of-way, and other authorization with respect to any activity which involves both the lands withdrawn under section 802(a) and any other lands. Any such authorization shall be issued only with the consent of the Secretary of the Navy and, to the extent that such activity involves lands withdrawn under section 802(a), shall be subject to such conditions as the Secretary of the Navy may prescribe.

(3) The Secretary of the Navy shall prepare and submit to the Secretary of the Interior an annual report on the status of the natural and cultural resources and values of the lands withdrawn under section 802(a). The Secretary of the Interior shall transmit such report to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(4) The Secretary of the Navy shall be responsible for the management of wild horses and burros located on the lands withdrawn under section 802(a) and may utilize helicopters and motorized vehicles for such purposes. Such management shall be in accordance with laws applicable to such management on public lands and with an appropriate memorandum of understanding between the Secretary of the Interior and the Secretary of the Navy.

(5) Neither this title nor any other provision of law shall be construed to prohibit the Secretary of the Interior from issuing and administering any lease for the development and utilization of geothermal steam and associated geothermal resources on the lands withdrawn under section 802(a) pursuant to the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) and other applicable law, but no such lease shall be issued without the concurrence of the Secretary of the Navy.

(6) This title shall not affect the geothermal exploration and development authority of the Secretary of the Navy under section 2689 of title 10, United States Code, except that the Secretary of the Navy shall obtain the concurrence of the Secretary of the Interior before taking action under that section with respect to the lands withdrawn under section 802(a).

SEC. 805. DURATION OF WITHDRAWALS.

(a) DURATION.—The withdrawal and reservation established by this title shall terminate 15 years after the date of enactment of this title.

(b) DRAFT ENVIRONMENTAL IMPACT STATEMENT.—No later than 12 years after the date of enactment of this title, the Secretary of the Navy shall publish a draft environmental impact statement concerning continued or renewed withdrawal of any portion of the lands withdrawn by this title for which that Secretary intends to seek such continued or renewed withdrawal. Such draft environmental impact statement shall be consistent with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applicable to such a draft environmental impact statement. Prior to the termination date specified in subsection (a), the Secretary of the Navy shall hold a public hearing on any draft environmental impact statement published pursuant to this subsection. Such hearing shall be held in the State of California in order to receive public comments on the alternatives and other matters included in such draft environmental impact statement.

(c) EXTENSIONS OR RENEWALS.—The withdrawals established by this title may not be extended or renewed except by an Act or joint resolution.

SEC. 806. ONGOING DECONTAMINATION.

(a) PROGRAM.—Throughout the duration of the withdrawals made by this title, the Secretary of the Navy, to the extent funds are made available, shall maintain a program of decontamination of lands withdrawn by this title at least at the level of decontamination activities performed on such lands in fiscal year 1986.

(b) REPORTS.—At the same time as the President transmits to the Congress the President's proposed budget for the first fiscal year beginning after the date of enactment of this title and for each subsequent fiscal year, the Secretary of the Navy shall transmit to the Committees on Appropriations, Armed Services, and Energy and Natural Resources of the Senate and to the Committees on Appropriations, Armed Services, and Interior and Insular Affairs of the House of Representatives a description of the decontamination efforts undertaken during the previous fiscal year on such lands and the decontamination activities proposed for such lands during the next fiscal year including:

(1) amounts appropriated and obligated or expended for decontamination of such lands;

(2) the methods used to decontaminate such lands;

(3) amount and types of contaminants removed from such lands;

(4) estimated types and amounts of residual contamination on such lands; and

(5) an estimate of the costs for full decontamination of such lands and the estimate of the time to complete such decontamination.

SEC. 807. REQUIREMENTS FOR RENEWAL.

(a) NOTICE AND FILING.—(1) No later than three years prior to the termination of the withdrawal and reservation established by this title, the Secretary of the Navy shall advise the Secretary of the Interior as to whether or not the Secretary of the Navy will have a continuing military need for any of the lands withdrawn under section 802 after the termination date of such withdrawal and reservation.

(2) If the Secretary of the Navy concludes that there will be a continuing military need for any of such lands after the termination date, the Secretary shall file an application for extension of the withdrawal and reservation of such needed lands in accordance with the regulations and procedures of the Department of the Interior applicable to the extension of withdrawals of lands for military uses.

(3) If, during the period of withdrawal and reservation, the Secretary of the Navy decides to relinquish all or any of the lands withdrawn and reserved by this title, the Secretary shall file a notice of intention to relinquish with the Secretary of the Interior.

(b) CONTAMINATION.—(1) Before transmitting a notice of intention to relinquish pursuant to subsection (a), the Secretary of Defense, acting through the Department of Navy, shall prepare a written determination concerning whether and to what extent the lands that are to be relinquished are contaminated with explosive, toxic, or other hazardous materials.

(2) A copy of such determination shall be transmitted with the notice of intention to relinquish.

(3) Copies of both the notice of intention to relinquish and the determination concerning the contaminated state of the lands shall be published in the Federal Register by the Secretary of the Interior.

(c) DECONTAMINATION.—If any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is contaminated, and the Secretary of the Interior, in consultation with the Secretary of the Navy, determines that decontamination is practicable and economically feasible (taking into consideration the potential future use and value of the land) and that upon decontamination, the land could be opened to operation of some or all of the public land laws, including the mining laws, the Secretary of the Navy shall decontaminate the land to the extent that funds are appropriated for such purpose.

(d) ALTERNATIVES.—If the Secretary of the Interior, after consultation with the Secretary of the Navy, concludes that decontamination of any land which is the subject of a notice of intention to relinquish pursuant to subsection (a) is not practicable or economically feasible, or that the land cannot be decontaminated sufficiently to be opened to operation of some or all of the public land laws, or if Congress does not appropriate a sufficient amount of funds for the decontamination of such land, the Secretary of the Interior shall not be required to accept the land proposed for relinquishment.

(e) STATUS OF CONTAMINATED LANDS.—If, because of their contaminated state, the Secretary of the Interior declines to accept jurisdiction over lands withdrawn by this title which have been proposed for relinquishment, or if at the expiration of the withdrawal made by this title the Secretary of the Interior determines that some of the lands withdrawn by this title are contaminated to an extent which prevents opening such contaminated lands to operation of the public land laws—

(1) the Secretary of the Navy shall take appropriate steps to warn the public of the contaminated state of such lands and any risks associated with entry onto such lands;

(2) after the expiration of the withdrawal, the Secretary of the Navy shall undertake no activities on such lands except in connection with decontamination of such lands; and

(3) the Secretary of the Navy shall report to the Secretary of the Interior and to the Congress concerning the status of such lands and all actions taken in furtherance of this subsection.

(f) REVOCATION AUTHORITY.—Notwithstanding any other provision of law, the Secretary of the Interior, upon deciding that it is in the public interest to accept jurisdiction over lands proposed for relinquishment pursuant to subsection (a), is authorized to revoke the withdrawal and reservation established by this title as it applies to such lands. Should the decision be made to revoke the withdrawal and reservation, the Secretary of the Interior shall publish in the Federal Register an appropriate order which shall—

(1) terminate the withdrawal and reservation;

(2) constitute official acceptance of full jurisdiction over the lands by the Secretary of the Interior; and

(3) state the date upon which the lands will be opened to the operation of some or all of the public lands laws, including the mining laws.

SEC. 808. DELEGABILITY.

(a) DEFENSE.—The functions of the Secretary of Defense or the Secretary of the Navy under this title may be delegated.

(b) INTERIOR.—The functions of the Secretary of the Interior under this title may be delegated, except that an order described in section 807(f) may be approved and signed only by the Secretary of the Interior, the Under Secretary of the Interior, or an Assistant Secretary of the Department of the Interior.

SEC. 809. HUNTING, FISHING, AND TRAPPING.

All hunting, fishing, and trapping on the lands withdrawn by this title shall be conducted in accordance with the provisions of section 2671 of title 10, United States Code.

SEC. 810. IMMUNITY OF UNITED STATES.

The United States and all departments or agencies thereof shall be held harmless and shall not be liable for any injury or damage to persons or property suffered in the course of any geothermal leasing or other authorized nonmilitary activity conducted on lands described in section 802 of this title.

SEC. 811. EL CENTRO RANGES.

The Secretary of the Interior is authorized to permit the Secretary of the Navy to use until January 1, 1994, the approximately 44,870 acres of public lands in Imperial County, California, known as the East Mesa and West Mesa ranges, in accordance with the Memorandum of Understanding dated June 29, 1987, between the Bureau of Land Management, the Bureau of Reclamation, and the Department of the Navy. Such use shall be consistent with such Memorandum of Understanding and such additional terms and conditions as the Secretary of the Interior may require in order to protect the natural, scientific, environmental, cultural, and other resources and values of such lands and to minimize the extent to which use of such lands for military purposes impedes or restricts use of such or other public lands for other purposes. All military uses of such lands shall cease on January 1, 1994, unless authorized by subsequent Act of Congress.

SEC. 812. MILITARY OVERFLIGHTS.

(a) DISCLAIMER.—Nothing in this Act shall preclude low-level overflights by military aircraft, the designation of new units of special airspace, or the use or establishment of military flight telephone routes over the new units of the National Park or National Wilderness Preservation Systems (or any additions to existing units of such Systems) designated by this Act.

(b) MONITORING.—The Secretary of the Interior shall monitor the effects of aircraft overflights on the resources and values of the units of the National Park System and National Wilderness Preservation System designated or expanded by this Act, and on visitor enjoyment of such units. The Secretary of the Interior shall actively seek the assistance of the Secretary of Defense, consistent with national security needs, to resolve concerns related to such overflights and to prevent, eliminate, or minimize the derogation of resources and values and of visitor enjoyment associated with overflight activities.

The CHAIRMAN. Under the rule, the gentleman from Guam, Mr. BLAZ, will be recognized for 5 minutes, and a member opposed will be recognized for 5 minutes.

Does the gentleman from California [Mr. LEHMAN] oppose the amendment?

Mr. LEHMAN of California. I do not, Mr. Chairman.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] does not oppose the amendment.

The Chair recognizes the gentleman from Guam [Mr. BLAZ].

Mr. BLAZ. Mr. Chairman, I have an inquiry then. If the gentleman from California [Mr. LEHMAN] does not oppose the amendment, since 10 minutes are allowed for this amendment, do I have 10 minutes to dispense?

The CHAIRMAN. The Chair will then ask is there any opposition to the amendment?

Without objection, the gentleman from Guam [Mr. BLAZ] will be recognized for 10 minutes.

There was no objection.

Mr. BLAZ. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, prior to the debate I sought unanimous consent that the proposed Blaz amendment and the proposed vento amendment be merged. That was granted. My comments, then, relate to the Vento-Blaz formulation.

Mr. Chairman, I offer this amendment in conjunction with Mr. Vento because it has become apparent to all of us that the end of the cold war has, sadly, not opened an era of world peace. Rather, the fall of the Iron Curtain has revealed an array of regional conflicts which previously had been concealed by the global nature of the stand-off between the United States and the Soviet Union.

The Persian Gulf war is only one example of how these smaller conflicts can reach the United States with devastating impact. Or course, we all applaud the military cutbacks which the end of the cold war will permit. But we must not persuade ourselves that our military is superfluous. Indeed, if we learned anything from the Persian Gulf, it is that as our military becomes smaller, its training must be enhanced to assure that our vital interests as a Nation will be preserved.

As technologically advanced as our arsenal is, it will prove no more effective than a club and a rock, unless the personnel who man it have acquired the necessary skills. The California desert provides the area and the facilities where these skills can be honed. This amendment, which I join Mr. VENTO in offering, will help assure that when we must next send our young people in harm's way, they will be going forth fully prepared. It is the most that we can do for our brave men and women in uniform, and it is the least that should be expected of us as a Nation.

I urge all my colleagues in the House to support this amendment.

Mr. Chairman, it is my understanding since some of my colleagues on both sides would like some time, that I am now prepared to yield time to those who wish time. But before I yield to the gentleman who is standing, let me say I mentioned last week and I mentioned today again this gentleman absolutely enjoyed working with the gentleman from Minnesota [Mr. VENTO], the gentleman from California [Mr. LEHMAN], and the gentleman from California [Mr. MILLER], and the gentleman from California [Mr. LEVINE] as well.

☐ 1720

Mr. Chairman, I yield 2 minutes to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in support of this amendment. As modified by the gentleman from Guam under his unanimous-consent request, the new Vento-Blaz amendment is similar to my own amendment, which is made in order under the rule.

Mr. Chairman, this amendment would add to the bill provisions related to continued military use by the Navy of more than 1.3 million acres of Federal lands in the California desert and continued low-level overflights by military aircraft of other areas covered by the bill.

The amendment is similar to a bill—H.R. 3565—which I introduced last month and that was cosponsored by Chairman MILLER of the Interior Committee and the gentlemen from California, Mr. LEHMAN and Mr. LEVINE. It is also similar to a bill, sponsored by our colleague from Maryland, Mrs. BYRON, that the House passed in 1987 but on which the Senate did not complete action.

The lands covered by this amendment have been used by the Navy for many yuears and for a variety of important purposes. Past withdrawals for military use have expired—and under the Engle Act such withdrawals in peacetime can be renewed only by congressional action such as this amendment.

The amendment would add a new title, title VIII, to the bill. It would renew the military withdrawal of the China Lake Naval Weapons Center and the Chocolate Mountain Aerial Gunnery Range and would also authorize continued military use of certain other lands in Imperial County, CA, by the Navy.

The Subcommittee on National Parks and Public Lands, which I chair, held a hearing on these provisions on November 5, and this Vento-Blaz amendment includes some revisions made in response to suggestions by the administration.

For example, the amendment would delete from the Chocolate Mountain withdrawal 640 acres, as proposed by the Interior Department, to accommodate mineral exploration. At the hearing, the Defense Department indicated that this was acceptable to them. Similarly, language related to possible recreational use of the withdrawn lands has been narrowed so that it applies only to China Lake—again, as suggested by the Interior Department.

In the same way, this Vento-Blaz amendment includes language related to military overflights that is based on administration suggestions at that same hearing. That language would add to H.R. 2929 a provision stating that nothing in the bill is to be construed as precluding low-level military overflights of lands covered by the bill or as prohibiting either the designation of new units of special airspace of the establishment of military flight training routes over the lands covered by the bill.

Mr. Chairman, provisions related to overflights are not actually a necessary part of this or any bill designating wilderness areas or to provide for adding lands to the National Park System. Such designations, by themselves, do not have any direct effect on low-level overflights, civilian or military,

which are regulated by other existing laws and policies.

However, because some have argued that enactment of legislation like H.R. 2929 could have such a direct effect on existing patterns of military overflights, I think adding language to clarify this matter may be helpful—and that is what this amendment does.

In summary, Mr. Chairman, this amendment will assure continued military use of the important China Lake and Chocolate Mountain areas, and will clarify that the designation of other California desert lands as wilderness or National Park System areas will not by itself block continued military overflights of those lands. I urge adoption of the amendment.

Mr. BLAZ. Mr. Chairman, I have an inquiry at this point. I must admit that I did not hear what was said at the beginning. Do I have 5 minutes or do I have 10 minutes?

The CHAIRMAN. There was no Member rising in opposition. The gentleman from Guam [Mr. BLAZ] had 10 minutes, and he has 3½ minutes remaining.

Mr. BLAZ. Mr. Chairman, in that case, I yield 2 minutes to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Chairman, I would like to have the Members of the House consider that, if they think there is no cost in H.R. 2929, when they come to pay for their parks and recreation on the east coast, think about where the money is going to come from. It is all going to California.

Mr. Chairman, I would like to thank the gentleman from Guam [Mr. BLAZ]. Not many people know General BLAZ. He, as a boy, came from Guam, and looked at the 9th Marine Regiment and said, "I think I can do that." Well, General BLAZ grew up to lead the 9th Marine Regiment and is very noteworthy in his attempts in what he is trying to do.

However, Mr. Chairman, I would like to point out some shortfalls. I rise in support of the amendment of the gentleman from Guam [Mr. BLAZ], but opposed to H.R. 2929.

The amendment of the gentleman from Guam [Mr. BLAZ] does a lot of different things. One of the points in the whip notice is it says 30 years for renewals. It is actually 15 years, as combined, as I understand it, with Mr. VENTO'S. One of the things with the gentleman from Minnesota [Mr. VENTO] is the El Centro ranges that go out in 1994. Those are the ranges where I, as a pilot, Jonathan Livingston Seagull trained on Inky Barley Pitty Baggage Rakey's Litter. That is where we drop our practice bombs, and I know that they can request a renewal, but then they have to support and requisition an environmental-impact statement, and the Navy has to give a report of decontamination.

Mr. VENTO. Mr. Chairman, will the gentleman yield?

Mr. CUNNINGHAM. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Chairman, I would just point out that this is because they had not made a formal request under the Engel Act. We have no illusions about anything, and these are standard procedures under the Engel Act, as is the 15 years.

Mr. Chairman, I thank the gentleman from California [Mr. CUNNINGHAM] for yielding.

Mr. CUNNINGHAM. Mr. Chairman, 15 years is not my point. It is that they phased out in 1994, and that this training is critical. This is where our young pilots train from the training squadrons, and without that we are lost. If my colleagues want to cut the military, they want them well equipped, well trained, well, there needs more in this amendment. We also need buffer zones around.

Mr. BLAZ. Mr. Chairman, I yield 1 minute to the gentlewoman from Maryland [Mrs. BYRON].

Mrs. BYRON. Mr. Chairman, let me thank the gentleman from Guam [Mr. BLAZ] and the gentleman from California [Mr. CUNNINGHAM] who has just spoken from the well.

Mr. Chairman, I have been assured by the Department of Defense that by 1994, that is adequate time for them to get the request in for a continuation of the use of those areas.

Let me say to my colleague, the gentleman from Guam [Mr. BLAZ] who serves on both the Committee on Armed Services and the Committee on Interior and Insular Affairs with me, and also to the gentleman from Minnesota [Mr. VENTO], chairman of the Subcommittee on National Parks and Public Lands, that I want to thank him for putting the language of a bill that I had passed by this body in 1987. Once again DOD was here in November to testify in a hearing that we had, and the testimony was that they stated at the time with a modification of the gentleman's amendment it met all of their concerns and, therefore, they are in favor of the amendment as drafted.

As my colleagues know, we spent a great deal of time on Friday discussing this amendment. My colleagues from California, Top Gun CUNNINGHAM, and I had a discussion, but I think this amendment answers the questions that DOD was concerned about.

Mr. LEHMAN of California. Mr. Chairman, I move to strike the last word, and I will only take 30 seconds. I just want to get on the record the answer to two questions.

I ask the gentleman from Guam, "Mr. BLAZ, are the land withdrawal provisions in your amendment the ones the Navy wants?"

Mr. BLAZ. Mr. Chairman, will the gentleman yield?

Mr. LEHMAN of California. I yield to the gentleman from Guam.

Mr. BLAZ. Yes, it is.

Mr. LEHMAN of California. And is the overflight language which is put forth in the amendment the overflight language that the Defense Department has asked for?

Mr. BLAZ. Yes, it is.

Mr. LEHMAN of California. Mr. Chairman, I thank the gentleman from Guam for his good work in this area.

Mr. BLAZ. Mr. Chairman, I move to strike the last word on my own amendment.

The CHAIRMAN. The gentleman from Guam is recognized for 5 minutes.

Mr. BLAZ. Mr. Chairman, I yield to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. Mr. Chairman, I appreciate the gentleman from Guam [Mr. BLAZ] yielding this time to me.

Mr. Chairman, the amendment presented by the gentleman from Guam and the gentleman from Minnesota is very helpful to some of the concerns that we have about the military mission that is so critical to this country's role in the world. The National Training Center for the Army and the Marine Corps base at Twentynine Palms were very fundamental to the kind of training that caused us to be so successful in our venture in the Middle East. I know that the gentleman presenting this amendment and the Department of Defense feel very strongly that this amendment does not solve all of the problems involved.

I have a letter dated November 21 of this year to the chairman of the Committee on Armed Services that says:

> DEAR MR. CHAIRMAN: We oppose the California Desert Protection Act, 2929, and support the California Public Lands Wilderness Act, H.R. 3066. Adoption of amendments to H.R. 2929 expected to be offered by Congressman VENTO and Congressman BLAZ would address defense concerns relating to military overflight, the National Training Center and land withdrawals, but H.R. 2929 still would not address the following needs.

They list three critical needs which have been previously addressed in the RECORD. Can we carry forward the training mission that is so vital to the future of our national defense H.R. 2929 is in effect?

The answer to that according to the Secretary of Defense is no.

So, Mr. Chairman, while I rise in support of the amendment of the gentleman from Guam [Mr. BLAZ], let us state clearly for the record that we have not met the challenge of meeting the tremendous potential of this region. Our ability to defend ourselves and to move forward in our support of freedom throughout the world, depends on resolving these issues.

☐ 1730

Mr. BLAZ. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendments en bloc, as modified, offered by the gentleman from Guam [Mr. BLAZ].

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

The amendments en bloc, as modified, were agreed to.

The CHAIRMAN. It is now in order to consider amendment No. 12 printed in House Report 102–314.

AMENDMENT OFFERED BY MR. DELAY

Mr. DELAY. Mr. Chairman, I offer an amendment made in order under the rule.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. DELAY:

Page 65, after line 15, add the following new title:

TITLE VIII—REQUIREMENT FOR LAND DISPOSAL UPON LAND ACQUISITION

LAND DISPOSAL UPON LAND ACQUISITION

SEC. 801. Within one year of acquiring any non-Federal land or interest therein for any purpose of this Act, the Secretary shall dispose of all right, title, and interest in and to a quantity of Federal lands equal in value to the non-Federal land or interest acquired, as determined by the Secretary.

The CHAIRMAN. Under the rule, the gentleman from Texas [Mr. DELAY] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

Mr. LEHMAN of California. Mr. Chairman, I am opposed to the amendment and would ask for the time.

The CHAIRMAN. The gentleman from California [Mr. LEHMAN] will be recognized for 5 minutes.

The Chair now recognizes the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, although our operating deficit currently stands at $412 billion, H.R. 2929 requires the Federal Government to spend even more money for the management and acquisition of land. This is simply fiscally irresponsible.

The Federal Government already owns approximately one-third of all of the land in the United States. We certainly do not need more. More importantly, we cannot afford it.

The Bureau of Land Management [BLM] estimates that there are 828,000 acres of non-Federal land included in the land covered by the conservation and protection provisions of H.R. 2929. Using current appraisal data and mapping the area by value, BLM has estimated that the value of these 828,000 acres of land ranges from a low of $180 million to a high of $500 million. In addition, the total of all administrative costs and clearances could exceed $49 million. These are not insignificant amounts of money which we would have to spend if this bill were passed.

Furthermore, as these figures provided by the National Park Service show, the NPS currently has a total shortfall of $8.38 to $10.38 billion; $3–$5 billion of this shortfall is in land it is authorized to acquire and has not yet paid for. It also has a shortfall of $5 billion in major facility repair and construction costs, and needs $375 million for annual park operations. It is unbelievable that some Members of this body are supporting H.R. 2929, a bill which will only add to the National Park Service's debt and burden it with additional land it will not be able to care for.

H.R. 2929 would also add to the Federal backlog of land it owes. Most people do not realize that the State of California is still negotiating for 51,000 acres of land that were part of its original statehood grant and have not yet been received. How can we even consider acquiring more of California's land before we have paid off our decades-old debt?

Even more outrageous is the fact that H.R. 2929 delays payment for the acquisition of land until after the budget agreement expires. The supporters of this bill know that we do not have the money or enough California land to pay for what it requires and are blatantly trying to avoid following the rules that this House passed to try to stem the growth of the deficit. The bill instead establishes the California desert lands credit account in the amount of the appraised value of the remaining land which has not been accounted for, with the intent to pay for it after October 1, 1995. If this is not a sign of fiscal irresponsibility then I don't know what is.

I am offering an amendment which will curb these fiscal excesses. My amendment will require the Federal Government to sell land of an equal value in exchange for acquiring additional land. If the land in question is considered truly vital for the public good and the Federal Government feels it necessary to acquire it, there must be some other less valuable piece of land which the Government could exchange for it. This will serve to keep the Government from purchasing more and more land which it cannot pay for.

I am merely asking that we maintain an equilibrium. I am not asking that we get rid of land, just that we have no net gain of Federal land so as not to continue to plunge further into debt. I urge you to support my amendment as an act of fiscal responsibility.

Mr. Chairman, I reserve the balance of my time.

Mr. LEHMAN of California. Mr. Chairman, I yield myself such time as I may consume, and I rise in opposition to the amendment.

Mr. Chairman, I think that Members should be aware of the ramifications of this. It is hard to take this amendment too seriously due to the enormous impact it might have beyond the bill we are talking about today.

The requirement that we sell off Federal land whenever we acquire any Federal land, as written in this amendment, would impact all the 50 States, not just the State of California vis-a-vis the actions we take in the California desert. If we acquire land with respect to the desert, we would have to sell land anywhere in the United States, not just in the vicinity of the desert.

Again we have required in the bill, in the exchange provisions, that there be a value-for-value trade at the time each exchange is made. Where there is Federal land available and where we need to acquire Federal land from the State teachers or in the amendment that the gentleman from California [Mr. MILLER] will offer in a couple of minutes, from Catallas, we will be able to do so by trading for other Federal land of equal appraised value somewhere else. The requirement placed here would make it virtually impossible to carry out the purposes of the act.

Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. The Chair will state that the gentleman from Texas [Mr. DELAY] has 1 minute remaining, and the gentleman from California [Mr. LEHMAN] has 3½ minutes remaining.

Mr. DELAY. Mr. Chairman, I will just quickly use my remaining 1 minute.

Mr. Chairman, I appreciate what the chairman of the subcommittee is saying, but it is obvious that they do not want to stop here. They want to increase the bank of Federal lands in this country. The fiscal irresponsibility embodied in this bill is truly astounding. How much clearer can it be?

Proponents of the Desert Protection Act claim that the land would be paid for through the exchange, as the subcommittee chairman says. However, there is only 550,000 acres of Federal land available in California for disposal, and H.R. 2929 will require the acquisition of 828,000 acres. To pay for all that land through equal exchange, California would have to be given Federal land outside the State, which means California would end up owning land in Oklahoma or New York, it is that crazy. Obviously this would not be a very good solution.

I am just saying that we should not be increasing the bank of Federal land in this country if we do not have the money for it. We can sell land if we want more land, but we should sell land in an equivalent amount.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I rise in opposition to the amendment.

The amendment provides a solution where no problem exists. California has no problem in terms of the exchanges because there is Federal land in California which can provide the exchanges to block up and provide for the conservation units in the California desert. This reaches out and grabs into every 1 of the 50 States. You could have a 100-acre exchange in California and lose land in Minnesota or Washington or someplace else. The truth of the matter is that there is no great Federal grab that is going on. Our Nation has tried throughout its history to provide lands for homesteads, for schools, and for other purposes.

☐ 1740

The lands that remain here are the lands that nobody wanted. These were considered the wastelands.

We see special value in these lands. We want to take and preserve them for the parks, for the wilderness, and other areas in this country for future generations. This is our American heritage. Let us try and hold it together.

Mr. LEHMAN of California. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Chairman, I would just say that the President had a policy of no new net wetlands. This is a sort of a no new net national park.

If we create the Mojave National Park, then we have to give back land out of the Grand Tetons. And if we want to expand Yellowstone to protect the park, we can give back some of Colorado, the Colorado National Park. Or if we want to expand Yosemite, we can give back Fire Island.

The bill provides for the exchange of lands between the private sector and the public sector. That is what the legislation does. For this amendment to come along is just ludicrous at this point, to suggest that somehow this is a workable policy or that this will save the taxpayers money.

These lands are there. They are there to be exchanged. For the gentleman from the State of Texas, which has so much RTC property, he ought to be happy that the California State teachers retirement system is even thinking of bidding on RTC properties down the road.

Mr. LEHMAN of California. Mr. Chairman, I yield myself such time as I may consume.

I think the amendment is seriously flawed from a practical aspect. The requirement that Federal lands be disposed of within 1 year is totally impractical and in fact would have serious consequences right now when there is so much real estate on the market. It is flawed. We have worked out the problems in this bill with respect to exchange. I ask for a no vote on the amendment.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas [Mr. DELAY].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. DELAY. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 49, noes 379, not voting 6, as follows:

☐ 1801

Mr. HEFLEY and Mr. ROSTENKOWSKI changed their vote from "aye" to "no."

Mr. SMITH of Texas changed his vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENTS, EN BLOC AS MODIFIED, OFFERED BY MR. MILLER OF CALIFORNIA

Mr. MILLER of California. Mr. Chairman, I offer amendments en bloc.

The CHAIRMAN. The Clerk will report the amendments en bloc.

The Clerk read as follows:

Amendments en bloc, as modified, offered by Mr. MILLER of California:

Page 7, lines 1 and 2, strike "seven hundred and thirty" and insert in lieu thereof "three hundred and eighty".

Page 13, line 14, move section 102(25) to page 8, line 10, and renumber all the remaining wilderness areas in section 102 in sequential order.

Page 16, line 2, strike "twenty-eight thousand eight hundred and twenty" and insert in lieu thereof "twenty-nine thousand five hundred and eighty".

Page 16, lines 3 through 8, strike "two maps" and everything that follows through line 8, and insert in lieu thereof "a map entitled 'Kelso Dunes Wilderness—Proposed 1', dated October 1991, a map entitled 'Kelso Dunes Wilderness—Proposed 2', dated May 1991, and a map entitled 'Kelso Dunes Wilderness—Proposed 3', dated September 1991, and which shall be known as the Kelso Dunes Wilderness.".

Page 16, line 21, strike "forty-eight acres" and insert in lieu thereof "three hundred and sixty-eight acres".

Page 17, line 6, strike "forty-five thousand six hundred and eighty acres" and insert in lieu thereof with "forty-six thousand four hundred and sixty acres".

Page 17, line 15, strike "three hundred", and insert in lieu thereof "four hundred".

Page 18, line 6, strike "twenty-five", and insert in lieu thereof "five".

Page 19, line 16, strike "five hundred and eighty", and insert in lieu thereof "two hundred and forty".

Page 20, lines 7 through 11, strike "two maps" and everything that follows and insert in lieu thereof "a map entitled 'Old Woman Mountains Wilderness—Proposed 1', dated May 1991 and a map entitled 'Old Woman Mountains Wilderness—Proposed 2', dated October 1991, and which shall be known as the Old Woman Mountains Wilderness.".

Page 25, line 23, strike "five hundred and forty", and insert in lieu thereof "eight hundred".

Page 25, line 25, strike "dated May 1991", and insert in lieu thereof "dated October 1991".

Page 33, line 12 and 13, strike "a map entitled 'Havasu Wilderness'" and insert in lieu thereof "a map entitled 'Havasu Wilderness—Proposed'".

Page 33, lines 18 and 19, strike "a map entitled 'Imperial Refuge Wilderness'", and insert in lieu thereof "two maps entitled 'Imperial Refuge Wilderness—Proposed " and 'Imperial Refuge Wilderness—Proposed 2,'".

Page 33, line 20, strike "known as Imperial Wilderness" and insert in lieu thereof "known as Imperial Refuge Wilderness".

Page 40, line 7, strike "dated May 1991 or prior" and insert in lieu thereof "dated October 1991 or prior".

Page 44, line 8, strike "service" and insert in lieu thereof "services".

Page 48, line 23, strike "in a right-of-way identified in paragraph (1)" and insert "in the Southern California Edison Company validly issued Eldorado-Lugo Transmission Line right-of-way and Mojave-Lugo Transmission Line right-of-way".

Page 49, line 14, strike "replacement" and insert "upgraded".

Page 49, line 23, strike "Eldorado rights-of-way" and insert in lieu thereof "Eldorado rights-of-way and Mojave right-of-way".

Page 50, line 3, strike "in the Mojave right-of-way".

Page 55, line 3, strike "six hundred" and insert "seven hundred".

Page 55, lines 12 and 13, strike "ninety-four thousand five hundred acres" and insert in lieu thereof "ninety-five thousand fifty-six acres".

Page 55, line 16, strike "dated September 1991 or prior" and insert in lieu thereof "dated October 1991 or prior".

Page 55, line 19, strike "dated September 1991 or prior" and insert in lieu thereof "dated October 1991 or prior".

Page 64, line 5, strike "October 1, 1995" and insert "October 1, 1996".

Page 26 lines 17 through 23; page 26, strike lines 11 through 19; page 27, strike lines 3 through 9; and redesignated the paragraphs in section 102 accordingly.

Page 31, line 20, insert "(a)" after "Sec. 108.".

Page 31, line 23, insert ", except for those areas provided for in subsection (b)," after "Act".

Page 32, after line 5, insert the following new subsection:

(b) Subject to valid existing rights, the Federal lands identified on maps as "Avawatz Mountains Wilderness—Proposed", dated May 1991; "South Avawatz Wilderness—Proposed", dated May 1991; and two maps entitled "Soda Mountains Wilderness—Proposed 1", dated May 1991, and "Soda Mountains Wilderness—Proposed 2", dated January 1989, are hereby withdrawn from disposition under the public lands laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and form operation of the Geothermal Steam Act of 1970.".

Page 65, lines 5 and 6 and insert in lieu thereof the following:

EXCHANGES

SEC. 611. (a) Upon request of the Catellus Development Corporation (hereafter in this section referred to as "Catellus"), the Secretary shall enter into negotiations for an agreement or agreements to exchange Federal lands or interests therein on the list referred to in subsection (b)(2) of this section for lands of Catellus or interests therein which are located within the boundaries of one or more of the wilderness areas or park units designated by this Act.

(b) Within six months after the date of enactment of this Act, the Secretary shall send to Catellus and to the Committees a list of the following:

(1) Lands of Catellus or interests therein (including mineral interests) which are located within the boundaries of the wilderness areas or park units designated by this Act.

(2) Lands, wherever located, under the Secretary's jurisdiction to be offered for exchange, in the following priority:

(A) Lands, including lands with mineral and geothermal interests, which have the potential for commercial development but which are not currently under lease or producing Federal revenues.

(B) Federal lands managed by the Bureau of Reclamation that the Secretary determines are not needed for any Bureau of Reclamation project.

(C) Any public lands that the Secretary, pursuant to the Federal Land Policy and Management Act of 1976, has determined to be suitable for disposal through exchange.

(c)(1) If an agreement under this section is for (A) an exchange involving lands outside the State of California, (B) more than 5,000 acres of Federal land or interests therein in California, or (C) Federal lands in any State valued at more than $5,000,000, the Secretary shall provide to the Committees a detailed report of such land exchange agreements.

(2) All land exchange agreements shall be consistent with the Federal Land Policy and Management Act of 1976.

(3) Any report submitted to the Committee under this subsection shall include the following:

(A) A complete list and appraisal of the lands or interests in land proposed for exchange.

(B) A complete list of the lands, if any, to be acquired by the United States which contain any hazardous waste, toxic waste, or radioactive waste which requires removal or remedial action under Federal or State law, together with the estimated costs of any such action.

(4) An agreement under this subsection shall not take effect unless approved by a joint resolution enacted by the Congress.

(d) The Secretary shall provide the California State Lands Commission with a 180-day right of first refusal to exchange for any federal lands or interests therein, located in the State of California, on the list referred to in subsection (b)(2). Any lands with respect to which a right of first refusal is not noticed within such period or exercised under this subsection shall be available to Catellus for exchange in accordance with this section.

(e) On January 3, 1996, the Secretary shall provide to the Committees a list and appraisal consistent with the Federal Land Policy and Management Act of 1976 of all Catellus lands eligible for exchange under this section for which an exchange has not been completed. With respect to any of such lands for which an exchange has not been completed by October 1, 1996 (hereafter in this section referred to as "remaining lands"), the Secretary shall establish an account in the name of Catellus (hereafter in this section referred to as the "exchange account"). Upon the transfer of title by Catellus to all or a portion of the remaining lands to the United States, the Secretary shall credit the exchange account in the amount of the appraised value of the transferred remaining lands at the time of such transfer.

(f) Catellus may use the credit in the exchange account to bid, as any other bidder, for any property real, personal, or mixed, wherever located, owned or controlled by the United States, including in a corporate capacity or as a receiver, conservator, or similar fiduciary capacity to be sold in accordance with the applicable laws and regulations of the Federal agency or instrumentality, or any element thereof, offering such property for sale. Upon approval by the Secretary in writing, the credits in Catellus's exchange account may be transferred or sold in whole or in part by Catellus to any other party, thereby vesting such party with all the rights formerly held by Catellus. The exchange account shall be adjusted to reflect successful bids under this section or payments or forfeited deposits, penalties, or other costs assessed to the bidder in the course of such sales.

(g)(1) The Secretary shall not accept title pursuant to this section to any lands unless such title includes all right, title, and interest in and to the fee estate.

(2) Notwithstanding paragraph (1), the Secretary may accept title to any subsurface estate where the United States holds title to the surface estate.

(3) This subsection does not apply to easements and rights-of-way for utilities or roads.

(h) In no event shall the Secretary accept title under this section to lands which contain any hazardous waste, toxic waste, or radioactive waste which requires removal or remedial action under Federal or State law unless such remedial action has been completed prior to the transfer.

(i) For purposes of the section, any appraisal shall be consistent with the provisions of section 206 of the Federal Land Policy and Management Act of 1976.

(j) As used in this section, the term "Committees" means the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

Mr. MILLER of California (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from California?

There was no objection.

The CHAIRMAN. Under the rule, the gentleman from California [Mr. MILLER] will be recognized for 10 minutes and the gentleman from Guam [Mr. BLAZ] will be recognized for 10 minutes.

The Chair recognizes the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, it is my understanding that the amendment that we are now offering has no opposition. There is no controversy to the amendment. We will quickly move and hopefully pass this by a voice vote and then we will go to a vote immediately on final passage. That is my understanding from the other side of the aisle. Is that correct?

Mr. BLAZ. Mr. Chairman, if the gentleman will yield, that is correct.

Mr. MILLER of California. Mr. Chairman, I offer these en bloc amendments. They are mainly technical amendments to the bill that have been worked out with the minority and the majority of the staffs of the subcommittee. I would hope the Members would support them.

Mr. LEWIS of California. Mr. Chairman, will the gentleman yield?

Mr. MILLER of California. I yield to my colleague, the gentleman from California.

Mr. LEWIS of California. Mr. Chairman, I appreciate my colleague yielding to me.

Mr. Chairman, as I understand the amendment, it is designed to address certain public employee lands in order that those lands might be disposed of in a way that at least the author of the amendment deems to be appropriate. Is that correct?

Mr. MILLER of California. That is correct.

Mr. LEWIS of California. The point of this amendment that does concern me is that there are very sizable numbers of acres of land in the territory that we are dealing with here in this bill in which a combination of two very important groups of public employees have significant investments.

The Members should know that in this case the California Teachers' Association has very sizable investments in thousands of acres of land. The teachers have investments by way of their retirement funds in thousands of acres of lands, invested because they hoped they would be kept for various natural resources to benefit their retirees.

There is a process whereby those lands will be dealt with.

As I understand, this amendment deals with public employees who have a similar investment in acres of land. They invested those retirement dollars in order to hope for future potential resources that might be discovered. So I have a couple of questions in connection with that.

The provisions that relate to the teachers indicate that the teachers get a buyout after the year 2000 for whatever is left in their credit exchange account, as I understand it.

Mr. MILLER of California. Should the money be appropriated; that is correct.

Mr. LEWIS of California. Should the money be appropriated—I do not think there is any doubt about that, is there?

Mr. MILLER of California. The teachers do not doubt it; the gentleman is correct.

Mr. LEWIS of California. The State teachers get a buyout after the year 2000 for any amount left in their credit account, and I am asking, do the public employees have such a right?

Mr. MILLER of California. That is correct. That is in the body of the bill.

Mr. LEWIS of California. I am not sure it is correct. My understanding is that the teachers have that right, but the public employees do not have that right.

Mr. MILLER of California. Mr. Chairman, I cannot hear the gentleman.

Mr. LEWIS of California. It is my understanding that the teachers have that right, but the public employees' language does not provide them with that right; they have a different disposal mechanism.

Mr. MILLER of California. That is correct.

Mr. LEWIS of California. The public employees, as I understand it, can exchange for public lands outside the State of California, is that correct?

Mr. MILLER of California. That is provided that it is approved by the Congress.

Mr. LEWIS of California. It is my understanding that the State teachers cannot—they cannot exchange lands outside the State of California under this bill.

Mr. MILLER of California. That is at their request; the gentleman is correct. They have requested that they not be provided lands outside of California.

Mr. LEWIS of California. Well, Mr. Chairman, I appreciate the gentleman responding to my questions. I will ask for my own time and then comment on the amendment on my own time.

Mr. Chairman, I thank the gentleman.

Mr. BLAZ. Mr. Chairman, I yield myself such time as I may consume, and I yield to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. Mr. Chairman, I take this time because I believe a very important problem continues to exist with the bill.

Mr. Chairman, one of the complications of this bill that is very, very important to the citizens of California, but particularly important to retired former employees in California, is the fact that this bill has not settled the potential erosion of very significant investments for the retired teachers and the retired public employees in our State.

I had planned a motion to recommit in order to have a thorough and extensive discussion of this matter, but I am not sure that the House is either patient enough to put up with more dialog on this bill or that all that time is necessary. The points I wish to make now are pretty fundamental.

A wilderness package was put together that provided for 2.3 million acres of wilderness land and minimized these conflicts. If it had been enacted, it would have become the largest wilderness area in the continental United States.

□ 1810

That bill did not begin to create problems that might erode the future retirement benefits of former public employees of our State. As of this moment, the California Teachers Association literally owns nearly 300,000 acres of land in the territory that would be put in a wilderness area under H.R. 2929. Those lands were purchased because of their considered judgment about future retirement potential from the natural resources that can be tapped over time.

The teachers were somewhat ahead of the game. Some time ago they recognized the tremendous potential and resource value in those lands.

Looking around the scene, the investment advisers for the public employees said, "I wonder why the teachers are investing in all that land out there?" After they got a lot of advice and counsel from highly paid experts, they came to the conclusion it was because the teachers saw a tremendous profit potential there.

The public employees said, "How can we possibly take advantage of a similar circumstance for our retired employees?" Well, there was not very much land left that had huge investment potential. So they looked around in the private sector. It turned out, lo and behold, that the Santa Fe Railroad had an investment corporation that held hundreds of thousands of acres of land in this same territory.

What happened? The public employees bought 20 percent of the Santa Fe Railroad's property firm. Can you imagine that? Now, why would the public employees do that? Well, simply because they were looking for the investment potential in terms of America's natural resources in that very land.

They both were negotiating with the public commission that was drafting the bill which I offered earlier as a substitute. That bill excluded most of these territories, so that the teachers and the public employees could take advantage of that speculation for their future retirees' benefit.

In this bill, we give them a beg and a promise. We kiss them on the cheek, and we say, "Hey, we are your friends. We will give you a promise about the future. We will trade that land off. But remember, friend, you teachers, you retired employees, you are our constituents. We got the votes, we will tell you what to do." So they forced some of their leadership to sign off in a haphazard fashion to a solution that is not a solution at all.

There is huge investment potential here that can cause retired employees and retired teachers in our State to hope that they will be able to keep up with inflation from those investments. This bill will totally undermine that future potential.

It is important that the Members know that this bill, H.R. 2929, does create unnecessary problems for retired teachers and retired public employees in our State. That is the reason I was asking for an "aye" vote the other day on our substitute. It is one of the many substantive reasons why we ought to vote "no" on this bill on final passage.

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the subcommittee chairman, the gentleman from California [Mr. LEHMAN].

Mr. LEHMAN of California. Mr. Chairman, the facts here ought to be very clear. There is a difference between the land owned by the old Santa Fe Land Co. and the land owned by the California State retired teachers.

Over 100 years ago, the Federal Government gave land to the State of California, land that no one else wanted, including the Federal Government, for the purposes of education. The State of California turned the land over to State teachers, and it ended up in their retirement system.

It was a land grant over 100 years ago from the Federal Government, far different from the situation with Catellus, the successor to the Santa Fe Land Co., which 1 year ago was invested in by CALPERS, the California Public Employee Retirement System. Now, this bill has been around for over 5 years, and it has been around the House, and this issue, in a form very similar to what it is today.

They made that investment 1 year ago, a 20-percent investment in Catellus.

They could sell that land tomorrow, just like they could sell any investment, but the obligation of the Federal Government here with respect to the two, I believe, is quite different. The State teachers system did not select their lands on the basis of any plan as the gentleman suggested. They received those lands as a grant from the National Government when California was admitted as a State. And all during the 100 years, the teachers retirement system has held that land, they have not sought to develop that land in any manner whatsoever. We have worked this out. I ask for a "no" vote.

Mr. BLAZ. Mr. Chairman, may I inquire how much time remains?

The CHAIRMAN. The gentleman from Guam [Mr. BLAZ] has 5 minutes remaining, and the gentleman from California [Mr. MILLER] has 5 minutes remaining.

Mr. BLAZ. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. THOMAS].

Mr. THOMAS of California. I thank the gentleman for yielding.

I just think it is kind of telling that what we have in this amendment is an offering for a land exchange. We had an amendment defeated earlier, in which people who had paid their own money privately invested in the land were going to be forced from the land even if they were unwilling sellers.

They were going to be forced from the land because the gentleman from California, the chairman of the committee, has said there was a constitutional provision which would allow the Government to take the land and give them what the Government thought was reasonable compensation.

Mr. Chairman, I think it is ironic that the company that was mentioned in this amendment is the successor to the railroad which the Government gave the land to as an inducement for it to build the railroad.

What the chairman is engaged in is taking the public's land, which was given to a private corporation as a stimulus to build the railroad and which has been held over the years and has accumulated value, and now they have a special amendment to allow them to exchange that land, some of it valuable, some of it less valuable, for other land, some of it valuable, some of it less valuable, rather than using another approach. It just seems to me that for all of the arguments about the encroachment of corporations, of individuals, and of rights, that most ironic amendment offered today is the fact that the public-used land to induce growth through a private company, and here we are coming full circle with an amendment which will bribe these folks with yet more land.

It was public land, should be public land, and you are going to use public land to buy them out.

Mr. MILLER of California. Mr. Chairman, I yield 30 seconds to the author of the bill, the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. I thank the gentleman for yielding.

I think, for the record, in light of the comments we have just heard on a technical amendment that does not deal with a land exchange, but with regard to the land exchange the record should reflect, No. 1, the California Retired Teachers Association, in a letter to the committee on October 25, supports the bill. And the company that includes the public employees retirement investors, in a letter to the committee of November 13, states, "We fully support the amendment and would no longer oppose the bill if the amendment is adopted." Both TERS and the retired teachers are happy with the amendment and urge support for the bill.

Mr. BLAZ. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. I thank the gentleman for yielding.

Mr. Chairman, I rise only to make a final point regarding this measure.

I want to remind those Members who either may have forgotten or were not able to be here when we had the first discussion regarding this bill: There were four Members of Congress who stood at once as we began this debate. We represent the territory that we are dealing with in this bill. Together, the population they represent would make us the 23d largest State in the country.

☐ 1820

We represent territory that would make us the 29th State in terms of size, and yet as this bill went together the four Members who represent the territory, as well as the people they represent, were not consulted. In turn, those Members supported the substitute on the floor that was the result of almost 10 years of public dialog, 4 years of public hearings, and some 40,000 individual citizens' input.

Mr. Chairman, if we care about anything around here as a body, at least we should be willing to focus upon the Members who represent these districts.

The CHAIRMAN. The gentleman from California [Mr. MILLER] is recognized for 2 minutes.

Mr. MILLER of California. Mr. Speaker and Members of the House, perhaps the California delegation is giving the Members the finest Christmas present they could have received today because those of my colleagues who feared a powerful, unified delegation of 52 Members after reapportionment can now rest easy.

This bill has been attacked by my colleagues within the delegation and by those from without the delegation. They have tried numerous efforts today. My colleagues have voted every 10 minutes as they have attacked this bill, trying to lead us to believe that this is some kind of effort to create a park where a park is not justified.

The fact is over the last decade a park has been justified, and that is what all of the studies have found, and now we seek to implement it. We seek to implement it through the regular order. We seek to implement it through the hearings that were held, and the witnesses that were heard and the participation of all the members of our committee.

Now we come to the last noncontroversial amendment, an amendment that was asked for, and I cannot quite get this clear between my two colleagues whether we are doing too much for the teachers and these people or whether we are doing too little. That is not quite clear, but they asked for this amendment because they want to be able to exchange their lands out, and that is what we do in this bill which my colleagues have already voted on. This is just a technical amendment.

Mr. Chairman, I say to my colleagues, "One of these groups was given the lands when California became a State. Can't do much with the land. It's valuable from an environmental point of view, but it doesn't generate much income. They'd like to see if they can swap it out. The other is a private sector company that believes that they would like to swap their land out of the holdings of the monument so that they could see if they could become more productive on some other land because this land isn't terribly productive."

That is what we do, that is the regular order, that is what we have done in parks, and monuments and wilderness all over the country.

Mr. Chairman, I would urge my colleagues to support this amendment, there is no opposition to it, and then I would urge my colleagues to support the final passage of this legislation because this has been a long tortuous task, but is is clearly the right thing to do, and I urge an aye vote.

This amendment addresses concerns raised by the Catellus Development Corporation and the 950,000 members of the California Public Employees Retirement System.

Catellus and its stockholders, including the members of the California Public Employees Retirement System, own approximately 410,000 acres of land that would become inholdings within the park unit and monument areas designated in the California Desert Protection Act.

Mr. Chairman, using the numbers provided in the BLM's report inholding acquisition costs, the lands owned by Catellus are located in areas where land values range from $100 to $400 per acre. If we assume BLM's numbers are accurate, and some people including Catellus say they are high—this means the 410,000 acres of Catellus lands are worth from $41 to $164 million. Our amendment would allow Catellus to realize the value of these lands, while at the same time protecting the taxpayer's pocketbook.

The amendment is very similar to a provision included in the California Desert Protection Act to address concerns raised by the California State Lands Commission and the retired teachers in California.

The amendment directs the Secretary of the Interior to enter into land exchange negotiations with Catellus. The agreement would provide for the exchange of lands owned by Catellus for surplus nonrevenue producing Federal lands under the Interior Department's jurisdiction.

All land exchange agreements must be consistent with the Federal Land Policy and Management Act. Any land exchange agreement involving more than 5,000 acres of Federal land, any transaction valued at more than $5,000,000, or any exchange involving lands outside the State of California must be approved by a joint resolution of Congress.

Mr. Chairman, it is our hope that land exchanges will be successfully completed. However, if Catellus continues to own inholdings in the park units, and monument or wilderness areas after October 1, 1996, the Secretary is directed to establish a monetary credit account in the name of Catellus. The amount of the account shall be equivalent to the appraised value of the remaining inholdings. Catellus could then use this account to bid as any other bidder for excess or Federal property offered in a public sale.

Mr. Chairman, this amendment has the support of environmental organizations, as well as the California Public Employees Retirement System, and Catellus. It is an attempt to fairly deal with the largest inholder within the park, wilderness, and monument areas designated by this bill. The amendment allows the landowner to receive fair market value for its lands at the same time as it ensures that Federal taxpayers will receive fair market value for their public land. The exchange only occurs if Catellus wishes to give the Federal Government title to the Catellus lands.

Mr. BLAZ. Mr. Chairman, I am about to yield back the remaining time, but, before I do that, I just want to say to you that I appreciate more than I can express your indulgence and your courtesy to the gentleman from Guam.

Mrs. SCHROEDER. Mr. Chairman, I rise in support of the Vento-Blaz amendment to H.R. 2929, the California Desert Protection Act. The amendment is similar to H.R. 3565, which was referred jointly to the Committees on Armed Services and Interior and Insular Affairs.

This amendment withdraws 1.3 million acres of land from appropriation under the public land laws, allowing for its continued use for military purposes. The withdrawal for China Lake Naval Weapons Center in Inyo, Kern, and San Bernardino Counties and the Chocolate Mountain Aerial Gunnery Range in Imperial County would last for 15 years.

The area covered by the withdrawal meets the requirement of the Department of Defense for these two locations. Previous withdrawals of these lands for military purposes expired many years ago. The amendment also permits use by the Navy of the El Centro Ranges, also in Imperial County, until January 1, 1994.

The Vento-Blaz amendment also addresses the issue of military overflights. In section 812, the amendment clearly states that nothing in this bill precludes current or future military use of airspace. The section requires the Secretary of Interior to monitor the effects of overflights, and to work with the Secretary of Defense to prevent, eliminate, and minimize any adverse impact on resources, values, and visitor enjoyment caused by overflights.

This amendment is very similar to a bill passed by the House in the 100th Congress, H.R. 1548, and is modeled closely on the Military Lands Withdrawal Act of 1986, Public Law 99–606, 100 Stat. 3457–68. It has been slightly modified from the bill originally introduced this year, H.R. 3565, to address concerns raised by the Departments of Interior and Defense during hearings by the Interior Committee.

As chairwoman of the Armed Services Subcommittee on Military Installations and Facilities, I support the withdrawal of these lands from the protected California desert to allow for the continuation of military purposes set forth in the amendment. I salute the chairman of the National Parks and Public Lands Subcommittee, the gentleman from Minnesota [Mr. VENTO] and my colleague on the Armed Services Committee, the gentleman from Guam [Mr. BLAZ] for offering this amendment to address specific military concerns raised by the California Desert Protection Act.

Mr. BLAZ. Mr. Chairman, I yield back the balance of my time.

Mr. MILLER of California. Mr. Chairman, I yield back the balance of my time

Mr. LEHMAN of California. Mr. Chairman, I yield back the balance of our time.

The CHAIRMAN. The question is on the amendments en bloc, as modified, offered by the gentleman form California [Mr. MILLER].

The amendments en bloc, as modified, were agreed to.

The CHAIRMAN. The question is on the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mrs. KENNELLY) having assumed the chair, Mr. BARNARD, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2929) to designate certain lands in the California desert as wilderness, to establish the Death Valley, Joshua Tree, and Mojave National Parks, and for other purposes, pursuant to House Resolution 279, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the committee amendment in the nature of a substitute adopted by the Committee of the Whole? If not, the question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

NOT VOTING—1

Ridge

☐ 1845

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. GILMAN. Mr. Speaker, although I was present on the floor of the House, my vote was not recorded on rollcall No. 433, the Nichols amendment to H.R. 2929. Had my vote been recorded it would have been a "nay."

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN ENROLLMENT OF H.R. 2929, CALIFORNIA DESERT PROTECTION ACT OF 1991

Mr. LEHMAN of California. Madam Speaker, I ask unanimous consent that in the enrollment of H.R. 2929, the Clerk may correct cross-references, change section, subsection, and paragraph numbers, and make other necessary technical and conforming changes.

The SPEAKER pro tempore (Mrs. KENNELLY). Is there objection to the request of the gentleman from California?

There was no objection.

GENERAL LEAVE

Mr. LEHMAN of California. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on H.R. 2929, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2797

Mr. VOLKMER. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 2797.

The SPEAKER pro tempore (Mr. SHARP). Is there objection to the request of the gentleman from Missouri?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2540

Mr. DEFAZIO. Mr. Speaker, I ask unanimous consent that to have my name removed from cosponsorship of H.R. 2540.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

CEILING WITH RESPECT TO HEALTH EDUCATION ASSISTANCE LOANS

Mr. WAXMAN. Mr. Speaker, I ask unainmous consent to take from the Speaker's table the Senate bill (S. 2050) to ensure that the ceiling established with respect to health education assistance loans does not prohibit the provision of Federal loan insurance to new and previous borrowers under such loan program, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. LENT. Mr. Speaker, reserving the right to object, while I do not object, I make this reservation for the purpose of asking the gentleman from California [Mr. WAXMAN] if he will explain what is in this bill.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield?

Mr. LENT. I yield to the gentleman from California.

Mr. WAXMAN. Mr. Speaker, I thank the gentleman for yielding.

The purpose of S. 2050 is to authorize the Secretary of Health and Human Services to approve Federal loan insurance to new borrowers in the Health Education Assistance Loan [HEAL] Program. We have been advised by the Department that in the absence of legislation reauthorizing the HEAL Program for fiscal year 1992, the Department would be limited to insuring loans only to students who had previously received assistance. This would impose severe hardship upon students entering school who had depended upon these loans for their tuition. Legislation extending the HEAL Program has passed the House and is awaiting conference with the Senate. Although we anticipate swift resolution of the differences between House and Senate bills, this cannot occur until early next year. In the interim it is essential that the Department have sufficient authority to make new loans.

At the appropriate time, I will offer an amendment that will make a technical correction in the Senate-passed bill and authorize a small pilot program for training individuals in clinical pharmacology. If successful, this program can assist the Food and Drug Administration in attracting skilled scientific personnel to promote public health by improving the quality and speed of the drug approval process.

I know of no objection to the legislation.

Mr. LENT. Mr. Speaker, continuing my reservation, I rise in support of S. 2050, as amended. This legislation has been worked out with the Senate and includes the following two provisions.

An extension of the credit limit for the Health Education Assistance Loan [HEAL] Program for new borrowers. Since the Congress has not yet completed its work on the reauthorization of the health manpower programs contained in title VII of the Public Health Service Act, this provision is necessary to address an immediate problem. For students who are first time borrowers under the HEAL Program, current law only authorizes such loans through fiscal year 1991. This bill extends that authority for another year.

A provision to authorize $750,000 per year for fiscal year 1992–1996 for a pilot Clinical Pharmacology Training Program to be administered by the Food and Drug Administration. There is currently a shortage of trained clinical pharmacologists, which is hindering the development of new drugs. In addressing this need, it is particularly important to determine the feasibility of expanding clinical pharmacology programs into medical schools currently without such programs.

Mr. Speaker, I know of no objection to this bill.

Mr. LENT. Mr. Speaker, I withdrew my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2050

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. HEALTH EDUCATION ASSISTANCE LOANS.

Notwithstanding section 728(a) of the Public Health Service Act (42 U.S.C. 294a(a)), or any other provision of law, Federal loan insurance may be provided under subpart I of part C of the Public Health Service Act for loans to new and previous borrowers under such subpart in fiscal year 1992. With respect to fiscal year 1992, the ceiling referred to in such section 728(a) shall be $290,000,000, as provided for in the Act entitled an Act "Making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies, for the fiscal year ending September 30, 1992, and for other purposes".

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. WAXMAN

Mr. WAXMAN. Mr. Speaker, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. WAXMAN:

Strike all after the enacting clause and insert the following:

SECTION 1. HEALTH EDUCATION ASSISTANCE LOANS.

Notwithstanding section 728(a) of the Public Health Service Act (42 U.S.C. 294a(a)), or any other provision of law, Federal loan insurance may be provided under subpart I of part C of title VII of the Public Health Service Act for loans to new and previous borrowers under such subpart in fiscal year 1992. With respect to fiscal year 1992, the ceiling referred to in such section 728(a) shall be $290,000,000, as provided for in the Act entitled "An Act making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies, for the fiscal year ending September 30, 1992, and for other purposes.".

SEC. 2. PILOT PROGRAM IN CLINICAL PHARMACOLOGY.

(a) ESTABLISHMENT.—The Commissioner of Food and Drugs is authorized to award through a competitive bid process a grant for a pilot program for the training of individuals in clinical pharmacology at an appropriate medical school without such a program. Such grant shall be for the purpose of evaluating the extent to which such a program can contribute to an identifiable increase in the number of trained biomedical, scientific personnel in clinical pharmacology.

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated for fiscal years 1992 through 1996 $750,000 for each fiscal year to carry out this section.

Mr. WAXMAN (during the reading). Mr. Speaker, I ask unanimous consent that the amendment in the nature of a substitute be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment in the nature of a substitute offered by the gentleman from California [Mr. WAXMAN].

The amendment in the nature of a substitute was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed.

A motion to reconsider was laid on the table.

PERMISSION FOR COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY TO HAVE UNTIL MIDNIGHT, FRIDAY, DECEMBER 6, 1991, TO FILE SUNDRY REPORTS

Mr. BROWN. Mr. Speaker, I ask unanimous consent that the Committee on Science, Space, and Technology have until midnight, Friday, December 6, 1991 to file the following late reports: H.R. 191, Technology Transfer Improvements Act of 1991, H.R. 2941, Surface Transportation Research and Development Act of 1991, and, H.R. 3507, American Industrial Quality and Training Act of 1991.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

☐ 1850

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. SHARP). Pursuant to clause 5 of rule I, the Chair will now redesignate the time for further proceedings on suspension requests postponed on today and on the legislative day of Saturday, November 23, 1991. Such proceedings will be resumed later today.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 3595. An act to delay until September 30, 1992, the issuance of any regulations by the Secretary of Health and Human Services changing the treatment of voluntary contributions and provider-specific taxes by States as a source of a State's expenditures

VOL 137
PT 24
NO 26
1991
—
JA 3
1992
UMI

for which Federal financial participation is available under the Medicaid program and to maintain the treatment of intergovernmental transfers as such a source.

The message also announced that the Senate had passed a bill and joint resolution of the following titles, in which the concurrence of the House is requested:

S. 754. An act to provide that a portion of the income derived from trust or restricted land held by an individual Indian shall not be considered as a resource or income in determining eligibility for assistance under any Federal or federally assisted program; and

S.J. Res. 229. Joint resolution designating the month of May, 1992, as "National Trauma Awareness Month".

The message also announced that the Senate agrees to the Report of the Committee of Conference on the disagreeing votes of the two Houses on the amendment of the House to the amendment of the Senate to the bill (H.R. 1724) "An act to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary."

REPORT ON RESOLUTION WAVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 1724, EXTENSION OF NONDISCRIMINATORY TREATMENT TO CERTAIN COUNTRIES, EXTENSION OF UNEMPLOYMENT BENEFITS; AND CHEMICAL AND BIOLOGICAL WEAPONS CONTROL, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Ms. SLAUGHTER of New York, from the Committee on Rules, submitted a privileged report (Rept. No. 102–389) on the resolution (H. Res. 306) waiving all points of order against the conference report on the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2212, UNITED STATES-CHINA ACT OF 1991

Ms. SLAUGHTER of New York, from the Committee on Rules, submitted a privileged report (Rept. No. 102–390) on the resolution (H. Res. 307) waiving all points of order against the conference report on the bill (H.R. 2212) regarding the extension of most-favored-nation treatment to the products of the People's Republic of China, and for other purposes, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

CONFERENCE REPORT ON H.R. 1724, EXTENSION OF NONDISCRIMINATORY TREATMENT TO CERTAIN COUNTRIES, EXTENSION OF UNEMPLOYMENT BENEFITS: AND CHEMICAL AND BIOLOGICAL WEAPONS CONTROL

Ms. SLAUGHTER of New York. Mr. Speaker, by the direction of the Committee on Rules, I call up House Resolution 306 and, pursuant to House Resolution 294, ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 306

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary. All points of order against the conference report and against its consideration are hereby waived. The conference report shall be considered as having been read when called up for consideration.

The SPEAKER pro tempore. The gentlewoman from New York [Ms. SLAUGHTER] is recognized for 1 hour.

Ms. SLAUGHTER of New York. Mr. Speaker, for the purposes of debate only, I yield the customary 30 minutes to the gentleman from Tennessee [Mr. QUILLEN], pending which I yield myself such time as I may consume.

During consideration of this resolution all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 306 waives all points of order against the conference report on H.R. 1724 and against its consideration. The rule also provides that the conference report will be considered as having been read.

The House passed H.R. 1724 under suspension of the rules on October 8, 1991. The Senate, after enacting the Emergency Unemployment Compensation Act of 1991 without amendment, took up H.R. 1724 and added one amendment, to change the extended unemployment benefits.

Mr. Speaker, the Senate unemployment amendment provides all States with at least 13 weeks of extended unemployment benefits and provides reachback for all States. The program is shortened from July 4, 1992, the program would now expire June 13, 1992.

Last week, the House took up H.R. 1724, agreed to the Senate amendment and further amended the bill to add the text of four bills: H.R. 3347, repeal of the ban on importing Soviet gold coins; H.R. 3313, extension of MFN treatment to Estonia, Latvia, and Lithuania; H.R. 661, trade preference for the Andean region; and H.R. 3409, control of chemical and biological weapons act.

Mr. Speaker, the conference report is identical to the most recent House-passed version, with one exception. The conference report strikes certain provisions from the text of H.R. 3409, the chemical and biological weapons; the provisions that are removed are identical to provisions already enacted into law in Public Law 102–138, the State Department Authorization Act for fiscal year 1992.

Mr. Speaker, this is the customary rule for conference reports. I urge my colleagues to adopt the rule and move this important legislation forward.

Mr. QUILLEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentlewoman from New York [Mrs. SLAUGHTER] has ably described the rule.

This conference report contains a number of important trade provisions. Among other things, it extends most-favored-nation treatment to Hungrary and Czechoslovakia, repeals the ban on importation of Soviet gold coins, and provides for controls and sanctions against foreign persons and countries involved in the production and use of chemical and biological weapons.

The conference report also includes the Andean initiative to provide trade alternatives for the Andean nations of South America to combat illegal drugs. This initiative was proposed by the administration. I would like to note here, Mr. Speaker, that the administration does support this conference report.

Most importantly, Mr. Speaker, this conference report provides for modifications to the Emergency Unemployment Compensation Act of 1991 which the President recently signed. It replaces the three-tier benefit system of 6, 13, or 20 weeks of extended benefits in that legislation with a two-tier system. This new system provides all States with at least 13 weeks of extended unemployment benefits and 20 weeks for unemployed in the same 9 States plus Puerto Rico that would have received 20 weeks under the prior legislation.

Mr. Speaker, I support this rule so that the House may proceed with passage of the conference report.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana [Mr. JACOBS].

ADJOURNMENT TOMMYROT

(By unanimous consent, Mr. JACOBS was allowed to proceed out of order.)

Mr. JACOBS. Mr. Speaker, a few nights ago CBS rebroadcast some of Ed Sullivan's old programs, and they included Richard Burton in Camelot.

That, together with the nasty rumor that is going about whether the sun will rise on Wednesday of this week at adjournment, has brought out the poet in me.

Each evening between now and December,
Before you drift to sleep upon your cot,
Think back on all the tales that you remember,
About adjournment tommyrot.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1900

Mr. ROSTENKOWSKI. I submitted the following conference report and statement on the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary:

CONFERENCE REPORT (H. REPT. 102–391)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the amendment of the Senate to the bill (H.R. 1724) to provide for the termination of the application of title IV of the Trade Act of 1974 to Czechoslovakia and Hungary, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

SEC. 4. REPEAL OF THE PROHIBITION ON THE IMPORTATION OF SOVIET GOLD COINS.

Section 510 of the Comprehensive Anti-Apartheid Act of 1986 (22 U.S.C. 5100) is repealed.

TITLE I—EXTENSION OF NONDISCRIMINATORY TREATMENT TO ESTONIA, LATVIA, AND LITHUANIA.

SEC. 101. CONGRESSIONAL FINDINGS.

The Congress finds the following:

(1) The Government of the United States extended full diplomatic recognition to Estonia, Latvia, and Lithuania in 1922.

(2) The Government of the United States entered into agreements extending most-favored-nation treatment with the Government of Estonia on August 1, 1925, the Government of Latvia on April 30, 1926, and the Government of Lithuania on July 10, 1926.

(3) The Union of Soviet Socialist Republics incorporated Estonia, Latvia, and Lithuania involuntarily into the Union as a result of a secret protocol to a German-Soviet agreement in 1939 which assigned those three states to the Soviet sphere of influence; and the Government of the United States has at no time recognized the forcible incorporation of those states into the Union of Soviet Socialist Republics.

(4) The Trade Agreements Extension Act of 1951 required the President to suspend, withdraw, or prevent the application of trade benefits, including most-favored-nation treatment, to countries under the domination or control of the world Communist movement.

(5) In 1951, responsible representatives of Estonia, Latvia, and Lithuania stated that they did not object to the imposition of "such controls as the Government of the United States may consider to be appropriate" to the products of those countries, for such time as those countries remained under Soviet domination or control.

(6) In 1990, the democratically elected governments of Estonia, Latvia, and Lithuania declared the restoration of their independence from the Union of Soviet Socialist Republics.

(7) The Government of the United States established diplomatic relations with Estonia, Latvia, and Lithuania on September 2, 1991, and on September 6, 1991, the State Council of the transitional government of the Union of Soviet Socialist Republics recognized the independence of Estonia, Latvia, and Lithuania, thereby ending the involuntary incorporation of those countries into, and the domination of those countries by, the Soviet Union.

(8) Immediate action should be taken to remove the impediments, imposed in response to the circumstances referred to in paragraph (5), in United States trade laws to the extension of nondiscriminatory treatment (most-favored-nation treatment) to the products of those countries.

(9) As a consequence of establishment of United States diplomatic relations with Estonia, Latvia, and Lithuania, these independent countries are eligible to receive the benefits of the Generalized System of Preferences provided for in title V of the Trade Act of 1974.

SEC. 102. EXTENSION OF NONDISCRIMINATORY TREATMENT TO THE PRODUCTS OF ESTONIA, LATVIA, AND LITHUANIA.

(a) IN GENERAL.—Notwithstanding any provision of title IV of the Trade Act of 1974 (19 U.S.C. 2431 et seq.) or any other provision of law, nondiscriminatory treatment (most-favored-nation treatment) applies to the products of Estonia, Latvia, and Lithuania.

(b) CONFORMING TARIFF SCHEDULE AMENDMENTS.—General Note 3(b) of the Harmonized Tariff Schedule of the United States is amended by striking out "Estonia", "Latvia", and "Lithuania".

(c) EFFECTIVE DATE.—Subsection (a) and the amendments made by subsection (b) apply with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of the enactment of this Act.

SEC. 103. TERMINATION OF APPLICATION OF TITLE IV OF THE TRADE ACT OF 1974 TO THE BALTICS.

Title IV of the Trade Act of 1974 (19 U.S.C. 2431 et seq.) shall cease to apply to Estonia, Latvia, and Lithuania effective as of the 15th day after the date of the enactment of this Act.

SEC. 104. SENSE OF THE CONGRESS REGARDING PROMPT PROVISION OF GSP TREATMENT TO THE PRODUCTS OF ESTONIA, LATVIA, AND LITHUANIA.

It is the sense of the Congress that the President should take prompt action under title V of the Trade Act of 1974 to provide preferential tariff treatment to the products of Estonia, Latvia, and Lithuania pursuant to the Generalized System of Preferences.

TITLE II—TRADE PREFERENCE FOR THE ANDEAN REGION

SEC. 201. SHORT TITLE.

This title may be cited as the "Andean Trade Preference Act".

SEC. 202. AUTHORITY TO GRANT DUTY-FREE TREATMENT.

The President may proclaim duty-free treatment for all eligible articles from any beneficiary country in accordance with the provisions of this title.

SEC. 203. BENEFICIARY COUNTRY.

(a) DEFINITIONS.—For purposes of this title—

(1) The term "beneficiary country" means any country listed in subsection (b)(1) with respect to which there is in effect a proclamation by the President designating such country as a beneficiary country for purposes of this title.

(2) The term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

(3) The term "HTS" means Harmonized Tariff Schedule of the United States.

(b) COUNTRIES ELIGIBLE FOR DESIGNATION; CONGRESSIONAL NOTIFICATION.—(1) In designating countries as beneficiary countries under this title, the President shall consider only the following countries or successor political entities:

Bolivia
Ecuador
Colombia
Peru.

(2) Before the President designates any country as a beneficiary country for purposes of this title, he shall notify the House of Representatives and the Senate of his intention to make such designation, together with the considerations entering into such decision.

(c) LIMITATIONS ON DESIGNATION.—The President shall not designate any country a beneficiary country under this title—

(1) if such country is a Communist country;

(2) if such country—

(A) has nationalized, expropriated or otherwise seized ownership or control of property owned by a United States citizen or by a corporation, partnership, or association which is 50 percent or more beneficially owned by United States citizens,

(B) has taken steps to repudiate or nullify—

(i) any existing contract or agreement with, or

(ii) any patent, trademark, or other intellectual property of,

a United States citizen or a corporation, partnership, or association, which is 50 percent or more beneficially owned by United States citizens, the effect of which is to nationalize, expropriate, or otherwise seize ownership or control of property so owned, or

(C) has imposed or enforced taxes or other exactions, restrictive maintenance or operational conditions, or other measures with respect to property so owned, the effect of which is to nationalize, expropriate, or otherwise seize ownership or control of such property, unless the President determines that—

(i) prompt, adequate, and effective compensation has been or is being made to such citizen, corporation, partnership, or association,

(ii) good-faith negotiations to provide prompt, adequate, and effective compensation under the applicable provisions of international law are in progress, or such country is otherwise taking steps to discharge its obligations under international law with respect to such citizen, corporation, partnership, or association, or

(iii) a dispute involving such citizen, corporation, partnership, or association, over compensation for such a seizure has been submitted to arbitration under the provisions of the Convention for the Settlement of Investment Disputes, or in another mutually agreed upon forum, and

promptly furnishes a copy of such determination to the Senate and House of Representatives;

(3) if such country fails to act in good faith in recognizing as binding or in enforcing arbitral awards in favor of United States citizens or a corporation, partnership, or association which is 50 percent or more beneficially owned by United States citizens, which have been made by arbitrators appointed for each case or by permanent arbitral bodies to which the parties involved have submitted their dispute;

(4) if such country affords preferential treatment to the products of a developed country, other than the United States, and if such preferential treatment has, or is likely to have, a significant adverse effect on United States commerce, unless the President—

(A) has received assurances satisfactory to him that such preferential treatment will be eliminated or that action will be taken to assure that there will be no such significant adverse effect, and

(B) reports those assurances to the Congress;

(5) if a government-owned entity in such country engages in the broadcast of copyrighted material, including films or television material, belonging to United States copyright owners without their express consent or such country fails to work towards the provision of adequate and effective protection of intellectual property rights;

(6) unless such country is a signatory to a treaty, convention, protocol, or other agreement regarding the extradition of United States citizens; and

(7) if such country has not or is not taking steps to afford internationally recognized worker rights (as defined in section 502(a)(4) of the Trade Act of 1974) to workers in the country (including any designated zone in that country).

Paragraphs (1), (2), (3), (5), and (7) shall not prevent the designation of any country as a beneficiary country under this title if the President determines that such designation will be in the national economic or security interest of the United States and reports such determination to the Congress with his reasons therefor.

(d) FACTORS AFFECTING DESIGNATION.—In determining whether to designate any country a beneficiary country under this title, the President shall take into account—

(1) an expression by such country of its desire to be so designated;

(2) the economic conditions in such country, the living standards of its inhabitants, and any other economic factors which he deems appropriate;

(3) the extent to which such country has assured the United States it will provide equitable and reasonable access to the markets and basic commodity resources of such country;

(4) the degree to which such country follows the accepted rules of international trade provided for under the General Agreement on Tariffs and Trade, as well as applicable trade agreements approved under section 2(a) of the Trade Agreements Act of 1979;

(5) the degree to which such country uses export subsidies or imposes export performance requirements or local content requirements which distort international trade;

(6) the degree to which the trade policies of such country as they relate to other beneficiary countries are contributing to the revitalization of the region;

(7) the degree to which such country is undertaking self-help measures to protect its own economic development;

(8) whether or not such country has taken or is taking steps to afford to workers in that country (including any designated zone in that country) internationally recognized worker rights;

(9) the extent to which such country provides under its law adequate and effective means for foreign nationals to secure, exercise, and enforce exclusive rights in intellectual property, including patent, trademark, and copyright rights;

(10) the extent to which such country prohibits its nationals from engaging in the broadcast of copyrighted material, including films or television material, belonging to United States copyright owners without their express consent;

(11) whether such country has met the narcotics cooperation certification criteria set forth in section 481(h)(2)(A) of the Foreign Assistance Act of 1961 for eligibility for United States assistance; and

(12) the extent to which such country is prepared to cooperate with the United States in the administration of the provisions of this Act.

(e) WITHDRAWAL OR SUSPENSION OF DESIGNATION.—(1) The President may—

(A) withdraw or suspend the designation of any country as a beneficiary country, or

(B) withdraw, suspend, or limit the application of duty-free treatment under this title to any article of any country,

if, after such designation, the President determines that as a result of changed circumstances such a country should be barred from designation as a beneficiary country.

(2)(A) The President shall publish in the Federal Register notice of the action the President proposes to take under paragraph (1) at least 30 days before taking such action.

(B) The United States Trade Representative shall, within the 30-day period beginning on the date on which the President publishes under subparagraph (A) notice of proposed action—

(i) accept written comments from the public regarding such proposed action,

(ii) hold a public hearing on such proposed action, and

(iii) publish in the Federal Register—

(I) notice of the time and place of such hearing prior to the hearing, and

(II) the time and place at which such written comments will be accepted.

(f) TRIENNIAL REPORT.—On or before the 3rd, 6th, and 9th anniversaries of the date of the enactment of this title, the President shall submit to the Congress a complete report regarding the operation of this title, including the results of a general review of beneficiary countries based on the considerations described in subsections (c) and (d). In reporting on the considerations described in subsection (d)(11), the President shall report any evidence that the crop eradication and crop substitution efforts of the beneficiary are directly related to the effects of this title.

SEC. 204. ELIGIBLE ARTICLES.

(a) IN GENERAL.—(1) Unless otherwise excluded from eligibility by this title, the duty-free treatment provided under this title shall apply to any article which is the growth, product, or manufacture of a beneficiary country if—

(A) that article is imported directly from a beneficiary country into the customs territory of the United States; and

(B) the sum of—

(i) the cost or value of the materials produced in a beneficiary country or 2 or more beneficiary countries under this Act, or a beneficiary country under the Caribbean Basin Economic Recovery Act or 2 or more such countries, plus

(ii) the direct costs of processing operations performed in a beneficiary country or countries (under this Act or the Caribbean Basin Economic Recovery Act),

is not less than 35 percent of the appraised value of such article at the time it is entered.

For purposes of determining the percentage referred to in subparagraph (B), the term "beneficiary country" includes the Commonwealth of Puerto Rico and the United States Virgin Islands. If the cost or value of materials produced in the customs territory of the United States (other than the Commonwealth of Puerto Rico) is included with respect to an article to which this paragraph applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in subparagraph (B).

(2) The Secretary of the Treasury shall prescribe such regulations as may be necessary to carry out subsection (a) including, but not limited to, regulations providing that, in order to be eligible for duty-free treatment under this title, an article must be wholly the growth, product, or manufacture of a beneficiary country, or must be a new or different article of commerce which has been grown, produced, or manufactured in the beneficiary country; but no article or material of a beneficiary country shall be eligible for such treatment by virtue of having merely undergone—

(A) simple combining or packaging operations, or

(B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(3) As used in this subsection, the phrase "direct costs of processing operations" includes, but is not limited to—

(A) all actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control, and similar personnel; and

(B) dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned or are not costs of manufacturing the product, such as (i) profit, and (ii) general expense of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, interest, and salesmen's salaries, commissions or expenses.

(4) If the President, pursuant to section 223 of the Caribbean Basin Economic Recovery Expansion Act of 1990, considers that the implementation of revised rules of origin for products of beneficiary countries designated under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2701 et seq.) would be appropriate, the President may include similarly revised rules of origin for products of beneficiary countries designated under this title in any suggested legislation transmitted to the Congress that contains such rules of origin for products of beneficiary countries under the Caribbean Basin Economic Recovery Act.

(b) EXCEPTIONS TO DUTY-FREE TREATMENT.—The duty-free treatment provided under this title shall not apply to—

(1) textile and apparel articles which are subject to textile agreements;

(2) footwear not designated at the time of the effective date of this Act as eligible for the purpose of the generalized system of preferences under title V of the Trade Act of 1974;

(3) tuna, prepared or preserved in any manner, in airtight containers;

(4) petroleum, or any product derived from petroleum, provided for in headings 2709 and 2710 of the HTS;

(5) watches and watch parts (including cases, bracelets and straps), of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material which is the product of any country with respect to which HTS column 2 rates of duty apply;

(6) articles to which reduced rates of duty apply under subsection (c);

(7) sugars, syrups, and molasses classified in subheadings 1701.11.03, 1701.12.02, 1701.99.02, 1702.90.32, 1806.10.42, and 2106.90.12 of the HTS; or

(8) rum and tafia classified in subheading 2208.40.00 of the HTS.

(c) DUTY REDUCTIONS FOR CERTAIN GOODS.—(1) Subject to paragraph (2), the President shall proclaim reductions in the rates of duty on handbags, luggage, flat goods, work gloves, and leather wearing apparel that—

(A) are the product of any beneficiary country; and

(B) were not designated on August 5, 1983, as eligible articles for purposes of the generalized system of preferences under title V of the Trade Act of 1974.

(2) The reduction required under paragraph (1) in the rate of duty on any article shall—

(A) result in a rate that is equal to 80 percent of the rate of duty that applies to the article on December 31, 1991, except that, subject to the limitations in paragraph (3), the reduction may not exceed 2.5 percent ad valorem; and

(B) be implemented in 5 equal annual stages with the first 1/5 of the aggregate reduction in the rate of duty being applied to entries, or withdrawals from warehouse for consumption, of the article on or after January 1, 1992.

(3) The reduction required under this subsection with respect to the rate of duty on any article is in addition to any reduction in the rate of duty on that article that may be proclaimed by the President as being required or appropriate to carry out any trade agreement entered into under the Uruguay Round of trade negotiations; except that if the reduction so proclaimed—

(A) is less than 1.5 percent ad valorem, the aggregate of such proclaimed reduction and the reduction under this subsection may not exceed 3.5 percent ad valorem, or

(B) is 1.5 percent ad valorem or greater, the aggregate of such proclaimed reduction and the reduction under this subsection may not exceed the proclaimed reduction plus 1 percent ad valorem.

(d) SUSPENSION OF DUTY-FREE TREATMENT.—(1) The President may by proclamation suspend the duty-free treatment provided by this title with respect to any eligible article and may proclaim a duty rate for such article if such action is proclaimed under chapter 1 of title II of the Trade Act of 1974 or section 232 of the Trade Expansion Act of 1962.

(2) In any report by the United States International Trade Commission to the President under section 202(f) of the Trade Act of 1974 regarding any article for which duty-free treatment has been proclaimed by the President pursuant to this title, the Commission shall state whether and to what extent its findings and recommendations apply to such article when imported from beneficiary countries.

(3) For purposes of section 203 of the Trade Act of 1974, the suspension of the duty-free treatment provided by this title shall be treated as an increase in duty.

(4) No proclamation providing solely for a suspension referred to in paragraph (3) of this subsection with respect to any article shall be taken under section 203 of the Trade Act of 1974 unless the United States International Trade Commission, in addition to making an affirmative determination with respect to such article under section 202(b) of the Trade Act of 1974, determines in the course of its investigation under such section that the serious injury (or threat thereof) substantially caused by imports to the domestic industry producing a like or directly competitive article results from the duty-free treatment provided by this title.

(5)(A) Any action taken under section 203 of the Trade Act of 1974 that is in effect when duty-free treatment is proclaimed under section 202 of this title shall remain in effect until modified or terminated.

(B) If any article is subject to any such action at the time duty-free treatment is proclaimed under section 202 of this title, the President may reduce or terminate the application of such action to the importation of such article from beneficiary countries prior to the otherwise scheduled date on which such reduction or termination would occur pursuant to the criteria and procedures of section 204 of the Trade Act of 1974.

(e) EMERGENCY RELIEF WITH RESPECT TO PERISHABLE PRODUCTS.—(1) If a petition is filed with the United States International Trade Commission pursuant to the provisions of section 201 of the Trade Act of 1974 regarding a perishable product and alleging injury from imports from beneficiary countries, then the petition may also be filed with the Secretary of Agriculture with a request that emergency relief be granted pursuant to paragraph (3) of this subsection with respect to such article.

(2) Within 14 days after the filing of a petition under paragraph (1) of this subsection —

(A) if the Secretary of Agriculture has reason to believe that a perishable product from a beneficiary country is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing a perishable product like or directly competitive with the imported product and that emergency action is warranted, he shall advise the President and recommend that the President take emergency action; or

(B) the Secretary of Agriculture shall publish a notice of his determination not to recommend the imposition of emergency action and so advise the petitioner.

(3) Within 7 days after the President receives a recommendation from the Secretary of Agriculture to take emergency action pursuant to paragraph (2) of this subsection, he shall issue a proclamation withdrawing the duty-free treatment provided by this title or publish a notice of his determination not to take emergency action.

(4) The emergency action provided by paragraph (3) of this subsection shall cease to apply—

(A) upon the taking of action under section 203 of the Trade Act of 1974,

(B) on the day a determination by the President not to take action under section 203(b)(2) of such Act becomes final,

(C) in the event of a report of the United States International Trade Commission containing a negative finding, on the day of the Commission's report is submitted to the President, or

(D) whenever the President determines that because of changed circumstances such relief is no longer warranted.

(5) For purposes of this subsection, the term "perishable product" means—

(A) live plants and fresh cut flowers provided for in chapter 6 of the HTS;

(B) fresh or chilled vegetables provided for in headings 0701 through 0709 (except subheading 0709.52.00) and heading 0714 of the HTS;

(C) fresh fruit provided for in subheadings 0804.20 through 0810.90 (except citrons of subheadings 0805.90.00, tamarinds and kiwi fruit of subheading 0810.90.20, and cashew apples, mameyes colorados, sapodillas, soursops and sweetsops of subheading 0810.90.40) of the HTS; or

(D) concentrated citrus fruit juice provided for in subheadings 2009.11.00, 2009.19.40, 2009.20.40, 2009.30.20, and 2009.30.60 of the HTS.

(f) SECTION 22 FEES.—No proclamation issued pursuant to this title shall affect fees imposed pursuant to section 22 of the Agricultural Adjustment Act of 1933 (7 U.S.C. 624).

SEC. 205. RELATED AMENDMENTS.

(a) INCREASE IN DUTY-FREE TOURIST ALLOWANCE.—Note 4 to subchapter IV of chapter 98 of the HTS is amended by inserting before the period the following: "or a country designated as a beneficiary country under the Andean Trade Preference Act".

(b) TREATMENT OF INSULAR POSSESSIONS PRODUCTS.—General Note 3(a)(iv) of the HTS (relating to products of the insular possessions) is amended by adding at the end thereof the following:

"(E) Subject to the provisions in section 204 of the Andean Trade Preference Act, goods which are imported from insular possessions of the United States shall receive duty treatment no less favorable than the treatment afforded such goods when they are imported from a beneficiary country under such Act.".

SEC. 206. INTERNATIONAL TRADE COMMISSION REPORTS ON IMPACT OF THE ANDEAN TRADE PREFERENCE ACT.

(a) IN GENERAL.—The United States International Trade Commission (hereinafter in this section referred to as the "Commission") shall prepare, and submit to the Congress, a report regarding the economic impact of this title on United States industries and consumers, and, in conjunction with other agencies, the effectiveness of this title in promoting drug-related crop eradication and crop substitution efforts of the beneficiary countries, during—

(1) the 24-month period beginning with the date of enactment of this title; and

(2) each calendar year occurring thereafter until duty-free treatment under this title is terminated under section 208(b).

For purposes of this section, industries in the Commonwealth of Puerto Rico and the insular possessions of the United States shall be considered to be United States industries.

(b) REPORT REQUIREMENTS.—(1) Each report required under subsection (a) shall include, but not be limited to, an assessment by the Commission regarding—

(A) the actual effect, during the period covered by the report, of this title on the United States economy generally as well as on those specific domestic industries which produce articles that are like, or directly competitive with, articles being imported into the United States from beneficiary countries;

(B) the probable future effect that this title will have on the United States economy generally, as well as on such domestic industries, before the provisions of this title terminate; and

(C) the estimated effect that this title has had on the drug-related crop eradication and crop substitution efforts of the beneficiary countries.

(2) In preparing the assessments required under paragraph (1), the Commission shall, to the extent practicable—

(A) analyze the production, trade and consumption of United States products affected by this title, taking into consideration employment, profit levels, and use of productive facilities with respect to the domestic industries concerned, and such other economic factors in such industries as it considers relevant, including prices, wages, sales, inventories, patterns of demand, capital investment, obsolescence of equipment, and diversification of production; and

(B) describe the nature and extent of any significant change in employment, profit levels, and use of productive facilities, and such other conditions as it deems relevant in the domestic industries concerned, which it believes are attributable to this title.

(c) SUBMISSION DATES; PUBLIC COMMENT.—(1) Each report required under subsection (a) shall be submitted to the Congress before the close of the 9-month period beginning on the day after the last day of the period covered by the report.

(2) The Commission shall provide an opportunity for the submission by the public, either orally or in writing, or both, of information relating to matters that will be addressed in the reports.

SEC. 207. IMPACT STUDY BY SECRETARY OF LABOR.

The Secretary of Labor, in consultation with other appropriate Federal agencies, shall undertake a continuing review and analysis of the impact that the implementation of the provisions of this title has with respect to United States labor; and shall make an annual written report to Congress on the results of such review and analysis.

SEC. 208. EFFECTIVE DATE AND TERMINATION OF DUTY-FREE TREATMENT.

(a) EFFECTIVE DATE.—This title shall take effect on the date of enactment.

(b) TERMINATION OF DUTY-FREE TREATMENT.—No duty-free treatment extended to beneficiary countries under this title shall remain in effect 10 years after the date of the enactment of this title.

TITLE III—CONTROL AND ELIMINATION OF CHEMICAL AND BIOLOGICAL WEAPONS

SEC. 301. SHORT TITLE.

This title may be cited as the "Chemical and Biological Weapons Control and Warfare Elimination Act of 1991".

SEC. 302. PURPOSES.

The purposes of this title are—

(1) to mandate United States sanctions, and to encourage international sanctions, against countries that use chemical or biological weapons in violation of international law or use lethal chemical or biological weapons against their own nationals, and to impose sanctions against companies that aid in the proliferation of chemical and biological weapons;

(2) to support multilaterally coordinated efforts to control the proliferation of chemical and biological weapons;

(3) to urge continued close cooperation with the Australia Group and cooperation with other supplier nations to devise ever more effective controls on the transfer of materials, equipment, and technology applicable to chemical or biological weapons production; and

(4) to require Presidential reports on efforts that threaten United States interests or regional stability by Iran, Iraq, Syria, Libya, and others to acquire the materials and technology to develop, produce, stockpile, deliver, transfer, or use chemical or biological weapons.

SEC. 303. MULTILATERAL EFFORTS.

(a) MULTILATERAL CONTROLS ON PROLIFERATION.—It is the policy of the United States to seek multilaterally coordinated efforts with other countries to control the proliferation of chemical and biological weapons. In furtherance of this policy, the United States shall—

(1) promote agreements banning the transfer of missiles suitable for armament with chemical or biological warheads;

(2) set as a top priority the early conclusion of a comprehensive global agreement banning the use, development, production, and stockpiling of chemical weapons;

(3) seek and support effective international means of monitoring and reporting regularly on commerce in equipment, materials, and technology applicable to the attainment of a chemical or biological weapons capability; and

(4) pursue and give full support to multilateral sanctions pursuant to United Nations Security Council Resolution 620, which declared the intention of the Security Council to give immediate consideration to imposing "appropriate and effective" sanctions against any country which uses chemical weapons in violation of international law.

(b) MULTILATERAL CONTROLS ON CHEMICAL AGENTS, PRECURSORS, AND EQUIPMENT.—It is also the policy of the United States to strengthen efforts to control chemical agents, precursors, and equipment by taking all appropriate multilateral diplomatic measures—

(1) to continue to seek a verifiable global ban on chemical weapons at the 40 nation Conference on Disarmament in Geneva;

(2) to support the Australia Group's objective to support the norms and restraints against the spread and the use of chemical warfare, to advance the negotiation of a comprehensive ban on chemical warfare by taking appropriate measures, and to protect the Australia Group's domestic industries against inadvertent association with supply of feedstock chemical equipment that could be misused to produce chemical weapons;

(3) to implement paragraph (2) by proposing steps complementary to, and not mutually exclusive of, existing multilateral efforts seeking a verifiable ban on chemical weapons, such as the establishment of—

(A) a harmonized list of export control rules and regulations to prevent relative commercial advantage and disadvantages accruing to Australia Group members,

(B) liaison officers to the Australia Group's coordinating entity from within the diplomatic missions,

(C) a close working relationship between the Australia Group and industry,

(D) a public unclassified warning list of controlled chemical agents, precursors, and equipment,

(E) information-exchange channels of suspected proliferants,

(F) a "denial" list of firms and individuals who violate the Australia Group's export control provisions, and

(G) broader cooperation between the Australia Group and other countries whose political commitment to stem the proliferation of chemical weapons is similar to that of the Australia Group; and

(4) to adopt the imposition of stricter controls on the export of chemical agents, precursors, and equipment and to adopt tougher multilateral sanctions against firms and individuals who violate these controls or against countries that use chemical weapons.

SEC. 304. UNITED STATES EXPORT CONTROLS.

(a) IN GENERAL.—The President shall—

(1) use the authorities of the Arms Export Control Act to control the export of those defense articles and defense services, and

(2) use the authorities of the Export Administration Act of 1979 to control the export of those goods and technology,

that the President determines would assist the government of any foreign country in acquiring the capability to develop, produce, stockpile, deliver, or use chemical or biological weapons.

(b) EXPORT ADMINISTRATION ACT.—Section 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2405) is amended—

(1) by redesignating subsections (m) through (r) as subsections (n) through (s), respectively; and

(2) by inserting after subsection (l) the following:

"(m) CHEMICAL AND BIOLOGICAL WEAPONS.—

"(1) ESTABLISHMENT OF LIST.—The Secretary, in consultation with the Secretary of State, the Secretary of Defense, and the heads of other appropriate departments and agencies, shall establish and maintain, as part of the list maintained under this section, a list of goods and technology that would directly and substantially assist a foreign government or group in acquiring the capability to develop, produce, stockpile, or deliver chemical or biological weapons, the licensing of which would be effective in barring acquisition or enhancement of such capability.

"(2) REQUIREMENT FOR VALIDATED LICENSES.—The Secretary shall require a validated license for any export of goods or technology on the list established under paragraph (1) to any country of concern.

"(3) COUNTRIES OF CONCERN.—For purposes of paragraph (2), the term 'country of concern' means any country other than—

"(A) a country with whose government the United States has entered into a bilateral or multilateral arrangement for the control of goods or technology on the list established under paragraph (1); and

"(B) such other countries as the Secretary of State, in consultation with the Secretary and the Secretary of Defense, shall designate consistent with the purposes of the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991.".

SEC. 305. SANCTIONS AGAINST CERTAIN FOREIGN PERSONS.

(a) AMENDMENT TO EXPORT ADMINISTRATION ACT.—The Export Administration Act of 1979 is amended by inserting after section 11B the following:

"CHEMICAL AND BIOLOGICAL WEAPONS
PROLIFERATION SANCTIONS

"SEC. 11C. (a) IMPOSITION OF SANCTIONS.—

"(1) DETERMINATION BY THE PRESIDENT.—Except as provided in subsection (b)(2), the President shall impose both of the sanctions described in subsection (c) if the President determines that a foreign person, on or after the date of the enactment of this section, has knowingly and materially contributed—

"(A) through the export from the United States of any goods or technology that are subject to the jurisdiction of the United States under this Act, or

"(B) through the export from any other country of any goods or technology that would be, if they were United States goods or technology, subject to the jurisdiction of the United States under this Act,

to the efforts by any foreign country, project, or entity described in paragraph (2) to use, develop, produce, stockpile, or otherwise acquire chemical or biological weapons.

"(2) COUNTRIES, PROJECTS, OR ENTITIES RECEIVING ASSISTANCE.—Paragraph (1) applies in the case of—

"(A) any foreign country that the President determines has, at any time after January 1, 1980—

"(i) used chemical or biological weapons in violation of international law;

"(ii) used lethal chemical or biological weapons against its own nationals; or

"(iii) made substantial preparations to engage in the activities described in clause (i) or (ii);

"(B) any foreign country whose government is determined for purposes of section 6(j) of this Act to be a government that has repeatedly provided support for acts of international terrorism; or

"(C) any other foreign country, project, or entity designated by the President for purposes of this section.

"(3) PERSONS AGAINST WHICH SANCTIONS ARE TO BE IMPOSED.—Sanctions shall be imposed pursuant to paragraph (1) on—

"(A) the foreign person with respect to which the President makes the determination described in that paragraph;

"(B) any successor entity to that foreign person;

"(C) any foreign person that is a parent or subsidiary of that foreign person if that parent or subsidiary knowingly assisted in the activities which were the basis of that determination; and

"(D) any foreign person that is an affiliate of that foreign person if that affiliate knowingly assisted in the activities which were the basis of that determination and if that affiliate is controlled in fact by that foreign person.

"(b) CONSULTATIONS WITH AND ACTIONS BY FOREIGN GOVERNMENT OF JURISDICTION.—

"(1) CONSULTATIONS.—If the President makes the determinations described in subsection (a)(1) with respect to a foreign person, the Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over that foreign person with respect to the imposition of sanctions pursuant to this section.

"(2) ACTIONS BY GOVERNMENT OF JURISDICTION.—In order to pursue such consultations with that government, the President may delay imposition of sanctions pursuant to this section for a period of up to 90 days. Following these consultations, the President shall impose sanctions unless the President determines and certifies to the Congress that that government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in the activities described in subsection (a)(1). The President may delay imposition of sanctions for an additional period of up to 90 days if the President determines and certifies to the Congress that that government is in the process of taking the actions described in the preceding sentence.

"(3) REPORT TO CONGRESS.—The President shall report to the Congress, not later than 90 days after making a determination under subsection (a)(1), on the status of consultations with the appropriate government under this subsection, and the basis for any determination under paragraph (2) of this subsection that such government has taken specific corrective actions.

"(c) SANCTIONS.—

"(1) DESCRIPTION OF SANCTIONS.—The sanctions to be imposed pursuant to subsection (a)(1) are, except as provided in paragraph (2) of this subsection, the following:

"(A) PROCUREMENT SANCTION.—The United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from any person described in subsection (a)(3).

"(B) IMPORT SANCTIONS.—The importation into the United States of products produced by any person described in subsection (a)(3) shall be prohibited.

"(2) EXCEPTIONS.—The President shall not be required to apply or maintain sanctions under this section—

"(A) in the case of procurement of defense articles or defense services—

"(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

"(ii) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

"(iii) if the President determines that such articles or services are essential to the national security under defense coproduction agreements;

"(B) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose sanctions;

"(C) to—

"(i) spare parts,

"(ii) component parts, but not finished products, essential to United States products or production, or

"(iii) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

"(D) to information and technology essential to United States products or production; or

"(E) to medical or other humanitarian items.

"(d) TERMINATION OF SANCTIONS.—The sanctions imposed pursuant to this section shall apply for a period of at least 12 months following the imposition of sanctions and shall cease to apply thereafter only if the President determines and certifies to the Congress that reliable information indicates that the foreign person with respect to which the determination was made under subsection (a)(1) has ceased to aid or abet any foreign government, project, or entity in its efforts to acquire chemical or biological weapons capability as described in that subsection.

"(e) WAIVER.—

"(1) CRITERION FOR WAIVER.—The President may waive the application of any sanction imposed on any person pursuant to this section, after the end of the 12-month period beginning on the date on which that sanction was imposed on that person, if the President determines and certifies to the Congress that such waiver is important to the national security interests of the United States.

"(2) NOTIFICATION OF AND REPORT TO CONGRESS.—If the President decides to exercise the waiver authority provided in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to exercise the waiver authority.

"(f) DEFINITION OF FOREIGN PERSON.—For the purposes of this section, the term 'foreign person' means—

"(1) an individual who is not a citizen of the United States or an alien admitted for permanent residence to the United States; or

"(2) a corporation, partnership, or other entity which is created or organized under the laws of a foreign country or which has its principal place of business outside the United States.".

(b) AMENDMENT TO ARMS EXPORT CONTROL ACT.—The Arms Export Control Act is amended by inserting after chapter 7 the following:

"CHAPTER 8—CHEMICAL OR BIOLOGICAL WEAPONS PROLIFERATION

"SEC. 81. SANCTIONS AGAINST CERTAIN FOREIGN PERSONS.

"(a) IMPOSITION OF SANCTIONS.—

"(1) DETERMINATION BY THE PRESIDENT.—Except as provided in subsection (b)(2), the President shall impose both of the sanctions described in subsection (c) if the President determines that a foreign person, on or after the date of the enactment of this section, has knowingly and materially contributed—

"(A) through the export from the United States of any goods or technology that are subject to the jurisdiction of the United States,

"(B) through the export from any other country of any goods or technology that would be, if they were United States goods or technology, subject to the jurisdiction of the United States, or

"(C) through any other transaction not subject to sanctions pursuant to the Export Administration Act of 1979,

to the efforts by any foreign country, project, or entity described in paragraph (2) to use, develop, produce, stockpile, or otherwise acquire chemical or biological weapons.

"(2) COUNTRIES, PROJECTS, OR ENTITIES RECEIVING ASSISTANCE.—Paragraph (1) applies in the case of—

"(A) any foreign country that the President determines has, at any time after January 1, 1980—

"(i) used chemical or biological weapons in violation of international law;

"(ii) used lethal chemical or biological weapons against its own nationals; or

"(iii) made substantial preparations to engage in the activities described in clause (i) or (ii);

"(B) any foreign country whose government is determined for purposes of section 6(j) of the Export Administration Act of 1979 (50 U.S.C. 2405(j)) to be a government that has repeatedly provided support for acts of international terrorism; or

"(C) any other foreign country, project, or entity designated by the President for purposes of this section.

"(3) PERSONS AGAINST WHOM SANCTIONS ARE TO BE IMPOSED.—Sanctions shall be imposed pursuant to paragraph (1) on—

"(A) the foreign person with respect to which the President makes the determination described in that paragraph;

"(B) any successor entity to that foreign person;

"(C) any foreign person that is a parent or subsidiary of that foreign person if that parent or subsidiary knowingly assisted in the activities which were the basis of that determination; and

"(D) any foreign person that is an affiliate of that foreign person if that affiliate knowingly assisted in the activities which were the basis of that determination and if that affiliate is controlled in fact by that foreign person.

"(b) CONSULTATIONS WITH AND ACTIONS BY FOREIGN GOVERNMENT OF JURISDICTION.—

"(1) CONSULTATIONS.—If the President makes the determinations described in subsection (a)(1) with respect to a foreign person, the Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over that foreign person with respect to the imposition of sanctions pursuant to this section.

"(2) ACTIONS BY GOVERNMENT OF JURISDICTION.—In order to pursue such consultations with that government, the President may delay imposition of sanctions pursuant to this section for a period of up to 90 days. Following these consultations, the President shall impose sanctions unless the President determines and certifies to the Congress that that government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in the activities described in subsection (a)(1). The President may delay imposition of sanctions for an additional period of up to 90 days if the President determines and certifies to the Congress that that government is in the process of taking the actions described in the preceding sentence.

"(3) REPORT TO CONGRESS.—The President shall report to the Congress, not later than 90 days after making a determination under subsection (a)(1), on the status of consultations with the appropriate government under this subsection, and the basis for any determination under paragraph (2) of this subsection that such government has taken specific corrective actions.

"(c) SANCTIONS.—

"(1) DESCRIPTION OF SANCTIONS.—The sanctions to be imposed pursuant to subsection (a)(1) are, except as provided in paragraph (2) of this subsection, the following:

"(A) PROCUREMENT SANCTION.—The United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from any person described in subsection (a)(3).

"(B) IMPORT SANCTIONS.—The importation into the United States of products produced by any person described in subsection (a)(3) shall be prohibited.

"(2) EXCEPTIONS.—The President shall not be required to apply or maintain sanctions under this section—

"(A) in the case of procurement of defense articles or defense services—

"(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

"(ii) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

"(iii) if the President determines that such articles or services are essential to the national security under defense coproduction agreements;

"(B) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose sanctions;

"(C) to—

"(i) spare parts,

"(ii) component parts, but not finished products, essential to United States products or production, or

"(iii) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

"(D) to information and technology essential to United States products or production; or

"(E) to medical or other humanitarian items.

"(d) TERMINATION OF SANCTIONS.—The sanctions imposed pursuant to this section shall *apply for a period of at least 12 months following the imposition of sanctions and shall cease to apply thereafter only if the President determines and certifies to the Congress that reliable information indicates that the foreign person with respect to which the determination was made under subsection (a)(1) has ceased to aid or abet any foreign government, project, or entity in its efforts to acquire chemical or biological weapons capability as described in that subsection.*

"(e) WAIVER.—

"(1) CRITERION FOR WAIVER.—The President may waive the application of any sanction imposed on any person pursuant to this section, after the end of the 12-month period beginning on the date on which that sanction was imposed on that person, if the President determines and certifies to the Congress that such waiver is important to the national security interests of the United States.

"(2) NOTIFICATION OF AND REPORT TO CONGRESS.—If the President decides to exercise the waiver authority provided in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to exercise the waiver authority.

"(f) DEFINITION OF FOREIGN PERSON.—For the purposes of this section, the term 'foreign person' means—

"(1) an individual who is not a citizen of the United States or an alien admitted for permanent residence to the United States; or

"(2) a corporation, partnership, or other entity which is created or organized under the laws of a foreign country or which has its principal place of business outside the United States.".

SEC. 306. DETERMINATIONS REGARDING USE OF CHEMICAL OR BIOLOGICAL WEAPONS.

(a) DETERMINATION BY THE PRESIDENT.—

(1) WHEN DETERMINATION REQUIRED; NATURE OF DETERMINATION.—Whenever persuasive information becomes available to the executive branch indicating the substantial possibility that, on or after the date of the enactment of this title, the government of a foreign country has made substantial preparation to use or has used chemical or biological weapons, the President shall, within 60 days after the receipt of such information by the executive branch, determine whether that government, on or after such date of enactment, has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals. Section 307 applies if the President determines that that government has so used chemical or biological weapons.

(2) MATTERS TO BE CONSIDERED.—In making the determination under paragraph (1), the President shall consider the following:

(A) All physical and circumstantial evidence available bearing on the possible use of such weapons.

(B) All information provided by alleged victims, witnesses, and independent observers.

(C) The extent of the availability of the weapons in question to the purported user.

(D) All official and unofficial statements bearing on the possible use of such weapons.

(E) Whether, and to what extent, the government in question is willing to honor a request from the Secretary General of the United Nations to grant timely access to a United Nations fact-finding team to investigate the possibility of chemical or biological weapons use or to grant such access to other legitimate outside parties.

(3) DETERMINATION TO BE REPORTED TO CONGRESS.—Upon making a determination under paragraph (1), the President shall promptly report that determination to the Congress. If the determination is that a foreign government had used chemical or biological weapons as described in that paragraph, the report shall specify the sanctions to be imposed pursuant to section 307.

(b) CONGRESSIONAL REQUESTS; REPORT.—

(1) REQUEST.—The Chairman of the Committee on Foreign Relations of the Senate (upon consultation with the ranking minority member of such committee) or the Chairman of the Committee on Foreign Affairs of the House of Representatives (upon consultation with the ranking minority member of such committee) may at any time request the President to consider whether a particular foreign government, on or after the date of the enactment of this title, has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals.

(2) REPORT TO CONGRESS.—Not later than 60 days after receiving such a request, the President shall provide to the Chairman of the Committee on Foreign Relations of the Senate and the Chairman of the Committee on Foreign Affairs of the House of Representatives a written report on the information held by the executive branch which is pertinent to the issue of whether the specified government, on or after the date of the enactment of this title, has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals. This report shall contain an analysis of each of the items enumerated in subsection (a)(2).

SEC. 307. SANCTIONS AGAINST USE OF CHEMICAL OR BIOLOGICAL WEAPONS.

(a) INITIAL SANCTIONS.—If, at any time, the President makes a determination pursuant to section 306(a)(1) with respect to the government of a foreign country, the President shall forthwith impose the following sanctions:

(1) FOREIGN ASSISTANCE.—The United States Government shall terminate assistance to that country under the Foreign Assistance Act of 1961, except for urgent humanitarian assistance and food or other agricultural commodities or products.

(2) ARMS SALES.—The United States Government shall terminate—

(A) sales to that country under the Arms Export Control Act of any defense articles, defense services, or design and construction services, and

(B) licenses for the export to that country of any item on the United States Munitions List.

(3) ARMS SALES FINANCING.—The United States Government shall terminate all foreign military financing for that country under the Arms Export Control Act.

(4) DENIAL OF UNITED STATES GOVERNMENT CREDIT OR OTHER FINANCIAL ASSISTANCE.—The United States Government shall deny to that country any credit, credit guarantees, or other financial assistance by any department, agency, or instrumentality of the United States Government, including the Export-Import Bank of the United States.

(5) EXPORTS OF NATIONAL SECURITY-SENSITIVE GOODS AND TECHNOLOGY.—The authorities of section 6 of the Export Administration Act of 1979 (50 U.S.C. 2405) shall be used to prohibit the export to that country of any goods or technology on that part of the control list established under section 5(c)(1) of that Act (22 U.S.C. 2404(c)(1)).

(b) ADDITIONAL SANCTIONS IF CERTAIN CONDITIONS NOT MET.—

(1) PRESIDENTIAL DETERMINATION.—Unless, within 3 months after making a determination pursuant to section 306(a)(1) with respect to a foreign government, the President determines and certifies in writing to the Congress that—

(A) that government is no longer using chemical or biological weapons in violation of international law or using lethal chemical or biological weapons against its own nationals,

(B) that government has provided reliable assurances that it will not in the future engage in any such activities, and

(C) that government is willing to allow on-site inspections by United Nations observers or other internationally recognized, impartial observers, or other reliable means exist, to ensure that that government is not using chemical or biological weapons in violation of international law and is not using lethal chemical or biological weapons against its own nationals,

then the President, after consultation with the Congress, shall impose on that country the sanctions set forth in at least 3 of subparagraphs (A) through (F) of paragraph (2).

(2) SANCTIONS.—The sanctions referred to in paragraph (1) are the following:

(A) MULTILATERAL DEVELOPMENT BANK ASSISTANCE.—The United States Government shall oppose, in accordance with section 701 of the International Financial Institutions Act (22 U.S.C. 262d), the extension of any loan or financial or technical assistance to that country by international financial institutions.

(B) BANK LOANS.—The United States Government shall prohibit any United States bank from making any loan or providing any credit to the government of that country, except for loans or credits for the purpose of purchasing food or other agricultural commodities or products.

(C) FURTHER EXPORT RESTRICTIONS.—The authorities of section 6 of the Export Administration Act of 1979 shall be used to prohibit exports to that country of all other goods and technology (excluding food and other agricultural commodities and products).

(D) IMPORT RESTRICTIONS.—Restrictions shall be imposed on the importation into the United States of articles (which may include petroleum or any petroleum product) that are the growth, product, or manufacture of that country.

(E) DIPLOMATIC RELATIONS.—The President shall use his constitutional authorities to downgrade or suspend diplomatic relations between the United States and the government of that country.

(F) PRESIDENTIAL ACTION REGARDING AVIATION.—(i)(I) The President is authorized to notify the government of a country with respect to which the President has made a determination pursuant to section 306(a)(1) of his intention to suspend the authority of foreign air carriers owned or controlled by the government of that country to engage in foreign air transportation to or from the United States.

(II) Within 10 days after the date of notification of a government under subclause (I), the Secretary of Transportation shall take all steps necessary to suspend at the earliest possible date the authority of any foreign air carrier owned or controlled, directly or indirectly, by that government to engage in foreign air transportation to or from the United States, notwithstanding any agreement relating to air services.

(ii)(I) The President may direct the Secretary of State to terminate any air service agreement between the United States and a country with respect to which the President has made a determination pursuant to section 306(a)(1), in accordance with the provisions of that agreement.

(II) Upon termination of an agreement under this clause, the Secretary of Transportation shall take such steps as may be necessary to revoke at the earliest possible date the right of any foreign air carrier owned, or controlled, directly or indirectly, by the government of that country to engage in foreign air transportation to or from the United States.

(iii) The Secretary of Transportation may provide for such exceptions from clauses (i) and (ii) as the Secretary considers necessary to provide for emergencies in which the safety of an aircraft or its crew or passengers is threatened.

(iv) For purposes of this subparagraph, the terms "air transportation", "air carrier", "foreign air carrier", and "foreign air transportation" have the meanings such terms have under section 101 of the Federal Aviation Act of 1958 (49 U.S.C. App. 1301).

(c) REMOVAL OF SANCTIONS.—The President shall remove the sanctions imposed with respect to a country pursuant to this section if the President determines and so certifies to the Congress, after the end of the 12-month period beginning on the date on which sanctions were initially imposed on that country pursuant to subsection (a), that—

(1) the government of that country has provided reliable assurances that it will not use chemical or biological weapons in violation of international law and will not use lethal chemical or biological weapons against its own nationals;

(2) that government is not making preparations to use chemical or biological weapons in violation of international law or to use lethal chemical or biological weapons against its own nationals;

(3) that government is willing to allow on-site inspections by United Nations observers or other internationally recognized, impartial observers to verify that it is not making preparations to use chemical or biological weapons in violation of international law or to use lethal chemical or biological weapons against its own nationals, or other reliable means exist to verify that it is not making such preparations; and

(4) that government is making restitution to those affected by any use of chemical or biological weapons in violation of international law or by any use of lethal chemical or biological weapons against its own nationals.

(d) WAIVER.—

(1) CRITERIA FOR WAIVER.—The President may waive the application of any sanction imposed with respect to a country pursuant to this section—

(A) if—

(i) in the case of any sanction other than a sanction specified in subsection (b)(2)(D) (relating to import restrictions) or (b)(2)(E) (relating to the downgrading or suspension of diplomatic relations), the President determines and certifies to the Congress that such waiver is essential to the national security interests of the United States, and if the President notifies the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives of his determination and certification at least 15 days before the waiver takes effect, in accordance with the procedures applicable to reprogramming notifications under section 634A of the Foreign Assistance Act of 1961, or

(ii) in the case of any sanction specified in subsection (b)(2)(D) (relating to import restrictions), the President determines and certifies to the Congress that such waiver is essential to the national security interest of the United States, and if the President notifies the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives of his determination and certification at least 15 days before the waiver takes effect; or

(B) if the President determines and certifies to the Congress that there has been a fundamental change in the leadership and policies of the government of that country, and if the President notifies the Congress at least 20 days before the waiver takes effect.

(2) REPORT.—In the event that the President decides to exercise the waiver authority provided in paragraph (1) with respect to a country, the President's notification to the Congress under such paragraph shall include a report fully articulating the rationale and circumstances which led the President to exercise that waiver authority, including a description of the steps which the government of that country has taken to satisfy the conditions set forth in paragraphs (1) through (4) of subsection (c).

(e) CONTRACT SANCTITY.—

(1) SANCTIONS NOT APPLIED TO EXISTING CONTRACTS.—(A) A sanction described in paragraph (4) or (5) of subsection (a) or in any of subparagraphs (A) through (D) of subsection (b)(2) shall not apply to any activity pursuant to any contract or international agreement entered into before the date of the presidential determination under section 306(a)(1) unless the President determines, on a case-by-case basis, that to apply such sanction to that activity would prevent the performance of a contract or agreement that would have the effect of assisting a country in using chemical or biological weapons in violation of international law or in using lethal chemical or biological weapons against its own nationals.

(B) The same restrictions of subsection (p) of section 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2405), as that subsection is so redesignated by section 304(b) of this title, which are applicable to exports prohibited under section 6 of that Act shall apply to exports prohibited under subsection (a)(5) or (b)(2)(C) of this section. For purposes of this subparagraph, any contract or agreement the performance of which (as determined by the President) would have the effect of assisting a foreign government in using chemical or biological weapons in violation of international law or in using lethal chemical or biological weapons against its own nationals shall be treated as constituting a breach of the peace that poses a serious and direct threat to the strategic interest of the United States, within the meaning of subparagraph (A) of section 6(p) of that Act.

(2) SANCTIONS APPLIED TO EXISTING CONTRACTS.—The sanctions described in paragraphs (1), (2), and (3) of subsection (a) shall apply to contracts, agreements, and licenses without regard to the date the contract or agreement was entered into or the license was issued (as the case may be), except that such sanctions shall not apply to any contract or agreement entered into or license issued before the date of the presidential determination under section 306(a)(1) if the President determines that the application of such sanction would be detrimental to the national security interests of the United States.

SEC. 308. PRESIDENTIAL REPORTING REQUIREMENTS.

(a) REPORTS TO CONGRESS.—Not later than 90 days after the date of the enactment of this title, and every 12 months thereafter, the President shall transmit to the Congress a report which shall include—

(1) a description of the actions taken to carry out this title, including the amendments made by this title;

(2) a description of the current efforts of foreign countries and subnational groups to acquire equipment, materials, or technology to develop, produce, or use chemical or biological weapons, together with an assessment of the current and likely future capabilities of such countries and groups to develop, produce, stockpile, deliver, transfer, or use such weapons;

(3) a description of—

(A) the use of chemical weapons by foreign countries in violation of international law,

(B) the use of chemical weapons by subnational groups,

(C) substantial preparations by foreign countries and subnational groups to do so, and

(D) the development, production, stockpiling, or use of biological weapons by foreign countries and subnational groups; and

(4) a description of the extent to which foreign persons or governments have knowingly and materially assisted third countries or subnational groups to acquire equipment, material, or technology intended to develop, produce, or use chemical or biological weapons.

(b) PROTECTION OF CLASSIFIED INFORMATION.—To the extent practicable, reports submitted under subsection (a) or any other provision of this title should be based on unclassified information. Portions of such reports may be classified.

SEC. 309. REPEAL OF DUPLICATIVE PROVISIONS.

(a) REPEAL.—Title V of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (Public Law 102–138), and the amendments made by that title, are repealed.

(b) REFERENCES TO DATE OF ENACTMENT.—The reference—

(1) in section 11C(a)(1) of the Export Administration Act of 1979, as added by section 305(a) of this Act, to the "date of the enactment of this section",

(2) in section 81(a)(1) of the Arms Export Control Act, as added by section 305(b) of this Act, to the "date of the enactment of this section", and

(3) in section 306(a)(1) of this Act to the "date of the enactment of this title",

shall be deemed to refer to the date of the enactment of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (Public Law 102–138).

And the House agree to the same.

DAN ROSTENKOWSKI,
SAM GIBBONS,
Managers on the Part of the House.

LLOYD BENTSEN,
BOB PACKWOOD,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE
